

. Customer: Hello. How may I help you?. Agent: Hi Brett!. Customer: Hey Joe, I just Placed an Order (1000023379) unforuntly i didnt realize that i had placed 3 of MCP-220-73301-0N in my cart, which are not compatible with my Server. . Agent: I see. Do you need to take those three items off your order ?. Customer: If you could, that would be great!. Agent: The only way to do this will be canceling the order and reorder again. Customer: thats fine!. Agent: You can cancel your order after login to your account https://store.supermicro.com/customer/account/login/referer/aHR0cHM6Ly9zdG9yZS5zdXBldm1pY3JvLnNvbS8_dXRtPWWhlYWRIcg%2C%2C/ Go to My account --> My orders. Customer: got it! very good, sorry I wasn't aware of that feature. Thank you so much!. Agent: No worries, Glad to help ! Can I help you with anything else?. Customer: No Thank You, Joe. 5 Stars. Brett Lovell left the following comment: Great Job!. Agent: You're welcome. Thanks! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Kyle, I bought a Quadro RTX 6000 for this server - SYS-1029P-WTRT Unfortunately it appears that i doesn't fit physically looking for assistance on what cards will work Thanks!. Agent: Hi Jon That's unfortunate, but let me check which cards are. Customer: Thanks man. Agent: On both our site and Nvidia, it looks like the only compatible one is the Tesla T4. <https://www.supermicro.com/en/support/resources/gpu> <https://www.nvidia.com/en-us/data-center/resources/vgpu-certified-servers/?manufacturer=Supermicro&Height=All%20Heights&CardModels=All%20Card%20Models> We don't carry any GPUs on the eStore so you'll have to check with distributors/resellers for that oen *one Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Will!. Customer: I'd like to order one server from you. where could I get quotation. . Agent: Do you have an eStore account created with us?. Customer: not yet. Agent: Please register an account and let me know your email address. <https://store.supermicro.com/customer/account/create/> We can grant you access to browse and configure our current server selection. . Customer: OK, just created an account willwang@picoai.tech. Agent: Please give me a moment while I check for you. . Customer: thanks, I like a quotation for 4124 and 4029-TRT2. Agent: Unfortunately, we don't carry the SYS-4029GP-TRT2 or 4124 on our eStore. However, we do have several system that might meet your qualify on our eStore. You now can be able to configure and see the price of our available systems on our eStore. Please log out and log back in to see this page <https://store.supermicro.com/system.html>. Customer: Hello. How may I help you? what's the server with GPU? Hello. How may I help you?. Agent: Hi Will!. Customer: Yes, where could I order 4124 or 4029 servers? No GPU is OK. Agent: I'm sorry, but unfortunately, we do not carry SYS-4029GP-TRT2 on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today?. Customer: that's fine. thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Michelle!. Customer: Hi. I'm looking to see if the MCP-290-00056-0N rail will work on my car-813m chassis. . Agent: Please give me a moment while I check for you. . Customer: Cse not car thanks. Agent: Yes, MCP-290-00056-0N will work with CSE-813M. Customer: perfect. My server rack is only about 22" deep, this rail will fit that right? Also, Do you take returns?. Agent: That I'm not 100% sure, but I believe it should be OK. Yes, you'll have 30 days from the day you received the product to return it. . Customer: ok. Thank you. Agent: No problem! Is there anything else I may help you with today?. Customer: Hello. How may I help you?. Agent: Hi Will. Customer: for your workstation 7049, do you have one to support PCIe Gen4 instaed of Gen3?. Agent:

Please give me a moment while I check for you. The PCIe that come with the motherboard is only Gen 3 unfortunately We have the PCIe Gen 4 workstation which is SYS-740A-T
<https://www.supermicro.com/en/products/system/Workstation/Tower/SYS-740A-T>
<https://store.supermicro.com/sys-740a-t.html> We also have the AMD workstation which also has PCIe gen 4: (AS -5014A-TT) <https://store.supermicro.com/amd-threadripper-workstation-as-5014a-tt-pre-config.html> It will be configurable by tomorrow. If you are interested in the AS -5014A-TT configuration, please come back tomorrow. Customer: How many GPUs they could be installed. Agent: Please give me a moment while I check for you. . Customer: Thanks Hello. How may I help you?. Agent: Hi Will! Please give me a moment while I check for you on the GPU For the AS -5014A-TT you can have 4GPU but will depend on which GPU you want to add And the SYS-740A-T can support 2 GPU You can also check GPU supports through this link <https://www.supermicro.com/en/support/resources/gpu> They will have more information about GPUs support for each system on this page Is there anything else I may help you with today?. Customer: That's it. Thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Bernhard!. Customer: Hi! I'd like to buy the OOB license für my server board, but in the checkout process I can only enter a US invoice address. How can I enter an international address? (I am located in Austria/Europe). Agent: Unfortunately, our OOB license is only available for US-based customers (US billing address) to purchase at this time. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> I apologize for the inconvenience. . Customer: Ok, thank you for the information! And have a nice day, Bernhard. Agent: No problem Bernhard! Thank you, and you as well!. Customer: Hello. How may I help you? Hi Joe Hope you are doing well I currently have a supermicro blade enclosure with 4 power supplies. One has failed and I am looking to buy a replacement This is the model <https://store.supermicro.com/2000w-blade-pws-2k01a-br.html> I see that it is out of stock Is there any possibility of restocking that item or any way I can purchase it from supermicro?. Agent: Please give me a moment while I check for you. . Customer: Sure, thank you. Agent: This item is running low but I can check to see if we can transfer one for your to purchase Can I email you after checking internally ? Is domenic.r@setplex.com the best email to reach you ?. Customer: Okay that'd be great thank you. Yes that email is best. Agent: You're welcome. Can I help you with anything else?. Customer: Nope, just looking to purchase this one item. Agent: Got it. Will you update with you via email. It was nice talking to you. Have a great day, goodbye!. Customer: Thanks you too! Hello. How may I help you? Hi I am looking for storage solution for our office. Can you give me an advice on that?. Agent: Hi Eugene Sure How many drives were you planning to have? What form factor chassis/case did you want? Do you have an eStore account with us already so that you can browse our selection?. Customer: I am thinking about up to 24 hot swappable 3.5" SATA drives, with 2x2.5" SSDs. Agent: Oh ok, thanks! We may have a server that has those specs. Meanwhile, can you create an account so that I can provide you access? <https://store.supermicro.com/customer/account/create/>. Customer: will do just created an account. Agent: Ok thanks with this email address? eugenek@safeai.ai. Customer: yes. Agent: Ok found it, took awhile to refresh. You should have access now. Please log into your account to view the Servers tab So I was checking what we can offer and I'm sorry, the 24 Hot-swappable drives were for 2.5" ones. The closest server that we can offer is a 45 drive bay. . Customer: another option would be 24 3.5" drives with expansion later. Agent: The only 24 drive bay options we currently have are for 2.5" drives. T he 12 drive bay option is what we can only offer for 3.5", then it jumps to 45 unfortunately. Let me check if we have any upcoming ones though down the road. Customer: can you send me the spec for 45 drives?. Agent: Sure Our SSG-6049P-E1CR45H does support up to 45 3.5" or 2.5" drives, 12 just need to be

occupied at the minimum. <https://store.supermicro.com/supermicro-4u-superstorage-server-ssg-6049p-e1cr45h.html> it has 2 x rear drive slots for SSD as well Also 6 internal drives as well Do you plan on using up to 24+ drives? This would be ideal for future expansion in this case. Customer: Let me check. Agent: Ok The 6 internal drives are for NVMe btw and non-hot swappable. Customer: How you swap the drives? Do you need to remove the cover ?. Agent: For the 45 drives, they are hot-swappable from the top. The internal NVMe drives, you will have to though. Customer: Another question. Will it support JBOD configuration?. Agent: Let me check on that. Customer: also, does it come with OS?. Agent: Windows Server 2019 can be added. For other OS, you will have to install yourself. . Customer: I am thinking on TrueNAS on BSD. Agent: This doesn't look to have JBOD capabilities unfortunately. . Customer: Any other JBOD capable models?. Agent: Not sold from the eStore. You'd have to check with our Sales team on those options.

<https://www.supermicro.com/en/products/chassis?pro=filter%3Dfeature%26feature%3DJBOD> Sales-USA@supermicro.com The servers we carry on the eStore don't have the expander backplanes needed for JBOD functionality Well the 45-bay and 60-bay do but internally for the amount of drives they support within themselves. Customer: Great! Thank you very much. I'll try to reach sales dept. . Agent: Sounds good, you're welcome! If you have any other questions, let me know. . Customer: this server looks promising:

<https://www.supermicro.com/en/products/chassis?pro=filter%3Dfeature%26feature%3DJBOD>. Agent: Which model? It took me to the general page showing all of them. Customer: SuperChassis 946LE1C-R1K66JBOD Can you quote it?. Agent: I can't from our end since we don't offer this particular one on the eStore. Please check with our Sales team on this. . Customer: Got it. 👍 . Agent: Np! Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Michael. Customer: Di you ship to Australia?. Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: OK thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: Not today. Only suggest that the US shipping policy only changeds to International as well. . Agent: I will pass your suggestion Thank you. It was nice talking to you. Have a great day, goodbye!. Customer: thanks, by Hello. How may I help you?. Agent: Hi Valeriu!. Customer: hello Jim. Agent: How can I help you?. Customer: I have a motherboard X9DRi-LN4F+ 2 processor - E5 2679v2 I can't find a memory for her ???. Agent: What capacity memory are you looking for? And what speed?. Customer: 32 Gb - LRDIMM !. Agent: OK, please give me one moment to check. It looks like there's only 1 32GB LRDIMM that's been validated for your motherboard: MEM-DR332L-SL05-LR16 It's a 32GB DDR3-1600 4Rx4 LP ECC LR DIMM You will have to check with our resellers for availability since we don't carry it on our eStore. <https://www.supermicro.com/en/wheretobuy>. Customer: Such memory can be filled in all 24 slots ???. Agent: Yes, you should be able to fill all 24 slots with this memory. Is there anything else I may help you with today?. Customer: That is, it works in rank 4 !! ????. Agent: Yes, this is a rank 4 DIMM. Customer: But there is one that works in Octal ????. Agent: I'm not sure what you mean?. Customer: What can you say about her ???. Agent: Are you asking about other LRDIMMs with lower rank? I'm not understanding your question, sorry. Customer: I also do not understand the drawing from the document !. Agent: What document are you referring to?. Customer: https://www.supermicro.com/support/resources/memory/X9_DP_memory_config.pdf E5-2600 v2 (Ivy

Bridge) Socket R Memory Configuration !!!.

Agent: So from my understanding, each CPU can support 12 quad rank DIMMs. Since you're using 2 CPUs, you can support 24 total, which is all of the slots on the motherboard.

Customer: Ranks per DIMM - Octal & Quad = Maximum LRDIMMs per CPU 12.

Agent: Right, so each CPU supports 12 total DIMMs, and with 2 CPUs in your system you can support a total of either 24 octal or quad rank DIMMs.

Customer: is everything right ?? but is it one and the same memory - or is it different ??.

Agent: We don't recommend mixing and matching memory so you'll have to use the same one. So all 24 would have to be quad rank or all 24 would have to be octal rank In this case, if you're going with MEM-DR332L-SL05-LR16, all 24 should be MEM-DR332L-SL05-LR16. .

Customer: OK, thanks - Jim !!!.

Agent: No problem Valeriu! Is there anything else I may help you with today?.

Customer: No, thank you very much !!.

Agent: It was nice talking to you. Have a great day, goodbye!.

Customer: 🙌

Hello. How may I help you? Hello, I currently have a 846BA-R920B with the redundant 920W PSUs and I was wondering if a higher wattage PSU is compatible with it and the current power distributor. .

Agent: Hi Chandler I can check, please give me a moment.

Customer: Thank you.

Agent: How much higher wattage are you looking for?.

Customer: Probably around 1280W. .

Agent: Ok thanks PWS-1K21P-1R is the closest one, but we are currently out of stock. The next one up is 1400W

<https://store.supermicro.com/1200w-1u-pws-1k21p-1r.html> The 1400W option is also out of stock unfortunately. PSU shortages unfortunately.

Customer: Ok, do either of these come in the quiet version as well or is that not an option on these? And that's okay, planning for an upgrade and not in a rush. .

Agent: There's PWS-1K41P-SQ, but it looks to be EOL (end of life) so it doesn't look like there is a SQ version with higher wattage that is compatible unless you search for that 1400W version from our resellers/distributors PWS-1K28P-SQ may also work actually, it wasn't listed for me Also out of stock, but you can search for that too.

Customer: Perfect, thank you for the part numbers!.

Agent: You're welcome! You're best option looks to be the 1280W one followed by the 1400W for the SuperQuiet versions Can I help you with anything else?.

Customer: That's everything, thanks!.

Agent: Np! It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you? Hi, do you have fan : 0126L4 in stock?.

Agent: Hi Abdur! May I know where you are located?.

Customer: Toronto, Canada.

Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability.

<https://www.supermicro.com/en/wheretobuy>.

Customer: Thanks.

Agent: You're welcome. Can I help you with anything else?.

Customer: No , thanks. I will check first this fan and will jump to next fan later on.

Agent: You're welcome. I see. It was nice talking to you. Have a great day, goodbye!.

Customer: Bye

Hello. How may I help you? Hi there! I ordered something yesterday around 1pm central time and paid for overnight shipping. I see it's status is still at 2, 'In Warehouse'. .

Agent: Hi Gabriel The system is still being built. Once it is built within the next day or 2, it will ship out with overnight shipping. You will get a shipping confirmation once it has ship. .

Customer: Mmmm... This is unclear. A the top of the item, it says "Ships within 3-5 business days" and "In Stock". On the shipping methods page, it has 'Standard (3~5 business days)' and then 'Overnight (Next business day)'. No where on here does it indicate that there are additional days for assembly. The closest thing is the "All Supermicro desktop/workstation systems sold in the North America are assembled and tested at our production facilities in San Jose, CA Headquarters." But this still doesn't clarify that.

Agent: Yeah understandable, I apologize for the confusion. Yeah it typically takes 1-2 business days for assembly. .

Customer: The issue is I will be out of town when it is delivered now. I'll see if I can figure something out with a friend, but I wish I knew this ahead of time so there's not a desktop sitting in front of my door for 2 days. I know that isn't your fault though. .

Agent: Oh no, that's unfortunate. Hopefully that's not the case, or your friend can

accommodate for your delivery. . Customer: Could you pass my complaint along to someone who can clarify this for future purchasers? Just a "Takes 1-2 days to build in addition to shipping time" on the product page and/or shipping page?. Agent: Yeah I just passed my concern to management as well. on this very line. Customer: Thank you!. Agent: You're welcome. Customer: Do you happen to know if the packages are usually delivered in the morning or evening for next day delivery, or does that just vary a lot? To try to coordinate with a friend to grab it. . Agent: For overnight delivery, it can vary so I'd recommend checking what's on the FedEx site. If it was priority overnight, it would deliver by 10:30AM local time. They usually deliver morning/noonish from my experience but it can vary depending on your area. . Customer: Oof.. they'll all be at work, but hopefully it works out! At least it's not for the whole weekend. Anyway, I appreciate that help, Kyle! I'm optimistic it won't be an issue!. Agent: NP, of course and I sure hope its not an issue! Again, I apologize for the confusion and hope we can get this wording updated on our end. . Customer: Thanks, Kyle! Have a good day, sir!. Agent: Thank you! It was nice talking to you. Have a good day as well, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Steve!. Customer: Hello Liz! I'm looking for a way to convert this chassis into a low profile rear breakout. I know this item I'm looking for is not to be found in your eStore. But I'd like to see if this is possible?. Agent: Please give me a moment while I check for you. Can you please explain a little bit for the low profile rear breakout?. Customer: This would be the entire rear bracket, which would convert from 802WB to 802LPB style bracket. The bracket is removeable on the CSE-825MBTQC-R802WB, and does seem to be exactly compatible with the LPB bracket provided in model # CSE-825MBTQ-R802LPB. . Agent: I see. I could check internally for this. Can I email you back via email swilliams@nverzion.com? Thank you for your information. Customer: Yes, absolutely. Thank you Liz!. Agent: You're welcome. . Customer: If this is possible, I would likely need ten of these brackets total. . Agent: Sound good! I will email you back as soon as I can. Is there anything else I may help you with today?. Customer: That is all for now!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You too, goodbye. Agent: Thanks. Customer: Steve Williams left the following comment: Liz is amazing! Hello. How may I help you? I am trying to find out if I can have one of the SNK-P0078AP4 overnighted to me so I can have it for tomorrow and the cost. . Agent: Hi Sarah. I'll have to check on our inventory since we're currently out of stock. Customer: I did place two orders and one was schedule to arrive yesterday and didn't show and the other is scheduled to arrive on Monday. I am just trying to locate one for testing. . Agent: Ahh OK. I can definitely transfer an additional unit over so you can purchase, but the window for the transfer + purchase + shipping cut off might be pretty tight since our shipping cut off is 3:30 PM. As long as the transfer and order is placed before that, it should arrive tomorrow if you choose overnight shipping. . Customer: Do you know how many you can transfer for purchase?. Agent: How many did you need for tomorrow?. Customer: I really need one by tomorrow. . Agent: We can definitely do one. . Customer: do you have an additional 30 that can be transferred in addition to the one. There would be no rush for the additional 30. Agent: Yes, we should also be able to accommodate that. I'll put the transfer request in now and follow up with you via email once it's completed. . Customer: Great, thank you so much. . Agent: No problem Sarah!# Is there anything else I may help you with today?. Customer: no that is all. thank you. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? ANY PROMO CODE?. Agent: Hi Javiela ! I am sorry but we don't have an coupon code available at the moment Can I help you with anything else?. Customer: Hello. How may I help you? Hi Kyle, do we have OOB license key installed with the 4124GSTNR chassis? or we need to buy these key separately?. Agent: Hi Juan It would depend if you purchased it along with your server from your reseller or Sales person. Do you have the serial number of the system?. Customer: Sure give me a sec S404070X1907784.

Agent: Thanks. Customer: PO# SMC100721 theres a bunch of SN on that PO just wanted to double check if they have OOB licensed installed. Agent: it does have OOB installed on it. Customer: Thanks for checking. Agent: You're welcome I would hope all of them do in this case. Customer: got it - thank you so much!. Agent: Np! Can I help you with anything else?. Customer: 1 more thing please. Agent: Sure. Customer: Need ah Mini-SAS to SlimSASx4 cables to connect the RAID card le tme get the SN of the machine. Agent: ok. Customer: 1114CS-TNR S452392X1C09438. Agent: Thank you, please give me a moment while I check mini-SAS HD or just mini-SAS? The only one we carry is this one: <https://store.supermicro.com/supemicro-slimline-sas-x8-le-to-2x-minisas-hd-70cm-cable-cbl-sast-0826.html>. Customer: sff 8643 to mini sas does it exist? oh this one. Agent: 8643 is miniSAS HD so miniSAS HD to miniSAS? so the backplane is slimline but the AOC is miniSAS? looks to be miniSAS HD on that AOC. Customer: yep. Agent: It looks like the optional part that our product page list is CBL-SAST-1260-100 MiniSAS HD x8 (LE) to 2x Slimline x4 (STR),60CM. Customer: is it available in estore?. Agent: We don't carry this one on the eStore unfortunately so you'll have to check with our distributors for that <https://www.supermicro.com/en/wheretobuy>. Customer: got it thank you!. Agent: You're welcome Is there anything else I may help you with?. Customer: How can we check in our end for future reference, if OOB is installed is it visible somewhere in the IPMI web GUI?. Agent: Yeah it should show as activated <https://store.supermicro.com/software/out-of-band-oob-key-activation-guide> under license activation, the license key SKU should show up. Customer: Thank you. Agent: you're welcome Anything else I can help you on?. Customer: That would be all thank you Kyle. Agent: Np! It was nice talking to you. Have a great day, goodbye!. Customer: you too. thanks! juan ciriaco left the following comment: Good customer support Hello. How may I help you? Hello. How may I help you?. Agent: Hi Edward!. Customer: I am looking to get price availability for a MBD-X12SAE motherboard. Agent: I'm sorry, but unfortunately, we do not carry any motherboards on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> You can also try checking with our Sales team: Sales dept: Sales-USA@supermicro.com Tel: +1-408-503-8000 Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi, I have a customer with SYS-6019P-WTR and they have a PSU failure. The original PSU is PWS-706P-1R which is not available the recommended one it looks like is PWS-860P-1R2. Is that correct? and if replacing only 1 PSU with the newer model(PWS-860P-1R2) is that going to work? Or do both PSU's need to be replaced to the new model?. Agent: We recommend to use identical power supplies I can check if we can get 1 pc PWS-706P-1R for you. . Customer: thank you. Agent: You're welcome. I will update with you via email. Is matt.depaepe@mbx.com the best email to reach you ?. Customer: yes it is, thank you. Agent: You're welcome. Can I help you with anything else?. Customer: that was all i needed. have a great rest of your day. Agent: It was nice talking to you. Have a great day, goodbye! Thanks!. Customer: Matt left the following comment: Very helpful Hello. How may I help you?. Agent: Hi Shannon!. Customer: I am trying to find a rail kit compatible with the X418G-X11 4U server chassis. Agent: May I know the full part number of your server chassis or it's serial number please?. Customer: That is the model number. Agent: I'm sorry I could not find any server from the X418G-X11 Can you please provide the serial number of it by follow this <https://www.supermicro.com/en/support/rma/sn?>. Customer: Looking it up now Sys4029gprt. Agent: Thank you! Please give me a moment while I check for you. You can use the MCP-290-00057-0N <https://store.supermicro.com/4u-5u-rail-kit-mcp-290-00057-0n.html>. Customer: Thank

youi. Agent: and the MCP-290-00060-0N -Threaded rail adapter default for round hole rack if needed <https://store.supermicro.com/rail-kit-adapter-set-mcp-290-00060-0n.html> Is there anything else I may help you with today?. Customer: That is it. Thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jason!. Customer: Can I get a tracking number for my most recent order?. Agent: Sure what is the order number please ?. Customer: Invoice #1000019974. Agent: <https://www.fedex.com/fedextrack/?trknbr=979070769750&trkqual=12021~979070769750~FDEG> It was delivered Sunday, 5/16/2021 at 10:49 am. Customer: That is not my order. . Agent: 1000019974 Correct?. Customer: I gave you the invoice number. I now see the order number. Order # 1000023392. Agent: 1000023392 was placed this morning at 6:43 am PST time. Customer: That sounds correct. Agent: One moment When the order is shipped out later today, the tracking info will be ready in your eStore account https://store.supermicro.com/trackorder/?order_id=1000023392&email_address=jbreitman@tildenparkcapital.com&submit=submit. Customer: ok. Will I receive an email letting me know?. Agent: One moment Yes you will get an email notification. Customer: great. thanks. . Agent: You're welcome. Can I help you with anything else?. Customer: Hello. How may I help you? I'd like to register our Supermicro systems on our account, but I don't have any documentation of our. Customer ID. Can you help me with that?. Agent: Hi Chris Did you purchase these systems directly from Supermicro Sales team or from resellers?. Customer: Through a reseller, Dynamic IT I have the reseller's quote/invoice. Agent: Unfortunately, only direct Supermicro customers can register their systems currently. Not sure when or if there is an ETA for including reseller ones. You'll have to check with your reseller for any warranty information. Customer: Got it. Thanks for the clarification!. Agent: You're welcome! Can I help you with anything else?. Customer: That's all for today. Thanks. Agent: Sounds good. It was nice talking to you. Have a great day, goodbye!. Customer: Chris Zappe left the following comment: Quick and knowledgeable answer to my question. Thank you! Hello. How may I help you?. Agent: Hi David. Customer: I have a failing power supply that I want to replace. Can you suggest an alternative. . Agent: Sure, let me check for you. The alternative power supply for the PWS-351-1H is PWS-350-1H https://store.supermicro.com/350w-1u-pws-350-1h.html?queryID=6d0623cdfde75c22d5ed115329206ef0&objectID=697&indexName=supermicro_default_products Is there anything else I may help you with today?. Customer: It says out of stock. Are you getting more. . Agent: It's running low in stock currently, but we might can get more. May I know where are you located please? The reason I asked that our eStore currently only sells and ships within the US. We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi David!. Customer: How long would it take to get a PWS-351-1H Power supply shipped to Japan? It also says the product is currently out of stock. . Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: ok.. thank you. Agent: No problem Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email. Customer: Hello. How may I help you? I never received an email stating that my order has been shipped. Can you check?. Agent: Please give me a moment while I check for you.

Customer: great thanks. Agent: You're welcome. Can I help you with anything else?. Customer: That is all. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? My server chassis is missing the PCIe expansion card retaining clip. Is it possible to purchase a replacement?. Agent: Do you have a part number?. Customer: I believe it's MCP-290-51001-0N, but I'm not entirely certain. . Agent: What is the chassis complete part number please ?. Customer: 5018D-FN4T 610aa: Please give me a moment while I check for you. . Agent: PCIe expansion card retaining clip doesn't have a part number but I think you can check with RMA to see if they sell that part RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3. Customer: It's listed as P/N MCP-290-51001-0N on the website
<https://www.supermicro.com/en/products/chassis/1U/510/SC510T-203B> Sorry- wrong link!
<https://www.supermicro.com/en/products/chassis/Mini-1U/505/SC505-203B>. Agent: Got it ! I'm sorry, but unfortunately, we do not carry MCP-290-51001-0N on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: ok, thanks!. Agent: or you can check with RMA RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3 You're welcome. Can I help you with anything else?. Customer: Nope, that's all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Have a great day. Agent: Thanks!. Customer: Hello. How may I help you?. Agent: Hi Gijs!. Customer: I am wondering where I can purchase aan OOB licence. I am in the Netherlands, Europe, but in my SuperMicro account I can only enter a US address. Consequently my credit card payment does not follow through. . Agent: I see We do carry OOB but we only can sell to US customers since our system rejects non-US credit card payments Do you have an US credit card (tied to a US billing address)?. Customer: Do you happen to know a non US SuperMicro web-site where it can be done?. Agent: We don't have that unfortunately. You can always purchase OOB through resellers though. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Ok. I will try that. Thanks for your help!. Agent: You're welcome. Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email. Customer: Hello. How may I help you? Hi Kyle. I wanted to know if the store sells the motherboard 'X11SCL-LN4F'. Agent: Hi John I'm sorry, but unfortunately, we do not carry any motherboards on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Ok, thank you. . Agent: You can also try checking with our Sales team at Sales-USA@supermicro.com if needed You're welcome Can I help you with anything else?. Customer: Thanks it. Take care. Agent: Thanks! It was nice talking to you. Have a great day, goodbye!. Customer: John Delaney left the following comment: quick and very helpful Hello. How may I help you? I have a x9scm-f Rev 1.1 motherboard. The chipset fan is making a noise. I'm afraid it will stop and overheat. Where can I purchase a new fan?. Agent: Hi Stephen! Would you happen to know your chassis SKU? Our fans are generally recommended based off chassis compatibility. Customer: Where would that be located. Agent: You can refer to our serial number guide here to locate a serial number: <https://www.supermicro.com/en/support/rma/sn>. Customer: OK i'll go look hang on. Agent:

OK, thank you Stephen. Customer: Ok I'm back the serial number is zm19u37579. Agent: Thanks Stephen. Give me one moment to look this number up. Customer: there is a long number under a barcode if you need it. Agent: It looks like this is the serial number for the motherboard and I couldn't find a chassis associated to it. Is this motherboard housed in a supermicro chassis?. Customer: there is also a IPMI number I'm not sure, that is what the sticker said stuck on the motherboard. Agent: OK, lets try something else. Does your chassis look like any one of these 3 below?

<https://www.supermicro.com/en/products/chassis/1U/113/SC113MTQ-330CB>
<https://www.supermicro.com/en/products/chassis/1U/512/SC512F-350B>
<https://www.supermicro.com/en/products/chassis/1U/813/SC813MTQ-350CB>.

Customer: No It is a separate motherboard we purchased from newegg and we installed it into a tower. . Agent: Ahh OK. Customer: The mother board is stamped "Super X9SCM-F". Agent: Right, but even knowing the motherboard model, we wouldn't want to recommend a fan that wouldn't fit into your chassis. That's why we generally need to know the chassis make/model as well. Customer: What do you mean by chassis. Agent: The chipset fan you're looking for, is it for an active heatsink? or just a standard 40mm chassis fan the tower/barebone enclosure. Customer: It clipped directly onto the mother chipset I think it was like that when be bought the motherboard It has a little bar that fits across it and holds it down I notice online that the revision 1.2 does not have a fan. It just has a heatsink. Agent: Yea, I think that might be why I'm having trouble locating a part number for this fan. Customer: It might be too old. Agent: It might be best for you to check with our technical support team. They might be able to help you out. Tech Support: Support@Supermicro.com 1-408-503-8000 I apologize for the inconvenience!. Customer: OK i'll give them a call thank you. Agent: No problem! Is there anything else I may help you with today?. Customer: no thanks. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Clair!. Customer: Hello, we are looking to buy some SYS-E100-9W-H from the store. The spec sheet says the Mic-In & Line-Out are optional, and we need them. Do the SYS-E100-9W-H in the store include them?. Agent: Please give me a moment while I check for you. . Customer: Thanks!. Agent: Can I get back to you on this ?. Customer: Yup do you think my tomorrow?. Agent: I want to check what parts you need for Mic-In & Line-Out I am hoping I can get an answer by today. Customer: Perfect, thanks so much. Agent: Is networkreg@clairglobal.com the best email to reach you ?. Customer: Can you send it to slowe@clairglobal.com. Agent: How many SYS-E100-9W-H are you looking to purchase? Sure thing. Customer: 10. Agent: Sounds good. Let me check internally and get back to you as soon as I can Can I help you with anything else?. Customer: Nope, thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello, can you please transfer me to Jim?. Agent: Hi Lea Jim is away for lunch right now. Can I help you with your request or did you want to check back later when he is back?. Customer: maybe you can... one of my customers is looking to buy a system SYS-740GP-TNRT GPU SKU number 10021520 plus a MB X12DPG-QT6. Is it available?. Agent: We don't carry this particular workstation as the closest one we have is SYS-740A-T, which has X12DAI-N6 installed.

<https://store.supermicro.com/sys-740a-t.html>. Customer: What is the price of that one?. Agent: At lowest cost, it would be around \$3,900 before tax. Shipping would be free with standard ground shipping, otherwise, anything faster would also cost extra. Customer: I don't pay tax because it is for resale. Agent: If you have tax exempt, we'd refund you the tax you paid on it as well in that case. Customer: Do you have it in stock for immediate delivery?. Agent: We do have it in stock, ready to be configured, and ship out 1-2 business days after it has been built. . Customer: what is mandatory to have in it, just the minimum?. Agent: So if you purchase it, it will take 1-2 business days to assembly build,

then it would ship out. let me check That's the minimum, 2 CPUs, 2 memory, 1 2TB HDD We also have this new AMD workstation available as well: <https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html> Starting today. Customer: OK, let me tell my customer and see if it fits his needs, I will get back to you guys. Thanks Kyle!! Happy New Year!. Agent: Sounds great! You're very welcome! Happy New Year as well! I'll let Jim know as well, have a great day!. Customer: You too! Lea left the following comment: Always great customer service! Hello. How may I help you?. Agent: Hi Hal. Customer: Can I purchase a pedestal by itself. Agent: Can you explain a little bit for pedestal please?. Customer: in the past I purchased a CSE-743TQ-865B-SQ Pedestal Server Case, I don't see where I can purchase a case without building a server. Agent: Oh. You mean the chassis. Customer: yes. Agent: I'm sorry, but unfortunately, we do not carry chassis on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: They are hard to come by even through distributors like NewEgg. Agent: I see. You also can contact with our sale team Sales-USA@supermicro.com for chassis. Customer: Ok thanks goodbye Hello. How may I help you?. Agent: Hi Thibault !. Customer: Hi there, I am trying to order 2 of these MCP-320-81302-0B but the website says that only 1 available but I need to contact support as you might have enough in inventory. Agent: I see. I can request more and email you when the stock is ready Is ravera.thibault@gmail.com the best email to reach you ?. Customer: Yeah. Agent: Thanks! I will email you when they are ready Can I help you with anything else?. Customer: No that's all Thanks!. Agent: It was nice talking to you. Have a great day, goodbye! You're welcome. . Customer: Hello. How may I help you?. Agent: Hi Toni. Customer: Hi... im in canada and want to get some parts.. when buying from this website do the parts come from US or Canada?. Agent: The part will come from the US. But unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: ok ... Agent: I'm sorry for the inconvenience. Customer: also can you check canadian stock availability on your end?. Agent: I'm sorry, but we don't have any information of our resellers stock. Please check with our resellers in Canada for availability. . Customer: ok Hello. How may I help you?. Agent: Hi Cory !. Customer: Hello. I'd like to order the SuperCap/CasheVault for a server I just purchased. I cannot find it listed anywhere on the store. The MB is X10DRH-CT. Agent: I'm sorry, but unfortunately, we do not carry CasheVault on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: OK.. Thank you. . Agent: You're welcome. Can I help you with anything else?. Customer: Nope. I'm good. Have a great day!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Steve. Customer: Hello I just had a question about the rail pieces. Some of the rails are missing that little silver quickconnect bracket at either end of the rails. Is there somewhere I can buy just those little silver pieces?. Agent: May I know the part number of your chassis please?. Customer: you want the sys-1028gr-tr. Agent: yes, the system part number also good. Thank you for the information. Please give me a moment while I check for you. Your rail set is the MCP-290-00054-0N. Do you have all the component shows as picture?. Customer: okay so those silver pieces at the end of the bracket (that have two square notches) that initially secure the rail to the 42U rack. I'm missing those. Is there a way to get just those pieces. Agent: I see. Please give me a moment while I check for you. Unfortunately, we don't have the part number for those square notches. You can try contact the RMA department to see if they sell that part RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3. Customer: okay it was worth a shot. Thanks much I appreciate you. . Agent: You're welcome. Is there anything else I may help you with today?. Customer: not today. Agent: It was nice talking to you.

Have a great day, goodbye!. Customer: Hello. How may I help you? Looking for a compatible Hot-Swap 3.5" Hard Drive Tray. Agent: Hi Bob! For the SSG-520P-ACTR12H?. Customer: yes. Agent: Please give me a moment while I check for you. You can use MCP-220-00075-0B <https://store.supermicro.com/mcp-220-00075-0b.html>. Customer: great thank you. Agent: No problem! Is there anything else I may help you with today?. Customer: just have a nice weekend!!. Agent: Thanks, you too Bob!. Customer: Bob left the following comment: Jim was able to answer my question quickly Hello. How may I help you?. Agent: Hi Lyndell!. Customer: Hello I'm trying to get details on the add on network cards for the SYS-5019P-M system In the configurator, it simply says 10G 2xRJ45 Ethernet Adapter I'd like to know the specifics of that adapter, and if that doesn't fit the needs, how would I determine a compatible SuperMicro adapter to go with that server. Agent: What do you need as a network card?. Customer: I'm looking for the capabilities of the card, what controller it's using. I'm interested in cards that support SR-IOV, among other capabilities. Agent: It uses Intel X550-AT2 Here is the link to the card https://www.supermicro.com/wdl/Networking_Drivers/CDR-NIC_1.62_for_Add-on_NIC_Cards/MANUALS/datasheet-AOC-STGS-i2T-i1T.pdf. Customer: Ok, so we are saying the add-on card to the SYS-5019P-M SuperServer is the AOC-STGS-i2T/i1T correct?. Agent: It is AOC-STGS-i2T, yes. Customer: If so I believe that will meet the needs, I'll need to do some further confirmation but at least I have something to research now Perfect, that's all I needed to know. Agent: Sounds good. Customer: Thank you for your support. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Thanks, you too Lyndell Hockersmith left the following comment: Knowledgeable and fast. Hello. How may I help you? Are the fans hot-swappable on this model. Agent: Hi James Let me check The middle fans are hot-swappable. Customer: it is fan A. Agent: <https://store.supermicro.com/80mm-fan-0158l4.html> Yeah any of the 3 can be hot-swapped. Customer: They do look like from the picture. I have not been on site yet. Agent: Is there a failed one?. Customer: Fan A. Agent: Oh ok understood You should be fine hot-swapping that one then with the model I linked. Customer: OK thank you!. Agent: You're welcome! Can I help you with anything else?. Customer: no I am good and happy new year. Agent: Thank you! Happy New Year as well! It was nice talking to you. Have a great day and weekend, goodbye!. Customer: Bye Hello. How may I help you? Looking to see what SuperMicro has for 1u servers with NVMe storage. . Agent: Hi Stanley! These servers would most likely be your best option: <https://store.supermicro.com/ultra-server-1u-sys-1029u-tn10rt.html> <https://store.supermicro.com/ultra-server-1u-sys-1029u-tr4.html> <https://store.supermicro.com/sys-120u-tnr.html> I believe the only model we have readily in stock is the 1029U-TR4 There's this one as well. <https://store.supermicro.com/sys-120c-tn10r.html> It's a good mix of price + performance. The Ultra servers I provided above are pricier compared to the 120C-TN10R. Customer: looking at what you sent Under storage for the sys-1029u-tr4, it has storage 1TB M.2 XG6 NVMe Solid State Drive is this a true NVMe and just in the m.2 format?. Agent: Please give me a moment while I check for you. Please bear with me for a few more minutes while I check for you. Yes, it's an NVMe in M.2 format Although the 1029U-TR4 isn't really optimized for NVMe now that I'm reviewing the configuration. You would only be able to add up to 3 of those drives The 120C-TN10R is one of our newer gen servers and it's optimized for up to 8 NVMe drives. Customer: great fun with the configurator. all the NVMe drives on the 120c-tn10r are out of stock. hard to get prices that way. . Agent: Let me check on that real quick. Which drive were you trying to select?. Customer: I tried all of them under NVMe there were ones under m.2 that were available. Agent: Ahh OK. I think I see the issue. The required cable for these drives is out of stock, but we've just updated the inventory internally. It might take a few minutes before that gets reflected on our website though If there's a specific drive you're interested in, I can double check

on the inventory for that while we wait for our system to update?. Customer: lets just check for the 1.92TB 2.5" CM6 NVMe PCIe 4.0 Solid State Drive (1 x DWPD). In the 960GB 2.5" CD6-R NVMe PCIe 4.0 Solid State Drive (1 DWPD) what does the -R mean?. Agent: OK, I'll check the 1.92 TB CM6. For the -R, I believe that's something designated by the manufacturer (Kioxia), so I'm actually not sure, but speedwise the CM6 is much faster than CD6. We have enough in stock for the 1.92TB CM6. Customer: I missed the CD6 vs CM6 I thought they were both CM6 and that the -R was read optimized. . Agent: Ahh OK Could you do a hard refresh of your browser (hold CTRL+F5)? You should be able to select that drive now. . Customer: What is the price of the 1.92Nvme drives?. Agent: Looks to be \$535 per drive. Customer: That worked. Thank you. . Agent: No problem!. Customer: What is the Rackmount Keyboard and Mouse Combo and I assume all servers come with rackmounts. Agent: It's just a keyboard and mouse combo that's included with our servers. Unfortunately, the mouse isn't pictured, but that's what the keyboard would look like Actually, I stand correct. The mouse is built in as a touchpad. . Customer: looks like a trackpad at the bottom. Agent: My mistake You should be able to configure this system now and the pricing reflected should be accurate If you configure something that you like, I should note that we can build and ship this system within 2-5 business days. . Customer: Sounds fine. Still trying to find out requirements from my customer on drive space needed. Thank you for the help. . Agent: No problem at all! Can I help you with anything else?. Customer: Can I have the cart sent to me or saved somehow?. Agent: Yea, access your cart again in the top right and on that screen, there's a Save Quote option that will save it as a PDF. Customer: Thanks again. . Agent: No problem!

<https://store.supermicro.com/checkout/cart/> Is there anything else I may help you with today?. Customer: Nothing else now. Comparing vendors is like comparing apples to oranges. Can be difficult. . Agent: I know exactly what that feels like 😊 Anyways, it was nice talking to you. Have a great day, goodbye!. Customer: You have a good day also. Goodbye. Stanley Weillnau left the following comment: The advisor was very helpful. Hello. How may I help you?. Agent: Hi Stephen!. Customer: I had a few servers in my cart and it seems that some of the parts are out of stock. . Agent: May I know what parts are those? Which servers are those also please?. Customer: SYS-2029U-TN24R4T It doesn't tell me which components are out of stock for my desired conf configuration. Agent: How many SYS-2029U-TN24R4T are you looking for ?. Customer: 1. Agent: Can you screen shot the message?. Customer: and 2 SYS-6019U-TR4 yeah, one sec. Agent: Please give me a moment while I check for you. . Customer: thank you. Agent: Was it a pre-config link ?. Customer: it was a build I created for both. Agent: When I tried to add 16 GB memory following your config, the 16 GB doesn't show on the list.

https://store.supermicro.com/ultra-server-1u-sys-6019u-tr4.html?queryID=184e2d240397d2ce438b85ac587f3a01&objectID=2634&indexName=supermicro_default_products. Customer: It looks like the 16GB of ram isn't available anymore along with the 3.2TB NVMe drives. Agent: Yeah, we might have had changed some options under memory Do you want to stick to your configuration ? I can see if I can make the pre-config links for you in this case. Customer: I would prefer my configs, but if you can't match them 100%, I would prefer something comparable for the same price, ie 12x16GB RAM 192GB total, or 24x8GB RAM for 192GB total. Agent: Got it ! So 2 pcs SYS-6019U-TR4 and 1 pc SYS-2029U-TN24R4T. Correct?. Customer: switching to 8GB sticks kinda screws me for the future upgrades though. Agent: Yeah I get what you mean. Customer: yes. Agent: Let me work on the pre-config following your preferred config and go from there. Customer: Thank you. Agent: Can I email you via slewis@bitdefender.com?. Customer: yes. Agent: Thanks! I will email you as soon as I can Can I help you with anything else?. Customer: Do you have pricing info for the onsite service stuff?. Agent: No, unfortunately eStore doesn't have onsite service available and we wouldn't know the pricing

either. Customer: Ok, that's fine. I sent an email asking for more info from them and never heard back. . Agent: Who did you email ?. Customer: onsiteservice@supermicro.com. Agent: I see. I can email them as well. Hope that will help. . Customer: Thank you. Agent: You're welcome. Is there anything else I may help you with today?. Customer: Nope, that's it. Thank you. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Is it possible to get a replacement bracket for the 2U cable management arm that connects to a 836 chassis? We have the arm and the chassis side bracket for a different chassis. . Agent: Hi Zack So like one of the brackets included in our cable arm management?. Customer: Yeah, I think the original installer threw it away, and we're reusing the arm after upgrading a server. . Agent: Oh I see, that's unfortunate. Unfortunately, we only sell as a complete cable management kit. You may have to check with our RMA team at rma@supermicro.com if they have any spare ones that can sell or provide. Otherwise, you may have to purchase the whole kit again. . Customer: I'll keep looking around for it and if I don't find it soon I'll reach out to the RMA team. Thank you. Agent: Ok sounds good. Let me check for an actual part for the brackets just in case Was it for MCP-290-00073-ON? that's the cable arm you were looking at?. Customer: Yeah. Agent: Ok give me a moment It doesn't look like there are any separate parts for the components. Sorry about that part# I meant. Customer: Thanks for checking!. Agent: You're welcome Can I help you with anything else?. Customer: Nope, that should be it. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You too! Zack Zieske left the following comment: Kyle was very helpful, even if what I needed wasn't available. Hello. How may I help you?. Agent: Hi Gabriel!. Customer: Hi there! I ordered a workstation with overnight shipping and it hasn't showed up. I called Fedex about it and they said it would be delivered tomorrow. With the delayed status, they did not get info on why it was delayed and I had to call them to resolved it (I originally thought it may have been weather/snow). I asked them if I could get a refund since it will have been 5 days before I received it, and they said I had to contact you about it instead. . Agent: What is the order number please ?. Customer: just a moment Order #1000023384 Shipment #1000018038. Agent: I am sorry to hear that FedEx has not delivered the package. We will request for a refund in this case. Can I update with your via email after checking with FedEx ? Is contact@gabrielhatcher.org the best email to reach you?. Customer: Of course! And yep, that's the best one. Agent: Thanks! I will email you regarding this shipping delay and go from there. I am sorry for the inconvenience ! Can I help you with anything else?. Customer: Thank you for the help! I know this is a FedEx problem. I don't know what they would have done with it if I hadn't called them, but they didn't send me any info like "Please contact us" or the like. Thank you for helping! I don't need help with anything else. Agent: You're welcome. Hope you will get the package tomorrow ! It was nice talking to you. Have a great day, goodbye!. Customer: Thank you! Have a great day!. Agent: Thanks!. Customer: Hello. How may I help you?. Agent: Hi Meghan!. Customer: Hi, I have excess inventory of SNK-P0043P. Do you buy excess inventory?. Agent: I am sorry but we don't purchase inventory. Customer: ok thank you. Agent: You're welcome. Can I help you with anything else?. Customer: Hello. How may I help you? I am looking for the MCP-290-00058-ON rail kits and need to know if you have any available?. Agent: Hi Jack. Customer: I need 4-6 sets Hello Kyle. Agent: We should have it, but currently have 3 available. Let me check if we can get more <https://store.supermicro.com/2u-5u-rail-kit-mcp-290-00058-On.html>. Customer: That's the one. Agent: Did you want 6 pcs?. Customer: If possible, I will take the 3 you currently have to start. Agent: Ok sounds good. Did you still want me to transfer 3 more and email you once they are available?. Customer: Yes please. Agent: Ok sounds good, will do. May be several hours till they are ready. Can I help you with anything else?. Customer: No, you have been a big help. I will add them to my cart and complete the

order for the 3 available. Agent: Sounds great! It was nice talking to you. Have a great day, goodbye!.
Customer: You too Jack Palmer left the following comment: Great service from Kyle Hello. How may I help you?. Agent: Hi John. Customer: hello. are you able to overnight RAM MEM-DR432LC-ER32. Agent: Please give me a moment while I check for you. Yes, the order should be shipped by the end of the day if you choose overnight shipping method it will delivered by tomorrow. Customer: great. Thank you. .
Agent: You're welcome. Is there anything else I may help you with today?. Customer: not today. Thanks.
Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello Jim, Just talked to Kyle and he said you actually had 3 of the MCP-290-00058-0N oil sets in stock, he was going to contact me when the others I need are in stock. The site will not let me add the 3 stating you have 0 stock. What should I do?. Agent: Hi Jack! Please give me a moment while I check for you. Can you try adding 3 again? You might have to refresh the page. Customer: Will do Hello.
How may I help you?. Agent: Hi Ricardo!. Customer: Hi good morning. Agent: Are you looking to purchase X10SRi-F?. Customer: yes. . Agent: I'm sorry, but unfortunately, we do not carry motherboard on our eStore. Please check with our resellers and distributors for availability.
<https://www.supermicro.com/en/wheretobuy>. Customer: Okay, and some supermicro server that seems to be performing. Agent: Sorry can you explain a little what you meant?. Customer: ok your company sells complete servers or only pieces. Agent: Are you talking about selling parts as well as the servers?. Customer: my english is not very good, they speak spanish. Agent: Our eStore sells parts as well as the servers May I know where you are located?. Customer: Honduras. Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email It was nice talking to you. Have a great day, goodbye!.
Customer: Hello. How may I help you?. Agent: Hi Jason. Customer: My order says Pending...but I got a call from my Data Center saying they received a package for you. Order # 1000023313 not for you....from you. Agent: Please give me a moment while I check for you. . Customer: Okay. Agent: The order was shipped out on 12/31 I'm sorry that our system did not update. Customer: Can you please provide a tracking number?. Agent: Can I get back with you via email for the tracking number? is the level3@lightspeedvoice.com best email to contact with you?. Customer: Yes it is, and thanks. My data center need the tracking number for safe storage. :). Agent: Thank you for confirming. I will get back via email for the tracking number as soon as I can. . Customer: TY. Agent: Is there anything else I may help you with today?. Customer: No, thanks Liz!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!.
Customer: Hello. How may I help you? I am inquiring about our tax exempt status. . Agent: Hi Sarah!. Customer: We sent the paperwork over but I am still showing tax on our invoices. . Agent: Please give me a moment while I check for you. Can you confirm when you sent the tax exempt certificate to us? I'm trying to look for the email, but I'm not seeing anything from the past week.
Customer: December 21st. Agent: Ah OK, was it from purchasing@ipconfigure.com?. Customer: it should have come from accounting@ipconfigure.com. Agent: It doesn't look like we received one from account@ipconfigure.com, only purchasing@ipconfigure.com. While I can confirm we did receive the tax exempt certificate, order numbers weren't provided on the email. Joe responded back to that email requesting the order numbers for the tax exempt request, but we never got a reply back. Would you be able to check internally to have the sender respond back with the order numbers?. Customer: I will take care of that. How far back can we request the adjustment for?. Agent: I believe it's for orders within 30

days. . Customer: Thanks so much. Agent: No problem Sarah! Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? I am looking for a power supply for this model chassis and I am having difficulty finding it via the chassis parts page. Can you please let me know the PN of the power supply?. Agent: Hi Chris Sure let me check for you. Customer: Thank you, Kyle!. Agent: PWS-504P-1R looks to be the power supply, not sure why they don't list it. How many were you looking for? <https://store.supermicro.com/500w-1u-pws-504p-1r.html> It's currently out of stock, but I may be able to transfer 1 from our inventory, which could take 3-4 hours. The newer version PWS-504P-1R2 can also be used, but you would need to replace both of the PWS-503P-1R since PWS-504P-1R2 is the newer version. We have that one in stock <https://store.supermicro.com/500w-1u-pws-504p-1r2.html>. Customer: Perfect! Thankyou for all the info! I should be good to go with this info. Thank you, Kyle!. Agent: Great and you're welcome! So no need to transfer for now?. Customer: not as of now but thankyou!. Agent: Sounds good. It was nice talking to you. Have a great day, goodbye!. Customer: Chris Morales left the following comment: Great service! Hello. How may I help you?. Agent: Hi Joseph. Customer: Need to check the status of an order placed on Saturday Order # 1000023442. Agent: Please give me a moment while I check for you. . Customer: Thank you Lol, I think you may be the one who responded to my email inquiry That was on a different question/inquiry. Agent: Oh yes. I am. Customer: 😊 . Agent: Please give us for a few more minutes while our web development team is checking on this issue. . Customer: No problem. Agent: Please bear with us for a few more minutes while we check for you. . Customer: No problem....passing the time reading from another screen. Agent: I'm sorry. Can I email you back via joseph.freeze@charleswgreeninc.com? We will need to check internally for this issue and will take some hours. . Customer: ok, not a problem. Agent: I'm so sorry the this inconvenience. Is there anything else I may help you with today?. Customer: no, just that for now....thanks. Agent: You're welcome. I will get back to you as soon as I can. Customer: ok. have a great day. Agent: It was nice talking to you. Have a great day, goodbye! Thank you!. Customer: Hello. How may I help you?. Agent: Hi Victor!. Customer: I am looking to place an order, but I am getting this message in error. Address is correct and has been verified. Invalid address. Agent: Can you please provide the address ?. Customer: 475 Portola Plaza, Knudsen Hall, Room 1-129 Los Angeles, CA US 90095. Agent: Is it shipping address or billing address?. Customer: Shipping. Agent: ok Please give me a moment while I check for you. . Customer: Thank you. Agent: Google map has difficulty to find the exact address too. Customer: Interesting Maybe if you remove the Knudson Hall, 1-129. Agent: Will this address work for you ? 475 Portola Plaza, Room 1-129 Los Angeles, CA US 90095. Customer: Yes. Agent: One moment Do you happen to know the 9-digit zip code?. Customer: I don't. Agent: I see. Please give me a moment while I check for you. We have whitelisted the address for you Please enter the address exactly like this : 475 Portola Plaza, Room 1-129 Los Angeles, CA US 90095-0001. Customer: Will do It went through Thank yo. . Agent: You're welcome. Can I help you with anything else?. Customer: No, that's all. Thank you very much for your assistance. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Kyle, I was just in chat with Joe. . Agent: Hi Victor. Customer: There was an an issue with my shipping address. . Agent: Let me check on the previous chat. Customer: Now your system will not recognize my billing address. . Agent: Oh What is the address in question?. Customer: 475 Portola Plaza Los Angeles, CA US 90095-0001 That is the billing address But it is coming back as invalid in your system. . Agent: Oh ok, its similar to the shipping one without the

rooms. Customer: Yes. Agent: Let me whitelist for you Give me a few minutes. Customer: Thank you. Agent: Ok its been whitelisted, you may have to refresh your page. Customer: It still saying address is invalid Okay, it went through. Agent: Let me double check again. You may have to log out and log back in. Hard refresh (ctrl + F5). Oh Both addresses?. Customer: Yes, I was able to proceed. I had to re-input the zip code. . Agent: Ok great! Hopefully there isn't more issues Sorry about the address verification being unforgiving at times Can I help you with anything else?. Customer: No, thank you. I just received the confirmation of the order. . Agent: You're welcome, I see the order as well!. Customer: Appreciate it. Thank you, have a great day. . Agent: Np! It was nice talking to you. Have a great day, goodbye! Happy New Year. Customer: Hello. How may I help you?. Agent: Hi Lea!. Customer: Hi Liz, is Jim available?. Agent: Yes, I can transfer the chat for Jim. . Customer: thanks! Liz transferred the chat to Jim. Agent: Hi Lea!. Customer: Hi Jim! Happy New Year!. Agent: Happy New Year to you as well 😊 What can I do for you?. Customer: I have another RFQ, let's see if you can help me out. Agent: Sounds good, let's hope so. Customer: SSG-6049P-E1CR36H. Agent: Ahh darn. We only have the 45 or 60 bay versions available on our eStore. Either SSG-6049P-E1CR45H or SSG-6049P-E1CR60H. Would your customer want either of these as alternatives instead?. Customer: It depends on the price give me both. Agent: Let me know what components you'll need and I can provide quotes for both. The 45 bay would be the cheaper option though. Customer: Can you sell it like that or he has to purchase CPU, SSD and memory?. Agent: Unfortunately, your customer will need to purchase it as a complete system with CPU, memory, and drives. Barebones aren't sold on our eStore 😞. Customer: where can I get just the barebone?. Agent: For just the barebones, you can try checking with our Sales team or our resellers: Sales dept: Sales-USA@supermicro.com Tel: +1-408-503-8000 <https://www.supermicro.com/en/wheretobuy>. Customer: OK, let me ask him what he wants on that barebone and I will get back to you. Thanks!. Agent: Sounds good, Lea! Hope to hear back from you. Is there anything else I may help you with today?. Customer: no thanks again!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: likewise! Lea left the following comment: Excellent! Hello. How may I help you?. Agent: Hi Jason. Customer: Hi again...lol Do you have any information on the power draw of SSG-6049P-E1CR45H-PRE-CONFIG I am running out power at my data center. . Agent: Oh... that's unfortunately. Please give me a moment while I check for you. . Customer: Thanks!. Agent: So the total power for the system is 664.6 W You can divide it by the total number of volts available from your electric outlet to calculate the amperage draw. Customer: Your the best. Agent: 😊 hope it will help Is there anything else I may help you with today?. Customer: Nope. have a good day. Agent: It was nice talking to you. Have a great day, goodbye! Thank you!. Customer: Hello. How may I help you? looking to buy 1 more of the Supermicro 80mm Hot-Swappable Middle Axial Fan (FAN-0104L4). Agent: I can make an inventory transfer request for you and email you when it is in stock Is mgadbois2@gmail.com the best email to reach you / . ?. Customer: yes. Agent: Thanks! I will email you when it is ready Can I help you with anything else?. Customer: all set. thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? 6. Agent: Hi Vida. Customer: <https://store.supermicro.com/12tb-sas3-hdd-a12t-st12000nm002g.html>. Agent: You can check for volume discount using this link: <https://store.supermicro.com/quote#HDD-A12T-ST12000NM002G>. Customer: i am looking for the item and its noted request for volume discount, but i was not sure what is considered volume? or how many. Agent: The agent in charge of that function will get back to you via email within 24 hours. For 6 pcs, you wouldn't get a discount unfortunately. Volume discount would depend on the product being purchased as it varies. . Customer: ok Thanks. Agent: you're welcome Can I help you with anything else?. Customer: Nope. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: you as well Hello. How may I help you?. Agent: Hi Aaron.

Customer: how long does it take for BMC order to go through? trying to set up my server and waiting on the order to process i can see i was billed isnt it just a key?. Agent: Your OOB license key will be available within an hours after purchase, normally. May I know your order number, please?. Customer: order #1000023463. Agent: Your OOb key will be available around 2:51 pm since your order placed at 1:51 today Please contact us on Live Chat or if you don't received it at that time. . Customer: Hello. How may I help you? looking for compatible memory for this MB M12SWA-TF. Agent: Hi Michael! What capacity/speed were you looking for?. Customer: DDR4 / 3200 . 64 GB. Agent: Please give me a moment while I check for you. Here are the 2 64GB DIMMs that are validated for that board:
<https://store.supermicro.com/64gb-ddr4-3200-mem-dr464l-sl01-er32.html>
<https://store.supermicro.com/64gb-ddr4-3200-mem-dr464l-cl02-er32-2447.html>. Customer: do you also sell the motherboard mentioned above?. Agent: I'm sorry, but unfortunately, we do not carry any motherboards on our eStore. Please check with our resellers and distributors for availability.
<https://www.supermicro.com/en/wheretobuy>. Customer: ok. that's fine. thanks for the memories. Agent: No problem! Is there anything else I may help you with today?. Customer: that's it!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? hi kyle. Agent: Hi Aaron. Customer: i purchased an IPMI key for my new motherboard i am trying to activate it but it does not like the PDF am i doing it wrong?. Agent: What is your order#? Nvm, I found it For H12SSL-i?. Customer: 7000019004 yes. Agent: Ok let me check. Customer: when i navigate to license activation, it shows new private key select file am i supposed to upload the PDF?. Agent:
<https://store.supermicro.com/software/out-of-band-oob-key-activation-guide> I assume you are following this X12 section. Customer: i did not get a text file only a pdf. Agent: Oh I see
<https://store.supermicro.com/pub/media/wysiwyg/productspecs/SFT-OOB-LIC/How-to-generate-OOB-keys.pdf> Did you generate the key under your account? For X12, if successful, the Product Key would be ready to download under "Generate Key" The key file is the file you need to upload when activating. Customer: did i not need to purchase the OOB key?. Agent: You would need to purchase the OOB license to generate a OOB key. Customer: so i generated the text file using my mac address node product key stats shows SFT-OOB-LIC now is that it?. Agent: Ok In the IPMI GUI?. Customer: 2021-06-02 17:46:13
Redfish Hailey 192.168.1.59 Node product key SFT-OOB-LIC was activated successfully.
others yeah in the IPMI gui. Agent: yeah you should be good You needed to generate the key file from your eStore account and upload that in IPMI. Customer: how do i check if there is a firmware update. Agent: Anything in Firmware management?. Customer: would that go through the gui?. Agent: Wait, are you taking about the BIOS firmware or IPMI firmware?. Customer: both. Agent: The latest BIOS firmware would be version 2.3. Customer: i am 2.1. Agent: Oh ok. You should be able to update remotely now since you activated OOB. Customer: do i need to download it from supermicro site or can i find new firmware via IPMI. Agent: Let me double check on finding firmware via IMPI Thanks for waiting. For the IPMI firmware itself, it's under the maintenance tab and firmware update For the BIOS, you will need to download the file from the product page
<https://www.supermicro.com/en/products/motherboard/H12SSL-i> located in "Update your bios" Then in IPMI maintenance, it would be under the BIOS update and you would use the file you got from the motherboard bios page. Customer: ok i will grab them from the site thanks again for your help. Agent: You're welcome! If you have any troubles with it, let us know Can I help you with anything else?. Customer: nope should be good thanks again. Agent: Np! It was nice talking to you. Have a great day, goodbye!. Customer: Aaron Jackson left the following comment: great service Hello. How may I help you? We currently have "-156" of the "Supermicro 8-pin to Two 6+2 Pin 5cm Power GPU Cable (CBL-

PWEX-1040) " in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat" need 70 of these cables but receiving that message when trying to put in my cart.

Agent: Please give me a moment while I check for you. I can make an inventory transfer request and email you when the stock is ready Is jameson.p.williams@intel.com the best email to reach you ?.

Customer: Yes that is correct. Agent: thanks! Can I help you with anything else?. Customer: how long will the transfer take?. Agent: Within an hour. Customer: Sounds good, thanks for the help Joe!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you? I would like to know the status of an order I placed yesterday. 1000023458. Agent: Hi Del Let me check for you Thanks for waiting. It looks like the order was not processed for some reason, I apologize about that. I will ask our internal team to process this order. . Customer: I would like to receive this by tomorrow and can I please have tracking as soon as possible. thank you. Agent: Will do! I will get this pushed to be ship today for sure. you're welcome Can I help you with anything else?. Customer: that will be all. Agent: Ok sounds good. Sorry for the inconvenience again. It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you?. Agent: Hi John. Customer: I think we talked yesterday. Can you track my order for me please? 1000023458 - NEP/Bexel. Agent: Yes, we do. Please give me a moment while I check for you. It looks like the order was not processed for some reason, I apologize about that. I will ask our internal team to process this order. Can I contact you back via email jdesilva@bexel.com?. Customer: Thats not good. anyway to expedite this? we are in a pinch. . Agent: I'm so sorry the this inconvenience. We will try our best to ship it out by today. I will check internally and email you back as soon as possible. is the jdesilva@bexel.com best email to reach you?. Customer: thanks. yes. . Agent: Thank you for confirming! Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email. Customer: not today. I just really need this to ship today to arrive tomorrow. Agent: Yes, I will try our best to ship it out today. I'm sorry for this inconvenience. It was nice talking to you. Have a great day, goodbye!.

Customer: thanks. Agent: You're welcome. . Customer: Hello. How may I help you? Hi. Agent: Hi Liam!. Customer: Happy new year. Agent: Happy New Year to you as well!.

Customer: we want to add rear flex bay for SSG-6028R-E1CR12H could you advise what parts we need to buy want too add two 2.5 inch hhd to the rear space. Agent: Please give me a moment while I check for you. . Customer: sure thanks. Agent: It looks like the drive kit MCP-220-82616-0N should have everything you need. . Customer: let me check. Agent: OK. Unfortunately, it's not sold on our eStore so you'll have to check with our resellers for availability: <https://www.supermicro.com/en/wheretobuy>.

Customer: is MCP-220-00044-0N necessary to make it fixed?. Agent: I don't believe so. MCP-220-00044-0N is a standalone bracket, but you can double check with our technical support team just to be sure: Tech Support: Support@Supermicro.com Tel: +1-408-503-8000. Customer: sure, thanks a lot. Agent: No problem, Liam Is there anything else I may help you with today?. Customer: that's all. have a nice day. Agent: It was nice talking to you. Have a great day, goodbye!.

Customer: bye Hello. How may I help you?. Agent: Hi Joseph. Customer: do you have any of the FAN-0104L4 in stock?. Agent: How many are you looking to purchase?. Customer: 3. Agent: Please give me a moment while I check for you. Yes, we should have some left in stock. Let me see if we can update the inventory for you right now. If not, it will probably take an hour or two before you can add them to your cart. . Customer: ok thanks. Agent: No problem OK, the inventory should be updated. Please refresh your page and try adding it to your cart again. Customer: yep i see them thanks. Agent: No problem! Is there anything else I may help you with today?. Customer: nope appreciate it. Agent: It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you?. Agent: Hi Kyle!. Customer: Hello I am trying to locate 3 x RC-22-01-001. Agent: RC-22-01-001 is not a valid Supermicro part number unfortunately May I know what you are looking for ?. Customer: sorry about that we need 3 x Supermicro 1U Rail Kit (CSE-PT52L). Agent: I see I can make an inventory transfer request for you and email you when they are ready. Customer: thank you. Agent: May I know if kandreoni@iomaxis.com is the best email to reach you ?. Customer: yes please. Agent: Thanks! I will email you then Can I help you with anything else?. Customer: that is all thank you! Hello. How may I help you? Hello, I just did the chat and learned there is only one of these items left Supermicro 1U Rail Kit (CSE-PT52L) are there other items comparable?. Agent: Hi Kyle, nice name I believe Joe was transferring more inventory for CSE-PT52L from your previous chat She will email you back once they are available *He. Customer: Yes that is VERY helpful but I feel I should have asked if there is anything LIKE that or similar. does that make sense?. Agent: No there is no other compatible one for CSE-PT52L. Customer: okay thank you. Agent: The other rail MCP-290-00056-0N can be used instead of the outer rail that comes with CSE-PT52L, but you will still need the inner rails from CSE-PT52L either way You're welcome Hopefully the inventory transfer will complete in a few hours and we can email you Can I help you with anything else?. Customer: thats all thank you. Agent: Np! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Aldo !. Customer: can you help me with this SuperServer 1029TP-DC0R. Agent: What do you need help with regarding 1029TP-DC0R ?. Customer: yes if you have this product. Agent: Are you looking to purchase 1029TP-DC0R?. Customer: yes. Agent: I see. Customer: here is my email. Agent: I'm sorry, but unfortunately, we do not carry 1029TP-DC0R on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Can I help you with anything else?. Customer: Hello. How may I help you?. Agent: Hi Shane! We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> Can I help you with anything else?. Customer: got it. thanks. Agent: You're welcome. . Customer: Hello. How may I help you?. Agent: Hi Jeff. Customer: Hi - I need six of the Supermicro 2U-3U Rail Kit (MCP-290-00053-0N), but it says only one is available. Do you have six in stock?. Agent: Please give me a moment while I check for you. It looks like we have some left in stock. I can try to make the inventory transfer for 6pcs of MCP-290-00053-0N. Can I email you back via jkehe@quickpacket.com when the process is done? It would take some hours to complete. . Customer: I need them to ship out today by overnight shipping. Will that be possible?. Agent: I couldn't guarantee for sure. It will depend the process. If you can place the order before 3:30pm PST. the order can be shipped out by the end of the day and shipping overnight for you. Customer: ok. please try to get the inventory moved over ASAP so I can place the order. thank you for your help. Agent: Yes, I'll try my best. You're welcome. Can I help you with anything else?. Customer: that's all, I'll be watching for your email. thanks again. Agent: no problem. I will email you as soon as the process complete. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jennifer!. Customer: I need to see if you have 40 of SNK-P0078AP4 in the warehouse that you can move over for purchase. . Agent: Please give me a moment while I check for you. . Customer: Can you please check for me. Thanks. Agent: It looks like we do. Let me go ahead and initiate the transfer request and follow up with you when it's approved

and completed. Is purchasing@ipconfigure.com a good email to reach you at, Jennifer?. Customer: that is correct. Thanks you so much. . Agent: No problem! The transfer should take several hours so I'll reach out when it's done. Is there anything else I may help you with today?. Customer: That is all thank you. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello. How may I help you?. Agent: Hi Chris. Customer: Hello, I'd like a quote on this memory DIMM. I just started and RMA for one, but I'd like another as a shelf spare. If I can get them in the same package that would save shipping and help out a lot. . Agent: Can you please fill the Request for Quote form here? <https://store.supermicro.com/quote#MEM-DR432L-SL03-ER26> We will email you shortly for the quote. Is there anything else I may help you with today?. Customer: Submitting the form now. Thanks. Hello. How may I help you?. Agent: Hi Dustin !. Customer: I need one bag of screws - it say your out of stock but to check with you - <https://store.supermicro.com/screws-2-5-labels-mcp-410-00006-0n.html>. Agent: Please give me a moment while I check for you. How many do you need ? Just 1 ? MCP-410-00006-0N <https://store.supermicro.com/screws-2-5-labels-mcp-410-00006-0n.html> It is ready for you to purchase. Customer: great thanks. Agent: You're welcome. Can I help you with anything else?. Customer: nope thats it. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: you too Hello. How may I help you? I asked for 40 of SNK-P0078AP4 to be moved to active inventory so I can purchase them but I haven't received the email yet to let me know this has been done and I just wanted to check on it. . Agent: I see Please give me a moment while I check for you. I see the record that Jim started the inventory transfer for you and the transfer has not been completed yet Can he email you when the stock is ready for you ?. Customer: Yes, that would be great. Thanks. Agent: You're welcome. . Customer: Do you know how much longer that will take?. Agent: Hopefully in 4-5 hours. Customer: Thank you. Agent: You're welcome. Can I help you with anything else?. Customer: Hello. How may I help you?. Agent: Hi Dustin!. Customer: It will not accept my address. I can use the default shipping address but it is wrong. I have tried changing the default shipping address but it then changed the default Billing address as well. also It says \$10.46 for shipping. I don;t think this is reasonable for a \$7 bag of screws that could be sent in an envelope. Can you adjust shipping charges?. Agent: Please give me a moment while I check for you. What browser do you use please ? Can you do a hard refresh first ? Ctrl +F5?. Customer: firefox on mac refresh doesnt help. Agent: Can you please enter the address by clicking " + New Address " ?. Customer: tried it does not work. Agent: One moment. Customer: I will try different browser. can you adjsy shipping?. Agent: We have Free Shipping to the Continental US Over \$200 (Excluding rail kits and systems) Sorry I won't be able to adjust shipping. Customer: it seems to be working in sfari. Agent: Sounds good It works on my end as well If you are looking for using a different address as billing, please remember to unclick " My billing and shipping address are the same " Can I help you with anything else?. Customer: i just was able to place order. thank you that is all. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Is p/n MCP-250-00018-0N a good p/n? Suppose to be a Blank Panel. Is it available to purchase?. Agent: Hi Laurie Let me check for you It is a valid part#, its a power supply blank cover. However, we do not carry it on the eStore so you'll have to check with our distributors: <https://www.supermicro.com/en/wheretobuy>. Customer: Hello. How may I help you?. Agent: Hi Rigell. Customer: Hi! I can't checkout. Agent: May I know where are you located please?. Customer: The Place Order seems to be disabled <https://store.supermicro.com/checkout/#payment> *Place Order button. Agent: May I know where you plan to ship this order to?. Customer: Westford, MA. Agent: Please give me a moment while I check for you. . Customer: Thanks. Agent: Can you please try hard refresh (Ctrl+ F5) or on other browsers?. Customer: It still doesn't woirk. Agent: Does your billing address is also US-

based credit card?. Customer: No. It's issued by Bank of Ireland in the Republic of Ireland. Agent: I see. Unfortunately, our eStore only accepts US-based credit card at this moment. Do you happened to have a US- based credit card?. Customer: No, I don't. Can I purchase licenses on an EU store?. Agent: Yes, you can purchase the licenses from our resellers at <https://www.supermicro.com/en/wheretobuy> I'm sorry for the inconvenience. . Customer: OK. Thanks. No problem. Hello. How may I help you? Hi Jim. Agent: Hi Jason!. Customer: My order number is Order # 1000023313 Does it come with rack mounting hardware?. Agent: Please give me a moment while I check for you. . Customer: NP. Agent: Yes, it does come with rack mounting hardware. Customer: Do you know what type...rails or shelf or just screws. Agent: Looks like a rail set. P/N is MCP-290-00150-0N Rail set, Auto-latch, quick/quick, default 4U 17.2. Customer: That's great, thanks!. Agent: No problem! Is there anything else I may help you with today?. Customer: Hello. How may I help you?. Agent: Hi Cara How can I help you today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Lisbeth!. Customer: i need to get my account set up for tax exempt status. . Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide>. Customer: Hello. How may I help you? I am unable to place my order. My billing zip code is not being accepted. . Agent: Hi M Mattson I'm sorry to hear, but I can help you with that What's the address in question?. Customer: (I think that's the reason.) 150 Clay Street, 2nd Floor West Virginia University Morgantown, WV 26501-6024. Agent: Thanks, let me see if I can whitelist this address for you. Please give me a moment. Is the West Virginia University part of it so when you enter the address it's 150 Clay Street, 2nd Floor West Virginia University? or is it company. Customer: I put West Virginia University in the Company box. Sorry. . Agent: ok thanks just making sure. Customer: 150 Clay Street, 2nd floor Morgantown WV 26501-6024. Agent: Ok got it Can you refresh your browser and try again? If it doesn't work, you may have to log out/log back in. Customer: Hello. How may I help you?. Agent: Hi David!. Customer: I cannot select any country other than USA. But, I am from Germany. . Agent: I'm sorry, but our OOB license is only available for US-based customers (US billing address) to purchase. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> I apologize for the inconvenience. . Customer: I see. Have a nice day. Bye. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Agent: Hi Xuan. Customer: Supermicro 多设备键盘和鼠标组合 (KYB-MUS-196CB) Supermicro 多设备键盘和鼠标组合 (KYB-MUS-196CB) \$12.90 How to buy. Agent: May I know where are you located?. Customer: Shenzhen, China. Agent: I see. I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. You can check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today?. Customer: period!thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello. How may I help you?. Agent: Hi Byron!. Customer: 'just vaguely curious for your server's.. they don't ship with OS I see. do you test them before they ship out with something?. Agent: Yes, we do install OS and test before shipping. Customer: ok. but

i'm responsible for doing a full OS install when I get it?. Agent: Correct. Customer: thats all. thanks for your help!. Agent: You're welcome. Do you need server access?. Customer: no I already have server access. was looking at threadripper pro stuff. Agent: I see. If you need any help with any parts you want and not showing on the configurator, please don't hesitate to come to our chat. Customer: will do.. thanks again and have a great day. Hello. How may I help you? Hello, this is Mischa Baars from the Netherlands. I have a few questions about a couple of your boards. These came out of a selection: Supermicro H12SSL-NT/CT, Asrock Rack TRX40D8-2N2T, Supermicro H12SSL-NT/CT, Asrock Rack ROMED6U-2L2T, Supermicro H12SSL-NT, Supermicro H12SSL-CT. To build a computer with 16, 24, 32, 48 or 64 cores. Now, I'm also working on a new computer chip. And I found this yesterday. <https://numato.com/product/aller-artix-7-fpga-board-with-m-2-interface/> Do you think your boards will work with this FPGA development board? It's actually designed for use in a laptop. . Agent: I see We actually don't know if it will work since it is not tested and validated by our lab You will need to use it at your own risk. Customer: Ah, yes. I understand. Maybe an educated guess? Yes or no? Or it should ... I've never used M.2 before and I don't see it as such on the boards either :). Agent: Let me see what I can find. Please give me a moment while I check for you. . Customer: No problem :). Agent: I don't think it will work but you can check with support@supermicro.com again for the advice. . Customer: Why do you think it won't work?. Agent: Our 11 the gen motherboards don't support FPGA. Customer: Ok, so support should be built-in?. Agent: I am not sure what you are asking ?. Customer: Well, you're saying FPGAs are not supported, so I was thinking about low-level code in the BIOS or something. . Agent: Not sure if that's the case since we don't have information regarding supporting FPGA. Customer: I can ofcourse also ask the people of Numato. Perhaps they have more experience with the different mother boards? boards So it's more or less undocumented, but not unsupported?. Agent: It will be good to check with them. Customer: I will. . Agent: Can I help you with anything else?. Customer: Eh, no... I suppose that was it then :) Thank you for your help. . Agent: You're welcome. Sorry can't be anymore help than that. It was nice talking to you. Have a great day, goodbye!. Customer: Same to you! Hello. How may I help you? Hello. How may I help you? I'm looking for 3 of these, says in stock but only 1. Is that correct?. Agent: Hi Jack Yeah, we only have 1 available currently. I can make a request for 2 more pcs to be transferred in stock for availability. This may take several hours to complete and I can email you once they are available. Customer: That would be great, please do. Once I get he email I will order the all. Agent: Sounds good! Can I help you with anything else?. Customer: No, I'm good. Agent: It was nice talking to you. I'll be in touch soon. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Clarice!. Customer: Hi, I would like to order 50 GPU cables - this isn't super urgent so you could ship whatever you have now and the balance later. I had an urgent need for 2 that I already placed and thinking to get another 50 to have on hand. Agent: We have CBL-PWEX-1016-3 in stock right now. https://store.supermicro.com/supermicro-20cm-8-pin-to-8-pin-power-cable-cbl-pwex-1016-3.html?queryID=c3252a1822ac297e5d625660e40742bb&objectID=1242&indexName=supermicro_default_products. Customer: do you have 50?. Agent: We have 13pcs in stock. Do you want me to transfer 37pcs more for this?. Customer: Yes and I want to place an order I have one order already placed for 2 units to ship directly to my customer and I want to order another 50 to keep on hand. It won't let me place an order because it says there is not enough in stock. Agent: I see. I can request inventory for more and email you back when 50pcs of CBL-PWEX-1016-3 are ready in stock. . Customer: sounds good. Agent: Can I email you back via clarice.simmons@amd.com?. Customer: Yup thanks!. Agent: You're welcome. Is there anything else I may help you with today? Hi Clarice, are you still there?. Customer: Nope, thanks so much! Bye bye Hello. How may I help you? Price quote and availability of for 1,155 pcs

of MPN: SNK-P0048PS. Agent: Hi Tony Please use the following link:
<https://store.supermicro.com/quote#SNK-P0058PSU>. Customer: Hi Kyle. Agent: The person in charge of quotes/pricing will email you back within 24 hours typically in a few hours I'd say. Customer: thank you. I submitted the RFQ. Agent: Sounds good and you're welcome! Can I help you with anything else?. Customer: not at the moment. thank you. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Bruce!. Customer: STATUS ON ORDER #1000023475. Agent: Please give me a moment while I check for you. . Customer: TRACKING INFO SENT ON 1/11 SAYS IT HAS SHIPPED BUT FEDEX SHOWS PENDING. Agent: Please give me a moment while I check for you. Can I email you back via email BWELCH@STELLARENGINEERING.COM? I will need to check internally for this issue. I'm so sorry for this inconvenience. Customer: YES, PLEASE EMAIL ASAP. Agent: I will reach you as soon as I can Is there anything else I may help you with today?. Customer: NOT AT THIS TIME. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? We're looking for a rack mount server with 32 cores, 512GB of RAM, and 2TB of hard drive space. Can you assist with a quote? 1U or 2U. Agent: Hi Kham Sure, please give me a moment. Do you have an eStore account with us already?. Customer: I do not, new custoer customer. Agent: ok <https://store.supermicro.com/customer/account/create/> Please create an account and verify and I can provide you access to our Servers. Customer: Got it Account is created. Agent: Thank you Ok you should have access now, please log into your account. Customer: ok I'm logged in, where do I go?. Agent: You should be able to view the servers section now Servers tab. Customer: Is there a spot where I can just put in the specs I need and it pulls the results?. Agent: Unfortunately, we do not have that feature or capability yet. Let me check based on your specs what would work. Customer: Thank you!. Agent: For the storage, 2.5" or 3.5" drives?. Customer: 2.5 Or SSD if possible NMVe. Agent: Ok thanks, let me check 1 processor or 2. Customer: 2 please. Agent: Ok thanks how many drive slots? 4 or 8+?. Customer: 8+ please. Agent: <https://store.supermicro.com/sys-120c-tn10r.html> up to 10 NVMe. Customer: This is perfect! Thank you!!!. Agent: You're welcome Configuration 1 is 8 NVMe but you can stick with just SATA/SAS regular HDDs and SSDs but yeah all the options are there for you to choose. Customer: Ah ok Thanks again, have a great weekend!. Agent: You're welcome! It was nice talking to you. Have a great day and weekend, goodbye!. Customer: Hello. How may I help you? Hi Kyle. Agent: Hi Domenic. Customer: I have two past orders. These are the order numbers: Order # 1000022926 Order # 1000022966 I was wondering if you would be able to retrieve the serial numbers of these servers that we purchased?. Agent: Sure, let me check on those with Benjamin?. Customer: Correct. Agent: Ok got it For SYS-5019C-M, the SN is S326082X0A00097 For SYS-5019P-WT: S263769X9801204 S263769X9801208 those 3 servers were for 1000022926 Checking on 1000022966. Customer: Great thank you!. Agent: For 1000022966, SYS-5019P-WT: S263769X0A04505. Customer: Perfect, thanks so much for your help, much appreciated. Agent: Also, you can register these systems on our eStore for warranty/parts info You're welcome. Customer: Ah I see My Registered Systems now. Agent: yeah. Customer: Okay I'll take a look there. Agent: Sure sounds good. Can I help you with anything else?. Customer: Nope that's all. Have a great weekend :). Agent: Thank you! Have a great weekend! Goodbye. Customer: Bye! Domenic Recchia left the following comment: Very helpful and very fast response time Hello. How may I help you?. Agent: Hi Laurie. Customer: Hi do you have two of the product (PWS-504P-1R2) \$202.10. Agent: Please give me a moment while I check for you. . Customer: Sorry I meant this one Supermicro 800W/860W 1U Redundant Power Supply (PWS-860P-1R2). Agent: I see. Please give me a moment while I check for you. We currently have 1 in stock for the PWS-860P-1R2 https://store.supermicro.com/800w-1u-pws-860p-1r2.html?queryID=cf114bb974632ebfee9416c8db286f18&objectID=2641&indexName=supermicro_def

ault_products I can request 1 more for you but it will take some hours to complete. Can I email you back via supplychain@mbx.com when 2pcs of PWS-860P-1R2 are available? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email.

Customer: Yes please email when you may have it. Agent: Thank you for confirming. I will email you back as soon as they are ready. Is there anything else I may help you with today?. Customer: No that is it! Thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hi Kyle, I need to buy 5 pcs of a MB X12STH-LN4F. Agent: Hi Lea I'm sorry, but unfortunately, we do not carry any motherboards on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Can I help you with anything else?. Customer: No thanks. Agent: It was nice talking to you. Have a great day, goodbye! Hi Kyle How may I help you?. Customer: Hello Liz, I have a question about a motherboard and cable compatibility. I have an H12DSi-NT6 motherboard, and I was about to order the slimline SAS x8 cable for my hard drive cages (CBL-SAST-0826). Do you know if those will work together? The two slimline ports are located right beside eachother, it doesn't look like there's a lot of room. Agent: May I know what is the other side of the cable connect to such as which backplane? I would need to know the 2 sides of connector header to see if the cable works for you. Customer: it is a chenbro had disk cage, it is miniSAS i had to run check, sorry. Agent: I see. It will use for HDD/ SSD correct?. Customer: Yes, that is correct. plain old 3.5" spinning disks. inside a hot swap cage. Agent: The motherboard has the SATA connector header. The cable CBL-SAST-0826 is slimline SAS x8 to miniSAS HD which will not work for you Is this hard disk cage you have? https://www.ebay.com/itm/175141461582?chn=ps&_trkparms=ispr%3D1&amdata=enc%3A1qp95nayTjmrav0kw8ma4A31&norover=1&mkevt=1&mkrid=711-117182-37290-0&mkcid=2&itemid=175141461582&targetid=1599090336857&device=c&mktype=&googleloc=9032185&poi=&campaignid=15275224983&mkgrouppid=131097072938&rlsataarget=pla-1599090336857&abclid=9300697&merchantid=134774971&gclid=CjwKCAjw9LSSBhBsEiwAKtf0n7PaP78dd-HOu4OhyfyjG-F5-BgFPMVYE8btpGmRPw3I9gNEn2quJBoC5VYQAvD_BwE Or it would be the best if you can provide me the link or picture of your hard disk cage. Customer: Sure, just one sec. Agent: No worries. Take your time. Customer: https://www.google.com/url?sa=t&rct=j&q=&esrc=s&source=web&cd=&ved=2ahUKEwirhreTpYD3AhXQmeAKHZnkDHoQFnoECAMQAQ&url=http%3A%2F%2Fwww.chenbro.com%2Fzh-TW%2FDownloadFile%2Fdownload%2F518&usg=AOvVaw1y3-jpU_5m188XSPTiVmJx That is the pdf manual to the cage. Agent: I'm sorry the link is not work for me 😞. Customer: Ok, let me send the connector spec. Agent: Thank you so much. This cage has the MiniSAS HD not MiniSAS. Customer: Ah, you're right. Is there a cable that will work?. Agent: Please give me a moment while I check for you. . Customer: No rush, thank you for catching my error. Agent: Please bear with me for a few more minutes while I check for you. I want to make sure I gave you the correct cable Ok. You will need the cross over mini SAS HD to 4 SATA cable. 1 cable for 4 drives. You can check for these cable - CBL-SAST-0591: <https://store.supermicro.com/supermicro-internal-reverse-breakout-cross-over-minisas-hd-to-4-sata-with-sideband-75-75-75-75-75cm-cable-cbl-sast-0591.html> - CBL-SAST-0631: <https://store.supermicro.com/supermicro-internal-reverse-breakout-cross-over-minisas-hd-to-4-sata-with-sideband-55-55-55-55-55cm-cable-cbl-sast-0631.html> CBL-SAST-0591 - <https://store.supermicro.com/supermicro-internal-reverse-breakout-cross-over-minisas-hd-to-4-sata-with-sideband-75-75-75-75-75cm-cable-cbl-sast-0591.html> Oh sorry, same one with the above CBL-SAST-0823: <https://store.supermicro.com/supermicro-reverse-breakout-cross-over-minisas-hd-to-4->

sata-75-75-75-75cm-with-sideband-75cm-cable-cbl-sast-0823.html They are different in length.

Customer: I see. What exactly is that side band cable?. Agent: It is optional for you to indicate the drives LED on your backplane You can ignore it if you want It's signal indicator. Customer: I see. Thank you for your help!.

Agent: You're welcome. Is there anything else I may help you with today?. Customer: No

thanks, have a good day. . Agent: Thank you! It was nice talking to you. Have a great day, goodbye! Hi

Kyle. How can i help you today?. Customer: Hi Mark, I have a H12DSi-NT6 motherboard, and it has two x8 slimline SAS connectors. They seem to be undocumented in the manual. Do you know if they're active on this motherboard, and if so, are they both active with one CPU installed, or are two required?.

Agent: Please give me a moment to check. . Customer: Sure thing, no rush. . Agent: are these the two connectors your are speaking of?. Customer: Yes, those are the ports. . Agent: I am going to have to check internally for this. Is it okay if i can email you back at kyle.bentley@torchtechnologies.com once i get an update?. Customer: Yes, that is fine. . Agent: Okay thank you! Can I help you with anything else?.

Customer: I did have one other question. It's not really related, but kind of is. The manual lists 3x mini-SAS hd ports in the manual on page 13. Is that a typo of some kind?. Agent: Give me second to check. is this on page 13 "Eight SATA3 ports (3x Mini-SAS HD) ". Customer: Yes, that's correct. . Agent: I am going have to check for that as well. I'll get back to you as soon i get an update for these questions. .

Customer: That sounds great. Thanks for checking into it. . Agent: You're welcome! It was nice talking to you. I'll in touch with you soon, goodbye! Hi Jeff. Customer: is this cable x8 8654 to 2x4 8654, 9402.

Agent: Let me check as we don't carry this on the eStore so the information isn't readily available. Please give me a moment. Customer: if not, another cable with x8 8654 to 2 x4 8654 would be fine. Agent: ok let me check so just slimline sas to slimline sas basically? for that original cable, all I see is Slimline x8 (LE) to 2x Slimline x4 (STR).

Customer: from controller slimSAS to break out to 2 x4 slimSAS cable. Agent: Understood. Customer: sot that would work?. Agent: that would work then, that original cable.

Customer: thx. Agent: its basically Slimline x8 (LE) to 2x Slimline x4 2 connectors of slimline x4.

Customer: thx. Agent: you're welcome Can I help you with anything else?. Customer: have a great day.

Agent: Thank you! It was nice talking to you. Have a great day, goodbye! Hi George. Customer: Hello.

Agent: How can I help you today?. Customer: I need an OOB for an M12SWA-TF mobo. Can't seem to find that in the list. . Agent: Please give me a moment while I check for you. . Customer: Sure thing. .

Agent: Please bear with me for a few more minutes while I check for you. . Customer: Alright. Thank you. . Agent: Did you purchase this motherboard with the system or motherboard only?. Customer:

Mobo only. . Agent: Thank you. Can I email you back via georger@wolfram.com? I will need to double check on my end for the compatible OOB for this motherboard. . Customer: Sure, thatll work I suppose. The board is asking for a license. There are features that are listed as usable with that board that require the license. It would be pretty frustrating to have purchased a board that requires an OOB that can't have an OOB. . Agent: This motherboard is support the OOB, but I would need to double check internally to see which option is compatible for your board I will email you back as soon as I have the answer. Is there anything else I may help you with today?. Customer: Ah I understand now. That's all the questions I have. Thank you for your time. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Juan How can I help you today?. Customer: Can't complete new customer application. I'm ready to place an order. Agent: You aren't receiving the confirmation email correct?. Customer: No.

There is an error message to contact "store owner"... . Agent: I see, Please give me second. Is the email you are using jjimenez@itservicespr.net?. Customer: Correct. Agent: can you send me screen shot of the error you are getting?. Customer: One second, I will try againg.. . Agent: Okay Thank you Thank you. Please bear with me for a few more minutes while look into this. . Customer: The captcha is good also... .

Agent: I see, can you try a different internet browser?. Customer: OK, i will try with Chrome... OK, now I saw what went wrong... . Agent: Is it working now?. Customer: Yes, can you confirm availability of an item?. Agent: yes i can, what item would this be?. Customer: FAN-0038L4. Agent: How many are you interest in buying?. Customer: 2 units. Agent: Yes we have enough for two,FAN-0038L4 <https://store.supermicro.com/97mm-fan-0038L4.html> Can I help you with anything else?. Customer: Not for now, Thanks! I will place the order now... . Agent: Awesome! You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Juan, how can I help you?. Customer: Can you confirm you can ship to San Juan PR, 00907? I get this message; "This shipping method is currently unavailable. ". Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> The 50 major states You won't be able to ship within the US by any chance?. Customer: No. Why? We get USPS, FedEx, UPS, DHL, etc... . Agent: Ah ok, yeah unfortunately we can't ship to PR in this case. . Customer: Too bad... Thanks anyway... . Agent: Yeah sorry about that Can I help you with anything else?. Customer: No. Thanks,. Agent: It was nice talking to you. Have a great day, goodbye! Hi Joseph How can I help you today?. Customer: Hello, just trying to determine the dimms of your 2.5 inch drive tray? I need the length, height and width if possible and I dont see it on the site. . Agent: Which drive tray in the question please?. Customer: the NVMe in chassis SYS-2029U-TN24R4T. Agent: Is that the MCP-220-00121-0B?. Customer: yes. Agent: Thank you! Please give me a moment while I check for you. Unfortunately, I couldn't find the dimension of this drive tray on my end. I would recommend you contact our sales team for this information. Sales-USA@supermicro.com May I know why you would like to know the dimension of this drive tray? I can help you to find the compatible drive tray with your Supermicro server/chassis if you provide the full part number. Customer: We have a customer who I guess is building a special shipping case for one of these NVMe servers for a concert tour. We got the DIMMs of the chassis but they want the drive tray also. Agent: oh I see. In this case, our Sale can help you for the dimension of this drive tray Is there anything else I may help you with today?. Customer: nope, thank you for pointing me in the right direction. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Joseph left the following comment: Couldnt answer my question but pointed me in the right direction, much appreciated. . Agent: Hi Ken How can I help you today?. Customer: Hello im looking for a rackmount server for my company. Agent: Do you have any spec/ SKUs in mind? We have Mainstream, WIO, Ultra and Superstorage type. Customer: First I was inquiring if you any AMD solutions I guess mainstream for small buisness im planning on running a virtual machine for a domain controller. Agent: I see. Unfortunately, our eStore doesn't carry any AMD rack mount server at the moment. For the highest performance, Ultra will be the selection Are you only interested in the AMD rack mount server?. Customer: No just wondering xeon is fine. Agent: Sound good! Do you have any spec in mind such as how many drives, DIMMs? <https://store.supermicro.com/systems/ultra-servers.html> You can check all Ultra server, our eStore currently carries from the link above. Customer: Okay i will browse your selections thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: No thanks for you time. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Please feel free to contact us if you have any question. Hi Sergio!. Customer: Hi Will you ship to the UK ?. Agent: Unfortunately, we only ship within the US at this time. We recommend checking our resellers and distributors in UK <https://www.supermicro.com/en/wheretobuy/>. Customer: they do not have this in stock and it would come from you anyway. Agent: I would recommend checking with other resellers in your area. Customer: okay np thanks anyway. Agent: is there anything else I can help you with today?. Customer: nope that is it thanks. Agent: It was nice talking to you. Have a great

day, goodbye!. Customer: bye. Agent: Hi Simon. Customer: Hi Mark, when can I get spares for the UK? where*. Agent: For Non-US customers, Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: OK I only need an IO shield for a motherboard I can't find this on their website. . Agent: What motherboard is this?. Customer: just a sec X11SAE-F. Agent: Please give me a second. . Customer: <https://www.supermicro.com/en/products/motherboard/x11sae-f> thank you!. Agent: You have been looking for MCP-260-00063-1N?. Customer: that's it yeah. . Agent: Please give me second. . Customer: 🙌 . Agent: You can also try looking for MCP-260-00063-0N. Can I help you with anything else?. Customer: thank will try. Agent: Hi Theodoros How can I help you today?. Customer: Hello Liz. May i ask you why are you open only for US ? I am living in Greece and i have not the option to buy directly from you. Agent: I'm sorry, we currently only can ship within the US and accept the US credit cards. You check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Or contact with our Sale teams at Sales-USA@supermicro.com for direct purchasing. Customer: I hope this will change in the future. Anyway, thank you for your accurate and prompt response. Agent: Yes, we probably will open outside the U.S in the future. You're welcome. Is there anything else I may help you with today?. Customer: For the time being no Have a nice day. Agent: Thank you! It was nice talking to you. Have a great day, goodbye! Hi Valentin. Customer: hi Tim one short question i'm from romania can i order things from you and have them shipped to me in romania?. Agent: Unfortunately, our Supermicro eStore only ships within the US. . Customer: damn. Agent: I apologize for any inconvenience. Customer: no problem. Agent: hopefully we'll expand soon n. Customer: i hope so too. Agent: I'll be sure to let my managers know about this. Customer: i'll stick with the eu suppliers. Agent: sounds good. Customer: but they are quite weird. Agent: <https://www.supermicro.com/en/wheretobuy/>. Customer: i know but they are singing the old song supply chain problems. Agent: yeah. Customer: and it does on and on. Agent: we're dealing with a lot of supply chain issue ourselves. Customer: agree. Agent: so i'd imagine our resellers/distributors are going through the same if not worse. Customer: but when i check your store and see the parts available and they charge me and then i get the parts with almost 2 months of delay. Agent: yeah shortages is impacting everyone i apologize for the inconvenience. Customer: i start to check other ways to get the parts which i need. Agent: What is the part you are looking for?. Customer: no, Tim, you don't need to apologise i was looking after some ram upgrades for one of my 510P-WTR servers. Agent: do you have the part number?. Customer: let me open a new tab. Agent: maybe i can help you alternatively by providing you with the manufacturer part number. Customer: is the 64gb rdimm running at 3200mhz i need 8 pieces i have 8 x32gb atm. Agent: do you have the Supermicro part number by any chance?. Customer: but i need more ram. Agent: it's important that you use the same identical memory. Customer: i'm replacing the entire ram. Agent: oh ok Understood let me look this up for you. Customer: since the board has only 8 ram dimm sockets sorry for my english if it sounds a little bit rusty. Agent: it actually doesn't look like there are any 64GB validated with this system so you'll have to stick with 32GB until we validate the 64GB. Customer: for the 510P-WTR?. Agent: yes that's correct. Customer: damn i saw some modules in the store and i typed in the server part number. Agent: wait sorry. Customer: i'm sunning now some samsung modules with a xeon gold 6348. Agent: i think i'm looking up the wrong SKU. Customer: without any issues. Agent: My apologies i was looking up 510T-WTR for some reason. Customer: SYS-510P-WTE WTR. Agent: ok i see it now. Customer: x13 x12 3rd gen xeon. Agent: Any brand preference between Samsung, Micron, or Hynix?. Customer: hmmm i would prefer micron or hynix. Agent: MTA36ASF8G72PZ-3G2F1. Customer: as i understood hynix took over the enterprise ssd's from intel. Agent: here's the part number to a memory that is validated with

your system perhaps you can search by this part number to see if you're able to buy elsewhere.

Customer: i'll do that thank you Tim. Agent: is there anything else I can help you with?. Customer: no really appreciate you t. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: your help. Agent: 😊. Customer: bye. Agent: bye Hi Donna How can I help you today?. Customer: I'm trying to place an order online for quantity 4 of the above SKU, however, it says only 1 is available and to contact SuperMicro: "We currently have "1" of the "Supermicro (Seagate) 14TB 3.5" 7200RPM SAS3 12Gb/s 256M Internal Hard Drive (HDD-3A14T-1FECD)" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat". Agent: You want 4 of HDD-3A14T-1FECD <https://store.supermicro.com/hdd-a14t-st14000nm002g.html?> Customer: Yes. Agent: We currently only have one in stock on our eStore. But i can request inventory transfer. This can take a while. Can i email you at dconran@toyon.com once i get an update there is enough in stock?. Customer: Yes. If you are able to transfer inventory, then do I just place the order online as I was going to do, or is there a "special" way to then order. Also, please be aware that this is tax exempt and you have our CA Resale Certification on file. . Agent: Please give me a moment I just submitted the inventory transfer ill email you once i get an update. We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Can I help you with anything else?. Customer: Chat is idle due to 10 minutes of inactivity. Agent: It was nice talking to you. Have a great day, goodbye! Hi David How can I help you today?. Customer: Trying to determine what the -48VDC fuse size needs to be for the PWS-1K11P-1R. . Agent: Please give me a moment while I check for you. Please bear with me for a few more minutes while I check for you. . Customer: That' fine. . Agent: Can I email you back via davidgarland@panoratelco.com? I will need to double check internally for this information. Customer: That would be great. I'm just not understanding whats on the label for the product and can't find anything definite. I appreciate the research. . Agent: May I know which part is not clear for you?. Customer: 30-25A or 30-17A. Agent: I see. I will double check for this part and get back to you via email. . Customer: Thank you. Agent: You're welcome. Is there anything else I may help you with today?. Customer: nope. thank you. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: i need a price quote. Agent: Hi scotty How can I help you today?. Customer: looking for a quote for purchasing a server to give to our finance officer to purchase. Agent: is this for sys-5019D-fn8tp?. Customer: yes along with ram and a few HDD to complete it. Agent: Unfortunately we don't carry this system on our es our eStore*. Customer: where could i purchase it. Agent: I can find you something similar, if that is something you are interested in. But if you would like sys-5019D-fn8tp. You can contact our Sale team at Sales-USA@supermicro.com Tel: +1 408-503-8000. Customer: its for an army purchase so yes i will email them on it. Agent: Of course, they'll be able to help you with this particular system. Can I help you with anything else?. Customer: nope that will do it thank you. Agent: you're welcome! It was nice talking to you. Have a great day, goodbye! Hi Eric How may I help you?. Customer: Hello - I just got 10 MCP-220-00043-ON - 3 screws and a tab ?? Where can I get paperwork on it ?. Agent: I'm sorry, which paperwork do you ask for please? Do you mean installation guide?. Customer: am i suppost to cut tye tab - yes paper work [. Agent: Please give me a moment while I check for you. . Customer: k. Agent: This is what I can find for the MCP-220-00043-ON installation. Customer: the tray has a tab on the side - too long for the slot. Agent: hmm, may I know your chassis part number/serial number please? I would need to check if the MCP-220-00043-ON is

compatible. Customer: the tab fits in one side of the tray - but then it will be upside down - let me get another tray. Agent: Ok. Customer: something is wrong ????. Agent: May I have your chassis part number please?. Customer: y cse-745. Agent: Can have the full part number please? We have a lot CSE-745 chassis type. Customer: c74500a4800452 C74500A48M00452. Agent: Thank you! Please give me a moment while I check for you. Your chassis part number is CSE-745TQ-R800B. Let me check for the converter tray for your chassis So you should use the MCP-220-00080-0
Bhttps://store.supermicro.com/mcp-220-00080-0b.html?queryID=0617494b58fa994c13f69416ea29f430&objectID=938&indexName=supermicro_default_products https://store.supermicro.com/mcp-220-00080-0b.html?queryID=0617494b58fa994c13f69416ea29f430&objectID=938&indexName=supermicro_default_products The MCP-220-00080-0B will fit to your chassis instead of MCP-220-00043-0N. Customer: HOLD ON. Agent: yes. Customer: i am trying to see difference - give me a sec. Agent: You also can check the tray converter information from the chassis page here <https://www.supermicro.com/en/products/chassis/4U/745/SC745TQ-R800B> it is in the optional parts list The MCP-220-00080-0B is tested and validated from our lab with the CSE-745TQ-R800B I checked the serial number you provided me above (C74500A48M00452) and it shows on my end your chassis part number CSE-745TQ-R800B We do not recommend the part which hasn't been tested/ validated. Customer: Ok - let me work on this - i have the trays now. Looks like just the tab on the side is too long. Can anyone confirm this. Agent: Do you mean confirm the MCP-220-00080-0B works for you chassis?. Customer: I have a bunch of the - MCP-220-00043-0N. Agent: I see. You can try to do it, but we cannot guarantee or confirm anything since the MCP-220-00043-0N is not validated with the CSE-745TQ-R800B chassis. If you can return the MCP-220-00043-0N, I would recommend you use the MCP-220-00080-0B instead. Customer: I will look into this - Thank You - Buy. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Michael How may I help you?. Customer: I want to get a quote, how do I do that?. Agent: You can use this link for request a quote: <https://store.supermicro.com/quote#> May I know which product are you looking for quote?. Customer: I'm looking to order four 8xA100 servers budget is 500k I can send the specs. Agent: Yes, which server skus are you looking for?. Customer: I have the specs, no idea if you can build it, that's why I'm asking. Agent: Sure, You can send the spec of the server to eStore-support@supermicro.com email. Customer: ok. Agent: Is there anything else I may help you with today? Hi Steve!. Customer: hi tim. Agent: How many are you looking to purchase?. Customer: 4. Agent: and for which product?. Customer: Supermicro 2U-3U Rail Kit (MCP-290-00053-0N). Agent: Please wait while i look this up. Customer: ok. Agent: The reason why you're getting the error is because we only have 2 in stock. i'm currently updating our inventory i've just updated the inventory now can you please refresh the product page and add 4 to your cart are you able to get 4 in your cart?. Customer: I got 5 in there and change it ti 4. Agent: ok sounds good i'm glad it worked out. Customer: thank you. Agent: Is there anything else I can help you with today?. Customer: nope I am good. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: bye. Agent: Hi Brian How can I help you today?. Customer: i just purchased this motherboard: M11SDV-8C-LN4F to go inside a 505-203B i am curious what adpater i would need for the power supply. I see that the motherboard takes an 8 pin and the chassis comes with a 24 pin. Agent: For the chassis 505-203B i see it comes with PWS-203-1H. Is this the current power supply you have?. Customer: yes, that is the one i am getting with the chassis. Agent: I see, Please give me a moment to look into this. . Customer: ok thank you. Agent: With the Power supply PWS-203-1H you won't need any extra adaptor since it has 8-pin already. . Customer: ahh ok, great. And just curious is there any other otions for a power supply for that chassis?

one that might be more efficient?. Agent: That's the only ones listed on the chassis components but let me double check internally. i wasn't able to find any other validated PWS for this chassis. Can I help you with anything else?. Customer: i think that should do it. Thank you!. Agent: You're welcome! It was nice talking to you. Have a great day, goodbye! Hi Steve. Customer: fix the bill to address... this does this all the time. Agent: What error are you seeing?. Customer: bill to is PO Box 81845, Austin tx 78708 it is telling me that the bill to does not match. Agent: Let me check, it should have been whitelisted previously. Customer: OK and there is not a place for me to fix. Agent: PO Box 81485, Austin, TX 78708-1485 add the 4 digits to the 9 digit zip code. Customer: yes tht is the bill to where?. Agent: If you're still having issues changing your billing address, please follow the next steps: 1) Once you have your shipping address entered and have chosen your shipping method, proceed to the payment method section. 2) Uncheck the "My billing and shipping address are the same" box 3) From there, you can select to add the new address, which you can enter the billing address. there should be a zip code field. Customer: done, thanks for the help. Agent: You're welcome! Sorry about the inconvenience, it's always that 9-digit zip code Can I help you with anything else?. Customer: no I am good... bye. Agent: It was nice talking to you. Have a great day, goodbye! Hi Edgar How can I help you today?. Customer: are these still active ? AOM-TPM-9665V-S. Agent: Please give me a moment while I check for you. Yes, it is still active on my end. However, we don't carry any AOC on our eStore. Please check with our resellers for availability <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today?. Customer: no thats all. Agent: You're welcome. . Customer: Hi. Agent: Hi William How can I help you today?. Customer: My company is interesting in getting set up to make purchases using purchase order How do we get started on that?. Agent: Our eStore doesn't accept PO's. . Customer: ok thanks. Agent: We only accept credit cards and ACH payments. Customer: ACH That might be what we want how do we get set up to pay by ACH ?. Agent: For ACH this the process: • The process will take up to 7 business days (verification/processing) before we can process the order • So in all, it could be around 10-14 days before you receives the server • The way you apply for ACH is when you get payment method during checkout. Select ACH Bank Account Transfer. Then you have fill in your information and place your order. . Customer: ok, thank you I will relay this info to our purchasing department. Agent: Please give me a moment i can show you screenshots on it looks. When you are checking out during payment there is an option for ACH. . Customer: ok, perfect thank you!. Agent: You're welcome! Can I help you with anything else?. Customer: no, that is all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hi. Agent: Hi Bjoern. Customer: Just one question. I build up my first homelab to get a better feeling for recommendations in the company and so I found your m-ITX solutions. Agent: How can I help you with our ITX solutions? Was there a particular model you were looking for?. Customer: There was a system in the past which would fit perfect: <https://tinkertry.com/superservers#Bundle1-12c> But it seems like you only had 200 of those? Supermicro SYS-5028D-TN4T With Xeon D-1567 I cant find it anywhere... Do you have such "somewhere"?. Agent: Have you tried with our resellers or Sales team? May I ask where you are located?. Customer: germany. Agent: Oh ok <https://www.supermicro.com/en/wheretobuy>. Customer: those shops dont even list many parts - I can get more stuff from you on amazon. Agent: you can filter for your region/country. Otherwise, you can try checking with our Sales team in Europe: Sales_Europe@supermicro.com. Customer: ok. Another question: whats the difference between Supermicro SC721TQ-350B and Supermicro SC721TQ-350B2 technical - not literal ^^ . Agent: Let me check, most likely the power supply. Customer: thx. Agent: Ok the 350B uses an older USB 2.0 port while the 350B2 uses USB 3.1. Customer: Ah that a great information! Thanks Do you have and information

about m-itx boards with support for ≥ 10 cores + HT? The max I could find was 8/16 to fit in this housing. Agent: Currently, we have two m-itx boards but let me check. Customer: I would switch to AMD if necessary ^^.

Agent: looks to be only 10 cores supported

<https://www.supermicro.com/en/products/motherboard/X12SCV-LVDS>. Customer: 10C/20T?. Agent: All it says is Intel® Xeon® W-1200 Processors, 10th Generation Intel® Core™ i9/Core™ i7/Core™ i5/Core™ i3 Processor that it can support. Customer: hmm and its not possible to replace the CPU on X10SDV-TLN4F like it was preconfigured on the series I linked right?. Agent: If its in a bundle, I'm not sure. That's up to the vendor. Customer: so bundle means the CPU is a seperate part or soldered?. Agent: Let me check. Customer: Thx - its confusing because its described as SoC but those boards existed so... I don't know if it would be possible for me to buy and replace. Agent: Ah it looks like it comes with the Intel® Xeon® processor D-1541. Customer: yes that was the default version. The one with 1567 I couldn't find on any website if it even had an own naming. Agent: I see Yeah we wouldn't know from our end. You can check with our Sales if this would be available if you haven't found any success with our resellers. . Customer: Ok thanks - you helped me nevertheless ;) have a nice day. Agent: You're welcome and thank you! It was nice talking to you. Have a great day, goodbye!.

Customer: Bjoern Neuhaus left the following comment: Kind, checked every question, good first impression on my first contact to sm. Agent: Hi Jim How can I help you today?. Customer: Hi Liz... I am trying to purchase 2 servers... your online cart refuses the 2 CC I have tried. I know they are not over limit and I use these cards on other sites all the time No I have tried so many times the cart is telling me it will not process because of too many failures now not no. Agent: Please give me a moment while I check for you. . Customer: OK Tim transferred the chat to Tim. Agent: Hi Jim according to our records, the card issuer is declining i would recommend checking with your credit card company real quick to see what the issue is. Customer: Is that for both cards? The AMEX and the Cap One Spark?. Agent: the AMEX, you entered the wrong card number or front 4 digit code. Customer: Well... I copied and pasted it out of out LastPass. Which is what I always do. . Agent: that's odd would you mind entering it manually. Customer: I don't have physical access to that card.... but I use it all the time. Ya I'll try that.... . Agent: the exact wording says "Declined (authorization with the card issuer was successful but the transaction was declined due to a card code mismatch with the card code on file with the card issuing bank) this is for the AMEX card. Customer: OK Ya, this is a different error than what i got the first 4 or 5 times.... but this is what I get now.... Checkout is currently unavailable due to excessive errors. Please contact us for assistance. ... so seems I have been locked out. Agent: let me check on my end. Customer: original errors where something along the lines of transaction refused. Is this the same Tim that I have been emailing back and forth with?. Agent: Yes. That's me. Customer: LOL... Hey. Agent: yeah i was going to respond to your email and saw your chat pop up so i think what happened is you tried too many times within a certain amount of timeframe so we recommend checking your card issuer to see if they blocked it because sometimes they block it due to fraud especially if they are trying over and over again after you checked with them and clear out all the issues, i would recommend trying to place an order again i apologize for the inconvenience and trouble this may have caused. Customer: OK... I just got in touch with our Controller.... she's checking that AMEX. Agent: we just want to make sure it's you (or your company in this case). Customer: ... ya, I get it... that's good. I just had issues right from the start trying to use this. Our controller is logging in. . Agent: ok sounds good. Customer: Our controller says the card shows 5 charges all for \$6438.91 all pending!!!!. Agent: the charges did not go through those pending charges occur when the order is decline. Customer: Your website told me it had denied the transaction???. Agent: towards the end of the day, those will pending charge will release as that's when they usually check with the merchant whether the transaction is

successful or not if it is not successful (like this case), those pending charges will be lifted if it is successful then we'll process the payment. Customer: Ok... at this point I am frustrated and more than done. We will wait until tomorrow. I will put eyes on that physical CC and make sure I have all the right info. . Agent: I totally understand. I think it's best to wait until tomorrow. I apologize for any inconvenience this may have caused. Hopefully the payment will be lifted soon and it'll work out tomorrow. Again, we're sorry about this. Feel free to reach out via email or live chat. I'd be more than happy to assist. Customer: Thank you Tim... have a good evening, or morning... whatever your timezone. Agent: have a good rest of your day! Thanks again Jim!. Customer: hello looking for 1 unit of PWS-2K21A-BR. Agent: Hi Saad. Customer: do you have this instock?. Agent: Please give me a moment while I check for you. . Customer: ok. Agent: How many do you want?. Customer: 1 unit do you have?. Agent: We should have in enough for you https://store.supermicro.com/2200w-blade-pws-2k21a-br.html?queryID=bbb00b3e32155b4f9032fec895f3ffc9&objectID=874&indexName=supermicro_default_products. Customer: how should i make a purchase? should i send PO to you for blind drop ship?. Agent: May I know where are you located?. Customer: can you quote me discounted price? we are located in USA CA. Agent: Unfortunately, we don't have any discount for 1 units. We also only accept Credit Cards and ACH bank transfer. Customer: where should i send PO can you do blind drop ship?. Agent: Unfortunately, we don't accept PO. We can do blind or drop ship. . Customer: should i place online?. Agent: Yes, please go ahead to add the power supply to your cart and purchase it online with your credit cards. Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com. It was nice talking to you. Have a great day, goodbye!. Customer: Saad Arif left the following comment: i have placed the order Your order number is: 1000024704. Hello. How may I help you? i have placed the order Your order number is: 1000024704. . Agent: Hi Saad. Customer: make it blind drop ship to my customer. Agent: of course. . Customer: ok TY. Agent: Can I help you with anything else?. Customer: thanks when should i get the tracking?. Agent: You should get it by the end of the day. . Customer: ok ty. Agent: You're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: Hi there, I recently acquired a X11SCH-F motherboard from a Spanish Supermicro retailer and am currently looking for ECC RAM to add up. Agent: Hi Rui. Customer: I'm going to pair that motherboard with a used Xeon E-2124. Agent: Ok, so you were just looking for compatible memory? what capacity and speed were you looking for?. Customer: Yes, that's it. I'm looking for at least 32GB since I'm planning run a ZFS Raid-Z2 in TrueNAS Core with 8 HDDs and I'm gonna be using several Jails and Plugins, probably some soft virtualization too. Regarding speed, I believe the CPU and chipset caps off at 2666 MTs so maybe that, I guess. Agent: Ok understood, let me check what would work with this motherboard <https://store.supermicro.com/32gb-ddr4-2666-mem-dr432l-cv02-eu26.html> is compatible. Customer: Perfect, and I have a bulky heatsink so the VLP form factor will come in handy, too. Agent: Yeah for sure. Customer: One more question: does the board support Registered ECC and if so, do you think it's worth it for a Home NAS environment with non-critical data?. Agent: This motherboard does not support registered DIMMs, just ECC unbuffered hence the EU in the naming convention. Customer: Thank you very much, Kyle. I will proceed with the order now 😊. Having ECC is already a good step towards integrity, RDIMMs would probably be overkill anyway. Agent: You're welcome! Also may I ask where you are shipping these to?. Customer: Portugal. Agent: Ahh ok I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> But at

least you have the model#. Customer: Yeah, that's already a big favor you did for me. The thing is it's super hard to get server grade hardware in Portugal because supply is extremely low and prices way over inflated. Agent: Oh I see, that's unfortunate. Perhaps one of the US resellers can ship to you hopefully. Customer: Still, I came here to get my doubts cleared up and you did that perfectly. Thank you so much! I will scan european retailers and see my options :). Agent: You're very welcome Can I help you with anything else?. Customer: No, that's all You guys are awesome, have a wonderful day. Agent: Thank you! It was nice talking to you. Have a great day, goodbye!. Customer: Rui Castro left the following comment: Fast, informative and polite. 10/10, I went out an extremely happy customer! hi. Agent: Hi Alex How can I help you today? Do you asked for tax exempt? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Alex Ivar Calvimonte Rocha left the following comment: I want to buy hard drives, I have my postcard there in Miami, but my credit card is not accepted Hello. How may I help you?. Agent: Hi Alex. Customer: I want to buy hard drives, I have my postcard there in Miami, but my credit card is not accepted. Agent: I'm sorry, but unfortunately, we only accept the U.S credit cards/ACH bank transfer at the moment. Please check with our resellers and distributors for availability.

<https://www.supermicro.com/en/wheretobuy> May I know your credit card billing information is in the U.S? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com. Customer: The shipping data is with our address from there in the United States. I gave you the address. . Agent: I mean the your credit card is the US credit card?. Customer: no, bolivia. Agent: I see. I'm sorry, but unfortunately, we only accept the U.S credit cards/ ACH bank transfer at the moment. . Customer: Okay, so I could make a bank transfer, what would be the data?. Agent: The bank transfer also need the US bank. . Customer: paypal jejej. Agent: We don't accept paypal, unfortunately I'm sorry for this inconvenience. Customer: mmm. Agent: Note: The billing address information of your payment should be the address in the United Stated. Customer: ok. Agent: Can I help you with anything else?. Customer: 4283 EXPRESS LN, Suite 7062-042 SARASOTA, FL US 34249-2602. Agent: Is this your credit card address? or bank account address?. Customer: is the billing address. Agent: If that is, you can purchase with us. . Customer: The problem is that the credit card was issued to me by a Bolivian bank in Bolivia. . Agent: That's mean your billing address is in Bolivia not the U.S though. Customer: I currently reside in Bolivia, I have the box there in the US at the address I showed you. Agent: In order to place the order, your payment (bank/ credit cards) need to be issued by a US bank, unfortunately. Customer: ok. Agent: You can contact our resellers or distributors at <https://www.supermicro.com/en/wheretobuy> You can use the filter to search resellers located in the Bolivia Is there anything else I may help you with today? Hi Fernando How may I help you?. Customer: Hi, Im looking for memory for this server Nutanix NX-1065-G6 32GB capacity. Agent: Here is the link for all 32GB memory we currently have https://store.supermicro.com/memory/ddr4.html?memory_size=11 Hi Juan. Customer: hola. Agent: How can I help you today?. Customer: me puedes ayudar con un servidor. Agent: I'm sorry, can you please speak English? We don't want to misunderstand you by using the translate. Customer: ok. Agent: Thank you! May I know how can I help you?. Customer: I need to buy some servers MBD-X10DAI. Agent: I see. can you please confirm if you are a U.S. customer and are fine with using a credit card (Visa, MasterCard, and American Express)/ACH Bank Account Transfer as a form of payment?. Customer: I

need to buy some servers, do you ship to Peru?. Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships and sells within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> or you can contact our Sales team at Sales-USA@supermicro.com. Customer: I can pay by any of those means that you indicate. Agent: Yes, but our eStore can not ship to outside of the United State. Is there anything else I may help you with today?. Customer: How can you help me or refer someone who makes sales to Peru?. Agent: You can contact our resellers from this link <https://www.supermicro.com/en/wheretobuy> or email Sales at Sales-USA@supermicro.com Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Eben How can I help you today?. Customer: what is the availability of this system with an AMD Ryzen Threadripper pro 64 core processor?. Agent: We currently has this in stock <https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html> How many of this system do you want?. Customer: Do you have that specific CPU? (64 core version). Agent: Can you see the 64 core option on from the link at CPU option. Customer: Yes, I checked it off when configuring a system. Where do you ship from? I.e. is this going to get stuck in a shipping jam coming into the US?. Agent: We ship from California and only ship within the US Is there anything else I may help you with today?. Customer: Nope, off to talk to the boss about buying a system...!. Agent: Sound good! Please let us know if you need any assistance It was nice talking to you. Have a great day, goodbye! Hi Tiffany How can I help you today?. Customer: Hi Mark, how can I apply sales tax exemption to my online account?. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to estore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> There isn't a way to add it to your account. You have to let us know each time after your order to apply tax-exempt to your order. . Customer: who do I email after the order is placed to refund sales tax?. Agent: estore-support@supermicro.com. Customer: perfect, thanks Mark!. Agent: You're welcome! Can I help you with anything else?. Customer: Nope, that's all for now. Have a nice weekend. Agent: Thank you! It was nice talking to you. Have a great weekend, goodbye!. Customer: bye :) hello. Agent: Hello Carlos. Customer: hi, im checking on Order # 1000024677. Agent: Sure, let me check for you. . Customer: was hoping it would have shipped by yesterday, still says pending. Agent: During assembly, there was a defective part that needed replacement so the hope is it will ship out today, no guarantees though. . Customer: ok tks. Agent: you're welcome you will get a shipping/tracking email when it does. Customer: ok. Agent: Can I help you with anything else?. Customer: that was it, tks. Agent: It was nice talking to you. Have a great day and weekend, goodbye! Hi Mehul How can I help you today?. Customer: I am looking for this server. SYS-220HE-FTNRD Location: Richardson, USA Richardson, TX, USA two of them. Agent: I'm sorry, but unfortunately, we do not carry this server on our eStore. Do you look for this specific server SKUs only?. Customer: how do I purchase this one? Whom do I contact ?. Agent: Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Or our Sales team at Sales-USA@supermicro.com Is there anything else I may help you with today? We haven't heard from you in

awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com. Customer: Thanks. Agent: You're welcome. Is there anything else I may help you with today? It was nice talking to you. Have a great day, goodbye! Hi Roma How can I help you today?. Customer: hi I'm looking for this item <https://store.supermicro.com/720w-1u-pws-721p-1r.html> do you know whe is going to be in stock?. Agent: This power supply is currently EOL. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: ok thx. Agent: You're welcome! Can I help you with anything else?. Customer: I have a customer in Canada that does not see the "buy now" feature to buy online do you know what's wrong?. Agent: I'm assuming you are referring to the corporate site?. Customer: yes. Agent: That's because we just enabled eStore server business for only certain states/country. Customer: canada is not on the list. Agent: Canada is not on the list you can have this customer use our auto-configurator Hi Stephan How can I help you today?. Customer: Hi Liz I'm searching for a drive tray for the CSE-M28SACB. Which one is compatible? The MCP-220-00090-0B one seems not be available anywhere. . Agent: Oh I see. I'm about give you the MCP-220-00090-0B part number. Please give me a moment while I check for you if we have any alternative. You can use the MCP-220-00047-0B. It is the same as MCP-220-00090-0B, but is different style of the bezel and handle. https://store.supermicro.com/mcp-220-00047-0b.html?queryID=10e6ee6ee2ecd62f8bece86479818c&objectID=634&indexName=supermicro_default_products. Customer: ok, so i will try this one. . Agent: Sound good! Is there anything else I may help you with today?. Customer: But you are sure that they are compatible. . Agent: Please give me a moment while I double check for you. Can I email you back via stephan.schuetz@terra.ch? I would need to double check internally to have the confirm for this. Customer: Yes that^s ok. How long does shipping to Switzerland take if I order 8 pieces?. Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. You can check with our resellers and distributors in Switzerland for availability. <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today?. Customer: No, thank you. I will wait for your eMail and then have a look for a reseller in europe. Thank you. . Agent: Sound good! You're welcome. I will email you back as soon as I have the confirmation It was nice talking to you. Have a great day, goodbye! Hi Eduardo. Customer: Hi Mark. I live in Brazil anda I have some supermicro products and would like to buy this one in June when I will stay in Florida. How can I do it?. Agent: You are looking for the Ultra SuperServer SYS-120U-TNR?. Customer: Yes Maybe SuperServer 1029U-TR4 . Its depend of the price. . Agent: I see, please give me a moment. . Customer: My doubt is that if I can bay it on line in eStore and pick up later. . Agent: In order to buy from eStore you'll have to have valid U.S shipping & billing address. We only ship within United States We don't hold orders. . Customer: Ok. So, Can I use my friends address to delivery? Or some Box. Agent: Yes you can use your friend's address You'll just need a credit card with a billing address within United States. Customer: I can not use International Credit card from Brazil? Or paypal?. Agent: Unfortunately we don't take Paypal. Only CC's with U.S billing address. I would also like to mentioned we currently don't have 1029U-TR4 or SYS-120U-TNR in stock. I would have to check the ETA. . Customer: Do you have some similar? Sorry, but what is ETA?. Agent: The ETA is 1.5-2 weeks. Please give me second to find something similar. Something similar is SYS-120C-TN10R Do you have account with us?. Customer: Let me check with my technical employe. Agent: Of course. let us know if you do. . Customer: I'm not get to find he Could you check if there is some email adress @expertsystem.com.br. Agent: Please give me a amount We can't find anything with those email Please create an account on the link, and after creating your account give me the email used so we can enable you to see our systems.

<https://store.supermicro.com/customer/account/create/>. Customer: Done.
eduardo@expertsystem.com.br. Agent: Please login out and log back in and you should have access to our servers <https://store.supermicro.com/customer/account/login/> This system i mentioned we have in stock <https://store.supermicro.com/sys-120c-tn10r.html>. Customer: Ok I'm Logged. Agent: awesome!.
Customer: Is there another option to pay with out a credit card?. Agent: Unfortunately no we only accept CC's with U.S billing address. . Customer: I have an American Debit card but the address is in Brazil. . Agent: I see, unfortunately our eStore won't accept it due to Non-US address. . Customer: Thanks for your attention. See you. . Agent: You're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: Bye. trying to place an order and unable to place, check billing address. it is 100% correct.. Please check the billing address information. Invalid value of "846" provided for the regionId field. . Agent: Hi Bart, let me check for you. Customer: k. Agent: What's the complete address?. Customer: BILLING: 22099 flower dr boca raton fl 33428. Agent: Ok thanks! Can you try using 33428-4628 for the zip code?. Customer: i did it automatically changed it. Agent: So weird, ok. Give me a moment while I check. Customer: Please check the billing address information. Invalid value of "846" provided for the regionId field. Bart Stall 22099 FLOWER DR BOCA RATON, 33428-4628. Agent: Ok thanks I'm unable to replicate using that address. I did not choose the recommended address though I did enter exactly as 22099 FLOWER DR BOCA RATON, 33428-4628. Customer: and the order went thru? wanna place it for me?. Agent: Oh I see you get the error when trying to place the order. Customer: yup. Agent: so the address isn't the issue. Customer: correct. Agent: let me check with our dev team on this. Customer: standing by. Agent: Ok, hopefully not too long Thanks for waiting. Can you try inputting the address manually without using auto-fill? Click on edit address and enter everything manually on each field. . Customer: stand by. Agent: Ok will do. Customer: Your order number is: 1000024714. thanks for your help. Agent: You're welcome! I see it now Great! Can I help you with anything else?. Customer: all set. have a great weekend. Agent: Thank you! Have a great weekend, goodbye!. Customer: Hello, I think this is the wrong site.. I was looking to possibly purchase a SuperMicro X11 or X12 motherboard (SPA-T/SPA-TF). . Agent: Hello Coleton I'm sorry, but unfortunately, we do not carry any motherboards on our eStore. Please check with our resellers and distributors for availability.
<https://www.supermicro.com/en/wheretobuy>. Customer: Oh, okay. Thank you. . Agent: You're welcome Can I help you with anything else?. Customer: I think that's all. :). Agent: It was nice talking to you. Have a great day, goodbye!. Customer: I'm looking for the recommended RAM for the X11STN-H motherboard. Agent: Hi Sam! Can you please confirm the motherboard part numbber? Are you there? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Courtney How can I help you with tax exemption? We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to estore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. nice talking to you. Have a great day, goodbye! Hi Terrence How can I help you today?. Customer: Hi, I'm looking for a chassis for my motherboard, but I already have a PSU, it's an ATX PSU. Agent: I see. However, we do not carry any chassis on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: I was looking more for a recommendation lol. Agent: You can check more compatible chassis on our main site here <https://www.supermicro.com/en/products/motherboard/H12SSL-CT>. Customer: They all come with PSUs, where are your chassis's with no PSU?. Agent: I don't think we have the chassis without PSU though. But you can check with our sales team to see if they have the solution for you. Customer: Ok 👍 . Agent: Sales-USA@supermicro.com. Customer: Ok 👍 Thank you 🙏 . Agent: You're welcome. Is there anything else I may help you with today?. Customer: No, that was all, thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Medina. Customer: I have been trying to place an order for 2 days. This site won't let me because it keeps telling me that my billing address and shipping address don't match Our location is different than our billing address. We are Applied Research Laboratories-University of Texas. I am using my company issued credit card for this facility but the bills go directly to the UT campus. . Agent: I see. You need uncheck My billing and shipping are the same. . Customer: I have tried that numerous times but it defaults back to being checked. I kept trying this yesterday and the site kicked me out saying that there are too many errors. This is a product that we really need to order asap. Can I order it from supermicro any other way.?. Agent: Please give us a moment I am going to try to duplicate your case. Medina Stout Applid Research Laboratories 10000 Burnet Rd AUSTIN, Texas, 78758-4423 United States T: 5125071193 Is the shipping. What is the billing address?. Customer: The company name is Applied Research Laboratories (not Applid) shipping 10000 Burnet Rd. Austin TX 78758 The billing address is- 1616 Guadalupe, Austin, TX 78701. Agent: please give me moment to try this I was able to add the shipping and uncheck My billing and shipping are the same If you get error during payment method please try Ctrl-F5 When you put your billing address, put this exactly :Medina Stout Applied Research Laboratories 1616 Guadalupe AUSTIN, Texas, 78701-1204 United States Our end we seeing that the billing and shipping is the same. Please uncheck the "My billing and shipping address are the same". Customer: That is the address on file but when I try to process payment it tells me that there is an AVS error and that the information doesn't match my billing address linked to the card I'm using. I have submitted two previous order using this account with no problems. . Agent: The reason your are getting "AVI mismatch" is because the billing & shipping are both the 10000 Burnet Rd. Austin TX 78758. Customer: now when I de-select the billing/shipping are the same, it gives me the option of typing in a new address or selecting a drop down box it gives me the billing address. Agent: If the selection box has the address: 1616 Guadalupe AUSTIN, Texas, 78701-1204 United States Please select it If there is not, please select the new address and input exactly the address below:(with 9 digit zipcode) 1616 Guadalupe AUSTIN, Texas, 78701-1204 United States Awesome i seen it went through!. Customer: Okay. That worked! Thank you so much for your assistance. Have a great weekend!. Agent: You're welcome! It was nice talking to you. Have a great weekend, goodbye! Hi Benjamin. Customer: Hi KYLe. Agent: How can I help you today?. Customer: I am looking to purchase 6 of these servers SYS-5019P-WT but I see that they are out of stock. Can you see if it is possible to restock these?. Agent: Sure, let me check on availability for you. Customer: Thanks. Agent: Thanks for waiting. It looks like it may be another 2-3 weeks till this server is available. If the following option is ok, SYS-5019P-WTR, we do have this version in stock and the difference is that it has redundant power supplies. <https://store.supermicro.com/wio-server-1u-sys-5019p-wtr.html>. Customer: Okay thanks for the info. The only difference is the redundant power supplies?. Agent: That is correct. Customer: Okay thank you.

Agent: You're welcome! You should be able to choose the same components and the motherboard is the same. Would this work for you?. Customer: Yes that will work, I'm going to look into it and probably do that. Agent: Sure sounds good, we do have 17 currently in stock for that version. Can I help you with anything else?. Customer: No, thats all thanks have a great weekend. Agent: Thank you! It was nice talking to you. Have a great weekend, goodbye!. Customer: Hi Mark. Agent: Hi Mike How can I help you today?. Customer: Can you tell me when the following 2 SKUs will be avaialble? SYS-E300-12D-10CN6P SYS-E302-12D-8C. Agent: Please give me a moment to check. Is it okay if can email you back at mike@telemitra.com when i get an update?. Customer: yes that would be great, thank you. Agent: have you seen the two IoT we have available on our eStore? SYS-E100-9S <https://store.supermicro.com/sys-e100-9s.html> we also have SYS-E100-9W-H <https://store.supermicro.com/sys-e100-9w-h.html> but it's not in stock i can get the ETA if you are interest. . Customer: yes, I have a customer that is very particular, looking for those two units specifically. Agent: I see,. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> You can also contact our Sale team at Sales-USA@supermicro.com Tel: +1 408-503-8000 Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Wayne. Customer: Hi. Agent: This MCP-290-00053-0N is included Inner Rail: 1 x MCP-290-00115-0N Outer Rail: 1 x MCP-290-00113-0N each of inner rail and outer rail should have 2 side. Customer: so this is a complete kit to mount a server left and right?. Agent: Yes. Customer: ok thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: that was all - thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: you too - bye. Agent: Thank you! Hi David How can I help you today?. Customer: I am wanting to buy this: BPN-SAS-116TQ 1U SAS / SATA HDD Backplane the supermicro part number is BPN-SAS-116TQ. Agent: I'm sorry, but unfortunately, we do not carry any backplane on our eStore at the moment. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com Hi Dimitrii. Customer: Morning Liz, I'm looking to order 5 of the AS-5014A-TT machines, but it looks like you only have 2 CPUs in stock? This is the CPU: AMD Ryzen Threadripper Pro 16-Core 3.90 GHz 64MB Cache could you confirm that there are only 2 of those CPUs in stock right now?. Agent: Please give me a moment while I check for you. We currently have 2 of 16 core CPUs in stock currently, but I can double check internally to see if we can request more inventory for this CPUs. Can I email you back via dmitrii.galantsev@amd.com as soon as I confirm the stock on my end?. Customer: Yes sounds good! Please send email when you confirm. Also, could you get an estimate for when you will have more in stock?. Agent: Yes, I can check for the lead time of this CPUs and email you back with the inventory information. . Customer: Awesome thank you so much, that's it. Agent: You're welcome. I will email you back soon. It was nice talking to you. Have a great day, goodbye! Hi Kyle. Customer: Hello Liz. Agent: How can I help you today?. Customer: I am trying to add SuperMicro as a vendor to our University and I need some forms in order to buy servers from the estore. It seems they need a W2 filled out and a primary contact I mean 2-9 w-9. Agent: I can send you an W9 to your email. Is the kcw2152@cumc.columbia.edu best to reach you?. Customer: Yes. Agent: Thank you! Please give me a moment to send you a W9. Customer: Okay, thank you :). Agent: I just sent you the W9. Can you please

check if you received it?. Customer: Sure, I am waiting for it still. I will msg back once I get it. . Agent: Sure! Please contact us if you don't receive it. Is there anything else I may help you with today?.

Customer: Yes, I was wondering about the power supply for the AS -5014A-TT We are going to buy one once the vendor thing is approved. We are going to supply our own GPUs, but just want to ensure the power supply has enough connectors for 4 GPUs 8 and 6 pin connectors. Agent: I can see the AS -5014A-TT can support up to 4 GPUs on the specification detail. . Customer: Okay, is there anywhere to give me a count on the number of 6 and 8 pin connectors? I see that it is the "2000W PS/2 Multi-Output Power Supply". Agent: Do you mean the 6 and 8 pin connectors connector of the power supply?. Customer: Just the number of cables 6/8 pin connectors connected to the power supply. Agent: Please give me a moment while I check for you. You can see the power supply connectors in the manual <https://www.supermicro.com/manuals/superserver/tower/MNL-2429.pdf> page 52 and 53. Customer: Thank you. Also, I got the email as well. Okay, thank you for your help today. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: You too. Agent: Thank you!. Customer: Hello. How may I help you? Hello Mark. Agent: Hello kyle. Customer: I am trying to add SuperMicro as a vendor to our University. I got the W-9 from another agent, but I forgot to ask for a primary contact. I need an email, phone number and full name of someone. . Agent: Please give me a moment to get you this information. . Customer: Thank you. Agent: Email: estore-support@supermicro.com , phone:+1 408-503-8000. Customer: I will try and see if the university will accept this . Thank you for your help. . Agent: You're welcome! Can I help you with anything else?. Customer: That is all. Thank you :) Have a good day. Agent: It was nice talking to you. Have a great day, goodbye! Hi Ben How can I help you?. Customer: Hi. I'm having trouble making a purchase through the online store. It keeps getting rejected in address verification. Are you able to help with that?. Agent: Oh I'm sorry to hear and yes I can. What's the address in question?. Customer: 6171 Willowmore Ct Highlands Ranch, CO 80130-3364. Agent: Ok thank you, let me check on this. Customer: Thank you. . Agent: What's the error or issue you are seeing? I'm able to get to the credit card payment with that address. Customer: I'll take a screenshot next time but it says it's failing in AVS. Agent: Oh I see So you're able to get to the payment completion For AVS, this means the address provided for billing does not match the billing address tied to the credit card being used (address on the billing statement). Customer: Authorize.Net CIM Gateway: Transaction failed. The transaction has been declined because of an AVS mismatch. The address provided does not match billing address of cardholder. . Agent: I would double check that. Customer: That's the message I get. I've confirmed the address I gave you in my banking app and directly with their technical support. . Agent: Was their another address tied to the card previously? Otherwise, it should work. . Customer: No we've only ever had this address while using this card. Do you have the ability to see exactly what address the web site sent for verification?. Agent: All I see is: Ben Sheets 6171 WILLOWMORE CT HIGHLANDS RANCH, Colorado, 80130-3364 I tried it without using the recommended address tool just manual so lowercase how you provided me. Customer: I manually changed it to the lower case and now I get: No such entity with addressId = 97128. Agent: Oh ok Try manually not using any auto-complete features I see you've purchased before though. Was that using the same card?. Customer: No this is a new card. I manually typed in every field and got: No such entity with addressId = 97130. Agent: Ok, it should work since it's the same address as before. Is there another name tied to this card or just you? Hmm, ok now it's giving an issue usually tied with auto-complete I apologize for all the issues. Is there another browser or computer you can try?. Customer: I tried it in a mobile browser and got the AVS failure again. hello. do you have sales tax exemption for resellers? i'm in ohio. Agent: Hi Jonathan We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax

exemption, you would need to provide valid certificate, which you can send to estore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected.

<https://store.supermicro.com/tax-exemption-guide> Is there anything else I may help you with today?.

Customer: no that answers my question. thank you. Agent: You're welcome. It was nice talking to you.

Have a great day, goodbye!. Customer: Hey there, Kyle. Agent: Hello How can I help you?.

Customer: <https://www.supermicro.com/en/products/motherboard/X10DRH-iT> notes that the X10DRH-iT is discontinued and there is a successor product ... What is the model for the successor, please?.

Agent: I'm sorry, but unfortunately, we do not sell any motherboards on the eStore so I would recommend checking with our Sales team at Sales-USA@supermicro.com.

Customer: Sorry to both you .. ttfn what is the country of origin?.

Agent: Hi Heather How can I help you today?.

Customer: can you please provide the country of origin for p/n PWS-2K22A-1R. Agent: Please give me a moment while I check for you.

The power supply made in China Is there anything else I may help you with today?.

Customer: is this product constrained? Or in short supply?.

Agent: It's still active on my end. How many do you want?.

Customer: 3 but through Ingram Micro. Agent: oh I see. Yes, the power supply is shortage and we don't have the exactly lead time.

Customer: okay thank you. . Agent: You're welcome. Can I help you with anything else?.

Customer: all set, thanks so much. Agent: You're welcome. It was nice talking to you.

Have a great day, goodbye! Hi Paul How can I help you today?.

Customer: hi what disk is recommended to replace HUS726040AL4210. Agent: You are looking to replace <https://store.supermicro.com/4tb-hdd-a4tb-hus726040al4210.html>?.

Customer: yes. Agent: This drive is EOL we don't have carry it no more on our eStore. Please check with our resellers and distributors for availability.

<https://www.supermicro.com/en/wheretobuy>. Customer: is there a suitable replacement that is not EOL for my supermicro system?.

Agent: Please give me second to check. . Customer: ok. Agent: There isn't a replacement. Can i ask what system or motherboard you are using this with and i can find compatible drives that are similar?.

Customer: sure. let me check X10SRH-CLN4F. Agent: Thank you. Please give me amount. . Customer: ok. Agent: I found HDD-3T04T-1FECR

<https://store.supermicro.com/4tb-sata3-hdd-t4000-st4000nm002a.html>. Customer: that is sata3 not sas though. Agent: sorry. Let me get you the correct one. . Customer: can you email it to me, I have to go.

paulc@urbanstudionyc.com. Agent: Yes i can email you all this information. . Customer: thank you. Agent: you're welcome! It was nice talking to you.

Have a great day, goodbye!. Customer: bye. Agent: Hi George. Customer: Hi Kyle I need EU RoHS & REACH for few part numbers, can you help?.

Agent: I may be able to help, but its not something we have readily available so it may take awhile depending on the product. . Customer: if you send me contact info for compliance I can send my request with part numbers.

Agent: You can just send it to estore-support@supermicro.com and I can put in a request to them. . Customer: ok thanks for your help. Agent: You're welcome! Can I help you with anything else?.

Customer: bye. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hi, Liz. Agent: Hi Name How can I help you today?.

Customer: I have a product specification question about an item in the eStore, please <https://store.supermicro.com/1u-passive-cpu-cooler-snk-p0047pd.html> Is there documentation of the physical dimensions? .. Like a design spec document or something more than what is posted, please?.

Agent: Please give me a moment while I check for you. . Customer: Thanks.

Agent: Unfortunately, I don't have any information about the physical dimensions of the heatsink. I would recommend you to check with our Sales team at Sales-USA@supermicro.com for this

information. . Customer: K .. tanks Tah4Now. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Jonathan How may I help you?. Customer: what is the warranty and is there a 5 yr opttion? SYS-1019P-WTR. Agent: Warranty for our eStore servers should be the 3 year labor, 3 year parts, 1 year cross shipment. There will be the 5yrs option up coming, but will need to be add with the server when purchase. It should be available sometime this week. The price for 5 years option will be 30% of the price of server. Customer: oh is estore something new?. Agent: It will be launched soon. It is not available at this time, unfortunately. I just don't have the exact date for the extended warranty yet. For now the warranty for a sever is 3 year labor, 3 year parts, 1 year cross shipment. Do you interested in our regular warranty? We currently have SYS-1019P-WTR in stock and ready to ship within 3-5 business days Just let you know that: • All of our configurations has been fully validated by our Supermicro system lab. • We offer free shipping for all server orders. (limited time only) • We offer blazing fast turnaround time 2-3 business days if you purchase something via our eStore configurator. • Warranty is 3 years for server, 3 years for parts, and 1 year of cross—shipping. (limited time only) • We may have more storage capacity on our eStore. (Please contact me if you don't see any capacity available) Is there anything else I may help you with today?. Customer: SSD vs NVMe for performance? looking at raid 1 2TB. and which raid controller. Agent: May I asked do you intend to use the VMware for RAID? or Vsphere OS. Customer: MS hypervisor 2 vm's. 1 ad and one for app and sql. Agent: The reason I asked is that the VMware doesn't support the VROC keys(NVMe RAID controller for storage) The NVMe is faster than the SSD. Customer: ah. microsoft is what we plan to use. Agent: I see. For NVMe RAID uses VROC key Please give me a moment while I check for the controller card for SSD For SSD you can use the AOC-S3108L-H8iR-16DD for RAID <https://www.supermicro.com/en/products/accessories/addon/AOC-S3108L-H8iR.php> If you would like to add the controller card, I can help you on my end and send you a pre-configure link. Please provide me your full spec requirement For SSD/HDD RAID, you can either use on board RAID controller or hardware controller to do RAID 1 Is there anything else I may help you with today?. Customer: no i think that is it. Agent: Sound good! Please let us know if you need assistance on selection options. It was nice talking to you. Have a great day, goodbye!. Customer: Hi Mark. Agent: Hi Bruno. Customer: Can you cancel an order for me? Order# 1000024744 I ordered with the wrong shipping method. Agent: I see. You can cancel the order on your end by go to My Account -> Orders -> Cancel order Please let me know if this works. . Customer: That worked, thank you Mark. Agent: You're welcome! Can I help you with anything else?. Customer: No, thanks, have a great day. . Agent: Hi Krishna How can I help you?. Customer: Hi Kyle, I am trying to plug in a gpu to my computer and I am using PWS-1K25P-PQ My GPU has 2 power supply slots 8 pin and 6 pin. Agent: Oh I see. Customer: and from the power supply I want to identify I want to see Which are the PCIe power supply cables. How do I see that?. Agent: This PSU should have 4 6pin PCIe connectors and 2 6+2pin PCIe connectors. Customer: I see number P16 and P23 connectors. Can you tell me what are those PCIe types?. Agent: Let me check There's no diagram unfortunately available, but there should be four 6-pin PCI-e connectors and two 6+2 PCI-e connectors, all at 500mm. Customer: ok thanks. Agent: you're welcome Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Is this an automated service or is there an actual person on the other end. Agent: Hi Antoine How can I help you today? I'm an actual person 😊 May I know which product are you looking for availability? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need

any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Ben How can I help you today?. Customer: Hello Mark, I have a pws-1k28p-sq which may be faulty. can I replace it with pws-1k23a-r1?. Agent: Please bear with me for a few more minutes while I check for you. Yes you can replace with PWS-1K23A-1R. Customer: ok thanks. Agent: Can I help you with anything else?. Customer: you have a store link for th 1k23A?. Agent: We currently out of stock. PWS-1K23A-1R <https://store.supermicro.com/1200w-1u-pws-1k23a-1r.html>. Is this order that is going to be place within United States? You can also check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Jim. Customer: Hi. I was wondering if you can recommend a 10G NIC for this system and do you sell them? SYS-6016U-TR4. Agent: Please give me moment to check. . Customer: sorry 6019. Agent: do prefer RJ45 or SFP+?. Customer: RJ45. Agent: <https://www.supermicro.com/en/support/resources/aoc/standard?show=SELECT&type=Ultra> We don't sell these on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: thx, much appreciated. Agent: Can I help you with anything else?. Customer: Nope. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Can I return an order?. Agent: Hi Brian. Customer: Hi Kyle! I just ordered a pair of pail sets for some older servers I picked up, but I grabbed the wrong model, sorry!. Agent: What is the order# and what is the reason? Oh understood. Did you need help looking for the correct model?. Customer: If possible, that would be great! I tried using the automated tool, but I think these boxes are too old The server part number is in the SKU box above. Agent: Ok let me check for you What is the order# btw?. Customer: Thanks! Looking for that, I thought I was logged in, one sec. Agent: Sure no worries. Customer: 1000024644. Agent: MCP-290-00062-0N is the compatible rail kit: <https://store.supermicro.com/1u-rail-kit-mcp-290-00062-0n.html> Ok thanks. Customer: Those are too long, unfortunately. Agent: Ok let me check for a shorter one if available. Customer: Thanks! Ideally with a minimum length <21 inches. Agent: MCP-290-00056-0N will work, it's only an outer rail: <https://store.supermicro.com/1u-rail-kit-mcp-290-00056-0n.html> You can use the inner rail from your existing rail kit To submit an RMA (return) request, please utilize our new support portal at <https://webpr3.supermicro.com/SupportPortal/>. If you have not submitted a request before, please register prior to doing so. . Customer: In that case, I would need to NOT submit an RMA? What about this model? https://store.supermicro.com/1u-rail-kit-mcp-290-00055-0n.html?queryID=742f9afaf53260634fa0ec50372f49a1&objectID=660&indexName=supermicro_default_products. Agent: Wait, when you got this chassis or server, it came with a rail kit correct?. Customer: No. Agent: the one that was too long? ohh. Customer: I have a set of inner rails from a linear friction set that work with these servers, but no outer rails. Agent: MCP-290-00055-0N would not work Oh you do. Customer: linear friction only, not ball bearing. Agent: you just need the MCP-290-00056-0N then it's a Linear Friction Rail for short depth racks. Customer: It says ball-bearing on the page. Agent: oh I see, that doesn't look right. the detailed specs say it's linear friction actually. Customer: Oh, that's interesting. . Agent: Sorry for the confusion. Customer: And yeah, actually looking at the image, it looks like a linear friction rail No worries. Agent: Yeah ill inform our dev team on that typo or misprint MCP-290-00056-0N works with other linear friction rails that are too long. Customer: Perfect. Thanks!. Agent: for the product you ordered last week, please use the RMA link I provided earlier. Customer: Copy that. Agent:

you will need to create an account there if you haven't returned anything before. Customer: ok. Agent: Can I help you with anything else?. Customer: Nope, that's it. Thank you! Have a good evening!. Agent: Thank you! It was nice talking to you. Have a great day, goodbye!. Customer: where can I buy a X12SCZ-F motherboard?. Agent: Hi Michel How can I help you today? I'm sorry, but unfortunately, we do not carry motherboard on our eStore. Please check with our resellers and distributors for availability.

<https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today?.

Customer: Hello. Agent: Hi Dimitris How can I help you today?. Customer: hi we have 2 SuperServers SYS-5018R-WR with the MEM-DR440L-CL01-ER24 memory we need to upgrade the memories what are the compatible ones?. Agent: are you looking for 16GB?. Customer: yes. Agent: Please give me second to look this up. . Customer: yes i will be waiting. Agent: MEM-DR416LD-ER29

<https://store.supermicro.com/16gb-ddr4-2933-mem-dr416l-cl03-er29.html>. Customer: is this compatible ?. Agent: MEM-DR416LD-ER32 <https://store.supermicro.com/16gb-ddr4-3200-mem-dr416l-hl02-er32.html> With memory you would have to get all the same ones. They are compatible with your system. Customer: but it says is not validate if search the p/n or the motherboard number. Agent: Please bear with me. Customer: i am here i am waiting for a clarification. Agent: if you would go to the system product page and click on Tested memory you can see all validated memory

<https://www.supermicro.com/en/products/system/1u/5018/sys-5018r-wr.cfm> That's where i was able to find these memories. Where you able to see the validated list for memories?. Customer: yes i am looking them right now one moment please. Agent: of course. please let me know if you have any questions. Customer: so because i have 2 servers if i would purchase 4 memories (2/server) it would be ok ? should i had any performance issue/ ?. Agent: If you add 4x16GB(64GB) for each server you should be okay. . Customer: why not 2 x 16Gb to every server?. Agent: Let me double check We recommended to have at least 2. That should be okay. Can I help you with anything else?. Customer: One last confirmation. Agent: How can i help you with your last confirmation?. Customer: i am writing my question. Agent: Of course take your time. . Customer: <https://store.supermicro.com/16gb-ddr4-3200-mem-dr416l-hl02-er32.html> where did you find this? i am searching from the tested memories but i cannot find it If we purchase 2 of these rams for each server it would be ok? if we install 2 of them to each server it would be ok?. Agent: Please ignore that the link MEM-DR416L-HL02-ER32

<https://store.supermicro.com/16gb-ddr4-3200-mem-dr416l-hl02-er32.html> Let me get you the correct one. This the correct one for your system MEM-DR416LD-ER32 <https://store.supermicro.com/16gb-ddr4-3200-mem-dr416l-cl06-er32.html> If you install two of <https://store.supermicro.com/16gb-ddr4-3200-mem-dr416l-cl06-er32.html> you should be okay. . Customer: thank you mark. Agent: You're welcome!. Customer: i am covered. Agent: It was nice talking to you. Have a great day, goodbye!.

Customer: you two Mark bye Dimitris Faliakis left the following comment: excellent Looking to order a system with 15 of these: 18TB 3.5" Exos X18 7200 RPM SATA3 6Gb/s 256MB Cache 512E/4Kn Hard Drive. Agent: Hi Brent The only systems that we carry that can support that quantity would be our SuperStorage ones, which would be the 45-bay or 60-bay options. Customer: Yes. It's a 60 bay storage unit. Agent: Ok got it, how can I help you with this?. Customer: I get a pop-up stating possible low inventor on the drives and to check for availability. . Agent: Oh I see, let me check on that. Please give me a moment. Customer: thx. Agent: There should be 15 available for the 18TB Exos. Is the pop-up complaining about another part?. Customer: No. Agent: Can you empty cart and try again?. Customer: will do.. thanks. Agent: By default, the lowest capacity drive is added so you may need to 0 that too.

Customer: hi. Agent: Hi Max How may i help you today?. Customer: cpu supported by X11spa-t or tf?. Agent: are you looking for CPU that is validated in X11SPA-T?. Customer: ya. Agent: This motherboard

supports 1st and 2nd gen intel scalable processor and Xeon W-32XX processor Intel® Xeon® Gold 6138 Processor 20-Core 2.0GHz 27.5MB Cache (125W)---P4X-SKL6138-SR3B5 Intel® Xeon® Gold 6130 Processor 16-Core 2.1GHz 22MB Cache (125W)---P4X-SKL6130-SR3B9 Intel® Xeon® Gold 6126 Processor 12-Core 2.6GHz 19.25MB Cache (125W)---P4X-SKL6126-SR3B3 Intel® Xeon® Gold 5118 Processor 12-Core 2.3GHz 16.5MB Cache (105W)---P4X-SKL5118-SR3GF Intel® Xeon® Silver 4116 Processor 12-Core 2.1GHz 16.5MB Cache (85W)---P4X-SKL4116-SR3HQ Intel® Xeon® Silver 4110 Processor 8-Core 2.1GHz 11MB Cache (85W)---P4X-SKL4110-SR3GH Intel® Xeon® Bronze 3106 Processor 8-Core 1.7GHz 11MB Cache (85W)---P4X-SKL3106-SR3GL Intel® Xeon® W-3275 1P 2.5GHz 38.5M Cache 28C/56T (205W)---P4X-CLXW3275-SRFFF Intel® Xeon® W-3275M 1P 2.5GHz 38.5M Cache 28C/56T (205W)---P4X-CLXW3275M-SRFFK Intel® Xeon® W-3265 1P 2.7GHz 33M Cache 24C/48T (205W)---P4X-CLXW3265-SRFFE Intel® Xeon® W-3265M 1P 2.7GHz 33M Cache 24C/48T (205W)---P4X-CLXW3265M-SRFFJ Intel® Xeon® W-3245 1P 3.2GHz 22M Cache 16C/32T (205W)---P4X-CLXW3245-SRFFD Intel® Xeon® W-3245M 1P 3.2GHz 22M Cache 16C/32T (205W)---P4X-CLXW3245M-SRFFH Intel® Xeon® W-3235 1P 3.3GHz 19.25M Cache 12C/24T (180W)---P4X-CLXW3235-SRFFC Intel® Xeon® W-3225 1P 3.7GHz 16.5M Cache 8C/16T (160W)---P4X-CLXW3225-SRFFB Intel® Xeon® W-3223 1P 3.5GHz 16.5M Cache 8C/16T (160W)---P4X-CLXW3223-SRFFG Intel® Xeon® Platinum 8280 Processor 28-Core 2.7GHz 38.5MB Cache (205W)---P4X-CLX8280-SRF9P Intel® Xeon® Platinum 8276 Processor 28-Core 2.2GHz 38.5MB Cache (165W)---P4X-CLX8276-SRF99 Intel® Xeon® Platinum 8270 Processor 26-Core 2.7GHz 35.75MB Cache (205W)---P4X-CLX8270-SRF96 Intel® Xeon® Platinum 8268 Processor 24-Core 2.9GHz 35.75MB Cache (205W)---P4X-CLX8268-SRF95 Intel® Xeon® Platinum 8260 Processor 24-Core 2.4GHz 35.75MB Cache (165W)---P4X-CLX8260-SRF9H Intel® Xeon® Platinum 8256 Processor 4-Core 3.8GHz 16.5MB Cache (105W)---P4X-CLX8256-SRF94 Intel® Xeon® Platinum 8253 Processor 16-Core 2.2GHz 22MB Cache (125W)---P4X-CLX8253-SRF93 Intel® Xeon® Gold 6258R Processor 28-Core 2.7GHz 38.5MB Cache (205W)---P4X-CLX6258R-SRGZF Intel® Xeon® Gold 6254 Processor 18-Core 3.1GHz 24.75MB Cache (200W)---P4X-CLX6254-SRF92 Intel® Xeon® Gold 6252 Processor 24-Core 2.1GHz 35.75MB Cache (150W)---P4X-CLX6252-SRF91 Intel® Xeon® Gold 6248 Processor 20-Core 2.5GHz 27.5MB Cache (150W)---P4X-CLX6248-SRF90 Intel® Xeon® Gold 6248R Processor 24-Core 3GHz 35.75MB Cache (205W)---P4X-CLX6248R-SRGZG Intel® Xeon® Gold 6246R Processor 16-Core 3.4GHz 35.75MB Cache (205W)---P4X-CLX6246R-SRGZL Intel® Xeon® Gold 6244 Processor 8-Core 3.6GHz 24.75MB Cache (150W)---P4X-CLX6244-SRF8Z Intel® Xeon® Gold 6242 Processor 16-Core 2.8GHz 22MB Cache (150W)---P4X-CLX6242-SRF8Y Intel® Xeon® Gold 6242R Processor 20-Core 3.1GHz 35.75MB Cache (205W)---P4X-CLX6242R-SRGZJ Intel® Xeon® Gold 6240 Processor 18-Core 2.6GHz 24.75MB Cache (150W)---P4X-CLX6240-SRF8X Intel® Xeon® Gold 6240R Processor 24-Core 2.4GHz 35.75MB Cache (165W)---P4X-CLX6240R-SRGZ8 Intel® Xeon® Gold 6238R Processor 28-Core 2.2GHz 38.5MB Cache (165W)---P4X-CLX6238R-SRGZ9 Intel® Xeon® Gold 6230 Processor 20-Core 2.1GHz 27.5MB Cache (125W)---P4X-CLX6230-SRF8W Intel® Xeon® Gold 6230R Processor 26-Core 2.1GHz 35.75MB Cache (150W)---P4X-CLX6230R-SRGZA Intel® Xeon® Gold 6226R Processor 16-Core 2.9GHz 22MB Cache (150W)---P4X-CLX6226R-SRGZC Intel® Xeon® Gold 6212U Processor 24-Core 2.4GHz 35.75MB Cache (165W)---P4X-CLX6212U-SRF9A Intel® Xeon® Gold 6210U Processor 20-Core 2.5GHz 27.5MB Cache (150W)---P4X-CLX6210U-SRF9B Intel® Xeon® Gold 6209U Processor 20-Core 2.1GHz 27.5MB Cache (125W)---P4X-CLX6209U-SRFQ3 Intel® Xeon® Gold 6208U Processor 16-Core 2.9GHz 22MB Cache (150W)---P4X-CLX6208U-SRGZD Intel® Xeon® Gold 5222 Processor 4-Core 3.8GHz 16.5MB Cache (105W)---P4X-CLX5222-SRF8V Intel® Xeon® Gold 5220 Processor 18-Core 2.2GHz 24.75MB Cache (125W)---P4X-CLX5220-SRFBJ Intel® Xeon® Gold 5220R Processor 24-Core 2.2GHz 35.75MB Cache (150W)---P4X-CLX5220R-SRGZP Intel® Xeon® Gold 5218 Processor 16-Core

Customer: wow. 👍 do you have a distributor in Italy? we are reseller. Agent: i would check our dist/reseller list here <https://www.supermicro.com/en/wheretobuy/> you can sort by country region/country is there anything else I can help you with today?. Customer: no thanks. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Max left the following comment: super. Agent: Hi Colleen How can I help you today?. Customer: hi liz looking for rails that will fit model #: 514-4 / Part #: SYS-1028R-WMRT. Agent: Please give me a moment while I check for you. . Customer: sure, thank you. Agent: You can use the MCP-290-00102-0N - outer rails and MCP-290-00108-0N - inner rail for this server But unfortunately, we don't carry these two rails on our eStore. Customer: how can i purchase them then?. Agent: Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> or our RMA department if you need the replacement RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3. Customer: ok thank you!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: no thats it thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hi I want to use a standard ATX power supply in one of your 4U chassis. do you have an ATX adapter plate for sale?. Agent: Hi Tim How can I help you today?. Customer: Hi I want to use a standard ATX power supply in one of your 4U chassis. do you have an ATX adapter plate for sale?. Agent: Unfortunately we don't carry that on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: ok, ty and gb. Agent: Hi Juan, how can I help you?. Customer: I've been trying to place an order and keep getting errors... . Agent: What errors are you seeing?. Customer: "Sorry, no quotes are available for this order at this time". Agent: May I ask where you are trying to ship to? What's the delivery address?. Customer: That's for shipping to Florida 1462 Compass Ct Kissimmee FL 34744. Agent: Thank you, let me check Do you have the 9-digit zip code by chance?. Customer: 34744-6609. Agent: Ok thanks, please give me a moment while I check Ok I was able to get to the billing address/payment section Please try entering everything manually without the auto-completion from your browser and do not use the recommended address they provide I entered as this: 1462 Compass Ct Kissimmee FL 34744-6609. Customer: OK... . Agent: I tested on Google Chrome btw. Customer: OK, now I'm moving forward... . Agent: Ok so it gave you a shipping quote?. Customer: Yes.. . Agent: Ok great. Customer: Now I got error on payment!. Agent: What issue are you seeing now?. Customer: Don't see a pay button. Agent: Did you enter a credit card?. Customer: Don't see a credit card fill form I'm stuck on "review & payments". Agent: So when you chose your shipping method and hit

next, what do you see?. Customer: I notice I have to refresh the page every time... . Agent: Weird, what browser are you using? So you're able to see it now?. Customer: Firefox... now I see the CC page.. . Agent: Ok that's good. Customer: I'll complete the order and come back if any issues arise. Agent: Sure sounds good Can I help you with anything else?. Customer: Not for now, thanks. Agent: It was nice talking to you. Have a great day, goodbye! Hi Mike. Customer: hello. Agent: I'm sorry, but unfortunately, we do not carry any chassis on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: thanks. I cannot find one anywhere. . Agent: I see. You can try contact with our sales team at Sales-USA@supermicro.com Is there anything else I may help you with today?. Customer: Ok thanks. That's it. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: u2. Agent: Hi Bradee How can I help you today?. Customer: Hello! What is the lead time for MCP-410-00006-0N?. Agent: Please give me amount to check. How many are you interested in purchasing?. Customer: just one. Agent: I am going to submit a inventory transfer for MCP-410-00006-0N. Is it okay if i can email you back at bradee@nascosales.com once i get a updated?. Customer: Sure! Thanks Mark!. Agent: You're welcome! Can I help you with anything else?. Customer: That's all. Have a nice day!. Agent: #god It was nice talking to you. Have a great day, goodbye!. Customer: Hello Hi, I was looking for a threadripper pro workstation but i can find them on your website anymore. Agent: Hi Joe It should be available, but let me check Yeah it's still in stock: <https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html> You may need to log into your eStore account first to view it if you can't see it. Customer: the link just brings me to an email page. I filled it out but i still cant see specs. Agent: I believe you may have had an older account for joe@ntechassoc.com. I can provide access to the gmail one if you'd like. Customer: the ntechassoc is fine. Agent: Just log into that account. If you don't remember your password, you can reset. . Customer: got it. Thanks!. Agent: you're welcome!. Customer: Hello,. Agent: Hi Joe. Customer: I was wondering if the AS -5014A-TT workstation has a rack rail kit option. Agent: Please give me amount to check. . Customer: also if it was possible to get a smaller CPU, like the 156 core 16 not 156. Agent: There is Optional rail kit which is MCP-290-00057-0N <https://store.supermicro.com/4u-5u-rail-kit-mcp-290-00057-0n.html> but you would also need Rail Conversion Kit for rack mount MCP-290-GS706-0N which we don't carry. For 16 we are still checking internally if there is availability for this. How many system are you interested in purchasing?. Customer: I would need 2 servers not immediately i would have to check on the timeline. Agent: If you purchasethe complete system with us we actually have the rail kits available MCP-290-00057-0N & MCP-290-GS706-0N Is possible to get your configuration for these systems?. Customer: great. Yes, should i email it or put into this thread?. Agent: You can put it in this chat, either way. . Customer: (2) Servers with following: Mark transferred the chat to Liz. Agent: Hi Joe, I will take over the chat for Mark. I will continue to help you on this chat. Customer: Thanks. Agent: You can give me your configuration for the 2 servers. Customer: Threadripper Pro 3955WX, CPU Cooler, 64GB ECC RAM (8x8), 1TB M.2 OS Drive 4TB M.2 Storage 18TB 7200 HDD Storage GPU- NVIDIA A4000 or A4500 Rackmount kit. Agent: May I confirm this is the spec for both servers?. Customer: Yes, let me know if i missed something oh. and window10 pro. Agent: May I confirm that your configuration is: 1x Threadripper Pro 3955WX 8x 8GB DDR4 DIMMs 1 x 1TB M.2 OS Drive 1x 4TB M.2 Storage 1 x18TB 7200 HDD Storage 1x GPU- NVIDIA A4500 since we out of A4000 GPU and 1x rail kits 1x Window10 pro Is this correct?. Customer: This is correct. Agent: Thank you for your confirm! May I know when do you plans on ordering this system? (in case we will check on the inventory for your requirement). Customer: The order will likely be placed within 6-8 weeks. Perhaps sooner. Agent: Thank you for letting me know your plan. I will recommend you to check back with us for this system when you are ready to order since we

cannot save the inventory for a long time. Customer: if we need to place an order to hold a place in line let me know what the time frame is i would also need a quote. Agent: Unfortunately, we cannot hold the stock for you. I can send the quote of your configuration to your email Is the email JOE@NTECHASSOC.COM best to reach you?. Customer: great. Yes, is there also a line item for warranty?. Agent: Our regular warranty for eStore servers is 3 year labor, 3 year parts, 1 year cross shipment. Do you ask for the extended warranty?. Customer: 3 years should be fine, thanks. Agent: You're welcome. Last but not least, can I confirm if you are fine to pay by credit cards or ACH transfer (which take longer). Customer: Yes. Agent: Thank you! I will email you back with the price for your configuration soon. Is there anything else I may help you with today?. Customer: Awesome, thanks! Thats all i need. Take care. . Agent: Thank you! It was nice talking to you. Have a great day, goodbye! Hi Soran How can I help you today?. Customer: hi mark will i have clint asking fro storage with 45bay im company based in iraq. Agent: Are you trying to find system with a 45 bay?. Customer: yes they want to have a backup for OS system and also they will use raid 5 64 gb Ram each slot 18 TB. Agent: I do want mentioned that our eStore only ships within United States. . Customer: its not issue i have adress in usa so ucan send to there i will take care of it. Agent: Okay let me see what he have available. what we*. Customer: ok. Agent: Do you have an account with us?. Customer: no sir. Agent: Please create an account on the link below. After creating your account please give me the email used so we can enable you to see our systems. please let us know if you need any assistance <https://store.supermicro.com/customer/account/create/> also if you order with us, well you be using CC with U.S billing address?. Customer: Something went wrong with reCAPTCHA. Please contact the store owner. . Agent: Can you show me screenshot of the error. Please give me amount, while look into this can you confirm with me that you'll be purchasing this system with a credit card that has a valid U.S address?. Customer: yes i can purchase in usa cridt card can u tell me what will be the cost ?. Agent: I would find a server with your specs and make a quote for you. Please bear with me while i look into the reCAPTCHA alert. . Customer: ok. Agent: Are you using the email soran@bradosti.net?. Customer: yes sir. Agent: Can you try to a different browser and try to make the account again?. Customer: ok sir will try. Agent: If you still get the same alert, please try Ctrl-F5 and retry to make the account. . Customer: i think done. Agent: Okay give me a second to enable your account. . Customer: its ready im in my account now. Agent: Can you see these systems <https://store.supermicro.com/systems/superstorage.html>? We have two system that fit your specs. SSG-6049P-E1CR45H <https://store.supermicro.com/4u-superstorage-ssg-6049p-e1cr45h.html> and SSG-6049P-E1CR60H <https://store.supermicro.com/4u-superstorage-ssg-6049p-e1cr60h.html>. Customer: yes i see. Agent: any of these two you prefer?. Customer: let me check. Agent: of course take your time. . Customer: for this server 45 bay its server storage "? i mean i can install os on it also ? or i should conect with another server ?. Agent: You can install OS. There is an option between Add on Cards and Keyboard If you order from and would like OS we preinstall it for you. Do you know what cpu you would like?. Customer: what is this ? Intel® Xeon® Gold 6226R Processor 16-Core 2.90 GHz 22MB Cache (150W). Agent: Thank you. is the screenshot you provided for SSG-6049P-E1CR45H?. Customer: Supermicro 4U SuperStorage Server (SSG-6049P-E1CR45H). Agent: That right there is let us know about if you want onboard RAID. Customer: i want to use raid 6 for the storage. Agent: okay we can do that for you. you need at least two memory, do you want to do 2x32GB?. Customer: yes sir. Agent: Please bear with me for few minutes while i work on configuration for you. This might take awhile it is okay if i can email you back at soran@bradosti.net when i have quote and configuration? When do you plan on purchasing?. Customer: first i have to share with my clint once he approve it will purchase it dirctly. Agent: okay. I'll

work on the quote and be contact with you soon. . Customer: thanks alot. Agent: You're welcome! ill be in contact with you soon. It was nice talking to you. Have a great day, goodbye! Hi Naresh How can I help you today?. Customer: I am looking for a replacement for : Supermicro 720W 1U Redundant Power Supply (PWS-721P-1R). Agent: Please give me a moment while I check for you. The replacement is PWS-802A-1R. <https://store.supermicro.com/800-1u-pws-802a-1r.html>. Customer: how can i find that in the future. Agent: You always can check with us through live chat or email: estore-support@supermicro.com. Customer: thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: no thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Nhon. How can I help you today?. Customer: i try buy purchase license on estore, but i try to create user and password but won't work. Agent: Can you provide a screenshot of the error you are getting?. Customer: Something went wrong with reCAPTCHA. Please contact the store owner. . Agent: Can you try Ctrl-F5 and then make a new account. If this doesn't work can you try on a new browser? Did that work?. Customer: yes, it works now thanks. Agent: Awesome! Can I help you with anything else?. Customer: i am good for now. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hi Kyle, I'm unable to register a new account, and I don't have the option of checking out as a guest account. Agent: Hi Chris What issue are you running into? in terms of error. Customer: I'm having an issue with the account registration CAPTCHA it says to contact the owner of the store "Something went wrong with reCAPTCHA. Please contact the store owner". Agent: Ok please give me a moment while I check internally Can you try using a new browser or go into incognito/private mode?. Customer: Ok, I was previously on Google Chrome, but I will try on Microsoft Edge. Agent: Ok sounds good. Let me know if you have more issues with it. Customer: Ok, it looks like I was able to make the account and get confirmed. Thank you very much. Agent: That's great and you're welcome! Can I help you with anything else?. Customer: No, that's all. Thanks for all your help!. Agent: It was nice talking to you. Have a great day, goodbye! Hi Matthew How can I help you today?. Customer: Is it possible to order a replacement chassis cover for the CSe-819u. Agent: You would have to contact our RMA for this, RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3. Customer: Will do. Thanks mark. Agent: You're welcome! Can I help you with anything else?. Customer: No thank you. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: you too Hi. Agent: Hi Mathew How can I help you today?. Customer: I want to make the online Portal with you and i trying 2 times but the account didnt mae. Agent: Do you mean create an account with us?. Customer: made Yes. Agent: What is the issue please? I meant what is the alert?. Customer: Something went wrong with reCAPTCHA. Please contact the store owner. . Agent: Thank you for the information. . Customer: If i provide you the Info can you please make us the account. Agent: Can you please try hard refresh (Ctrl +F5) end try to create account again If it still doesn't work, can you please try on other browsers?. Customer: sure Still not working. Agent: even on different browser?. Customer: No im trying now in different browser as well let me check wait for a moment plz. Agent: Maybe please try incognito mode also Can you create your account successfully?. Customer: Nope i try an other browser as well still issue the same Now im trying in incognito mode as well! Pray for me. Agent: Good luck 🙏 . Customer: Still the issue is same. Agent: 😞 We are trying to disable the capcha Can you please try again? Capcha is disabled Please let me know if it works or not Please refresh the page and create account again I'm sorry for this inconvenience. It's a cached issue. Customer: Yes thanks all set. Agent: Awesome! Is there anything else I may help you with today?. Customer: I need the stock feed as well and sales rep. Agent: May I know which product you are looking for?. Customer: Im the reseller and im in E-Commerce field so kindly provide us the feed for New/Eol/Ref parts All the products

that you listed. Agent: I would recommend you contact with our Sales team at Sales-USA@supermicro.com. They can help you with this request. . Customer: ok and sales rep would be assigned as well! Right?. Agent: yes, you can email them and request for that Is there anything else I may help you with today?. Customer: No thats it! Thanks alot for the assistance :) really appreciate that. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Chris, how can I help you?. Customer: Hey I am looking to replace an hdd HUS726040AL5210 what can you reccomend?. Agent: Are you looking to replace it with the same model?. Customer: It looks like this model is eol?. Agent: I'm checking Oh yeah it is, and it doesn't look like there is a direct replacement Checking for something similar Is it for a Supermicro server?. Customer: Yes, its rebranded so I can get board serial but not the chasis. Agent: Ok do you the model# or serial#?. Customer: Board Manufacturer: Supermicro Board Product Name: X10DRH-iT Board Serial Num: NM15AS006235. Agent: Thanks This motherboard does not list HDD-A4TB-HUS726040AL5210 as a compatible option since its a SAS drive. But I assume it worked within the system itself I'm not finding any suitable replacement for this hard drive available unfortunately. . Customer: Yes, thats correct, actually now that you mention it I think I have seen this before and we may have used HDD-3A04T-1EECR I remebered after you mentioned SAS. Agent: Oh I see, let me check on this other part Oh that part is also SAS, but I did find the part <https://store.supermicro.com/supermicro-hgst-4tb-3-5-7200rpm-sas3-12gb-s-256m-internal-hard-drive-hdd-a4tb-hus726t4tal5204.html>. Customer: Yeah its alright I am sure we used it in a different system as a replacement but it appears to be out of stock at the moment. Agent: This may be in stock actually Give me a moment This is actually taking some time. I can email you back if this is available, hopefully soon. how many were you looking for? Also, is that the correct hard drive that you see?. Customer: At this time only 1 however we may order more as I have seen this disk a couple times after digging. Yes that is the correct hard drive to replace the older model. . Agent: Ok HGST model# HUS726T4TAL5204 Yeah we may have more, just waiting on inventory I'll email you back once it is available Can I help you with anything else?. Customer: Nope that will be fine thanks. Agent: Actually it may be ready soon Give me a few more min. Customer: Okay 👍 . Agent: Thanks for waiting. It should be available now, please refreshing this page or opening on a new tab <https://store.supermicro.com/supermicro-hgst-4tb-3-5-7200rpm-sas3-12gb-s-256m-internal-hard-drive-hdd-a4tb-hus726t4tal5204.html> May need to open in incognito mode. Customer: Hasnt quite updated yet I will keep refreshing every so often though. Agent: It's a weird caching issue sometimes. Customer: Ope there it is. Agent: Ok great. Customer: Thanks Kyle I appreciate it!. Agent: You're welcome, no problem! Can I help you with anything else?. Customer: No thank you. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Chris left the following comment: Kyle was very helpful in getting the product I wanted. . Agent: Hi Bruno. Customer: Hi Liz I made an order 2 days ago and was charged sales tax Can you update my account and refund the tax?. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide>. Customer: ok, thanks, I will submit it soon. HI. Agent: Hi Tamer. Customer: I just created an account. Agent: Oh ok, how can I help you?. Customer: but I am trying to update my default shipping address I can not set it to Canada. There is only the US. Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please

check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Ok . Thx. Agent: Can I help you with anything else?. Customer: no Thx. Agent: Hi Alex How can I help you today?. Customer: Hi, I am trying to buy some products but I have problem at the check out it gives me an error msg. Agent: Can you please select the region/ state and try again. Customer: ok. Agent: I saw the message on my end shows you missing the region field. Customer: i just fixed it but... . Agent: Can you please provide a screen shot?. Customer: not letting me paste a pic. Agent: Please save it to your device and attached to the chat. Customer: i am trying to start over.. . Agent: Please let me know if you got the same issue. Customer: i see a different address on top the zipcode is incorrect and the shipping address on the bottom is correct,. Agent: May I know your shipping and billing address?. Customer: 14631 S.W. 150 ST. MIAMI, FL 33186-5645 Can you please fix it on your end to match both addresses?. Agent: Thank you! Please give me a moment while I check on my end to see if I get the same problem. Customer: Thank you. Agent: Is that show like this on your end?. Customer: that is the correct address I see that on the shipping address on the bottom but on top it has a different zip code. Agent: Did you insert the all 9 digit zip code?. Customer: I tried to edit, but it will not let me edit... I don't understand.. not sure if you could see that. Agent: Can you please go to my account and edit it at manage your address? <https://store.supermicro.com/customer/account/> Yes, I can see the it. Customer: OK just changed it so now should i start all over again?. Agent: ok. If it shows the same as the picture I sent you above. Can you please try to make purchase again?. Customer: I just switched the ship to address and now your system is thinking.. Internal Error. Details are available in Magento log file. Report ID: webapi-6257074b4aaa9. Agent: oh.. Please give me a moment while I check with our web development team. Customer: Thank you. Agent: I'm sorry if this issue cause any inconvenience. Our webteam is checking on this issue. . Customer: Can I place the order over the phone to make it a bit quicker?. Agent: I'm sorry, but unfortunately, we don't have will call. . Customer: ok. Agent: Please give us a moment to fix on this issue. Customer: yes, thanks. Agent: Can you please try again? The issue should be resolved. . Customer: ok done!!!. Agent: Awesome!. Customer: ok perfect thank you so much, now just ship the product whenever possible.. thanks. Agent: You're welcome. It should be shipped by the end of today. Customer: very good thank you,. Agent: You're welcome. Is there anything else I may help you with today?. Customer: bye bye 🙌 . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: that is thanks Hi. Agent: Hi Shuba. Customer: MBD-X10QBL-4 do you have this mother bord in stock?. Agent: I'm sorry, but unfortunately, we do not carry any motherboard on our eStore currently. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: what kind of product available on this website/. Agent: we have complete system and all components within the system I meant some components such as HDDs, memory, fan, cables, ect. Is there anything else I may help you with today?. Customer: only supermicro products or any other brand?. Agent: only Supermicro products Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Rick. Customer: Hi Liz!. Agent: How can I help you today?. Customer: Im looking for info on your storage servers. lareg capacity top load, it will be used for NAS storage. Agent: May I know how many drive bay are you looking for?. Customer: 60 or more. Agent: So we currently carry the super storage 60 bay. You can check it here <https://store.supermicro.com/4u-superstorage-ssg-6049p-e1cr60h.html> Do you have the configuration in mind yet?. Customer: not yet, We have anunch of 7200 RPM storage needs, but I woudl also like to pt some SSD storage in there as

well. Im looing for 4-6 units loaded up with drives. Agent: I see. Yes, you can play around with our configurator to check for the price and options Please let me know if you need assistance May I know do your plan to order with our eStore soon? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com Please let us know if you have any trouble for inventory when adding to the cart. We can update the inventory for you. It was nice talking to you. Have a great day, goodbye! Hi Guillaume. Customer: Hi Tim I'm trying to find wich drive tray i need for this server, for 2.5" ssd. Agent: <https://store.supermicro.com/mcp-220-00043-0n-1482.html> MCP-220-00043-0N is the drive tray you need for a 2.5 SSDs for SYS-5019S-MT. Customer: Great, thank you. Agent: You also can use this as well which is a tool-less version <https://store.supermicro.com/mcp-220-00118-0b.html/?utm=LF>. Customer: Perfect, thanks. Agent: is there anything else I can help you with today?. Customer: Nop all god, thanks. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Chat is idle due to 10 minutes of inactivity I registered for a login but never received a confirmation email. Agent: Hi Jim Did you check your spam/junk inbox yet?. Customer: yes. Agent: I already resent the confirmation link to the email jstjames@hitech.net Can you please check again? Hi Brian, how can I help you?. Customer: Hello, i recently purchased that motherboard from an authorized seller. Unfortunately it did not come with any of the parts that it says on the site. mainly the ATX powersignal cable. Agent: I see. Which parts did you need?. Customer: i believe thats needed to tell the power supply to turn on, is that right? CBL-PWEX-1063. Agent: Oh I see, let me check We do have it in stock, must be a new part for us: <https://store.supermicro.com/supermicro-4-pin-to-atx-6cm-power-converter-cable-cbl-pwex-1063.html>. Customer: ah ok, is that something i need to order? shouldnt it have come with the purchase?. Agent: It is required to be able to support at 24-pin ATX power connector . *a 24-pin ATX power connector. Customer: understood. Agent: Can I help you with anything else?. Customer: is that something you can send to me? being that i did not recieve it in the box?. Agent: We cannot unfortunately. You may have to ask the vendor you purchased this from or check with our RMA team at rma@supermicro.com they might be able to send you on one did the other cables come too? or I/O shield not used?. Customer: nothing came with the mother board. Just the board itself not used, it's "New". Agent: That's odd, it should have came with those. Yeah I would check with the reseller or RMA team first before having to purchase through us. If you bought the motherboard directly from Supermicro sales, then you can contact them. Customer: does the RMA team have a chat feature as well?. Agent: They only have email or phone support at 408-503-8000 (ext. 4 or ext. 8080). Customer: ah ok, thank you. Agent: you're welcome Is there anything else I may help you with today?. Customer: that is all, thanks again. Agent: Np! Hope you get it resolved! It was nice talking to you. Have a great day, goodbye!. Customer: WHY IN ONLY SEE 64 CORE AVAIABLE CUSTOMER needs 16 core. Agent: Hi Vivian We only currently have 64 core as the 16 core and 32 core are out of stock unfortunately. Customer: I see. Agent: Not sure on ETA either, lots of request for those Can I help you with anything else?. Customer: no thanks we are good. Agent: Sounds good. It was nice talking to you. Have a great day, goodbye! Hi Boris. Customer: Hello Liz, I need to place an order for the following item but I was advised to either email or start a chat the items is MCP-220-00158-0B gen 6.5 and I need 8 of them. Agent: Please give me a moment while I check for you. . Customer: ok brb. Agent: I will need request the stock transfer. I might take several hours or probably tomorrow to complete. Can I email you back via boris@alliedens.com when the stock is ready?. Customer: ok, I'm back, sorry had to get my charger for my laptop. Agent: No worries. . Customer: that will be fine. Agent: Thank you! I will email you as soon as

the stock is ready. Customer: If you could, can you please transfer 16 as I have a potential to purchase 16 of them. I'm just waiting for a customer confirmation. Thank you again. I also have a question regarding another item. Let me pull up the sku. Agent: Sure! You're welcome. Take your time!. Customer: it is CSE-733TQ-668B and I would need 2 of these. Agent: I'm sorry, but unfortunately, we do not carry any chassis on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Ok, not a problem and thank you. . Agent: You're welcome. . Customer: Will wait for your email and have a nice day. . Agent: Hi Ed, how can I help you? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: I am looking for a SATA 15 pin power cable that brings out pin 11 separate from all the other pins. . Agent: Hi Ed, let me check if we have a cable like that What would be the function or use of this cable? Is it for a front panel split?. Customer: No. Pin 11 has a device activity signal on it. I want to use it to power an LED whenever the HD is active. Most of the cables tie pin 11 to 10 and 12. . Agent: Oh I see The only 15pin power cable we carry is CBL-0322L: <https://store.supermicro.com/supermicro-15cm-4-pin-peripheral-connector-to-15-pin-sata-power-with-latch-extension-cable-cbl-0322l.html> or CBL-0080L: <https://store.supermicro.com/supermicro-15cm-4-pin-peripheral-connector-to-15-pin-sata-power-extension-cable-cbl-0080l.html> Not sure if that's what you are looking for. Customer: I don't think either of those do it. Thanks for looking. . Agent: Ahh yeah sorry about that. Wish we did to save you the trouble of looking for one. Can I help you with anything else?. Customer: No. That's it for now. Thanks. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: bye. Agent: Hi Len How can I help you today?. Customer: I have a E300-94-8CN8TP server that went bad some of the onboard Lan ports are not work Error that are in the log in BIOS SMBIOS 0X09 BUSES DEVFN2E SMBIOS 0X08 N/A EFI 0306000A MINOR SMBIOS 0X16 N/A. Agent: Do you mean the E300-9D-8CN8TP server?. Customer: super server yes. Agent: I see. For the BIOS issue, I think it would be best if you checked with our technical support team regarding this problem: Tech Support: Support@Supermicro.com Tel: +1-408-503-8000. Customer: I did did not get a response from them. Agent: Did you call the number with ext. 2?. Customer: no just email. Agent: I see. I would recommend you to call for quick response. Customer: ok will do thanks. Agent: You're welcome. Can I help you with anything else?. Customer: no thank you and have a great day. Agent: It was nice talking to you. Have a great day, goodbye! Hi Carlos. Customer: i see it now when i first logged in, i could not find the link expected 4/17. Agent: Oh I see. Customer: thank you liz. Agent: No Problem. I'm not really help you anything yet 😊 Is there anything else I may help you with today?. Customer: that was all thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Hung How can I help you today?. Customer: Hi Liz. Good Morning. Agent: Good morning!. Customer: I'd like to see if you have PWS-1K23A-1R in inventory currently. . Agent: Please give me a moment while I check for you. . Customer: Yes. Thanks. Agent: How many do you want, please? I would have to check internally to see if we can support. Customer: Around 20 units. Agent: I don't think we can support that much though. Customer: I'll buy what you have. . Agent: Sound good! Can I email you back via s910372@hotmail.com as soon as I have the update?. Customer: Yes. I'll await your info. Thank you Liz 😊 . Agent: You're welcome. Is there anything else I may help you with today?. Customer: Hello. How may I help you? I am trying to place an order for Supermicro (Samsung) 64GB 288-Pin DDR4 3200 (PC4-25600) Server Memory (MEM-DR464MC-ER32) qty 12 and I am wondering if I can get a quote? also, can you please verify your billing address?. Agent: May I confirm if this is the memory you are looking for ?

https://store.supermicro.com/64gb-ddr4-3200-mem-dr464l-sl01-er32.html?queryID=9a934523a897af58bbaf869841930456&objectID=2384&indexName=supermicro_default_products. Customer: I think I found an account for Supermicro in our purchasing system and I just want to make sure that it's the correct account. I am from University of Washington. Agent: Do you have a Supermicro direct account ?. Customer: Yes that is correct and I do not have an account but University of Washington might Here is the address that we have for Supermicro: SUPERMICRO INC 980 ROCK AVENUE SAN JOSE, CA 95131. Agent: That's our address. Correct. Customer: ok I can order through our procurement system but I will need a quote please and also the email address to send the PO. Agent: I am sorry we can provide a quote but we only accepts credit card payments, not PO. Customer: ok thank you. Agent: For you to get a quote, please fill out your info through this link <https://store.supermicro.com/quote#MEM-DR464L-SL01-ER32>. Customer: Hello. How may I help you? Hi Kyle! I was wondering if you could let me know if you have 4 of PSU PWS-860P-1R2 available?. Agent: Hi Chris, let me check for you. Customer: Thank you!. Agent: Looks like we only have 1 pc available, but can try requesting for 3 more. It may take several hours so you might get an email much later today or the transfer does not complete till Monday. We can email you once they are available. . Customer: a follow up email sounds awesome. Thank you, Kyle!. Agent: You're welcome Can I help you with anything else?. Customer: nope, that was it. Agent: Ok sounds good. It was nice talking to you. Have a great weekend, goodbye!. Customer: Thank you, and you too! Chris Morales left the following comment: timely response and great service Hello. How may I help you?. Agent: Hi Bruce!. Customer: STATUS ON ORDER #1000023475 CHATTEED WITH SOMEONE EARLEIR, TEHY WERE GOING TO CHECK AND GET BACK TO ME AND i HAVE NOT HEARD ANYTHING. Agent: Yes, I was the agent chatted with you. We are looking into this issue internally and our shipping carrier. I will try my best to email you back as soon as I have the answer from them. . Customer: DID IT SHIP OR NOT. Agent: on my end, it shows shipped, but I'm checking with shipping department at this time. . Customer: THIS IS PRETTY SIMPLE STUFF. WHY DOES IT TAKE YOUR SHIPPING DEPT SO LONG TO FIGURE THAT OUT. Agent: I'm so sorry for this inconvenience. I'm reaching out to shipping department and they still searching for the issue. Customer: WHEN CAN I EXPECT AN ANSWER?. Agent: Hopefully by the end of today. I will try my best. I apologize for this issue. Can I help you with anything else?. Customer: NO Hello. How may I help you?. Agent: Hi Dieter !. Customer: Hi Joe ...I'm Rep with P1 Technologies, a reseller in SoCal, looking for a partner quote. My former contact has moved on. . Agent: What items are you looking to purchase ?. Customer: 5x 2U servers. Agent: We do have server configurator ready. Do you want to check it out on the eStore and print your quote after configuring your own servers?. Customer: Will that get me a partner transfer quote?. Agent: Can you explain a bit what partner transfer quote is ?. Customer: A wholesale quote to a reseller, for retail uplift to an end user. . Agent: We sell servers on our eStore and have super quick turnaround time, also we do have competitive price for servers Do you want to create an eStore account and we can go from there? <https://store.supermicro.com/customer/account/create/>. Customer: Ok, I'll do a config to get started. Do I need to create an account to use the configurator?. Agent: Yes, please <https://store.supermicro.com/customer/account/create/> After you create an account please verify your account through your email Then please let me know your account email address. Customer: Ok, I just figured out I can get supermicro configs & quotes thru our distributor Tech Data. Let me try that. Sorry for the trouble!. Agent: I see. Sure. Please come back if you want to purchase server directly through Supermicro. Just so you know We can ship servers out within 2-4 business days Can I help you with anything else?. Customer: OK, thanks!!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Start the chat. Agent: Hi Dan!. Customer: Hello. Possible to cancel Order #

1000023582 I needed MCP-220-00092-0B and accidentally ordered the MCP-220-00075-0B because of a google link. Agent: I see. Customer: I just placed it a few minutes ago. Agent: To cancel your order, please log into your account and go to "My Account" and then click on "My Orders". From there, you should be able to cancel your order. Customer: Thanks. Just did. . Agent: You're welcome. Can I help you with anything else?. Customer: Start the chat. Agent: Hi Priscilla!. Customer: Hi Joe! How are you today?. Agent: I am good. How are you doing ?. Customer: I'm doing good as well, thank you. I would like to place an order for the item MCP-220-00118-0B (Qty: 2). At checkout, I am currently experiencing difficulty processing the order. On the bank activity, it says the order is "on hold". Agent: Please give me a moment while I check for you. . Customer: Thank you very much. Agent: May I know which step you are in during check out ? I found the reason for it: The transaction has been declined because of an AVS mismatch. The address provided does not match billing address of cardholder. . Customer: Oh okay, I just entered the billing information for the payment method used. I am currently entering the payment information. . Agent: I see I see your new order!. Customer: Hi Joe, thank you! The order has successfully been placed. I appreciate the help and wish you a wonderful day and week ahead!. Agent: You're welcome. Glad it worked out ! It was nice talking to you. Have a great day, goodbye!. Customer: Thank you!. Agent: 😊. Customer: Hello. How may I help you? Hi Joe, my apologies! I accidentally purchased 4 of the same item. I only needed 2. . Agent: I see. Please cancel the order and reorder. To cancel your order, please log into your account and go to "My Account" and then click on "My Orders". From there, you should be able to cancel your order. Customer: Thank you so much, I appreciate it. . Agent: You're welcome. Can I help you with anything else?. Customer: Start the chat hi. Agent: Hello. Customer: i have a sys-5018R-M. Agent: Ah I see, how can I help you with this system?. Customer: i have 4 disks and total storage combined is 15.56 TB i need more storage is it possible to add more drives or to replace them with a bigger memory ?. Agent: You can only install 4 hard drives drives in this system so you'd have to replace them with larger capacity hard drives. I assume they are all 4TB?. Customer: so wat is the largest ?. Agent: The largest supported drives are 18TB. Customer: what is the largest the system can accept ?. Agent: <https://www.supermicro.com/en/support/resources/hdd/systemhdd?ProductID=84129&ctrl=74> you can reference this link. Customer: thank you they are all hdd do you have ssd as well. Agent: click on the 2.5 non-HDD section largest SSDs supported are 7.68TB We don't carry any on the eStore so you'll have to check with our resellers/distributors for availability: <https://www.supermicro.com/en/wheretobuy>. Customer: thank you so much for your help. Agent: You're welcome Can I help you with anything else?. Customer: no thanks 🙏. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Ralph. Customer: I can not log in. Agent: Do you mean you cannot log in to your eStore account?. Customer: YES. Agent: Can you please try again with this link? If you still cannot log in, can you please send me the screenshot of the error message?. Customer: I Do Not Chat. . Agent: https://store.supermicro.com/customer/account/login/referer/aHR0cHM6Ly9zdG9yZS5zdXBldm1pY3JvLnNvbS8_dXRtPWwhYWRlcg%2C%2C/ I'm sorry this is the link. Customer: This works THank you. Agent: Great! No problem. Can I help you with anything else?. Customer: (KY) Worked 7 hours Fri. ? I need a configurator. . Agent: Yes, Kyle worked 7hrs on Friday. Do you receive the email with the pre-config link from Kyle last Friday? <https://store.supermicro.com/full-tower-sys-740a-t-pre-config.html> here is the link. Customer: Yes he wasted my day. . Agent: I'm sorry to hear that. May I know what configuration do you want?. Customer: I need a complete list of CPUs for a good start. . Agent: You can check the CPUs list for the SYS-740A-T on our configurator https://store.supermicro.com/sys-740a-t.html?queryID=0bf01b62d385fe61e63e70998941580f&objectID=2833&indexName=supermicro_default

t_products I was checking through your email and KY and I see you wanted Intel Xeon 5317 Do you still want that CPU?. Customer: Can find my list yet. Agent: Do you mean you cannot see the CPU list on our configurator?. Customer: my list near me. Agent: I'm sorry I quite don't understand. What list are you looking for?. Customer: I lost my CPU list. Agent: I see. You can check on our configurator for the CPUs options https://store.supermicro.com/sys-740a-t.html?queryID=0bf01b62d385fe61e63e70998941580f&objectID=2833&indexName=supermicro_default_products. Customer: it does not work!. Agent: Do you mean the link does not work or CPUs? If the link does not work, can you please try log in https://store.supermicro.com/sys-740a-t.html?queryID=0bf01b62d385fe61e63e70998941580f&objectID=2833&indexName=supermicro_default_products. Customer: I did just an all prices are much higher. . Agent: I see. How about the CPUs of the pre-config link Kyle sent you last Friday?. Customer: He went backwards sorry. . Agent: Is the Intel Xeon 5317 is the CPU you want?. Customer: @25 emails with KY stop this chat. Agent: I can help with you on the SYS-740A-T configuration. Do you will want the Intel Xeon 5317?. Customer: I lost my CPU list. Agent: Here are the ones that we have on the eStore and if you want something else, please let us know. Customer: Sorry no thanks. I might be able to use Intel Xeon 5317. . Agent: Great! May I know what are requirement for memory, drives, etc.?. Customer: Not by typing only config!!!. Agent: I'm sorry. With the Intel Xeon 5317, we have to do pre-configuration from our end. You can check on our configurator link for the memory and drive lists and let me know which one do you want. I can create a link with all requirement for you to purchase. https://store.supermicro.com/sys-740a-t.html?queryID=0bf01b62d385fe61e63e70998941580f&objectID=2833&indexName=supermicro_default_products. Customer: What is my price for 5317. Agent: Please give me a moment while I check for you. The price for Intel Xeon 5317 is \$1106. Customer: The system allows the option of 1 or 2 CPUs This will affect memory choice. . Agent: I'm sorry, this system is required at least 2 CPUs for the configuration. . Customer: Suppermirco allows it however! Intel allows it however! Can I start with anem or old config?. Agent: I'm sorry, I don't have 1CPUs options for the SYS-740A-T on my end. . Customer: Can I start with a new or old config?. Agent: Sure. Please let me know what are your requirement?. Customer: Same SYS that I worked with KY and Liz. . Agent: <https://store.supermicro.com/full-tower-sys-740a-t-pre-config.html> is this configuration works for you?. Customer: KY went on his owen for 1.5 hrs. this cost me 3.5 days so far!! Agent: I'm sorry. Can you please ignore the previous picture Is this the configuration you want for the SYS-740A-T?. Customer: It is not complete. . Agent: May I know what else do you require? I saw your newest email said you already have the GPU. Therefore, I take out the GPUs on this configuration. Please let me know which one you would like to add on this configuration. . Customer: This is all about SYS_740A-T on last Friday. 1- Supermicro SuperWorkstation 740A-T - 4U/Tower - 8x NVMe/SATA/SAS - Dual 1-Gigabit Ethernet - 1200W (1+1) Redundant 2- Intel® Xeon® Gold 5317 Processor 12-Core 3.0GHz 18MB Cache (150W) 8-16GB PC4-25600 3200MHz DDR4 ECC RDIMM or more? 2-128GB Intel® Optane™ Persistent Memory Module 200 Series (PMem) 2- 800GB Micron 7300 MAX Series M.2 PCIe 3.0 x4 NVMe Solid State Drive 2- 800GB Kioxia CD6-V Series U.3 PCIe 4.0 x4 NVMe Solid State Drive (SIE) I purchased in late November one RTX A5000 GPU sorry! 1- Broadcom MegaRAID 9560-8i SAS3/SATA/NVMe 8-Port RAID Controller - 4GB Cache - PCIe 4.0 x8 1- Supermicro AOM-TPM 2.0 - ???V-S I would like to use my like to use my legal OS, Win 10 Pro for Workstations, if possible?. Agent: I'm sorry we don't have Intel® Optane™ Persistent Memory Module 200 Series. . Customer: Quote without please. . Agent: I will. We also don't have the 800GB Kioxia CD6-V Series options, I'm sorry. We have the closest one is 1.92TB CD6-R. Customer: Quote without please. . Agent: I'm sorry 960GB CD6-R Sure. May I know your RAID requirement please?. Customer: Quote without please. . Agent: Do you

want the quote without RAID controller too?. Customer: Quote without please. . Agent: Ok. May I confirm your requirement for the SYS- 740A-T? 2- Intel® Xeon® Gold 5317 Processor 8-16GB PC4-25600 3200MHz DDR4 ECC RDIMM 2- 800GB Micron 7300 MAX Series M.2 PCIe 3.0 x4 NVMe Solid State Drive 1- Supermicro AOM-TPM 2.0. Customer: Please Quote. Agent: Sure. I can email you with the quote for this configuration: 2- Intel® Xeon® Gold 5317 Processor 8-16GB PC4-25600 3200MHz DDR4 ECC RDIMM 2- 800GB Micron 7300 MAX Series M.2 PCIe 3.0 x4 NVMe Solid State Drive 1- Supermicro AOM-TPM 2.0 Is there anything else I may help you with today?. Customer: When could I get quote?. Agent: I will email you back with the quote as soon as I can. . Customer: OK Thank you,. Agent: You're welcome. Is there anything else I may help you with today?. Customer: No Thank you,. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Ralph Wostenberg left the following comment: It was very hard and limited as I type poorly. Hello. How may I help you? Status on our order ORDER #1000023475. Liz was assisting me but she has gone silent since last week. Agent: Hi Bruce Let me check on that for you. One moment Please bear with me for a few more minutes while I check for you. . Customer: OK. Agent: It looks like Liz is currently working on it with our shipping team and FedEx right now. We hope to have an update for you soon Bruce. I apologize for the inconvenience. . Customer: That's a non answer answer. She told me that Friday. I need to know now what is going on. Either replace the parts or come up with a solution. Agent: Let me check internally and see what we can do in regards to that. Is it alright if I follow up with you via email once we hear back? It will take some time to get this up the grapevine. . Customer: I have heard that before too. Is this some sort of scam. You charged our credit card. Show it as shipped with a tracking number but FedEx shows pending only,. Agent: This isn't a scam. According to our warehouse, the package was picked up by FedEx so we're working to determine where the package currently is. Since that's the case, we can't really make any decisions until we hear back from FedEx. Again, I apologize for the inconvenience. . Customer: This issue came up on Friday last week, it is now Tuesday and you expect me to believe that FedEx is not able to resolve this in that many days?. Agent: I can't speak to FedEx's efforts, but I can assure you our team has been trying to get to the bottom of what happened to your package. Yesterday was also a holiday, so that might have affected any progress we had. . Customer: Bruce Welch left the following comment: No resolution given. . Agent cut chat off early because I was giving him heat. Hello. How may I help you? I need to know if you have 60 of SNK-P0078AP4 in your warehouse that you can transfer over for purchase. . Agent: Hi Jennifer Sure, let me check for you We are running a bit low, but I can make a request. Once I get an update, I will email you that it's been approved and will be transferred within several hours today. . Customer: I will take as many as you have up to the 60 if possible. How many do you have?. Agent: I will request for 60 initially. Customer: Thank you. . Agent: You're welcome Can I help you with anything else?. Customer: That is all, thank you Hello. How may I help you? Hello. Agent: Hi Arthur!. Customer: Can I get access to the server section of the estore please?. Agent: Sure thing! Please give me one moment.I Is the email address for your eStore account arthur.w.neilson@gmail.com?. Customer: Yes. Agent: Perfect, thank you. Your account should now have access to the 'Systems' tab on our eStore. You may have to log out/log back in before you can access the configurator. . Customer: Thanks so much!. Agent: Of course! Is there anything else I may help you with today?. Customer: Nope, thanks again. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Arthur Neilson left the following comment: Thanks for the access Hello. How may I help you? I was looking to see if you might be able get some stock of (FAN-0154L4). Agent: How many do you need ?. Customer: 10-20. Agent: This item is running really low on stock, I can check for you and email you after I get an update Is supplychain@mbx.com the best email to reach you?. Customer: Yes that is great thank you. Agent: You're welcome. Can I help you with anything

else?. Customer: No that is all that this time thank you. Agent: It was nice talking to you. Have a great day, goodbye! You're welcome. . Customer: Hello. How may I help you? Can't find sys-5019a-fn5t in estore. Agent: Hi Arthur I'm sorry, but unfortunately, we do not carry this server on the eStore. . Customer: So how do I get one and how much is it?. Agent: If you're looking for this specific one, you may need to check with our resellers: <https://www.supermicro.com/en/wheretobuy> or contact our Sales team at Sales-USA@supermicro.com. Customer: Is it no longer manufactured?. Agent: It still is. We just don't offer every system that is listed on our main website on our eStore. . Customer: I'll try the sales team. . Agent: Ok sounds good Can I help you with anything else?. Customer: Ok thanks. Hello. How may I help you? We are looking for an alternative workstation to what we have. Tring to get wireless and a smaller foot print (mini tower). Agent: Hi Dwight! Would you like access to our eStore server configurator? You would be able to view our workstation selection and configure it to your needs. . Customer: sure. Agent: We'll just need your eStore accout email address to enable this option. If you don't already have an account, please create one here: <https://store.supermicro.com/customer/account/create/>. Customer: Is it possible to also get chat help on this to narrow down some choices?. Agent: Of course 😊 I'm looking through our selection right now to see if there's anything I can recommend. Customer: thx. Agent: For wireless, were you referring to wi-fi? I don't think the workstations on our eStore have onboard wi-fi. And the smallest form factor we have looks to be mid towers. . Customer: yes wi-fi we currently use the 5039A-i. is that a mid tower?. Agent: Yes, it looks like the 5039A-i is a mid tower. Customer: I see. So I guess something smaller is not possible. . Agent: I'd recommend the 5039C-T as a possible alternative, but you would have to purchase a wireless wifi card or USB and install that seperately. <https://www.supermicro.com/en/products/system/tower/5039/SYS-5039C-T.cfm> Yea, unfortunately for workstations I don't think we have anything smaller. 7039A-i is another mid-tower we have on the eStore. It's a dual processor workstation if you need something more powerful, but no onboard wifi so you'll have to source a wireless card from a reseller. <https://www.supermicro.com/en/products/system/tower/7039/SYS-7039A-i.cfm>. Customer: one of the criteria is streaming multiple ip camera video streams at once. Im looking to see if our existing Xeons are better than the i7 or i9's. . Agent: Ahh OK. In any case, did you still want access to our eStore server configurator? Once you get your account created, we can enable the feature so you can browse and configure as you'd like. Of course, we'll be here if you have any questions. <https://store.supermicro.com/customer/account/create/>. Customer: ok thx. Agent: We've just enabled your account for server access, Dwight. You may have to log out/log back in before you can access it though. Customer: ok let i will try Thx jim. I see the area where I can configure super workstations. Do you know if the area showing preconfigure- ships in 3 to 5 day is accurate as far as shipping time?. Agent: No problem Dwight! Yes, our eStore servers are built and shipped within 3-5 business days. As long as you're able to add your configuration to your cart and check out, it means we have everything in stock and ready to build. . Customer: Nice. Our current reseller has taken 1-2 months in the past. . Agent: Ahh, I see. Yea, we pride ourselves on our turnaround time so hopefully that's something to look forward to when purchasing servers from our eStore 😊 Now that you have access, did you want me to stay on chat with you to answer any questions you have? Or just let you browse for now and if you have any questions that need answering, you can hop back into chat?. Customer: I will browse for now. thx. Agent: Sounds good Dwight. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Trying to access my account under: support@cmi-tec.com. my password stated it was not valid - did a forgot password. Agent: Hi Lawrence. Customer: have not received an email to

reset - was able to verify my account when i tried to create a new one and it stated the support one was already there. Agent: Did you check your spam/junk folder?. Customer: yes do you know how long it takes for an email to arrive. Agent: Let me try from my end. It should be fairly quick. Customer: okay thank you. Agent: support@cmi-tec.com is the correct email?. Customer: yes. Agent: ok thanks It doesn't look like you created an account actually. Can you try recreating again using: <https://store.supermicro.com/customer/account/create/> is there another email account that was used?. Customer: i also have an lcianfoni@cmi-tec.com account - does that affect the other? the support one is for my business CMI. Agent: There's no account for the support one, but there is one for lcianfoni@cmi-tec.com You'd have to create a separate account for that email. Customer: how come it is stating that the account already exists. Agent: for support@cmi-tec.com?. Customer: yes. Agent: I don't see an account, so odd. Customer: it basically sends me back through a loop should i refresh the page or close and try again. Agent: I would try clearing your browser cache/refreshing the page or go incognito, then try again. Customer: will do. Start the chat Hello Jim. Agent: Hi John. Customer: I am going to be purchasing a supermicro motherboard M12SWA-TF. i'll probably get it from newegg i'm having trouble finding the right ram. Agent: What capacity/speeds are you looking for? I'll pull some options on my end. Customer: there are compatible memory types listed on the supermicro website, but they are all listed as out of stock in the estore i'm looking for 32GB RDIMMs with ECC enabled, registered memory. Agent: OK, please give me a moment while I check for you. . Customer: there are two types listed as compatible, LC and MD. what is the difference? MEM-DR432MD-ER32 and MEM-DR432LC-ER32. Agent: The difference is just the manufacturer from what I can see. . Customer: ah ok. Agent: <https://store.supermicro.com/32gb-ddr4-3200-mem-dr432l-cl04-er32.html> <https://store.supermicro.com/32gb-ddr4-3200-mem-dr432l-hl03-er32.html> <https://store.supermicro.com/32gb-ddr4-3200-mem-dr432l-cl05-er32.html> <https://store.supermicro.com/32gb-ddr4-3200-mem-dr432l-sl02-er32.html> These 4 DIMMs are validated for M12SWA-TF, but like you said they are mostly out of stock Is there a particular one you'd like? I can try requesting more inventory for any particular one. Customer: nothing in particular, but I do need some RAM I spoke with someone on the phone in San Jose this morning who said that he was able to find compatible RDIMMs in stock. . Agent: We should have stock left in our warehouse, we'll just need to transfer more over for you to be able to order it. Customer: oh ok I would love to buy some it looks like 64gb rdimms might be a better value though oh and there are some in stock!. Agent: Ahh OK. Did you want me to check for compatible 64GB DIMMs?. Customer: yeah if you don't mind double checking for me. Agent: No problem at all. One moment. Customer: <https://store.supermicro.com/64gb-ddr4-3200-mem-dr464l-sl01-er32.html> <https://store.supermicro.com/64gb-ddr4-3200-mem-dr464l-hl02-er32.html> would you recommend samsung or hynix?. Agent: Personally, I've used Samsung more than Hynix so I would go with Samsung. Customer: those links i shared were followed from the motherboard tested ram page but both of those rdimms don't list the m12 motherboard explicitly in their list of supported motherboards if i go to '. Agent: Ahh. Yea, our validation checker isn't up to date, so it might not return an accurate result. I can confirm that the Samsung one you linked is validated though The other 2 SKUs that are validated are MEM-DR464L-CL03-ER32 and MEM-DR464L-SL02-ER32. . Customer: ok you are confirming that that samsung ram is good for the M12SWA-TF motherboard?. Agent: Yes, the MEM-DR464L-SL01-ER32 RAM that you linked is validated for the M12SWA-TF. . Customer: what if i buy 4 now and 4 more in a couple years?. Agent: That shouldn't be a problem if you're wondering about compatibility. Customer: yeah i've heard that it's best to get as many as possible from the same production lot, but i don't remember why lol. Agent: I remember hearing about

that as well, but I also can't remember why. We generally advise installing RAM from the same manufacturer with the same size and frequency so I think it should be OK. Customer: this RAM is brand new right? it seems that there is a lot of shady ram out there... . Agent: Yes, the RAM you purchase will be brand new. . Customer: supermicro seems like the most trustworthy place to get it. Agent: I'm glad you think so 😊. Customer: okay well i think those are all of my questions for now, you've been very helpful Jim!. Agent: No problem at all John. Happy to help! Can I help you with anything else?. Customer: not at this time. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: see ya John Erickson left the following comment: Jim was helpful, and I appreciated having him double check RAM compatibility for me before my purchase. Hello. How may I help you? Hi, I'm running a 3CX phone server and need an SBC for a second office location. I'm running a raspberry pi temporarily but would like to replace it with a more robust machine. I have supermicro machines from NetGate for my firewalls and like the form factor and the IPMI interface, do you have anything in-stock that can fill this function?. Agent: Hi Stuart! Do you have access to our server configurator? <https://store.supermicro.com/system.html>. Customer: Yes, I tried that but it seems like everything is sold out <https://www.supermicro.com/en/products/system/1U/1019/SYS-1019S-WR.cfm> something like that would do the job I need it to do I don't really need storage, it's just a session boarder controller app to pass phone traffic to a HQ Do you have any advice on how I can get a couple of these ordered?. Agent: If you're looking specifically for the 1019S-WR, you may have to check with our Sales team or our resellers since we don't carry this system on our eStore. Sales dept: Sales-USA@supermicro.com Tel: +1-408-503-8000 <https://www.supermicro.com/en/wheretobuy>. Customer: You have this on your estore: <https://store.supermicro.com/wio-server-1u-sys-1019p-wtr.html> this would do the job too, probably overkill actually. It has a "notify me" button Can you advise me on the turn-around time on this machine?. Agent: I'll have to check internally for that and email you back. . Customer: Ok great, I would appreciate that. Agent: Would you be interested in something like 5019P-M or 5019C-M? On our mainstream tab?. Customer: Tim transferred the chat to Tim yes, those would do the job too. It doesn't need to be particularly powerful, I'm running the app on a Pi right now, it just needs to be always on. Looking for better hardware, dual power supply ECC memory etc. Agent: <https://store.supermicro.com/mainstream-server-1u-sys-5019p-m.html> we have this system available and ready to ship (build and ships within 2-3 business days). Customer: great. Agent: we may also have SYS-5019C-M available (currently out of stock) but it may take some time (1-2 weeks) <https://store.supermicro.com/mainstream-server-1u-sys-5019c-m.html>. Customer: This looks good. Agent: The major difference between the two is one uses E-2200 series CPU and the other intel Xeon Processor also the 5019P-M has 6 dimms vs the 5019C-M has 4 dimms i would always recommend to give yourself some more room for upgrades in the future so i'd probably go with the 5019P-M. Customer: that makes sense to me. Agent: timeline for 5019P-M is a lot faster as well we might be able to ship it out before end of the week if purchase today. Customer: I see the photo gallery has one of the 5019P's with dual power supplies, is this configurable? I'm not seeing it in the options. Agent: Dual power supplies are fixed cannot be changed or configured this has to do with validation purposes as well. Customer: gottcha. Agent: wait. Customer: thanks this was super helpful. Agent: actually if you want redundant power supply, we do have that but its another SKU <https://store.supermicro.com/mainstream-server-1u-sys-5019p-mr.html> this is the SKU for redundant power supply we actually do have this in stock. Customer: got it, it's out of stock, any idea when it will be available?. Agent: how many are you interseted in purchasing? interested*. Customer: 2 today. Agent: yes we have exactly 2. Customer: how much?. Agent: difference between the two systems is

\$373.70 1 power supply versus 2 power supply i have updated the inventory for 5019P-MR and should be up in about 15 mins or so so you should be able to configure your own server. Customer: got it, so it's about 2300 after tax and shipping good deal I'll be able to order at 3:30?. Agent: yes hopefully. It's usually within 30 mins actually i might be able to help if you provide me with your specs i can create a pre-config. Customer: Base ram, base CPU. Agent: lets use 5019P-M as reference. Customer: it doesn't need a lot of power, it's a single purpose appliance Intel® Xeon® Silver 4210R Processor 10-Core 2.40 GHz 13.75MB Cache (100W). Agent: so 4210R as CPU, 1 x 16GB DDR4. Customer: 16GB DDR4 3200MHz ECC RDIMM Server Memory 1TB 3.5" DC HA210 7200 RPM SATA3 6Gb/s 128MB Cache 512N Hard Drive The NIC's that come with it will suffice for what I'm trying to do. Agent: ok give me a moment while i look this up. Customer: ok let me know if I should email you a credit card info or if I can chat it here. Agent: oh no...i'll provide you with a link maybe in 2-3 mins. Customer: ok thanks. Agent: you can add that to cart and proceed with checkout. Customer: I presume it will come via email?. Agent: no i'm actually wrapping up. Customer: got it Ok I'm ready when you are, I'll be here thanks for your help!. Agent: any concerns with 2933MHz memory?. Customer: nope it's ECC? I've had issues with previous tech's running this software on desktop machines and they crash monthly. . Agent: <https://store.supermicro.com/mainstream-server-1u-sys-5019p-mr-pre-config.html>. Customer: perfect this is what I needed. Agent: awesome is there anything else I can help you with today?. Customer: No that's it I placed the order Thanks for your help, I appreciate it! Your order number is: 1000023591. . Agent: no problem. Please feel free to reach out if you have any questions or additional server inquiry. Customer: Will do, thanks again. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: bye Stuart Garlock left the following comment: Tim was very helpful. I managed to get my servers ordered, all is well! Hello. How may I help you?. Agent: Hi again Dwight. Customer: hi jim dwight again. On the sys-7039a-i, I was trying to upgrade the GPU to an 8 gig. Agent: Please give me a moment while I check for you. Is it alright if I email back for this? I'll have to check internally to see if there is an 8GB GPU option Was there a particular 8GB GPU you were looking to add?. Customer: nvidia rtx/4000. Agent: OK, let me check internally for that Dwight and I'll email you back. Is dleong@safeinhome.com a good email to reach you at?. Customer: yes, also looking for bulk pricing. Looking to get 6 to 8 units. thx. Agent: 6 to 8 units for 7039A-i or 6 to 8 units for the GPU?. Customer: for the 7039a-i but open to the 5039-c although the site has is show no configuration options for the 5039-c. Agent: Thanks for confirming Dwight. I don't believe we offer bulk pricing for systems but I'll check internally. As for the 5039-C, I can help to configure it off-menu for you if you let me know what specs you'd like. . Customer: ok cpu- w-2275 or dual with more than 14 cores total, GPU 8 gig (4 port) , Mem 32 gig. . Agent: Thanks Dwight. What would you like for storage?. Customer: 500g ssd and 1t hdd. Agent: Thank you! I'll get started on this configuration and email you back with a quote and hopefully have answers for your 7039A-i questions about availability and the RTX4000. . Customer: ok thx. . Agent: No problem! Can I help you with anything else?. Customer: Oh, Needs windows 10 pro as well. . Agent: OK I'll keep that in mind. Thanks Dwight! Is there anything else I may help you with today?. Customer: im good for now. shipping time may be important if you can specify. thx. Agent: The systems should still ship out within 3-5 business days, and depending on what option you select at checkout, that would determine your delivery time. We offer standard shipping (3-5 business days), expedited shipping (2 business days), overnight (next business day), priority overnight (by 10:30 am to most US addresses; by 5 pm to some remote areas; by noon on Saturdays). We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email It was nice talking to you. Have a great day,

goodbye!. Customer: Hello. How may I help you?. Agent: Hi Avonn!. Customer: Trying to purchase 10 each of Supermicro FCI Blade Power Distributor (PDB-PT818-S2068) Can you tell me if you have enough in stock or inventory to cover?. Agent: Please give me a moment while I check for you. . Customer: Ok thanks!. Agent: The stock for this item is running really low, however, I can check internally to see if we can support your inquiry Can I email you when I get an update ? Is adorse01@peraton.com the best email to reach you ?. Customer: yes. Agent: Thanks! I will email you when I get an update Can I help you with anything else?. Customer: That was it. Thanks!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Rebecca!. Customer: Hi! May I get a quote 25x Hitachi HGST Ultrastar C10K1800 HUC101818CS4200 1.80 TB 2.5" Internal Hard Drive. Agent: HDD-2A18-HUC101818CS4200 (HUC101818CS4200) is EOL <https://store.supermicro.com/1-8tb-hdd-2a18-huc101818cs4200.html>. Customer: I will take the replacement. Agent: I am afraid that we won't be able to provide a quote. Customer: I will take a replacement. Agent: I can check the replacement part number and then request a quote for you. Is rebecca.jones@nandbsolutions.com the best email to reach you ?. Customer: ok yes please. Also, do you have the sales dept email address? Yes. Agent: Sales-USA@supermicro.com Thanks! Can I help you with anything else?. Customer: no thanks!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi. Agent: How can I help you?. Customer: Im checking if you can recommend an alternative chassis for this sorry I was checking sorry, I was checking if you can provide an alternative chassis for this model # please -- CSE-745TQ-R920B we need a 4U tower with redundant power supply. Agent: Let me check for you. Customer: thank you. Agent: <https://www.supermicro.com/en/products/chassis/4U/745/SC745BTQ-R920B> the newer version. Customer: nice checking. Agent: We don't sell any chassis on the eStore unfortunately, so you'll have to check with our resellers: <https://www.supermicro.com/en/wheretobuy> or contact our Sales team at Sales-USA@supermicro.com for availability though Just certain complete systems are available on the eStore. Customer: got it, do you have any other models you can recommend?. Agent: The other ones that are similar have larger capacity power supplies <https://www.supermicro.com/en/products/chassis/4U/745/SC745BAC-R1K23B-SQ>. Customer: oh yes, i see this one. Agent: <https://www.supermicro.com/en/products/chassis/4U/747/SC747BTQ-R2K04B>. Customer: ok got it, will check with your sales. Agent: Sounds good Can I help you with anything else?. Customer: your sales can only be contacted by email?. Agent: You can call +1-408-503-8000 and go through the menu from there I believe. Customer: got thank you that will be all. Agent: Ok great. It was nice talking to you. Have a great day, goodbye!. Customer: Danny Chiu left the following comment: all good Hello. How may I help you?. Agent: Hi Kasper. Customer: Hi Liz, thanks for getting on a chat with me. Agent: It's my pleasure to help you though 😊. Customer: Im mainly reaching out, as I am running a large amount of supermicro servers and I am in need of firmware updating a bunch of Toshiba drives, mainly the Toshiba MG05ACA800E i've only been able to find the firmwares from Dell, but they require that the drives are in a dell server before flashing them, which poses a problem for me.. Do you know of any person that might be able to assist on this+. Agent: I'm sorry do you mean the firmware updating for the toshiba drives?. Customer: Yes, I have a problem with them where they are going into offline mode randomly, it is supposedly fixed in the newer firmwares but I cannot find a way to update my drives without moving them to a Dell server. The only dell server I have can accept 8 harddrives, and I have 725 harddrives to update :O. Agent: You can contact our Tech support team for this at Support@Supermicro.com or Tel: +1 408-503-8000 You also can contact the Toshiba support on this issue. Customer: Alrgh, thank you - I will give that a go Thanks. Agent: Sound great! You're welcome. Is

there anything else I may help you with today?. Customer: No I think that was all for now, I'll surf around your store a bit.. Do you ship from EU?. Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors in EU. <https://www.supermicro.com/en/wheretobuy> Can I help you with anything else?. Customer: Thanks I will, I am good thank you.. Enjoy your day, and thanks for the help. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Deborah!. Customer: I need qty (30) CBL-SAST-0568. Agent: Let me check and see if we can support that quantity. One moment. Customer: ok. Agent: Is it alright if I email you back? I've reached out internally to check but I don't think I'll get an update soon. . Customer: YES thank you. . Agent: No problem, thank you Deborah! Is deborah.ehman@arxys.com a good email to reach you at?. Customer: Yes. Agent: Perfect, I'll reach out once I have an update. Can I help you with anything else?. Customer: That's it for now. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi, I think that I have one dead power supply in my very old server. The PSU is PWS-801-1R do you have one or more in stock?. Agent: Hi Jesper I'm sorry, but unfortunately, we do not carry this PSU on the eStore as it is EOL (end of life). You will have to check with our resellers/distributors for availability: <https://www.supermicro.com/en/wheretobuy> or check with RMA at rma@supermicro.com for a replacement if possible. Customer: The server is long out of warranty. . Agent: The replacement is PWS-802A-1R, but you will need to replace both PSUs per recommendation. Customer: So the PWS-802A-1R is a drop in replacement?. Agent: Since PWS-801-1R is end of life, it may be difficult to find one. So you may need to go with the 802 <https://store.supermicro.com/800-1u-pws-802a-1r.html> We are out of stock with no ETA when we'll get this back so you may have to check with resellers again. Customer: OK, thanks!. Agent: You're welcome Can I help you with anything else?. Customer: That was it. Hello. How may I help you?. Agent: Hi Salvatore!. Customer: Hello. Is the license for Supermicro Out of Band (OOB) Software License Key (SFT-OOB-LIC) per server or per user?. Agent: It is per server, not per user. Customer: Thank you. . Agent: You're welcome. Can I help you with anything else?. Customer: No that was it. Have a great day. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Salvatore,. Customer: I'm trying to place an order for software but I am unable to enter my Canadian billing address. . Agent: I'm sorry, but our OOB license is only available for US-based customers (US billing address) to purchase. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today?. Customer: No that was it thank you. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? I have an old quote and either need to update it or get a new one. Quote number: 8600649360. Customer number: TL00120U00. Agent: Hi Patrick Was this through our Sales team?. Customer: Yes. . Agent: Ah ok. Customer: JOSHUA OOI was the sales person. Agent: If you went through Sales, you can contact them at Sales-USA@supermicro.com or +1-408-503-8000. Customer: Got it, thanks. . Agent: You're welcome Can I help you with anything else?. Customer: Can I get an extension for Joshua OOU OOI. Agent: I would contact Sales-Sales-USA@supermicro.com and request for Joshua, I don't have those details unfortunately from my end. Can I help you with anything else?. Customer: nope thank you Hello. How may I help you?. Agent: Hi Jennifer!. Customer: I asked yesterday if 60 of SNK-P0078AP4 could be transferred from the warehouse for me to purchase and I haven't heard anything back yet. . Agent: I'm sorry for that. We still waiting for the answer of our PM and we will email you back as soon as we have the answer. Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need

any further assistance, you can reach us here again or email It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you?.

Agent: Hi Chris!.

Customer: Hello. I am trying to order some cables. I am stuck on the "Review & Payments" page. It does not recognize my correct address. It is forcing me to use an address that has the wrong zip5+4 code. .

Agent: Could you please provide the full address here? I'll see if I can whitelist it on my end.

Customer: Payment Address - P.O. Box 28075 Henrico, VA 23228-0075.

Agent: OK, please give me one moment. .

Customer: ok.

Agent: Just to confirm, this address is just for the billing address right?.

Customer: Correct. Your site recognizes the shipping address. .

Agent: Perfect, thanks for confirming. OK, can you refresh your page and try the address once more? Exactly as provided above. P.O. Box 28075 Henrico, VA 23228-0075.

Customer: "Please select an address below with a 9-digit zip code" We Recommend: PO BOX 28075 HENRICO , Virginia US 23228-0076 I cannot get past this " You Entered: P.O. Box 28075 Henrico, VA US 23228-0075 Please select an address below with a 9-digit zip code " .

Agent: How about let's try another way. Could you go back to our main page (<https://store.supermicro.com/>), click on the person icon on the top right -> My Account -> Address Book, and update the billing address there? The address seems to work on my end. .

Customer: " You Entered: PO BOX 28075 Henrico, VA US 23228-0075 Please select an address below with a 9-digit zip code We Recommend: PO BOX 28075 HENRICO , Virginia US 23228-0076 " I cannot save it.

Agent: Could you include the periods as well? It needs to match exactly P.O. Box 28075.

Customer: On the Verify You Address box, it says "Valid Address". When I click on Save Address it says " You Entered: P.O. Box 28075 Henrico, VA US 23228-0075 Please select an address below with a 9-digit zip code We Recommend: PO BOX 28075 HENRICO , Virginia US 23228-0076 .

Agent: Hmm OK. Please give me one moment to check internally. I apologize for the inconvenience. If you refresh your page, does the address book show the correct billing address?.

Customer: It does, Let me go back and try to pay again.

Agent: Sounds good Chris. Let me know if you run into any issues.

Customer: Still the same issue " You Entered: P.O. Box 28075 HENRICO, VA US 23228-0075 Please select an address below with a 9-digit zip code We Recommend: PO BOX 28075 HENRICO, Virginia US 23228-0076 " It still wants me to use the incorrect zip+4.

Agent: OK, I might have to have our web team look into this and get back to you. Again, I'm terribly sorry for the inconvenience. It might take some time. Did you want to stay on chat or have me email you back once we resolve this?.

Customer: Can I order by phone?.

Agent: Unfortunately no 😞 .

Customer: I will try to stay on for a bit, but you can email me. .

Agent: Thanks Chris. If I don't get an update within 5 minutes, I'll let you go and follow up via email. Haven't gotten a response back yet, Chris so I'll follow up with you via email on this issue Hoping to have an update for you soon, and again I'm sorry for the inconvenience Is there anything else I may help you with today?.

Customer: Just curious, what is the difference between CBL-SAST-0507-01 & CBL-SAST-0507-02?.

Agent: Please give me a moment while I check for you. It looks like 01 is 28 AWG and 02 is 30 AWG.

Customer: ok thanks.

Agent: No problem Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email.

Customer: Hello. How may I help you? hey.

Agent: Hi Sara.

Customer: i need a quote pricing on your products could you help me woith it with.

Agent: Sure, for which product?.

Customer: one moment QTY: 2, Manufacturer Part #: NTS-1023US-TR4-CT1, Description: SUPERMICRO 1023US-TR4 with 16 x 32GB ODR4-3200, 2 x Seagate 3.5" 1TB, 2 x.AMD Rome 7452. QTY: 2, Manufacturer Part #: 6RKNM, Description: DELL 6RKNM MELLANOX CONNECTX-3 En Dual Port Cx354a Nie 40gbe / 56gb/s, Pci-e 3.0 XB Two Qsf + Transceiver Ports Network Interface Card. Agent: I'm sorry, but unfortunately, we do not carry this on the eStore. You'll have to check with our Sales team for this request at Sales-USA@supermicro.com or +1-408-503-8000. Customer: thank you. Agent: you're welcome Can I help you with anything else?. Customer: thank you for your time'. Agent: Np! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello good day. Agent: Hi Chris. Customer: I'm upgrading my cpu to milan 7003 series, and was wondering is it recommended that I change from the 7002 memory modules. . Agent: Please give me a moment while I check for you. I'm sorry, we can only check the memory that already validated with the original CPU on the motherboard. Please contact with our tech support team at Support@Supermicro.com or Tel: +1 408-503-8000. Customer: ok emailing now thank you. Agent: You're welcome. Is there anything else I may help you with today?. Customer: is there any difference at all from buying the memory here to buying say just the samsung module of the same exact model number. Agent: If you buy the memory here it's guarantee that the memory is validated or tested with your motherboard. We can help you to find the validated memory for the H12SSL-NT motherboard with milan 7003 series If you want us to look at the validated memory for the H12SSL-NT motherboard with milan 7003 series, please let me know the your requirement. Customer: i've got that the reason that I'm asking is my CAS latency has always been ticked up by two but for instance right now i'm running Samsunng 16GB 1R ECC RDIMM CAS 22 3200MHz but it's not supermicro branded. Agent: I see. I would recommended to contact our tech support for this issue. They can help for this issue. . Customer: I just have., thank you have a nice day. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Chris left the following comment: It could be more informative, I understand it's not tech support. Hello. How may I help you? I ordered 4 of these cable and expedited their delivery. Can you tell me when they will be shipped?. Agent: Hi James! They should be shipped out tonight so you should receive it by tomorrow since you chose overnight shipping. . Customer: okay thanks!. Agent: No problem! Is there anything else I may help you with today?. Customer: Chat is idle due to 10 minutes of inactivity Chat archived due to 60 minutes of inactivity Hello. How may I help you? Hey, how can I find my. Customer ID? I bought my motherboard from Newegg. . Agent: I see Sorry but only Supermicro direct customers have. Customer ID. Customer: So I can't register my system?. Agent: If you want, you can check with Newegg for their ID You can register if you have Newegg's Supermicro ID. Customer: Wow...ldk how hard that is to get. Agent: Yeah, I am not sure either. Sorry about that !. Customer: Lol, alright. I appreciate it. Agent: You're welcome. Can I help you with anything else?. Customer: No, that was all. Thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Bye 👍 Hello. How may I help you?. Agent: Hi James. Customer: On order number 1000023608 I forgot to add my suite number. can you add Suite 206 to the order?. Agent: I'm sorry, but unfortunately, we cannot modify your order on our end. Please cancel the order and replace it with the correct address. You can cancel your order by go to My Account -> My Order and cancel it Please double check your shipping address before place the order to avoid the suit number got dropped Is there anything else I may help you with today?. Customer: nope thank you. I canceled and reorder. Hopefully there wasnt any hidden charges doing so. :-). Agent: You're welcome. I saw the order canceled and new order placed. No worry, we don't have any hidden charge for it It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi John!. Customer: I am wondering if you all have a hardware RAID Controller for your SYS-6029P-WTR system. . Agent: Please give me a moment while I check for you. It looks like we do. It's not available on our configurator, but I

can configure something off-menu if you're interested. Would something like this work?
<https://www.supermicro.com/en/products/accessories/addon/AOC-S3108L-H8iR.php>. Customer: Well, I recently purchased one of those servers so at the moment I am looking for a price of just the controller and the option to buy individually if I decide I need to go that direction. . Agent: Ahh OK, thank you for clarifying. Since it's not carried on our eStore, you may have to check with our Sales team for a quote. This is one of our most common hardware RAID. Sales dept: Sales-USA@supermicro.com Tel: +1-408-503-8000 hardware RAID controllers*. Customer: And it would be compatible with this motherboard and chasis even though it isn't listed on that page?. Agent: Yes, it will be compatible. Customer: Ok great. I will give them an email. Thanks for your help. Agent: No problem John! Can I help you with anything else?. Customer: Hello. How may I help you? Hi I am interested in SYS-510P-MR. Agent: Hi Brandon!. Customer: I would like to get pricing information. I tried to sign up to configure server, but I have not seen any email. . Agent: What is the eStore account email address?. Customer: brwong@paloaltonetworks.com. Agent: Can you log out and log in again on eStore?. Customer: sure will try ok great that works now!. Agent: That's good. . Customer: Another question since I have you Does the site generate a quote? or it only allows adding to cart?. Agent: After you adding a server to your cart, then you " Go to cart" you can generate a quote from there . . Customer: Ok great thank you for your time. Agent: You're welcome. Please do come back if you need more assistance Can I help you with anything else?. Customer: Thanks thats all the questions I have for now. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Just an extra note, we don't carry SYS-510P-MR at the moment but you can check if SYS-510P-WTR fits what you need Have a great day, goodbye!. Customer: Hello. How may I help you? Hello. How may I help you? looking for QTY 3. Agent: Hi Kathryn We currently have 1 available, but I can request for 2 more and hopefully it gets approved. This may take several hours to complete. I can email you once I get an update or the transfer is completed. Customer: kdriggers@nextscan.com. Agent: Got it, thank you! Can I help you with anything else?. Customer: should I order the 1 or wait for the 3 totoal. Agent: I would wait for all 3 to be ready so that its just 1 transaction/shipping. . Customer: thank you that was all. Agent: You're welcome It was nice talking to you. We'll be in touch soon. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Gayle!. Customer: I'm looking for 8 ea of the CBL-SAST-0973-1T. What's the availability?. Agent: Please give me a moment while I check for you. Currently, we only have 3 available on eStore, but we can request more stock for the CBL-SAST-0973-1T. The transfer process will take some hours to complete. Do you want me to email you back via gayle.smith@arlut.utexas.edu after 8pcs are available?. Customer: yes please! this will also be tax exempt for the University of Texas at Austin. Do you have our cert on file or can I send it over now?. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide>. Customer: ok, so you'll email me later on the 8?. Agent: Yes, I will email you as soon as the inventory is ready Is there anything else I may help you with today?. Customer: that's it. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi, I activated an OOB license with just the serial number but SUM is saying that it also needs the MAC...how do I add the MAC to the key?. Agent: Hi Terrence! Please give me a moment while I check for you. . Customer: The input page only asked for

either the Serial or the MAC...I entered the Serial and apparently I needed the MAC...or both. . Agent: <https://store.supermicro.com/pub/media/wysiwyg/productspecs/SFT-OOB-LIC/How-to-generate-OOB-keys.pdf> So it looks like you reached Step 6 where you input the serial number right? And a key was successfully generated?. Customer: That page actually didn't work at the time I was trying to register the license, so I just entered the Serial and generated the key...it says it wont work if youve already used the license so I do I redeem it? Yes. Agent: Let me check internally on this real quick. One moment. Customer: Ok. Agent: <https://store.supermicro.com/software/out-of-band-oob-key-activation-guide#tab-sum> Have you downloaded the license file and done these steps? Or is this where you're running into issues. Customer: That's where I'm running into issues...the MAC address is not included in the file that was generated, but the program is asking for the MAC in the key. . Agent: What if you try activating it via WebGUI? <https://store.supermicro.com/software/out-of-band-oob-key-activation-guide#tab-ipmi>. Customer: I can't access the IPMI right now...I'm in the process of trying to reflash the BIOS which is why I bought the license. . Agent: Ahh OK. Give me one more moment to check internally. . Customer: Ok...I really don't think I can even activate it OOB, because I can't connect to the IPMI which is off... . Agent: Please bear with me for a few more minutes while I check for you. . Customer: Ok. Agent: Would you be able to provide a screenshot for where you're running into the issue when activating via SUM?. Customer: I'm going to try SUM in-band and see if that works, but I don't think it will because the IPMI is off Like not detected. Agent: OK, please let me know how that goes. From what I can see, there shouldn't be any issues trying to activate via SUM if you used the serial number vs mac address. Customer: Ok, thank you. Agent: How's it looking Terrence? Did you have any luck with SUM in-band activation?. Customer: I'm waiting for the system to reboot. Agent: OK. Customer: Takes a long time now. Agent: Ahh I see. Customer: Somehow the wrong BIOS was flashed to my motherboard I'm trying to fix it now. Agent: No worries Terrence. Do what you have to and I'll wait for your update. . Customer: Ok I see you can't activate it by SUM EFI Correct?. Agent: That I'm not sure. Customer: Ok, Is it even possible ot reflash the BIOS to the correct BIOS?. Agent: You should be able to, but without OOB activated, you can't reflash it remotely and it would have to be reflashed locally. Customer: Ok, I thought I saw something that said that you can't flash locally or manually without a license DMCS license. Agent: The license just enables remote BIOS updates via IPMI Updating locally shouldn't require a license. Customer: Ok, last thing....does the H12SSL-CT BIOS supposed to say it's H12SSL-i I downloaded the BIOS for the CT and ended up somehow with the i....I see they have the same name or are bundled together...but I'm not sure why my motherboard chose to flash as an i device... . Agent: From the release notes it looks like CT and I share the same BIOS versions. https://www.supermicro.com/Bios/softfiles/14711/H12SSL-i_C_CT_NT_BIOS_2.3_release_notes.pdf. Customer: I uploaded the bin file to the IPMI and it flashed from there and it ended up like this...No IPMI and wrong BIOS. Agent: I would recommend double checking with our technical support team just to be sure though: Tech Support: Support@Supermicro.com Tel: +1-408-503-8000. Customer: Ok. Agent: Is there anything else I may help you with today, Terrence?. Customer: No, that was all...thank you 🙌 . Agent: No problem 😊 It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello, I recently purchased a server from eBay and was wondering how I could purchase a product key to update the BIOS via the IPMI. The motherboard is an older model X9DRD-LF-TW008. Agent: Hi Dirk Let me check on this. Customer: Thanks. Agent: Is it asking for a key when you try to update the BIOS via IPMI?. Customer: Yes. Agent: Ok This motherboard is quite old and we don't show any X9 motherboards for OOB key. I'll have to check with our technical support team this can be used with OOB and get back to you. . Customer: Ok that would be great. I updated the IPMI firmware without

needing anything but the BIOS seem to require a product key. Agent: Ok I'll doublecheck and email you back. Customer: Thanks!. Agent: You're welcome Can I help you with anything else?. Customer: No that's it. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You too thanks Hello. How may I help you?. Agent: Hi Tom!. Customer: I'm looking to replace the fans in my SC847 case. I've read that (with a little modification), the "Supermicro 80mm Hot-Swappable Middle Axial Fan (FAN-0074L4)" will work, and are much quieter. There are 7, so I'd need that quantity, but it appears only two are available. Hi Liz!. Agent: Please give me a moment while I check for you. . Customer: Thanks. Agent: May I know the full chassis part number, please?. Customer: I think it's SC847J, it's the JBOD version. I bought it used, and it didn't come with a manual ah. give me a second, I can get that for you. Agent: Thank you. Customer: So you want the serial #? C84700A30B60135 P/N is CSE-847. Agent: Yes. Thank you. Please give me a moment while I check for you. Your full chassis part number is CSE-847E26-RJBOD1. The fan that is validated with this chassis is FAN-0126L4 https://store.supermicro.com/80mm-fan-0126L4.html?queryID=5cf9938fa16895aa6ee069e66879765d&objectID=465&indexName=supermicro_default_products Unfortunately, we are out for stock for FAN-0126L4. Please contact our resellers for availability <https://www.supermicro.com/en/wheretobuy>. Customer: ok. thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: nope Hello. How may I help you? Hi I'm trying to check availability of part# MEM-DR432L-HL01-EU29 it shows as in stock, but errors out when I try to add to cart. Agent: Hi Benjamin! How many were you looking to purchase?. Customer: 2. Agent: Please give me a moment while I check for you. We're updating the inventory right now. It should only be a couple of minutes. Customer: okay, thank you. Agent: OK, please refresh your page and try adding 2 to your cart again. Customer: that worked, thank you for your assistance!. Agent: No problem! Is there anything else I may help you with today?. Customer: nope that was my only concern. thanks again. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? do you have a tracking number on 1000023608. Agent: Hi James ! Please give me a moment while I check for you. . Customer: thanks!. Agent: 1000023608 was canceled but you placed another order 1000023613. Correct? Order 1000023613 is scheduled delivery: Thursday, 1/20/2022 before 4:30 pm <https://www.fedex.com/fedextrack/?trknbr=540500950960&trkqual=2459600000~540500950960~FX>. Customer: whoops you right :-)) thanks for the latest tracking info! 🙏. Agent: You're welcome. Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hey there. Agent: Hi Omar. Customer: I am messaging from Klick Health, we are a company based in Canada and the US. We need to upgrade 4 servers ASAP. Since I know supermicro from previous experience, I got approval to purchase from you guys But when I go to the store, it is asking to request access. I did that yesterday. I was wondering if you can help me with access to the store I want to avoid buying from third parties. Agent: Ok got it, sure I can provide you access. Give me a moment. Customer: thank you so much!. Agent: Please note we only ship within the United States and purchases are made with a US-credit card or ACH Bank Account Transfer currently. Customer: Noted yes, we have offices in the US and Canada, and we can pay in both ways. Agent: Ok great you should have access now every time you log into your eStore account now if you're currently logged in, you will have to log out and log back in Were you able to log in and access our servers?. Customer: let me check. Agent: Ok. Customer: yes!! you rock! thanks. Agent: you're welcome!. Customer: I can do shopping now and have fun with this new servers :) thanks for your help. I am tired

of Lenovo and HP hahah. Agent: Nice, np!. Customer: I want something that we can manage better and with more simplicity :) Have a good day ahead. Agent: Thank you, you have a great day as well! Feel free to come back to us on chat or email if you have any questions. . Customer: will doi Omar Luna left the following comment: Great support. Love supermicro and how easy things are Hello. How may I help you?. Agent: Hi Alejandro!. Customer: Hi Good day. Do you have in stock MCP-220-00047-0B Trys? i need 20. Agent: Please give me a moment while I check for you. . Customer: thanks. Agent: Yes, we have 20pcs of MCP-220-00047-0B in stock. Here is the link: https://store.supermicro.com/mcp-220-00047-0b.html?queryID=498dbff6961ded02d0b50ee7b1b1f0e5&objectID=634&indexName=supermicro_default_products. Customer: ok what is the delivery time? the shipping is for Atlanta. Agent: If you place the order before our cut off time 3:30 PM PST. The order will be shipped out by the end of today. . Customer: ok perfect...let me validate it to shopping thanks. Agent: Sound good! You're welcome. Is there anything else I may help you with today?. Customer: Thanks is all i will proced to the shopping. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: bye Hello. How may I help you? Hello. We bought a SFT-OOB-LIC for a node of our SYS-5038MD-H8TRF system--so that's an X10 motherboard. We received a file containing a signature, like you'd use to activate the product for an X12 motherboard. However, what we need is the 24-character key that the X11 and X10 motherboards take. . Agent: Hi Jordan, did you buy the OOB from the eStore?. Customer: Yes. Agent: What is your order#?. Customer: Hmm. My boss forwarded me the email with the generated key, but that doesn't seem to have the order number. Let me see if I can get that real quick. . Agent: Oh ok So you already generated the key using the methods for X10/X11 from this guide: <https://store.supermicro.com/pub/media/wysiwyg/productspecs/SFT-OOB-LIC/How-to-generate-OOB-keys.pdf>. Customer: I think so. He definitely had me look up our motherboard model while he was doing it. Thanks for the instructions document, though. Good way to figure out with him if something wasn't done right. . Agent: For X11, if successful, the Product Key would be shown under "Generate Key" that applies to X10 as well X12 is an actual key file. Customer: yeah. Agent: Oh it's under his account huh unless you have access to it?. Customer: Yeah, it is, and he's not responding right now. I think we're stuck for right now. . Agent: Ok understood. If the 24 character key is shown there, then you should be good to use that to activate in IPMI. If it's a key file where you can download it, then not sure why it went the X12 method. . Customer: Would we be able to reverse that and get an X10/11 key out of it instead?. Agent: Probably, but we'll have to see from your boss if the key number is just sitting in his account. Customer: Alright. Agent: I think he generated it already, Ravi right?. Customer: yep, that's the one. Agent: If you guys do not see the key under his account, feel free to reach out back to us. Customer: OK, I'll do that after I have a chance to talk to him, if necessary. . Agent: Sounds good Can I help you with anything else?. Customer: Nope, thank you. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Ray. Customer: Hi Liz - I have the following server with two of four nvme drives already in. Would like to add two more drives please. Can you please advise the part # for me SYS-740GP-TNRT. Agent: May I know what kind of drive do you want to add?. Customer: ssd would be great. 2tb each. Agent: You can check all the drive options for the server SYS-740GP-TNRT at this link: <https://www.supermicro.com/en/support/resources/hdd/systemhdd?ProductID=87521&sz=2.&ctrl=74> 3.5 for HDD and 2.5 for SSD. Customer: I can add ssd to the hdd drive slots (4 of them). Agent: Please give me a moment while I check for you. You will need the convert 3.5" to 2.5" tray for the SSD use the HDD slot Please give me a moment while I check for you which convert tray is compatible with your chassis You will need the MCP-220-93801-0B to use the SSD on the HDD slot

haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to
make sure we get your questions taken care of so if you need any further assistance, you can reach us

here again or email It was nice talking to you. Have a great day, goodbye!. Customer: Debbie Chen left
the following comment: response quickly. thanks Hello. How may I help you? Hello I just registered my

account is there a way to tax exempt it? I am with the Navy in Orlando. Agent: Hi Gregory! We do accept
tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to

apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-
support@supermicro.com along with your order number. Your tax-exempt request will be processed

after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax
amount to return back to your original form of payment. Before submitting a request, please review the
tax exempt guide carefully. Incomplete or incorrect submissions will be rejected.

<https://store.supermicro.com/tax-exemption-guide> Is there anything else I may help you with today?.

Customer: Hello. How may I help you? I'm looking for price and availability on your A2SAP-H

motherboard. Agent: Hi Robert! I'm sorry, but unfortunately, we do not carry any motherboards on our
eStore. Please check with our resellers and distributors for availability.

<https://www.supermicro.com/en/wheretobuy> You can also try checking with our Sales team. Sales dept:
Sales-USA@supermicro.com Tel: +1-408-503-8000. Customer: Okay, Thanks!. Agent: No problem! Is

there anything else I may help you with today?. Customer: No Thanks. Agent: It was nice talking to you.

Have a great day, goodbye!. Customer: Hello. How may I help you? is the 2u active heaksink in stock and
where does it ship from snk-p0068aps4. Agent: How many SNK-P0068APS4 are you looking for ?.

Customer: 1. Agent: It is in stock and it will be shipped from San Jose, CA.

<https://store.supermicro.com/2u-active-cpu-cooler-x11-snk-p0068aps4.html>. Customer: thanks. Agent:

You're welcome. Can I help you with anything else?. Customer: no just need to place my order. Agent:

Sounds good. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help

you? TAX REFUND I have applied for the tax refund for order#1000022767 Need to know the status.

Agent: Hello Let me check The tax refund was processed on 12/5/2021 so please check your account. .

Customer: refund back to credit card ?. Agent: Yes, card ending in 6321. Customer: ok. thank you. Agent:

you're welcome Can I help you with anything else? We haven't heard from you in awhile so this chat will
be closed in approximately two minutes. We want to make sure we get your questions taken care of so

if you need any further assistance, you can reach us here again or email It was nice talking to you. Have
a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Stefan!. Customer: can i order

the SFT-OOB-LI key in germany without an adress in the us. Agent: I am sorry unfortunately we only can
sell within the US. The only way to bypass this is using an US credit card that has an US billing address

tied to it to purchase OOB on eStore Or You can check with resellers for the availability

<https://www.supermicro.com/en/wheretobuy>. Customer: ok thank you but i need it right now. Agent: I

see. Sorry about that!. Customer: there is no way to get physikal acces to the server Thank you for your

help. Agent: You're welcome. Can I help you with anything else?. Customer: no thank you by. Agent:

You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Chris. Customer: MEM-DR416LD-ER32 Hi, do you have 8 of these in stock. Agent: May I confirm that you want to ask for this memory Supermicro (Samsung) 16GB 288-Pin DDR4 3200 (PC4-25600) Server Memory (MEM-DR416LD-ER32)? <https://store.supermicro.com/16gb-ddr4-3200-mem-dr416l-sl02-er32.html>. Customer: Yes for H12SSL-NT. Agent: Please give me a moment while I check for you. We currently have 6 in stock, but I can request 2 more for you. It would take some hours to complete. Can I email you back via email dodgec5804@live.com when the stock is ready?. Customer: yes,. Agent: Thank you! Is there anything else I may help you with today?. Customer: no that's all thank you very much been a pleasure. Agent: I will email you back as soon as the inventory is ready. You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hey Jim, I think we spoke before about RAM. I just wanted to triple check that I have the right RAM before buying. . Agent: Hi John! I believe we did 😊 Sure thing. Customer: <https://store.supermicro.com/64gb-ddr4-3200-mem-dr464l-sl01-er32.html> supports M12SWA-TF?. Agent: Please give me a moment while I check for you. . Customer: m12swa-tf is a mobo. Agent: Yup, MEM-DR464L-SL01-ER32 is validated for M12SWA-TF. Customer: do you know how much power each dimm uses in the m12swa-tf?. Agent: Let me see if I can find anything. One moment. Customer: Hello. How may I help you? trying to find the current product for MCP-120-00031-0N. Agent: Hi Steve Let me check for you We don't carry any riser cards on the eStore so you'll have to check with our resellers/distributors: <https://www.supermicro.com/en/wheretobuy> Can I help you with anything else?. Customer: Hello. How may I help you? Hi Jim, I think I may have given the wrong billing address. Did my payment go through? Order # 1000023654. Agent: Hi John! Yes it looks like we received your order It hasn't processed yet though. Did you want to cancel and reorder with the correct billing address?. Customer: i think so, let me double check with my bank really quick. Agent: Sure thing If you did want to cancel, you can do so by accessing your account in the top right -> My Orders. Customer: I guess they have both of my addresses home and mail. Agent: Ahh OK. Customer: so they'll probably take both sorry to bug you. Agent: No worries at all 😊 Glad you got that sorted out!. Customer: when will we know whether or not the payment is valid? monday?. Agent: We should know by the end of the day. We usually ship out our small items same day, and we only do that when the payment clears. Customer: okay good news. if it doesn't go out today will it go out tomorrow, or not until monday?. Agent: Not until Monday. Customer: right on, well have a good weekend and thank you for these helpful chats!. Agent: Thanks John, you too 😊 No problem at all! It was nice talking to you. Have a great day, goodbye!. Customer: John Erickson left the following comment: Jim always answers my questions. Hello. How may I help you? Hi Kyle, i was interested in configuring a server, i didn't see any option to configure or pricing or availability, can you assist?. Agent: Hi Faisal Sure, do you have an eStore account with us?. Customer: No i haven't used supermicro since 2003 :_D. Agent: Oh I see, no worries. Please create an account and I can hopefully get you access soon <https://store.supermicro.com/customer/account/create/>. Customer: ok got it, is that how it works? you gotta create an account before you can access the options?. Agent: yeah in order to purchase anything on the eStore in general, you will need an account Once you register and complete verification, I can enable you for our servers. Customer: just confirmed. Agent: Ok thanks You should have access now. Please log into your account. If you're already logged in, please log out and log back in. . Customer: i am in. Agent: Great, you should be able to view and configure any of our servers in the Servers section now. Customer: i am gonna log back in as it says can't find anything. Agent: ohh, you may have to refresh your browser/clear cache as well if that doesn't work. Customer: wohoo! i see them thanks much Kyle. Agent:

You're welcome. Customer: I'll ping if i have an y Qs thanks for your help and have a wonderful weekend
bye. Agent: Sounds good, have a wonderful weekend too! Goodbye. Customer: Hello. How may I help
you?. Agent: Hi Sye!. Customer: what is the availability and best cost on 50pcs of the cables please?.
Agent: For the price quote for 50pcs of CBL-SAST-0948, can you please fill this form
<https://store.supermicro.com/quote#CBL-SAST-0948>? Our quote agent will let you know the availability
and price. Customer: I already sent an email. . Agent: Sound good!. Customer: can u tell me if this new
part# is CBL-SAST-0616 is 12GB/s ?. Agent: Please give me a moment while I check for you. Please bear
with me for a few more minutes while I check for you. . Customer: sure. . Agent: Can I email you back for
the speed of CBL-SAST-0616? I will need to check it internally Is the email shojreh@thinkcp.com best to
reach you?. Customer: shojreh@thinkcp.com. Agent: Thank you! Is there anything else I may help you
with today?. Customer: thank you as well. all good. Agent: You're welcome. It was nice talking to you.
Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Joe. I need to purchase 20 pcs of
SuperMicro PN# PDB-PT813M-2424 Could you please help to release inventory for me to order?. Agent:
Hi Hung-Chang! Are you located in the United States?. Customer: Yes. Dallas TX. Agent: Got it . I will
request to transfer the stock and email you when they are ready Is s910372@hotmail.com the best
email to reach you ?. Customer: Correct Also, I need help to process sales tax refund from my previous
order Can you help with this as well? ORDER #1000023640. Agent: Have you submitted the tax
exemption certificate ?. Customer: I don't know where to submit. Agent: Please email your valid
certificate to. Customer: What else should I need apart from my tax permit. Agent: A valid tax exempt
certificate should do. Before submitting a request, please review the tax exempt guide carefully.
Incomplete or incorrect submissions will be rejected. [https://store.supermicro.com/tax-exemption-](https://store.supermicro.com/tax-exemption-guide)
guide. Customer: Thanks for the info!. Agent: You're welcome. Can I help you with anything else?.
Customer: I am good. Thank you Joe. Looking forward to order the 20 pcs. . Agent: You're welcome. I will
email you when the stock is ready It was nice talking to you. Have a great day, goodbye!. Customer: You
too. Bye! Hello. How may I help you? hi i just buy this board. Agent: Hi Erik. Customer: mbd-x12spa-tf-o
and i need ram i need 8x8gb my cpu is xeon 4310. Agent: Ok, let me check what is compatible with your
motherboard The only one validated with this motherboard is the following:
<https://store.supermicro.com/8gb-ddr4-3200-mem-dr480l-hl01-er32.html>. Customer: but my cpu only
run at 2666. Agent: It would clock down. Customer: r you shure i see some on says they use this ram and
it wont boot because its hire clock. Agent: For our motherboard/cpu, it typically would be clocked down.
This motherboard has only been validated with 3200 ram. Customer: ok but it will work can i put other
ddr4 rdim 2666. Agent: yeah the ram will work hmm for 2666 ram, we cannot validate that
unfortunately. You'd be using at your own risk. Customer: ok. Agent: So it may or many not work *may
not work. Customer: cause i see this on amazon and you dont send to canada [https://www.amazon.ca/-](https://www.amazon.ca/-/fr/gp/product/B07X2ZGGF8/ref=ppx_od_dt_b_asin_title_s00?ie=UTF8&psc=1)
[/fr/gp/product/B07X2ZGGF8/ref=ppx_od_dt_b_asin_title_s00?ie=UTF8&psc=1](https://www.amazon.ca/-/fr/gp/product/B07X2ZGGF8/ref=ppx_od_dt_b_asin_title_s00?ie=UTF8&psc=1) its samsung ram. Agent:
Yeah we cannot validate if this is compatible so you'd try at your own risk. If it works, that's great, but no
guarantee. Customer: THX but i know udimm not working. Agent: Yeah just rdim Can I help you with
anything else?. Customer: no thx so i check you ram befor buy but do you have a link. Agent: what link
are you referring to?. Customer: for the 8gb 3200 supermicro sertified. Agent:
<https://store.supermicro.com/8gb-ddr4-3200-mem-dr480l-hl01-er32.html> this is the only 8GB one
certified. Customer: and is BO ok i will check for 8x MEM-DR480L-HL01-ER32. Agent: yeah, that is
correct! from any of our resellers. Customer: thx. Agent: you're welcome Is there anything else I may
help you with today?. Customer: no thx for now bye Erik Lachance left the following comment: happy
person love the service wish have live support like that Hello. How may I help you?. Agent: Hi Alex How

can I help you?. Customer: I want to buy a server the 1029tp-dc1r i'am from Bolivia. Agent: I see. Will you be using a Bolivia shipping address?. Customer: I want to configure it but I can't find the server in the store options miami address. Agent: We actually don't carry the 1029TP-DC1R on our eStore. Customer: Or what is the best option for you?. Agent: Would you like to look at alternative solutions on our eStore? We can enable your eStore account for server access Actually, it looks like you already have access. We don't carry multi-node servers though. Customer: I would like you to enable the option since we are a company here in Bolivia that works with servers. Agent: You should have access to this part of our website: <https://store.supermicro.com/system.html>. Customer: go to that link. Agent: Yes. Customer: I'm there. Agent: You can browse and configure our eStore server selection by clicking on any one of the sub-categories that you see. We don't carry Twin models though so what you see is what we have You can try browsing through our Ultra selection for something similar, but again, it would only be a 1 node server instead of 2 node. Customer: Will they no longer work with servers with 2 or more nodes?. Agent: What do you mean?. Customer: check if they no longer produce tween servers. Agent: We still produce Twin servers, it's just not something we offer on our eStore. If you want to purchase Twin servers, please inquire with our Sales team or our resellers: Sales-USA@supermicro.com 1-408-503-8000 <https://www.supermicro.com/en/wheretobuy>. Customer: ahhh ok. Agent: Yea, sorry for the confusion!. Customer: my english is not good lol. Agent: No problem at all. If there's anything you need me to re-clarify, please let me know Is there anything else I may help you with today?. Customer: In order for my company to be a reseller in Bolivia, what do I need?. Agent: Please contact our marketing team at marketing@supermicro.com for details on how to be a reseller. . Customer: ok a team with similar characteristics to the one I sent you?. Agent: Like 1029tp-dc1r?. Customer: 1 node yes. Agent: Our Sales team should be able to quote you for that exact system if they have it available Can I help you with anything else?. Customer: Can I buy the server in the store and bring it to Bolivia?. Agent: Like purchasing from our eStore? Or from our Sales team? From our eStore, as long as it's shipped to a U.S. address, you can reship it to Bolivia if you want after you receive it Our Sales team can ship internationally. Customer: I am looking for the easiest way to buy the equipment and bring it to Bolivia, I do not want to go through the local distributor. Agent: Ahh OK. Easiest way to purchase the 1029tp-dc1r and have it shipped to Bolivia would probably be our Sales team. Customer: ok. Agent: Is there anything else I may help you with today?. Customer: What email should I write to? or call. Agent: Sales-USA@supermicro.com 1-408-503-8000. Customer: ok. Agent: Can I help you with anything else, Alex?. Customer: no, its ok. Agent: It was nice talking to you. Have a great day, goodbye! 😊. Customer: Hello. How may I help you? Hi, I had 2 questions. First, does the SuperServer (SYS-1029P-WTR) include rack rails in the box or do I need to order these separately. Secondly, what sort of hardware warranty is available on the same server?. Agent: Hi Bejon Our servers do include the rack rails so no need to order one unless you want an extra Warranty is 3 years for server, 3 years for parts, and 1 year of cross—shipping. . Customer: Ok great, I didn't see the warranty details on the server I added to my cart so I wanted to be sure. Thanks for your help!. Agent: You're welcome!. Customer: Oh one last note, is that next business day?. Agent: So if you choose overnight (next business day), please allow for 1-2 business days for the system to be assembled, but once it is shipped, it will get there by the next business day. . Customer: sorry, I meant for the warranty :). Agent: ohh. Customer: for replacement parts, failed system, that sort of thing. Agent: Oh I see, understood. Let me double check Please bear with me for a few more minutes while I check for you. . Customer: No problem, thanks. Agent: Thank you for waiting. For 1 year cross-shipment, it is overnight replacement. Can I help you with anything else?. Customer: no, that should do it I think - thank you again for your help. Agent: Np at all! Feel free to ask us anything if

you have any other questions. It was nice talking to you. Have a great day, goodbye!. Customer: you too! Bejon Parsinia left the following comment: Answered my questions promptly, thanks! Hello. How may I help you? my server SuperServer 1028R-MCTR. Agent: Hi Ramiro!. Customer: that is compatible?. Agent: Please give me a moment while I check for you. Yes, it should be compatible with your server. Customer: ok, thanks. Agent: No problem! Can I help you with anything else?. Customer: no, thanks. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jerry!. Customer: (MCP-260-00115-0N) looking for qty 40. I purchased 40 X12SAE MB from ASI they can without I/O shields. Agent: Please give me a moment while I check for you. I can request more stock for the MCP-260-00115-0N. The process will take several hours to complete. Can I email you back via jerry@gtweb.net when the stock for MCP-260-00115-0N is ready?. Customer: yes please. Agent: Thank you. Is there anything else I may help you with today?. Customer: nothing else Thanks!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello. Agent: Hi Florian!. Customer: I would like to use this as a video and 3d workstation what RAM should I be buying. Agent: What size DIMMs are you looking for? 32GB?. Customer: 32GB yes. Agent: OK, please give me one moment to check. Here are 5 options for you to choose from:
<https://store.supermicro.com/32gb-ddr4-3200-mem-dr432l-hl03-er32.html>
<https://store.supermicro.com/32gb-ddr4-3200-mem-dr432l-cl04-er32.html>
<https://store.supermicro.com/32gb-ddr4-3200-mem-dr432l-cl05-er32.html>
<https://store.supermicro.com/32gb-ddr4-3200-mem-dr432l-sl02-er32.html>
<https://store.supermicro.com/32gb-ddr4-3200-mem-dr432l-sl05-er32.html> These DIMMs have been validated for 5014A-TT. . Customer: cool thanks, also for the M.2 ssds does the case come with coolers for that. Agent: No, I don't believe M.2 heatsinks are included with the chassis/system. You would have to purchase them standalone. Customer: do I need to buy special ones, or can I use the ones that come with the drives. Agent: You should be able to use the ones that come with the drives, but I think that would depend on the specific drive/heatsink. You can double check with our technical support team to be 100% sure though. Tech Support: Support@Supermicro.com 1-408-503-8000. Customer: ok, thanks. Agent: No problem! Is there anything else I may help you with today?. Customer: any recommendation on the cooler for the cpu. Agent: Please give me a moment while I check for you. . Customer: sure. Agent: Looks like there are 2 options. SNK-P0066AP4 is a standard air cooled heatsink. SNK-P3028A4 is a closed-loop liquid cooling with 360mm radiator We don't carry those on our eStore so you would have to source them from a reseller. <https://www.supermicro.com/en/wheretobuy> For the liquid cooler, you would need to add 3x 12cm fans that aren't included. Customer: ok, thank you very much. Agent: No problem at all 😊 Can I help you with anything else?. Customer: no, thanks. I'll have a look at all that. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Goodbye. Was nice chatting with you too!. Agent: You too!. Customer: Florian Zachau left the following comment: Super quick, super nice! Start the chat Hey Kyle. Agent: Hi Alex. Customer: I just got your e-mail; yes I am looking for just the rail kit as I am purchasing the server elsewhere (Microcenter), I don't believe that it will come with rails unfortunately. . Agent: What a coincidence I just sent you the email too Ahh that's unfortunate Yeah you can use the rail kit I linked. Customer: Got it; this one right?
<https://store.supermicro.com/1u-cse-pt52l.html>. Agent: Yes, correct. Customer: you're the man Kyle, thank you for your prompt help!. Agent: You're welcome! Can I help you with anything else?. Customer: that will be everything, much appreciated Kyle. . Agent: Np! It was nice talking to you. Have a great day, goodbye!. Customer: You too! Hello. How may I help you?. Agent: Hi Kate!. Customer: Hi, Liz! This item says it's out of stock but that if I contact you, you may be able to order one: Supermicro 1000W 1U

Redundant Power Supply (PWS-1K03A-1R) *stock. Agent: Please give me a moment while I check for you. . Customer: Thanks!. Agent: May I know how many do you want?. Customer: Just one. Agent: I see. Please give me a moment while I check for you. . Customer: Thanks!. Agent: I'm sorry. Can I email you back via email kate.tucker@bladediagnostics.com? I will need to check internally if we still have one left. Customer: Sure! That works well. I'll keep an eye out for your email. Thanks!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: That's it. Agent: It was nice talking to you. Have a great day, goodbye! I will email you back as soon as I can for the inventory information. . Customer: Hello. How may I help you? Hi Jim. I need to buy 20 pcs of SuperMicro PN#CBL-0097L-02. Can you please help to release inventory for my order?. Agent: Hi Hung! Sure let me check on inventory real quick Just to confirm, you'll be using a U.S. billing/shipping address for this order?. Customer: Yes. My location is at Dallas TX. Agent: Perfect, thank you for confirming. Customer: I have already made several PO's with you guys. Agent: It looks like we should be able to transfer 20 of these cables for you. The transfer will take several hours to complete and I'll email you once it's done. Is s910372@hotmail.com a good email to reach you at?. Customer: Yes. Thank you. Agent: Perfect, I'll reach out to you with an update soon. Is there anything else I may help you with today?. Customer: I am good. Thank you so much Jim!. Agent: No problem at all 😊 It was nice talking to you. Have a great day, goodbye!. Customer: You too. Bye! Hello. How may I help you? What is the p/n to order this Server with AC 600W Redundant 48V POWER SUPPLY? SYS-110P-FDWTR. Agent: Hi Laurie You looking for the power supply p/n for this server?. Customer: I am looking for the full Server but AC instead of DC which is what p/n SYS-110P-FDWTR calls out. Agent: Oh I see, let me check The only one listed that's not DC has 800W power supplies <https://www.supermicro.com/en/products/system/1U/SYS-110P-FRN2T> Can I help you with anything else?. Customer: No. Thank you! Hello. How may I help you?. Agent: hi Troy. Customer: Hi there, I need to find compatible disks for a SuperMicro device. . Agent: Do you look for the SSG-2029P-E1CR24H? I mean do you look for the validated disk for the SSG-2029P-E1CR24H?. Customer: Yes please. Do you have any resellers in New Zealand ?. Agent: All the compatible disks in this page is worked for the SSG-2029P-E1CR24H <https://www.supermicro.com/en/support/resources/hdd/systemhdd?ProductID=85977> We have 3 resellers in New Zealand. Please check at this page <https://www.supermicro.com/en/wheretobuy> This is the drive disks options for the rear drive bay <https://www.supermicro.com/en/support/resources/hdd/systemhdd?ProductID=85977&reardrivebay=true> The previous link is for main drive bay. I'm sorry that I didn't mention Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email. Customer: Thank You :) Hello. How may I help you?. Agent: Hi Don. Customer: trying to find replacement power supply part for Super Server with Serial Number: 201707-159952. Agent: Please give me a moment while I check for you. . Customer: I also have the serial number off of the power supply if it helps? P9211CF36XT0392. Agent: Thanks Don! That 2nd serial number worked. It looks like the P/N for your current power supply is PWS-920P-1R , but that one has been marked EOL. Here is the replacement: <https://store.supermicro.com/920w-1u-pws-920p-1r2.html?utm=eol> We're currently out of stock for this power supply though. How many were you looking to purchase?. Customer: They need to replace 1 but might replace both as it has 2 power supply's. does it show a lead time?. Agent: Ahh OK. I can check internally to see if we can transfer inventory over. One moment Is it alright if I email you back with an update? Currently waiting to see if we can transfer 2 units for your order. If we're unable to transfer, we're expecting to get more around

the end of March. Customer: sure my email is don@itosolutions.net. . Agent: Awesome, thanks Don. Hope to have an update for you soon. Is there anything else I may help you with today?. Customer: I'm guessing the server is out of warranty but how do you check warranty for servers if you have the serial number? is there a link? i couldn't find it on website. Agent: If you purchased from a reseller, you would generally check with the reseller for warranty information. Did you purchase this server directly from Supermicro?. Customer: I don't know where or when the customer purchased. I was hoping the serial number would provide some information about date and configuration. Agent: From what I can see, the system was built in 2015, so I'm assuming it may not have warranty on it anymore. . Customer: yeah i'm sure its out by now ... about time to replace 😊 . Agent: That might be a good idea 😊 . Customer: Thanks for the help and i'll look for email. . Agent: No problem at all Don! It was nice talking to you. Have a great day, goodbye!. Customer: Don Kezsely left the following comment: Jim was great and helpful. Hello. How may I help you? Hi Kyle, my business has a sales tax exemption for manufacturing. Where can I send/upload our certificate to be able to make tax-exempt orders?. Agent: Hi Kate, sure I can help you with that We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide>. Customer: Great! Thanks, Kyle!. Agent: You're welcome Can I help you with anything else?. Customer: That's it. Agent: Ok sounds good. It was nice talking to you. Have a great day, goodbye!. Customer: Bye! Hello. How may I help you? Hi Where can I find MCP-290-41803-ON ?. Agent: Hi Nagib Let me check for you I'm sorry, but unfortunately, we do not carry that product on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Can I help you with anything else?. Customer: No, Thank You. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Mariela!. Customer: Hello, I need 20 of CBL-SAST-0973-1T but it says that only 11 are in stock. Do you have enough inventory so I can complete the order?. Agent: Please give me a moment while I check for you. It looks like we do. I'll need to request a transfer on my end, which will take several hours to complete. I can send you an email once the transfer has completed so you can proceed with purchasing Is mariela.barragan@itiengineering.com a good email to reach you at?. Customer: yes. Agent: Perfect. Hope to have an update for you soon Mariela Is there anything else I may help you with today?. Customer: No that is everything. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You too, thanks! Hello. How may I help you? looking for qty 2 of FAN-0154L4. Agent: Hi William! Please give me a moment while I check for you. We may be able to transfer an additional unit over, but the transfer itself will take several hours to complete if it's approved. I'll get the transfer request started and follow up with you via email, if that's alright. . Customer: Okay, thanks. We will hold off on placing the order in the shopping cart until we hear confirmation from you. Thanks again!. Agent: No problem! While I have you, were you still interested in the 2x 5019C-MR systems you inquired about last week? Is there anything we can do in regards to the configuration?. Customer: Yes, that is what we are discussing today. We would have preferred the SYS-510T-MR with the E-2388G, but that does not seem to be an option from the Store at the moment. We will probably start with the configuration we discussed to at least get the evaluation under way. . Agent: Ahh OK. Thank you for the update!. Customer: One question, what are the specifications and manufacture/model of the memory

modules? Will check back in a bit, and will update you regarding the system order. . Agent: Please give me a moment while I check for you. It would be Micron: <https://store.supermicro.com/16gb-ddr4-mem-dr416l-cv02-eu26.html>. Customer: Thank you for the information. I will pass it along to engineering. . Agent: No problem William! I'll also hope to have an update for you soon regarding the fan. Is there anything else I may help you with today?. Customer: Give me a couple of hours. I hope to have an answer by then. Thank you. . Agent: That's greatly appreciated, thank you again and no problem. It was nice talking to you. Have a great day, goodbye!. Customer: Have a nice day as well! William Berring left the following comment: Efficient, friendly service! Hello. How may I help you? hello. Agent: Hi Thomas !. Customer: so my company buys thousands of supermicro boards per year, and we are looking to automate some of the bios tasks. i see that i can use the sum tool, but we do not want to purchase a license for every board. is there a way that we can use the sum tool without a license? or is there a license that we can pay for that will work on all boards and not be tied to a mac address?. Agent: OOB licence is for customer to use when you are not physically with the server. You can use SUM without a license. <https://www.supermicro.com/SwDownload/UserInfo.aspx?sw=0&cat=SUM> We don't have anything that we can sell one license and it will work in all boards unfortunately. It goes by the BMC MAC address. Since your company buys a lot of Supermicro motherboards each year, do you have a Supermicro sales rep ?. Customer: Chat is idle due to 10 minutes of inactivity. Agent: We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Salvatore!. Customer: Hello, I purchased SFT-DCMS-SINGLE through a 3rd party since I'm in Canada and cannot purchase the license directly. They are telling me that SuperMicro is requesting MAC address before a license key can be issued. I'm going to assume the mac address is for a NIC on the computer the software will be installed on. Computers tend to have multiple NICs so which one would you require? I have multiple SuperMicro server that I planned to manage from a desktop system. Does this software have to be installed and run from the Server itself or can it run from a desktop?. Agent: The software license is an all-in-one solution to manage and monitor Supermicro servers in an IT datacenter from a single console view. It will need to install with the BMC MAC address <https://store.supermicro.com/pub/media/wysiwyg/productspecs/SFT-DCMS-SINGLE/How-to-generate-DCMS-keys.pdf> please follow this guide <https://staging-store.supermicro.com/software/dcms-key-activation-guide>. Customer: For the first link I cannot follow those instructions as I cannot purchase the software directly. The second link is invalid. . Agent: I'm sorry. if you cannot access to the second link. Please find it at this link <https://store.supermicro.com/supermicro-server-manager-dcms-license-key-sft-dcms-single.html> at resource tab. activate DCMS keys. Customer: The How to Activate DCMS Key link does not work. Neither does the DCMS FAQ link on that page. . Agent: The link is work for me. Can you please change the browser to see if it works? I assumed the third party has to help you generate the key and provide it to you. Customer: These links below do not work in a different browser. <https://staging-store.supermicro.com/faq#software-dcms> <https://staging-store.supermicro.com/software/dcms-key-activation-guide> Yes the 3Rd party would be generating the key. . Agent: I can send you the screenshot to your email. Can I email you via Sal.Rinaldi@gmail.com?. Customer: Sure. . Agent: I will email you shortly with the screenshot of the activated link. Is there anything else I may help you with today?. Customer: Just one question. Does SFT-DCMS-SINGLE software only manage the machine it's installed on?. Agent: yes, it is. Customer: The name Data Center Management Suite is very misleading then. Data Center implies systems within a data center. . Agent: Supermicro DataCenter Management Suite per

Node License Key (SFT-DCMS-SINGLE). It is per node which mean per server. Customer: I stand corrected. I'll try on one node to see if it's worth the cost. . Agent: Sound good! Is there anything else I may help you with today?. Customer: No that was all. Many thanks. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello Joe. Agent: Hi Charles!. Customer: I am trying to find the right passive heatsink for our 1u supermicro server I narrowed it down, but still dont know. Agent: What is the server complete part number please ?. Customer: SuperServer 1028R-WMRT. Agent: SNK-P0047PSC https://store.supermicro.com/1u-passive-cpu-cooler-snk-p0047psc.html?queryID=b31d2af7ad5529526444f20516f786b5&objectID=256&indexName=supermicro_default_products 1U Passive Front CPU Heat Sink w/ a Side Air Channel for X9, X10 Systems Equipped with a Narrow ILM MB. Customer: ok perfect thanks al ot. Agent: and the other one is SNK-P0057PS https://store.supermicro.com/1u-passive-cpu-cooler-snk-p0057ps.html?queryID=44c0e946d54a075ac4db9a8e26bb7e40&objectID=97&indexName=supermicro_default_products 1U High Performance Passive CPU Heat Sink for X9, X10 Systems Equipped w/ a Narrow ILM MB. Customer: gotcha, one is for the front and the other is for the rear. Agent: Correct. Customer: channelled for front ok cool. Agent: You can also find more info through product page <https://www.supermicro.com/en/products/system/1U/1028/SYS-1028R-WMRT.cfm> Can I help you with anything else?. Customer: thats all, thanks a lot. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: take care. Agent: You too! Thanks!. Customer: Hello. How may I help you?. Agent: Hi Thomas. Customer: hello, i am trying to use the sum tool directly on a server, and it is telling me that i need a license to complete the command i am trying to run. i was told by another agent that the licenses are only required when trying to remotely access the unit, and was wondering what the issue is. . Agent: Yes, the license is only need for remote access. Please give me a moment while I check for you. . Customer: specifically, i am trying to save the bios config to a xml file. we have been trying to automate setting the bios config as we typically deal with thousands of supermicro boards a year. . Agent: I see. You can contact our Tech Support at Support@Supermicro.com or Tel: +1 408-503-8000 for run sum directly on server. Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello. could you give a list of SuperMicro network adapters that are compatible and fit into this chassis and motherboard Chassis: SC514-505. Agent: Hi Tim. Customer: Motherboard: X10DRD-iT. Agent: Let me check if there are any. Customer: Awesome. Thank you for sending that over. Agent: You're welcome Can I help you with anything else?. Customer: That will be all. Have a nice day. . Agent: Thank you! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello. How may I help you?. Agent: Hi Thomas. Customer: hello i am running into an issue with the sum tool. Hello. How may I help you?. Agent: Hi Ray!. Customer: I have a 2 U with 8x3.5 bay drive, just bought a LSI SAS9207-8i need the right cable from LSI to 2U backplane. Agent: Please give me a moment while I check for you. Do you have your exact chassis model number?. Customer: let me check. Agent: Thank you!. Customer: CSE-825. Agent: Thanks. Please give me a moment while I check for you. Please bear with me for a few more minutes while I check for you. . Customer: OK The LSI is a HBA controller. Agent: OK. And it looks like the connectors on the LSI are SFF-8087?. Customer: the ? is. Agent: Can you confirm if the connectors on the LSI card are SAS? mini-SAS. Customer: SAS. Agent: And backplane is also mini-SAS right?. Customer: Not sure. Let me check. Agent: Thanks Ray. I couldn't find what the exact backplane was for an 825 chassis

so I just want to be sure. Customer: checking for part # on bacplane right now SAS825TQ , Serial # EB16BS028632 Hope this can help. Agent: Thanks Ray! That's extremely helpful Sorry, please bear with me for a few more minutes. System is sort of slow on my end. Customer: Sure 1m Serial Attached SCSI SAS Cable - SFF-8087 to 4x SATA SAS cable what is your part # for this in estore. Agent: For minisas to 4x SATA, it would be this cable <https://store.supermicro.com/supermicro-internal-reverse-breakout-crossover-minisas-to-4-sata-58-58-58-58cm-cable-cbl-0294l-02.html>. Customer: perfect, but any with 90 D angle. Agent: Here you go: <https://store.supermicro.com/supermicro-reverse-breakout-cross-over-minisas-hd-to-4-sata-75-75-75-75cm-with-sideband-75cm-cable-cbl-sast-0823.html> Actually wait, that's minisas-HD I don't think we carry a 90D version for just minisas <https://store.supermicro.com/supermicro-internal-right-angle-minisas-to-4-sata-75-75-90-90cm-with-sideband-90cm-cable-cbl-sast-0644.html>. Customer: Thanks, I believe that's the right one. . Agent: You're welcome Ray. Apologies again for the delay. Is there anything else I may help you with today?. Customer: most helpful, thank you very much.. . Agent: No problem at all. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Michael !. Customer: The site is saying that the email address MP_IT@mcentireproduce.com is not confirmed. The email for confirmation is not coming through. . Agent: I see. Can you check your spam folder? I just resend another confirmation key email. Customer: I am on our sendio accout for spam filtering and showing all. It is not there. Please try again.. Finally.. Just got something. . Agent: That's good. Everything is good to go ? Can I help you with anything else?. Customer: Nope. Thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Kyle, we are interested in a SYS-210P-FRDN6T but cant find it in the estore. Is it available or is there a vendor that resells?. Agent: Hi Camren Yeah we don't carry that particular server on the eStore so you'll have to check with our resellers/distributors: <https://www.supermicro.com/en/wheretobuy> or reach out to Sales at Sales-USA@supermicro.com Were you just looking for this one server?. Customer: Yes, and components. We have a specific use case this looks good for. . Agent: Ahh I see. Do you have an eStore account with us? I can also provide you access to what we offer in terms of servers. Customer: Yes, should be under my email. . Agent: ok let me check Ok you should have access to our servers section on the eStore when you log into your account. The server you're looking for isn't available but if there's anything that catches your eye and need assistance on, please let us know. Otherwise, that specific one you want, please check with Sales or our resellers. . Customer: OK, we'll go that route. Thank you!. Agent: You're welcome! Can I help you with anything else?. Customer: No that was all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Darwin. Customer: Need a quote on 40 pcs of ST1000NX0313 Drives. Agent: Can you please filling the request for quote form at this link <https://store.supermicro.com/quote#HDD-2T1000-ST1000NX0313>? Our quote agent will email you back as soon as possible for 40pcs quote. . Customer: Do you have stock?. Agent: Please give me a moment while I check for you. . Customer: TY. Agent: We should be able request more stock for you. Our quote agent also can help you for that. If the volume quote looks good for you, please let our quote agent know. They will request more stock for you. . Customer: That didnt answer my question. Agent: I'm sorry if it is not clear. We currently have 5 pcs on eStore but we can request more stock. The transfer process just take some hours to complete. Is there anything else I may help you with today?. Customer: No TY. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? do you have installation instructions for passive GPU kit MCP-320-74702-oN-Kit?. Agent: Hi Phil! Please give me a moment while I check for you. I'll have to check internally to see if there are any instructions that we can provide. Is it alright if I follow up with you via

email?. Customer: sure. Agent: Thanks Phil. Is philip-oneill@ouhsc.edu a good email to reach yyou at?. Customer: yes. Agent: Perfect, I'll reach out once I have an update. Is there anything else I may help you with today?. Customer: that's it - thanks. Agent: No problem! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Can you tell me if SYS-5019P-WTR is still a current product ?. Agent: Hi Mark Yeah it is current and available on the eStore. . Customer: Great thank you. Agent: You're welcome. There is a newer version in SYS-510P-WTR too <https://store.supermicro.com/sys-510p-wtr.html>. Customer: will this be replacing the 5019P ?. Agent: Eventually, but not anytime soon yet. . Customer: ok thank you. Agent: one just uses 3rd gen scalable cpus while the other is on 2nd gen Can I help you with anything else?. Customer: all set....thank you. Agent: Np sounds good! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Liz. Agent: Hi Hung!. Customer: I am following up with my request yesterday for releasing 25 of (CBL-0097L-02) for my order. Agent: Please give me a moment while I check for you. . Customer: Please advise if you currently carry these thanks. Agent: We currently carry it. The transfer process is just didn't complete yet. Can I email you back via s910372@hotmail.com when the inventory is ready? I'm so sorry for this unexpected long waiting. Customer: Yes. Please. How long do you think it will take?. Agent: I try to push up the process, it would be ready in couple hours. I will email you as soon as the inventory is ready. Customer: Thank you. I was requesting this thru another rep yesterday and expected to order them this morning. Hope this time it will work. . Agent: I'm so sorry for this inconvenience. I contacted internally to push up this request. Is there anything else I may help you with today?. Customer: Thank you so much Liz. . Agent: You're welcome. . Customer: I am good. Thank you!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: 😊 Hello. How may I help you?. Agent: Hi Steven!. Customer: Hi I'm trying to get part MCP-260-00106-0N Is it available directly from Supermicro. I cant locate one anywgere!. Agent: It's not a part that we carry on our eStore, but you can try checking with our RMA team to see if they can sell this part to you. RMA department email address: rma@supermicro.com RMA department part phone #: 1-408-503-8000 option 3 Otherwise you'll have to check with our resellers for availability <https://www.supermicro.com/en/wheretobuy>. Customer: Thank you! None of your resellers have it. Thanks!. Agent: Ahh OK. No problem! Is there anything else I may help you with today?. Customer: mo.. thank you for the advice. . Agent: Of course 😊 It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Do you sell the AMD CPU Servers in the eStore?. Agent: Hi Micheal The only AMD one we sell is the threadripper workstation AS- 5014A-TT: <https://store.supermicro.com/amd-threadripper-workstation-as-5014a-tt-pre-config.html> We don't have any AMD rackmount servers available unfortunately. . Customer: Is it available by special order?. Agent: The AMD rackmount servers? No unfortunately, what we offer currently on the eStore is what we have for now. . Customer: Well that is unfortunate. Agent: For any AMD servers, you will have to check with our Sales team at Sales-USA@supermicro.com or with our resellers Yeah its a bummer, wish we offered AMD servers too. Customer: Oh well I will ping sales THank you!. Agent: Sounds good and you're welcome! Can I help you with anything else?. Customer: Nope that it is it! Thanks!. Agent: Np! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Doug!. Customer: Purchasing 6 Supermicro SC836BA-R920B 3U Chassis 16x3.5-in SAS/SATA Hot-Swap R-920W CSE-836BA-R920Brying to purchase 6. Agent: Are you looking to purchase hot swap drive?. Customer: chassis Supermicro SC836BA-R920B 3U Chassis 16x3.5-in SAS/SATA Hot-Swap R-920W CSE-836BA-R920B. Agent: I'm sorry, but unfortunately, we do not carry any chassis on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Did not find any at resellers. Agent: I'm sorry to hear that. You also can check with our Sale

team for purchasing chassis at Sales-USA@supermicro.com Tel: +1 408-503-8000 Is there anything else I may help you with today?. Customer: Thanks. Agent: You're welcome. Can I help you with anything else?. Customer: no thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Luis!. Customer: Hello. We got several SM servers and we need to run the sum command to extract the RAID config, but it says this: SFT-DCMS-SINGLE node product key is not activated. Checked in the OOB access, in the miscellaneous menu and the Node Product Key status is Activated. Is there any other activation that we need to do in order to extract the RAID info with the sum command?. Agent: Since you've already checked that your OOB is active, I would suggest checking with our technical support team to further troubleshoot this issue. Support@Supermicro.com 1-408-503-8000. Customer: this is the command that I'm running sum -i server -u ***** -p ***** -c GetRaidCfg --file RAIDCfg.txt Ok, I will send an email with the details. Thanks for your help!. Agent: No problem Luis! Can I help you with anything else?. Customer: No, think we're ready. That's the issue that I have. Thanks again!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You too!! Bye Hello. How may I help you? hi do you ship to Canada?. Agent: Hi Chris No we don't unfortunately, I'm sorry You'll have to check with our resellers: <https://www.supermicro.com/en/wheretobuy> or contact Sales at Sales-USA@supermicro.com. Customer: ok thanks i also have another question about on of you products. Agent: Sure, how can I assist. Customer: https://store.supermicro.com/8-pin-to-8-pin-24cm-power-cable-cbl-cdat-0674.html?queryID=83e87bce2141fdc52ffe30bae0b6c0f9&objectID=2758&indexName=supermicro_default_products what the width of the connector part? im not sure if they are a standardized size or not. Agent: let me check. Customer: since i,m trying to replace an 8 pin connector to my motherboard (gigabyte laptop) ok thanks. Agent: the white connector?. Customer: the white and black are different sizes?. Agent: not sure from the angle so I'm checking. Customer: ok thanks. Agent: P2 is wider than P1, but it doesn't give me any measurements unfortunately. P1 is the black connector P2 is the white connector. Customer: do you have an 8 pin to 8 pin for motherboards that are the same size on both ends?. Agent: Checking That might be the only one as the other 8 pin to 8 pin cables are for motherboard to gpu power. Customer: oh sorry i meant power supply to motherboard. Agent: Sorry for the delay, that looks to be the only cable, checking on 1 more. Customer: ok. Agent: Nvm, the one I was looking at was for GPU as well You may want to check with our technical support team at support@supermicro.com on this cable as they may be able to provide you the width of this cable connector?. Customer: Alright thanks for the help. Agent: You're welcome. Customer: il keep look on one of you guys partner websites have a nice day :). Agent: Ok sounds good. Thank you! It was nice talking to you. Have a great day as well, goodbye!. Customer: chris chilviet canceled the chat rating chris chilviet left the following comment: fast respons Hello. How may I help you?. Agent: Hi MANOJ!. Customer: HI... I HAVE ONE SERVER-C813MLG42NE0397 kindly check its warranty period. Agent: I'm sorry. I cannot find any information for C813MLG42NE0397. Can I have the serial number for this, please?. Customer: CSE-813M. Agent: I'm sorry. This is not the serial number for chassis or server. Do you happen to see other number from the label? If you are checking from the chassis. Please check from this picture. Customer: Supermicro Sr No-C813MLG42NE0397. Agent: Ohh. I'm sorry. I found your serial number on other database source. . Customer: OK May you provide me the status of warranty. Agent: Please give me a moment while I check for you. . Customer: ok pls I am eagerly waiting. Agent: All the warranty are expired Is there anything else I may help you with today?. Customer: ok what is the cost of motherboard. Agent: I'm sorry, but unfortunately, we do not carry motherboard on our eStore. Please check with our resellers and distributors for price and availability.

<https://www.supermicro.com/en/wheretobuy> Or you can also contact our Sale team at Sales-USA Tel: +1 408-503-8000. Customer: Hello. How may I help you?. Agent: Hi Erik!. Customer: hi i just buy mbd-x12spa-tf but in unable to boot the rom for RSTe to set raid i set legacy uefi etc but it dont show up do i must install the vroc key to boot. Agent: Please give me a moment while I check for you. . Customer: normaly it boot up and i have a trial. Agent: What drives do you have and what controller do you use ?. Customer: the onboard controller(intel RSTe) i have 2 mvme 512gb samsung 980 pro and 14TB Xeos 2 14TB seagate exos. Agent: What do you have for a trial ?. Customer: well on the older board the op rom boot and it show me i have a trial (X99) but now look like they are no rom to press control+L to enter the intel bios rst. Agent: I see. Usually under BIOS advanced tab, at the bottom you can set up the RAID under Intel Virtual RAID on chip Which is VROC. Customer: i dont see the option. Agent: X12 is default using UEFI. Customer: i wii show you picture. Agent: In this case, please contact Supermicro support for debugging the issue Please email support@supermicro.com. Customer: mabe its besaus vroc key not installed i wait its in the mail loll now it show up ok i say notting. Agent: It is showing now ?. Customer: yep mabe its becaus un not in uefi but it dont show my mvme drive. Agent: NVMe drives needs VROC for sure. Customer: ok and it will show up here i was thinkin its in the rom at boot. Agent: I will think to contact our Support team would be the best choice in your case. Customer: ok but its ok but now i wait the vroc key. Agent: Please email support@supermicro.com , they usually reply really quickly. Customer: i will contact later. Agent: I see Sure, sounds good Can I help you with anything else?. Customer: Hello. How may I help you? Hi May i know what is different PWS-2K03P-1R and PWS-2K02P-1R?. Agent: Please give me a moment while I check for you. PWS-2K03P-1R Rev 1.2 and later supports DC240V input. That's what I can find so far What is the Supermicro server or chassis part number that you are using? I can check the compatibility. Customer: please wait is it help?. Agent: Yes, Please give me a moment while I check for you. 825TQ-R740LPB uses PWS-741P-1R and SYS-2028GR-TRH uses PWS-2K03P-1R. Customer: yes.can i use PWS-2K02P-1R in this SYS-2028GR-TRH server? because i can't get PWS-2K03P-1R power supply.Can i replace this PSU to this SYS-2028GR-TRH server?. Agent: I can check internally for the compatibility for you. Can I email you after I get some answers ? Is itpartsolution@hotmail.com the best email to reach you ?. Customer: itpartsolution@hotmail.com yes. Agent: Thanks! Can I help you with anything else?. Customer: may i know when can i get your answer?. Agent: Hopefully within today. Customer: okay thank. Agent: I will email you as soon as I can Is there anything else I may help you with today?. Customer: no,thank your help.it is useful fo me. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Andy. Customer: PWS-2K03P-1R do you have stock now?. Agent: Unfortunately, we are out of stock for PWS-2K03P-1R . Do you want me to check the ETA for you?. Customer: any replacement part for this item?. Agent: Please give me a moment while I check for you. I'm sorry, PWS-2K03P-1R is still active; therefore, we don't have a replacement for this power supply yet. May I know where are you located, please?. Customer: Malaysia. Agent: I see. I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors in Malaysia for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: okay.thank your information link. Agent: You're welcome. Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com. Customer: Chat is idle due to 10 minutes of inactivity. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? I know the SYS-5019C-M is out of stock but I was wondering if you have an ETA on when it will be back. . Agent: Hi

Curtis! Let me check for you really quick. Customer: Thank you!. Agent: Can I ask how many units you were looking for?. Customer: At this time just one. . Agent: Thanks Curtis. We're currently checking internally if we can transfer one of these systems for you. . Customer: Oh thank you!. Agent: While we're waiting, what specifications were you looking at? Just so I can double check inventory for the components as well. Customer: I won't be the one making the actual purchase. It will be lpanko@panthersys.com Just one moment and I'll will get you the specs we need. . Agent: Ahh OK. Thanks Curtis!. Customer: I work on the servers and pick what we buy but out purchasing person actually makes the purchase. :). Agent: It looks like I found the configuration for your 5019C-M system back in December. I'm guessing it would mirror this configuration? CPU Intel® Xeon® E-2286G Processor 6-Core 4.00 GHz 12MB Cache (95W) 1 Memory 16GB DDR4 2666MHz ECC UDIMM Server Memory 2 M.2 240GB M.2 D3-S4510 SATA Solid State Drive 1 Storage Hard Drive 1TB 3.5" DC HA210 7200 RPM SATA3 6Gb/s 128MB Cache 512N Hard Drive 1 Networking 2 RJ45 Gigabit Ethernet LAN Ports 1 Operating System Microsoft Windows Server 2019 Standard (16-Core) 1. Customer: Yes, actually it would be exactly like that one. . Agent: Perfect, I'll check on these components right now to make sure everything is in stock. . Customer: Excellent! Thank you so much! I really appreciate it. . Agent: Looks like everything else for this system is in stock, but it may be a bit before I hear back about the 5019C-M. Did you want me to just follow up with you via email once I get an update?. Customer: Thank you be perfect. That would be perfect. . Agent: No problem! I'll email you back at callworth@panthersys.com once I hear back Is there anything else I may help you with today?. Customer: That was it. Thanks again and have a wonderful day!. Agent: You too as well Curtis!. Customer: Curtis Allworth left the following comment: Jim is AWESOME and very helpful! Hello. How may I help you? Hi i have a 4310 xeon but il run only at 2.6ghz max Mbd-x12spa-tf-0 Il supposer max clock is 3.6. Agent: I see. I am sorry but please check with support on this issue. They can be reached at +1-408-503-8000. or email to support@supermicro.com. Customer: Ok. Agent: Can I help you with anything else?. Customer: Hello. How may I help you? Hi Kyle! I have a system (SYS-1029U-TRT) that comes with the following rails set - MCP-290-00102-0N. the length is 25.6" to 33.05". I was wondering if there is a compatible shorter length rail kit available for this system?. Agent: Hi Chris Sure let me check for you. Customer: Thank you!. Agent: It doesn't look like there's a shorter rail kit for this one unfortunately. The other alternative was also up to 33.05" You may have to try the universal rail kit from a 3rd party vendor like Rack Solutions as they may have longer versions <https://www.racksolutions.com/> or shorter Weird how there isn't a short one for this server, but hopefully we can release one for it. Customer: ahhh ok awesome! Thank you very much for the racksolutions recommendation! I will search and see whats available Thank you, Kyle!. Agent: You're welcome and sounds good! Can I help you with anything else?. Customer: nope, that was it. Thank you!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Thank you and you too! Chris Morales left the following comment: Great and timely service! Hello. How may I help you?. Agent: Hi Derek!. Customer: hello, i am looking for availability for PWS-351-1H ATX Power Supply. Agent: Sure, let me check for you. . Customer: i have checked with another vendor that sells your products and they claim they are in stock but ship directly from supermicro. i figured i would just go to the source to verify. Agent: May I know how many of PWS-351-1H do you want?. Customer: i am looking for 1. Agent: Thank you! We should have it in stock. Please give me a moment while I update inventory for you. . Customer: ok. Agent: The inventory has been updated. You can add 1 to your cart now. <https://store.supermicro.com/350w-1u-pws-351-1h.html>. Customer: fantastic, thank you. Agent: You're welcome. Is there anything else I may help you with today?. Customer: that was all i needed. thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How

may I help you? Hello, Could you provide a ROHS and REACH certificate for CBL-SAST-0933?. Agent: Hi Amy! Sure. I'll need to check internally for these documents, so it may take some time. Is it alright if I email you back once I get an update?. Customer: yes that would be great thank you. Agent: Perfect, thank you! I'll email you at amy.le@panasonic.aero once I have both certificates. Is there anything else I may help you with today?. Customer: yes that would be all thank you very muc. Agent: No problem at all. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? hi. Agent: Hi Alex!. Customer: what is the difference beetwen HDD-2A01T-NECR, HDD-2A01T-1KECR and HDD-2A01T-1EECR. Agent: Please give me a moment while I check for you. The HDD-2A01T-1KECR sector is 4kn while the other 2 sectors are 512e. May I know your Supermicro motherboard part number, please? I can help you find the validated drive for you. They also might different by the compatibility with Supermicro motherboard. Do you want me to check validated drive for your Supermicro motherboard?. Customer: supreserver 1028r-mctr. Agent: Thank you! Please give me a moment while I check for you. The HDD-2A01T-1EECR and HDD-2A01T-1KECR are validated with your system. The HDD-2A01T-1KECR is HDD, 2.5",SAS, 1TB,7.2K,4KN,Enterprise,CMR,STD/Regular HDD-2A01T-1EECR is HDD, 2.5",SAS, 1TB,7.2K,512E,Enterprise,CMR,STD/Regular You also can check for other validated hard drive for the system SYS-1028R-MCTR at this link <https://www.supermicro.com/en/support/resources/hdd/systemhdd?ProductID=84683&ctrl=61>. Customer: what the difERENCE beetwen 4kn and 512e. Agent: The 4Kn is the advanced format in which the physical sectors and logical sectors are both 4,096 bytes in size. The 512e is the advanced format in which the physical sector size is 4,096 bytes, but the logical sector size emulates 512 bytes sector size. Can I help you with anything else?. Customer: I want to make the payment from Bolivia, no problem?. Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? I am trying to place an order for my IT department. I was given a quote but I am not finding the same description as on the quote I rec'd. . Agent: Hi Tammy! Can I ask what P/N was on the quote?. Customer: Supermicro (HGST) 4TB 3.5" 7200RPM SATA3 6Gb/s 256M Internal Hard Drive (HDD-3T04T-1EECR). Agent: Please give me a moment while I check for you. When I search for that P/N, this is the drive that I'm finding: <https://store.supermicro.com/supermicro-hgst-4tb-3-5-7200rpm-sata3-6gb-s-256m-internal-hard-drive-hdd-t4tb-hus726t4tale6l4.html>?. Customer: The quote I have has (HDD-3T04T-1EECR). Agent: The drive itself has 2 P/Ns, HDD-3T04T-1EECR and HDD-T4TB-HUS726T4TALE6L4. This drive is essentially HDD-3T04T-1EECR but if you'd like, I can double check internally for you and follow up via email. Customer: Yes, please double check. I'm not a computer person so I want to make sure I am ordering what he is requesting. . Agent: No problem at all Tammy. I'll follow up with you at thimes@huntcounty.net once I've confirmed that they are the same drive. Is there anything else I may help you with today?. Customer: I just sent you a copy of the quote. . Agent: Perfect, that's very helpful. Thank you Tammy!. Customer: I'm going to need to order this using a credit card. Can I place my order with you?. Agent: Unfortunately, you'll need to create an eStore account and place the order on your own. You can create an account here: <https://store.supermicro.com/customer/account/create/>. Customer: Ok, I just want to make sure I'm ordering the correct item. . Agent: Of course. I'll email you once I've verified internally that this drive is

indeed HDD-3T04T-1EECR. Customer: Thank you. Agent: Can I help you with anything else?. Customer: No, That is all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You too Hello. How may I help you?. Agent: Hi Hunt County Info. Systems!. Customer: How do I get the tax exemption? I work for Hunt County, we are tax exempt. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide>. Customer: Hello. How may I help you? where is my Quote. Agent: Hi Ralph Let me check for you <https://store.supermicro.com/full-tower-sys-740a-t-pre-config.html> Price is \$5,107.23. Customer: I have many items to add. Agent: Oh ok, what items did you want to add?. Customer: 12 x 16GB PC4-25600 3200MHz DDR4 ECC RDIMM 4 x 1TB Micron 3400 M.2 PCIe 4.0 x4 NVMe Solid State Drive. Agent: Ok got it Anything else?. Customer: 8 x 2.0TB or 4.0TB SAS3 12.0GB/s 7200RPM - 3.5" - Seagate Exos 7E10 Series (512e/4Kn). Agent: Intel® Xeon® Gold 5317 is the CPU you want correct?. Customer: drives are 4 - 4 TB. Agent: So you want 8 pcs of 4TB Hard Drive?. Customer: 4. Agent: Ok got it. Customer: Broadcom MegaRAID 9560-8i SAS3/SATA/NVMe 8-Port RAID Controller - 4GB Cache - PCIe 4.0 x8. Agent: For the 1TB M.2, we only have Intel P4511 available if that's ok We can only add 2 pcs of M.2 btw as well. Customer: NO 4 x 1TB Micron 3400 M.2 PCIe 4.0 x4 NVMe Solid State Drive. Agent: Ok, yeah unfortunately, we don't have the Micron 3400 available It is not validated with this workstation that's why. Customer: What are specs. Agent: For the Intel M.2?. Customer: P4511. Agent: Intel DC P4511 1TB NVMe M.2 22x110mm up to 1DWPD <https://ark.intel.com/content/www/us/en/ark/products/137107/intel-ssd-dc-p4511-series-1-0tb-m-2-110mm-pcie-3-1-x4-3d2-tlc.html>. Customer: NO good!. Agent: Would a 7300 PRO 960GB work? Micron. Customer: Check it or Remove all M.2. Agent: We can remove all the M.2 then, that's fine. Customer: What are specs. Agent: For the Micron 7300 Pro https://media-www.micron.com/-/media/client/global/documents/products/product-flyer/7300_nvme_ssd_product_brief.pdf?la=en&rev=da2975e795564587b3399f555fef6c5d. Customer: No good 3.0 gen. Agent: Ok, will just remove all M.2 then since we don't offer Micron 3400. Customer: is Micron 3400 listed with SMC and no stock?. Agent: It's not listed for this workstation because its not validated to work with it so it's not an option. Customer: Then it should be Y buy 4.0 MBD. Agent: Yeah understandable, sorry about that. The NVMe (non-M2) do have Gen4 options but those are probably not what you want. . Customer: Remove Raid. Agent: Ok will do so just the 4 pcs of 4TB Seagate Exos for storage?. Customer: Can you email were we are?. Agent: Yeah I can btw, 9560-8i is not an option available, we only have LSI 3108 or S3908L. Customer: Remove all Raid. Agent: Ok sounds good just keep the 4 x 4TB hard drives then? Oh I see, you'll need the controller for the SAS drives. Customer: They are SAS3 they all well be removed by SMC, one Sata 4TB could work. . Agent: Ok just 1 4TB SATA drive will be included then Any other additions? Did you still want the TPM 2.0?. Customer: YES. Agent: Ok got it, thanks! I have so far: SYS-740A-T 2 x Intel® Xeon® Gold 5317 12 x 16GB Memory 3200 1 x 4TB SATA HDD 1 x TPM 2.0. Customer: Send Quote so i can see. . Agent: Will do, via email or this chat? Ok will do For the 4TB HDD, did you want 512E/4KN? Prefer Seagate correct?. Customer: yes. Agent: ok got it Can I help you with anything else? I will send you the quote via email if nothing else. Customer: I will review the email tomorrow. . Agent: Ok sounds good. Customer: End. Agent: It was nice talking to you. Have a

great day, goodbye!. Customer: Ralph Wostenberg left the following comment: KY did good. I did not. Hello. How may I help you?. Agent: Hi Lisa!. Customer: Hi Liz, I'm needing assistance in removing the Keyboard & Mouse combo from the order I'm currently creating. . Agent: Please give me a moment while I check for you. We can create the pre-config link for you. May I have your configuration please?. Customer: Supermicro 1U SuperServer 5019C-MR Xeon E-2224G, 2x 16GB Memory, 1TB 3.5" DC Hard Drive, 240GB M.2 D3-S4510 SATA, Server 2019 Standard. Agent: Thank you for your information. Can I email you back via lpanko@panthersys.com for the pre-config link?. Customer: yes, please. Agent: Thank you! Is there anything else I may help you with today?. Customer: that should be good. Eta on link?. Agent: I will email you as soon as I finished it. I'm working on it now. Should be less than an hour. . Customer: Thanks so much! :). Agent: You're welcome. I will email you soon. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello. I would like to know what TPM modules are appropriate for a Supermicro X11SDV-8C-TP8F motherboard?. Agent: Hi Salvatore! Please give me a moment while I check for you. AOM-TPM-9670V-S & AOM-TPM-9670H-S Unfortunately, we don't carry TPM modules on our eStore so you would have to check with our resellers. <https://www.supermicro.com/en/wheretobuy>. Customer: Would you have a link to documentation on those modules?. Agent: Yes, one moment https://www.supermicro.com/en/products/accessories/addon/AOM-TPM-9670V-S_H-S.php The only difference between the 2 modules is the orientation, V is vertical, H is horizontal Is there anything else I may help you with today?. Customer: Is AOM-TPM-9670V-O a valid module?. Agent: Please give me a moment while I check for you. Yes, it's a valid module that you can use. Customer: Is there documentation on it?. Agent: Let me check internally to see if we have any documentation. It doesn't look like we have documentation for the -O module. Customer: Okay. Thanks. If I can't find the first one I'll try the -O module. . Agent: Sounds good, and no problem! Can I help you with anything else?. Customer: No that was it. Thank you and have a good day. . Agent: You as well, Salvatore!. Customer: Hello. How may I help you?. Agent: Hi Jonathan!. Customer: Hey I'm interested in that server SKU, I was wondering about the power supply PWS-1K02A-1R. Do you have nay info on the noise level in comparison to your SQ versions (since those are notcompatible with this server). Agent: Please give me a moment while I check for you. . Customer: alright, thanks!. Agent: Please bear with me for a few more minutes while I check for you. . Customer: no worries, take your time. Agent: Unfortunately, I don't have any noise level for this power supply. I can check internally for this information. Can I email you back via jonathanx01228@gmail.com?. Customer: sure. Agent: Can I help you with anything else?. Customer: No, that would be all for now, than you so much for looking into this. Agent: You're welcome. I will email you as soon as I have the answer. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello Jim, Do you have a page where I can custom build a storage server to mix and match parts?. Agent: Hi Joseph! Yes, we do. Can you go ahead and create a user account on our eStore? <https://store.supermicro.com/customer/account/create/> Please let me know what email address you used for the account and I'll enable server configurator access for you. . Customer: JosephRecendez@clovisusd.k12.ca.us. Agent: OK, please give me one moment I couldn't find an account associated to that email address. Can you confirm if it's been created and verified successfully?. Customer: Just finished confirming email. Agent: Perfect, I see your account now Your account should now have access to our 'Systems' tab on the eStore. You may need to log out/log in again before you can access it. <https://store.supermicro.com/system.html> Did you need any assistance looking for a server? Or would you just like to browse and come back if you had any questions. Customer: I will browse and come back. Thank you for you help. . Agent: No problem Joseph! It was nice talking to you. Have a great

day, goodbye!. Customer: Hello. How may I help you? Hey Kyle. Agent: Hi Yury. Customer: Need to ask a few questions, looking for a server with High core count AMD processor. Comparing to a Dell system with AMD EPYC 7752 (48Core) / 2 Processor. Agent: The only AMD server we have available is our threadripper workstation AS -5014A-TT, which can get up to 64 cores:

<https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html>.

Customer: Need Rack mounted Also do you provide any discounts towards open source projects? This is for Gentoo Linux infrastructure. . Agent: Unfortunately, we don't have any rackmount AMD servers on the eStore. You'll have to check with our Sales team or resellers for those. No discount for open source project either, sorry. . Customer: No problem figure I will ask. How do I get in touch with the sales team?. Agent: Sure, give me one moment No Intel server would work I assume?. Customer: Not enough core counts, top I see is only 32 cores. Agent: Yeah, understandable. AMD doing things right Sales-

USA@supermicro.com +1-408-503-8000. Customer: The dell quote I have is for 2 - 48core AMD

processors. Agent: They should be able to help you with your request. Customer: Thank you. Agent:

You're welcome Can I help you with anything else?. Customer: no that's it. Agent: Ok sounds good. It

was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi

Janbec!. Customer: Hello In regards to the above mentioned part, does it work with uperServer SYS-

6028U-TR4T+ Also I noticed in the specs I only get 10 usable SATA ports on the chassis masking the other

in the front useless so if I get this can I still use it if I have 10 SATA drives loaded up front. Agent: Please

give me a moment while I check for you if this MCP-240-82922-0N-OEM works This is compatible with

your system. You also can check it on our main site in optional parts list

https://www.supermicro.com/en/products/system/2U/6028/SYS-6028U-TR4T_.cfm It is the rear 2x 2.5"

HDDs riser bracket kit. Customer: I know it's compatible, but the system states that it has 12 3.5" drives

up front but you can only use 10 if you are using SATA drives so my question is if I buy this can I keep my

current 10 drives loaded up front or do I have to sacrifice 2 of them to make this unit work. Agent: Do

you mean you want to use this bracket to add 2 drives addition on the 10 SATA drive?. Customer: Yes.

Agent: Optional storage card will be required to support more then 10 drives The MCP-240-82922-0N-

OEM is the riser card to add 2 optional 2.5" drives at the back for your system. You will need the

additional storage controller for that. Customer: I have that additional storage card but only allows me

to use 12 SAS drives it won't let me use 12 SATA drives. Agent: I see. Please give me a moment while I

check for you. . Customer: Ok. Agent: Unfortunately, the motherboard of this system only support for 10

SATA drives I can check with our tech support to see if possible to use 12 SATA drive with additional

storage card Can I email you back via janbec@gmail.com?. Customer: Yes. Agent: May I also know which

additional storage card you use?. Customer: can you also ask if adding the optional mount gets me 2

more SATA drives or am I bound to the 10 SATA limitation LSI 9361-8i 12Gbps 12-port 2U SAS3 12Gbps

Direct-attached Backplane. Agent: Thank you for the information. I will add that to the question. .

Customer: Thank you very much for your time and help. Agent: You're welcome. It's my pleasure to

assist you. Is there anything else I may help you with today?. Customer: Hello. How may I help you? Hi

we were looking to get a quote on a SYS-110C-FHN4T Server. . Agent: I see. Sorry we don't carry 110C-

FHN4T but will you be interested in something like SYS-510T-ML ?

https://www.supermicro.com/zh_tw/products/system/UP/1U/SYS-510T-ML. Customer: would it be

possible to get that model with 10Gb RJ45 network interfaces?. Agent: Let me check. Customer: I need 4

network interfaces total, 2 need to be 10Gb, the other 2 can be 1Gb all RJ45 We currently have a SYS-

5018D-FN4T that we're looking to replace with something similar, but just newer. Agent: 2x 1GbE RJ45

comes with server and we can add 2x10Gb RJ45 to AOC slot. Customer: Ok, that's not the PCI slot is it? I

have a card I'll need to add to the system. Agent: It is PCI-E slot. Customer: Ok, do you have anything similar with 2 PCI slots?. Agent: I would like to check and get back to you on this via email. What other specs are you looking in this server?. Customer: We currently have a Xenon D-1541 2.1GHz processor, 64GB RAM, and 2 1TB SSD drives that are raided. so something similar But we'd need the 4 network interfaces, 2 of which need to be 10GB. plus IPMI interface and a spare PCI slot I think that would cover it I guess the 1U-mini form factor would be nice, but not absolutely necessary. . Agent: I see One moment Let me look into this and get back to you as soon as I can. Customer: ok thanks, you have my email right?. Agent: You're welcome. Yes Is it whiterb@sciential.com ?. Customer: whiterb@scientiallc.com. Agent: Thanks! Got it ! I will email you then. Can I help you with anything else?. Customer: nope, thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Amy!. Customer: hello Liz Could you provide REACH and ROHS certificate for X11SDV-8C+-TLN2F AOM-TPM-9670V-S. Agent: I'll check internally for REACH and ROHS certificate for both X11SDV-8C+-TLN2F and AOM-TPM-9670V-S for you. Can I email you back via amy.le@panasonic.aero?. Customer: yes thank you very much Liz. Agent: You're welcome. Is there anything else I may help you with today?. Customer: that would be all thank you. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Andrew. Customer: Hello I'm looking for a CAD model of one of your rail sets:MCP-290-00053-0N. Agent: Unfortunately, we can't provide CAD models for our products. You can try checking with our technical support team (Support@Supermicro.com) to see if they can assist you. I apologize for the inconvenience. . Customer: Ok thank you, could you provide a drawing of the rails?. Agent: Unfortunately, we can't provide that either 😞 Anything that has to do with a model/drawing of the product, we can't provide on our end. Is there anything else I may help you with today?. Customer: understood, thank you no that is all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Livio !. Customer: I am a reseller to my network security customers. Can I use the estore to buy your servers? Can I enter my CA reseller certificate through the estore?. Agent: You can purchase servers through eStore for sure. We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Do you have an eStore account set up ?. Customer: Ok, let me see how this works. Can you enable me to configure a couple of servers? I need to buy them for one of my customers. . Agent: Please create an eStore account through this link <https://store.supermicro.com/customer/account/create/> Do you have the server access already ?. Customer: Yes I already created it and juast got the email about being able to configure servers. Caan I also buy memory and CPUs?. Agent: Are you purchasing the memory and CPUs separately from the servers?. Customer: Usually I get bare bones and chose the place to buy CPUs and memory based on pricing and availability. Agent: Our eStore only sells complete systems at the moment. Customer: ok bye.. Hello. How may I help you?. Agent: Hi Jens!. Customer: Hello Liz I will setup a RIAD system with the X10SRA-F motherboard and have already installed the HD HGST 0B35950 4TB what is a good match for the second HD. Agent: If you want to setup RAID system, it needs to be the same hard drive HD HGST 0B35950 4TB. Customer: Do you have that available. Agent: Unfortunately, I couldn't find any information for the HD HGST 0B35950 4TB on our back end. Do you have Supermicro SKU part number for this?. Customer: where can I find this number. Agent: Unfortunately, I checked online, our eStore

doesn't carry this drive I'm sorry for this inconvenience. Customer: okay thank you but is this drive certified with the motherboard?. Agent: Please give me a moment while I check for you. This is the list of all the hard drive that have been validated with this motherboard
<https://www.supermicro.com/en/support/resources/hdd/display?Category=MB&sz=3.&ctrl=74&id=82086661ACB8AB31E25FE4F39F754545&NVMe=0&ProductID=0> I couldn't tell if your drive is validated or not since the HD HGST 0B35950 is not Supermicro part number. Customer: I found a similar drive HUS726T4TALE6L4 but my drive has a different letter HUS726T4TAL"A"6L4 instead the "E" what does that mean. Agent: So your drive is HUS726T4TALE6L4 is that correct?. Customer: no my drive is HUS726T4TALA6L4 before the 6 I have the letter A instead of E. Agent: thank you. Please give me a moment while I check for you. I can find the information of your drive on our back end HDD-T4TB-HUS726T4TALA6L4, but it hasn't been tested with this motherboard, unfortunately. However, If this drive can work with your motherboard. It should be ok then. Customer: Should I get the tested drive (HUS726T4TALE6L4) as the second RAID drive or exactly the same I have installed now (HUS726T4TALA6L4). Agent: We technically don't recommended to mix and match drives for RAID setup. We recommend use the identical hard drive for RAID setup to keep the best performance also without any trouble. . Customer: okay thank you. Agent: You're welcome. Is there anything else I may help you with today?. Customer: Yes, I have another question, what is the lead time on the power supply PWS-920P-1R2. Agent: Sure, let me check for you. The ETA for this power supply is the end of March. You can check back with us by that time or set Notify Me button on eStore for automatically alert email Is there anything else I may help you with today?. Customer: thank you, that was very helpful. Agent: Can I help you with anything else?. Customer: no thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: likewise, have a great day, bye. Hello. How may I help you?. Agent: Hi Ed!. Customer: Hi there, I am trying to order qty:40, and the order page states that only (2) are available and if I need more pieces that I should contact or chat. . Agent: Let me double check our inventory real quick and see if we can transfer more over for your order. One moment. Customer: Thanks. . Agent: We should be able to transfer more inventory over, but the transfer itself will take several hours after I submit the request. Is it alright if I follow up with you via email at vendor1@aceca.com once the transfer is complete?. Customer: Yes. Thanks. . Agent: No problem at all! Hope to have an update for you soon. Is there anything else I may help you with today?. Customer: No, thanks for your help. . Agent: Of course 😊 It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi I am putting together my computer and I'm installing the front power switch, reset switch and power LED wires for my computer case. . Agent: Hi John. Customer: The JF1 pin map gives pin columns 1 and 2, but the case wires need + and - I think than 1 goes with + and 2 goes with -, or vice versa, but I'm unclear. . Agent: JF1 is the front control panel header, let me check. Customer: Ok thanks. . Agent: you have a 20-pin connector correct?. Customer: no it's 2 2-pin female connectors and 2 1-pin female connectors. Agent: Oh I see. This is not in a SMC case?. Customer: no. Agent: Ok I would recommend checking with our technical support team for this at support@supermicro.com You can call them at (408) 503-8000 as well. Customer: Can you find out if my question about polarity of side 1 vs side 2 of the JP1 connector is true or not? oh calling is convenient, thanks they're around until 5 PST?. Agent: You're welcome! 9am - 6pm Pacific Time (Monday - Friday). Customer: 8 EST?. Agent: till 9 EST. Customer: nice thank you. Agent: you're welcome! Can I help you with anything else?. Customer: no thanks. Agent: Hope they can assist you with your request. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Ralph!. Customer: What MBD?. Agent: Do you ask which motherboard for the SYS-740A-T?. Customer: yes.

Agent: It's X12DAI-N6 You can check it here

<https://www.supermicro.com/en/products/motherboard/X12DAi-N6>. Customer: eStore Detailed Specification Supermicro SuperWorkstation Full-Tower (SYS-740A-T) "Supermicro's new generation X12 SuperWorkstations are optimized for applications requiring powerful graphics capabilities including rendering, image processing, scientific and engineering tasks. With rich multimedia features, these systems are also the perfect choice for digital entertainment. Unparalleled Performance: Supermicro's server grade SuperWorkstation motherboards support up to: dual 3rd Generation Intel® Xeon® Scalable Processor, 2TB ECC DDR4-3200MHz memory in 16 DIMM slots, 6 PCI-E slots including 4 PCI-E 3.0 x16 slots and 2 PCI-E x8 for GPU/Coprocessor cards, and dual Gigabit Ethernet LAN ports. The extremely feature-rich workstations also includes 7.1 HD audio, 8 USB ports (6 USB 3.0 + 2 USB 3.1), 7+ year product life cycle, and 205W CPU support for exceptional performance. Outstanding Flexibility: The workstations are available in Compact DP, High-End DP and GPU-Optimized workstation configurations." All they will offer is PCIe 3.0 parts and configure with them also. People are being ripped off! Good Buy SMC and eStore. Ralph L Wostenberg. Agent: This motherboard is new, so not all the parts are validated with this system. We can only put parts that has been validated with our systems on our Supermicro eStore to ensure the highest quality. Other site may have other options but those options has NOT been validated by our Supermicro lab. . Customer: If I buy 4.0 Idont want3.0 I can not see my cart. . Agent: The pre-configuration link we provide has all 4.0 (Gen 4). We also keep continuing to validate/ qualify more GEN 4 parts as we mention. we currently only offer enterprise grade (not consumer grade) products and have a thoroughly lab validation process to make sure everything we sell on our eStore has no issues. . Customer: my cart. Agent: May I know do you login to your eStore account yet? Please log in here if you are not

https://store.supermicro.com/customer/account/login/referer/aHR0cHM6Ly9zdG9yZS55ZdXBldm1pY3JvLmNvbS8_dXRtPWwhlYWRlcg%2C%2C/. Customer: Hello. How may I help you?. Agent: Hi Ralph. Customer: storage-1: ?. Agent: This is what you should be seeing for Storage-1. Customer: QTY.? max. Agent: This system can only support up to 2 M.2 NVMe's. Customer: ok. Agent: Did you need assistance adding this configuration to your cart? We can login to your account from our end and do so. Customer: Yes Itemize please. Agent: OK, one moment Can you refresh your browser? You should see it in your cart now. Customer: I hate this SYS when i started there was One. Agent: If you run into any issues viewing that configuration in your cart, please let me know. Customer: where. Agent:

<https://store.supermicro.com/checkout/cart/> This link should take you directly to your cart. Customer: ok i do not see it. Agent: Can you use this link to login to your account first?

<https://store.supermicro.com/customer/account/login/> Login to your user account with email rrwuhf@gmail.com. Customer: You have no items in your shopping cart. . Agent: Then see if it appears in your cart afterwards: <https://store.supermicro.com/checkout/cart/>. Customer: You have no items in your shopping cart. . Agent: Nothing at all in the top right hand corner? This is our view when logged into your account Can you perhaps press F5 on your keyboard to see if it will refresh your cart?.

Customer: Hello. How may I help you?. Agent: Hi Donald!. Customer: Wanted to make sure I ordered the correct part for a power cable to attach an NVidia P4000 GPU to our server. Looks like the CBL-PWEX-1040 is the correct part but wanted to make sure before I ordered over night. . Agent: What is the motherboard you are using ?. Customer: One min let me check. Agent: Sure. Customer: I will need to make sure but fairly sure it is the SuperMicro 2029U-E1CR4. Agent: Please give me a moment while I check for you. . Customer: ok. Agent: Sorry it took some time. I want to confirm the correct cable before I suggest to you. Can I email you after checking ? Is djones@practicalsolutionsit.com the best email to

reach you ?. Customer: Yes you sure can. And yes that is the correct email. I want to be able to over-night today so we receive it tomorrow. Thank. Agent: I see. I will email you as soon as I can. Can I help you with anything else?. Customer: That would be all thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? hello. Agent: Hi Jatin. Customer: I had bought some servers like 7-8 in past and would like to get new one as we are planning to upgrade. Agent: Oh I see. Where do you plan on shipping this new server?. Customer: Miami, Florida 33155. Agent: Oh ok thanks!. Customer: supermicro sells the servers directly also right. Agent: We can sell and ship the servers we have on the eStore directly within the 50 states in the US. Please note: we only accept US-credit card payment or ACH Bank Account transfer at this time. . Customer: yes we will pay by US based credit card only. Agent: ok great do you have an eStore account with us already?. Customer: no. Agent: Please create one so that I can provide you access to our servers section: <https://store.supermicro.com/customer/account/create/> Do you remember what server model you had previously?. Customer: let me give u one min X8QB6-F is one of them and we bought like 5 of the. Agent: oh that's the motherboard model#, but yeah, that's fairly old. Customer: XDTL-I ya so we need to go to the latest one. Agent: do you have the chassis/server model#? should start with a SYS or CSE?. Customer: need to look for it and they are all stacked up. Agent: Ok. Customer: shall we look for new one which is far better and the latest one which could give option of installing virtual machines on it. Agent: Meanwhile, if you can create an account, I can provide you access to our latest models and you can see what you need/like. Customer: done. Agent: don't think there's a direct replacement from the ones you have currently ok thanks. Customer: no not looking for replacement. Agent: what was the email address you used?. Customer: looking for something powerful. Agent: sounds good. Customer: which could give us what we need like virtual machine instalation and support of multiple processeor and stuff i have created the account can you suggest or give more info on blade servers or the twin servers what are these. Agent: You should have access now. Please log into your account to view our servers tab. For what you need with multi-processors like dual, WIO or Ultra family would work. We don't carry any twin or blade servers on the eStore unfortunately, that would be thru our Sales team or resellers. You may have to refresh your browser or log out/log back in. Customer: ok i have option to configure so doing it now. Agent: ok sounds good, let me know if you need any help. Customer: ok Hello. How may I help you?. Agent: Hi Samuel!. Customer: Hi Liz We're looking for Model# Supermicro CBL-00127-01-A-R It's a SFF-8643 (at a right angle) to Mini SAS 36Pin SFF-8087 Internal HD Data Cable 1M cable for our Adaptec ASR-71605 16-Port 6Gb/s 1GB SAS SATA PCIe RAID Controller Card Do you have these?. Agent: Please give me a moment while I check for you. . Customer: Thanks. Agent: I'm sorry, but unfortunately, we do not carry this cable on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: ok. Agent: Is there anything else I may help you with today?. Customer: No thank you. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: You wouldn't happen to have Adaptec Phone support number?. Agent: Unfortunately, I don't have their contact. . Customer: ok. Agent: https://ask.adaptec.com/app/answers/detail/a_id/4945 Maybe this link is the one you can reach to It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? I am unable to order from the estore. Getting an internal error. . Agent: Hi Kevin. Customer: this with firefox and Microsoft edge browsers. Agent: Sorry you're having issues checking out. Could you provide a screenshot for the screen you're on that includes the internal error message ?. Customer: yes. Agent: Thanks Kevin. Let me try to reproduce this on my end really quick. Customer: here you go. Happens everytime I try and order something. . Agent: Please bear with me for a few more minutes while I check

for you. . Customer: Ok, thanks. Agent: It looks to be an issue with FedEx's service since we use them as a shipping provider. We're currently monitoring the status of their outage, but there's not much we can do until they resolve it on their end Did you want me to email you back once the service is back up again?. Customer: Yes please, but i tried ordering a couple of weeks ago and got the same error. So my question is, how long have they been down?. Agent: The issue from a couple weeks ago may be unrelated to the outage. They seem to have only been down for a couple hours. Unfortunately, we can't troubleshoot the internal error on our end until the service is restored. If you still have the same issue after service is restored, please let me know and we'll have our web team take a look at what might be going on with your order. . Customer: Ok, sounds good. . Agent: I apologize for the inconvenience Kevin. I'll send an email to kmoore454@outlook.com to follow up. Is there anything else I may help you with today?. Customer: Nope, thanks,. Agent: It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you? Hi Kyle, I received my order for a AS -5014A-TT workstation in December. . Agent: Hi Michael. Customer: However, I didn't notice that only one of the physical drives was visible (NVMe). The two Toshiba sata drives are not detected by the computer. Agent: Oh I see. You're order# was 1000023101 correct?. Customer: yes. Agent: Ok thanks, please give me a moment while I check. Customer: thank you. Agent: Thanks for waiting. Were you able to do the following from Joe's instructions? Please partition and format the drive. The below how to format a hard disk in Windows OS link is for your reference. <https://support.microsoft.com/en-us/windows/create-and-format-a-hard-disk-partition-bbb8e185-1bda-ecd1-3465-c9728f7d7d2e> Are you able to see the physical drives in the BIOS?. Customer: Let me check. Agent: Ok thanks. Customer: I am in the bios but I am unable to locate a hardware list. Agent: Not even the NVMe? Under Advanced?. Customer: under adv. are configurations for sata and nvme. navigating to sata information within configuration -- is blank navigating to nvme information within configuration - device not found. Agent: Ahh ok. Give me a moment while I check if there's another section Under SATA Configuration, is the SATA Enable set to enabled, disabled, or auto?. Customer: i found a mention of the two drives within the security section. Agent: Ah ok, does it show a status of the 2 drives?. Customer: Sata configuration -- enabled, raid. Agent: so it is there ok. Customer: part of the order was the raid configuration. I inquired about how the system was configured by I didn't get a response. Are the two sata drives in a Raid 1 configuration with the nvme drive?. Agent: So the NVMe was the boot drive and the 2 SATA drives were in a RAID?. Customer: I requested that the workstation to boot from the nvme. I had expected the 2 sata drives to be a in Raid 1 configuration. Such that I could access one and the other would be the mirror. Agent: that would make sense. Is the RAID 1 configuration bigger than the 2 SATA drives combined? does it show 3 devices in that raid?. Customer: I am unable to access either sata drive. Agent: Ok they are seperate OS on the NVMe Raid 1 with the two sata drives. Customer: that was the desired setup. Agent: so the instructions were correct. Customer: I don't know if that is how it is currently configured. Agent: If you go to file explorer, can you show me a screenshot if what you see?. Customer: C-drive only -- 1TB I have this chat open on a second computer so that I can maintain the conversation while we work on the workstation. Agent: sure sounds good. Customer: there is only one disk drive listed in the device manager as well it is the NVME drive. Agent: So no way for you to create and format a hard disk partition? All you see is 1 TB NVMe. Customer: correct which is why I couldn't follow the instructions provided in the email which is why I though that the raid configuration was different -- NVME with two mirrors and not what I requested. Agent: Whats the size of the current partition?. Customer: 900mb (assuming the other 100mb for boot). Agent: that looks to be the NVMe the SATAs are 2TB each so it should be around 2TB if it was raid 1. Customer: correct. Agent: So you only saw them in Security in the

BIOS settings?. Customer: correct. Agent: Checking the BIOS settings again So if you go to Advanced > SATA Configurations SATA Enable is Enabled or Auto?. Customer: Enabled, Raid. Agent: But no detected SATA devices listed? in that same section. Customer: Sata Configuration -> Sata information : blank nothing else is listed. Agent: Ok, that's probably why you don't see it in the OS. Auto is the default setting here according to the manual under NVMe configuration, the NVMe Raid Mode is set to what?. Customer: enabled No NVME device found. Agent: Interesting, but it's found in OS windows explorer/file explorer. Customer: yes which is why I am very confused. Agent: Under Boot tab, do you see them as boot options? like Boot Option #1 is NVMe. Customer: UEFI Hard Disk: Windows Boot Manager (AMD RAID). Agent: ok I'll have to check with the PM on this issue and get back to you. This doesn't make sense right now I can email you back once I get an answer. Customer: I would rather get a phone call rather than email instructions. Agent: We don't have direct phone support on the eStore unfortunately so I'd have to provide you support on chat or email. Our technical support team has phone and email support. Either way, I'll have to show them this issue you're seeing and get back to you by calling you from their end. . Customer: ok, thank you. Agent: what is your phone# ?. Customer: 425-736-7234. Agent: Ok got it, thanks! Can I help you with anything else?. Customer: no, have a good day. Agent: Thanks! You as well, we'll be in touch soon. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Tom. Customer: Hello. I want to purchase a SSG-6049P-E1CR60H server with 18 TB HDDs. But I cannot save an order, I see this message: We currently have "11" of the "18TB 3.5" Exos X18 7200 RPM SATA3 6Gb/s 256MB Cache 512E/4Kn Hard Drive" in stock We need this server as soon as possible. Is it possible to create an order with just 6 18TB HDDs? It will be enough for us. . Agent: Please give me a moment while I check for you. Please bear with me for a few more minutes while I check for you. . Customer: I know that the minimum allowed number of HDDs is 15, but since you have only 11 in stock, maybe we can purchase the server with less HDDs. . Agent: Thank you for waiting. I already updated the inventory for the hard drive. Can you please try again? Please let me know if you still have any issues. Customer: Yes, I was able to save the order. I will pay for it soon. Thanks. . Agent: You're welcome. Please place the order as soon as possible to day because we only have 1 left. we won't be getting these any time soon if someone else buys it Is there anything else I may help you with today?. Customer: No, everything is okay, thanks. Hello. How may I help you? I am trying to buy or configure your mini itx desktop. Agent: Hi Tim! We unfortunately don't have a configurable mini ITX desktop to configure on our website. Would you still like access to see what we have available?. Customer: Is it possible to speak with you. Agent: We don't offer phone support unfortunately. Customer: I have purchased from you in the past an am looking for a similar system. Agent: What system did you previously purchase? I'll see if there's anything similar I can recommend from our eStore that you can configure If you'd like, I can also grant your eStore account access to view our server selection so you can configure it yourself too.
<https://store.supermicro.com/customer/account/create/> We'll need just to know your eStore email address. Customer: Im looking for windows 10/11 pro i5/i7 16/32 ram decent video card tungdmd@verizon.net. Agent: OK, one moment while I enable your account for access I couldn't find an existing account associated to that email. Can you double check to see if you created your account and verified it successfully? <https://store.supermicro.com/customer/account/create/> I'll look for a recommendation in the meantime. Customer: ok give me a couple minutes. Agent: Sure thing. Thanks Tim. Customer: customer 1330375091. Agent: I don't believe that's one of our customer IDs. Does this URL redirect you to an account creation webpage, Tim?
<https://store.supermicro.com/customer/account/create/> Our eStore has a seperate user database, so if

this is your first time on our eStore, you would need to register for a brand new account. Customer: ok it was servers direct if that helps. Agent: We aren't associated with serverdirect so that customer ID unfortunately does not help us 😞 They may be one of our resellers, but they have a different user database. Customer: ok let me do more homework ty. Agent: No problem Tim If you didn't mind a mid-tower, I would recommend our 530AD-i. It supports i7 and you can add a 3060 GPU as a configuration option <https://store.supermicro.com/supermicro-upworkstation-mid-tower-sys-530ad-i.html>. Customer: Hello. How may I help you?. Agent: Hi Alex!. Customer: hi joe. Agent: Are you looking to purchase our Twin system ?. Customer: yes but I can't find it in the store. Agent: I am sorry but our eStore doesn't carry Twin systems. You will need to check with resellers for the availability May I know if you are located in the United States ?. Customer: I have a post office box there, but the final destination is Bolivia. Agent: I see. You can check with resellers for the availability. <https://www.supermicro.com/en/wheretobuy>. Customer: And tell me, how could I be a reseller in Bolivia?. Agent: In that case, please contact Sales-USA@supermicro.com. Customer: I wrote an email, but they never answered me. Agent: to request to be a reseller I can forward the request for you as well. Please let me know your company name, email address and phone number. Customer: BTICS S.R.L. is a company dedicated to the field of tics www.boliviatics.com acalvimonte@boliviatics.com +591-72051801. Agent: Thanks! I will forward your request Can I help you with anything else?. Customer: How long will they be in contact? dearly and everything is fine THANK YOU. Agent: I am writing the email to sales team now and hopefully they will contact you within 1-2 business days You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Chuck. Customer: I'm trying to purchase a cable that I have previously purchased from Supermicro and cannot find it on your site now. It is a CBL-SAST-0591 cable. . Agent: Sure, let me check for you. Here is the link for CBL-SAST-0591: https://store.supermicro.com/supermicro-internal-reverse-breakout-cross-over-minisas-hd-to-4-sata-with-sideband-75-75-75-75-75cm-cable-cbl-sast-0591.html?queryID=894c1958e0aabde9ee71ec62eef51f85&objectID=542&indexName=supermicro_default_products. Customer: Thanks. Why did your site return a No Matches message when I searched for them?. Agent: I'm sorry for that issue. The website might get glitch somehow I think Please contact us if you experience any problem while purchasing with us. Is there anything else I may help you with today?. Customer: No - I am good now - thanks Liz. Have a pleasant day. . Agent: You're welcome. Thank you! It was nice talking to you. Have a great day, goodbye!. Customer: chuck left the following comment: Quick chat help. Very good. Hello. How may I help you? I am filling in for a colleague and wanted to check delivery status of the above order number :1000023688. Agent: Hi Bonnie! Please give me a moment while I check for you. Would you be able to confirm the shipping address that was used for this order?. Customer: 2730 Murray Ave Pittsburgh PA 15217. Agent: Perfect, thank you very much It looks like it's currently out for delivery right now. <https://www.fedex.com/fedextrack/?trknbr=534721353012&trkqual=12023~534721353012~FDEG> You can use the above URL for tracking. . Customer: Bonnie Olson left the following comment: super fast thanks! Hello. How may I help you?. Agent: Hi Thang. Customer: I need a hot swap tray that convert from 2.5" to 5.25" for SAS 3 HD 3.5" not 5.25". Agent: Let me check to see if we have one. Ahh OK. Please give me a moment while I check for you. . Customer: ok. Agent: You can use this for 3.5" to 2.5" converter <https://store.supermicro.com/mcp-220-00043-0n-1482.html> Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to

you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi there, asking for help on this order: #1000023741. Agent: Hi Qingyu. Customer: I am going back and forth on this. Initially I wanted to get these fans for reduced noise. But then I figured out a solution, so I asked to cancel it. Then, I realized my solution didn't really work, so I asked to still have the order shipped. But now I found out another solution to the problem, so I would still like to cancel the order. is it too late to do so? I see the order hasn't shipped yet. I am very sorry for the changes of heart. . Agent: Let me check on this We should be able to cancel this order from our end. . Customer: Thanks very much!. Agent: You're welcome! Can I help you with anything else?. Customer: No. That's all I needed. Again, sorry for the inconvenience. . Agent: No worries, better now than it being shipped and you didn't need/want it. . Customer: Yep. You have a great day!. Agent: Thanks! It was nice talking to you. Have a great day, goodbye!. Customer: Bye! Hello. How may I help you?. Agent: Hi Sandra. Customer: looking for 1ea RSC-W2-66G4. Agent: I'm sorry, but unfortunately, we do not carry any riser card on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: who would you suggest, do you see stock anywhere. Agent: Unfortunately, we don't have any information of our resellers stock. Please check with them for the availability You also can check with our RMA to see if they can support for replacement part. RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3. Customer: thanks. Agent: You're welcome. Can I help you with anything else?. Customer: no thanks have a great day Hello. How may I help you? Hello!. Agent: Hi Sean!. Customer: I lost the key that unlocks the front door of the CSE-721TQ-250B. How can I get a new one? Or a replacement key?. Agent: Let me see if there's a P/N I can look up for you. One moment. Customer: Thank you. Agent: Unfortunately, I couldn't find any part numbers for the key or the locking front bezel. I would advise that you check with our RMA team to see if they have any information on this. If they do, you might be able to purchase a replacement from them as well. RMA department email address: rma@supermicro.com RMA department part phone #: 1-408-503-8000 option 3. Customer: Thank you. Agent: No problem Sean Is there anything else I may help you with today?. Customer: Thank is it. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello Kyle I would like to start the process of getting a quote please. . Agent: Hi Joseph Yeah sure, for which product?. Customer: Looking for storage array. Can I give you a comparable quote?. Agent: Oh ok sure. Any other specs in terms of how many drive slots, memory, did you want? Ok thanks, give me a moment while I look. Customer: As close to this as possible. Ok. Agent: The closest one we'd have the 24 drive storage would be our 45-bay, which may be overkill for you: <https://store.supermicro.com/4u-superstorage-ssg-6049p-e1cr45h.html> I believe you have access when you log into your eStore account to check that link. As for the 12 drive server, the following Ultra looks comparable: <https://store.supermicro.com/ultra-server-2u-sys-6029u-tr4.html>. Customer: no 24's???. Agent: We don't have a 24 drive system available outside of 2.5" option. Customer: Can I get an official quote for the 45?. Agent: Sure, I'll just populate with the same amount of drives. Give me a moment. Customer: Ok. Agent: So for CPU, I have the Intel Silver 4214R option and for memory, only 16GB DIMMs, but let me see if we can get 8GB ones. Unless you're ok with 16GB. Customer: Lets try 8. Agent: Ok sounds good, give me a few min while I put everything together. . Customer: Thank you. Agent: For the 2 x 1TB 2.5 drives, I'm assuming for OS?. Customer: Correct. Agent: Ok thanks any plans for NVMe on this storage server? or just strictly SATA drives. Customer: SATA for now. Agent: ok Sorry it's taking awhile, double checking on the drives to make sure its close or exactly the same ones you requested. Customer: No rush. Agent: No raid?. Customer: Yes we need a raid. Agent: Raid 1 on the 2 x 1TB drives? What about the 24 HDDs?. Customer: Raid 10. Agent: Ok thanks! It doesn't look like the

onboard controller for the rear drives can do raid unfortunately, which is odd. . Customer: Lol, so what options do we have?. Agent: I see there was NVMe capability on the 24 drive server you shared. Let me add the functionality on this server and see if that changes what's available in terms of raid. Customer: Ok. Agent: Yeah the rear drives are not able to be RAID'd, only the 45 main ones since they are on a LSI 3108. NVMe is also able to RAID as well with an Intel VROC checking if they mention anything for the rear in the manual. Customer: Well that is not good. I was looking for a solution that will provide around 110 TB of storage, the 24 bay option seemed to fix the build in other quotes/
<https://www.supermicro.com/en/products/system/Storage/4U/SSG-540P-E1CTR36H> ??? . Agent: Yeah that's not good, I'm not sure what the point of the rear drives are in this case unless there's something wrong with the configurator on my end. I'll have to double check internally and get back to you on that. Yeah we don't carry the 36 bay either, wish we did though as I would have offered you that. . Customer: <https://www.supermicro.com/en/products/general-purpose-storage> Even though it is on your page? I am thinking something on the all purpose storage page. . Agent: We only carry a select models on the eStore, not everything from the main site unfortunately. So everything you see from there might not be available on the eStore. Customer: Wait I am confused. I need the enterprise setup. How do I get access to that/. ?. Agent: Ohh You can contact our Sales-USA@supermicro.com if you need that, they should be able to offer the 24 drive option you were looking *looking for Tel: +1-408-503-8000 just in case. Customer: Thank you for your time Kyle. It is appreciated. I will make contact. . Agent: You're welcome! Sorry we didn't have what you were looking for. Can I help you with anything else?. Customer: No that will be all. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Prit!. Customer: would you have BKT-0077L(FH). Agent: Please give me a moment while I check for you. I'm sorry, but unfortunately, we do not carry BKT-0077L on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: thanks PRIT GILL left the following comment: thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: Hello. How may I help you? Hi there. . Agent: Hi Samuel !. Customer: Could you tell me if you carry this? Supermicro X9DRi-LN4F+ Motherboard We need 3. Agent: No, I am sorry X9 motherboard all EOL years ago You might be able to find them through resellers <https://www.supermicro.com/en/wheretobuy>. Customer: Okay. I'll continue to check ebay. . Agent: Sounds good. Can I help you with anything else?. Customer: Not at the moment. Have a great day. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello. i see that the PWS-505P-1H is out of stock. What is the lead time for qty. 3?. Agent: Hi Peter Let me check for you I'll have to check with our PM on this as it's not readily available so I don't have an estimated lead time for this. Hopefully will get an update today and can email you back what the status would be of this. If I get approval, it could be available within 24 hours. . Customer: Okay. Who do we send a PO to? We would purchase with a P-Card?. Agent: Ohh, we only accept credit card payment or ACH Bank Account Transfer on the eStore currently. . Customer: Okay. I will watch for the lead time. Thank you. . Agent: If that works for you, I'll email you back with the update Ok sounds good Can I help you with anything else?. Customer: Hello. How may I help you?. Agent: Hi Doug!. Customer: I've recently received my Super Micro server with 8 bay backplane and a cable that connects the backplane to the motherboard via 2 x mini sas connectors"CBL-0188L-02" I need to buy a connector to go from the mini SAS x2 to my broadcom 9561 8i83 card which has a slim SAS sff 8654 port. Can you confirm the correct cable to do this? Thanks Server serial number 1132652. Agent: May I have your full serial number of your system please? I cannot find the SN 1132652 on our end Please follow the picture above for the serial number of your system We haven't heard from you in awhile so this chat will be closed in

approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com.

Customer: S291427X1A23524. Agent: thank you. Please give me a moment while I check for you. Please bear with me for a few more minutes while I check for you. . Customer: thanks. Agent: Unfortunately, the broadcom 9561 8i83 card is not validated with our system, so I cannot find the cable part number for you. However, you can find the cable header with mini SAS to slim SAS sff 8654 I'm sorry, but unfortunately, we do not carry that type of cable on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: I've found this. Supemicro Slimline SAS x8 (LE) to 2x MiniSAS HD 70cm Cable (CBL-SAST-0826). Agent: It is the miniSAS HD, unfortunately. Your backplane header use the MiniSAS SFF8007 SSFF8087. Customer: I'm reaching out to my suppler now. Agent: Sound good! Is there anything else I may help you with today?.

Customer: They'd indicated the cable I mentioned was the correct one. Is it at the connection (Header) that it doesn't work? Is there a cable to go from the backplane tdirectly to the 9561?. Agent: As I looked at your backplane, the connector to it is Mini SAS SFF8087. The cable CBL-SAST-0826 has the Mini SAS HD which header is 8643 The cable Slim SAS SFF 8654 to Mini SAS SFF8087 works for you. Customer: Do you sell the Slim SAS SFF 8654 to Mini SAS SFF8087. Agent: I'm sorry, but unfortunately, we do not carry that type of cable on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today?.

Customer: Can you supply a part number to be sure I order the correct cable?. Agent: Please give me a moment while I check for you. Unfortunately, we only have the Slim SAS to Mini SAS HD cable part number. I'm sorry for this inconvenience. You might have to find other vendor for this type of cable, unfortunately. Customer: Very good thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: no. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Jim, How are you doing today. Agent: Hi Jack! I'm doing goo,d how about yourself?. Customer: I am with ManpowerGroup located in Milwaukee WI. Agent: How can I help you today?. Customer: We are looking for Samsung 64GB DDR4 Server memory. Agent: Is this for a Supermicro motherboard?. Customer: No. Agent: OK, one moment [https://store.supermicro.com/catalogsearch/result/?q=samsung%2064gb#q=samsung%2064gb&hFR\[categories.level0\]\[0\]=Memory&idx=supermicro_default_products](https://store.supermicro.com/catalogsearch/result/?q=samsung%2064gb#q=samsung%2064gb&hFR[categories.level0][0]=Memory&idx=supermicro_default_products) You should be able to use this link to view all the 64GB Samsung DIMMs we carry on our eStore. Customer: thank you can i request for a quote. Agent: How many were you looking to quote? and for which DIMM? On each memory's page, there should be a link to request a quote. I've attached an image for reference. . Customer: thank you. Agent: No problem! Is there anything else I may help you with today?. Customer: that would be all for now. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Max!. Customer: Hello, I am looking to do a bulk purchase on OOB and DCMS License and have them applied to my account so we can license the motherboards as they come in. Can you help with the pricing on the SFT-DCMS-SINGLE License? I would need the following licenses, SFT-DCMS-SINGLE QTY300 for H12SSL-NT Motherboard SFT-DCMS-SINGLE QTY300 for X11SDV-16C-TP8F SFT-OOB-LIC QTY300 for X11SDV-16C-TP8F. Agent: Do you need a quote for your inquiry ?. Customer: Yes if you could provide one. Agent: Will do. I will request a quote for your inquiry. . Customer: Thank you. Agent: You're welcome. Also, we would like to let you know that 140 pcs of CBL-SAST-0816 are ready for you https://store.supermicro.com/supermicro-slimline-sas-x8-to-2-x-oculink-x4-28cm-cable-cbl-sast-0816.html?queryID=bcd250966d027927b04a5d67ff5a7ca1&objectID=2255&indexName=supermicro_default_products. Customer: I do not believe we are going to continue with the 140pcs we found another

solution. Thank you for following up. Agent: You're welcome. Can I help you with anything else?.

Customer: That is it. Agent: It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you? Hi Kyle. I have a X11SRM-VF what chassis are designed for this board. Agent: Hi Nate We don't carry any chassis on the eStore, but let me check what is optimized for this motherboard SC731i-300B SC732D4-500B SC732I-500B SC733TQ-668B SC842TQC-668B. Customer: i saw the motherboard has oculink onboard do you sell the nvme backplane for that?. Agent: We don't sell any backplanes either sorry. You will have to check with our Sales team at Sales-USA@supermicro.com or with our resellers: <https://www.supermicro.com/en/wheretobuy>. Customer: do you happen to know what backplanes are compatible with the oculink used on the board? ' I dont mind searching other vendors for the part. Agent: We don't unfortunately from our end. You may want to check with our technical support team on this at support@supermicro.com. Customer: cool thanks for the help. Agent: You're welcome Can I help you with anything else?.

Customer: no that is all. Agent: It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you? hi ... we are a client supermicro distubitors and need qty 1 : MCP-280-74702-ON. Agent: Hi Leonard ! Unfortunately we don't carry MCP-280-74702-ON on our eStore. Please check with your sales rep for the availability. . Customer: ty Hello. How may I help you? Hello. Agent: Hi Koji. Customer: I have a plan to buy SuperWorkstation. for CST Stduio suite 2021. Agent: Sure, do you have an eStore account with us already?. Customer: not yet Just submitted a form at online now. Agent: Ok, please give me a moment while I check. Customer: Thanks. Agent: Oh I see you requested for the workstation 740GP-TNRT. We don't carry this particular one but the closest one we have is SYS-740A-T on the eStore. Customer: I don't stick to the workstation 740GP-TNRT. . Agent: If you'd like to create an account, please register here: <https://store.supermicro.com/customer/account/create/> What were the specs you require for your workstation?. Customer: CPU Xeon E5-2667W v4 @3.2GHz x 2 Memory 128GB or more HDD C: 500GB NVMe SSD D: 8TB E: 8TB F: (G:/I:) - Graphic Quadro K620 GPGPU NVIDIA A100 40GB PCIe These are requirements for CST Stduio Suite 2021. . Agent: Ok let me check if we can support this on the SYS-740A-T Ok it doesn't look like the Xeon E5 series are supported on this. Let me check on other workstations we have. Customer: sure, thanks. Agent: Is that the only CPU specs that would work? Would an i7 or i9 Intel work or a 3rd Gen Scalable like Xeon Silver or Gold work? or Intel® Xeon® Processor E-2100 series and E-2200 series. Customer: let me check. Agent: ok thanks. Customer: Dual 3rd Generation Intel® Xeon® Scalable Processors (also known as "Cooper Lake") or Dual 2nd Gen AMD EPYC™ Processors (also known as "Rome") We recommend high processor base clock frequency (>3 GHz) and 8-16 cores per CPU are recommended for general-purpose simulation workstation <https://www.3ds.com/support/hardware-and-software/simulia-system-information/cst-studio-suite-opera/cst-studio-suite/>. Agent: Ok thanks. Customer: Here is CPU requirements on the web. . Agent: that helps out then I assume you want it high end?. Customer: Yes,. Agent: got it, ill put a configuration together to see if that works for you. Customer: Thanks!. Agent: 1 NVME SSD, 2 HDDs? 1 NVME + SSDs. Customer: 500GB SSD boot drive, plus 8TB x2 HDD. Agent: ok thanks for this workstation, this supports NVIDIA Quadro so it'd be a A4000 or A6000. Customer: OK, it does not matter. . Agent: Ok there wasn't a 500GB SSD, just 480GB available. Customer: 480GB disk space available is no problem. . Agent: Ok great everything else in the configuration look good? wasn't sure if you wanted 128 total ram so 16GB dimms rather than 32. Customer: The attached quote is 256GB ram?. Agent: 8 pcs of 32GB, I can change that to 16Gb each instead. Customer: The attached is much lower than my budget. I am able to get more high specs. . Agent: Oh yeah up to you if you want to upgrade anything else on this. The CPU chosen was the highest processor base clock frequency we have for 8 cores If you wanted M.2 or NVMe

for the boot drive or use SSDs for storage too, we can change that. Customer: sounds good. please go ahead. Agent: ok will do, give me a moment Also, were you able to register an account while I put this together?. Customer: I have registered my account! yma_it@yokowo.com this is my registred email. Agent: ok thank you, I'll verify in a bit So even with the 480GB M.2, it's actually cheaper than the SSD by about \$200. There's no SSD larger than 3.84GB for this but there is a 7.68GB NVMe drive available Changing to the NVIDIA A6000 brings this up to \$15k. Customer: let me see. Agent: let me create the PDF again, sorry My mistake, it's around \$18k could also just add the 2 x 8TB HDDs back as well Simulation memory requirement is highly application and solver technology dependent. For a high-end workstation or server system, we recommend at least 64-128 GB RAM per CPU depending on the complexity of your application and the used solver technology. We recommend the fastest RAM memory module available, currently DDR4 memory. To make use of the total available memory bandwidth in the system, the memory modules should be arranged in such a way that it occupies all the memory channels provided for the system memory per processor. For the recommended Intel and AMD processors above, it should be 8 memory modules per processor. so maybe 16 sticks, since 8 per processor. Customer: should we change MEM16GB x 16?. Agent: yeah that might be best. Customer: OK, let's take it. Agent: Ok ill put together another PDF with the final price. Did you want to switch back the HDD or stick with the NVMe for storage? Simulations may generate a lot of data, so sufficient storage space should be ensured. We recommend at least a 500 GB hard disk drive for a typical simulation workstation. You may use SSDs for storage, but they are not necessary for good simulation performance. so HDD might be ok more storage like 8TB or 10TB might be better. Customer: for storage, I don't need high speed performance Yes, you are right. . Agent: sure, i'll change that back. Customer: instead, can we have Raid controller for storage and Raid 1 will be built. 16TB available space. Agent: Ok sounds good, we can do that. BTW, this will be onboard raid, no hardware controller. If you want to add a hardware controller, I'd have to make a custom pre-configure link. Customer: is a raid controller common case for this type of workstation? I am not familiar with specific high perfomance workstation. . Agent: Our workstation had onboard raid (software raid) so no need for extra hardware unless you want like Raid 6 So it can do raid 0, 1, 5, 10 depending how many drives you add without any extra hardware controller so just 2 x 8TB HDDs correct?. Customer: sounds good. I think no need extra hw controller. . Agent: ok sounds good. Customer: Actually, my user requested 16TB disk available space. . Agent: ohh with raid 1 that cuts it close to half so either 4 x 8TB HDDs or 2 x 16TB HDDs did you want to keep the A6000 or go back down to A4000 for the GPU?. Customer: 4 x 8TB is good so that we can build Raid 5. . Agent: ok got it. Customer: 24 TB available. Agent: yup!. Customer: Regarding GPU, please let me get higher performance one. Agent: for network ports, the dual 1GbE speeds ok, or did you want to upgrade to dual 10GbE ok noted. Customer: please get 10GbE dual 10GbE. Agent: ok will add it then. Customer: are you selling UPS as well?. Agent: It comes with dual 1200W PSUs Also, you should have access now to this server Please log into your account and check the link I provide <https://store.supermicro.com/sys-740a-t.html> you can actually choose the components we just laid out for this. . Customer: awesome!. Agent: Sorry it took awhile 😊. Customer: Should I pick them up again one by one? It looks basic configuration.. . Agent: So from the PDF I provided, you would choose the CPU first, then memory, then go to M.2, then HDD. Customer: Oh I see. Agent: Once you chose all those, for the AOC, choose 1, then GPU, choose the A6000 then for Raid, select quantity 4 and raid 5. Customer: ok, May I ask you to send PDF as final one again>. Agent: Ok sure, can do Hmm, the 16GB option went away for me, give me a moment. . Customer: Sure, take your time!. Agent: Ok thanks Please bear with me for a few more minutes, not sure why it disappeared. Should be resolved soon. . Customer: No problem at all! Take your

time!. Agent: Thanks for your patience. Customer: Great! Thanks! Can I ask how long I should estimate the delivery date?. Agent: You're welcome. Customer: Currently, IN STOCK is displayed on the web. . Agent: If purchased today, I would give 1-2 business days for assembly. Delivery time would depend on shipping method chosen. Customer: amazing! I see. Agent: so if you chose overnight shipping, it would deliver the next business day after the 2 business days of assembly (estimation) free standard shipping included if you go that route but its 3-5 business days on top of the assembly time. Customer: No problem at all! Great! Thank you for your help!. Agent: Oh yeah, would you be ok with credit card payment or ACH bank transfer?. Customer: Maybe I will pay by ACH Bank transfer. Agent: Ok sounds good, it may take a bit longer to process than the credit card payment, but hopefully not too long ACH takes about 7-10 days. Customer: Sure! It should not be problem. . Agent: Ok great. Also the PDF didn't show the RAID setup, so please remember to add that. Customer: I see! at last, may I ask about warranty service?. Agent: Warranty is 3 years for server, 3 years for parts, and 1 year of cross—shipping. Just have more information about the ACH, we won't assemble till the ACH clears unless you're ok with an extra week of waiting. . Customer: Thanks! got it. Agent: Np!. Customer: Not at all! great help! I appreciated your help!. Agent: You're very welcome!. Customer: Thank you! have a good day!. Agent: Thank you! If you need any further assistance, feel free to reach out to us on chat or email. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jacek. Customer: Hi Liz I'm dissipated with the OOB license for updating BIOS how can I get one in EU ?. Agent: You can check with our resellers or distributors in EU <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today?. Customer: let me check if I can order OBB key from them. Agent: Sound good. Customer: no one is selling key for privet use. Agent: You also can check with your sale representative to see if they sell it. Customer: they don't have it checked already. Agent: or contact with our Sale team at Sales-USA@supermicro.com. Customer: ok, how to update the BIOS without the key so ?. Agent: yes, you can update the BIOS without the key. The OOB is used for the remotely update May I know what is your motherboard part number?. Customer: A2SDi-H-TF. Agent: Please go to this link and click to the Update BIOS to download the BIOS file: <https://www.supermicro.com/en/products/motherboard/A2SDi-H-TF>. Customer: have the file already from usb stick should be possible or not ?. Agent: it should be possible. Customer: so, the normal way.. put it on stick and from BIOS do the update right ?. Agent: yes. Customer: thanks Hello. How may I help you? this sales Karen Tsai customer is looking for MCP-320-74702-0N-KIT online store dont have inventory. Agent: Hi Karen. Customer: can we support one pcs i can ask customer place the order online. Agent: It doesn't look to be in stock though, let me see if we can get more in stock. I can request for 1, but it may take several hours possibly till tomorrow morning for it to be available. . Customer: i checked the inventory we do have in stock 149. Agent: yeah not in eStore currently though, will have to request for it if customer doesn't mind waiting. Customer: will let customer know it take 2-3 days transfer to online store will that be okay?. Agent: that should be ok!. Customer: thank you. Agent: you're welcome Can I help you with anything else?. Customer: that is all. Agent: Ok great. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jeffrey. Customer: I'd like access to the server catagory Hi Liz. Agent: May I know where are you located please?. Customer: The Netherlands. Agent: I see. I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. If you still want to check our website server. Please create an eStore account at <https://store.supermicro.com/customer/account/create/> Please let me know your eStore account email. I can enable the configurator for you. Customer: jeffrey@westermanklip.nl Why do you ship only within the US, and how would i be able to acquire SuperMicro hardware?. Agent: you can buy

Supermicro server or hardware from our resellers or distributors at <https://www.supermicro.com/en/wheretobuy> You should be able to see the configurator. Please log out and log back in <https://store.supermicro.com/system.html>. Customer: It is still referring to looking-to-buy-server. Agent: Please log in first and click on this link <https://store.supermicro.com/system.html> Is there anything else I may help you with today?. Customer: No thanks, it seems i can browse through all servers. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Julio! How can I help you? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello. Agent: Hi Koji. Customer: I have a question about Graphic card on SYS-740A-T. . Agent: Sure, how can I help you with it?. Customer: what kinds of graphic card can I choose?. Agent: For this workstation, we have either NVIDIA RTX A4000 or A6000 available. . Customer: Oops.. . Agent: Basically Quadros. Customer: according to the request from my user, GPGPU is NVIFIA A100 40GB..(very old..) Graphic is Quadro K620 I thought GPGPU and Graphic are different. Agent: Ohh let me check. Customer: sorry to cause you trouble.. . Agent: No worries, the A100 is not validated with this workstation unfortunately so cannot guarantee it will work properly 100%. Customer: I know it is very old. . Agent: I think the GPGPU is more computations based compared to the GPU which is more graphics based, so it helps with computing that the CPU would normally do. Customer: OK, understood. Since RTX A6000 has 4 Display ports, I should get the monitor with Displayport interface. correct?. Agent: Correct, monitors that can accept display port interface would be the simplest configuration. Customer: ok, great! Thanks again!. Agent: Let me check if it has other ports nope, just 4 display ports You're welcome Can I help you with anything else?. Customer: Many thanks! I am good. See you then!. Agent: You're welcome! It was nice talking to you. Have a great night, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Julio. Customer: Hello I am planning on using only Nvme for local storage. Do I need a raid card?. Agent: May I know what system do you plan to use NVMe?. Customer: Don't have any yet. Could you please recommend me the cheapest possible that supports Nvme?. Agent: Sure, let me check for you. . Customer: thanks. Agent: Please bear with me for a few more minutes while I check for you. You can check our SYS-120C-TN10R system or SYS-510P-WTR SYS-510P-WTR - <https://www.supermicro.com/en/products/system/WIO/1U/SYS-510P-WTR> <https://www.supermicro.com/en/products/system/Cloud/1U/SYS-120C-TN10R> May I know how many drives do you want for the system?. Customer: let me check what is the throughput for raid with nvme? I see for sata is 6Gps. Agent: For NVME RAID we use Intel VROC controller ohhh let me check for that This is the RAID information for NVMe card <https://www.supermicro.com/en/products/accessories/addon/AOC-VROCxxxMOD.php>. Customer: checking. Agent: The throughput will based on the speed of the NVMe drives. it depends on what drive you choose This system can support PCIe 4.0 so they will perform at GEN4 speeds. Customer: I want to know how it compares against sata 6Gbps and SAS 12Gbps in the worst case scenario can I just disable VROC on the BIOS and how many PCIe lanes it will use?. Agent: you can read more the comparison of them at this link https://business.kioxia.com/content/dam/kioxia/ncaa/en-us/microsites/las/doc/KIOXIA_Comparing_SSD_Interfaces_in_Servers_Best_Practices.pdf. Customer: oh wow thanks. Agent: You're welcome. Is there anything else I may help you with today? Also do you have an account with us?. Customer: do you have presence in the south America country? don't have an account yet. Agent: We only sell and ship within the US at the moment. At south America country, we

have resellers or distributors. <https://www.supermicro.com/en/wheretobuy>. Customer: excellent, last question. Do you have fanless silent boxes like this one? <https://antsle.com/>. Agent: We have the IOT system which is fanless. Customer: please send you link. Agent: <https://www.supermicro.com/en/products/embedded/compact-and-industrial>. Customer: thank you!. bye now. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hello, can I help you with anything? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com. Customer: are you there? I need a rail kit for a Supermicro 514-5. Agent: Yes, still here. Customer: its for a 4 post APC cabinet. Agent: Is the chassis model number SC514-505? 1U?. Customer: yes. Agent: Ok thanks, let me check. Customer: ok. Agent: Did it come with rails initially?. Customer: I believe so, these were bought years ago. Agent: I see MCP-290-00108-0N is the inner rail and MCP-290-00102-0N is the outer rail, but we don't sell them separately. Let me further check. Customer: You don't see the rail kit without the server? I need tie inner and outer rail kit. Agent: Yeah there's no kit listed, just the individual part# for each rail portion. Give me a moment while I check. Customer: ok this kit has both- <https://store.supermicro.com/1u-rail-kit-mcp-290-00063-0n.html>. Agent: Ahh there it is, I was looking for that one. Yeah it has both and an extra rear inner rail <https://www.supermicro.com/en/products/chassis/1U/514/SC514-505> is your server correct?. Customer: but this kit should as well- <https://store.supermicro.com/1u-rail-kit-mcp-290-00055-0n.html>. Agent: MCP-290-00118-0N is the inner rail, not the same. Customer: darn, I just saw the # difference. Agent: MCP-290-00016-0N 1U open rack bracket set for CSE-PT51L, MCP-290-00054-0N also works, but we don't carry MCP-290-00016-0N on the eStore I'd stick with the MCP-290-00063-0N in this case. Customer: ok, I will do that. Thank you. I am all set. Agent: You're welcome It was nice talking to you. Have a great day, goodbye!. Customer: Have a good day :) Hello. How may I help you? Hi Jim. I am looking this item# PWS-702A-1R if available. Agent: Hi Ed! How many units are you looking to purchase?. Customer: 1 for now. . Agent: OK, please give me one moment to check our inventory. We should have 1 for you to purchase, but we'll need to update our inventory before you do, which should take about an hour or 2. Can I email you back at eherradura@quantum3d.com once the inventory has been updated?. Customer: Yes please. I need to order this item immediately if available. . Agent: Of course. We should have it ready for you shortly and I'll reach out to you once it's available. Is there anything else I may help you with today?. Customer: that's all for now thank you. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jason!. Customer: Order number 1000023313 The password to the management interface. Agent: Are you looking for the password to your IPMI ?. Customer: Yes. Agent: Please give me a moment while I check for you. . Customer: Okay...thanks Got ya....looking now Where is the password. I see the sticker...but what number is the password? The serial number?. Agent: You can locate the password on the motherboard as well. Customer: Is the username admin?. Agent: Yes, the username is ADMIN Here is the link for your reference : https://www.supermicro.com/en/support/BMC_Unique_Password Can you check the motherboard ?. Customer: It will be hard because it's already installed into the rack. Agent: I see. Customer: I got it. . Agent: There is one more BMC barcarole label which is located on the chassis service tag. Customer: Tony sticker in front Tiny. Agent: Glad you found it ! Can I help you with anything else?. Customer: Hello. How may I help you? Hello, thank you for the response. i want purchase 2 32GB memory stick for a X10drd-int server. Could you tell me how does one cost? how much does one cost?. Agent: Are you expanding the memories for X10DRD-iNT?. Customer: Yes, the server has 8 slots but i am

only using 6 slot, and now i am running out of memory. running. Agent: I see. We do recommend to use identical memories in one server. In that case, you can either change all the memories at once or you can purchase the same one you have been using on your motherboard You can find the validated memories through the product page <https://www.supermicro.com/en/products/motherboard/X10DRD-iNT> One the right hand side of the page, please click " Tested Memory List ". Customer: thank you. . Agent: You're welcome. Can I help you with anything else?. Customer: yes, i opened the link and chose one, but there is no price listed. Agent: Which one did you choose?. Customer: I clicked on all of them, its says we cant find product matching the selection or nothing shows. Agent: This one is validated with your motherboard https://store.supermicro.com/32gb-ddr4-2666-mem-dr432l-cl03-er26.html?queryID=f4b9b683f820576e856162d2dc02d938&objectID=1232&indexName=supermicro_default_products But it is out of stock at the moment. Customer: If possible can i get the price for each one of them. Agent: What speed are you looking for ? This one is validated as well and it is in stock https://store.supermicro.com/32gb-ddr4-2400-mem-dr432l-sl02-er24.html?queryID=fb80466c71ddb4a896a0f023429f6156&objectID=803&indexName=supermicro_default_products \$236.00 / pc before tax and shipping. Customer: ok thank you. Agent: You're welcome. Are you looking to purchase the memories ? If so, how many are you looking to purchase?. Customer: yes, and i want 2 32GB. Agent: MEM-DR432LC-ER24 is in stock <https://store.supermicro.com/32gb-ddr4-2400-mem-dr432l-sl02-er24.html> Once again, we do recommend not to mix-match memories. Please use identical memories on one motherboard to avoid unforeseen issues. Can I help you with anything else?. Customer: than you so much you have been very helpful. . Agent: You're welcome. . Customer: have a great day. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? i am trying to order QTY. 15 of the Supermicro 1U Rail Kit (MCP-290-00063-0N). it says there are 8 in stock but you may have enough inventory. . Agent: Hi Michele I can try to get 7 more, but no guarantees since it's low in stock. I can email you once I get an update or if all 15 are available, should take several hours. Customer: ok. thank you. should i order the QTY. 8 right now to get the ones that are for sure in inventory shipped?. Agent: Yeah I would just in case, especially if another customer buys 1 or 2. Customer: ok. i will order 8 now. while you check on the other 7. thank you. . Agent: Sounds good! Can I help you with anything else?. Customer: that's all. thank you. . Agent: you're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: bye Hello. How may I help you?. Agent: Hi Roy!. Customer: Trying to place an online order, but we are tax exempt and I need help with removing sales tax. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide>. Customer: I believe i already have a certificate on file. Can you check?. Agent: Sure. One moment It doesn't look like we've received a certificate from your email address before. Customer: OK, I will send. . Agent: Thanks Roy! Is there anything else I may help you with today?. Customer: That is all thank you. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Andrei. Customer: Hello I am looking to see if you sell MCP-290-00106-0N part. I see it is sold in a kit mcp-290-00054-0 It says this rail kit includes*: Front Inner Rail: 2 x MCP-290-00106-0N But I just need a lot of MCP-290-00106-0N not the whole kit. Agent: I see. unfortunately, we are not carry the MCP-290-00106-0N only on our eStore. You can contact

our resellers or distributors to see if they carry it <https://www.supermicro.com/en/wheretobuy> Or contact our RMA department to see if they can support RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3. Customer: We did and they said that Supermicro doesn't seem to have this part in their system. . Agent: I see. You can contact our RMA department to see if they can support. . Customer: Ok, thank you. I will try. Agent: Otherwise, sale team also can help Sales-USA@supermicro.com. Customer: How do I contact the sale team? Oh. Thank you!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: No, this is all i needed. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Bye Hello. How may I help you? Hi Is it possible to get a CAD file of the following: MCP-260-00011-0N?. Agent: Hi Tyler I'm sorry, but unfortunately, we do not provide CAD files from the eStore. Please check with our technical support team at support@supermicro.com. Customer: OK thanks. Agent: you're welcome Can I help you with anything else?. Customer: nope. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Hovig. Customer: Hello Liz can you check if you have this product in stock. PDB-PT826-8824. Agent: Sure, let me check for you. It's currently out of stock now, I can request more for this PDB-PT826-8824. May I know how many do you want? Also where do you plan to ship this product to?. Customer: I only need one for my server and it will be shipped in Canada. . Agent: I see. I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Ok thanks Liz. Agent: You're welcome. Is there anything else I may help you with today?. Customer: Well i have a system but i dont know whats the chassis number. Its a 60bay hdd server with 36 front hdd and 24 back hdd. I needed to know if this product i sent will fit in there and also what type power supply i need. Thanks. Agent: Can you please provide the part number of the server or serial number if possible? Please follow this guide to find the serial number <https://www.supermicro.com/en/support/rma/sn>. Customer: Thats the problem i have no serial numbers i bought just the chassis with only the backplanes inside. . Agent: So no lable on the chassis too? It should look similar like this. Customer: No i have no labels. . Agent: I'm sorry, I cannot recommended the part compatibility without the exact part number/ SN of your server, unfortunately. You might need to contact your supplier to see if they have any information of this server I'm sorry for this inconvenience. Customer: Ok thanks again. Agent: You're welcome. Can I help you with anything else?. Customer: Thats it thank you. Agent: Np. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Rhett !. Customer: Hello I need advice on a home server quiet, tower, preferred 8 core, 64 or 128GB RAM with RAID support. Agent: I see Do you have an eStore account set up ?. Customer: not yet. Agent: I can get you the server access if you create an account, in that case you can check our configurator for Whisper Quiet Workstation on eStore. <https://store.supermicro.com/customer/account/create/>. Customer: okay, thanks. Agent: SuperWorkstation 7039A-i is a Whisper Quiet Workstation <https://www.supermicro.com/products/system/tower/7039/SYS-7039A-i.cfm> Please create an account so you can configure your own server. Customer: okay... sorry, I have a work call but I will create that account and get back to you. Agent: Sure, please come back so we can assist you Can I help you with anything else?. Customer: no, thanks. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? I would like to send by email our inquiries for SuperMicro Products. Agent: Hi Maria. Customer: what is best emailtouse. Agent: Our email is estore-support@supermicro.com Can I help you with anything else?. Customer: great can you also share list of authorized distributors for SuperMicro products?. Agent: <https://www.supermicro.com/en/wheretobuy>.

Customer: great- thanks !. Agent: You're welcome Hi Matt !. Customer: Hello. Agent: I see your question regarding the power supply option Unfortunately we will not be able to recommend a proper one since we only validate Supermicro systems with Supermicro power supplies. For you to calculate the proper wattage for your system, I'd recommend to use power supply calculator online (just simply google "power supply calculator") to give you a good idea what wattage you need for your system. What is your Supermicro full tower complete part number please ?. Customer: Hello. How may I help you? Hi I work for BT and we have a 10G switch SSE-X3348S that's reporting fan issues we think this is the reason more than half of the ports are disabled could you suggest a replacement product for the fans?. Agent: Please give me a moment while I check for you. . Customer: thanks. Agent: I don't see the fans are listed under SSE-X3348S which means the fans are not sold separately. Customer: oh ok.. so we can't replace the fan block? the switch is out of warranty now so are we saying it's dead?. Agent: How many years have you had this switch ?. Customer: just a second, checking the year it was bought it was bought in 2013. Agent: Yeah, it is pretty old. Do you know why more than half of the ports are disabled ? Because the fans are not powerful enough ?. Customer: we don't know. Agent: I see. Let me check internally and see if we have any way to help you. Customer: I could not see any information actually showing they are down the only warning i can see is about high temperature 4 out of 5 temperatures reported is 40~ degrees while 1 is 60 degrees and there is a warning on 1 or more fan failures. Agent: I see. Thanks for the info. Can I email you after checking internally via bayartdamien@gmail.com?. Customer: yes please could you use damien.bayart@bt.com instead?. Agent: Sure, will do Can I help you with anything else?. Customer: no that's it for now thank you very much. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: thanks you too oh just one more thought. Agent: Yeah. Customer: upon rebooting the switch, the ports come back up again very briefly hence our thoughts something must be turning them off, possibly the temperature/fan warning but again i've not seen any evidence of the fact they are shut down or off in the ui but we have no ip and there's no light on all the faulty ports from the left side only 12 ports are working all on the right side of the switch. Agent: Got it, I will check internally for this as well Can I help you with anything else?. Customer: thank you not that's all this time. Agent: You're welcome. . Customer: have a nice week end. Agent: It was nice talking to you. Have a great day, goodbye! Thanks ! you too !. Customer: Hello. How may I help you? Hi there I have a board that I would like to update BIOS through IPMI. Agent: Hi Grady! Is it for A1SRI-2558F?. Customer: Yes. Agent: Unfortunately, OOB is not supported for this motherboard so you'll have to update the BIOS locally for this. Sorry for the inconvenience. Customer: For some reason my board doesn't make it to BIOS It is stuck at Initializing B0. Agent: Oh that's odd. I would recommend checking with our dedicated technical support team to troubleshoot your issue. you can reach them at support@supermicro.com. Customer: Ok so you want me to email that email address for support?. Agent: (408) 503-8000 yeah you can email or call them. Customer: Ok thanks Kyle. Agent: they're here 9-6PM PST you're welcome Can I help you with anything else?. Customer: No thank you, have a great day!. Agent: Thank you! It was nice talking to you. Have a great day, goodbye!. Customer: Good bye Kyle Hello. How may I help you?. Agent: Hi Russell. Customer: Hi there, I'm looking for a replacement power management board CSE-PTJBOD-CB3 for this chassis, but I'm not finding it available from your estore or through any vendors. Do you know how I could find a replacement?. Agent: I'm sorry, but unfortunately, we do not carry CSE-PTJBOD-CB3 on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Otherwise, you can also check with our RMA department. Customer: Thanks, I have done that, and can't find any that carry this part. Agent: RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3.

Customer: Okay, thanks - I'll reach out to them. Agent: You're welcome. Can I help you with anything else?. Customer: Nope, but I appreciate your help. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Charles!. Customer: hello I need return a purchase ORDER #1000023695. Agent: To submit an RMA (return) request, please utilize our new support portal at <https://webpr3.supermicro.com/SupportPortal/>. If you have not submitted a request before, please register prior to doing so. . Customer: ok sounds great thanks so much. Agent: No problem Charles! Is there anything else I may help you with today?. Customer: not today take care. Agent: It was nice talking to you. Have a great day, goodbye! Hi Javier!. Customer: hey Hello. How may I help you? your website estore will not allow me to enter a separate billing and shipping address. Agent: Hi George ! Please give me a moment while I check for you. After you enter the shipping address, did you uncheck this one?. Customer: There is no box to uncheck. Agent: Can you show me your screenshot ?. Customer: I figured it out...Had to add another address. Agent: Ah I see. I was still trying to duplicate your case Good to know you got it Can I help you with anything else?. Customer: No..all set. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Lance. Customer: Hi Liz, I installed VMware ESXi 7.0.2 on the server I purchased After I installed I only put on two VMs and ran for a month or so to make sure the server was running ok before I started more VMs over to it Last Friday I moved two more VMs to that server and the server crashed. meaning we received a purple screen with PF Exception 14. Agent: I'm sorry to here that. For the software issue, please contact our technical support team at Support@Supermicro.com Tel: +1 408-503-8000. Customer: Thank you. Agent: You're welcome. Is there anything else I may help you with today?. Customer: That is everything Thank You. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Matthew!. Customer: I just made an order #1000023847 I accidentally bought 1 unit when I needed 2. Is there any way to edit the order. . Agent: I see. Customer: I don't want to double pay for shipping that's all. Agent: Unfortunately we can not edit the order. The fastest way to do this is canceling the order and reorder again Please log in to your account <https://store.supermicro.com/customer/account/login/referer/aHR0cHM6Ly9zdG9yZS5zdXBldm1pY3JvLnNvbS9jdXN0b21lci9hY2NvdW50L2xvZ291dFN1Y2Nlc3MvP3V0bT1oZWFKZXI%2C/> My account --> My orders. You should be able to cancel it from there. Customer: Ok great. How long will the refund take?. Agent: I don't think the card is charged yet since the order has not been shipped out I see your order has been canceled Can I help you with anything else?. Customer: No!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Liz !. Agent: Hi Derek. Customer: I'm trying to find out what your stock QTY is on MCP-290-00060-0N, and the lead time on it?. Agent: Please give me a moment while I check for you. We currently have 2 in stock <https://store.supermicro.com/rail-kit-adapter-set-mcp-290-00060-0n.html> May I know how many of this do you want?. Customer: ok. Agent: We can request more stock for this. Customer: I'd have to get back to you on that, but more than two for sure. what would the lead time for for approx. 7 more. Agent: I can request for transfer more stock from our warehouse, it would take approximately several hours to complete Do you want me to request 7 pcs for you?. Customer: I'm just getting a timeframe on everything I need. I don't need this at this moment, but sometime in the near future. . Agent: Sure. Please let us know when you plan to purchase. We can request more stock for you. Customer: Alright Liz, Thank You. . Agent: You're welcome. Can I help you with anything else?. Customer: not at the moment, thanks!. Agent: No problem. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Wyatt. Customer: Hi Jim. I think the cable that goes from my front panel to my motherboard is

no longer working, and I am unable to find the replacement on your store. CLB-0048 - it's a 16-pin (front panel) to 20-pin (motherboard) cable. . Agent: Ahh. Yea, we don't carry that cable unfortunately. You should check with our RMA team to see if they have this cable: RMA department email address: rma@supermicro.com RMA department part phone #: 1-408-503-8000 option 3 If they don't, I would recommend checking with our resellers as well. <https://www.supermicro.com/en/wheretobuy>. Customer: Thank you very much. I will reach out to them. Have a great day!. Agent: Sounds good. Thanks Wyatt, you too!. Customer: Hello. How may I help you?. Agent: Hi Brenda!. Customer: Hi I would like to order 25 MCP-220-00043-0N. Website says you have 10 in stock but you may have enough inventory to complete order. Can you check?. Agent: May I know if you are located in the United States ? States*. Customer: yes. Westford Mass 01886. Agent: Please give me a moment while I check for you. . Customer: ok ty. Agent: I will need to make an inventory transfer and email you when the stock is ready Is Brenda.McGrath@Nokia.com the best email to reach you ?. Customer: ok thank you. I assume I canb pay by cc??? yes that is the best email. . Agent: Yes, if the credit card is issued within the US. Customer: yes it is. Agent: and tied to an US billing address Sounds good. Customer: yes. Agent: I will email you when the stock is ready Can I help you with anything else?. Customer: no I'm all set. ty. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Same to you. :). Agent: Thanks!. Customer: Hello. How may I help you? (MCP-210-82601-0B) -When will this item be in stock?. Agent: Hi Laura Let me check How many were you looking for? We may be able to allocate inventory for it. Customer: 20 each?. Agent: I can request for 20 pcs if that's what you need. Customer: What is the typical lead time?. Agent: It may take 2-4 hours for them to be available I can email you back once I get an update or they are available. Customer: That is okay. I am working on a costing diagram right now, so until approved I can't order. I would just need to know a general lead time. . Agent: Ah understood. Typically, if you request for an out of stock item, we can usually make it available within 24 hours usually 2-4 hours. Unless its completely out of stock. Customer: That is great news. I'll make a note of it. Thank you for your assistance. . Agent: You're welcome! Can I help you with anything else?. Customer: I think that is all for now. Thank you. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Laura. Customer: How can I get a formal quote for 20 (MCP-210-82601-0B) Belzel for 2 U Chassis?. Agent: You can submit a quote request for that SKU using this URL: <https://store.supermicro.com/quote#MCP-210-82601-0B> Someone will reach out to you shortly after you submit the request. Customer: Perfect. Thanks. . Agent: No problem! Is there anything else I may help you with today?. Customer: No thank you. Have a great day. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? hi Kyle, do you have Qty 6 of MCP-290-00058-0N in stock?. Agent: Hello! Let me check for you. Customer: we typically buy through distribution (Ingram, D&H , etc)... can we buy direct?. Agent: You should be able to. It looks like we currently have 2 pcs, but I can request for 4 more pcs. This transfer request may take 2-4 hours so either late today or tomorrow morning, it will finish. I can email you once they are available. Just let me know if you'd like to proceed and I'll get that started for you Are you still there? Let me know if you'd to proceed, thank you! We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Team Buyers!. Customer: hi I spoke to an agent earlier but our chat closed due to inactivity on my part as I had to take a work call we need Qty 6 of MCP-290-00058-0N I was told you have 2 units and would have to transfer more does that mean you certainly have 6 units? We typically buy from distribution but was told by

them that they're still waiting on stock from orders as far back as November. Agent: Yes, we can request 4 more for you, but it will take some hours to finished the process to available for you to purchase. Do you want me to make the transfer?. Customer: yes please. Agent: Sure. Can I email you via buyers@t2computing.com?. Customer: for clarification, would it be a transfer from another warehouse in the US? that email works. Agent: It will transfer from our warehouse and it is within the city too Thank you for confirming the email. I will make the request and email you as soon as the process is completed. . Customer: appreciate it, should I wait for the transfer before placing the order online?. Agent: Currently, we only have 2 for you to place the order online. It's up to you if you want to wait for 4 more and place them in the same order. . Customer: I will wait then. Agent: Sound good! Is there anything else I may help you with today?. Customer: would I then have a link to purchase all 6 from the email to follow?. Agent: I will send the email to let you know when the product is ready including the link also. Customer: got it, I'm all set then have a good one. Agent: Thank you. It was nice talking to you. Have a great day, goodbye! Hi Charles!. Customer: Hey Joe I am trying to register on your website so I can start an RMA. I signed up, but when I submit for a password recovery I never get anything. On top of that if I register new, it says the email is already in use. . Agent: Have you checked your spam folder?. Customer: yes is there an way to get my account activation resent?. Agent: I can check internally to hep with resetting the password. . Customer: ok great. Agent: I will email you when it is ready to go. Is digitaltrance@gmail.com the best email to reach you ?. Customer: yes it is. Agent: Are you returning the heatsinks you purchased with order #1000023695 ?. Customer: Yes, I need to return it the server I bought came with 2 heatsinks already. Agent: I see. So you don't need any replacement then. Customer: that is correct its still here unboxed. Agent: I see So to proceed RMA, you actually don't need to go through eStore account. To submit an RMA (return) request, please utilize our new support portal at <https://webpr3.supermicro.com/SupportPortal/>. If you have not submitted a request before, please register prior to doing so. . Customer: If this is your first time using this page, please create an account using the [Register]. If this is your first time using this page please select this link [Forgot password] to set your password. its asking me to sign in. Agent: Our RMA portal and our eStore are separate systems, if you never did a RMA through our RMA portal before, you will need to create an account. Customer: so I return through eStore, i dont need an RMA ?. Agent: Did you register an account through this link ?<https://webpr3.supermicro.com/SupportPortal/Account/Register>. Customer: yes, and that is where I am stuck. It's saying I have an account, but then when I do a password recovery/forgot password I dont get any emails its in limbo state I never got a confirmation email either when i signed up. Agent: Please give me a moment while I check for you. Can you show me a screenshot when you try to login and what message the system pops up ?. Customer: it just loops, no error message. Agent: Hmm. Can you try with a different browser?. Customer: yeah sure same, just tried on Edge my default is Firefox. Agent: Can you use a " New Private Window " with Firefox ?. Customer: yeah sure same is there a way to delete my register account and i can recreate it? is it even showing?. Agent: That I will need to check internally and get back to you on this,. Customer: ok cool. Agent: So far when I enter any wrong info, the screen pops " wrong email or password!" message. Not sure why yours not moving at all Let me check internally and email you as soon as I can. Customer: yeah, i dont get anything ok great, thanks a lot Joe. Agent: You're welcome. Can I help you with anything else?. Customer: thats all for now. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: take care. Agent: You too ! Thanks!. Customer: Hello. How may I help you?. Agent: Hi Lyndell. Customer: Hello. I'm hoping for a quick sanity check that the rails: CSE-PT52L are compatible with SYS-5019P-M. Agent: Please give me a moment while I check for you. . Customer: Sure. Thank you. Agent: Yes, the CSE-PT52L works with the chassis of

SYS-5019P-M. You also can check it at the optional part list of the SYS-5019P-M chassis CSE-813MFTQC-350CB2. <https://www.supermicro.com/en/products/chassis/1U/813/SC813MFTQC-350CB2>. Customer: Perfect, thank you so much. Agent: You're welcome. Is there anything else I may help you with today?. Customer: Nope, that was it. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Thanks you too Hello. How may I help you?. Agent: Hi Kris!. Customer: Hey Joe! sorry, dumb question here. Just created my estore account and it will not let me enter a Canadian address. What have I messed up :). Agent: I see. I am sorry but we currently only can sell and ship within the United States. Customer: really? I see. Okay then, thanks for your help. . Agent: You're welcome. Here is reseller's info just in case you need it :<https://www.supermicro.com/en/wheretobuy> Can I help you with anything else?. Customer: no that it everything. thanks!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Is the above part available?. Agent: Hi Deborah We don't carry this on the eStore unfortunately. Please check with our Sales team at Sales-USA@supermicro.co Sales-USA@supermicro.com If not, with our resellers: <https://www.supermicro.com/en/wheretobuy>. Customer: Is the part widely available?. Agent: Not too many available so I'd recommend checking with Sales first. . Customer: Hold on, I have another part. . Agent: Ok. Customer: How about this one: AOM-TPM-9671V. Agent: We don't carry any TPM on the eStore so you'll also have to check with them or our resellers. Customer: Ok thanks Hello. How may I help you?. Agent: Hi Leo. Customer: How are you!. Agent: I'm good. How are you? Thank you for asking. Customer: I sent a request and got a reply for a qoute of 100 pcs of MCP-260-00084-0N. Shall I wait for another email when this quantity will be available?. Agent: Please give me a moment while I check for you. . Customer: ok. Agent: Yes, we will email you again as soon as the inventory for the MCP-260-00084-0N is ready. Customer: OK. TY. . Agent: You're welcome. Is there anything else I may help you with today?. Customer: No, thank you. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jeff!. Customer: Hi Joe name of product: Supermicro MiniSAS HD to 4 Right Angle SATA (75/75/90/90cm) with Sideband 75cm Descriptio75/75/90/90cm with Sideband 20cmn: *description - what is the actual length of the sideband cable?. Agent: Are we talking about CBL-SAST-0810?. Customer: Correct. Agent: Please give me a moment while I check for you. I am sorry for the mixed information. For CBL-SAST-0810, the Sideband is 75cm We will fix the info on our site ASAP. Customer: Thank you!. Agent: You're welcome. Can I help you with anything else?. Customer: All set for now, thanks!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: you too! Hello. How may I help you?. Agent: Hello, how can I help you?. Customer: Hi. I recently purchased one of your motherboards from amazon. It did not include the back plate to close off the system. They said they can't help me. It was also listed as "new" but I really doubt it. It came in a static bag, in a box with nothing else but the motherboard. I was wondering if you guys sell the part?. Agent: Hi Dan That's unfortunate. So it didn't come in with any I/O shield, SATA cables, or quick reference guide either? Unfortunately, we don't carry this part. I would recommend checking with our RMA department at rma@supermicro.com. Customer: It didn't come with any of that and it was labeled as new. I personally wouldn't buy a second hand motherboard. Thank you for your time. I will contact you RMA department. I appreciate it. Agent: Yeah understandable and you're welcome. I would definitely double check with the seller as well to see if it's brand new, refurbished, or used, maybe even get a replacement from them. Hopefully the seller or RMA can be of help! Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was

nice talking to you. Have a great day, goodbye!. Customer: Dan Erickson left the following comment: Kyle was very responsive and straight forward. Your company no longer carries the part I need but Kyle gave me some direction to hopefully find it Hello. How may I help you?. Agent: hi Vick. Customer: Hello, I created my new account and it is confirmed, but when I'm trying to see any available servers I cannot go past <https://store.supermicro.com/looking-to-buy-a-server> web page. It redirects me there over and over again. Agent: I see. May I know your new account is this vick@slovo.org email?. Customer: yes. Agent: Thank you. Please give me a moment while I check for you. May I email you back via vick@slovo.org when this account is enabled? oh. your account already enabled, can you please sign out and sign back in. Customer: ok i will try. Agent: Please sign in before click on this link <https://store.supermicro.com/system.html>. Customer: no dice it takes me to Server Contact Us page. Agent: Do you log in at this link? <https://store.supermicro.com/customer/account/login/>. Customer: yes it now says that my password is incorrect. Agent: Can you please try gain or try to recover the password by forgot password if possible? <https://store.supermicro.com/customer/account/forgotpassword/> again!. Customer: resetting it. Agent: Thank you. Customer: ok. thanks. it works now Hello. How may I help you?. Agent: Hi Vick. Customer: Hi, do your 1U servers ship with rails, or I need to buy therm separately?. Agent: Rails will be included with the barebone. You don't have to buy it separately. Customer: ok. thanks Hello. How may I help you? Can you check availability for: Supermicro 16GB 288-Pin DDR4 3200 (HMA82GR7CJR8N-XN) Server Memory?. Agent: Hi Jonathan Sure, let me check. Customer: Thanks The eStore has it listed under MEM-DR416L-HL01-ER32. . Agent: Looks to be out of stock (actually end of life), might have a better chance of getting MEM-DR416L-HL02-ER32 if that works for you. It's currently out of stock though so I would need to request for more inventory for that one as well How many were you looking for as well?. Customer: What is the specific memory type that you can order? Samsung, Micron code... . Agent: We carry Hynix, Samsung, and Micron. The Micron is currently available. Customer: Is it this one: Supermicro 16GB 288-Pin DDR4 3200 (MTA18ASF2G72PDZ-3G2E1). Agent: <https://store.supermicro.com/16gb-ddr4-3200-mem-dr416l-cl06-er32.html> MTA18ASF2G72PDZ-3G2R1. Customer: One moment let me check motherboard compatibility. Agent: Ok sure. Is it a Supermicro motherboard?. Customer: Yes. Supermicro X12SPA-TF. Agent: Ok thanks. Customer: Your website confirms compatibility. I would like to order eight sticks. . Agent: Ok let me check. Customer: Thanks. Agent: Thanks for waiting. It looks like MEM-DR416L-CL06-ER32 hasn't been validated with this motherboard, but the previous version was. We currently only have 7 pcs so I'll have to make a request for another one. In the meantime, I will have to check with our PM/support if the newer version is supported just to make sure. I'll email you back once I get an update and all 8 would be available probably tomorrow. . Customer: Thank you for catching my mistake. Yes, please check support to confirm it works. Do you have my e-mail?. Agent: It shows validated from your end, but we have more details we can check to make sure. Even different revisions or newer versions may not work Yeah jonathan.bourne@hotmail.com?. Customer: Yes correct e-mail. I made a mistake and didn't compare the entire Micron code. Yes please that it works with the X12SPA-TF. . Agent: Ok will do, don't want you buying that should work on paper but may not work 100% I'll touch base with you tomorrow morning since I'll get an answer by then. Customer: Of course. Thanks. I'll wait for your e-mail. Have a good night. . Agent: Thanks you have a good night as well! Can I help you with anything else btw?. Customer: That's all for now. . Agent: Ok sounds good, take care again. Good night!. Customer: JONATHAN BOURNE left the following comment: Perfect help! Hello. How may I help you?. Agent: Hi Teckla!. Customer: I need to order 2 qty of those rails I listed but they're only allowing me to select 1 qty can you help me so I can order the qty needed? CSE-PT52L. Agent: Please give me a moment while I check for you. Let me

send a request to get more inventory and email you when they are ready for you Is purchasing@psolit.com the best email to contact you ?. Customer: yes. Agent: Thanks! Can I help you with anything else?. Customer: No I just need 2 of those rail kits. Agent: I will email you as soon as they are ready. Customer: Teckla Holmes left the following comment: Helpful person, thank you! Hello. How may I help you? Hi we have a customer with an urgent need for 1 pc for replacement do we have stock to support just 1pc?. Agent: Hi Vivian Let me check. Customer: I don't see stock. this must be under allocation only also, if we can support, can a customer in the US place the order and ship to their customer in Australia?. Agent: It doesn't look like it from our end either. I would have to check with management on this one. We only ship within the US from the eStore. Customer: yes, please check and let me know thanks. Agent: they would have to ship to a US location and then ship to Australia afterwards. Customer: we can ship to our customer and they will turn around shipping to their customer in Australia. Agent: Yeah I can email you back once I get an update for the PSU. Customer: thanks. . Agent: Np! Is there anything else I may help you with today?. Customer: Hello. How may I help you?. Agent: Hi Nico. Customer: Hey Liz. Bought a second hand X9SCM, but it is missing CPU heatsink It has the backplate in place, so what options do I have for CPU cooling?. Agent: Please give me a moment while I check for you. Can I email you back via nico@kavaleff.com? I will need to check internally for the heatsink part number of MBD-X9SCM-F. Customer: Yes you can Thanks And do you ship to Europe?. Agent: You're welcome. I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. . Customer: Understand. Agent: You can contact with our resellers or distributors in Europe. Customer: Great. Agent: <https://www.supermicro.com/en/wheretobuy> I will email you for the part number of the heat sink as soon as I can. Is there anything else I may help you with today?. Customer: Is it only the heatsink that is compatible? Not the active cooler SNK-P0046A4?. Agent: I could check if there is a active cooler heat sink compatible also. May I know which chassis do you use with this motherboard?. Customer: Probably a Fractal Node804. Should fit it. Agent: I'm sorry, I couldn't check the compatible part number with the product which is not Supermicro chassis. . Customer: Just if it compatible with the MoBo With the backplate fitting. Agent: I will check for that and email you back. Customer: thank you!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: not right now, thanks. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: .. Hello. How may I help you?. Agent: Hi Santiago!. Customer: Hello, we are a hosting company based in South America, and are interested in having Supermicro as a provider. . Agent: I see. Customer: We are specifically looking for a 36 bay server right now, but we would like to know what channels are available to see the full catalog. We can see servers parts and accesories in the eStore but nothing as servers are concerned. . Agent: I am sorry since our eStore only can sell and ship within the United States. You will need to contact resellers for the availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Ok, we have a mailbox in the US that we can use to deliver our infrastructure, but I'm going to check your link. . Agent: What link do you mean ?. Customer: <https://www.supermicro.com/en/wheretobuy>. Agent: I ee I see. Customer: I checked just a couple of those providers but they don. Agent: Are you able to purchase using US bank credit card payment or US bank ACH payment method ?. Customer: don't list Supermicro servers in their catalogs. I could talk with accounting for that. . Agent: You can also check with the resellers in the US that ship outside of United States. Customer: We usually use Paypal in example. . Agent: I am sorry, we only have either credit card payment or ACH payment option. Customer: Ok, I'm going to check that. Ok. I'm checking with accounting. In the meantime, how can we see catalog available? It's only through resellers or can be directly with Supermicro?. Agent: One moment We just enabled your email address, please log

out and log back in to see Systems <https://store.supermicro.com/system.html>. Customer: Thank you!. Agent: You're welcome. . Customer: I'm going to relog. Agent: Okay. Customer: Hello. How may I help you? Hello, I was wondering the availability on a AS -1014S-WTRT. Agent: Hi Christopher We don't carry any AMD EPYC servers on the eStore unfortunately. Would any Intel offerings work for you though?. Customer: I'm specifically looking for AMD. Unless you have a server that can match 16/32 core CPU. Agent: We do have a few Intel servers that can have 26 or 28 cores. Do you have an eStore account with us already?. Customer: No. Agent: I can provide you access to these servers when you sign up <https://store.supermicro.com/customer/account/create/>. Customer: Hello. How may I help you?. Agent: Hi Santiago. Customer: Hello Liz I talked with Joe some minutes ago. We are trying to buy Supermicro servers but we are in south america and here is no resellers in our country, Joe told me Supermicro does not ship outside the US, but we have a postal box in Florida we usually use for that. Then he told me we would need "US bank credit card payment or US bank ACH payment method" for the payments are Visa or MasterCard international credits cards allowed for that?. Agent: I'm sorry, but unfortunately, we currently accept US based credit card or ACH bank transfer only at the moment. . Customer: Ok, thank you for the information. . Agent: You can contact our resellers in the South America to see if they can ship to your country by select South America at search region. <https://www.supermicro.com/en/wheretobuy> Otherwise, you also can check with our Sale team at Sales-USA@supermicro.com. Customer: Thank you for the help! Good day. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Connie !. Customer: Hi, we have account with SUP, can you help to remove the tax for our online account too?. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide>. Customer: ok, got it, thanks. Agent: You're welcome. Can I help you with anything else?. Customer: yes, how do I send the certificate. Agent: You can send to eStore-support@supermicro.com along with your order number. . Customer: ok, found the link, thanks again. Agent: You're welcome. Can I help you with anything else?. Customer: that's all thanks. Agent: It was nice talking to you. Have a great day, goodbye! You're welcome. . Customer: Hello. How may I help you?. Agent: Hi Glenn. Customer: My manager is asking me to get prices for some new servers I have the requirements. Agent: Do you have an account with us?. Customer: Quantity=6, Dual CPU, Upto 8 Core, 64 GB Ram, Raid 1, 1TB SSD or NVME, 1U Form. Agent: Do you have an eStore account created with us? We can grant you access to browse and configure our current server selection. Please register an account and let me know your email address. <https://store.supermicro.com/customer/account/create/>. Customer: CAn we create one? My boss has a personal one We should create one. Agent: Yes, you can. Please register an account and let me know your email address. <https://store.supermicro.com/customer/account/create/>. Customer: You want the email now or in the app? I tried to configure a server but I did not get SKU. Agent: You can create an account with the link above and let me know that email. I can request enable the configurator tool for server on our eStore for you. Customer: Well, if I create the account in my managers name will he have to be the one getting the configuration? I am the one tasked to do this. Delegation. Agent: You can create an account under your name and the email should be tied with your email, so you can confirm

the email account by that after create. Customer: But we can still create the company account? I guess I dont understand The account page I am on wants a persons name Or is this just for the initial account?. Agent: You can create a Supermicro account, and give the access for your coworker or manager. You can use your manager name also. Customer: OK, weel I dont want him getting the emails just yet. So I can create a server and get prices inmy nmae yes?. Agent: as long as you can get the confirmation link to confirm the account after create it. Customer: OK OK, I got the confirmation email. Agent: Please confirm it and let me know your email address tied with eStore account. . Customer: gfrank@modinds.com. Agent: Please give me a moment to request the access for you. Customer: k. Agent: You should have access our System tab now. Please log out and log back in and click the link below.

Agent: For your requirement, I can recommend the Supermicro CloudDC SuperServer (SYS-120C-TN10R) <https://store.supermicro.com/sys-120c-tn10r.html>. Customer: can I speak with you on the phone? I may need help navigating. Agent: Can I have the phone number to contact you, please?. Customer: sure. 480-560-6600. Agent: Thank you. We will contact you shortly Is there anything else I may help you with today?. Customer: no, thank. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jackson. Customer: Hi Liz I have found the spec sheet for this server: SYS-1029U-TN10RT And I was trying to access it through your e-store but I don't believe I have server access authorized on my account?. Agent: May I have your email account please?. Customer: jasi7701@colorado.edu. Agent: I can request an access for you. Customer: Great! And how long does the request take?. Agent: You can access our System tab now once you log out and log back in.

<https://store.supermicro.com/customer/account/login/referer/aHR0cHM6Ly9zdG9yZS5zdXBldm1pY3JvLnNvbS9jdXN0b21lci9hY2NvdW50L2luZGV4LW%2C%2C/> This is the link for Supermicro 1U Ultra SuperServer (SYS-1029U-TN10RT) https://store.supermicro.com/ultra-server-1u-sys-1029u-tn10rt.html?queryID=4bc83d1062627328383ed731eef76a34&objectID=2624&indexName=supermicro_default_products. Customer: Great! Thank you!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: That'll do it! Have a good rest of your day. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Hakan. Customer: Hi. Agent: How can I help you?. Customer: where can I buy the product supermicro 7049GP-TRT i can't find it anywhere. Agent: You can try checking with our Sales team: Sales-USA@supermicro.com Tel: +1-408-503-8000. Customer: omh omg. Agent: You can also check with our resellers for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: turkey shipping ?. Agent: Yes, our Sales team can ship internationally. Customer: thanks. Agent: No problem! Is there anything else I may help you with today?. Customer: i'll take it for my company. can you send the test product we will make a bulk purchase 100x 7049GPTRT. Agent: That will be up to our Sales team unfortunately. You should mention it when you contact them. Customer: Thanks good bye. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hello, can I help you with anything?. Customer: hi im looking at this: Supermicro (Hynix) 32GB 288-Pin DDR4 3200 (PC4-25600) Server Memory (MEM-DR432LC-ER32) it says out of stock. Agent: Hi Shahar. Customer: do you have a diffeert brand that is the same specs?. Agent: Is it for a Supermicro motherboard or system?. Customer: no. Agent: Oh I see. Customer: Precision 5820 Tower XCTO. Agent: Let me check then. Customer: thank Yoy Thank You. Agent: We have the Hynix version: <https://store.supermicro.com/32gb-ddr4-3200-mem->

dr432l-hl02-er32.html HL01 version is EOL so this one is the replacement. Customer: it will work? i have an existing 16GB already currently have 16GB 2x8GB DDR4 2933MHz RDIMM ECC Memory. Agent: If it's different memory capacity, that I'm not sure. It's usually not recommended since you mention 32GB initially Let me check on the 16GB then. Customer: אישמל טם Tx it need to match to the SKU. Agent: We don't have anything compatible or available with those specs unfortunately. I would recommend checking with Dell in this case. . Customer: really...any other supplier you can reccomand me?. Agent: <https://www.supermicro.com/en/wheretobuy> you can check with any of these distributors in your area Can I help you with anything else?. Customer: Hello. How may I help you? We are building our own server system and want to use your power supply PWS-1K22A-1R and want to know if the power distribution PDB-PT826-S8824 is compatible with this supply. Agent: Hi Kevin! Please give me a moment while I check for you. I'll need to check internally to see if that power distributor is compatible with PWS-1K22A-1R Is it OK if I email you back at kevin.woods@teledyne.com once I find out?. Customer: that is perfect. Thank you. Agent: No problem! Hope to have an update for you soon Is there anything else I may help you with today?. Customer: maybe once you tell me yes :). Agent: Sounds good. I'll help you out after I get an update. It was nice talking to you. Have a great day, goodbye!. Customer: bye Hello. How may I help you? Hi I am looking to see if you can grab 2-4 for more of PWS-706P-1R. Agent: Hi Laurie It's running low at this point, I'll have to double check with the PM to see if we can get anymore. I can email you once I get an update. Customer: Ok please do, I will grabbing the one it allows me to now. Agent: It looks like we only have that 1 available unfortunately actually. . Customer: OK thanks for your help!. Agent: you're welcome! Can I help you with anything else?. Customer: not that is it today!. Agent: Ok sounds good. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Redhian. Customer: hi how are oyu i am looking at getting this item MCP-290-00053-0N. Agent: May I know where do you plan to ship this product to, please?. Customer: australia, is this item end of life. Agent: This product is still active on my end. Please contact our resellers in Asutralia for availability since we only sell and ship within the U.S <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today?. Customer: dicker data no stock. Agent: I see. You can contact our RMA department to see if they can support RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3 Also our Sale at Sales-USA@supermicro.com Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: hi John. Customer: Hi Liz. Thanks for helping. I'm trying to get pricing for the above mentioned server with 3 A40 GPUs installed. We would also like to install 2 10G network cards. . Agent: I'm sorry, our eStore don't carry AMD EPYC server. Do you interested in Intel CPU server? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi. Agent: Hi Alvin!. Customer: This is related to order 1000023885 I ordered a BMC OOB license but wasn't able to activate it After generating the activation key, I received an email with the key, however the system I am using requires a file to be uploaded If I try to put the key into a file and upload it, the IPMI Web GUI says that the format is incorrect. . Agent: What motherboard is this ?. Customer: H12SSW-NTR So I am looking for some guidance on how to format the key properly into the file that will be accepted by the

system. Agent: Please give me a moment while I check for you. What BMC MAC address is yours ?.

Customer: 3CECE7EC653. Agent: Please give me a moment while I check for you. Please bear with me for a few more minutes while I check for you. . Customer: ok. Agent: It looks like something went wrong when our system sent you the key, it should be a file. Can I check internally and get back to you on this ? Is sysadmin_group@watershed.ai the best email to reach you?. Customer: yes, that's fine Thanks.

Agent: You're welcome. Sorry for the inconvenience ! I will email you as soon as I can Can I help you with anything else?. Customer: no that's all for now Thanks!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Derrick. Customer: hi I'd like to check compatibility MCP-220-00118-0B with our existing server SSG-6029P-E1CR12L. Agent: Sure, let me check for you. Yes, the MCP-220-00118-0B works with your system. You also can check see it at the Optional Parts List in our main website <https://www.supermicro.com/products/system/2U/6029/SSG-6029P-E1CR12L.cfm> Can I help you with anything else?. Customer: that is all thank you very much. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Ralph!. Customer: CBL-SAST-1154-85 did get or need this cable. Agent: If you're looking to install NVMe's, then you will use CBL-SAST-1154-85 to connect it to JNVMe2 on your motherboard The cable does not come included with the 740A-T. Customer: It was or is not a red *. Agent: I'm sorry, could you clarify?. Customer: look on parts list. Agent: Yes, it's listed as optional. Customer: no. Agent: The items under the optional parts list are not included with the system when purchased. Customer: this is changed from my list. please and two NVMe cables to cart. . Agent: How many NVMe's are you looking to install? Since 1 cable can support 2 NVMe's, I'd like to make sure you are ordering the correct cable quantity. Customer: 4. Agent: OK, thanks for confirming Ralph The only cable we carry on our eStore is CBL-SAST-0816, which would plug into JNVMe1 on your motherboard: <https://store.supermicro.com/supermicro-slimline-sas-x8-to-2-x-oculink-x4-28cm-cable-cbl-sast-0816.html>. Customer: Sata cbl?#. Agent: Are you asking for the part number for a standard SATA cable?. Customer: QTY. . Agent: I'm sorry, could you clarify?. Customer: HOW many sata cbl did i geeett. Agent: I believe you would have received 2x CBL-SAST-0631 (Cross-over Mini SAS HD to 4 SATA w/SB, S. 55cm. 30AWG). Customer: This is my third tower. I have been ripped off, the SMC dealers, and others that don't care!. Agent: I'm sorry you feel that way Ralph. Unfortunately, there's not much I can do from my end, especially after we've finalized this latest configuration with you. Is your concern that not enough cables were included?. Customer: What do I need I bought the damn thing. I bought M2 and one M.2 and no cables. . Agent: As I mentioned previously, we don't include cables that are listed under optional parts. If the NVMe's were purchased with your configuration, we would have them installed with the appropriate cables. Again, I apologize for any confusion and the inconvenience, but the only cable we carry on our eStore that you can purchase to install 2x NVMe's is CBL-SAST-0816. <https://store.supermicro.com/supermicro-slimline-sas-x8-to-2-x-oculink-x4-28cm-cable-cbl-sast-0816.html> CBL-SAST-1154-85 is not carried on our eStore so you will have to check with our Sales team or our resellers to purchase it. Sales-USA@supermicro.com Tel: +1-408-503-8000 <https://www.supermicro.com/en/wheretobuy> I hope this information has been helpful. Is there anything else I may help you with today?. Customer: I just copied info. THANKS I think!. Agent: No problem Ralph. Again I apologize for the confusion. It was nice talking to you. Have a great day, goodbye!. Customer: OK Ralph Wostenberg left the following comment: I am still looking for parts! Hi, I had a chat here last week about our faulty 12G switch and what were our options to try and get it fixed. I was expecting an email back but I've not received it yet. would you be able to help? (10G switch).

Agent: I did reply you through damien.bayart@bt.com as you requested Did you get the email ? I just

sent the email to you again through bayartdamien@gmail.com as well damien.bayart@bt.com. Here is the reply I got from the switch PM : Sorry we don't have FAN/assembly as spare parts for SSE-X3348 series switches. Since it is out of warranty, please change the entire switch. Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you? Hi,. Agent: Hi Vasiliy. Customer: Does this model have a remote access controller card option?. Agent: Please give me a moment while I check for you. Please bear with me for a few more minutes while I check for you. Can you explain more about the remote access controller card option?. Customer: That is like a dedicated card with the network port which can be used for remote management of the servers with ability to reboot it or power off when OS hangs. Agent: Yes, all of our servers have the remote access controller which is IPMI port build in. Customer: Dell servers call it DRAC and HP servers call it iLO or something okay, so I don;t need to order it separately, right?. Agent: no, it goes with the server You don't have to. Customer: okay thank you. Agent: You're welcome. . Customer: if i put a product in the cart, can I save it as a quote?. Agent: Yes, you can go to your cart and it will have a save quote button Do you plan on purchasing from our eStore?. Customer: ok thanks, bye

Hello. How may I help you?. Agent: Hi Bill!. Customer: Do you have any of these ins tock: MCP-220-84701-0N. Agent: How many were you looking to purchase?. Customer: 20x. Agent: Unfortunately, that SKU isn't carried on our eStore. You'll have to check with our resellers or our sales team to purchase this drive tray. <https://www.supermicro.com/en/wheretobuy> Sales-USA@supermicro.com Tel: +1-408-503-8000 I apologize for the inconvenience. Is there anything else I may help you with today?. Customer: Hello. How may I help you? Hi Kyle. I need to purchase 10 units of MCX455A-ECAT. Could you please advise if you have inventory ready fo r my order?. Agent: Hi Hung-Chang I'm sorry, but unfortunately, we do not carry that product on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Or with Sales team at Sales-USA@supermicro.com Can I help you with anything else?. Customer: Thank you. Agent: You're welcome!.

Customer: Hello. How may I help you?. Agent: hi Vick. Customer: hi, a have a question. I'm configuring a server and need to know the model number of storage controller. The description says "supermicro 12Gb 8 port sas pcie raid adapter", Can i get more details on this one?. Agent: Sure, let me check for you. It's a AOC-S3008L-L8E. You can check at this link for more information <https://www.supermicro.com/en/products/accessories/addon/AOC-S3008L-L8e.php> May I know your configuration please?. Customer: but this is not a RAID controller... I need one that supports RAID SYS-1029P-WTR. Agent: May I know all of your requirement for this system please? or can you screenshot your configuration? This system can do onboard RAID, but if you wants a RAID controller, I can help you with the pre-config. Customer: I need a dedicated RAID controller, not an onboard nor HBA. Agent: this system supports a AOC-S3108L-H8iR-16DD controller card. I can help you with the pre-config if you want this You can check more spec of this system on our main site <https://www.supermicro.com/en/products/system/1U/1029/SYS-1029P-WTR.cfm> This is the link for the controller card <https://www.supermicro.com/en/products/accessories/addon/AOC-S3108L-H8iR.php> The eStore configuration doesn't have option for this controller. I can help create the quote and pre-configured this system for you. May I know your full configurate specs for the SYS-1029-WTR such as CPU, memory, drives and # of RAID?. Customer: ok great I need just one CPU to start with: Intel® Xeon® Silver 4215R, 64GB of memory (16GB sticks), 2 1.2TB SAS hdds (will get more later), no OS. Also want to get 3year NBD warranty. . Agent: May I know your RAID setup please? 1 for 2 drives?. Customer: raid1.

Agent: ok. Thank you for the information Can I email you the quote via vick@slovo.org?. Customer: can you sent me a configuration to my e-mail: vick@slovo.org please?. Agent: sure. I will do. Customer: sure thanks. Agent: You're welcome. I will put them together and send the email for you as soon as possible. Is there anything else I may help you with today?. Customer: sounds good. this is it. have a great day. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Samuel!. Customer: Hi, looking for Supermicro Server Chassis Rack Mount Handle Ear Can you help me find this item?. Agent: Do you have your chassis SKU?. Customer: or just a model number?. Agent: We don't actually sell the ears seperately on our eStore, but I can try to identify a P/N for you. . Customer: Thanks Supermicro 2U Server X9DRI-LN4F Does that help?. Agent: Unfortunately no since that's just the motherboard SKU. Customer: Okay, please hold on. . Agent: OK. If there's a serial number you can provide, I can try doing a reverse lookup as well to identify your chassis number. <https://www.supermicro.com/en/support/rma/sn>. Customer: Chassis [SKU C8260FD14M10430]. Agent: Thanks Samuel! One moment. . Customer: Thanks Jim. Agent: When you say ear, you're referring to the chassis handles right? On both left/right sides?. Customer: Correct. I think the SKU is 01-SC82611-XX00C003 but not sure. . Agent: The SKU for the handle set is MCP-290-82605-0V. This should include both the left and right handles. You can try contacting our RMA department to see if they can sell you this SKU, or you'll have to check with our resellers for availability. RMA department email address: rma@supermicro.com RMA department part phone #: 1-408-503-8000 option 3 <https://www.supermicro.com/en/wheretobuy>. Customer: Wonderful. Thanks for your help. . Agent: No problem Samuel! Can I help you with anything else?. Customer: Not today. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Jim, I'm back again. . Agent: Welcome back Samuel!. Customer: The RMA transferred me to the Tech support. They couldn't help. This is the item I'm looking for https://www.truenas.com/community/attachments/img_4265-jpg.17562/. Agent: Yea, that looks to be MCP-290-82605-0V. When I look that SKU up, I see the same handles. I guess our RMA team might not have any inventory left for this handle to sell. Customer: I looked up that number and nothing comes up. Agent: Here's what I found when looking up that SKU. Customer: Yep that is them. . Agent: OK, so the SKU should be good. I think we just don't have the inventory to sell it You may have to check with our resellers in this case to see if they have any available. <https://www.supermicro.com/en/wheretobuy>. Customer: ok. Happy hunting... I guess. . Agent: Good luck my friend. Is there anything else I may help you with today?. Customer: Thanks for checking again. . Agent: No worries! That's what we're here for. Customer: Hello. How may I help you? Hello, I was wondering if there's a 2x2.5" rear drive kit for nvme drives. Agent: Hi Cort For which server model#?. Customer: SC216. Agent: Ok let me check Surprisingly there is not unfortunately, just SATA3/SAS. Customer: OK, thanks for checking. Agent: You're welcome Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Udi. Customer: Hi. I placed an order today for Overnight AM delivery and the order is still in processing stage.. Order # 1000023903 I must have it tomorrow morning. . Agent: Yes, It will be shipped out by the end of today and should be delivered to you by tomorrow morning. . Customer: OK. Thank you!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: No. Thanks again. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Bye. Hello. How may I help you? I need to place an order and wanted to know the estimated delivery time on it. Agent: May I know what your are purchasing

from eStore?. Customer: I need to order the following 2x SuperMicro SYS-6019U-TR4: 2x Intel Xeon Silver 4210R 2.4GHz 10 Core Scalable Processor (DDR4-2400) 192GB DDR4 2933MHz ECC RDIMM (12x 16GB) 2x 480GB SATA SSD D3-S4510 Intel i350AM4 Quad Port 1GbE Supermicro 10-Gigabit (2x RJ45) Ethernet Network Adapter 2x 400W Power Supplies Sliding Ready Rail Kit 3 Year Parts and Labor Warranty Included 1x SuperMicro SYS-2029U-TN24R4T: 2x Intel Xeon Silver 4210 2.2GHz 10 Core Scalable Processor (DDR4-2400) 192GB DDR4 2133MHz ECC RDIMM (12x 16GB) 2x 480GB SATA SSD D3-S4510 (Rear Bay) 6x 3.2TB 2.5" DC P4610 NVMe PCIe 3.1 Solid State Drive Intel X550 Quad 10GBase-T Ports 2x 1600W Power Supplies Sliding Ready Rail Kit 3 Year Parts and Labor Warranty Included. Agent: For server, we cant ship out within 2-5 business days. . Customer: I guess first i would need to have a quote for these 3 servers and then see what delviery time would be. Agent: I see. Customer: can you provide me a quote for these 3 servers ?. Agent: Are you able to add these 2 servers to your cart ? Sorry 3 servers I meant Excuse me for my typo. For server, we can ship out within 2-5 business days. . Customer: <https://store.supermicro.com/sys-6019u-tr4-pre-config.html> <https://store.supermicro.com/sys-2029u-tn24r4t-pre-config.html> i was provided these two links with the servers built out but they are not working. Agent: Please give me a moment while I check for you. . Customer: thank you so much. Agent: Please bear with me for a few more minutes while I check for you. . Customer: take your time, thank for helping me out with this, its appreciated. Agent: Can you try again with both links ? <https://store.supermicro.com/sys-6019u-tr4-pre-config.html> <https://store.supermicro.com/sys-2029u-tn24r4t-pre-config.html>. Customer: not yet does not work. Agent: <https://store.supermicro.com/sys-6019u-tr4-pre-config.html?p1> <https://store.supermicro.com/sys-2029u-tn24r4t-pre-config.html?p1> Please try again. Customer: ok they work. Agent: The estimated delivery time can be different depends on what shipping method you are choosing. Customer: trying to add to cart again, on link went dead okay got them both in the cart perfect. Agent: Great! Were you able to add 2 pcs SYS-6019U-TR4 and 1 pc SYS-2029U-TN24R4T to your cart?. Customer: ok so here is what is going on I need to order these items under my companys name, with my companys contact information , we will be paying with a credit card but i need to know what the shipping will be on these two units. Agent: We provide free Standard (3~5 business days) shipping. You also can choose Expedited (2 business days), Overnight (Next business day) or Priority Overnight with shipping cost. Customer: perfect, thank you , I will need to edit my contact informtion first before ordering them, so let me work on that, i already have them in the cart so i will order them once i have my information updated I think i am good for now, thank you for your time. Agent: Sounds good. Please purchase soon. I don't want the inventory runs out before you place your order You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: will do thanks. Agent: You're welcome. . Customer: do you show the items in stock right,. Agent: Yes, they are in stock right now. . Customer: perfect, thank you. Agent: You're welcome. . Customer: Hello. How may I help you?. Agent: Hi John !. Customer: Hi! I am looking for two things for some SYS-5019C-MR servers I have First, I need either a rail kit or an adapter to rack the server in a 4 post rack with screwholes instead of cage nuts. something like MCP-290-00060-ON. I I don't know what is compatable. Agent: Please give me a moment while I check for you. . Customer: no problem. Agent: CSE-PT52L https://store.supermicro.com/1u-cse-pt52l.html?queryID=d8dce207d84e517c4fa86dc3b5596d41&objectID=669&indexName=supermicro_default_products CSE-PT52L is compatible with your server. Customer: Great! secondly, I am looking for a 2 post rack rail kit for the same server model. Agent: I see Let me check. Please bear with me for a few more minutes while I check for you. . Customer: no problem. Agent: MCP-290-00016-ON is the 1U open rack bracket set you need for 2 post I'm sorry, but unfortunately, we do not carry MCP-290-00016-ON on

our eStore. Please check with our resellers and distributors for availability.

<https://www.supermicro.com/en/wheretobuy> or You can check with RMA department for the availability RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3. Customer: THats fine. I have a part number now, so I can shop. Agent: Sounds good Can I help you with anything else?. Customer: I'm good. Thank you. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: bye Hello. How may I help you? System A+ Server 2114GT-DNR one Motherboard node that is the H12SSG-AN6. Agent: Hi Aziz We don't carry any AMD EPYC servers on the eStore unfortunately. Were you looking for this specific one only?. Customer: Yes. OK thanks, i will find an account rep. . Agent: If so, you may have to check with our Sales team at Sales-USA@supermicro.com Ok sounds good Can I help you with anything else?. Customer: bye. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jorge!. Customer: hello, I need help getting a quote updated in my cart i currently have 1 SuperMicro SYS-6019U-TR4: I need to add another one can you help. Agent: <https://store.supermicro.com/sys-6019u-tr4-pre-config.html?&p1> Now it should work Can you try again ?. Customer: so just go to the cart and add one more. Agent: Yes please. Customer: thank you done. Agent: You're welcome. Can I help you with anything else?. Customer: nothing else thanks. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: hi Frankie. Customer: can you please tell me when I will be able to purchase 100 units of CBL-SAST-0591?. Agent: Please give me a moment while I check for you. I can request more stock for you. Can I email you back via francesco.mignano@chyron.com when the stock is ready?. Customer: yes please. Agent: Thank you! Is there anything else I may help you with today?. Customer: no, thats it. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jorge!. Customer: hello hope you are doing well on your end. Agent: You as well. Customer: I need help setting up an order and added to my cart please. Agent: What can I do for you?. Customer: first one would be this 2x SuperMicro SYS-6019U-TR4: 2x Intel Xeon Silver 4210R 2.4GHz 10 Core Scalable Processor (DDR4-2400) 192GB DDR4 2933MHz ECC RDIMM (12x 16GB) 2x 480GB SATA SSD D3-S4510 Intel i350AM4 Quad Port 1GbE Supermicro 10-Gigabit (2x RJ45) Ethernet Network Adapter 2x 400W Power Supplies Sliding Ready Rail Kit 3 Year Parts and Labor Warranty Included. Agent: OK. It looks like you had a previous 6019U-TR4 configuration that you worked out with Joe. Did you still want that configuration, or would this one replace it?. Customer: this will be the replacement. Agent: Ahh OK One moment while I get this prepared for you. Customer: I also need one of these 1x SuperMicro SYS-2029U-TN24R4T: 2x Intel Xeon Silver 4210 2.2GHz 10 Core Scalable Processor (DDR4-2400) 192GB DDR4 2133MHz ECC RDIMM (12x 16GB) 2x 480GB SATA SSD D3-S4510 (Rear Bay) 6x 3.2TB 2.5" DC P4610 NVMe PCIe 3.1 Solid State Drive Intel X550 Quad 10GBase-T Ports 2x 1600W Power Supplies Sliding Ready Rail Kit 3 Year Parts and Labor Warranty Included so 3 units in total. Agent: OK, thanks Jorge. I'm working on the first configuration right now and we should have something for you in a few minutes here. Customer: 👍 . Agent: For the 2029U configuration, the lowest speed RAM we have is 2666. Will that be OK?. Customer: so no 2933MHz. Agent: Oh, we do have 2933. Your configuration has 2133. Customer: sorry that was wrong one. Agent: Ahh OK. Customer: so they wanted 2133MHz and you have 2666 ok,. Agent: Yes, we have 2666 but not 2133 Will 2666 be OK?. Customer: ok that works. Agent: <https://store.supermicro.com/sys-6019u-tr4-pre-config.html?&p3> Please login to your eStore account to view this link If everything looks good, you can add 2x of this system to your cart Currently working on the 2029U configuration now. Customer: added to cart,. Agent: Awesome, and everything looks good for that?. Customer: I am asking my co-worker to look it over. Agent: Sounds good. Should be just a few

more minutes for the 2029U configuration, then I'll have a link ready for you. Customer: 🙏 . Agent: <https://store.supermicro.com/sys-2029u-tn24r4t-pre-config.html?p=3> Sorry for the delay. Here is the link for the 2029U system Please review, and if everything looks good you can add it to your cart Just to confirm, the 2x 480GB SSDs are for the rear bay correct?. Customer: having my co-worker look it over yes. Agent: Perfect, thanks for confirming. . Customer: perfect, okay thank you , my co-worker says all looks good, now i need to reach out to finance to get the golden card to place the order. Agent: Sounds good Jorge! Is there anything else I may help you with today?. Customer: no thank you for all your help on this its really appreciated. Agent: No problem at all. It was nice talking to you. Have a great day, goodbye!. Customer: you too Hello. How may I help you?. Agent: Hi Steve. Customer: We currently have "0" of the "Supermicro 2U Active CPU Heat Sink Socket OLGA4094 (SNK-P0063AP4)" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat" do you have one of these?. Agent: Please give me a moment while I check for you. We have 1 in stock for this SNK-P0063AP4. Can you please try again? <https://store.supermicro.com/2u-active-amd-epyc-snk-p0063ap4.html>. Customer: got kit... thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: no ill place the order nwo have a good weekend. Agent: You're welcome. It was nice talking to you. Have a great weekend, goodbye!. Customer: Hello. How may I help you? need to purchase replacement motherboard X11DPI-NT. Agent: Hi George I'm sorry, but unfortunately, we do not carry any motherboards on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> or check with our RMA team for a replacement at rma@supermicro.com Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Michael!. Customer: Hi Jim, I have a couple of questions. First, does Supermicro have a partner reseller program?. Agent: Yes we do. You would have to contacting our marketing team for inquiries regarding the reseller program. Marketing@Supermicro.com. Customer: Perfect. Second, all the manufacturers I am working with are unable to provide me with network gear, are you guys having a supply chain issue getting switches?. Agent: I believe it's more caused by the ongoing component shortages and we're having trouble keeping up with the demand. Customer: okay. My main vendor has told me that I would have to wait a couple of months for switches, but when my clients go to another partner, they get switches within a few days. So I'm looking for a company I can work with that wont treat me like that. I've had one switch on order for 2 months now and they said it could be next quarter before it ships... . Agent: I see. I apologize for all the delays you're running into. Unfortunately, we don't carry switches on our eStore, but you can try checking with our Sales team to see if there are any switches that you can purchase directly from us: Sales-USA@supermicro.com Tel: +1-408-503-8000. Customer: Thank you! I appreciate it. I need to upgrade my datacenter and replace all my older servers so if I can get all my hardware from one place, that would be incredible. You would make my day if you said you have firewalls too. . Agent: We unfortunately don't have firewall servers on our eStore, but if you have an eStore account, I can grant access to our server configurator so you can take a look at our selection All the servers on our eStore are ready to build and ship within 2-5 business days. Customer: EXCELLENT. I like that. I don't have an estore account. I have checked out your servers several times over the years and heard great reviews, so that is what brought me to your site, then seeing the networking options you had, I was hooked. What do I need to do to create an estore account?. Agent: We're glad you stopped by 😊 Please use this link to create your account. Once your

account is verified, let me know what email address you used for the creation and I'll enable the configurator tool for you. <https://store.supermicro.com/customer/account/create/>. Customer: Going there now. Can I just leave this chat window open while I create it?. Agent: Yes you can. Customer: I used michaeld@method-net.com. Agent: Awesome, thanks Michael. Customer: no, thank you. . Agent: Your account should now have access to the 'Systems' tab on our eStore. You may have to log out/log back in before you can access the configurator. . Customer: Thank you. I will check it out now. I really appreciate all your help Sir. . Agent: No problem at all Michael, that's what we're here for 😊 Is there anything else I may help you with today?. Customer: No, that does it. I need to reach out to the sales team to find out more about the switches. Do you know if they have a pricelist available online or if I just need to reach out to the sales team?. Agent: I don't believe they have a pricelist available online so you would have to reach out for pricing. . Customer: That's fine. I really appreciate your help. . Agent: Of course! It was nice talking to you. Have a great day, goodbye!. Customer: Have a great day too. Hello. How may I help you?. Agent: Hi Tracy. Customer: Hi Liz, does the SYS-5019C-MR come with the redundant power supplies or is there an extra charge for that Also does it come with TPM enabled. Agent: This system is already has the redundant power supplies. You don't have to purchase seperately. TPM is not optional If you want to add TPM to this server, I can help you with the configuration. Customer: Sure. I have a server in the cart already, is there anything i would need to add to this?. Agent: Can I have your full configuration for the SYS-5019C-MR, please?. Customer: 1 intel e-2224G 2 x 8 GB DDR 2 x 480GB 2.5 PM883 SSD 1 x 2 rj45 gigabit ethernet 2x mcp-220-0043-on 3.5 to 2.5 converter tray 1 x windows 10 pro 1x supermicro rackmount kb and mouse combo. Agent: Thank you for the information. and 1 TPM right?. Customer: correct 1 tpm chip enabled. Agent: thank you for confirming. Please give me a moment while I'm working on the configuration for you. Can I email you back via tratz@clarityscg.com for the pre-configured link?. Customer: sure. i will need two of these systems. Agent: So do you want 2 systems with same configuration?. Customer: yes. Agent: Thank you for confirming. I will email you shortly for the pre-configured link. Is there anything else I may help you with today?. Customer: that is it. thanks liz. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Kyle, I'm looking for 4 pieces of Supermicro (Hynix) 64GB 288-Pin DDR4 3200 (PC4-25600) Server Memory (MEM-DR464MC-ER32) Site says you only have 3. Agent: Hi Ryan Let me check for you Please bear with me for a few more minutes while I check for you. . Customer: no problem. Agent: We should be able to get 1 more pc, but give me a few min. It most likely won't ship out today though since its later in the day so it'd be shipping Monday if that's ok. . Customer: that's not a problem. Monday is fine. Agent: Ok sounds good. Please refresh the product page and add 4 now You should be able to check out with 4 pcs!. Customer: hello. Agent: Hi Janbec!. Customer: i have a question about the mMCP-240-82922-0N-OEM i have a 6028U-TR4T+ server with the megaraid SAS controller in a riser card already how can i install the rear drive bracket and still have the megaraidcontroller in the riser card on server. Agent: Please give me a moment while I check for you. . Customer: you got it...thanks. Agent: Which SAS controller card is it please?. Customer: LSI 9361-8i. Agent: May I know which slot you are using for LSI 9361-8i ?. Customer: if you are looking at the back of the server its one on the right in the top position. Agent: I see Got it! So you do have a WIO Riser Bracket installed already ?. Customer: yup are the pice slots the same?. Agent: Can you check the manual from the product page ? https://www.supermicro.com/en/products/system/2U/6028/SYS-6028U-TR4T_.cfm Starting page 6-7. Customer: which one is the 16 slot? i must be blind i just saw it i guess i can move the sas controler and install this thing. Agent: Try it and let us know if it doesn't work. Customer: ok. Agent: You can reach me at estore-support@supermicro.com. Customer: you got it thanks bye. Agent: You're

welcome. It was nice talking to you. Have a great day, goodbye!. Customer: you too. Agent: Thanks!. Customer: Hello. How may I help you? hola buen dia donde puedo adquirir un Supermicro E300-9D-4CN8TP en Colombia. Agent: Hi Kevin!. Customer: Hello. How may I help you?. Agent: Hi Feankie!. Customer: looking for the lead time on CBL-SAST-0591. Agent: How many are you looking for ?. Customer: in the next 30 days we'll need 50 but will take more if that accelerates. Agent: Currently we have 2 available. I can make an inventory transfer request for 50 pcs and email you when they are ready Is francesco.mignano@chyron.com the best email to reach you ? The request is in. Customer: yes it is thank you. Agent: You're welcome. Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jason! We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide>. Customer: So I will receive money back after my tax exempt form is accepted?. Agent: Yes, you will get the tax refund back to your credit card after 10 business days if your request is approved. Customer: Thank you. Agent: Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> You're welcome. Can I help you with anything else?. Customer: No thank you! Hello. How may I help you? I NEED A PHONE NUMBER TO REQUEST STOCK MOVED OVER SO WE CAN PLACE A LARGE ORDER?. Agent: Hi CJ. Customer: <https://store.supermicro.com/80mm-fan-0118l4.html?utm=MOTION60fan>. Agent: We don't have phone support unfortunately, just live chat and email support currently. How many were you looking for?. Customer: I NEED 60 OF THESE IF AVAILABLE NOW. Agent: Let me check on availability We do have 60 pcs available right now, just simply add to cart and check out. Customer: Ok thank you for the help. Agent: you're welcome #ee Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi CJ!. Customer: I need to get the taxes off this order? Can I send over a tax cert?. Agent: Yes. We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Liz, hope you are doing well.

Agent: Hi Benjamin I great. How are you?. Customer: Also doing well thanks I am looking to purchase some of these power cables with part number CBL-0424L https://store.supermicro.com/supermicro-8-pin-to-two-6-2-pin-12v-gpu-40cm-power-cable-cbl-0424l.html?queryID=25a8668940088c086499791fa41ee5c5&objectID=1223&indexName=supermicro_default_products But I see that they are out of stock Will they be restocked or maybe you can help me to purchase them?. Agent: How many of CBL-0424L are you looking for?. Customer: I am looking for at least 3 but would most likely buy some more if it is available, since it seems that they could go out of stock again. Agent: Yes, it is available and I can request for inventory transfer. It will need some hours to complete the transfer. If you want me to request more than 3, please let me know how many exactly. I can request inventory for you at the same time. Customer: Okay just one moment please. Agent: Sure, please take your time 😊. Customer: Are you able to transfer 12?. Agent: Yes, I can. . Customer: Okay lets do that please. Agent: Can I email you back at bengji@yahoo.com when the stock is ready?. Customer: Could you actually send the email to domenico.r@setplex.com ? Or both?. Agent: Sure, I will email for both email when stock is ready. . Customer: Perfect thank you!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: No, thats all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Thanks you too. Take care. Agent: Thank you. Customer: benjamin dreshaj left the following comment: Issue resolved quickly Hello. How may I help you? I need a quantity of 20 pcs. for Part # Cable OCULINK X4 (SFF-8611) 95cm. You only have 8 in stock. when will the other 12 become available?. Agent: Hi Barbara Let me check for you. CBL-SAST-0848 correct?. Customer: Correct. Agent: Ok thanks, please give me a moment We're running low on this, but I will request for 12 more. Hopefully will get approval and transfer in 2-4 hours if that's ok. I can email you once they are available. Customer: Great. Thank you. You can email me @ barbara.scolavino@teledyne.com. Also, should I wait to place my order for the 8 that you currently have in stock? This way I can pay for all 20 pcs. at one time?. Agent: If you don't want to spend on shipping twice, I'd wait for all 20 pcs. If we can't get 12 more pcs, I'll let you know asap so that you can purchase those 8 though. Customer: Thank you very much!. Agent: You're welcome! #ee Can I help you with anything else?. Customer: No, that was it. Have a nice day. . Agent: Thank you! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Dave. Customer: hello i would like to know if AOC-SLG3-2H8M2 is available as a part. Agent: I'm sorry, but unfortunately, we do not carry AOC-SLG3-2H8M2 on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: ok Hello. How may I help you?. Agent: Hi Bruce!. Customer: We placed an order in January that was apparently lost so we had to place a second order for the same item. We were issued a credit for the missing item but it has just shown up at our facility. How would you like this item returned?. Agent: Thank you for reaching out. We'll send you a shipping label via email that you can use to send that package back to us. . Customer: Sounds good. Agent: Is BWELCH@STELLARENGINEERING.COM a good email to use?. Customer: yes. Agent: Perfect, thank you! I'll reach out to you with an update once the label has been prepared. Is there anything else I may help you with today?. Customer: not today thank you. Agent: Thank you as well. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello. How may I help you?. Agent: Hi Chris!. Customer: Hey there! Just had a technical question about the X11SSH-F I'm showing that the motherboard has 2 M.2 slots, just wondering if RAID 1 is supported on the M.2 slots?. Agent: Please give me a moment while I check for you. . Customer: Thanks!. Agent: Please bear with me for a few more minutes while I check for you. . Customer: No problem, appreciate it!. Agent: Are you installing NVME M.2 ?. Customer: Yes, they'd be NvME. Agent: I would like to check internally for the

NVMe RAID 1 for your motherboard Can I email you after checking internally ?. Customer: Oh yeah, no problem!. Agent: Is cu.north@gmail.com the best email to reach you ?. Customer: Correct!. Agent: Thanks! I will email you as soon as I can Can I help you with anything else?. Customer: Perfect, much appreciated! Nope that's it for now, thanks!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jerry How can I help you today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jerry. Customer: how do I become tax exempt. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide>. Customer: will I have to do this with every order or once I am approved it will be attached to my account. Agent: You would only need to send your certificate in once, but you would have to email us for every order that you are looking to apply tax exempt to. Customer: so I would need to pay the tax on the order and then wait for a tax return credit for each order?. Agent: Yes, that's correct. Customer: ok that seems odd other on line stores have a record of my tax exempt status and I do not have to do this. Agent: I apologize for the inconvenience. It's still something that's being worked on internally, so this is how we are handling our tax exempt cases. Is there anything else I may help you with today?. Customer: no thats all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Chris. Customer: I'm looking to buy 5 of these MCP-290-00060-0N When adding to the cart, I get a message that only 2 are in stock and to ask chat if more are available. Agent: Please give me a moment while I check for you. . Customer: Ok. Agent: I can request more stock for MCP-290-00060-0N. It will take some hours to complete. Can I email you back via claboy@hollywoodfl.org when the transfer is done?. Customer: Yes. Agent: Thank you for confirming. Is there anything else I may help you with today?. Customer: That's it Thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Charles !. Customer: I purchased the correct OOB board part number, but the mac address is erroring when I try to generate my product key. Agent: May I know your eStore order number?. Customer: 1000023809. Agent: Did you use BMC MAC address?. Customer: ac-1f-6b-8e-9f-78 this is what the error looks like. Agent: Can you try with the serial number ? VM17BS047875 <https://store.supermicro.com/pub/media/wysiwyg/productspecs/SFT-OOB-LIC/How-to-generate-OOB-keys.pdf>. Customer: I just submitted and for some reason it's just hanging yay, it worked thank you. Agent: You're welcome. Can I help you with anything else?. Customer: that's it thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer:

Hello. How may I help you?. Agent: Hi Net Admin. Customer: Hi I am trying to purchase 1 piece "SFT-OOB-LIC". I am in Canada and your Cart doesn't not have Canada as an Address option. so no matter what I put in the address verification fails. . Agent: I'm sorry, but our OOB license is only available for US-based customers (US billing address) to purchase at the moment. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: That's not good. It'll take 1-2 days to get it that way. . Agent: I'm so sorry for this inconvenience. If you happen to have an US billing credit, you can purchase OOB direct from us. Customer: thanks...already thinking who in our company might have that. :-) thanks anyway!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: nope\ Hello. How may I help you? looking for a 45-60 drive server with slots 3+ for pci cards. Agent: Hi Eldon! We only carry 2 servers on our eStore with the capacity that you're looking for: <https://store.supermicro.com/systems/superstorage.html> One can hold 45 bays, the other can hold 60 bays. Customer: can you send a phone # for tech sales contact. Agent: Unfortunately, our eStore does not offer phone support. Customer: Hello. How may I help you?. Agent: Hi Eldon!. Customer: when will these be in stock SSG-6049P-E1CR60H. Agent: This one is temporary out of stock. Would you like to consider the 45 bay ? SSG-6049P-E1CR60H will be in stock sometime next week. Customer: can i place an order now. Agent: What configuration do you have for the complete system ?. Customer: as many 16TB sas3 12Gb/s hard drives as it can hold, 10gig fiber nic 256 ram 2 processor 4215R 3.20GHz 960 GB 2.5" SSD for OS 2 - 960 GB 2.5 SSD for os mirrored maybe more details later do you have these parts?. Agent: We can put your configuration together and send you a pre-config link. Do you have more details you want to add to this configuration ? Do you want to order it now and it won't be built until later ? Yes, correct. . Customer: send a pre-config link for my review thank you. Agent: Sure, I will email you a quote to your email address eldon@eckankar.org first and go from there For NIC, do you want 10GbE RJ45 or SFP?. Customer: spf. Agent: thanks I will send you a quote soon Can I help you with anything else?. Customer: all for now. Agent: It was nice talking to you. Have a great day, goodbye! Just a heads up The payment plan we have on eStore is credit card and ACH payment. Customer: ok we are a non profit - tax exempt. Agent: I see We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. . Customer: i can get you the cert once i have a order number RAID 10 on the 60 disks. Agent: Got it ! One moment Windows Server 2019 Datacenter, Windows Server 2019 Essentials or Windows Server 2019 Standard Which one do you have in mind?. Customer: no os we install our own if possible. Agent: Got it !. Customer: we will install 2022 standard. Agent: I see Anything else?. Customer: all for now. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: thank you. Agent: You're welcome. . Customer: Hello. How may I help you?. Agent: Hi Ipex Info. Customer: hi , we are reseller , how to apply tax exemption. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide>. Customer: apply after order ?. Agent: Correct. Customer: will be one time or for each order need to apply. Agent:

You just have to send the certificate to us one time, but need to send email for request the tax-exempt for every other that need to. Customer: ok, order will ship first & tax will be refund?. Agent: Yes, please send the tax-exempt request to us after you placed the order as soon as possible Please read the tax exempt guide carefully. Customer: great , thank you. Agent: You're welcome. Is there anything else I may help you with today?. Customer: no , thank you1. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Dale. Customer: Do you ship to Canada?. Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: That's disappointing. Your US store is the only place I've been able to find the part I'm looking for. . Agent: I'm sorry for the inconvenience. You can contact our RMA department to see if they can support. RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3 or Sale team at Sales-USA@supermicro.com Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Peter!. Customer: Can we order qty. 3 of the PWS-505P-1H and have them on b/o? What would be the lead time for shipping?. Agent: Unfortunately, our eStore doesn't handle backorders for our products. Let me see if there's any additional inventory that we can transfer for you. One moment I apologize for the delay, but unfortunately, PWS-505P-1H will not be available till March due to shortages. Please check back again around next month or you can check with one of our resellers/distributor: <https://www.supermicro.com/en/wheretobuy> If you want, you can also enable notifications for this product by using the Notify Me option: <https://store.supermicro.com/500w-1u-pws-505p-1h.html> Is there anything else I may help you with today?. Customer: No, thanks for your help. . Agent: No problem Peter! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Ben !. Customer: Hi, I'm looking to order either 32x or 96x Supermicro (Samsung) 32GB 288-Pin DDR4 2933 (PC4 24300) Server Memory (MEM-DR432LC-ER29) shortly and was wondering whether you have stock and what the delivery time is?. Agent: May I know where you are located?. Customer: United Kingdom. Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: OK I will do, thanks Joe. Agent: You're welcome. Can I help you with anything else?. Customer: that's all, thank you for your help. Agent: It was nice talking to you. Have a great day, goodbye! You're welcome. . Customer: Hello. How may I help you? need to place order. Agent: Hi lpex Info. Customer: <https://store.supermicro.com/supermicro-hgst-12tb-3-5-7200rpm-sas3-12gb-s-256m-internal-hard-drive-hdd-a12t-huh721212al4200.html> qty 10. Agent: Please give me a moment while I check for you. Unfortunately, we only have 1 in stock at the moment. Do you want me to check the ETA for this product?. Customer: please. Agent: The ETA is the end of March. Please check back with us by the end of March for more inventory. Otherwise, you can contact with our resellers or distributors for availability. <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today?. Customer: no thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Alice!. Customer: Hello, I am trying to paid for a quote online. the quote has a Supermicro SuperWorkstation Full-Tower (SYS-7049AT). Agent: Could you upload the quote to this chat? Or provide a screenshot for the quote?. Customer: I just attached it.

Agent: Thank you! What I'll need you to do is log out of your eStore account, then log back in Afterwards you should be able to access this link <https://store.supermicro.com/full-tower-sys-7049a-t.html> This will direct you to the system that is in the quote, but you will have to select the components accordingly Here is the link to the monitor: <https://store.supermicro.com/monitor-23-8inch-mnt-smc238f.html>.

Customer: I got the monitor. Thank you. Agent: You should be able to just update the quantity for the components listed on the quote Please let me know if you need any assistance identifying the proper components. Customer: Sure. are you able to double check to see if I missed anything?. Agent: Of course. I can't see your cart or screen, so could you take a screenshot of what you've selected? It looks like you've got everything 😊. Customer: perfect. thank you. Agent: You should be able to add it to your cart and checkout from here No problem! Is there anything else I may help you with today?. Customer: Yes, I added the server in the cart, and it didn't show up when I tried to check out. . Agent: Let me see if I can reproduce that on my end Could you try holding CTRL+F5 on your keyboard until your screen refreshes? Let me know if the system shows up in your cart afterwards. Customer: no, the server didnt show up, but the cart said 2 items. Agent: That's interesting. Please give me one moment and I'll check internally to see if there's anything we can do. Customer: sure thankyou. Agent: No problem. Can you try clicking proceed to checkout and see if it shows up on the following page?. Customer: it doesnt, but the total is the server and the monitor. Agent: OK, one moment Can you try removing the monitor from your cart and let me know what happens after?. Customer: that killed the cart. Agent: OK, can we have you go back to the system page and reconfigure it, but this time scroll down to the bottom and add +1 quantity of the monitor? <https://store.supermicro.com/full-tower-sys-7049a-t.html> I apologize for the inconvenience. Customer: Would that be an issue for me to move forward to check out?. Agent: Can we get permission to log into your account to add this server to your cart?. Customer: sure. Agent: Yes, it may cause issues if you proceed with checking out Thank you. One moment OK, on our end we refreshed your cart and added the configuration again. . Customer: thank you. Agent: Could you try logging out or maybe try another browser if the issue still persists?. Customer: Hello. How may I help you?. Agent: Hi Mathew. Customer: Hello! I am curious on your server pages if you guys sell preconfigured 1U racks?. Agent: Do you have an eStore account created with us?. Customer: I do not yet. . Agent: Please register an account and let me know your email address. <https://store.supermicro.com/customer/account/create/> We can grant you access to browse and configure our current server selection. . Customer: mcornelius@dynamatech.net. Agent: Please give me a moment. You can access our System tab now once you log out and log back in. <https://store.supermicro.com/customer/account/login/> We have several 1U servers on our eStore. Do you look for any specific SKUs?. Customer: Not at the moment, starting to work with alot more clients and am searching for options. . Agent: Sound great! please let us know if you have any question Can I help you with anything else?. Customer: Will do! Thank you for the help! Not at the moment!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Mathew Cornelius left the following comment: Super friendly and quick to assist! Hello. How may I help you?. Agent: Hi SOUNKERE! How can I help you?. Customer: Hello iam looking for this MG07ACA12TE and i want to know if you can ship to ivoiry coast. Agent: Unfortunately, we can only ship within the U.S. Please check with our resellers for availability: <https://www.supermicro.com/en/wheretobuy> You can also try checking with our Sales team: Sales-USA@supermicro.com Tel: +1-408-503-8000 Is there anything else I may help you with today?. Customer: nop thank you. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Tom!. Customer: Hi I am looking for the MiniSAS cable. The one I used before was SAST-0531-01 but vendor has no stock. Is SAST-0531 the same

cable?. Agent: Please give me a moment while I check for you. . Customer: I couldn't tell the difference from the spec except the list of validated system is different. . Agent: They are the same cables. Customer: thank you. I will get it from my distributor. . Agent: You're welcome. Sounds good. Can I help you with anything else?. Customer: thanks. have a nice day. bye. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Chad !. Customer: Hello Joe - I was approved to access the store yesterday, but I still cannot get in. Can you help with that?. Agent: Please give me a moment while I check for you. Please log out and log back in again and see if you can access the configurator. <https://store.supermicro.com/system.html>. Customer: Ok, one moment That worked - tthank you. Agent: You're welcome. Please let us know if you need any assistance for your configuration Can I help you with anything else?. Customer: Not currently - have a nice day. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Hung. Customer: Hi Liz. Good to talk to you again. Agent: Good to see you again!. Customer: I need 40 units of (PWS-1K23A-1R) Can you please help to release these for my order?. Agent: Please give me a moment while I check for you. . Customer: Also 20 units of (PDB-PT825-8824) please help with these 2 SKU's. Agent: Sure, let me check for you. . Customer: Thank you so much Liz!. Agent: The PWS-1K23A-1R stock is running low currently. I will try to request 40pcs, but I cannot guarantee it will be approve. The PDB-PT825-8824 is in stock right not, but it is not enough 20. I can request more stock for it Can I email you back via s910372@hotmail.com? I will let you know either the PWS-1K23A-1R got approve or not. Also the stock of PDB-PT825-8824 is ready. Customer: Yes. Please let me know when you confirm you have or do not have the inventory for my order. . Agent: Sure, I will. Customer: Thank you again for your help! 😊. Agent: You're welcome. Can I help you with anything else?. Customer: I am good. Thanks Liz!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! I will email you back as soon as possible. . Customer: I'll await your info. You have a good one 🙏. Agent: Thank you!. Customer: Hello. How may I help you? i just place a order #1000023989. Agent: Hi Ipex!. Customer: for hdd-a12T-huh721212a14200. Agent: Yes, how can I help you regarding this order?. Customer: i need order qty 10 not 11 pcs. Agent: Ahh OK. Unfortunately, we can't alter the quantity after you've placed your order. You would need to cancel your order and then reorder with the correct quantity. Customer: how to cancel ? please. Agent: Please login to your eStore account and use this link to view your Order history <https://store.supermicro.com/sales/order/history/> From here, you should be able to cancel this order. Customer: ok i will try Hello. How may I help you?. Agent: Hi Roy!. Customer: Hello, looking to see if you can fulfill an order for Qty. 23 of CBL-PWEX-1016-3 website shows out of stock. Agent: Please give me a moment while I check for you. . Customer: thank you. Agent: CBL-PWEX-1016-3 is out of stock. Do you want to check next ETA ?. Customer: yes please. Agent: Can I email you when I get the update regarding ETA ?. Customer: sure. Agent: Is roy.fraley@nrel.gov the best email to reach you ?. Customer: correct. Agent: Thanks!. Customer: thank you. Agent: I will email you as soon as I can Can I help you with anything else?. Customer: that is all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Chris. Customer: I'm configuring a server and have a question about the RAID configuration. . Agent: Sure, what is your question, please?. Customer: Hello. How may I help you?. Agent: Hi Chris. Customer: I'm configuring a server to order and have questions about RAID adapters. . Agent: Sure. What is your question about it, please?. Customer: I've added several types of disks to the configuration. Does the server come with a RAID adapter or is it motherboard based?. Agent: It will come with the RAID adapter option at RAID tab as picture below. Customer: I have that option, but also at the bottom of that section is "VROC, Intel, Premium, Standard" I can select one of those and then configure additional drives that I've added to the configuration. .

Agent: If you want to do RAID for the NVMe, you will need to select the VROC option. May I know what storages you want to choose for this configuration?. Customer: 2 NVME in RAID 1 3 NVME in RAID 5 3 SATA SSD in RAID 5 one M.2 for vsphere OS. . Agent: Please give me a moment while I check for you. For the M.2, we don't have that option for the configurator on eStore. We can help you with the pre-configured for this server May I know your complete configuration, please? We can create a pre-config link for you. . Customer: I was wondering about that. I have the eStore open in another window and there's no M.2 option. . Agent: For the RAID 5 for SSD, it would be the on board RAID is that ok with you?. Customer: Here's my complete config: 2 x Intel Gold 6326 4 x 64GB DDR4 1 x 256GB M.2 NVMe 3 x 2TB DC P4510 2 x 4TB DC P4510 NVMe SSD 3 x 3.84TB PM883 SATA SSD AIOM 10-Gigabit (2 x SFP+) the 3 x 2TB DC P4510 are in RAID 5 the 2 x 4TB DC P4510 are in RAID 1. Agent: For the M.2 we only have 480GB, 800GB and 960GB are available. Customer: the 3 x 3.84TB PM883 are in RAID 5 I had the 256GB configured and in my shopping cart. Can you give me prices on those options?. Agent: I'm sorry, the configurator might got glitch at the moment. Let me check the price option for you They are \$147 for 480GB, \$243 for 800GB, and \$208 for 960GB. Customer: I'll take the 480GB. . Agent: ok. Thank you for the information. . Customer: Here's a copy of the config in my shopping cart: Supermicro CloudDC SuperServer (SYS-620C-TN12R) See Details CPU 2 x Intel® Xeon® Gold 6326 Processor 16-Core 2.90 GHz 24MB Cache (185W) Memory 4 x 64GB DDR4 3200MHz ECC RDIMM Server Memory Storage NVMe 3 x 2TB 2.5" DC P4510 NVMe PCIe 3.0 Solid State Drive (3 x DWPD) NVMe 2 x 4TB 2.5" DC P4510 NVMe PCIe 3.1 Solid State Drive (3 x DWPD) SSD 3 x 3.84TB 2.5" PM883 SATA 6Gb/s Solid State Drive (1.3 x DWPD) M.2 1 x 256GB M.2 XG6 NVMe Solid State Drive Networking 1 x AIOM: Supermicro 10-Gigabit (2 x SFP+) Ethernet Network Adapter 1 x 1 Dedicated IPMI LAN Port 1 x Intel VROC For RAID Support Accessory 1 x Supermicro Rackmount Keyboard and Mouse Combo (Included) 3 x CBL-SAST-1236LP-85. Agent: Thank you! Please give me a moment while I'm working on your configuration. Customer: So, back to my question about the RAID configuration. It only shows me the SATA SSD's if I select VROC. If I choose Intel, Premium, or Standard I then see the NVMe SSD's. . Agent: yes, the NVME will need the VROC controller for setting RAID. Customer: But in the configurator if I choose VROC then I can't configure the NVMe drives. . Agent: Which VROC option do you choose for? Also for the SSD do you choose it as the Rear options?. Customer: Nothing in the rear. . Agent: Thank you. Customer: Under Storage Controller it only shows INTEL SATA and shows only the SATA SSD's. If I select the bullet for "Intel" then another storage controller appears. AOC-VROCINTMOD and I see the NVMe disks. . Agent: The Intel VROC is only for Intel SSD You would need to choose the Premium for RAID 5 of 3 NVME. Customer: Do these choices mean different hard disk controllers will be installed based on whether I choose VROC, Intel, Premium or Standard?. Agent: I'm sorry I'm little bit lost No matter you select the VROC: Intel, Premium or Standard it doesn't affect your intel SATA controller. Customer: Understood. When I select Premium, does that mean you're going to install a physical adapter in the server? Or is it just changing the configuration of the bios?. Agent: The Supermicro NMVe AOC-VROCxxxMOD is a hardware key that enables your Intel® Xeon® Scalable Processor motherboard to unlock its Intel-based Hybrid RAID system.
<https://www.supermicro.com/en/products/accessories/addon/aoc-vrocxxxmod.php>. Customer: Now it makes sense. Thank you. Do I pay extra for the hardware key?. Agent: Yes, you will have to pay extra for it <https://store.supermicro.com/clouddc-superserver-sys-620c-tn12r.html> this is the pre-configured link. Customer: How much? The NVMe SSD's in this configuration are Intel. The SATA SSD's are Samsung. Why would I need the Premium version?. Agent: I'm sorry let me check again Yes, you can use the Intel VROC. I'm so sorry for my mistake. However, using the Premium is for flexibility later in case you plans on using 3rd party later on down the line. Do you want to use the Intel one?. Customer: I'd like to know

what the cost is for each of the VROC options. . Agent: For the Premium, it is \$352.3. The Intel is \$22.50 Standard is \$143.10. Customer: I'll stick with Premium. Agent: Sound good.

<https://store.supermicro.com/cloudcc-superserver-sys-620c-tn12r.html> is the pre-configured link for your requirement. Customer: If I change my mind about the disks, is there a way for me to update the configuration? I might want to go with HDD instead of SATA SSD. . Agent: Do you mean you want to

change the drive options right now or later?. Customer: I'm having a conversation with my supervisor about it. Will decide shortly. . Agent: Sound good. . Customer: OK, decision made. Can we drop the 3 x 3.84TB SATA SSD's and replace them with 3 x 6TB 3.5" Exos 7E8 7200 RPM SATA3 6Gb/s 256MB Cache 512E/4KN Hard Drives?. Agent: Please give me a moment while I check for you.

<https://store.supermicro.com/cloudcc-superserver-sys-620c-tn12r.html?p=1> here is the updated link.

Customer: OK, so if I like this configuration I can just add it to my cart and buy?. Agent: Yes, that's

correct. Customer: OK, thanks for your help. . Agent: You're welcome. Please feel free to contact us if you need any assistance or have any question. Is there anything else I may help you with today?.

Customer: Not today, thanks. You've been very helpful. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Bye! Hello. How may I help you? I want to add 2 M.2 Drives,

but can't find the part # for the plastic screws to attach them to the motherboard. Agent: Hi Bob! Let me see if I can find a P/N for those screws One moment. Unfortunately, I couldn't find any part number for the M.2 screws you're looking for. Please try checking with our RMA team. They may be able to assist you. RMA department email address: rma@supermicro.com RMA department part phone #: 1-408-503-8000 option 3. Customer: Thank you Hello. How may I help you?. Agent: Hi Jorge!.

Customer: Hello I need to find out if a the 3 items being delivered for the 21st can be delivered on the 22nd cause Monday the 21st is a U.S. Holiday Is that at all possible. Agent: You can contact FedEx for changing the delivery day or you can pick them up at FedEx. Customer: do they show shipped out. Agent: One moment

<https://www.fedex.com/fedextrack/?trknbr=540500966124&trkqual=12023~540500966124~FDEG>.

Customer: thank you. Agent:

<https://www.fedex.com/fedextrack/?action=track&trackingnumber=540500966135>. Customer: have a

great day. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer:

Hello. How may I help you?. Agent: Hi Chris. Customer: I'm trying to add a configuration to my cart but it warns me that you may not have enough inventory to complete the order.

<https://store.supermicro.com/cloudcc-superserver-sys-620c-tn12r.html>. Agent: How many of this system were you looking to add to your cart?. Customer: 2 Here are the items it warns me about. Home Supermicro CloudDC SuperServer (SYS-620C-TN12R) We currently have "1" of the "480GB M.2 7300 PRO NVMe PCIe 3.1 x4 Solid State Drive (1 x DWPD)" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat" We currently have "3" of the "6TB 3.5" Exos 7E8 7200 RPM SATA3 6Gb/s 256MB Cache 512E/4KN Hard Drive" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat" We currently have "1" of the "Intel VROC Premium for RAID Support" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat". Agent: OK, let me double check the inventory on our end We should have enough for 2 of these systems, but we'll need to move some inventory around before you can place your order. The process will take a couple of hours. Is it alright if I email you back at chris@mcneel.com once everything is ready?. Customer: Yes. Agent: Perfect, thank you Chris Is there anything else I may help you with today?. Customer: No. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Bill. Customer: Hi I would like to know if you can supply the following cable assembly Mini SASHD to MSAS HD Ext cable

length 8m. Agent: I'm sorry, but unfortunately, we don't carry any Mini SASHD to MSAS HD Ext cable with 8 meters long. Customer: do you who can supply?. Agent: I'm sorry, but I'm not sure who can supply. Please check with other third parties Maybe Amazon etc. . Customer: OK thanks. Agent: You're welcome. Can I help you with anything else?. Customer: not at the moment, thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi - just would like to have access to the server configurator. Agent: Hi Matt! Do you already have an eStore account created with us?. Customer: I do and I'm logged in can try logging in and out again, could be a cookie issue. Agent: One moment, let me enable it for your account. Customer: ah, thank you very much. Agent: OK, your account mattprice1@hotmail.com should have access now. Please log out/back in again. Customer: thanks, jim! take care. Agent: No problem! Take care as well. . Customer: Hello. How may I help you? Hi Joe I am trying to buy 2 systems and I got a warning that you only had 1 We currently have "1" of the "SYS-1029U-TR4_" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat" 610aa: I see Let me check. Agent: It does look like we only have 1 in stock at the moment Would you like to order one for now and wait for my update for the second one ?. Customer: Yes, just added the one to the cart. Agent: You will need to order an identical one (with the same configuration) after this purchase correct?. Customer: Yes. Agent: Got it ! I will check the ETA for another SYS-1029U-TR4 for you and update you via email. Customer: Sounds great, thank you Joe!. Agent: Is rayb@corestudycast.com the best email to reach you ?. Customer: yes please. Agent: Got it! Can I help you with anything else?. Customer: No, that's it for today Thank you again. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello~. Agent: Hi Justin!. Customer: I am looking to purchase the item of X9SPV-M4-3QE. is it still available?. Agent: X9SPV-M4-3QE is EOL long time ago. Customer: Aha..I see so no available to purchase?. Agent: It is not available anymore. I am sorry about that!. Customer: Well noted. Thanks for your help!!. Agent: You're welcome. Can I help you with anything else?. Customer: that is all I need at this time!! Thanks again~. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: you too thank Hello. How may I help you?. Agent: Hi Kelly. Customer: Hello, do you have quantity 8 of this item? <https://store.supermicro.com/rail-kit-adapter-set-mcp-290-00061-0n.html>. Agent: Please give me a moment while I check for you. . Customer: thank you so much. Agent: We currently have only 1 in stock, but I can request 7 more for you. Can I email you back via kelly.estes@nutanix.com when the stock is ready?. Customer: Yes please. Do you know typically how long that takes once requested?. Agent: I would expect it complete by tomorrow. Depend on how fast our PM and warehouse process I will email you as soon as the stock is ready. Customer: Thank you. Agent: You're welcome. Can I help you with anything else?. Customer: No thank you for your assistance. Agent: No problem. it is my pleasure to assist you. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Ipex!. Customer: i have order need to submit for tax exemption. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide>. Customer: Hello. How may I help you?. Agent: Hi Daniel !. Customer: I am ready to pay my order, but I can put my billing address in Canada ... I can't... . Agent: I see. I am sorry but our eStore only can sell and ship within the United States Would you

like to check with resellers ? <https://www.supermicro.com/en/wheretobuy>. Customer: Yes, but they have no stock. Agent: I see What are you looking to purchase ?. Customer: MCP-220-00118-0B & SNK-P0068APS4. Agent: I see You can try with our RMA department for the parts RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3. Customer: Ok thank you !. Agent: You're welcome. Can I help you with anything else?. Customer: No thank's. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Thanh! Nice to meet you again. Customer: Hi Liz, you are new agent, aren't you? Nice to meet you Hey, I remember you... Yeah... . Agent: 😊. Customer: Hope you are doing well. How is everyone doing?. Agent: Everyone and I are doing great! How about you?. Customer: Joe, Jim still there? I am ok, thanks. . Agent: Yes, they are 😊 Thank you for asking. Customer: See... Hope someday, will meet you guys... I am about 7 miles from your guys. . Agent: we hope to see you too 😊. Customer: My friends and cousins are working with SM. Anyways, I am looking for Supermicro SNK-P0063AP4 3ea. It's out of stock now. Can you transfer?. Agent: Sure. Let me double check the stock for you, please give me a moment my friend. Customer: Thanks Liz. . Agent: We have it in stock and enough for you to purchase. I just updated the stock for you. Can you please try adding 3 again?<https://store.supermicro.com/2u-active-amd-epyc-snk-p0063ap4.html>. Customer: Thanks Liz. I added 3ea now. . Agent: You're welcome. . Customer: Awesome. You are pro... hahaha. . Agent: Haha. Everyone here can help you though.Can I help you with anything else?. Customer: I am gonna purchase them now to secure the order. Thanks Liz. That's all. . Agent: Sound good! You're welcome. . Customer: Again, hope to see you guys someday. for a quick lunch. . Agent: Same here. We will see each others some day It was nice talking to you. Have a great day, goodbye!. Customer: BB Liz. Take care. Hello. How may I help you? Hello This is our first order on the supermicro US store. . Agent: Hi David!. Customer: Order 1000023918. Agent: Yes, what can I do for you in regards to this order?. Customer: Can you tell me if it is in preparation ?. Agent: Please give me a moment while I check for you. . Customer: I have a doubt about the status because of the payment method If the direct debit has not yet been made, can I pay with the Amex card?. Agent: Are you able to verify the 2 microdeposits that were entered into your account on our website? I think that is what's holding up the production We'll need you to verify this before we can proceed. Customer: At the moment, I don't know how to have the accounting manager That's why I was wondering how to update the payment method. Agent: Ahh I see. Please give me one moment. Would the Amex card have a U.S. billing address?. Customer: yes. Agent: We can cancel your order #1000023918 since the payment hasn't gone through yet, then you can reorder the systems again using your Amex card Will that be fine?. Customer: Yes ok for me. Agent: Thanks David. One moment We'll initiate the cancellation on our end, but it will take a couple of hours. Did you want to wait for me to follow up with you before you reordered the systems?. Customer: If you tell me it's ok, I place the same order directly I just want to avoid having 2x the same command. Agent: You can go ahead and place the order now. <https://store.supermicro.com/wio-server-1u-sys-110p-wtr.html>. Customer: thank you, i will do it right away. Agent: Just in case you run into any issues, I'll be here to assist you. Customer: thank you. Agent: Just wanted to check in with you David. Did you need any assistance?. Customer: Everything is ok, I'm waiting for the manager to come and put his payment information :-)) Thanks for your help. Agent: Sounds good. Thanks David! 😊. Customer: For information, we are very good supermicro customer in Europe and we are going to start a new data center in US Texas) And as we are extremely satisfied with your products, we chose supermicro for the US. Agent: That's awesome! We're very glad to hear that and we hope to continue supporting your server needs 😊 Hopefully having servers on our eStore will make this a lot easier for you, especially with our quick turnaround times. Once this order is successfully

placed via credit card, it should be built and shipped within 2-5 business days. . Customer: We are just a little disappointed not to be able to order configurations with Intel Xeon E-2388G CPUs. :-). Agent: Hopefully that's something that will change in the future once we can add more SKUs. Customer: Chat is idle due to 10 minutes of inactivity. Agent: Looks like the order went through David. I can see it on my end I can also confirm that your previous order has just been cancelled as well. . Customer: Thank you very much for your help. Agent: No problem at all! Is there anything else I may help you with today?. Customer: And see you soon for new orders good bye. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Looking for Part # FAN-0146L4 and cannot find it on your web site. One of these is going bad in my Supermicro chassis. Do you have these for sale?. Agent: Please give me a moment while I check for you. . Customer: OK. Agent: I'm sorry, but unfortunately, we do not carry FAN-0146L4 on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: OK. Agent: Can I help you with anything else?. Customer: Yes, I made an order yesterday (1000023993), when will it ship. Status says it's ready to ship, but does not indicate when it will ship. . Agent: Order 1000023993 was placed at 3:45pm which is after our cutoff time 3:30pm. Therefore the order will be shipped out today instead. Sorry for the confusion. . Customer: Nope, no confusion, it's just that the status didn't indicate when it would ship. Today is great as I paid for overnight service. . Agent: Sounds good. Can I help you with anything else?. Customer: Nope, just need to hunt down that fan. Please try to carry that model in the future if possible as they are hard to find. Hello. How may I help you?. Agent: Hi Ernest. Customer: Am looking at this server there is no price. How does your pricing model work? <https://www.supermicro.com/products/system/2U/2029/SYS-2029UZ-TN20R25M.cfm>. Agent: I'm sorry, but unfortunately, we do not carry 2029UZ-TN20R25M on our eStore, but we do carry some 2U servers. Do you want to check servers that available on our eStore?. Customer: Yes please. The one with PCIe 4x. Agent: Do you have an account with eStore?. Customer: No, I would like to open one. . Agent: Please register an account and let me know your email address. <https://store.supermicro.com/customer/account/create/> We can grant you access to browse and configure our current server selection. . Customer: Ok, my email will be developer@ernestech.com. Agent: Please give me a moment while I check for you. Thank you for waiting. You can access our System tab now once you log out and log back in. <https://store.supermicro.com/customer/account/login>. Customer: I am logged in now. . Agent: https://store.supermicro.com/sys-220u-tnr.html?queryID=d602f835fdaca2b5f646e0f2b758f47c&objectID=2982&indexName=supermicro_default_products This server is 24bays and also use PCIe 4.0. Customer: Got it thank you. . Agent: You're welcome. Can I help you with anything else?. Customer: No, you got me in the right direction. Thank you. . Agent: I'm glad to hear that. Please feel free to contact us if you need any assistance. It was nice talking to you. Have a great day, goodbye!. Customer: TY Hello. How may I help you?. Agent: Hi Steve!. Customer: Hello, How do I setup tax exempt on my order. . Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want

to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you?.

Agent: Hi Kelly!.

Customer: Hi! Can you please provide pricing for MBD-X10DRL-i?.

Agent: I'm sorry, but unfortunately, we do not carry any motherboards on our eStore so I'm unable to provide a price quote for you. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> You can also try checking with our Sales team: Sales dept: Sales-USA@supermicro.com Tel: +1-408-503-8000.

Customer: OK thank you. .

Agent: No problem! Is there anything else I may help you with today?.

Customer: Hello. How may I help you?.

Agent: Hi Michael.

Customer: I have a VAR that can order MEM-DR464L-CL02-ER32 but NOT MEM-DR464L-CL03-ER32. We have used the CL03 successfully in our Lenovo SR635 servers in the past but not the CL02 version is there a material difference and what is it?.

Agent: Please give me a moment while I check for you. .

Customer: Thank you very much!!.

Agent: On the surface level, I'm not seeing any main differences, but here are some of the specs from Micron's website that you can use to see if there are any noticeable differences: MEM-DR464L-CL02-ER32 <https://www.micron.com/products/dram-modules/rdimm/part-catalog/mta36asf8g72pz-3g2/mta36asf8g72pz-3g2b2> MEM-DR464L-CL03-ER32 <https://www.micron.com/products/dram-modules/rdimm/part-catalog/mta36asf8g72pz-3g2/mta36asf8g72pz-3g2e1>.

Customer: So my concern is as such ... the "validated motherboards" are different for the different part numbers - would Supermicro support running this these RDIMMs interchangeably on these motherboards?.

Agent: That may be due to the release date. Motherboards are generally tested with DIMMs that are available during the same year, so if CL02 is an older release, that may be why it doesn't show as a validated option. We don't recommend using RDIMMs interchangeably and recommend using the same RDIMM SKU throughout the motherboard. .

Customer: That's what I was thinking ... and we've done extensive testing with the CL03 sigh

Agent: I'm sorry to hear that 😞 If you'd like, you can try checking with our technical support team to get their input: Tech Support: Support@Supermicro.com Tel: +1-408-503-8000 Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com.

Customer: Hello. How may I help you?.

Agent: Hi Abby!.

Customer: looking to buy SYS E300-8D with 2x8GB RAM + 500G SSD do you know the price or who can i contact? i will need qty 20.

Agent: One moment.

Customer: what is ETA if i place an order?.

Agent: I am sorry but our eStore doesn't carry E300-8D, will you consider a different mini chassis server?.

Customer: do you know who i can contact to buy it?.

Agent: You will need to contact resellers for the availability <https://www.supermicro.com/en/wheretobuy>.

Customer: ok. thanks. you have a good day bye.

Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you?.

Agent: Hi Manuel.

Customer: hello, I am placing an order for two rotating fan but when I place the order, it says there was a problem with my payment method, however, there is a charge on the credit card bill.

Agent: Yes, May I know where are you located, please?.

Customer: I am located at Mexico and I am placing a Florida address this is the error.

Agent: I see. I didn't see the order when through since AVS is not match Can you please check with your bank for this issue? It should be the problem with 9 digits zip code of billing address.

Customer: mmmmm, but there is a charge made at the bank, I sent the approval transaction but at your system I got stuck at review and payments page.

Agent: On my end, we only see your payment transaction is failed.

Customer: I have been charged.

Agent: We are not charged until the product is shipped.

Customer: and this has been charged twice.

Agent: You can check with your credit card or bank for this issue.

Customer: and if they

say this has been charged?, what is your next step. Agent: Please give me a moment while I double check for you. Those charge will be released since the order was failed. Please contact your bank when they will release your transaction. . Customer: ok, thank you, It seems the only way is to speak to the bank thanks!. Agent: You're welcome. I hope they will release it soon Can I help you with anything else?. Customer: no, thanks. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: same to you Hello. How may I help you?. Agent: Hi Michele!. Customer: can you let me know when order ID 1000023821 will ship? it's been sitting in 'ready to ship' status for quite some time. . Agent: Please give me a moment while I check for you. . Customer: thanks. is there a tracking number please? i don't see it in my account or emails. . Agent: If there is one, I'll let you know here. We're currently looking into the status of this order for you. . Customer: oh weird. sorry i thought i read 'delivered' in the chat. sorry. it was that my message to you was delivered. it's been a long week. . Agent: No worries Michele. Fridays almost here 😊 Please bear with me for a few more minutes while I check for you. . Customer: thanks. Agent: It looks like our logistics team is a bit tied up right now. Is it alright if I follow up with you via email once I hear back? I don't expect it should be too long. . Customer: yes. email is great. thank you. . Agent: No problem! Is mhertzler@outwardinc.com a good email to reach you at?. Customer: yes. Agent: Perfect, thank you Michele. I'll reach out to you as soon as I have an update and I apologize for any inconvenience this has caused. Is there anything else I may help you with today?. Customer: that's all. thank you. . Agent: No problem! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Bond !. Customer: Hi! I'm interested in ordering a large quantity of Supermicro SAS cables I think there's not enough in your store and I usually have to contact you guys to move inventory. Agent: I see How many CBL-0176L-02 are you looking to purchase ?. Customer: 50. Agent: We have 50 in stock <https://store.supermicro.com/supermicro-internal-minisas-to-4-sata-46-33-23-13cm-with-sideband-15cm-cable-cbl-0176l-02.html>. Customer: I'm also interested in: CBL-0097L-03 CBL-0237L-01 CBL-0278L-01 quantity 50 each too. Agent: Please give me a moment while I check for you. . Customer: yes, of course. thank you. . Agent: I will put the transfer requests in for you I will email you as soon as the stock is ready. Customer: ok, sure! thanks!. Agent: Is the.art.of.server@gmail.com the best email to reach you ?. Customer: yes indeed. Agent: Sounds good Can I help you with anything else?. Customer: no, that would be it. thanks!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? hello. Agent: Hi CH. Customer: with Rail Kit it need ship fee?. Agent: May I know where do you plan to ship it to?. Customer: Oregon(OR) Portland 6705 NE 79th Court. Agent: I see. Rail kit especially will need shipping fee, unfortunately. . Customer: ok. Agent: We don't have shipping discount for rail kit. I'm sorry. Customer: no discount ?. Agent: yes, not for the rail kit Can I help you with anything else?. Customer: the credit card i should leave usa address ? i live in taiwan. Agent: Yes, we only accepts US billing address credit card. Customer: or leave it as My billing and shipping address are the same. Agent: It's depend on the billing address tied with the credit you want to use if it doesn't match with your bank, the transaction won't go through. Customer: can i try to pay if fail,then cancel the order and refund ?. Agent: Yes, you can try. If the transaction failed, we don't charge you though. Customer: ok. Agent: if your bank still posted charge, it will release couple day. or you can contact your bank to release it. Customer: do you live in usa or tw ?. Agent: We are located in the U.S. Customer: ohoh because your working time similar tw. Agent: Oh. We are almost close time. Customer: ok thanks have a good day. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: bye Hello. How may I help you? I just ordered two of the SYS-620C-TN12R servers. I forgot to add SFP+ network transceivers. Can you help me identify the right parts?. Agent: Hi Chris! Are we talking about eStore order# 1000024037?. Customer: Hi Joe, yes we are!. Agent: AIOM: Supermicro

10-Gigabit (2 x SFP+) Ethernet Network Adapter is included in your configuration. Customer: But don't I need to add transceivers?. Agent: Please give me a moment while I check for you. . Customer: Like one of these, for example: <https://store.supermicro.com/aoc-tsr-fs.html>. Agent: Can you purchase the transceivers on eStore?. Customer: Looks like it, but the descriptions are so bad I can't tell the difference between many of them. Also, I'm looking for a 10G Base-T copper transceiver and the e-store only has fiber transceivers from what I can see. . Agent: I see With your server, 10 G we have AOC-E10GSFSPSR and AOM-TSR-FS AOC-E10GSFSPSR https://store.supermicro.com/aoc-e10gsfpsr.html?queryID=5b2090b78eb6e73cd89dcca6357fff5b&objectID=116&indexName=supermicro_default_products AOM-TSR-FS <https://store.supermicro.com/aoc-tsr-fs.html>. Customer: Thank you. Do you have any 10GBase-T copper transceivers?. Agent: Please give me a moment while I check for you. It doesn't seem like we have copper ones on eStore. Can you check the " Tested AIOM " under product page? <https://www.supermicro.com/en/products/system/Cloud/2U/SYS-620C-TN12R> Let me check internally for your request. Customer: Everything there is an add on card. There are no transceivers. Thanks for checking. . Agent: Can I get back to you via email ?. Customer: Sure. . Agent: Is chris@mcneel.com the best email to reach you ?. Customer: Yes. . Agent: Thanks! Can I help you with anything else?. Customer: That's all for now. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Bye. Hello. How may I help you?. Agent: Hi Amanda. Customer: Do you have 18 of the following memory available Supermicro (Micron) 32GB 288-Pin DDR4 2666 (PC4-21300) Server Memory (MEM-DR432LC-ER26). Agent: Please give me a moment while I check for you. We currently have 1 available. I will try to request for 17 more, but can not guarantee since the stock is running very low. Can I email you back via odoma@ipsincorporated.com?. Customer: Yes, that would be great! Thank you. Agent: You're welcome. Can I help you with anything else?. Customer: No, that's all. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? I'm looking for SNK-P3028A4. Agent: Hi Chae-Hun! Unfortunately, that heatsink is not carried on our eStore. Please check with our Sales team or our resellers for availability: Sales dept: Sales-USA@supermicro.com Tel: +1-408-503-8000 <https://www.supermicro.com/en/wheretobuy>. Customer: ok thanks. Agent: No problem! Is there anything else I may help you with today?. Customer: Hello. How may I help you? Hi Joe I have configured a shopping cart of parts to purchase, however I can't place this order myself. I need a quote where I can get our people to write a PO how do I convert this shopping cart into a quote for this purpose?. Agent: Will you be making the purchase on our eStore?. Customer: I will ask our people to make the purchase through standard PO/quote processes. Maybe they can do a CC purchase, but the total \$ amount is >20k and most likely it will be a PO Can estore accept POs?. Agent: You can save the configuration as a quote. However, our eStore only can accept credit card payment or ACH payment, not PO unfortunately. Customer: Is there another method to purchase directly?. Agent: Can you do ACH payment ?. Customer: I can ask them So if I save as a quote, they can load the configuration without having to re-enter the data?. Agent: If you save it as a quote, it will be a pdf file that you can save on your end. Customer: but they have to log into the estore and re-enter the configuration?. Agent: No, you can save the pdf file on your end. Customer: I understand that ... how does a PDF turn into an order?. Agent: I see. You will need to login to your account and check out from there,. Customer: OK ... so if they have their own login account, theywill need to RE_ENTER the configuration into the estore. Agent: Yes, correct. Customer: What a mess So there is no point in making a cart, I just need to tell them the full configuration tell your internet guys to get work on this! :) ... this shouldn't be that hard to save and pass an order to someone else for purchasing Thanks for your help Joe ... I think I can take it from here. Agent: Sounds good Can I help you with anything else?. Customer: I get this error We currently

have "4" of the "3.84TB 2.5" D3-S4510 SATA 6Gb/s Solid State Drive (1 x DWPD)" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat" Doesn't allow me to add to order. Agent: Can you send me your full configuration ?. Customer: I can't add it to the cart ... so I can't save it as a PDF!. Agent: Screen shot please Please give me a moment while I check for you. Please bear with me for a few more minutes while I check for you. Now the stock should be ready Can you try again to add them to your cart ? I am able to add them to the cart. From there you can save a quote We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jeffrey. Customer: Just got this message when adding an item to my cart: We currently have "0" of the "Supermicro 1200W 1U Redundant Power Supply (PWS-1K23A-1R)" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat" Would be happy with any other compatible power supply. Existing failed power supply is PWS-1K21P-1R. Agent: May I know how many PWS-1K23A-1R do you want to purchase?. Customer: Just need 1. Agent: I can request transfer 1 of PWS-1K23A-1R for you. Can I email you back via jabelin@bridgerbowl.com when it is available?. Customer: Yes absolutely thank you!. Agent: You're welcome. Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Robert!. Customer: G'day Jim - just trying to buy a OOB License key for my X11 however it seems your only options for billing address is USA? (I'm in New Zealand). Agent: Ahh, yes. I'm sorry, but our OOB license is only available for US-based customers (US billing address) to purchase. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> I apologize for the inconvenience. Customer: Okay, no dramas - thanks! Take care!. Agent: No problem Robert! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Shenru. Customer: Hey! I would like to purchase a server. I'm located in Vancouver, Canada. I can drive down to Point Roberts to pick it up, but I'd prefer to not do that. Do you work with non-US customers? I do have a US bank card that I can use (It's a mastercard), but I'd prefer to use my Canadian payment method. . Agent: Unfortunately, we only ship within the US and accept US billing address credit card. . Customer: Do you have distributors/retailers in Canada? And how fast can you ship?. Agent: Yes, we do have resellers in Canada, please find them at this link <https://www.supermicro.com/en/wheretobuy>. If buying direct from our eStore, the server should be built and ship within 2-5 business days. Just let you know that: • All of our configurations has been fully validated by our Supermicro system lab. • We offer free shipping for all server orders. (limited time only) • We offer blazing fast turnaround time 2-3 business days if you purchase something via our eStore configurator. • Warranty is 3 years for server, 3 years for parts, and 1 year of cross—shipping. (limited time only) • We may have more storage capacity on our eStore. (Please contact me if you don't see any capacity available). Customer: So, from the moment I place my order, it would arrive within 5 business days?. Agent: yes. Customer: Wow, awesome! Can you ship to Point Roberts?. Agent: Is that the address in the U.S?. Customer: Yup It's not... accesable from mainland US. You have to get through Canada 48.9884° N, 123.0569° W. Agent: Please give me a moment while I check for you. . Customer: Awesome, thanks!. Agent: Do you have an official address?. Customer: I have a PO box there. And I can call our offshore banker for a US bank account. . Agent: I'm sorry, but

unfortunately, we cannot ship to PO box. . Customer: No, not like a postal service PO box. More like a... umm... Private parcel service. We get a customer number, and we can receive packages through that. . Agent: So there is someone accept the package for you at that location?. Customer: Yes, there is the clerk of that business. . Agent: Can you give me the address? I can try it on our end. Customer: <https://inoutparcel.com/> 145 Tyee Dr Point Roberts, WA 98281 United States. Customer number # 123456. Agent: Please give me a moment while I check for you. . Customer: Thanks!. Agent: By the way, do you have an account with us?. Customer: No, how can I create one?. Agent: Please register an account and let me know your email address. <https://store.supermicro.com/customer/account/create/>. Customer: Thanks!. Agent: You're welcome. . Customer: Umm, The target application is commercial use Do we have to use it for commercial use?. Agent: no, you don't have to. Customer: Awesome. How much would a server that can: Run 1 instance of nextcloud Run 3 WP sites Run 1 instance of Apache Run 1 Postmark email server Run 3 IRC servers Run 2 FTP servers cost? (Raid 5 preferred) (16TB is enough in HDs). Agent: It will be hard for me to say about the cost, but I can grant the access for you to configure a server and you will see the cost on our configurator. Customer: Thanks!. Agent: You can access our System tab now once you log out and log back in. <https://store.supermicro.com/customer/account/login/>. Customer: Thank you!. Agent: You're welcome. I tried the address you provided on my end and it is valid. You can try place the order after you add the server to your cart. However, I cannot guarantee the bank security system let it when through. . Customer: Got it Umm There must have been a issue with the configurator... "We can't find products matching the selection.". Agent: May I know which server are you looking for?. Customer: I don't really know to be honest... I'd say some sort of a entry-level server. . Agent: do you want rack server or workstation style?. Customer: I don't need like a full-on hyperconverged infra thing Rack preferred Workstation acceptable Thanks!. Agent: how many bays/drives do you prefer?. Customer: Hmm One moment, let me check with my raid calculator. . Agent: server 1U or 2U?. Customer: Size doesn't really matter. Agent: with RAID 5 you will need at least 3 drives. Customer: Yeah, 4 drives is good for what I need. . Agent: mainstream is a good option for entry-level. Customer: 3 is acceptable though. Mainstream says "We can't find products matching the selection.". Agent: Can you try this link <https://store.supermicro.com/systems/mainstream.html?p=1?>. Customer: "We can't find products matching the selection.". Agent: How about this link for WIO? <https://store.supermicro.com/systems/wio.html>. Customer: We can't find products matching the selection. Perhaps it might be a issue with my account permissions?. Agent: Did you log out and log back in after I enable your account?. Customer: No, I think it works now :D. Agent: Great!. Customer: Wow, everything is priced very very well. Thank you so much!!. Agent: You're welcome. . Customer: Thanks! Hello. How may I help you? I purchased three server motherboards recently, and I'd like to register them in my portal, but I don't have the. Customer ID for any of them I threw out the docs, didn't realize they were important I do have the serial numbers, of course. Agent: I see Where did you purchase the motherboards from ?. Customer: Newegg and Amazon two from Amazon, one from Newegg. Agent: I see. I am sorry but only direct customers can register their systems through our eStore. Customer: ahhh, I see ok, no worries so - next question. I have a motherboard that I'd like to put an activation key on for BIOS update. Agent: What motherboard is it ? Are you talking about OOB license key ?. Customer: MBD-X11SPM-F-O when I go to Maintenance > BIOS Update, it says I need to activate a key. Agent: Are you physically with the server?. Customer: yes. Agent: OOB license key is for people to do the remote control update. You can update your BIOS without the OOB <https://www.supermicro.com/en/products/motherboard/x11spm-f>. Customer: ah cool, but can I do it

through the BMC interface? I'm running headless. Agent: Please click " Update Your BIOS". Customer: that's what I'm getting when I do that. Agent: You want to do that, you can purchase an OOB key <https://store.supermicro.com/out-of-band-sft-oob-lic.html>. Customer: ahhh, perfect, thanks. Agent: You're welcome. Can I help you with anything else?. Customer: that'll do it!! thanks a lot, have a nice day. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? good Morning, we are transitioning to Supermicro servers for in house and our clients, customers. Ive been searching for a chassis for Supermicro Motherboard MBD-X11SSM-F-B Hello Joe. i cannot seem to find a chassis tower. if you can assist here so we can order one and if there are any good pricing we can take advantage of. . Agent: Are you looking to purchase a chassis ?. Customer: yes, or a whole setup. Hardware only. motherboard, CPU, RAM. we are a reseller and we need to start upgrading our customers units. . Agent: We only sell complete systems on eStore and we do have Mid-Tower available. However they are not with X11SSM-F Would you like to check out the eStore server configurator?. Customer: I can share what we have built in the past, and would like to do the same of a slight upgrade. Agent: Do you have an eStore account ?. Customer: yes sure show me what you ahve have.. I remember setting up an account.. can you check on that?>. Agent: What is the email address for eStore account ?. Customer: it will be under alex@advanced-pc.com. Agent: Okay, let me check. Customer: Thanks Joe,. Agent: Please give me a moment while I check for you. . Customer: sure no problem. . Agent: alex@advanced-pc.com is enabled. Please log out eStore account and log back in and check this page <https://store.supermicro.com/system.html>. Customer: ok let me do that.. and in the mean time you said you may have chassis for ATX Tower servers?. Agent: Here is the link to see the tower chassis servers <https://store.supermicro.com/systems/superworkstation.html>. Customer: Thanks. . Agent: You're welcome. Can you see the configurator now ?. Customer: seems like i haven't received my password reset. Agent: Can you check your spam folder just in case?. Customer: Negative.. nothing yet. by the way, do you have different pricing for resellers i was able to log in, i found my old password. Agent: We don't unfortunately but our price is pretty competitive and the assemble plus shipping time is the fastest compare to others Sounds good So you can see the configurator now ?. Customer: yes i can see the systems now. Agent: That's good. Please take a look and configure your server from there If you have any questions, please don't hesitate to contact us. Customer: Thanks. Agent: You're welcome. Can I help you with anything else?. Customer: do you also sell windows server?. Agent: We do have an option to add OS to the server. Customer: oh ok thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: no that will be all thank you for your help. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: hello. Agent: Hello Jamie. Customer: How do I apply my tax exempt to my order?. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> Hope this helps. Customer: Will the tax exempt be applied to my account automatically when purchasing on the online store?. Agent: No it won't unfortunately, but once you've sent your certificate to us initially, any purchases you have, just email eStore-support@supermicro.com that you want to apply your tax exempt to that particular order# Hopefully in the future, there will be some automation for it, but for now, this is the process. .

Customer: ok, thank you Hello. How may I help you?. Agent: Hi Dan. Customer: hi, i want to get some 2.5 to 3.5" adapters for our chassis but not sure which part to get we have the x10dri motherboard and i'm not sure if the a1 number is our chassie. Agent: I see. Can you please check the serial number of your chassis by this way?. Customer: that looks like it needs to be unmounted to do this?. Agent: No, you don't. It should be on the side of your chassis sliding rail. Customer: ok let me try. Agent: Or you can give me your server part number *serial number. Customer: c8260fe40n20336 says pn cse-826. Agent: Thank you for the information. Please give me a moment while I check for you. The Supermicro (Gen 5.5) Tool-Less 3.5" to 2.5" Converter Drive Tray (MCP-220-00118-0B) <https://store.supermicro.com/mcp-220-00118-0b.html> And Supermicro (Gen 4) 3.5" to 2.5" Converter Drive Tray <https://store.supermicro.com/mcp-220-00043-0n-1482.html> They are both compatible with your chassis You can also check from our main site from this link <https://www.supermicro.com/en/products/chassis/2U/826/SC826BE2C-R920LPB> at the optional parts list HDD Tray Converter. Customer: ok thanks, looks like MCP-220-00043-ON is the best option that way we can keep the same frame and upgrade n place. Agent: Sound great! Can I help you with anything else?. Customer: i think thats it, thanks :). Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jill!. Customer: Can I please get the RoHS and REACH documentation for part number MCP-220-93801-0B?. Agent: Of course. It will take some time for me to get in internally for you. Is it alright if I email you back at Jill.Barlow@collins.com once I have both documents?. Customer: Yes, that's fine. Thank you!. Agent: No problem! Is there anything else I may help you with today?. Customer: No, that's it. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello, i was wondering if i can purchase SuperServer E302-9D directly from SuperMicro?. Agent: Hi Viktor Unfortunately, we do not carry this particular server on the eStore so you'll have to check with our Sales team or our resellers for that one. Would you still like to have access to our server selection?. Customer: Thank you for the info, Kyle. No, i researched this particular server and it fits best for my needs. I did not realize i could get it through a reseller. Agent: You're welcome! Oh you can reach Sales at Sales-USA@supermicro.com or our resellers/distributors: <https://www.supermicro.com/en/wheretobuy>. Customer: Are there diffrent tiers of resellers?. Agent: I'm sure some are larger than others since some may carry more options but I'm not sure of the tiered order. Customer: ok, thank you for your help today. Have a nice day ahead, bye. Agent: Thank you! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Will. Customer: Can you fix the shopping cart so I can buy some cables, It will not let me enter Canada address. . Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> I'm so sorry for this inconvenience. Customer: Then why does the store ask for postal codes and provinces. Agent: The shipping address will need the zip code within the US for delivery. Customer: That is not what I just said, The Cart asks for Postal codes, Provinces. If this is the case FIX THE CART so it does not ask those questions. . Agent: I see. Can you provide the picture please? oh I see. Thank you for the feed back and I will let our development team know. FYI, our eStore will expand to Canada in nearest future. I'm sorry for the confusion. Customer: I am having a hard time finding this cable It would help if I could buy direct. Hello. How may I help you?. Agent: Hi Eric!. Customer: i need hhelp finding a part. Agent: Sure, what part? Would you happen to know your chassis SKU? The handles are generally unique to each chassis. Customer: i dont know sku and i have modified the chassis. . Agent: Hmm OK. Perhaps you can help me by providing a serial number? Please see the Serial Number Guide. <https://www.supermicro.com/en/support/rma/sn>

Without knowing what chassis you have, it will be difficult to find the part number for the handles 😞 .

Customer: i dont think this is unique part, i dont need the side with buttons, just the right handle as pictured. 4u 24 bay from 10+ years ago. Agent: Right, but each chassis family has their own set of handles, like so. It will be hard for me to find which handle will fit your chassis without knowing the SKU Especially if it's a 10+ year old SKU. Customer: those look 2u handles, these have 3 screw holes to the chassis the picture i posted is the exact unit. Agent: Right, but you have to understand I'm unable to do a reverse lookup based off the picture. Customer: try this CSE-847E16-RJBOD1. Agent: Thanks Eric! One moment The part number for the right handle is MCP-290-84606-0V And just in case, here's the part number for the left handle as well. MCP-290-84605-0V. Customer: so how do i order one? i am private citizen with no account or vendor. Agent: This isn't a part that's carried on our eStore, so you'll have to check with our resellers to see if you can procure one: <https://www.supermicro.com/en/wheretobuy>. Customer: thank you for your time. Agent: No problem Eric! Is there anything else I may help you with today?. Customer: that is all, thank you. Agent: It was nice talking to you. Have a great day, goodbye!.

Customer: Eric Stenger left the following comment: the chat was helpful and Jim was nice. I wish the estore could sell the part i need Hello. How may I help you? Hi Kyle, I want to buy two riser cards, part number RSC-RR1U-E8. Agent: Hi Christopher I'm sorry, but unfortunately, we do not carry any riser cards on the eStore. Please check with our reseller/distributors: <https://www.supermicro.com/en/wheretobuy> or with our Sales team at Sales-USA@supermicro.com. Customer: ok thanks Have a good one. Agent: You're welcome and thanks! It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you?. Agent: Hi Josh. Customer: Hi, Liz. Looking to get some GPU power cables for my SYS-610U-TNR I have a 3/4 length GPU in slot 3 CBL-PWEX-1061 looks maybe like a good choice?. Agent: Please give me a moment while I check for you. . Customer: thank you!. Agent: You can use the CBL-PWEX-1017- <https://store.supermicro.com/supermicro-8-pin-cpu-to-2x-6-2-pin-pcie-20cm-gpu-cable-cbl-pwex-1017.html>. Customer: thank you!. Agent: You're welcome. Can I help you with anything else?. Customer: that is all. have a good night!. Agent: It was nice talking to you. Have a great day, goodbye!.

Customer: Josh Unterman left the following comment: thanks, liz! Hello. How may I help you?. Agent: Hi Niels. Customer: Hello, im looking for if the SNK-P0071APS4 is compatible with an ASUS Pro WS C621-64L SAGE/10G motherboard (specifically doesnt get in the way of the PCIE or DRAM slot). Agent: I'm sorry, but unfortunately, we cannot check this heatsink is compatible with the non-Supermicro motherboard because they haven't been tested by our lab. . Customer: That doesnt really help me. Agent: You can try because the CPU of the ASUS Pro WS C621-64L SAGE/10G motherboard is LGA 3647 and the heat sink socket is also LGA3647 But I cannot guarantee since we haven't been tested yet. Customer: Well, i might try, thanks for your time. Agent: I'm sorry for this inconvenience You're welcome. . Customer: Hello. How may I help you?. Agent: Hi Alan!.

Customer: Good afternoon. I just purchased a SuperMicro SYS-5016T-MRB to put into a 14 inch Server Rack. I see that you have some rails that have a narrow depth I need - MCP-290-00085-0N. Do you have 1 in stock?. Agent: I can see if we can transfer 1 for your purchase, but the transfer process will take a couple of hours if approved. Is it alright if I follow up with you via email at aforand@comcast.net once I get an update?. Customer: That would be great! Thank you. . Agent: No problem Alan! Hope to have an update for you soon Is there anything else I may help you with today?. Customer: No. Thank you. . Agent: It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you? Good afternoon, I was looking to purchase QTY:20 of MEM-DR432LC-ER32 but the site was saying that only 15 are in stock. Agent: Hi Brandon, let me check for you. Customer: It told me to reach out to see if there were more available perfect, thank you. Agent:

I should be able to get 5 more but would need to transfer from our warehouse inventory, which may take 3-4 hours to complete, but hopefully sooner. I can email you once they are all available. . Customer: That would be awesome, will there be a hold on the inventory for me to purchase or a direct link?. Agent: No holds unfortunately, and it would be the same link you have currently. I can transfer more than just the 5 pcs just in case another customer purchased that same memory in the meantime. . Customer: That would be great, I'll probably be close to my workstation when the email comes in so it shouldn't be that big of a deal just wanted to make sure I could get the 20 without having to bother someone about it again. Agent: Ah got it Yeah I'll send you the email asap once I get confirmation. Customer: Cool deal, thank you. Agent: You're welcome! Can I help you with anything else?. Customer: That'll be it, thanks Kyle. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Have a good one Brandon Presley left the following comment: Quick resolution and actionable results. Great customer service Hello. How may I help you?. Agent: Hi Ethan. Customer: Hi i have a question about your lifestyle merch is there a discount for SMC employees?. Agent: I'm sorry, but unfortunately, we don't have any discount for employee currently Can I help you with anything else?. Customer: No that is it appreciate your help liz. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Ron. Customer: Hi Liz Im looking for one pc of PWS-802A-1R. Agent: <https://store.supermicro.com/800-1u-pws-802a-1r.html> Please give me a moment while I check the inventory for you. Unfortunately, we currently is out of stock for this power supply. Do you want me to check the ETA for this?. Customer: Yes Please and is my price \$334.04?. Agent: yes , that is correct. Can I email you back via rhoad@applied.com for the ETA?. Customer: Yes Please email me a quote if you can. . Agent: How many PWS-802A-1R do you want?. Customer: Just 1pc for now to fill a customer order. . Agent: For 1 pcs, the price will stay the same. You can fill the RFQ for quote of volume discount at this link <https://store.supermicro.com/quote#PWS-802A-1R>. Our quote agent will give you the price quote for this power. I will also check if we have 1 pcs extra of this power supply to full fill. Customer: Ok thanks I'll be waiting for the lead time as I need it as soon as I can get it. . Agent: I see. I will email you back as soon as I can I will need to check with our PM on this Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Zhian. Customer: Hi I just received the power distributor to replace the faulty one. But I found that the power connector doesn't match I think I have the correct part number for the replacement which is according to the part list from the website the connector is wider than the connector on the power supply (920SQ). Agent: Let me check the power distributor compatible with 6028R-E1CR12T Yes, the PDB-PT826-S8824 is the correct power distributor for this system. . Customer: but how come the connector doesn't match. Agent: Can you please send a picture for the connector of the distributor?. Customer: please give me 3 min. Agent: Thank you for the picture. Hmm, this should be the newer Gen and should be work since it shows compatible on my end. Can I email you back via zhian.guo@gmail.com for this? I will need to double-check with our tech support team to make sure it is work. . Customer: Yes. please email to that email address. Thanks!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: that's it. thanks. Agent: You're welcome. I will email you back as soon as I have the answer. It was nice talking to you. Have a great day, goodbye!. Customer: bye Hello. How may I help you?. Agent: Hi Daniel!. Customer: Hi, I am trying to configure a SYS-110P-WTR, but the options I want aren't supported by the online tool. How can I get a quote put together?. Agent: What specs were you looking

to add to the SYS-110P-WTR? You can let me know here and I can put something together if the parts are in stock Please let me know what CPU, RAM type/quantity, hard drive type/quantity, etc... you're looking for. Customer: Hello. How may I help you?. Agent: Hi again Daniel. Customer: Sorry, the page refreshed. Agent: No worries!. Customer: 1 x Intel® Xeon® Silver 4310 Processor 12-Core 2.10 GHz 18MB Cache (120W) 4 x 8GB DDR4 3200MHz ECC RDIMM Server Memory 1 x 256GB M.2 XG6 NVMe Solid State Drive 1 x 960GB 2.5" PM9A3 NVMe PCIe 4.0 Solid State Drive (1 x DWPD) 1 x 2 RJ45 10Gbase-T Ports 1 x CBL-SAST-1231-85 - Slimline x8 to Slimline x8 30CM Cable (Required Accessory) 1 x MCP-220-00167-0B - 2.5" NVMe Drive Tray (Required Accessory) 1 x Supermicro Rackmount Keyboard and Mouse Combo (Included) That's from the config tool I would like 4 of the 10 storage bays configured for 2.5" NVMe (which I believe requires 3x additional MCP-220-00167-0B trays and an additional 1x CBL-SAST-1231-85 cable). . Agent: Ahh OK. So you only require additional accessories, but everything else regarding the server components are OK?. Customer: I also wanted a TPM 2.0 module installed. Agent: Gotcha. OK give me one moment and I'll see if I can put something together for you. Customer: Great, thanks. . Agent: Sorry for the wait Daniel! We should be able to get this configured for you, but it will take some time. Is it alright if I follow up with you via email at dgandhi@nextdroid.com once we have everything ready?. Customer: That would be great, thanks. I'll also need to know lead time as part of the quote. . Agent: Of course. Our eStore servers are built and shipped within 2-5 business days after we receive your order, so that should remain the same. Customer: Excellent. I'll sign off for now then. . Agent: Sounds good Daniel. I'll have an update for you soon. It was nice talking to you. Have a great day, goodbye!. Customer: You too! Goodbye. Hello. How may I help you?. Agent: Hi Hugo. Customer: yes, we have this server model, SYS-1029TP-DC0R, we want to add memory up to 512GB is this the right memory DIMM to look for?

https://store.supermicro.com/validatedparts/result/index/?memory_ecc=25&memory_rank=179&memory_size=11&memory_speed=1158&memory_technology=189&q=SYS-1029TP-DC0R&utm=vpcorp.

Agent: I can check for you on my end. What type of DIMMs do you want I looking for?. Customer: Hello. How may I help you?. Agent: Hi again Hugo. Customer: hello Liz, we have this system, SYS-1029TP-DC0R, we want to upgrade memory to 512GB, is this the right memory DIMM to look for? Supermicro (Samsung) 32GB 288-Pin DDR4 2933 (PC4 24300) Server Memory (MEM-DR432LC-ER29). Agent: Please give me a moment while I check for you. . Customer: sure. Agent: Yes, the Supermicro (Samsung) 32GB 288-Pin DDR4 2933 (PC4 24300) Server Memory (MEM-DR432LC-ER29) is validated with your system https://store.supermicro.com/32gb-ddr4-2933-mem-dr432l-sl03-er29.html?queryID=d8302a0c19021cf71442c5d10c3bb008&objectID=2645&indexName=supermicro_default_products

Can I help you with anything else?. Customer: Hello. How may I help you? Hi: My name is Melville Nathanson. I am trying to get registered for an account on the e-store. Currently waiting for the Confirmation Key that was supposed to be sent to mel@kristinedittmer.com Can you assist? It's been quite a while and no confirmation code has arrived via my email yet. . Agent: Hi Melville Let me check. Customer: Thank you Sir. . Agent: Ok I see your account. Did you check your junk/spam folder? unless your company has some spam filtering going on too. Customer: I don't see anything in the junk filter. I've emailed with your tech support folks with no trouble. . Agent: Weird, let me try sending you one from my end then. . Customer: Roger that. . Agent: Ok, please check again if something comes in within the next few minutes. Customer: Nothing yet... . Agent: Ok that's oddLet me Your company does not have any spam/email filtering going on? Let me know if you see an email from us, not the confirmation one. Checking if we can get your account approved from our end, please give me a moment. . Customer: Hi Kyle: Getting one of our night folks to send me a test email as well. . Agent: Ok. Customer: Her

message just arrived...no problem. . Agent: Ok so you're account is good then! Can you try logging in?. Customer: Roger that Kyle. My job tonight is to pay for an out of band license. Just sent you a screenshot of the item in my cart. Can you assist?. Agent: Are you able to log in now?. Customer: I'll give it a try. . Agent: If so, you can simply just check out and purchase the OOB license. . Customer: Don't you guys deliver it by e-mail?. Agent: The OOB license would be delivered to you via email within the hour, correct You would then generate the OOB key within your account once the license is delivered to you. Any success logging in?. Customer: Hello. How may I help you?. Agent: Hi Chris. Customer: Hello We recently bought the threaded rail adapter kit but the posts in our rack are too close together and the rail with adapter doesn't fit I was wondering if you have a rail that fits into non threaded round holes instead of us using our rails with an adapter. Agent: May I know your chassis part number please?. Customer: Let me see if I can find it. Agent: Sure, take your time. I'll be here. Customer: I don't think I have access to it now. I'm on my phone. Agent: serial number is also ok. Customer: The current rails we have are MCP-290-00059-0N I believe We would need a rail that is compatible with the same chassis but are for round non threaded racks. Agent: Do you mean this rail kit MCP-290-00059-0B ? https://store.supermicro.com/4u-5u-rail-kit-mcp-290-00059-0b.html?queryID=60df29dc56b743c4394a0c36bd9dc585&objectID=663&indexName=supermicro_default_products. Customer: Yes I believe I got the chassis info AS -2113S-WN24RT. Agent: Thank you for the chassis information and confirming the rail kit part number. Please give me a moment while I check for you. Please bear with me for a few more minutes while I check for you. The only rail kit I can find for the chassis of your system is the MCP-290-00053-0N and it also need the adapter. Customer: Is it shorter?. Agent: It is For 17.2" Wide & 24" Display Chassis https://store.supermicro.com/4u-5u-rail-kit-mcp-290-00059-0b.html?queryID=60df29dc56b743c4394a0c36bd9dc585&objectID=663&indexName=supermicro_default_products It's the same range I believed Oh wait. Customer: The link you sent was for the 59-0N. Agent: this rail MCP-290-00058-0N is shorter <https://store.supermicro.com/2u-5u-rail-kit-mcp-290-00058-0n.html> oh I bad. Let me link the MCP-290-00053-0N https://store.supermicro.com/2u-3u-rail-kit-mcp-290-00053-0n.html?queryID=9ae905b9cebcd53ab9b3502d48cb6e55&objectID=657&indexName=supermicro_default_products It is for 17.2" Wide & 27" Display Chassis Sorry for my mistake. Customer: Ok so the 53 is for 22 inch, the 58 for 27 inch and the 59 for 24 inch. Agent: The MCP-290-00053-0N is for 17.2" Wide & 27" Display Chassis, MCP-290-00058-0N is for 17.2" Wide & 22" Display Chassis, and the MCP-290-00059-0B is for 17.2" Wide & 24" Display Chassis The MCP-290-00058-0N is the shortest rail. Customer: Ok that might be what we need Thanks. Agent: You're welcome. Is there anything else I may help you with today? FYI, you still need the adapter MCP-290-00060-0N for the MCP-290-00058-0N to support round hole racks We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Kyle: The chat dropped me when I purchased the license. I've put in the CC #. Can you look to check the status of the order? Have received no emails yet...and the web page says that the OOB license will be delivered by e-mail. . Agent: Hi Melville, looks like you got through and I see the order. You should be good to go! Since you're not getting emails from us, I would check back in an hour. You can actually check if your OOB license is ready under the Software tab of your account. . Customer: Right area?. Agent: Yeah that's the correct area The 3rd tab Generate Key is where you would use that OOB license. Customer: Any ideas on how we can

resolve the email issue? Would like to be able to communicate with you guys. . Agent: Well I was able to send you a confirmation email but you didn't receive it. No order confirmation for you correct? I would double check with your company's email filter just to make sure its not getting caught there. Let me send you a test email really quick Sent. Customer: Just got an email from you. Responded a moment ago. . Agent: Got it! So it's not supermicro emails, just the eStore one I mean the order/confirmation email still nothing in junk/spam?. Customer: Yep. Only got the one email from Supermicro eStore Support. I'll check the junk again. . Agent: Ok thanks. Otherwise, I would double check with your company's filter or hopefully they turn up later today. . Customer: They have a spam filter in place on the email server. Usually it's pretty good at not trashing real stuff. There is no interface on it, just a cPanel toggle to turn it on and off. . Agent: Ah I see. Customer: Thanks again for the assistance Kyle. I'm off shift in a couple of minutes. How long until the license is ready to go do you estimate?. Agent: You're very welcome! It should be ready within the next 45 min even shorter since you purchased it about 25 min ago Can I help you with anything else?. Customer: Nope...heading home in a min. Thanks again. I'll check it in the morning. . Agent: Sounds good! It was nice talking to you. Have a great night, goodbye!. Customer: Yes Sir! Nice speaking with you as well. You have a nice night Sir. Hello. How may I help you?. Agent: Hi Greg!. Customer: Hi, is there a W480 motherboard in microATX form factor?. Agent: I'm actually not sure, since we don't sell motherboards on our eStore. You can try checking with our Sales team. They might know if there is a microATX W80 motherboard. Sales dept: Sales-USA@supermicro.com Tel: +1-408-503-8000. Customer: ok. Agent: Is there anything else I may help you with today?. Customer: no thanks. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello. Agent: Hi Chris. Customer: I believe we spoke before. Agent: Yes. Customer: I have another question The MCP-290-00058-ON kit says it is for inner or outer installation Do you know how this can be used for outer? It doesn't look like it can be. Agent: Please give me a moment while I check for you. I'm sorry where do you see the kit is for inner and outer installation. please?. Customer: has a short quick inner and outer rail release This rail kit includes*: Inner Rail: 1 x MCP-290-00116-ON Outer Rail: 1 x MCP-290-00114-ON. Agent: Oh. That is the rail part numbers that included in the set MCP-290-00058-ON. Customer: Do you have any outer rails?. Agent: Do you want to look for the Outer Rail: 1 x MCP-290-00114-ON? and purchase it only?. Customer: I guess I'm not sure what is meant by inner and outer I mean the kind that connects to the outside of the rack onstead of pushing into the back. Agent: The sliding rail will need the inner rail and outer rail. Inner rail length decides the pull-out-from-rack distance of chassis Outer rail length decides the post-to-post distance of rack it can support. The rack depth will need to fit in the outer rail's extendable length range. Customer: OK thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: That is. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Joyce!. Customer: Hi, Could you let me know how to get tax exemption?. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> Is there anything else I may help you with today?. Customer: that's all. thanks. Agent: No problem! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Kyle, I want to order 5 of this Supermicro 668W Multi-Output

PS2/ATX Power Supply (PWS-668-PQ) . currently only have 2. . Agent: Hi Jackie Let me check for you We actually only have those 2 pcs left unfortunately, no ETA when we'll get more. If we get an update for more, we can email you about it. . Customer: Thank you, please email me if you have more coming. . Agent: You're welcome and will do! Can I help you with anything else?. Customer: That's all. Thanks Kyle. Agent: It was nice talking to you. Have a great evening, goodbye!. Customer: You too. bye! Hi Do you have the Power supply PWS-1K26P-PQ ? Chat assigned to Tim because SuperBot hasn't replied in 3 minutes Chat assigned to Joe because Tim hasn't replied in 3 minutes Chat is idle due to 10 minutes of inactivity Chat archived due to 60 minutes of inactivity Hi! I would like to know if this cable is compatible with 2029U-TRTP server? Chat assigned to Tim because SuperBot hasn't replied in 3 minutes Chat assigned to Joe because Tim hasn't replied in 3 minutes Chat is idle due to 10 minutes of inactivity 610aa: Hi Igor!. Customer: Hi Joe! Can you help me with this? 610aa: How may I help you?. Agent: Are you looking for CBL-NTWK-0525 ? Are you looking for the compatibility between 2029U-TRTP and CBL-NTWK-0525 ? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com. Customer: Hello. How may I help you? 610aa: Hi Melville!. Customer: Hello Joe. How are you this morning? I'm trying to update the BIOS on a SuperMicro x11SRL-F via the IPMI BMC. Your tech support guys are telling me that the OOB License I purchased last night is not correct. Can you assist? 610aa: I see Did you purchase OOB through our eStore?. Customer: After generating the OOB Key and applying it to the IPMI interface...the interface says that the Node Product Key Status is Activated. However, when going to the Maintenance Tab of the IPMI interface, the Update Bios function is missing. Yes, I purchased the OOB license from your SuperMicro e-Store last night. 610aa: Can you send me a screenshot?. Customer: Yes. Hold for a moment. 610aa: One moment. Customer: Invoice from last night. 610aa: I am sorry about this. Can I get back this via email? What is the best email to reach you?. Customer: My Normal Email is mel@kristinedittmer.com However, we had trouble with that last night, I was not receiving messages from the eStore side. I could receive messages from the regular Tech Support side. Might be better to use my personal email, since it is not on the corporate spam filter: melnathanson@bellsouth.net. 610aa: Thank you! I will email you as soon as I can Sorry for the inconvenience! Can I help you with anything else?. Customer: Thanks for the assist Joe. Are you emailing another license? What did you find out? 610aa: I will need to check internally regarding this OOB for your motherboard. Customer: Roger that. I've got an assignment at another building that will take about an hour. Should I go work on that, and then come back to this chatbox in case e-mail does not work? 610aa: Please wait about 2-3 hours I will email you as soon as I can. Customer: Roger that Joe. Will the Chatbox stay active if the email give trouble like last night? 610aa: We still have the LiveChat on but we can close this window for now. If you don't receive the email, you can always come back to the chat or email me at estore-support@supermicro.com. Customer: Roger that Joe. I'll look for the email. Can you send a test email to the melnathanson@bellsouth.net email address now so that we know if it is working? 610aa: One moment. Agent: Did you receive the email ?. Customer: Yes Sir. I replied to it. . Agent: I have not received the email from you though. Customer: Sent the message to: estore-support@supermicro.com. Agent: Not sure what is going on but at least we know you can receive my email. Customer: Yep. The wonders of the internet. Here is my cell number...just text me. That can't screw up. Melville's Cell: 919-812-7455. Agent: Sorry we don't have the text message service. I will wait a little for the email. Is there anything else I may help you with today? If you dont receive response from me or I dont reply the email for some reason. You can always just email estore-support@supermicro.com. That's a general email

inbox and I am sure I can receive it. Customer: Roger that Sir. . Agent: Or just come to our chat again Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi, I need 38 units of (PWS-1K23A-1R). Can you please release these for me to order? Thanks! 610aa: This item is running really low. Customer: Please advise how many you currently have on hand 610aa: I will check internally and email you to update. Customer: I'll get as many as you have Thank you! 610aa: I see I will let you know Can I help you with anything else?. Customer: I am good. Thanks Joe. Hello. How may I help you? DO YOU HAVE ENOUGH STOCK TO COVER 17 QTY OF P/N CSE-PT26L-B & IS THERE A PRICE BREAK FOR THAT QTY?. Agent: Hi Laurie We might be able to cover that, but I'll have to request for an inventory transfer from our warehouse location, which could take up to 3-4 hours if approved. I believe we do have volume discount for this but you would have to go to the product page (link below) and click on 'request quote for volume discount' and submit it there since another department is in charge of the volume pricing structure. <https://store.supermicro.com/quote#CSE-PT26L-B>. Customer: Thank you!. Agent: You're welcome Did you want me to proceed with the transfer?. Customer: I need to know the stock situation so I can quote it to my customer. However, I don't have the order yet, so I don't want to jump on the transfer until i have it. . Agent: Ah understood. If you need an official quote, I would use the link I provided. From there, an inventory transfer can be requested if you're ok with the pricing as well. . Customer: Thanks!. Agent: Np! Can I help you with anything else?. Customer: no, i am all set. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You too! Hello. How may I help you? Hi, Liz. Agent: Hi Josh. Customer: i'm looking at the ready to ship systems we've not used this before I'm looking at the SYS-220U-TNR wondering if it's possible to order with CPUs that aren't listed. specifically 2x8362 and, if so, what the difference in cost is compared to 6348. Agent: I can help you for that. May I know your full configuration for this system please? Thank you for your information. Please give me a moment while I check for you. . Customer: thank you, liz! i'm also curious if it's possible to order with AOC-2UR668G4 installed into the middle riser i see in the notes on the rear view that it's possible to provide x16 lanes in slot 2 if you use that riser instead. Agent: Sure, let me check for you. Please bear with me for a few more minutes while I check for you. . Customer: thank you!. Agent: I'm sorry, but unfortunately, we can't do this due to the validation. Customer: which? cpu or riser?. Agent: For the riser. Customer: 👍 . Agent: We 're also checking internally to see if we can get 2pcs of the 8362 CPUs to support your order. The price for 8362 CPUs is \$6283 and the 6348 CPU is \$3511. Customer: got it. so, it's possible and the cost increase would be 2* (6283 - 3511) but you're maybe still not sure about availability?. Agent: Yes, we are checking internally for the stock of 8362 CPU. Customer: how would it work to go ahead with such an order? it'd be through you/chat since that option isn't selectable with the online tools?. Agent: If the 8362 CPU are available, I can send you the pre-config link and you can purchase from that Can I email you back via josh@pntfin.com for both availability and pre-configured link?. Customer: yes! thank you, liz! 2 more questions, if you don't mind. Agent: You're welcome. Sure, I can help you on that. Customer: if i wanted to buy one of those other riser cards to see if it worked myself, could i do that directly from supermicro? or would i have to go through a reseller? i don't see it in the supermicro estore. AOC-2UR668G4-O my last question (i think!) is whether you would expect SYS-240P-TNRT to become a "ready to ship" system or if there's a different way i could get a quote for one. . Agent: 1) We unfortunately don't sell this AOC-2UR668G4-O on our eStore, so you have to go through our reseller for this card. I'm sorry for this inconvenience 2) Normally, our system will be built and

shipped within 3-5 business day after you placed the order with credit card For the SYS-240P-TNRT, we don't carry it on our eStore and you also can go through our reseller for that system
<https://www.supermicro.com/en/wheretobuy>. Customer: ok. thanks, liz. for all of your help. please do send me a link for the 8362 option if you can. Agent: You're welcome. And yes, I will let you know as soon as I have answer for availability of this CPUs. Customer: thanks! have a good day!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Josh Unterman left the following comment: yet again, liz was fantastically helpful! Hello. How may I help you?. Agent: Hi Kate!. Customer: Hi, Jim! The website says this product is out of stock but that you might be able to order one for me. I just need one. Is there one available? Supermicro 1000W 1U Redundant Power Supply (PWS-1K03A-1R). Agent: Please give me a moment while I check for you. . Customer: Thanks!. Agent: We should be able to accommodate your request. I'll initiate an inventory transfer on my end and once it's approved and completed, I'll follow up with you via email at kate.tucker@bladediagnostics.com so you can proceed with purchasing. The transfer itself should take a couple of hours. . Customer: Perfect! Thank you so much, Jim!. Agent: No problem Kate! Is there anything else I may help you with today?. Customer: That's it. Thanks!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You, too! Hello. How may I help you?. Agent: Hi Pilar !. Customer: I am looking to purchase quantity 2 of part# PWS-668-PQ through your website. Can you please confirm the lead-time of these items?. Agent: Please give me a moment while I check for you. We do have 2 in stock. <https://store.supermicro.com/668w-atx-pws-668-pq.html>. Customer: great, thank you!. Agent: You're welcome. Can I help you with anything else?. Customer: Hello. How may I help you? Hi, I work for the University of Texas Austin and I have an account set up with Supermicro. We should not be charged tax. How do I provide you with our tax exempt form and also request a credit on tax that we were charged on a previous invoice?. Agent: Hi Medina We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected.
<https://store.supermicro.com/tax-exemption-guide> Hope this helps!. Customer: Great. Thank you so much. :). Agent: You're welcome! Can I help you with anything else?. Customer: No thank you. Have a great day. Hello. How may I help you?. Agent: Hi Joseph. Customer: Hello I wanted to inquire about the product SYS-120GQ-TNRT This would be my first time purchasing a rack server. My company was interested in SuperMicro. How do we start this process in building?. Agent: I'm sorry, but unfortunately, we don't carry the SYS-120GQ-TNRT on our eStore. Are you interested in other system than SYS-120GQ-TNRT? You can create an account with us and we can enable the access for you to look at our system configurator. <https://store.supermicro.com/customer/account/create/>. Customer: Ok I will create an account Is that how I would order any rack servers? or is there a specfiic process?. Agent: Please let me know your email address after you confirm it. Customer: joe.ylagan@cyrusbio.com. Agent: Thank you Please give me a moment while I check for you. . Customer: ok. Agent: You can access our System tab now once you log out and log back in. <https://store.supermicro.com/customer/account/login/>. Customer: Gotcha. Agent: <https://store.supermicro.com/system.html>. Customer: I will peruse the page. Agent: FYI, we only accept credit card and ACH bank transfer as the form of payment at the moment. . Customer: Ok sounds good thanks for the heads up. Agent: You're welcome. Is there anything else I may help you with today?. Customer: Not at the moment. Agent: Please don't hesitate to contact us if you

need any assistance. It was nice talking to you. Have a great day, goodbye!. Customer: Actually i have one question! SOrry. Agent: sure. Customer: Products out of stock. Do yall usually get stock frequently or would I be pretty much out of luck?. Agent: For the product out of stock, can I know which specific system do you look for? I cannot tell how long they will come back for all, but I can check internally for the ETA for specific one. Customer: Can I send 2-3? Here's one: Supermicro 1U Ultra SuperServer (SYS-120U-TNR). Agent: Sure. Customer: <https://store.supermicro.com/ultra-server-1u-sys-1029u-tr4.html>. Agent: You can send me all the servers that you want to check. I will email you back for the ETA after checking internally. Customer: Alright just a sec. Agent: Sure. Customer: Hm do you know if any of these are GPU capable? Im having a hard time finding some. Im using this as reference <https://www.nvidia.com/en-us/data-center/resources/vgpu-certified-servers/> Alright so I've been doing research on Supermicro Workstations and rack servers. The ones on the website don't seem to match my criteria. Agent: GPU for rack server, I have to create a pre-config link for you though. For GPU selection on the eStore configurator, it is only available for workstation unfortunately I see. Customer: Can I try that? We may be interested in workstations Do yall have third-party suppliers that I can contact for GPU rack servers?. Agent: <https://store.supermicro.com/systems/superworkstation.html>. Customer: Trying to weight out my options :D. Agent: You can contact our resellers through this link <https://www.supermicro.com/en/wheretobuy>. Customer: Ok I will look at that When you say pre-config link, what do you mean by that?. Agent: For GPU option on workstation you can find it at Add On Cards sections. Customer: Ok. Agent: For pre-config link, it will look similar to this link <https://store.supermicro.com/sys-610u-tnr-pre-config.html>. Customer: Oh I see gotcha Ok, I will check out the 3rd parties!. Agent: Sound good then. . Customer: Thanks Liz. Agent: Is there anything else I may help you with today?. Customer: Nope. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Bond!. Customer: Hi. I spoke with a person going by "Joe" last week. he was supposed to contact me when certain items are in stock. I never got that email. . Agent: Can I ask which items you inquired about?. Customer: i was planning to place a \$2000 order of cables. there was a list of them... do we have to start over? or can you look up the previous conversation?. Agent: I'll see if I can pull up the previous conversation One moment It looks like QTY 50 of the below cables? CBL-0097L-03 CBL-0237L-01 CBL-0278L-01 CBL-0176L-02. Customer: yes, 50 each of each cable. Agent: It looks like there should be enough stock for all 4 cables for you to place your order Can you go ahead and try adding 50 of each to your cart?. Customer: ok. so i should just go ahead and place the order now? ok. one second. Agent: Yes, if you're able to add 50 of each cable to your cart. Customer: can't add CBL-0097L-03 . says only 11. Agent: OK. It looks like all the cables might have the same issue. I can confirm that the inventory has been transferred over, but we'll just need to update the count on our website It should take about one or two hours. Can I follow up with you via email once the inventory count has been updated?. Customer: ok. yes, please do. . Agent: Thank you Bond. I'll reach out to you as soon as it's completed. Is there anything else I may help you with today?. Customer: nope, that's all. thanks Jim. Agent: No problem! It was nice talking to you. Have a great day, goodbye!. Customer: you have a great day my friend! Hello. How may I help you?. Agent: Hi Curtis!. Customer: I'm looking to purchase three of the PWS-702A-1R power supplies but it says out of stock. Do you have an ETA on when they'll be back in stock?. Agent: Please give me a moment while I check for you. . Customer: Thank you!. Agent: I can check and get back to you via email. Customer: That would be excellent. . Agent: Is callworth@panthersys.com the best email to reach you ?. Customer: That's the best one. . Agent: Thanks ! Can I help you with anything else?. Customer: That is all I needed. Thank you so much and have a great day!. Agent: You're welcome. It was nice talking to you. Have a great day,

goodbye!. Customer: Hello. How may I help you? hello i am enquiring about this power supply
Supermicro 500W 1U Multi-Output Power Supply (PWS-505P-1H) i am looking for 9 of this. Agent: Hi
Hendy. Customer: Hello Kyle. Agent: Let me check on availability for this. Customer: sure. Agent:
Currently, PWS-505P-1H is not available till March due to shortages so I would check back next week or
in 2 weeks. . Customer: ok ty. Agent: you're welcome! Can I help you with anything else?. Customer:
nope ty!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help
you?. Agent: Hi Patrick. Customer: Hello. I was wanting to find out how I could get tax exempt tied to my
account for my order?. Agent: We do accept tax-exempt, but it would be applied after the purchase not
during the time of purchase. In order to apply for tax exemption, you would need to provide valid
certificate, which you can send to estore-support@supermicro.com along with your order number. Your
tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes
up to 10 business days for the tax amount to return back to your original form of payment. Before
submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions
will be rejected. <https://store.supermicro.com/tax-exemption-guide> We currently don't do tax exempt
automatically. I'm sorry for this inconvenience. . Customer: The information you provided is what I
needed, thank you. . Agent: You're welcome. Can I help you with anything else?. Customer: That is all.
Thank you. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer:
Hello. How may I help you?. Agent: Hi Joyce!. Customer: Can you support 24x FAN-0095L4?. Agent:
Please give me a moment while I check for you. Unfortunately, it looks like we only have 9 left in stock
with no ETA on when we will be receiving more. You can check with our resellers for additional
availability if you'd like: <https://www.supermicro.com/en/wheretobuy>. Customer: where will the
products be shipped from?. Agent: If ordered from our eStore, it will be shipped from San Jose, CA.
Customer: thanks. Agent: No problem! Is there anything else I may help you with today?. Customer:
that's all for now thanks. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Joyce
Chen left the following comment: quick response Hello. How may I help you? Hi, have a power supply,
model number PWS-502-PQ, that fried. Seems like it might no longer be available, any way to see what
should be compatible? I believe the model of the chassis is 733TQ. Agent: Hi Isaac, yeah that one is end
of life. PWS-668-PQ is the replacement, but let me check if its even available. Customer: Thanks a lot!
And that should be compatible, if I can find one?. Agent: It should be if it's the direct replacement
<https://store.supermicro.com/668w-atx-pws-668-pq.html> we do have it in stock. Customer: Got it, let
me look at that. Agent: Sure. Customer: And I assume that should fit in the chassis?. Agent: What's the
complete chassis#? It should if you provided 733TQ, this model has it installed
<https://www.supermicro.com/en/products/chassis/tower/733/SC733TQ-668B>. Customer: Not 100%
sure, all I have is: Supermicro 733TQ Tower chassis w/4 Hot-Swap bays & 500W PS. Agent: Oh ok, yeah it
should work. Customer: Awesome, thanks so much!!!. Agent: You're welcome! Can I help you with
anything else?. Customer: Think that's it for now, thanks so much for your time and expertise!. Agent:
Np at all! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?.
Agent: Hi Anthony. Customer: Just created account. Would like to configure a system. Need a 1U rack
mount server for <\$1200. Agent: May I have your email address that tied with the account please?.
Customer: anthony.antonoff@zenith.com. Agent: You can access our System tab now once you log out
and log back in. <https://store.supermicro.com/customer/account/login/>. Customer: ok, i will do that
now. Agent: <https://store.supermicro.com/systems/mainstream.html>
<https://store.supermicro.com/systems/wio.html> Can you access to these link?. Customer: yes, working
now. Agent: Great! Is there anything else I may help you with today?. Customer: no, thanks for your

help. Agent: You're welcome. Please let us know if you need any assistance. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? would like to use 480GB m.2 drive in place of HDD in sys-5019s-ml. is this possible?. Agent: Hi Anthony Let me check on this, please give me a moment Please bear with me for a few more minutes while I check for you. . Customer: ok. Agent: Thanks for waiting. It doesn't look like we have any available M.2 options for this, but it does 1x M.2 Interface so it is supported. For now, we only have HDD available. . Customer: how about a sata ssd?\. Agent: No SATA SSDs validated or supported for this one unfortunately. . Customer: Co-worker ordered this. pls refer to order 1000023162. Agent: Ok let me check on that order You're right. I'm not sure why it's not listed as an option other than being out of stock. Would you like that exact configuration?. Customer: yes. need a quote. Agent: Ok sure, how many were you looking for btw?. Customer: just one right now. Agent: Ok, I might be able to put a pre-configured server for you since the SSD is not a selectable option. I can email once it is ready for you. Let me check what the price estimation would be for that exact config from December. It would be around 1400 before tax. Customer: ok. Agent: In terms of availability for the SSD, I'd have to check with our internal team but once I get an update, I can let you know if this option is still available. . Customer: ok. also, are rails available to rack mount this server?. Agent: Typically, most of the servers we sell on the eStore come with the rail kit. However, since this is a short depth server, it may be just optional, let me double check. . Customer: thx. Agent: I'm awaiting confirmation on this, so I'll have to get back to you for this as well. Don't want you spending for a rail kit if it already comes with one. . Customer: thanks. Agent: I'm leaning towards it being you'll have to buy it separately since its optional, but I will have to get verification for it So for this server, 1) awaiting availability of SSD and 2) the need for rail kit I will email you for both once I get an update and if the SSD is available, I will provide you with a pre-configured link hopefully within 24 hours. . Customer: Ok, I need to leave the chat. Thanks for your help!. Agent: You're very welcome. If not tonight, I'll reach out to you tomorrow morning Can I help you with anything else?. Customer: thats it. thanks, bye. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Norman. Customer: is there a video on how to install these? MCP-290-00058-ON. Agent: Please give me a moment while I check for you. I'm sorry, but unfortunately, we don't have any video for the install this rail kit. But let me check if we have any document to show how. . Customer: 😊. Agent: This is the installing instruction document for the MCP-290-00053-ON. You can use this instruction as the reference. Customer: ty bye. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Peter!. Customer: Hi Jim.. we bought a couple of SuperMicro servers to test out for a potential future larger rollout.. so this is the first time I'm playing around with this I noticed the ILO interface (or what its called with your brand) asks for a product key to activate.. where do I find that?. Agent: I'm guessing you're referring to the IPMI interface?. Customer: right. Agent: You would need to purchase an OOB license key in order to activate it: <https://store.supermicro.com/out-of-band-sft-oob-lic.html>. Customer: ah ok. Agent: From the dropdown, select your motherboard, then check out and you should receive a key within the hour. . Customer: Where do I find my motherboard name? All the IPMI interface shows is "SYS-6029P-WTR" but that's not on the list on the page you sent. Agent: Ahh, one moment You'll need to be logged into your eStore account to view this link, but you can find it on our product page for the 6029P-WTR: <https://store.supermicro.com/wio-server-sys-6029p-wtr.html?utm=smcpp> For reference, your motherboard is X11DDW-L. Customer: gotcha. Agent: Is there anything else I may help you with today?. Customer: No thats it for now.. thanks. Agent: No problem Peter! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Andy. Customer: what's the difference

between CBL-SAST-0934-12 and CBL-SAST-0934-1. Both spec are the same. Agent: Please give me a moment while I check for you. CBL-SAST-0934-12 is the replacement for CBL-SAST-0934-1. The difference is mechanical and not electrical or environmental related. The information can be found in BOM under CBL-SAST-0934-12's page. Customer: thanks!. Agent: No problem! Is there anything else I may help you with today?. Customer: that's good, bye. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello, can you tell me how I set up my account to be TAX EXEMPT? hi, does they connect together for dualfan configuration? Chat assigned to Tim because SuperBot hasn't replied in 3 minutes Chat assigned to Joe because Tim hasn't replied in 3 minutes I want to install fans in my case, I have two 3.5" HDD inside, so I think there is only space for dual fan configuration, but i don't know how to attach them Chat is idle due to 10 minutes of inactivity. Customer was queued because Joe had lost internet connection Hello. How may I help you? Hello. How may I help you? Hello. Agent: Hi Alexander. Customer: I am currently configuring the Supermicro 2U WIO SuperServer (SYS-6029P-WTR) currently have it configured using the Intel® Xeon® Gold 5218R Processor 20-Core 2.10 GHz 27.50MB Cache (125W) and then 3 of the 480GB M.2 7300 PRO NVMe PCIe 3.1 x4 Solid State Drive (1 x DWPD) My plan was to use the 3 m2 drives as: 1 boot drive, 2 storage, and then use WD gold hard drives for a storage raid 0 array do you know the compatability of this server with WD gold? 18 tb drives specifically I am planning on getting 4-8 of them and putting them in raid 0. Agent: Please give me a moment while I check for you. . Customer: thanks! thats what my current config looks like btw if that helps. Agent: Thank you. Customer: and the hard drives I was planning on putting in there are the "Western Digital 18TB WD Gold Enterprise Class Internal Hard Drive - 7200 RPM Class, SATA 6 Gb/s, 512 MB Cache, 3.5" - WD181KRYZ". Agent: I'm sorry, but unfortunately, this hard drive is not validated with this system. You can try, but I cannot guarantee it will work or not. Customer: is there a list of validated drives?. Agent: Please give me a moment while I check for you. You can find all the validated drive for this system by this link <https://www.supermicro.com/en/support/resources/hdd/systemhdd?ProductID=85695> This 18TB drive is validated with the SYS-6029P-WTR <https://store.supermicro.com/18tb-sata3-hdd-t18t-st18000nm000j.html> For WD, we only validate the Ultrastar DC HC550. Customer: and these drives are new or refurb?. Agent: HDD-T18T-WUH721818ALE6L4 All drive we sell is new HDD-T18T-WUH721818ALE6L4 is the part number for the WD 18TB Ultra DC HC550. It has been validated with this system. Customer: Thanks! Another question, is there a warrenty that comes with the drives if ordering along with the unit?. Agent: For a server, warranty should be the 3 year labor, 3 year parts, 1 year cross shipment. Customer: does that 3 year parts cover failed hard drives?. Agent: Yes. Customer: Lastly, is there any promo codes or anything like that you could suggest, the price for the build is getting up there... . Agent: Unfortunately, we don't have any promo code at the moment. Customer: Another question, is the server checked before shipmnet? to ensure everything is working or how does that work since no software or OS on it. Agent: Yes, we validated and burn in all systems before we ship out. You don't have to purchase the OS or software if you don't need to FYI, we have free standard shipping when you purchase a server from our eStore. Customer: Thank you for the help, you have been great!. Agent: If you want to take the 18TB WB, please let me know. I can help you with the pre-config. Customer: in the list on the site, there is the "18TB 3.5" Exos X18 7200 RPM SATA3 6Gb/s 256MB Cache 512E/4Kn Hard Drive" listed would you suggest the one you noted or the 18TB from the config list ?. Agent: Please give me a moment while I check for you. Oh yeah, they are the same one I'm sorry, I didn't see it on my end at the first time. Customer: no problem, Thanks again!. Agent: You're welcome. Please let us know if you need any assistance Can I help you with anything else?. Customer: oh lastly what is the video out of this unit? VGA?. Agent: Please give me a moment while I check for you. Yes, it is VGA.

Customer: thanks lastly in the configurator it allows to place 3 m.2 drives but in the screensht it only shows a slot for 1? is it correct it can have 3?. Agent: I'm sorry, this system only support 1 M.2.

Customer: it auto added a "Supermicro PCI-E 2x NVMe M.2 SSD Add on Card" when i add more than 1?. Agent: You can have 3 if using AOC. Customer: AOC?. Agent: Storage controller I meant. Customer: ah ok it seems like it auto added that "Supermicro PCI-E 2x NVMe M.2 SSD Add on Card". Agent: Yes.

Customer: so 1 would go into the mobo and 2 into the pci adapter? ok Thanks!. Agent: You're welcome. Can I help you with anything else?. Customer: I think thats it, thank you!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Alexander Chopra left the following comment: helpful! Hello. How may I help you? I am trying to build a cart and getting this: Add to cart fails The requested qty exceeds the maximum qty allowed in shopping cart It is only one server. Agent: Hi Chad. Customer: Hi. Agent: Sorry you're having issues. For which server is this issue coming?. Customer: Supermicro CloudDC SuperServer (SYS-620C-TN12R). Agent: Ok thanks. Do you have the CPU, memory, and storage specs so I can see what's going on?. Customer: sure Intel® Xeon® Gold 6338 Processor 32-Core 2.00 GHz 48MB Cache (205W) x2 Memory 128GB DDR4 3200MHz ECC RDIMM Server Memory x16 HDD 3TB 3.5" Exos 7E8 7200 RPM SATA3 6Gb/s 256MB Cache 512N Hard Drive x8 NVMe 2TB 2.5" DC P4510 NVMe PCIe 3.0 Solid State Drive (3 x DWPD) x4 Accessory Slimline x8 (STR) to 2x SlimlineLP x4 (STR),FFC,40/40CM, x2 SSD 480GB 2.5" D3-S4610 SATA 6Gb/s Solid State Drive (3 x DWPD) x2 Accessory MCP-220-82616-0N - 2 x 2.5" Hot-Swappable Rear Drive Kit (Required Accessory) x1 AIOM AIOM: Supermicro 10-Gigabit (2 x SFP+) Ethernet Network Adapter x2 Onboard 1 Dedicated IPMI LAN Port x1 Keyboard Supermicro Rackmount Keyboard and Mouse Combo (Included). Agent: Ok thanks, please give me a moment while I check Alright, I was able to replicate the issue. It might be a component that's triggering this as we do have this server available. Let me verify We're investigating on our end, should hopefully be just a few minutes. Thanks for waiting. It looks like the issue may take some time to resolve, hopefully within the next 30 minutes. You can either stay on the chat or wait for my email once it has been resolved. . Customer: i'll stay on chat. Agent: Ok sounds good. I'll let you know here once its resolved then. Thanks for your patience! Can you try again adding to cart?. Customer: Hello. How may I help you?. Agent: Hi Chad. Customer: Hello - I am looking for compatible SFP+ transceivers for the SYS-620C-TN12R I am sure that you have some but the validator doesn't list them. Agent: Please give me a moment while I check for you. You can choose any transceivers below: - AOM-TSR-FS https://store.supermicro.com/aom-tsr-fs.html?queryID=5b4ed26d68eb0ef0ecec66ea4b6103&objectID=932&indexName=supermicro_default_products -AOM-SFP28-25GBE-SR-1-MLN <https://store.supermicro.com/aom-sfp28-25gbe-sr-1-mln.html> -AOC-E10GSFSPSR- <https://store.supermicro.com/supermicro-10g-1g-ethernet-10gbase-sr-1000base-sx-dual-rate-sfp-850nm-lc-transceiver-aoc-e10gsfpsr.html> They are validated with the system SYS-620C-TN12R. Customer: Thank you. Agent: You're welcome. Can I help you with anything else?. Customer: All good - thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jake!. Customer: Hi Jim, Is there a link for Canadian. Customers to configure a Server?. Agent: Unfortunately, no. Our eStore configurator is for U.S. customers only 🙄 If you'd like, you can try checking with our Sales team: Sales dept: Sales-USA@supermicro.com Tel: +1-408-503-8000. Customer: Thanks - I'll e-mail them. . Agent: No problem! Is there anything else I may help you with today?. Customer: Nope - that's it - Have a good day. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? hi, i have old tower server, i want to use SSD hard drive. Agent: Hi Chun What's the server or workstation model#?. Customer: i need Drive Tray to hold SSD 2.5" hard drive , hot-swappable part number MCP-220-00080-

OB. Agent: ok thanks, let me check what the 3.5" to 2.5" drive tray is. Customer: <https://store.supermicro.com/mcp-220-00080-0b.html>. Agent: That is the 3.5" to 2.5" converter drive tray. Customer: i found online, but how can i order?. Agent: You can simply add to cart and check out if you are a US customer. . Customer: but, it doesn't work We currently have "-9" of the "Supermicro (Gen 2) 3.5" to 2.5" Converter Drive Tray (MCP-220-00080-0B)" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat" that's message i got. Agent: Oh I see, how many were looking for?. Customer: two. Agent: Oh thanks, the inventory will be updated shortly. Can you please confirm you can ship this within the United States? You should be able to add 2 now. Customer: i am in Canada. Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Kyle, believe you helped me earlier - looking for compatible rail kits for SYS-620C-TN12R. Agent: Hi Chad, yeah I did talk to you here! Our servers except for the short-depth ones do come with a rail kit already This would come with MCP-290-00053-0N <https://store.supermicro.com/2u-3u-rail-kit-mcp-290-00053-0n.html>. Customer: Perfect - thanks. Agent: You're welcome! Can I help you with anything else?. Customer: Nope - all good. Agent: Ok sounds good. It was nice talking to you. Have a great day and weekend, goodbye!. Customer: Hello. How may I help you? Do you have a specification sheet for part number KYB-MUS-194CB?. Agent: Hi Christopher. Customer: hello. Agent: Let me check. Customer: Also can you confirm this item is TAA compliant? I am looking to purchase these for my government customer. Agent: That I'm not sure, I'd have to check and get back to you on that. I do know these are RoHS and REACH compliant. Customer: ok, can i provide my email for a reply?. Agent: It doesn't look like there is a specification sheet for this keyboard available unfortunately. I'll have to check with the PM and get back to you. Is christopher.wang@raventek.com the best email to reach you on?. Customer: yes, thank you very much for your assistance. Agent: You're welcome! Can I help you with anything else?. Customer: not at this time. thanks. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? 610aa: Hi Todd! How can I help you today?. Customer: Hello I just bought one of your amd workstations at MicroCenter and a little confused on trying to register it , I have the sn for the case and motherboard and power supply do I need to register them separately, also I don't have a customer ID this is just for home use. 610aa: Our serial number checker is for our direct customers since it required a customer ID. Is there something you are looking for in terms of registering the system from us?. Customer: I'm trying to get more hard drives for it but not sure what to get. 610aa: Do you have the system part number that I can looking up? Something either with SYS or AS in the beginning. Customer: All I see is SC 743 for the case and M12SWA-TF for the motherboard.<https://www.microcenter.com/product/643592/supermicro-advanced-workstation-desktop-computer> 610aa: Would it be possible to give me your serial number for the system? On the case. Customer: C7430FJ43MJ0232 610aa: Please give me one sec while I look this up. Agent: please wait while i continue to look this up system is a little slow. Customer: That's ok so am I Kyle transferred the chat to Kyle. Agent: Hi Todd, this is Kyle and I can help you with this. Customer: Hi Kyle. Agent: So you have the SMC case and motherboard? Let me check on that SN. Customer: It was all together when I bought it. Agent: Oh ok, where do you see the motherboard model#?. Customer: It's a M12SWA-TF for AMD. Agent: Ok thanks, we can go off that on what's compatible for it Looks to be in

this chassis <https://www.supermicro.com/en/products/chassis/4U/743/SC743AC-1200B-SQ> what kind of hard drives are you looking for? and capacity. Customer: That looks like it, the front hot swappable 6TB. Agent: There is no valid HDD/SSD list available for M12SWA-TF unfortunately actually since this is a brand new motherboard. I'll have to check with the motherboard PM if there is one Oh give me a moment, I think I know where I can find it as it is a motherboard that's normally ship with another workstation <https://store.supermicro.com/6tb-sata3-hdd-t6000-st6000nm021a.html> is compatible with this motherboard but it is currently out of stock If you need 1 or 2, I can make a request to allocate more. Customer: ok, thanks now I know for the future. I was look for 2 for now. . Agent: Ah ok, understood. So you need 2 right now or later down the road?. Customer: I was looking for now but not urgent, just for a hobby. . Agent: Oh got it. Just let us know whenever you're ready to order. I'll request for 2 today and will email you once they are available. Customer: So back to my original question is do I register this unit? That sounds good. Agent: If you didn't purchase directly from Supermicro eStore or Sales, you wouldn't be able to register the system since it requires a. Customer ID. For any warranty questions, you'll have to check with Microcenter. . Customer: Ok got it, thanks for your time,have a good day. . Agent: You're welcome and thank you! It was nice talking to you. Have a great weekend, goodbye!. Customer: You too, bye Hello. How may I help you? Hello 610aa: Hi Jeff!. Customer: Interested in your A+ SuperWorkstation 5014A-TT is this available 610aa: Yes we actually do have this available on our site but it would be complete system only meaning you'll need to select CPU, Memory and hard drive with it. Customer: Do I need to build one or can I purchase this as a barebone 610aa: Do you have an account on our Supermicro eStore?. Customer: what is the warranty? I don't have an account 610aa: 3 years for parts and labor and 1 year or cross shipment. Customer: Great, will configure and send you my request. thank you 610aa: <https://store.supermicro.com/customer/account/create/> Please register here And provide me with your email I will enable access for you so you can configure 5014A-TT on your end Keep in mind, we do have this system in stock and ready to ship so it will most likely ship within 2-3 business days. Customer: thank you. Agent: did you create an eStore account yet? it looks like you have an account with us already please log into your supermicro eStore account with jeff@raven.net once you login, you can click on the link below <https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html> you must login to your account to see this configurable server. Customer: Liz transferred the chat to Liz. Agent: Please let me know if you have any trouble to see this link <https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html>. Customer: sure, thank you for the help. Agent: No problem, I'm here for help I saw you have an account with us, please log in with jeff@raven.net first then click the link above. Customer: Hello. How may I help you? Hi Liz is Liquid cooling available for A+ SuperWorkstation 5014A-TT. Agent: Please give me a moment while I check for you. . Customer: sure. Agent: Unfortunately, we don't have the liquid cooling at the moment. Customer: OK, thx. Agent: You're welcome. Is there anything else I may help you with today?. Customer: Hello. How may I help you?. Agent: Hi Alex!. Customer: Hello, I need a set of rails - MCP-290-00063-0N - can you tell me how long it will take to arrive if I order today? Thanks. Agent: It depends on what shipping method you choose We offer standard shipping (3-5 business days), expedited shipping (2 business days), overnight (next business day), priority overnight (by 10:30 am to most US addresses; by 5 pm to some remote areas; by noon on Saturdays). As long as you place an order before 3:30pm, the order will be shipped out today. Customer: Your site says the item is "out of stock" ... will it still ship today if I order before 3:3-?. Agent: I see How many are you looking to purchase ?. Customer: only one. Agent: Please give me a moment while I check for you. . Customer:

thanks. Agent: I already put in the transfer request for you. When the transfer is completed, I will email you when it is ready for you The transfer will take about 3-4 houes hours*. Customer: great - thanks! should i go ahead and place the order or wait until the transfer is complete?. Agent: Unfortunately you will need to wait for my email then you can place an order Is rehearsalsf@yahoo.com the best email to reach you ?. Customer: no problem, I will keep my eye out - to confirm, email addr is rehearsalsf@yahoo.com. Agent: Thanks!. Customer: thanks. Agent: You're welcome. Can I help you with anything else?. Customer: not right now, just need to get those rails. Agent: Got it ! I will email you then. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Robert. Customer: I would like to know if I can just buy a case like thast that. Agent: I'm sorry, may I know what case are you looking for?. Customer: one sec. Agent: Sure Oh do you mean the chassis only?. Customer: Yes. Agent: I'm sorry, but unfortunately, we do not carry any chassis on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: thank you. Agent: You're welcome. Can I help you with anything else?. Customer: Thats all , thanks. Agent: You're very welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Daniel !. Customer: I wanted to get an update on my order. Order # 1000024113. Agent: Order 1000024113 will be shipped out today. Customer: Great, thank you. That's all I needed. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Vikram!. Customer: Hey Joe needed your help I am initial looking for PN# PWS-465-PQ Is that available?. Agent: PWS-465-PQ is EOL long time ago. Customer: PWS-903-PQ What about this one is that one in inventory?. Agent: PWS-903-PQ is not EOL however we don't have any stock How many are you looking for ?. Customer: 1. . Agent: Let me check internally to see if we can get you 1 Can I email you after checking ? Is vshukla@gcmicro.com the best email to reach you ?. Customer: yes sir thank you!. Agent: You're welcome. Can I help you with anything else?. Customer: that is all thank you. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: you too. Chat is idle due to 10 minutes of inactivity Hello. How may I help you? Hi. I am looking into this SKU SYS-510T-ML What is the availability?. Agent: Hi Agnel Let me check. Customer: ok Also, We are tax exempt We need to setup an account for City of Danville, IL. Agent: Ok got it. We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> Please give me a moment while I'm checking on availability. Customer: ok. Thanks. Agent: We do have this server in stock ready to be configured: <https://store.supermicro.com/mainstream-1u-sys-510t-ml.html> Do you have an eStore account with us?. Customer: no. I do not have an account. Agent: Ok, please create one so you can view and purchase the server on our eStore: <https://store.supermicro.com/customer/account/create/>. Customer: will do. Agent: Once you confirm your account, let me know. Customer: ok just created it. Agent: ok thanks You should be able to view the link I provided now once you log into your account you may have to log out and log back in just in case. Customer: ok waiting for conf email not hsowed up yet. Agent: Ohh. Customer: i checked my email filter also. Agent: Not in junk/spam folder?. Customer: no. Agent: Ok, I resent one to adsilva@cityofdanville.org if that is correct. Customer: ok. Agent: any email come in?. Customer: go tit it. Agent: That's great, just took awhile. Customer: ok i will email. Agent: You able to view the server?.

Customer: lookin at it now. Agent: Ok sounds good. Let me know if you have any questions. . Customer: Can you look at my shopping cart I need a bigger secondary hard drive 4-6 TB 1 TB m.2 for OS and second one for storage when I tried to add bigger hard drive it said some accessory was not available. Agent: I cannot from my end unfortunately. Hmm, let me check on the availability of the 4-6TB drive. Customer: If I ordered today, how long before we receive this?. Agent: If you ordered today, it would take about 1-2 business days for assembly. From that point, delivery would depend on the shipping method chosen as we have overnight/priority overnight (basically next day once it ships after assembly), expedited (2 days), and then standard. If you need it by end of the week or first thing next week, overnight would be the best option You have to set quantity 0 for the 1TB HDD and then choose the 4 or 6 option Then go to M.2 tab and choose 1B option. Customer: ok. Agent: Are you talking about the rear drive?. Customer: yes or secondary drive I want 1 TB m.2 for OS and 6 TB for storage. Agent: Oh ok, so just 1 qty M.2 and 1 qty 6TB storage? Under Main storage, just put 0 qty for 1TB HDD and choose the 6TB option. Next to that tab, under M.2, choose the 1TB option. Customer: yes. Agent: You should be able to add to cart with that configuration. Customer: got it What is the warranty on this build ?. Agent: Warranty is 3 years for server, 3 years for parts, and 1 year of cross—shipping. . Customer: ok great. Agent: Can I help you with anything else?. Customer: Thanks for your help!. Agent: You're welcome! If there isn't anything else I can help you with, have a great day! Feel free to reach out to us if you have any further questions. Goodbye!. Customer: nope Thanks Hello. How may I help you?. Agent: Hi Jason. Customer: Hi Liz. Can you help with server specs? inquiry? I purchased a SYS-7049P-TR barebone server 6 months ago and i would like to buy another. . Agent: I see. Do you look for the complete server or just barebone for this SYS-7049P-TR?. Customer: Hello. How may I help you?. Agent: Hi again Jason. Customer: hi! I can't browse your web site otherwise I get kicked off the chat sorry. Agent: No problem Do you have an account with us?. Customer: no. Agent: I see. Can you see this page? https://store.supermicro.com/full-tower-sys-7049a-t.html?queryID=117b8340924d70fab38cef916bab3cfb&objectID=2638&indexName=supermicro_default_products Our eStore don't carry the SYS-7049P-TR at the moment, but we carry the similar one is SYS-7049A-T. Customer: the 7049P had dual power supplies, this one looks like it is setup as a workstation, not a server. I saw the 7049a. . Agent: Are you looking for tower server only?. Customer: yes I was. . Agent: I see. This workstation SYS-740A-T also has dual power supply <https://store.supermicro.com/sys-740a-t.html>. Customer: ok, let me look. Agent: You can see more spec of this server on our main page. <https://www.supermicro.com/en/products/system/Workstation/Tower/SYS-740A-T> Is there anything else I may help you with today?. Customer: I have to look more closely at the specs. Is there a pre-sales number I can call to speak with someone prior to ordering?. Agent: Unfortunately, we don't have call service on our eStore Can you please provide you phone number? And what time we can call you. Customer: sure 631-375-9753 I am available any time today. . Agent: Thank you so much. We will have someone to call you shortly. Customer: That will be great. . Agent: Can I help you with anything else?. Customer: I don't think so. I appreciate your help. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: you too. bye! Hello. How may I help you?. Agent: Hi Sam !. Customer: Hi Joe, I am interested in purchasing SYS-5039C-T from the eStore But I wanted to check DRAM compatibility I have 4 dimms of HMA81GR7CJR8N-XN DRAM. (total 32GB) Would it be possible to check if this will be compatible with the system?. Agent: Please give me a moment while I check for you. . Customer: sure thank you!. Agent: HMA81GR7CJR8N-XN is not tested with SYS-5039C-T. Customer: i see, thanks for the info!. Agent: Here is the list of the memories that are tested for your server <https://store.supermicro.com/validatedparts/result/index/?cat=11&q=SYS-5039C-T>. Customer:

got it thanks for your help. Agent: You're welcome. Can I help you with anything else?. Customer: no that is all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: thanks you too Hello. How may I help you? Hi, Kyle! Someone from the chat helped me find one of these (Supermicro 1000W 1U Redundant Power Supply (PWS-1K03A-1R)) last Thursday and said they would send me an email with a link to complete the order. I haven't received the email, so I was just following up. Hopefully there is still one available!. Agent: Hi Kate, sure let me check for you. . Customer: Thanks!. Agent: Please bear with me for a few more minutes while I check for you. . Customer: SURE!. Agent: I think we can get 1, but will have to double check again. I can email you with an update if we can or not by today at the very least. . Customer: That sounds great!. Agent: Great! Can I help you with anything else?. Customer: That's it! Thanks so much!. Agent: You're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: I hope you have a great day, too!. Agent: Thank you! Goodbye!. Customer: Hello. How may I help you?. Agent: Hi Laurie. Customer: Yes your site shows stock of PWS-1K23A-1R, but when I add to the cart it says no stock. I have a need for 1. Agent: Please give me a moment while I check for you. I can request transfer inventory for 1 PWS-1K23A-1R. Can I email you back via supplychain@mbx.com when the stock is ready?. Customer: Yes please do!. Agent: Sure. I will email as soon as it is ready. Can I help you with anything else?. Customer: would you be able to get 3 of these? PWS-721P-1R. Agent: Please give me a moment while I check for you. The PWS-721P-1R is currently EOL. Its replacement SKU is PWS-802A-1R https://store.supermicro.com/800-1u-pws-802a-1r.html?queryID=5d330cdd15b8a04bc31abfcb6ec09caf&objectID=1438&indexName=supermicro_default_products We currently have only 1 unit PWS-802A-1R Do you want me request the stock for this power supply?. Customer: No that is ok. Agent: Sure. Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello. I am trying to order one of MCP-290-00063-0N I tried the chat yesterday and was told that one would be transferred from the warehouse so that I could order it. . Agent: Hi Alex!. Customer: I was told that I would receive an email letting me know that the transfer was complete, so that I could enter the order I received no email. . Agent: We are still waiting for the transfer to be done Can I email you once I get an update? Sorry for the long wait!. Customer: please do. i am stuck until i get these rails, and they are not available anywhere. Agent: I see. I will email you as soon as I can. . Customer: How soon can I expect an email? How long should I wait before contacting you again?. Agent: Within today I am sure we will get you an update. Customer: thanks. if i do not see an email today i will contact you again tomorrow. Agent: You're welcome. Yes, please Can I help you with anything else?. Customer: no. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi, I'm looking at your Gen-3 SFF drive trays, and I would like information to the mechanical footprint so that I can make a server of my own compatible with Supermicro drive trays. . Agent: Hi Whisper. Customer: Really what I need is general measurements for the left and right sides so I know how to have an enclosure built/. Agent: We don't provide those specs from our end, please check with our technical support team for this at support@supermicro.com. Customer: Can you at least tell me if you have an SFF tray model in White? I'm getting sick of everything being black. I know the oldest systems you have were beige/grey. Agent: Currently, we don't carry any drive trays that are white unfortunately. Some do have shades of grey with the tabs being the only color change whether its orange or maroon. Customer: Do you have the model number(s) at least? I can't seem to find White SFF trays without seeing dead end advertisements on "mobile rack" assemblies. .

Agent: Nothing in current gen will have the beige/white colors, but let me check if there's a part for the older ones. . Customer: Okay... . Agent: It looks like the only colored ones are OEM versions, not ones we can sell. I do see the a beige G3 tray MCP-220-00047-0W you're looking for the 2.5" drive trays right? not the 3.5 to 2.5". Customer: The 47? That's bizzare. I didn't know that variant had a white verison. Can you tell me the last time it was known to have been sold? And yeah I want the 2.5" trays. . Agent: Yeah pretty rare. We've only sold black/grey drive trays on the eStore for the last 6 years so it might have been just our resellers/distributors that had them or it only came with server/chassis purchases. Customer: Weird. I can't even find it in a search, and I always know where to look, but this thing's a ghost. . Agent: Yeah I wonder if it's been phased out, let me check. Customer: Okay... is that the only White SFF tray model? I've seen it under 2 other SKU's, for a total of 3 known SKU's, but only 2 different models, and neither is listed anywhere (except a handful of full hard drive replacements). Agent: Its the only beige one. there is a G1 version, but that is most likely not available I do see a white version for a 3.5" drive tray, CSE-PT39L, so its not what you're looking for since its not SFF. Customer: Tell me about the M28E2-- I see it's old but has white SFF trays. And so does the M14T. Agent: CSE-PT84L oh those look pretty cool wow, those were before 2010. Customer: There's the PT84L and the PT0120. Same thing, different SKU, same design, different enclosure. . Agent: Yeah PT0120 is Gen 1 84L is Gen 2 Gen 3 is the 47-0W but doesn't look as good as those well it says beige, so it might be white too. Customer: This is where it gets weird; those two models look closer to a Gen.3 based on the shape, but the release tab sticks out kind of, and looks to only have 2 grip lines, whereas another model I saw is like a derivative of Gen.3 and has the same release tab, but in inward-shaped lever on front. . Agent: Ahh I see. Could be a different model than the two listed? From what i can see, I only see the 3 we listed though. Customer: Are you allowed to read URL's people send? I want to show you what I found. This is the other unit I saw, and have no idea which model it could be: <https://www.ebay.com/itm/322494413046>. Agent: I can view the link, it looks similar to the other ones, just kind of a faded picture. Customer: So in that listing, is that the 047-0W? (you can click the picture and it will enlarge also). Agent: I don't have a picture of the 047 in beige (white?), but do have a black version looks similar. Customer: How much of a difference is there between generations as far as mechanical fit?. Agent: That we wouldn't know unfortunately, but typically the newer revision can replace the previous one with no issues so shouldn't be much of a difference other than the appearance of the front side. for these ones though, they are specific to its hardware. PT0120 with M14 and PT84L with M28 47-0W with regular rackmounts. Customer: I guess I have some serious digging to do. Is there any historic indication of which server models would have been shipped with the 047-0W tray?. Agent: No we don't unfortunately, it may have been removed from the main site. The only details we have is MCP-220-00047-0W was used with regular rackmounts. Customer: Okay, at least I have a base model to search. It sucks there isn't more, though... I'm one of the few people who searches every dark corner of Supermicro.com (and Molex.com when I'm bored) for the fun of finding hardware. I'm sure Linus Sebastian would cringe at that. . Agent: Ohh 😊. Yeah sorry wish I could provide you more, but hopefully gives you something to deep dive into. At least you have some part#s. Customer: Is there a way I can get the mechanical details for an existing SFF chassis? I need something to base my design idea off of or the trays won't fit. . Agent: You can try checking with our technical support team at support@supermicro.com or maybe Sales at Sales-USA@supermicro.com. Customer: That'll take days. Thanks anyway. Hello. How may I help you?. Agent: Hi Robert. Customer: Good Afternoon I am on the Website looking at CSE-846BE2C-R609JBOD. Agent: Good Afternoon. Customer: and I can't seem to find it on the estore?. Agent: I'm sorry, but unfortunately, we do not carryany chassis on our eStore. Please

check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: That was easy. Thank you for the quick answer. Agent: You're welcome. Is there anything else I may help you with today?. Customer: That will do it. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: YOu as well Hello. How may I help you?. Agent: Hi Reese. Customer: Hello there! I'd like to cancel my order not yet shipped (1000024177). Agent: May I confirm your billing and shipping address for this order please. Customer: Reese Rankin Allwire Technologies 3329 Sahalee Way NE Sammamish, WA 98074. Agent: Thank you Can you please confirm that you want to cancel this order?. Customer: Yes, I'd like to cancel the order. Agent: Thank you for confirming. I will process to cancel this order Is there anything else I may help you with today?. Customer: No that is all! Thanks so much, I appreciate it. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: You too, byte! bye Hello. How may I help you?. Agent: Hi Dave !. Customer: im looking for 500 pcs M386A8K40CM2-CVF Samsung 64GB PC4-23400 DDR4-2933MHz Registered ECC CL21 288-Pin Load Reduced DIMM 1.2V Quad Rank partials are ok. Agent: Please give me a moment while I check for you. . Customer: thanks. Agent: I'm sorry, but unfortunately, we do not carry M386A8K40CM2-CVF on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: THANKS. Agent: You're welcome. Can I help you with anything else?. Customer: NOT RIGHT NOW. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Bryan. Customer: hey I have a couple supermicro servers we use for their GPIU, currently it looks like I have 1gb nics. i'd like to put 2 10gb nics in each of the servers I have . looking for compatible nics. . Agent: May I have the part number of the server in the question?. Customer: well that's what I am looking for a part number for 10gb nics for System Information Manufacturer: Supermicro Product Name: SYS-4028GR-TR Version: 123456789 Serial Number: S188901X6711658 UUID: 00000000-0000-0000-0000-0CC47A835AD6 Wake-up Type: Power Switch SKU Number: 089215D9 Family: SMC X10. Agent: Thank you for the information. Please give me a moment while I check for you. . Customer: thanks, i have 2 of the 402 and 2 of the 202's System Information Manufacturer: Supermicro Product Name: SYS-2028GR-TR Version: 123456789 Serial Number: S16574225411929 UUID: 00000000-0000-0000-0000-0CC47A19658A Wake-up Type: Power Switch SKU Number: 084315D9 Family: SMC X10. Agent: Which 10Gbs NICs card are you looking for? The RJ45 or SFP+?. Customer: rj45 would be better. Agent: You can use AOC-STG-i2T - Standard Low-Profile Dual-port 10GbE controller with 2x RJ45 (10GBase-T) ports for the SYS-4028GR-TR Let me check for the SYS-2028GR-TR For the SYS-2028GR-TR, the only SFP+ 10GBs is validated with it Standard Low-Profile Dual-port 10GbE controller with 2x SFP+ ports - AOC-STGN-i2S You can check more compatible NICs card for SYS-2028GR-TR here: <https://www.supermicro.com/en/support/resources/aoc/display?id=2BF51467EA9B7F04C8251C2A3159CDA4&Category=MB&prid=83966&function=networking> and compatible NICs card for SYS-4028GR-TR here: <https://www.supermicro.com/en/support/resources/aoc/display?id=894C2685DE4B2D7094C90AEED56E00E2&Category=MB&prid=84987&function=networking> I'm sorry, but unfortunately, we do not carry any NIC cards on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: thanks a ton that really helps. . Agent: You're welcome. Is there anything else I may help you with today?. Customer: nope that was it, thanks again. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: you too Hello. How may I help you?. Agent: Hi Chris!. Customer: Hello We are a local government and tax exempt How can I include this in my account?. Agent: We do accept tax-exempt, but it would be applied after the

purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> Can I help you with anything else?. Customer: I think 10 days is going to be too long I will have to look for a reseller we already have an account with. Agent: Got it ! Sorry for the inconvenience ! Is there anything else I may help you with today?. Customer: Hello. How may I help you?. Agent: Hi Laurie. Customer: What is the lead time for total of 30 pcs of Mfr. Part #: PWS-407P-1R?. Agent: Please give me a moment while I check for you. Can I email you back via lwolfel@comtechefdata.com for this? I will need to check internally for an ETA for this power supply. Customer: Yes that is fine. Email address correct. . Agent: Thank you for confirming Is there anything else I may help you with today?. Customer: No that is it. . Agent: I will email you as soon as I have the ETA information. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? looking into a motherboard. Agent: Hi Kenneth. Customer: X12SCQ. Agent: I'm sorry, but unfortunately, we do not carry any motherboards on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: need to know the cost and lead time OK thanks. Agent: You're welcome! You can try checking with our Sales team at Sales-USA@supermicro.com as well. Can I help you with anything else?. Customer: Nope thats it have a great day. Agent: Thanks! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? CBL-PWEX-0792 just need the unit weight and what the warranty is. Agent: Hi Connie. Customer: hi. Agent: For weight, I'll have to verify and get back to you on that. For warranty its 1 year. Customer: thank you. Agent: You're welcome Give me a moment while I'm still checking. Customer: thank you. Agent: Thanks for waiting. It should be 0.25 lbs. Customer: than you. Agent: Np! Can I help you with anything else?. Customer: Hello. How may I help you?. Agent: Hi Maarten. Customer: Hello Liz, are you a bot or a real person?. Agent: I'm a real person 😊. Customer: good :) I want to buy 1x SFT-OOB-LIC but the problem is, I can't pay as I am from the Netherlands and I can only input USA address lines that means, my credit card does not accept the payment to go trough as the address is incorrect :) can you help?. Agent: I'm sorry, but our OOB license is only available for US-based customers (US billing address) to purchase. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> I'm so sorry for this inconvenience. Customer: yeah, we pretty much need this license tonight as we are in the datacenter currently there's no distri which is helping us now it is 20:59 distri* pretty sure we can get it tomorrow but we just have no time left... :(. Agent: You can contact our Sale team at Sales-USA@supermicro.com to see if they can help Tel: +1 408-503-8000. Customer: let me send them an email immediately can you kind of let them know it is coming?. Agent: Yes, I let them know about this request. Customer: thank you liz! appreciated. Agent: You're welcome. Can I help you with anything else?. Customer: no thank you Liz mail is underway appreciated again!. Agent: no problem. It was nice talking to you. Have a great day, goodbye!. Customer: likewise Liz, thank you! Hello. How may I help you? Hi there. I am looking for suitable rack rails for the server indicated I found these: <https://store.supermicro.com/2u-3u-rail-kit-mcp-290-00053-On.html> .. but on the 'check validity' thingy it says it hasn't been validated. Agent: Please give me a moment while I check for you. Yes, the MCP-290-00053-ON works with your chassis. You can check the compatibility rail set at our main site. <https://www.supermicro.com/en/products/system/2U/6028/SYS->

6028U-TR4_.cfm at parts list area. Customer: Ah, I didn't see that parts list part on the spec page. Thank you. Agent: You're welcome. Is there anything else I may help you with today?. Customer: No, that was it thanks :). Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Derek Piper left the following comment: Guided me to the information I needed. I wish the online compatibility checker would have stated it was compatible though but the agent was very helpful. Hello. How may I help you?. Agent: Hi Manuel. Customer: I am looking for a server like this: ER1UX7SPEHFD525FIO. Agent: Please give me a moment while I check for you. . Customer: thanks. Agent: For short 1U solution server, our eStore carries these server: - SYS-5019S-ML - <https://store.supermicro.com/mainstream-1u-sys-5019s-ml.html> - SYS-510T-ML - <https://store.supermicro.com/mainstream-1u-sys-510t-ml.html>. Customer: about 3 week ago I saw a server with an intel atom processor for about \$429, do you still have it?. Agent: Did you see it on our eStore?. Customer: I think so. Agent: Please give me a moment while I check for you. I'm sorry, but unfortunately, our eStore don't carry any server with Atom processor at the moment. You can contact our resellers or distributors for this at <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today?. Customer: No thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? I need to contact the sales team, sue e-mailed me, what is her phone number. Agent: How may I help you from here?. Customer: I need to speak with Sue. Why don't you have a phone number for me to call? I have a large order. . Agent: What is your phone number please ?. Customer: 541-512-4971. Agent: A representative is calling you now. Can I help you with anything else?. Customer: Hello. How may I help you? Hello Kyle, I am checking on a PO that was sent a few minutes ago PO#BB01560043 it shows that it was sent bia email. Agent: Hi Pavan, POs go to Sales as eStore doesn't accept POs unfortunately. Which email did you send it to?. Customer: epo@supermicro.com. Agent: Ahh yeah that isn't our group unfortunately so you'll have to wait for their response. . Customer: ok thanks, just checking if they can ship it out today. Agent: Understood. Hopefully they can!. Customer: will wait for any response from them then have a good day. Agent: What was it for btw? The product I mean. Customer: Supermicro 8-Pin CPU to 8-Pin CPU 50cm Power GPU Cable (CBL-PWEX-1042). Agent: Ahh I see. We actually have that in stock and ready for purchase too through credit card: <https://store.supermicro.com/supermicro-8-pin-cpu-to-8-pin-cpu-50cm-power-gpu-cable-cbl-pwex-1042.html>. Customer: yeh, but this is for university purchase so I went with their purchasing process. Agent: Oh understood, no worries! Hopefully they can ship out today then! Can I help you with anything else?. Customer: that is it for todya thanks and have a great day. Agent: Thank you! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Melissa. Customer: I would like to know availability for SNK-P0078AP4. Agent: Please give me a moment while I check for you. How many do you need for SNK-P0078AP4?. Customer: I am looking for 50pcs more if available. Agent: I'm sorry, but unfortunately, we are currently out of stock for SNK-P0078AP4. Do you want me to check for the ETA?. Customer: Yes please. Agent: Sure, let me check for you. . Customer: thank you. Agent: You're welcome. The ETA for SNK-P0078AP4 is around mid of May. Please come back to check with us by that time or use the "Notify Me" option on eStore to get notificated by email when the stock comes back. https://store.supermicro.com/2u-active-cpu-cooler-snk-p0078ap4.html?queryID=b9a26cfb1c0ab40cf79251a1ebd38b78&objectID=2769&indexName=supermicro_default_products. Customer: thank you. Agent: You're welcome. Can I help you with anything else?. Customer: Hello. How may I help you?. Agent: Hi Omar. . Customer: Hello Mark I have a SYS-620C-TN12R that I just received, but a power supply doesn't seem to be working. What is the replacement for this?. Agent: I'm sorry to hear that your power supply is working properly. please give me a moment to look

this up. Customer: ok thx. Agent: If you would like to switch over to DC48V Option,PWS-711-1R <https://store.supermicro.com/710w-1u-pws-711-1r.html> is replacement for the battery PWS-1K23A-1R. . Customer: Ok thanks, so I can use PWS-1K23A-1R right? or is that what I have. Agent: The system you have comes with PWS-1K23A-1R Which is in stock on eStore https://store.supermicro.com/1200w-1u-pws-1k23a-1r.html?queryID=126bd7a2f4465924e5dfe5c26c7ec260&objectID=693&indexName=supermicro_default_products. Customer: K great thanks. Agent: Is there anything else i can help you out with?. Customer: Umm yes What is your return policy and how can I send you this faulty power supply?. Agent: For Power Supplies/Power Distributors we have 1 year warranty To return a Supermicro eStore order, please utilize the Supermicro. Customer Reporting Management System to submit a New RMA Request.To return a Supermicro eStore order, please utilize the Supermicro. Customer Reporting Management System to submit a New RMA Request. If you have not submitted a request before, please register prior to doing so. . Customer: Ok great, this is helpful. Agent: Is there anything else i can help you out with?. Customer: No, I'm all set now. Agent: It was nice talking to you. Have a wonderful day!. Customer: Thanks you too Hello. How may I help you?. Agent: Hi Marco !. Customer: Hi, I'm trying to get a network card with 2x 10G ports, preferably RJ45 to expand an SYS-740A-T that we got a few months ago. Agent: I see Please give me a moment while I check for you. . Customer: Sure. Thank you. I checked out the website but could not find it. Agent: Yeah, we dont carry AOC on our eStore unfortunately . I am trying to find a tested one for your server so you can purchase it somewhere else AOC-STGS-I2T will work You can purchase AOC-STGS-I2T through resellers <https://www.supermicro.com/en/wheretobuy> Can I help you with anything else?. Customer: This is all, thank you!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? hi, im here in the philippines. i would like to purchase 5029p WTR server, can u assist me finding your dealers here in our country? thanks. Agent: Hi Jay Sure I can. . Customer: okay. Agent: Redwood Venture Inc. <http://www.redwood.ph/> 2/F BB Corporate Center #32 Pilar St. cor. Agent: you can check around the Asia area as well if others can ship to you. Customer: not resellers right. Agent: Its a mix of resellers/distributors. Customer: okay ill check with them thanks. Agent: otherwise, you can check with Sales Sales-Asia@supermicro.com.tw Can I help you with anything else?. Customer: okay thats all thank you. Agent: you're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Mark!. Agent: Hi Omar!. Customer: I purchased 5014A-TT and i'm looking for 64GB DIMMS can you please help let me know which ones I need to get?. Agent: of course. Please give me moment to look this up. For 64GB DIMMS we have MEM-DR464MC-ER32 <https://store.supermicro.com/64gb-ddr4-3200-mem-dr464l-sl01-er32.html> Its currently in stock on our eStore. . Customer: i have some 2 x 16GB memory in this system since it came with it already it should be okay for me to just add a few 64GBs on there right? don't want the 16GB to go to waste i want to keep it green like Supermicro. Agent: We advise to keep all the memories the same size. Keeping them indential is what we would suggest. What you can do is add two more the ones you have to make it 64GB. Which ones you do currently have?. Customer: i have 2 x MEM-DR416L-HL02-ER32. Agent: Please give me second to see if we have them in stock. . Customer: before you check on that more 16GB won't work for me my application is memory intensive especially with the limited dimm slots this system has. Agent: How much memory are you looking into getting?.

Customer: 8 x 64GB. Agent: I see. Let me see if we have 8 of 64GB MEM-DR464MC-ER32. Customer: thanks. Agent: On our eStore we only have 7 available but i can ask for inventory change to complete 8 available. Is that okay?. Customer: is this memory compatible with the system?
<https://store.supermicro.com/64gb-ddr4-3200-mem-dr464l-sl02-er32.html>. Agent: give me second to look at this. This memory hasn't been not validated. we can't guarantee if it will work well since Supermicro has not tested it. Customer: ok got it how about MEM-DR464L-CL03-ER32? oh wait never mind you guys only have 4 pcs available i'll just look around and will let you know if i need more help. Agent: Of course. let us know if you have any other questions. . Customer: ok will do have a great rest of your day thanks! Hello. How may I help you? Hey Joe!. Agent: Hi Derek !. Customer: Finally got our EPYC CPU - that was a long 6 month wait. Installing Win 10 Pro on the m.2 drives. Can't get the OS Install off USB to fully detect the m.2 drives on the MOBO. Setup sees the drives but only the MSR partition and I'm not given the option to delete / format the drives. Likely a setting burried in the BIOS?. Agent: Can you please check with tech support for this matter? They can be reached at support@supermicro.com or You can call them at 408-503-8000. Customer: Sweet... thanks. Agent: You're welcome. Can I help you with anything else?. Customer: Hello. How may I help you?. Agent: Hi David !. Customer: i'm looking for a motherboard i need 2 cpu sockets, 2 nvme ports and 16 dimm slots for a rack mounted server what do you recommend. Agent: What form factor is this motherboard ?. Customer: what does that mean?. Agent: You can actually look for one from this link
<https://www.supermicro.com/en/products/motherboards/server-boards> Maybe this link rather
<https://www.supermicro.com/en/products/motherboards/>. Customer: ok. Agent: We do not carry motherboard on our eStore. For the availability, please check with our resellers and distributors.
<https://www.supermicro.com/en/wheretobuy>. Customer: that's why i started this chat i've been to that page not helpful atall. Agent: I see. Customer: i'm going to try to figure out the answer to the form factor question and come back. Agent: Sure Can I help you with anything else?. Customer: do you have a minute? someone is getting the form factor for me. Agent: Sure. Customer: NEW* SuperMicro X11DPH-TQ Motherboard that's theboard i bought in thepast it is out of stock same form factor as that. Agent: Please give me a moment while I check for you. . Customer: thank you. Agent: X11DPI-NT
<https://www.supermicro.com/en/products/motherboard/X11DPI-NT> X11DPI-N
<https://www.supermicro.com/en/products/motherboard/X11DPI-N> This is what I can find so far. 12th Gen motherboard doesn't seem to have E-ATX form factor available yet. Customer: so can i buy these on the supermicro e-store?. Agent: We do not carry motherboard on our eStore. For the availability, please check with our resellers and distributors. <https://www.supermicro.com/en/wheretobuy> Sorry about that!. Customer: that's ok thanks for yourhelp. Agent: You're welcome. Can I help you with anything else? I found maybe these two will work for you as well X12DPi-N6
<https://www.supermicro.com/en/products/motherboard/X12DPi-N6> X12DPi-NT6
<https://www.supermicro.com/en/products/motherboard/X12DPi-NT6> We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? I registered an account. The site said that I would get access to configure a server, but while logged into the account when I go to 'Systems' it jst gives me the registration page again. . Agent: Hello, let me check for you Can you try logging out and logging back into your account? You may have to refresh your browser just in case. Customer: seems to have worked!. Agent: Great! Did you need any assistance with the servers or options?. Customer: I am good for now. thanks. Agent: Ok

sounds good and you're welcome. Feel free to chat or email us if you have any questions. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Paul. Customer: Hi Liz, when I go to check out I am getting an error that says "No such entity with addressId = 96265". Agent: Can you please provide the screenshot?. Customer: I probably should have blacked out my CC. Agent: No worries. Please give me a moment while I check for you. . Customer: Sure thing, thank you!. Agent: You're welcome. Please bear with me for a few more minutes while our web developer fixing on this issue. Customer: Sounds good! I noticed the site was down for maintenance yesterday. I am not in a hurry :). Agent: Can you please try checkout again? Please let me know if you still got any issues. Customer: It still has an error. I can try it on my desktop. Agent: Sound great Are you able to check out yet?. Customer: Sorry, I am still working on it. Agent: No worries. Take your time and please let me know if you still got the same issue. Customer: That worked for me!. Agent: Great!. Customer: So, if you want to pass along to your web devs that it didn't work on an iPad using Safari. Agent: Thank you. I will pass it to our dev team. Can I help you with anything else?. Customer: No, I believe that is it. Thank you for your help today Liz!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Paul Haley left the following comment: Liz was great and very helpful! Hello. How may I help you?. Agent: Hi Anvita!. Customer: Hi I am trying to upgrade the BIOS on my supermicro server. I found the Supermicro Out of Band Software Tool Will this work for multiple servers?. Agent: No, one OOB key works for one server/motherboard. Customer: Okay, what about the \$127 option I apologize -- this product <https://store.supermicro.com/supermicro-server-manager-dcms-license-key-sft-dcms-single.html> What does "per node" mean?. Agent: Per node means per server. Customer: I see. what is the advantage of the datacenter management suite? Do you also offer a trial period? How difficult is it to upgrade the BIOS with just the OOB key without using the suite?. Agent: OOB is for remotely update your BIOS and DCMS can do much more (including remotely updating your BIOS) <https://www.supermicro.com/en/solutions/management-software/supermicro-server-manager> We don't offer a trial period unfortunately You can update your BIOS with OOB, no need DCMS. Customer: I want to be able to remotely update my BIOS. I don't need to do anything else. Which option should I pick?. Agent: OOB will be your choice. Customer: Also, do you provide the BIOS file as well?. Agent: You can download it from the motherboard/ server product page What is your motherboard?. Customer: Board Manufacturer: Supermicro Board Product Name: Board Serial Num: NM175S506162 Board Part Num: X10SRW-F. Agent: X10SRW-F <https://www.supermicro.com/en/products/motherboard/X10SRW-F> Please click " Update Your BIOS " Can I help you with anything else?. Customer: Do you have any guidance for how to upgrade BIOS using the zip file you linked?. Agent: There is a Readme file after you unzip the file That will teach you how to update the BIOS but you will need to be physically with the server. Customer: Okay thank you. Agent: You're welcome. Can I help you with anything else?. Customer: No, thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Anvita Mishra left the following comment: Very helpful Hello. How may I help you? Hello, this item shows available when not signed in when I try and sign in and check out, a number of items are unavailable. Agent: Hello Matthew Can you give me a screenshot or description of the items unavailable?. Customer: sure 1 sec. Agent: Thanks. Customer: when not signed in I was able to configure and add to cart as soon as I signed in and checked out, the item is removed from cart. Agent: can you sign into your account and check this link? <https://store.supermicro.com/wio-server-sys-6029p-wtr.html>. Customer: trying now. Agent: We should have it available for sure. Customer: that seems to have solved it I guess it seems to be a weird bug. Agent: Great! That's weird for sure Did you need any further assistance with the server?. Customer: I think we are good Kyle thanks so much. Agent: You're

welcome! It was nice talking to you. Have a great day, goodbye!. Customer: take care!. Agent: Thanks you too!. Customer: Hello. How may I help you?. Agent: Hi Steve. Customer: leadtime for MCP-290-00073-0N. Agent: Please give me a moment while I check for you. . Customer: OK. Agent: I can request more stock for MCP-290-00073-0N. How many are you looking for?. Customer: 2 what are we looking at for delivery time?. Agent: I will request the transfer now, and this should take around some hours. For the order is placed after 3:30 PM it will be shipped out by the end of tomorrow. Customer: so, the lead time is just a day or two?. Agent: yes, that's correct. Customer: OK I will proceed with my Order.. thank you. Agent: Can I mail you back via smcgovern@cnt.canon.com? when the stock is ready?. Customer: yes, that is me. Agent: Thank you! I will let you know as soon as the MCP-290-00073-0N is ready for you to purchase Can I help you with anything else?. Customer: can I place my order now?. Agent: Unfortunately, you cannot the website won't let you add the item to cart when it don *doesn't available in stock. Customer: OK please let me know ASAP... what about items MCP-290-00060-0N and MCP-290-00061-0N? are they available?. Agent: Please give me a moment while I check for you. . Customer: OK. Agent: we have 1 MCP-290-00060-0N available now <https://store.supermicro.com/rail-kit-adapter-set-mcp-290-00060-0n.html>. Customer: I need 2 I need 2 of the MCP-290-00061-0N also. Agent: I can request more stock for this and let you know with the MCP-290-00073-0N The MCP-290-00061-0N is available in stock for you <https://store.supermicro.com/rail-kit-adapter-set-mcp-290-00061-0n.html>. Customer: OK I will order together... please let me know... thank you for your time and help. Agent: Sure. I will let you know as soon as they are available You're welcome. Is there anything else I may help you with today?. Customer: No.. bye for now! thanks again. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: you too! Hello. How may I help you?. Agent: Hi Anvita!. Customer: Hi Joe! I upgraded the BIOS on my server and now the server is not detecting my boot drive. Can you please help me?. Agent: Please give me a moment while I check for you. . Customer: Thank you. Agent: Is it booting to OS ?. Customer: No it is not There are two "Hard Disk" options and neither worked. I don't see the boot drive with Ubuntu as an option. . Agent: Can you check with tech support for this ? They can be reached at support@supermicro.com or You can call 408-503-8000. Customer: Okay, thank you. Agent: You're welcome. Can I help you with anything else?. Customer: Is there a chat to reach Supermicro tech support?. Agent: Unfortunately there is no Live Chat for tech support. You can call them though though*. Customer: Okay, thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Mark. Agent: Hi Omar. Customer: I want to buy a rail set for my SYS-120C-TN10R Can you please help me for this?. Agent: Of course i can. Please give a moment to look this up. . Customer: Sure. Agent: we have this one MCP-290-00063-0N <https://store.supermicro.com/1u-rail-kit-mcp-290-00063-0n.html>. Customer: Thank you If I place the order now, when it will be ship?. Agent: Any orders place before 3:30PM PDT ship out on that same day. . Customer: Ok. Thank you. Which shipping methods are you offered?. Agent: We offer standard shipping (3-5 business days), expedited shipping (2 business days), overnight (next business day), priority overnight (commercial business address is delivery by 10:30 am to most areas and by noon to rural areas. To a residential address it is 4:30 pm or 5 pm to rural areas; on Saturdays). . Customer: Do you have any discount or free shipping code for me to order these rail set?. Agent: Supermicro eStore provides free shipping with any purchase over \$200 before tax (excludes rail kits). . Customer: So no discount also?. Agent: No, Im sorry. . Customer: I see. Do you guy accept PO? or what is the payment method?. Agent: eStore does not accept PO. Supermicro eStore accepts Visa, MasterCard, and American Express. Please note: Must be a US-based credit/bank card with a billing address in the United States. US territories are not accepted even if it's listed as an option. . Customer: Do you guy accept bank transfer?

such as ACH?. Agent: Yes do accept ACH. . Customer: Great!. Agent: Is there anything else i can help you out with?. Customer: What is your return policy? do I have any extra charge if I return my order?. Agent:. Customers will have 30 days from the day they have received the product to return the product to us. Software and Lifestyle products are not returnable and refundable. Yes we do have extra charge if you would return. Please give me moment to get you the correct information. . Customer: ok. Agent: the extra charge is The shipper will be in charge of paying for shipping back to us & Any return for a refund may be subject to a restocking fee of up to 15%. . Customer: oh ok Thank you. Agent: Is there anything else i can help you out with?. Customer: Do I have any warranty if I buy the rail kit from eStore?. Agent: Yes we do, Rail Kits - 1 year warranty. Customer: Can I exchange it if it is defected when I received it?. Agent: If you receive a defected rail kit you'll have to utilize the Supermicro. Customer Reporting Management System to submit a New RMA Request. If you have not submitted a request before, please register prior to doing so. <https://webpr3.supermicro.com/SupportPortal/> If you have not submitted a request before, please register prior to doing so. . Customer: ok Thank you for that. Agent: of course! Is there anything else i can help you out with?. Customer: That's it for now. Thank you so much for helping. Agent: It was nice talking to you! Have a great day!. Customer: bye and same to you. Agent: Thank you!. Customer: Omar left the following comment: Mark is awesome Hello. How may I help you? Is this cooler compatable with MBDH12SSLNTO Socket SP3 and Epyc 7443. Agent: Hi Andy Which cooler are you referring to?. Customer: Supermicro 2U Active CPU Heat Sink Socket OLGA4094 (SNK-P0063AP4). Agent: Let me check Please bear with me for a few more minutes while I check for you. The socket type looks correct. Will this be installed in a Supermicro chassis or case?. Customer: on a supermicro motherboard but different case 2U. Agent: Got it, thanks. There isn't any specific heatsink listed or paired with this motherboard so going off the Socket SP3 spec, it should work. . Customer: ok thanks. Agent: you're welcome Can I help you with anything else?. Customer: no thanks Hello. How may I help you?. Agent: Hi Omar. Customer: Hi Mark ! I want to check if I can get an OOB for my motherboard. Agent: Of course. What motherboard do you have?. Customer: X11SPW-TF. Agent: please give me a moment to see if your motherboard can have the OOB from our eStore. Customer: ok. Agent: yes we have this OOB SFT-OOB-LIC <https://store.supermicro.com/out-of-band-sft-oob-lic.html>. Customer: After I purchase the OOB, how do I generate the key ? Do you need any info from my motherboard to generate the key ?. Agent: please give me moment to get you this information. We have this website that can help you out in activation on OBB <https://store.supermicro.com/software/software-license-key-activation-usage>. Customer: That's after I got the key so I can activate the OOB right?. Agent: yes you are correct. Please bear with me to get you the proper information helping you generate the key Thank you for waiting. You can use this it gives you details on how to generate the key. https://store.supermicro.com/media/wysiwyg/productspecs/Supermicro_How_to_Generate_Software_License_Keys.pdf. Customer: Hello. How may I help you?. Agent: Hi Omar. . Customer: Sorry I closed the window I see the link thanks! Do you know where to find my MAC address?. Agent: no worries. So after one hours of your purchase you should get email to "Generate my Key". . Customer: I do have this IPMI MAC address Does it work ?. Agent: Please give me second to make sure that would work. sorry .please bear with me. . Customer: ok. Agent: You would need BMC MAC address. which is the same as IPMI MAC address \. Customer: Thanks !. Agent: that would work. is there anything else i can help you out with?. Customer: If I buy 30 OOB at the same time, can I generate the key one by one or do I have to generate them all at the same time? I guess I want to ask, do they expire?. Agent: they don't expire. You can generate them one by one or multiple if you would like. . Customer: Can my coworker access the keys I bought so they can generate keys as well ?. Agent: Your coworker can use the keys you bought but

the have to use your account. or they you can generate keys for them and then send it to them they are already generated. . Customer: I see. Agent: Is there is anything else i can help you out with?. Customer: I think that's all I want to ask for today Thanks for answering my questions. Agent: sorry in the message "or they you can generate keys for them and then send it to them they are already generated." i meant "you can generate them for them of course it was pleasure. . Customer: Ah i see Have a good day!. Agent: it was nice talking to you. Have a great day! Hi Matthew. Customer: Hi Liz, getting an error about availability when trying to checkout...it asked me to reach out to support. Agent: May I know what is the issue or error alert?. Customer: We currently have "-1" of the "SYS-6029P-WTR_" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat" We currently have "-2" of the "480GB M.2 7300 PRO NVMe PCIe 3.1 x4 Solid State Drive (1 x DWPD)" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat". Agent: Please give me a moment while I check for you. . Customer: sure thing. Agent: Do you configure by yourself or someone from us help you with the pre-config link?. Customer: I'm using the website. Agent: I see. Please give me a moment while I check the inventory for you. . Customer: sounds good. Agent: May I know how many of SYS-6029P-WTR do you want?. Customer: Just 1 CPU 1 x Intel® Xeon® Silver 4214R Processor 12-Core 2.40 GHz 16.50MB Cache (100W) \$830.00 Memory 2 x 16GB DDR4 3200MHz ECC RDIMM Server Memory \$104.00 Storage M.2 1 x 480GB M.2 7300 PRO NVMe PCIe 3.1 x4 Solid State Drive (1 x DWPD) \$154.00 Networking 1 x Supermicro 1-Gigabit (2x RJ45) Ethernet Network Adapter \$121.80 1 x 2 RJ45 Gigabit Ethernet Ports \$0.00 Accessory 1 x Supermicro Rackmount Keyboard and Mouse Combo (Included) thats the specs we were looking at and a rail kit. Agent: Thank you so much. The inventory is updated Can you please try again?. Customer: Looks like its working now. Agent: For the rail kit Do you need an extra one?. Customer: Does it come with one? Seemed like it didn't come with one, but maybe I misread. Agent: It should be come with one rail set You can check at the parts list on this page <https://www.supermicro.com/en/products/system/2U/6029/SYS-6029P-WTR.cfm> It is included rail set with the system. You don't need to buy instead you need an extra one. Customer: well okay then, I appreciate the clarification. Agent: You're welcome. I just want to make sure you don't have to pay extra if you don't need it Can I help you with anything else?. Customer: No thats it, thank you so much Liz. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi, I was configuring a SYS-120C-TN10R server and I tried to add NVME drives and I got a message saying CBL-KIT-120C-TN10R-10 was out of stock. Do you know when it will be back in stock?. Agent: Hi Kevin Let me check on that, please give me a moment Please bear with me for a few more minutes while I check for you. Thanks for waiting. This is taking longer than usual to check. You mind if I email you back once I get an update for this cable kit?. Customer: That works for me. Thanks!. Agent: You're welcome Is there anything else I may help you with today?. Customer: No, that was it. . Agent: Ok sounds good, I'll be in touch soon. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello Liz. Agent: Hi Pushkar. Customer: I need ROHS document for couple of parts. 1. SNK-P0067PS 2. SNK-P0068APS4 Could you please help ?. Agent: Sure I will need to request internally for this request Can I email you back via pushkar.tayade@infochips.com?. Customer: Sure, when shall I expect the reply?. Agent: I'll try my best to email back by the end of today. Customer: Okay, thanks a lot! I'll wait for your response!. Agent: You're welcome. Can I help you with anything else?. Customer: no, that's it. Thanks, bye!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Pavan. Customer: Hi, we sent a PO BB01560043 to epo@supermicro.com on Tuesday havent heard anything on that, can you tell me how I can get hold of someone to get the status of this PO?.

Agent: I see. Please give me a moment to check on this I'm sorry, but unfortunately, we only accept credit card as form as payment. For the PO sent to this email epo@supermicro.com. Can you please follow up with them. I cannot check on the status of the PO You also can call at this number Tel: +1 408-503-8000. Customer: ok thanks will call now. Agent: You're welcome. Can I help you with anything else?. Customer: that is it today have a great day. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hey Kyle, how's it going?. Agent: Hi Louie, I'm doing well! How about yourself?. Customer: Doing well too! I'm trying to find a large batch of RAM for some servers my manager picked up Ideally all the same brand in 16 per server increments. Agent: Oh I see, are these Supermicro servers?. Customer: they are made by Gigabyte but I'm looking for 32GB 3200MHz modules Kinda hard finding something with 16 in stock. Agent: Understood. Let me check for you, how many were you looking for? oh 16?. Customer: I eventually need to get 80... but trying to break it into smaller orders. Agent: Makes sense. If we have more than the 16 initially, would you want more? or 16 is fine for now? <https://store.supermicro.com/32gb-ddr4-3200-mem-dr432l-sl05-er32.html> We should have enough of this Samsung 32GB 3200MHz. Customer: good question, with the price think I can only order 16 at a time with my company card oh! taking a look. Agent: Sounds good. Customer: awesome, this should work great and looks like there's ~40 available. Agent: Yeah, if you need more, we can always request to check for availability But yeah, 40 for now. Customer: sounds good, this was easier than randomly checking product pages appreciate the help, Kyle!. Agent: You're welcome Louie! Can I help you with anything else?. Customer: Should be good for now, I'll check in again when I need more. Agent: Sounds good, we'll be here It was nice talking to you. Have a great day, goodbye!. Customer: thanks man, have a good one!. Agent: Thanks!. Customer: Hello. How may I help you?. Agent: Hi Amarinder. Customer: hey, I noticed in SUM utility that some of my machines already have a OOB key installed but not activated. I don't know how to activate the key I get code 80 when I try to run some commands. Is it possible to get the keys installed and activate them with SUM?. Agent: Do you purchase the machine directly from our eStore?. Customer: i cannot buy from estore as I am in canada. however these keys were already installed by our local authorised reseller. . Agent: I see. You can follow this guide to activate your key <https://store.supermicro.com/software/software-license-key-activation-usage>. Customer: however I don't know what the installed key is. Agent: In this case, you have to contact your sale rep to request the installed key. I'm sorry for this inconvenience. Customer: its not possible to activate the installed key?. Agent: You would need to know the key your resellers installed/ generate for your system to activate it. Or you can ask the to activate it for you. Customer: okay thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: no thats all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Scott! What is the complete part number for your chassis please ?. Customer: read the message when I registered for chat, need correct P/N for SC113 Chassis Series. Agent: If you don't have the complete part number, please provide the serial number for the chassis/server. Please see the Serial Number Guide. <https://www.supermicro.com/en/support/rma/sn>. Customer: ok am no longer in that bld, also I have 3 SuperMicro 2012 Legacy Blade Servers with 24 2.5" disks built under OEM name if I get S/N should be able to locate manual, spare parts etc?. Agent: Is your server OEM server?. Customer: yes both are neither supported by Vendor, the Sc113 series is a 2019 server is almost new. Agent: I won't be able to tell the complete part number by the info you just provided unfortunately I can check the part number through the serial numbers but you are not able to get them ?. Customer: ok TY. Agent: Do you know which chassis it is ? <https://www.supermicro.com/products/chassis/1U/index.cfm?chs=113&EOL=show> We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want

to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you? Hi, I placed an order for a rail kit last night with priority overnight shipping (paid as much for shipping as the rail kit itself!) but the order is still showing as "Processing".

Agent: Hi Evan What's the order#?.

Customer: 1000024215.

Agent: Ok thanks It was placed after our cut-off time for shipping overnight, but it will ship out today

<https://www.fedex.com/fedextrack/?action=track&tracknumbers=540500973468&language=en&opco=FX&clienttype=ivoother>.

Customer: Okay, as long as it ships today. The fact it still showed "Processing" worried me.

Agent: Yeah to be safe, ordering overnight by 3:30 PM PST is recommended, sorry about that. .

Customer: Thanks for the info!.

Agent: You're welcome Can I help you with anything else?.

Customer: Nope, that's it.

Agent: It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you?.

Agent: Hi Omar.

Customer: Hello Mark I have this server and I want to find a compatible rail kit for it. Can you help?.

Agent: Of course. Please give me second to find this. .

Customer: Ok thanks.

Agent: We have CSE-PT52L <https://store.supermicro.com/1u-cse-pt52l.html>.

Customer: thanks!.

Agent: Can I help you with anything else?.

Customer: Yes Do you accept tax exemption we are a tax free company.

Agent: We do accept tax-exempt, but it would be applied after the purchase, not during the time of purchase. In order to apply for tax exemption, you would need to provide a valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return to your original form of payment. Before submitting a request, please review the tax-exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> You'll only have to submit certificate once, after its validated we mark your account as tax exempt. You will have to let us every time you order to have your tax exempt refunded.

Customer: Ok thanks.

Agent: you're welcome.

Customer: Can I pay with Paypal?.

Agent: Supermicro eStore accepts Visa, MasterCard, and American Express. Please note: Must be a US-based credit/bank card with a billing address in the United States. US territories are not accepted even if it's listed as an option. .

Customer: I see.

Agent: unfortunately no paypal.

Customer: That's disappointing, but credit card it is If I order with overnight now, will I get it tomorrow.

Agent: We also accept ACH.

Customer: ok thank.

Agent: As long as you place an order before 3:30pm, the order will be shipped out today.

Customer: I'll probably stick with CC ah I missed it I'll just order tomorrow then.

Agent: Is there anything else I may help you with today?.

Customer: Nope.

Agent: It was nice talking to you. Have a great day!.

Customer: Thanks you too! Goodnight

Hello. How may I help you?.

Agent: Hi Omar.

Customer: What's the highest capacity drive that works on 6049P-E1CR60H ? Also is it SATA or SAS?.

Agent: For this system it can be SAS3/SATA3. for capacity please give me moment to find this. .

Customer: what's the default? SATA or SAS or both?.

Agent: Please give me moment to find this for you Highest capacity drive it 3.5". The backplane for this system can take SAS3/SATA3. .

Customer: how many TB? per drive is the most this system can support? i'm planning to use all 60 bay and want to use the highest capacity drive available.

Agent: sorry for my confusion. 18TB.

Customer: ok thanks.

Agent: you're welcome. Is there anything else I may help you with today?.

Customer: that's all thank you for your help

Hello. How may I help you? Hi.

Agent: Hi Erik.

Customer: I would like to confirm that a AS - 5014A-TT based system ordered through the store would ship in 3-5 days.

Agent: Yes, it will be ship out in 3-5 business days.

Customer: Assuming the configuration is in stock. The store mentioned that some quantities are not available.

Agent: May I know which part alert are not available?.

Customer: I wanted to was looking to order quantity of two systems and i got a warning.

Agent: Can you please provide your

full configuration?. Customer: We currently have "12" of the "64GB DDR4 3200MHz ECC RDIMM Server Memory" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat" We currently have "1" of the "120x120x25 mm, 6.4K RPM, Optional Fan for GS7 Project,RoHS" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat". Agent: Please give me a moment while I check the stock for you. . Customer: Absolutely. Agent: Can you please try again? we already updated the inventory for both. Please let me know if you still get the same issue. Customer: Now it worked Thanks!. Agent: Great! You're welcome. . Customer: is a quantity of 2 already discount worthy > ?. Agent: Unfortunately, we don't have any discount at the moment. Customer: I have a quote from an authorized reseller that is much cheaper for some reason but they claim supermicro will ship in 4-8 weeks. Agent: I see. If you purchase directly from our eStore. The system will be built and shipped within 3-5 days 3-5 business days. Customer: alright thanks for confirming ! The store doesn't have the option but are there 128 GB or 256GB DDR4 modules available? i saw there are qualified parts on the mainboard website but the parts don't seem to exist anywhere or not available. Agent: We have those options for memory, but I will need to configure the system on my end and send the pre-config link to you Do you want me to help you on that?. Customer: Do you have 8x 128 GB modules in stock ? ideally 16 for two systems. Agent: Please give me a moment while I check for you. . Customer: Please take your time. Agent: Yes, we do have enough inventory for 16 x 128 GB modules. Customer: wonderfull could you please help me with the preconfigured configuraton? Can be based on the one that I sent to you just with updated memory. Agent: Sure. I will working on your configuration now. Customer: Could you please den it to erik.lehmann@excellerix.com ? .. send it to. Agent: Suer. Thank you. I will send you a pre-config link to this email *Sure Is there anything else I may help you with today?. Customer: Oh one more thing since its pre-configured would it be possible to include the rackmount option for the case MCP-290-00057-0N and MCP-290-GS706-0N if my information is correct. Agent: Please give me a moment while I check for you. Can I get back to you on this question?. Customer: Sure. Agent: I'll need to check internally Thank you! Is there anything else I may help you with today?. Customer: That would be all. Can I expect an email some time tomorrow?. Agent: Yes I will try my best to email you as soon as possible. Customer: Thank you very much! Fantastic service!. Agent: You're welcome. . Customer: Have a great rest of your day. Agent: Thank you. It was nice talking to you. Have a great day, goodbye!. Customer: Erik Lehmann left the following comment: Awesome help and very accommodating Hello. How may I help you? Hello, I am trying to place an order for 1 CSE-PT51L, but the website is not allowing me to. It said I had to email or live chat. Agent: Please give me a moment while I check for you. Now it should have 1 available <https://store.supermicro.com/1u-rail-kit-cse-pt51l.html>. Customer: Awesome! Thank you so much for your help!. Agent: You're welcome. Can I help you with anything else?. Customer: Nope that was it, thank you again and Happy Firday!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Friday. Agent: Thanks! 😊. Customer: Kristina Moore left the following comment: Very helpful and fast! Hello. How may I help you? Hey Joe, good morning I placed an order yesterday, just wanted to check and see if the payment went through since the status has yet to change. Agent: Please give me a moment while I check for you. . Customer: perfect, thank you. Agent: 1000024219 went through. We are in the process getting your server assembled and tested before ship out. . Customer: thats great. Agent: Can I help you with anything else?. Customer: No thats it, have a great day Joe. Agent: Thanks! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? X12SCZ-TLN4F I want this motherboard. Agent: Hi Patrick I'm sorry, but unfortunately, we do not carry any motherboards on our eStore. Please check with our resellers and distributors for availability.

<https://www.supermicro.com/en/wheretobuy>. Customer: Hello. How may I help you?. Agent: Hi Tracy. Customer: Hi Liz. I believe I put together a cart. Is everything in stock for my 5019C-MR Also how do i make sure that the TPM chips are installed. Agent: Unfortunately, I will need to recreate the pre-config link for you, since it has been a while Is this your previous quote that I sent to you?. Customer: Yes. Will need two servers but will need to make sure that the components are in stock so that i can configure it and ship it to the client. Agent: I will need to create a pre-config link again for you since you need the TPM modules. FYI, our servers price went up from last week. Is that ok for you?. Customer: That would be fine. Agent: Thank you for confirming. Please give me a moment while I'm working on the pre-config for you. I'm sorry can I confirm your configuration again? You need: 1 intel e-2224G 2 x 8 GB DDR 2 x 480GB 2.5 PM883 SSD 1 x 2 rj45 gigabit ethernet 2x mcp-220-0043-on 3.5 to 2.5 converter tray 1 x windows 10 pro 1x TPM 1x supermicro rackmount kb and mouse combo is that correct?. Customer: yes. The drives would be RAID 1 If the processor is not in stock then go with 2276G. Agent: We have e-2224G in stock and enough for 2 server. Customer: k. Agent: Ok. Can you please clear the cart and add the system to your cart again by this link? <https://store.supermicro.com/sys-5019c-mr-pre-config.html> You should see the config as the picture above. Customer: when i click the link i get a different config. Agent: Is that show as the picture I sent above?. Customer: no. i get an 8 core processor 32 GB ram and 1 drive. Agent: I'm sorry, it might be cached issue. Can you try this link? <https://store.supermicro.com/sys-5019c-mr-pre-config.html?p=1>. Customer: that worked. Agent: Great! Please double check the configuration and let me know if something wrong. Customer: it looks correct to me. Agent: Awesome!. Customer: if ordered today, when do you think I would get it. Agent: The system will be built and shipped within 3-5 days 3-5 business days * Next Friday I believed, if there is nothing wrong with the shipping carrier Is there anything else I may help you with today?. Customer: is it possible to get it sent as a formal quote. Agent: Yes, I can help you for that There is a save quote selection in your cart Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Kyle, i have an order that would like to place for 2 servers but have an ST-3 for tax exemption how do i get that information to you. Agent: Hi Tracy We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Steve. Customer: Hi Liz you sent me an email earlier... can you help me with a credit card order, please. Agent: Yes, let me check for you. Customer: OK it is rejecting my card for a Bill to address and I corrected it and still would not take it. Agent: The transaction has been declined because your billing address is not match. It might be the 9 digits zip code mismatch issue Can you please check again with your bank for this issue?. Customer: yes, maybe.. cam you fix. Agent: You can check your billing address 9 digits zip code on your

previous transaction with any online payment. Customer: the billing zip is 78758-1485 excuse me... it is 78708-1485. Agent: Great! can you go to my account -> address book and edit your billing address. Customer: can you fix that?. Agent: at the zip code area you should type full 9 digits 78708-1485 <https://store.supermicro.com/customer/account/>. Customer: I am in there... where is my account. Agent: You can access this link <https://store.supermicro.com/customer/address/edit/id/91571/>. Customer: It is not letting me change the Bill to. Agent: Can you use this link to edit the billing address <https://store.supermicro.com/customer/address/>. Customer: got it. Agent: Great!. Customer: your recommended Address is messing it up.. . Agent: I'm sorry for this inconvenience. It should be like this. Customer: place order is greyed out. Agent: Please give me a moment while I check for you. . Customer: not working... is there someone I can call error: Authorize.Net CIM Gateway: Transaction failed. The transaction has been declined because of an AVS mismatch. The address provided does not match billing address of cardholder. OK. Agent: On my end, your zip code is 78758-3607. Do you select what we recommended?. Customer: yes and I defaulted to that because the machine would not let me move. Agent: Can you go to <https://store.supermicro.com/customer/address/edit/> again? Edit billing address Type exactly as the picture above. Customer: that is wrong... you have the bill to zip on the ship to address. Agent: May I know what is your billing address please?. Customer: PO Box 81485, Austin TX 78708. Agent: Oh I see. Your billing address and shipping address are different. Customer: Yes!!!. Agent: I see, can you please the same this picture?. Customer: Yes that is the bill to in the picture. Agent: I will need to white list your billing address. Please give me a moment while I check for you. . Customer: OK whatever that is..... . Agent: Your billing address already whitelist. Customer: so, what does that mean?. Agent: So, after you edit your billing address like this hit save address button You should see this Ok, next thing you have to do if it work. Customer: OK it seemed to work...shall I proceed with the order?. Agent: At the payment method after you select shipping methods Please uncheck the "My billing and shipping address are the same". Customer: I did that let me try..... stay tuned. Agent: ok You can use the or option to select the PO Box address Awesome! I saw your order went through!!!. Customer: It finally worked.....!!! thank you. Agent: Great!! You're welcome. . Customer: are we all set for the next order?. Agent: Yeah, for the next order you only have to uncheck the My billing and shipping address are the same and select the PO box for billing address Order will be go through. Customer: OK I got it.... thanks again and have a great weekend. Agent: You're welcome. Thank you!! It was nice talking to you. Have a great weekend, goodbye!. Customer: good bye Steve McGovern left the following comment: great help Hello. How may I help you? How can I purchase an OBB software license with an Australian cred card?. Agent: Hi Steve I'm sorry, but our OOB license is only available for US-based customers (US billing address) to purchase. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: credit. Agent: Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Steve Tester left the following comment: Thanks...:) Hello. How may I help you? Can I please cancel this order?. Agent: Hi Darren. Customer: Order #1000024246 Made about an hour ago. Agent: Please give me a moment while I check for you. . Customer: Thanks!. Agent: Can I confirm your billing address please?. Customer: 3401 Forest Trail Dr. Bandera TX 78003. Agent: Thank you for the information Can you please confirm that you want to cancel the order 1000024246?. Customer: Yes, please cancel this order. . Agent: Thank you for confirming. I will cancel this order on my

end. . Customer: Thanks Liz!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: No thanks. Have a great day!. Agent: Thank you. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi David !. Customer: Hi Joe, is there any chance to buy SYS-510T-ML in Switzerland? It looks like it is already released but nowhere listed to buy. . Agent: Have you checked with the resellers ? <https://www.supermicro.com/en/wheretobuy>. Customer: Yes, but no one listed this specific model. . Agent: I see. Can you please check with Sales-USA@supermicro.com. Customer: Yes I can - but since I am not in the US, I think they might not be able to help me. Thank you anyway. Agent: They will help you to find a proper connection for you to purchase You're welcome. . Customer: Ok - have a nice day. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? hello kyle, in the past days we configure a server with your help, my boss its asking only how many years do we have with supermicro warranty minimun?. Agent: Hi Juan Warranty is 3 years for server, 3 years for parts, and 1 year of cross—shipping. . Customer: :) super OK can ypu confirm if SYS-5019C-M are available? we need 2 units so we can place order today. Agent: Yeah we should have 2 units available. Customer: do we have to buy in the store.supermicro and paid on it yes?. Agent: Yeah you can buy directly from our eStore as long as you have a US-credit card or ACH bank account transfer. Customer: yes we have bank of america, citi and other. Agent: Ok great. Customer: my last last question, on the SYS-5019C-M we have a pci express so i can install a sangoma Voip E1 card?. Agent: If it meets the PCI-e slot specifications/fits, it should be fine physically. We cannot guarantee the card itself will work 100% since we haven't validated on our end. So as long as it can fit PCI-E 3.0 x16. Customer: PCI Express A101D-X i think it sposable, yes its a new card. Agent: Oh I see. Customer: thanks, we will proced with the estore and buy. Agent: Sounds good!. Customer: I will come back later so yu can assit me please on a cluster for vmware with share storage and 3 server also to place order but first I will deliver to my boss the urgen t 2 server thanks Kyle for all your king help. Agent: Ok sounds good! You're very welcome! Can I help you with anything else?. Customer: no, I will buy now let you know later tahnks thanks. Agent: Np! It was nice talking to you. Feel free to contact us back if you have any more questions or issues. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Juan. Customer: hello liz, ggod day. Agent: Good day!. Customer: my boss German Romero with login: gromero@atl-corp.com its going to place an order that Kyle (supermicro) help us can ypu please enable the account so we can make the paid. Agent: Sure. Please give me a moment while I check for you. . Customer: thanks. Agent: The email gromero@atl-corp.com is enabled. Please log out and log back in before click on the pre-config link. Please let me know if you have any issues. Customer: wonderful, its working. Agent: Awesome!. Customer: the 2 server are in the shopping cart. My boss tell me to try to end the configuration of 3 more server and 1 storage. I will ask for help in a couple of minutes , i have some questions in total it will be 5 servers and 1 storage. Agent: Will 3 other servers have the same configuration?. Customer: no, it will have vmware so they are much higher specs thats why I need to find the model first kyle told me to look on SYS-510P-WTR or other. Agent: oh. I see. . Customer: what model could on on stock for vmware use?. Agent: We have SYS-510P-WTR in stock currently. Customer: its a littlle cluster, the project dont have much budget of virtualization, but i will do my best to find a lite cluster with server and a little storage wonderfull. Agent: <https://store.supermicro.com/sys-510p-wtr.html>. Customer: and wat lite and cheap storage could be?. Agent: You can choose the HDD which price is cheaper than other types. Customer: what model could i use for shared storage? SAN. Agent: Can you please explain a little bit for this?. Customer: to conform a cluster on vmware , we use a shared storage that the 3 server can look through a FC (fiber channel card - HBA) and the storage also need FC ports for the server connection do supermicro have SAN models? or

only NAS. Agent: Please give me a moment while I check for you. . Customer: thanks Liz. Agent: Here is some of the sample configuration for vSAN servers:
<https://www.supermicro.com/en/solutions/vmware-vsan> The SYS-120U and 220U-TNR is the next generation for the SYS-1029U-TN10RT and SYS-2029U-TN24R4T which appear in the link above Here is the link for SYS-220U-TNR https://store.supermicro.com/sys-220u-tnr.html?queryID=80088e69e60cd5ddfa6d4e77ec50fd61&objectID=2982&indexName=supermicro_default_products. Customer: what could be the most lite (cheaper) to start, so we can build the Vsan configuration. Agent: You can check the SYS-110P-WTR: https://store.supermicro.com/wio-server-1u-sys-110p-wtr.html?queryID=3b9de512c97eb8207a425e61c91d7d09&objectID=3047&indexName=supermicro_default_products and SYS-510P-WTR https://store.supermicro.com/sys-510p-wtr.html?queryID=d06a157455d5b7a7eda93723f95b1a5f&objectID=3046&indexName=supermicro_default_products. Customer: thanks liz i will check right now and return later to chat :). Agent: Sound great! You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Ian. Customer: Hey Mark, I was wondering what the AS -5014A-TT has for a graphics card as a baseline? Also, I was curious what kind of warranty is on these custom build server machines?. Agent: Please give me a moment to look this up for you. . Customer: Sure thing. Agent: This system comes with onboard video, not GPU. For warranty, Supermicro provides a three-year warranty for labor and one-year warranty for parts. This limited warranty includes advance part replacement service covering a period of one year from Supermicro eStore invoice date. . Customer: Good to hear, also, do these setups come with any software preinstalled (including OS?) Just wondering what I would have to do on my end other than part selection. . Agent: Please give a moment to get you the correct information. So when you are building your server on our eStore you can choose if you would want OS pre-installed. . Customer: Ah alright, easy enough Well I believe that is all I have for questions at the moment, I appreciate the help Mark!. Agent: If you have any question or need help when you are building your server on eStore please feel free to contact us. It was nice talking to you. Have a wonderful day!. Customer: You as well! Hello. How may I help you?. Agent: Hi Lucky. Customer: I need 9 units of this server but finding it difficult getting the type of processor i want. I will need processors of about 40cores per processor does that exist for this product pls?. Agent: Please give me a moment while I check for you. . Customer: Ok thanks So here are the features I want: All flash storage, 40 core per process, 64GB RAM. Agent: I see, but unfortunately, the server SYS-2029U-TN24R4T only supports up to 28 core You also can check the information on our webpage <https://www.supermicro.com/products/system/2U/2029/SYS-2029U-TN24R4T.cfm>. Customer: Do u have an all flash disk server that support very high core processor? i have been looking thru the website and cant seem to find my requirement. Agent: Please give me a moment while I check for you. You can check the SYS-120C-TN10R <https://www.supermicro.com/en/products/system/cloud/1u/sys-120c-tn10r> It can support up to 40 cores. Customer: great. Agent: Is there anything else I may help you with today?. Customer: is it 4 nodes? and is it all flash storage?. Agent: It is 1 nodes and all flash storage. Customer: Do we have its equivalent of two 2u of two nodes or 4 nodes?. Agent: If you looking for multiple node storage, you should go with Blade servers <https://www.supermicro.com/en/products/blade> I'm sorry, but unfortunately, we do not carry any Blade servers on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> You also can check on Twin <https://www.supermicro.com/en/products/twin>. Customer: I likw bigtwin does any of it support 40core processor?. Agent: Please give me a moment while I check for you.

<https://www.supermicro.com/en/products/system/BigTwin/2U/SYS-220BT-HNC8R-US> This bigtwin can support up to 40 cores. Customer: I am a cloud provider so I need a device with lots of cores to sell with virtual machines. . Agent: I see. You can contact our resellers or distributors for this the availability of Bigtwin <https://www.supermicro.com/en/wheretobuy> or our Sale team at Sales-USA@supermicro.com. Customer: I want to reduce my cost hence i have come online myself Cant I get the 9 units of bigtwin from supermicro directly?. Agent: Yes, you can contact our sale team at Sales-USA@supermicro.com. They can help you for this inquiry. Customer: Ok great Thks. Agent: You're welcome. Can I help you with anything else?. Customer: That will be all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Michael. Customer: Hi, Mark. It's looking like power supply PWS-920P-1R2 may now be discontinued. Is that correct? If so, do you have a replacement for PWS-920P-1R2?. Agent: It looks like it is currently out of stock. Please give me moment to see i can get a inventory change or the ETA. How many do you planning to purchase?. Customer: Sorry, I don't know that answer. I'm helping a colleague and I failed to ask how many she needs. My gut tells me it's somewhere between 1 and 5. . Agent: I see. Please give me moment to check. Customer: Thank you, Mark. If Supermicro has a suggested replacement, I would be interested in that as well. . Agent: Since it hasn't been discontinued there is no replacement. I am checking for the ETA. This can take a couple hours to get the proper information. Is it okay if can email you once i get an update? Is the email michael.cummins@caemilusa.com best to reach you at?. Customer: Absolutely. Thanks for the help, Mark. . Agent: I'll email you once i receive any update. Is there anything else I may help you with today?. Customer: 👍 No, sir, that's it. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You too, Mark. Thanks again. Hello. How may I help you?. Agent: HI Ryan. Customer: Hi, I'm ordering for a registered 501c3 nonprofit, and it's an educational institution as well and I'm wondering how to apply the tax exemption to an order, and wondering if there are any educational discounts or similar. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> Unfortunately, we currently don't have any discount. Customer: Ok, this is very helpful. Thank you!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: Is there a link to a more detailed explanation of warranty coverage? I'm trying to compare the eStore to some other vendors in terms of coverage/terms/prices. Agent: Yes, you can take a look at this link <https://www.supermicro.com/en/support/warranty> For a server purchase from our eStore, the Warranty should be the 3 year labor, 3 year parts, 1 year cross shipment. Customer: Is it possible to get a 3-year advance part replacement coverage, or is it always 1-year and then beyond that dependent on parts and availability?. Agent: we're going to have extended warranty towards the middle of the month to enable 3 year of advance part replacement. . Customer: Ok; is that something that can be added on later after the system is purchased if needed? Or does that need to be set at time of purchase?. Agent: It have to be add at the time you purchase the server. FYI, the cost for it will be 15% the cost of the server. . Customer: Ok. Thanks again!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: Nope, that's it. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Ryan Hamilton left the following comment: Very direct and helpful Hello. How may I help you?. Agent: Hi Brent. Customer: SSG-6049P-E1CR60H shows out of stock.

Will you get more? and any idea when?. Agent: Please give me a moment while I check for you. We should have it within 2 weeks. Customer: And is there a way to see the price with configurable options?. Agent: I can help you with the quote of your configuration. May I know your full configuration for this system?. Customer: 12 - 18TB Exos drives. 2 - 240GB SSD. 16GB x 2 3200 DIMM. 2 x 10GB SPF+ ethernet adapters. . Agent: Do you have any requirement for the CPUs?. Customer: 2 x Silver 4214R. Agent: Thank you for the information. Can I email you back via brent.adler@westjordan.utah.gov for the quote?. Customer: yes please. Agent: Thank you! FYI, we only accept credit cards (Visa, MasterCard, and American Express)/ACH Bank Account Transfer as a form of payment. . Customer: OK. Agent: Is there anything else I may help you with today?. Customer: That's all. thanks. Agent: You're welcome. I will email you with the quote shortly. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? hi liz juan again jajajaja. Agent: Hi again Juan!. Customer: we are in the shipping cart but there its a TAX , and we have tax exemption how we proceed?. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected.

<https://store.supermicro.com/tax-exemption-guide> Is there anything else I may help you with today?. Customer: no thanks we will place order now. Agent: Sound great! Please let us know if you need any assistance. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Hal. Customer: Can I order without any drives. Agent: please give me moment to check for this system. Unfortunately no. . Customer: so I can order with one drive. Agent: Yes you can, at least one drive, one cpu, one memory. . Customer: what does that do to the warranty if I add more drives that I want. . Agent: 2 cpu sorry. The warranty stays the same. . Customer: If I ordered today what is the turnaround time in hand to deliver to San Antonio Tx 78253. Agent: We offer standard shipping (3-5 business days), expedited shipping (2 business days), overnight (next business day), priority overnight (by 10:30 am to most US addresses; by 5 pm to some remote areas; by noon on Saturdays). depends on the shipping you choose. . Customer: You say ships within 3-5 Business day and I assume that is free, so where is this shipment coming from how long will it be in route? what courier. Agent: It takes few days for production of the server. Once its fully produced then it would ship out. If you order today, it can be ready to ship out but the end of the week. . Customer: ok but it could take another week depending on where its coming from can you give me any idea how long it takes to get to San Antonio Texas?. Agent: We ship with FedEx. If you pick ground shipping you'll be receiving it at the earliest by middle of next week. . Customer: Ok Thank you! Goodbye!. Agent: Hi Terry !. Customer: Hi Joe, I'm trying to build a NAS box and I've run into a problem I'm using H12SSW-INR as my motherbord I have an AMD Milan 7443P as my processor And I'm trying to use the slimsas I'm using CBL-SAST-0827 as my cable, but I'm not seeing the HDDs when I boot -over-. Agent: What is the cable connected to ?. Customer: The motherboard Jsum5 and Jsum7. Agent: What is the other side connected to ?. Customer: Seagate SATA HDDs. Agent: What drives do you use?. Customer:

https://www.amazon.com/dp/B08K98VFXT?psc=1&ref=ppx_yo2_dt_b_product_details sixteen of them. Agent: Please give me a moment while I check for you. . Customer: sure. . Agent: I am trying to locate the Jsum5 and Jsum7 on motherboard as you mentioned. Can you specify where they are ?. Customer: see the manual, page 11, just to the right of the right bank of memory slots. Agent: Got it ! NVMe 8/9;

SATA0-7 and NVMe 12/13; SATA8-15 Correct?. Customer: yes Note that the AMD 7443P has a special feature that the SATA processing can be done all in the CPU don't know if that matters, but I'm hoping that improves my performance. Agent: Can you see the drives in BIOS ?. Customer: no. Agent: Can I get back to you one this ? I want to check internally for your case. Customer: Yes. I'm at trj@cs.stanford.edu. Agent: Thanks!. Customer: Thank you very much Joe!. Agent: You're welcome. Can I help you with anything else?. Customer: nope -- I'm kinda stuck. Agent: I will email you as soon as I get some answers It was nice talking to you. Have a great day, goodbye!. Customer: Thanks again! Goodbye. Hello. How may I help you? Hello Kyle may i ask when is this back in stock? Supermicro 500W 1U Multi-Output Power Supply (PWS-505P-1H). Agent: Hi Hendy Let me check for you. Customer: ty. Agent: How many were you looking for?. Customer: i am looking for 9. Agent: I can try to request for 9 pcs but no guarantees we'll even get any stock. I'll email you back once I get an update. . Customer: will do thank you! i think i talked to you last month and you mention to check again in MArch. Agent: you're welcome! yeah it doesn't look like they're in stock yet, but I'll check again with our PM. Customer: ok ty do you have my email?. Agent: htjaja@outwardinc.com?. Customer: yes please. Agent: ok got it. Will send as soon as I get an update. Customer: ty!. Agent: Can I help you with anything else?. Customer: nope thats all ty!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Lorenzo !. Customer: Hi Joe how can I purchase the OOB in Italy ?. Agent: You can contact resellers for OOB purchase <https://www.supermicro.com/en/wheretobuy>. Customer: may I buy right now on the web site?. Agent: I am sorry our system only allows the credit card payment that has an US billing address tied to it . If you have a credit card that was issued in the US and the has an US billing address tied to it, you can purchase OOB through <https://store.supermicro.com/out-of-band-sft-oob-lic.html>. Customer: thanks a lot. Agent: You're welcome. Can I help you with anything else?. Customer: Hello. How may I help you? do you have these in stock?. Agent: Hi Pavan. Customer: I jsut placed an order for a cable and would like to add this to that hello Kyle. Agent: For AOC-SLG3-2M2? We don't carry any Add-On Cards on the eStore unfortunately so you'll have to check with our resellers/distributors: <https://www.supermicro.com/en/wheretobuy> or with our Sales team at Sales-USA@supermicro.com. Customer: ok thanks. Agent: you're welcome Can I help you with anything else?. Customer: that is it for today you have a great rest of the day. Agent: Ok sounds good! Thank you! It was nice talking to you. Have a great day, goodbye!. Customer: btw will my order ship today> 1000024269. Agent: It should be let me check Thanks for waiting, my system was taking a bit long Yeah its been processed and should ship later today. Customer: greta thanks. Agent: Np! Is there anything else I may help you with today?. Customer: that is it for today. Agent: Ok sounds good. Take care again, goodbye and have a great day!. Customer: Hello. How may I help you?. Agent: Hi Richard. Customer: I want to upgrade my server. Agent: Sure! May I know which server do you want to upgrade?. Customer: c813m0a5m20387. Agent: I'm sorry, I cannot find any information about c813m0a5m20387 on my end. Can you please provide the serial number of your server? You can follow the picture above for the server serial number. . Customer: c813m0a51m20387. Agent: Thank you! Please give me a moment while I check for you. . Customer: missed one #. Agent: This is the serial number of your chassis, and its part number is CSE-813MTQ-520CB May I know which part do you want to upgrade?. Customer: ok I want to run vmware esxi 7 you tell me what i need. Agent: Do you happen to know your Supermicro motherboard serial number? <https://www.supermicro.com/en/support/rma/sn> You can find the serial number of your motherboard from this link at motherboard section. Customer: x8dtl-if. Agent: Thank you. Please give me a moment while I check for you. . Customer: ok. Agent: Unfortunately, your system is too old. I will need to check internally for this. Can I email you back via usnavy_dan@yahoo.com?. Customer: yes please do I am

ready to buy. Agent: I just checked with my supervisor for this. You should buy a new server to use vmware esxi 7. . Customer: can i not use this chassis. Agent: I'm afraid that you have to buy a complete new system since the 4 generation is too old. We would recommend getting a new systems because the older systems may not have enough cooling for the newer motherboard/CPU. Customer: really? Liz so you have a 1U with better cooling?. Agent: Yes, I recommend the SYS-510T-ML
https://store.supermicro.com/mainstream-1u-sys-510t-ml.html?queryID=9796bb18a4a5509c746efcd06fa139c9&objectID=3256&indexName=supermicro_default_products Which is compatible with vmware esxi 7 You also can check other servers that also compatible with the VMware esxi7 here
https://www.vmware.com/resources/compatibility/search.php?deviceCategory=server&details=1&partner=105&releases=578,518,508,448&page=1&display_interval=500&sortColumn=Partner&sortOrder=Asc Please select 'product release version' - ESXi 7.0. Customer: Are these already configured?. Agent: For the SYS-510T-ML, you can configure it by yourself or I can help you on that. Customer: ok do it for me im lazy. Agent: May I know your requirement configuration for this system?. Customer: I dont understand. Agent: Please tell me what else you are looking for in terms of # of CPUs, core count, RAM, drive capacity, what type and how many drives each you're looking for, any AOC, network, etc. . Customer: I want to run at least 1000 vm about 24 core 128ram 4 ssd or hdd 10k rpm 1tera whatever is cheapest 10gig net. Agent: Thank you. The Supermicro 1U WIO SuperServer (SYS-110P-WTR) will fit your requirement. It's also compatible with the VMWare eSXi 7.0 <https://store.supermicro.com/wio-server-1u-sys-110p-wtr.html>. Customer: do i still need to configure it at that price or is it ready to go. Agent: I'm working on your configuration. I just let you know that I will need to change the system SKUs to meet your requirement. Customer: Liz wouldn't it be cheaper to get me all the parts and I'll put them in my current chassis. Agent: You can use if you want, but we don't recommend it since it's going to be hot and also the motherboard of this system hasn't been tested with your chassis. . Customer: which is less expensive?. Agent: Getting the part would be cheaper, but the warranty may be a concern for you. If you purchase a complete server from our eStore, the warranty should be the 3 year labor, 3 year parts, 1 year cross shipment. Customer: ok configure it for me and email me with the price. then send me the price for the parts to upgrade my chassis. Agent: Can I asked how many modules do you want for the memory?. Customer: 128 gb. Agent: just 1 x 128GB memory?. Customer: ddr4 ecc how many can it take. Agent: The motherboard can take up to 8 DIMMS I can configure it total 128GB. Customer: you are the pro what do you suggest?. Agent: 4 x 32GB \$200+ cheaper than 1 x 128GB. Customer: okay save me money you have to be cheaper than dell. Agent: ok. I will work on your configuration and email you as soon as possible for the price Is there anything else I may help you with today?. Customer: add rails as well. Agent: The system on our eStore is included rails. Customer: great. Agent: you don't need to purchase it. Customer: ok email me. Agent: Sure. I will Can I help you with anything else?. Customer: no. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi, Joe. Liz helped me a couple weeks ago with an order Order #1000024143 I didn't realize that I'd selected to not use the ultra networking slot, so the 1g ports are in slot 1. . Agent: Can you explain a bit more what you are asking about ?. Customer: the 2xRJ45 ports are in slot 1 instead of slot 0 can i order something to get them into slot 0?. Agent: One moment. Customer: thank you!. Agent: Let me look into your configuration and get back to you on this So you want to change the AOC from slot 1 to slot 0, or you just simply want to purchase another network card and install in in slot 0?. Customer: i'm fine with purchasing another card that can fit in slot 0. Agent: Do you have a preferred spec for the AOC in slot 0 ?. Customer: RJ45 1g is fine, but anything is acceptable. Agent: Got it ! I will email you as soon as I pull

out your configuration in system. Customer: thank you!. Agent: Is josh@pntfin.com the best email to reach you ?. Customer: yes. perfect. thanks, joe!. Agent: You're welcome. Can I help you with anything else?. Customer: nope. that is it. have a good day!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi I like to know if the Micron (MTA36ASF4G72PZ-2G9E2) is compatible with the X10DRL-I mainboard. Agent: Hi Max, let me check. Customer: ok I would like to mount 4pcs to have 128gb total. Agent: It is not validated, the only 32GB that are compatible are 2666 <https://store.supermicro.com/32gb-ddr4-2666-mem-dr432l-cl03-er26.html> Can I help you with anything else?. Customer: are these dual rank?. Agent: Yeah they are, it's 2Rx4. Customer: the 2933Mhz are not validated but could they still work?. Agent: We cannot guarantee it will work so you'd use at own risk There is a 16GB 3200Mhz available too, but no 32GB that has been validated. <https://store.supermicro.com/16gb-ddr4-3200-mem-dr416l-hl02-er32.html> If you wanted 32GB, I'd stick with the 2666 option just to be safe. Customer: ok. Agent: Is there anything else I may help you with today?. Customer: no thanks, bye from Italy 😊. Agent: You're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: Max left the following comment: Good support! Hello. How may I help you?. Agent: Hi Antonio. Customer: hi liz hablas español i need a quotation?. Agent: May I know what product are you looking for the quotation? I'm sorry, but unfortunately, we do not carry any AOC and SSD drives on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> For HDD quote you can use this form to file all the HDD skus <https://store.supermicro.com/quote> You can add another SKUs for multiple SKUs quote Our quote agent will email you back shortly Please note, we only sell and ship within the US in the moment Please check with our resellers and distributors if you are outside of the United State. <https://www.supermicro.com/en/wheretobuy>. Customer: thanks I look forward to receiving your mail. Agent: You're welcome. Can I help you with anything else?. Customer: no, thanks. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Fredrik. Customer: Do you ship to Sweden? I can't find Sweden when I enter the country. . Agent: Unfortunately No, Supermicro currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Ok thanks. Agent: Can I help you with anything else?. Customer: no. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? are these are in stock ? CBL-PWEX-0792. Agent: Hi Edgar Let me check for you We have these cables available. How many were you looking for?. Customer: 100-500pcs. Agent: Not sure we can support that quantity, but I can check. Currently, there are 14 available right now. I'll have to get back to you via email once I get an update. Would 100-200 pcs be ok initially?. Customer: yes. Agent: Alright, I will request for 200 pcs and if I get rejected, I'll try for 100 pcs. Customer: ok i'll buy the 14pcs for now. Agent: Ok sounds good. Can I help you with anything else?. Customer: thats all thank you. Agent: You're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Edgar. Customer: im placing an order but its charging me tax. Agent: Do you ask for the tax-exempt? We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide>. Customer: i did already. Agent: I'm sorry that we currently do not deduct tax exempt

automatically You would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number for everytime request the tax-exempt I'm so sorry for this inconvenience. Customer: ok will do again. Agent: Thank you so much for your understand Is there anything else I may help you with today?. Customer: thanks all. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Scott. Customer: Hello, I recently purchased two of theSYS-5019P-MTR with the optional 10G SR/1000 BASE-SX module and I am trying to identify the correct SFP (optics) part number, so that I can order 4. Agent: Please give me a moment while I check for you. . Customer: Thank you. . Agent: The part number is AOM-TSR-FS -Supermicro 10G/1G Ethernet 10GBase-SR/SW 1000Base-SX Dual Rate SFP+ 850nm LC Transceiver https://store.supermicro.com/aom-tsr-fs.html?queryID=5b4ed26d68eb0ef0ececace66ea4b6103&objectID=932&indexName=supermicro_default_products. Customer: ok perfect, thank you. Agent: You're welcome. Is there anything else I may help you with today?. Customer: that should be all, thanks again. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: take care Hello. How may I help you?. Agent: Hi Matthew. Customer: Hello Mark We received our server today and the bios is not recognizing 4 of the 8 drives installed Tried moving some around, same issue, only the first 4 installed are recognized. Agent: what is your motherboard number? and order number?. Customer: Supermicro XDDW-L Order # 1000024219 bios version is 3.5. Agent: please give me a moment to look for this. . Customer: sure thing. Agent: In the order 1000024219, I only see one SSD was intalled. Customer: Yes, but we have drives installed in the bays currently 12 TB drives, 8 of them. Agent: i see. what drives are trying to install?. Customer: trying to get your exact model WD121PURP I enabled a few settings in the bios myself, ssata wasn't enabled no dice. Agent: i see. Please bear with me while i look into this. . Customer: sure The bios doesn't doesn't appear to be recognizing the m.2 drive either. Agent: The hard drives you have aren't validated with them systems and that's why i might not be recognizing them. I can provide you with 12TB that are validated for this system. . Customer: it would cause only half to be recognized? for RAID specifically. Agent: I can't give you an exact answer why it's only recognizing half due to the drives not being validated. . Customer: understood, I will continue to troubleshoot on my own. Agent: You can go on <https://www.supermicro.com/en/products/system/2U/6029/SYS-6029P-WTR.cfm> click on drive options and you can find validated drives for this server. Is there anything else I may help you with today?. Customer: nope. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hey there joe I have a SYS-5049A-T chassis, if you look at the parts included Drive Tray(s) MCP-220-00193-0N 8 2.5"/3.5" 2-in-1 HDD tray those are not 2.5" trays what tras are necessary to be able to run 2.5" Drives so far I have found this " MCP-220-00080-0B" which I am 90%sure is correct. Agent: Please give me a moment while I check for you. MCP-220-00193-0N can work with 2.5" as well 3.5"drives. Customer: how? there is no adapter. Agent: Does it look like this ?. Customer: no it has the yellowish plastic just a dummy plastic tray holder I can provide you a serial number if that helps. Agent: This is how MCP-220-00193-0N should look like, I am not sure why you got a different one Where did you purchase the server from ?. Customer: Serial number S370887X1612513 ASI Canada. Agent: You will need to check with the ASI in this case. Customer: okay, however can you confirm that MCP-220-00080-0B will work <https://store.supermicro.com/mcp-220-00080-0b.html>. Agent: MCP-220-00080-0B is not in the validated list for your server therefore I can't guarantee it will worl work*. Customer: Hmmm yeah I seen that.. well thank you for your help Joe, is there a reason why it is not validated?. Agent: You're welcome. If MCP-220-00080-0B this sku is not created for the chassis you are using, then it will not work. . Customer: ah okay I see, have a great rest of your day :). Agent: It

was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Rodrigo. Customer: Hi, fine thanks for asking I hope you too. Agent: I am doing great. Thank you for asking!. Customer: I am finding model of servers with 4 nodes for our branches in Houston and LA we saw that there is this model 6028tr-htr but we are opened to consider other alternatives our problem (as most of customers) is the delivery time we would like to know what kind of servers with 4 nodes are available to be delivered in one week. Agent: • All of our configurations has been fully validated by our Supermicro system lab. • We offer free shipping for all server orders. (limited time only) • We offer blazing fast turnaround time 2-3 business days if you purchase something via our eStore configurator. • Warranty is 3 years for server, 3 years for parts, and 1 year of cross—shipping. (limited time only) • We may have more storage capacity on our eStore. (Please contact me if you don't see any capacity available) I see i can help you out with this. Customer: ok, perfect I am waiting to be allowed to see the servers in the e-store I have just sent my Name, email, and interested model do you know how long it takes?. Agent: Please give me a moment to see . . Customer: thanks!. Agent: We don't carry any 4 node on our eStore only single node. Please register an account and let me know your email address. <https://store.supermicro.com/customer/account/create/> if you are interested in looking what we have on eStore. Customer: thanks a lot, I have just completed the process, my email address is rsedano@gmv.com. Agent: please give us a moment You can access our System tab now once you log out and log back in. <https://store.supermicro.com/customer/account/login/>. Customer: thanks I am in Thanks for your assistance. Agent: awesome! Is there anything else I may help you with today?. Customer: Nothing else, I will check the estore thanks and nice day!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? hi. Agent: Hi Antonio !. Customer: the parts t the items that you sell are new or refurbished. Agent: All the items on eStore are brand new. Customer: ok perfect thanks. Agent: You're welcome. Can I help you with anything else?. Customer: no is all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jamahl. Customer: what kind of rackmount kit would I need for the product I listed. Agent: Please give me a moment while I check for you. You can use the MCP-290-10110-0B - CSE-101F Rackmount kit I'm sorry, but unfortunately, we do not carry that product on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: ok thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: nope thats all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Joe, I am looking to purchase a desktop workstation. I am interested in the AS-5014A-TT But on the online configurator i keep getting this error: "MCP-220-73102-0N" is out of stock I am trying to add a SSD to my build. Agent: I see Please give me a moment while I check for you. . Customer: sure thanks!. Agent: Do you have an idea how many MCP-220-73102-0N you need for your configuration ?. Customer: actually this is my first time buying from supermicro so I do not even know what exactly that accessory is. Agent: Can you show me the screenshot talking about MCP-220-73102-0N is out of stock ? How many SSD are you looking to add ? I see. Customer: Just 1 of the "960GB 2.5" D3-S4610 SATA 6Gb/s Solid State Drive". Agent: Can you try again? It should work now. Customer: it still gives the same error. I am trying to add it under the "Main Storage" and not "Internal". Agent: Can you send me your configuration ? I would like to duplicate the case on my end. Customer: it allows me to add the SSD when I select "Internal storage" and not "Main storage". What is the difference between internal and main?. Agent: One moment Please give me a moment while I check for you. . Customer: sure. Agent: The main one should be the 4 drive bays on the bottom right The internal ones are the ones on the top right. Customer: i see so the adapter to fit a 2.5" in the 3.5" slot is not available currently?.

Agent: Correct. Can I get back to you in about an hour? I will get the tray for you Is skj54321@gmail.com the best email to reach you ?. Customer: okay no worries, yes that is a good email. Agent: Thanks! Sorry for the inconvenience ! I will email you as soon as the tray is ready for you Can I help you with anything else?. Customer: no worries! I only have one more question. Agent: Yes. Customer: I want 128 GB DRAM. For this motherboard which config will give me better performance: 8x16GB DIMM OR 4x32GB DIMM. Agent: I see you chose 8 of the 16G. Does that meet your requirement ?. Customer: yes but should I choose 4 of the 32G?. Agent: I recommend to choose 32G so in the future you can expand better if you need. Customer: i see, okay thanks for your help!. Agent: You're welcome. I will email you soon once the tray is ready for you Can I help you with anything else?. Customer: no that is all, thanks!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: thanks you too! Sam J left the following comment: great experience! Hello. How may I help you?. Agent: Hi Erick!. Customer: Hi Can you help me check the stock availability of this part PWS-711-1R?. Agent: Sure, may I know where you are located?. Customer: I am making the quotation from mexico but if the purchase is made it will be delivered in BERKELEY LAKE GA USA. . Agent: We only sell and ship within the US. Will you be able to do that ?. Customer: No hay problema, solo estamos cotizando aquí en Mexico pero la compra ya se realizaría en nuestras instalaciones de USA No problem, we are only quoting here in Mexico but the purchase would already be made in our US facilities. . Agent: I see How many PWS-711-1R are you looking for ?. Customer: For the moment 50 pieces. Agent: Are you looking for a quote only ?. Customer: Yes, can you help me?. Agent: Can you please fill out this form and get a quote from there ?<https://store.supermicro.com/quote#PWS-711-1R>. Customer: thank you, but can you help me if the part is in stock?. Agent: You're welcome. They are in stock for now. . Customer: Ok, Do you have the 50 pieces I need?. Agent: That will depends on the time when you purchase. For now we do have 50 Is there anything else I may help you with today?. Customer: thank you very much, then I will send the quotation, by the way, is there a way to quote different parts at the same time?. Agent: yes What are the parts are you looking for a quote ?. Customer: • SNK-P0038P • CBL-0099 • CBL-0234L • MCP-210-82601-0B • MCP-290-00061-0N • CBL-0281L-01 • CBL-0118L-02 • BPN-SAS-216A • CBL-0309L-CI025 • PWS-711-1R • AOC-E10GSFSPSR • CBL-0347L • CBL-0348L • CBL-0349L • MCP-290-00053-0N • MCP-220-00047-0B. Agent: I see What you can do is clicking the "Request quote for volume discount" on the eStore product page And it will bring you to get a quote. Customer: but only allows you three pieces. Agent: I see Maybe you can get 3 quotes at the same time and request more through email when you get a quote. Customer: Ok, then I send the mail, sorry could you help me verifying if I can get 50 pieces of each?. Agent: Please fill out the form and have the team to check for you then. Customer: ok, thank you very much for your time, I appreciate your attention. See you soon. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Erick left the following comment: Nice Hello. How may I help you? it is doing it again.... credit card biil to is getting in the way of completing the transaction... . Agent: Hi Steve Let me check what's going on. Customer: HI Kyle. Agent: Your order is being declined due to the address provided not matching the billing address tied to the credit card (address on the billing statement). Can you please verify if 1807 W Braker Ln is the billing address of this credit card?. Customer: NO 1807 W braker Ln is the ship to. Agent: Ok, you will have to uncheck the Shipping address is the same as billing address checkbox. Customer: I did that. Agent: Uncheck it and then enter the billing address manually or if you have a saved one, you can use that as well If you're still having issues changing your billing address, please follow the next steps: 1) Once you have your shipping address entered and have chosen your shipping method, proceed to the payment method section. 2) Uncheck the "My billing and shipping

address are the same" box 3) From there, you can select to add the new address, which you can enter the billing address. . Customer: so, start over is what you are saying?. Agent: If the shipping address is correct, all you need to do on the billing address page is uncheck "My billing and shipping address are the same" checkbox and enter the correct billing address. Ok I see your order now Looks good. Customer: OK I went back to shipping and proceeded and it wne though... I am done order is placed. Agent: Yeah you're good to go!. Customer: thank you for your help!. Agent: You're welcome! Can I help you with anything else?. Customer: Nope... I am gone! and good to go!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: you too!! Hello. How may I help you?. Agent: Hi Adriano. Customer: hello do you sell to deliver to brazil?. Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. . Customer: ok. . Agent: Is there anything else I may help you with today?. Customer: no ,thanks. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Sam. Customer: Hi! I am using the online configurator for system AS -5014A-TT i wanted to know if it was possible to get a RTX 3060 with this machine since my workload does not require enterprise grade GPU I see that SuperMicro has an option to choose the RTX 3060 for the Gaming Desktop SKU. Agent: I see. Please give me a moment to check for this. . Customer: thanks!. Agent: This system hasn't been validated with RTX 3060 only with 3090. Customer: ah i see, in that case can the RTX 3090 be added to the online configurator?. Agent: Please bear with me for a few more minutes while I check for you. . Customer: no worries thanks!. Agent: Can I have your full pre-config for this server, please?. Customer: sure just a moment while i download it. Agent: Thank you! This is going to take me some time to get you pre-configuration link. It is okay if i email once i have it all done?. Customer: yes no problem! Thank you!. Agent: Is the email skj54321@gmail.com best to reach you at?. Customer: yes. Agent: I'll email once i have it fully done. Is there anything else I may help you with today?. Customer: thank your for your help, no that is all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: thanks you too! Sam J left the following comment: great service! Hello. How may I help you?. Agent: Hi Darryl!. Customer: need price for this part AOC-2UR6N4-i4XT. Agent: I'm sorry, but unfortunately, we do not carry AOC on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Hello. How may I help you?. Agent: Hi David. Customer: Hi Liz. I wanted to make sure my ACH payment was working properly on my order and if yes, I wanted to use the credentials for additional orders, but it looks like I will have to verify it each time?. Agent: May i know your order number, please?. Customer: 1000024230 I was able to enter the amounts, and it said it was approved, but it still mentions it in the pending order status, so I'm just making sure. . Agent: Yes, it is working properly. You would need to verify onece What would you like to purchase for the next order?. Customer: I'll have to build it again, I'm not sure of stock levels. Agent: I would expect payment to clear by the end of the week and we will build the system after the payment has been cleared. You don't need to verify again. I can help you with the stock level. . Customer: If I put it in my cart, can you see it?. Agent: Unfortunately, I cannot You can try to add to cart after configure the system and let me know which component is alert. Customer: Doing that now. Agent: If you can add it successfully, it should be good to go. Customer: We currently have "8" of the "16GB DDR4 3200MHz ECC UDIMM Server Memory" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat" We currently have "4" of the "MCP-220-00051-0N - 2.5" Fixed HDD/SSD Bracket (Required Accessory)" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat" That's with a qty of 5 I can drop to 4. Agent: Which server are you configuring now?. Customer: SYS-510T-ML Supermicro 1U Mainstream SuperServer (SYS-

510T-ML) (Ships within 3-5 business days) CPU 1 x Intel® Xeon® E-2388G Processor 8-Core 3.2GHz 16M Cache (95W) \$657.00 Memory 2 x 16GB DDR4 3200MHz ECC UDIMM Server Memory \$104.00 Storage SSD 1 x 240GB 2.5" D3-S4610 SATA 6Gb/s Solid State Drive (3 x DWPD) \$249.00 Networking 1 x 2 RJ45 1GbE LAN Ports \$0.00 1 x Supermicro 1-Gigabit (4x RJ45) Ethernet Network Adapter \$244.35 Accessory 1 x MCP-220-00051-0N - 2.5" Fixed HDD/SSD Bracket (Required Accessory) \$8.70 1 x Supermicro Rackmount Keyboard and Mouse Combo (Included). Agent: Thank you. Please give me a moment while I check for you. . Customer: ok thanks. Agent: I just updated the inventory for memory and bracket. Can you please try to add 5 again to cart?. Customer: worked. Agent: Awesome!. Customer: ok, hang on, let me try ACH again. Agent: Sure, please let me know if you have any issues. Customer: Ok, it's asking for the account numbers, etc.. again. is that ok?. Agent: Yes, it's ok. You just don't have to verify it again. Customer: Ok, order placed! 1000024302. Agent: Great! Yeah, I see your order went through. Customer: Ok, cool. Thanks for you help!. Agent: You're welcome. Can I help you with anything else?. Customer: Unless you can fix the supply chain, I don't think so :D. Agent: Well, that is what I couldn't help. Thank you for purchasing with us. If there is anything you needs please feel free to contact us. . Customer: Will do! Thanks!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: David Elliott left the following comment: Liz was great! Hello. How may I help you? Is there a Part: CBL-NTWK-0826 ?. Agent: Hi Blair. Customer: Hi Kyle. Agent: That part does exist, but we just don't carry it so you'll have to check with our distributors: <https://www.supermicro.com/en/wheretobuy>. Customer: OK - thanks. Agent: You're welcome Can I help you with anything else?. Customer: No thanks. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Melville. Customer: Hello: Melville here. Attempting to order some SATA cables for a server we're building. The eStore said to open a chat with you guys to see if there is enough stock. We need 9 cables. The Part # is: CBL-0207L Description: Supermicro SATA Round Straight-Straight with Latch Connections 59cm Cable. Agent: Sure, let me check for you. . Customer: Thanks Sir. . Agent: We currently don't have enough 9 available, but we can transfer more stock for you. It would take some hours to complete. Can I email you back via mel@kristinedittmer.com when the stock is ready?. Customer: No problem Liz. Sounds good. Thank you for the assistance. Do you know whether I will be able to place the order tonight, or tomorrow morning. I'm on shift here until about 9:00 PM eastern time. . Agent: I cannot tell exactly when the stock is ready, but the best might be tomorrow though. I will email you when the stock is ready. Customer: Thanks!. Agent: You're welcome. . Customer: Can you check stock on another number?. Agent: Sure, I can help you with that. Customer: OK. Let me grab that number. Part #: CBL-0206L Description: Supermicro SATA Round Straight-Straight with Latch Connections 48cm Cable. . Agent: The stock for CBL-0206L is available. How many do you want?. Customer: Don't know yet. Will know by tomorrow morning. Most likely 4. . Agent: Sound great. We should have enough stock for CBL-0206L. Customer: Roger that Liz. Thanks for the assist, and I'll keep an eye out for your email. . Agent: You're welcome. I will email you as soon as the stock comes back Can I help you with anything else?. Customer: I think we're good for now Liz. Thanks. . Agent: No problem. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi David. Customer: Supermicro (Hynix) 32GB 288-Pin DDR4 2933 (PC4-23400) Server Memory (MEM-DR432MD-EU29) need 2 ASAP. Agent: please give me a moment to look for you. I see. there isn't currently enough on eStore for two but i can request for inventory. Please bear with me for few seconds There should be enough for your order for Supermicro (Hynix) (MEM-DR432MD-EU29) <https://store.supermicro.com/32gb-ddr4-2933-mem-dr432l-hl01-eu29.html> Can you try the link i sent you and let me know if it worked?. Customer: out of stock. Agent: can you try <https://store.supermicro.com/32gb-ddr4-2933-mem-dr432l-hl01->

eu29.html?p=1 Did the new link work?. Customer: yes, ordering now. Agent: Awesome! Is there anything else I may help you with today?. Customer: Thanks, and I am all set. Agent: You're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? How soon can I get 50 of this heat sink. Agent: Please give me a moment while I check for you. I will need to make an inventory transfer request and email you when the stock is ready. It usually takes 4-5 hours Do you want me to make a request ?. Customer: so does this mean in 4-5 hours I can order this heat sink?? And what is the price?. Agent: Usually it takes 4-5 hours Please get a quote through this link for the price info <https://store.supermicro.com/quote#SNK-P0077P>. Customer: If I order these today when will they ship?. Agent: If you place an order before 3:30 pm, then the order will be shipped out today Do you want me to make a request or you want to decide after you get a quote for 50 pcs ?. Customer: I will decide after I get the quote for the 50 pieces. Agent: Sounds good. Customer: Hello. How may I help you? Hey Kyle. I cannot get a password reset link nor can I get a verification link when creating a new account. Agent: Hi Cody Did you check your spam/junk folder?. Customer: absolutley. Agent: If so, maybe you have a email/spam filter company wide that may be holding it too. I did resend a confirmation email to you. Customer: I will check the filter. Agent: Ok sounds good. If you're still having issues, please let us know again. . Customer: Yeah we do not have a filter on this domain. Agent: Just to make sure, anderson@maculanetworks.com is the correct email address?. Customer: Yes. I was trying to reset accounts@maculanetworks.com but never got a link for the pass if finally came through. Agent: ohh just took awhile so you're able to confirm now?. Customer: I finally got into my original account.. accounts@maculanetworks.com I am using it now. Agent: ok great! Can I help you with anything else?. Customer: That will be all thank you. Agent: You're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: Same to you Hello. How may I help you?. Agent: Hi Hal. Customer: Is Rackmountnet.com an authorized distributor of Supermicro Parts?. Agent: Please give me a moment while I check for you. I'm sorry I cannot find the link you said above. Customer: www.rackmountnet.com I am on their website now and they have a lot of Supermicro parts listed for sale. click on link above. Agent: Thank you for your information. Unfortunately, They are not distributor of us. Please check our resellers and distributors at this link <https://www.supermicro.com/en/wheretobuy> I strongly suggest to check the lead time with our distributors because the lead time for a lot of our servers and chassis are really far out. Customer: Ok thanks! Goodbye!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi Mark. Agent: Hi David. Customer: I'm getting an error for shipping when I try to check out " Sorry, no quotes are available for this order at this time". Agent: what product are you trying to buy?. Customer: it's on the page : "Internal Error. Details are available in Magento log file. Report ID: webapi-622a44b2ba235" I have 4 SYS-5109P-MR in my card *cart. Agent: Please give me a moment to look into this. I am going have to check internally for this, it can take awhile is it okay if i email you back? Is the email dave.elliott@linewize.com best reach you at? Can I get your full configuration for these systems?. Customer: Supermicro 1U Mainstream SuperServer (SYS-5019P-MR) (Ships within 3-5 business days) Qty4 \$21,709.76 View Details CPU 1 x Intel® Xeon® Gold 6240R Processor 24-Core 2.40 GHz 35.75MB Cache (165W) Memory 2 x 64GB DDR4 2933MHz ECC RDIMM Server Memory Storage SSD 1 x 480GB 2.5" PM883 SATA 6Gb/s Solid State Drive (1.3 x DWPD) Networking 1 x Supermicro 10-Gigabit (2 x 10G SFP+) Ethernet Network Adapter 1 x 2 RJ45 1GbE LAN Ports Accessory 1 x Supermicro Rackmount Keyboard and Mouse Combo (Included) 1 x MCP-220-00043-ON - 3.5" to 2.5" Converter Drive Tray (Required Accessory). Agent: Please give a moment to look into this. . Customer: Thanks. Agent: Please bear with me for a few more minutes In which step in check is this message appearing at? check out* Hi Sean!. Customer: hello. Agent: Are you looking for a rail set for

CSE-826 chassis ?. Customer: exactly - i think i found what i need but need to make sure. Agent: What is the complete part number for your chassis or server?. Customer: mcp-290-0053-0n where is the sticker for that? there are multiple would it start with c826. Agent: The sticker actually shows the serial number which will work for me as well Please see the Serial Number Guide.

<https://www.supermicro.com/en/support/rma/sn>. Customer: s12698924419486. Agent: Please give me a moment while I check for you. Please bear with me for a few more minutes while I check for you. .

Customer: np. Agent: Can I get back to you on this ? MCP-290-00053-0N might work but I want to double check to make sure Is stabar14@gmail.com the best email to reach you ?. Customer: sure. also, is there a hardware kit for mobo installation. Agent: We don't have something like that for motherboard installation. Customer: ok. just saw that the mobo standoffs were different that what i may have lying around i can make something work. Agent: I see. Sounds good Can I help you with anything else?.

Customer: no that should be it. just ready to order the rails so i can get this where it needs to go. Agent: I see. I will email you as soon as I can. Customer: much appreciated. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Kyle where is Liz. Agent: Hi Richard Let me check if she's available. Otherwise, I can help you as well. . Customer: ok Liz transferred the chat to Liz. Agent: Hi Richard. Customer: Did you get my email get it under 2.5K. Agent: Yes, I just saw your email. Do you want to look at the GPU that lower core? *CPU. Customer: sure.

Agent: Please give me a moment while I check for you. . Customer: take your time. Agent: For your information, lower the spec will impact the performance especially if you plans on having 1000VM. Customer: ok 500vm. Agent: With the price under 2.5K the SYS-510T-ML is work, but it's only have 1 drives <https://store.supermicro.com/mainstream-1u-sys-510t-ml.html> You can check the price around on our configuration tool I'm sorry I mean you can have 1 main drive, 1 M.2 and 1 rear. Customer: yuck ugly ok no more than 3k. Agent: Please give me a moment while I check for you. We have SYS-510P-WTR <https://store.supermicro.com/sys-510p-wtr.html>. It will under 3k with CPU 12cores, 8GB and HDD.

Customer: ok much better looking. Agent: With this configuration, the price is nearly 3k, but you still need some upgrade to reach 500VM. Customer: is it super fast?. Agent: Do you mean the server is fast or not? or the 500VM?. Customer: server. Agent: It depends but will not fast as the quote I gave you in email. Customer: lol what is your commission?. Agent: Honestly, I don't have any 😊 The last thing we as Supermicro wants is for you to buy a system and it doesn't perform up to your expectation and you return the system to us. *doesn't. Customer: ok sounds good now what do I do with my existing supermicro?. Agent: I'm not sure what you are expect. It's up to you. You can use it for another purpose. Customer: I would like to upgrade it as well then i would have 2. Agent: Well, you can upgrade it at your own risk but the system hasn't been validated, so we cannot recommend. I'm sorry for this inconvenience. Customer: not to those specs but to modern specs. Agent: Can you explain for modern specs?. Customer: is there a modern motherboard that will work with it?. Agent: Do you mean with your currently chassis?. Customer: yes. Agent: You can try if you want. However, the cooling will be the big issue since your chassis is 10 years old. The CPUs nowadays run a lot hotter than it was 10 years ago and your chassis did not make for that. . Customer: ah ok any discounts?. Agent: I'm sorry. But unfortunately, we don't have any discount at the moment. . Customer: what if I buy in bulk. Agent: I'm sorry, our eStore also don't have any bulk discount 😞 not for server. Customer: ok i will compare your price with Dell. Agent: Sound good! You can use our configurator for the system to compare with them. . Customer: ok. Agent: Also don't hesitate to contact us through Live Chat or email me if you need support Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken

care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you? hey I would like to return 1000024179.

Agent: Hi Adrian Sure let me check. What would the reason be for the return?.

Customer: my system did not work so I will need to return all the parts.

Agent: Oh I see. Is it for a Supermicro motherboard or server? Can I help you find the correct one if possible?.

Customer: I got a faulty processor and unable to assemble, will need to return the heatsinks and memories.

Agent: Oh no that's unfortunate, sorry to hear

<https://webpr3.supermicro.com/SupportPortal/>.

Customer: these are orders I will need to return 1000024179 1000024077 1000022945 1000022887.

Agent: Oh ok. The orders over 30 days may be more difficult to return, but the 2 recent ones, you should be able to via that RMA portal I provided. Please register an account if you haven't done so for that and then file new RMA.

Customer: ok.

Agent: For order 1000022945 and 100022887, I had to double check and you will not be able to return since those unfortunately since it is over 30 days since time of delivery. For 1000024077 and 1000024179, you can proceed with the RMA return process. Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you?.

Agent: Hi Breno!.

Customer: Hello, I am trying to order a server and I am quoting products. I would like to have a quote from supermicro as well.

Agent: Did you get a quote through eStore site?.

Customer: I am having a hard time building the machine to meet my specifications Can I add a 5 year warranty?.

Agent: What server is it ?.

Customer: SYS-2029U-TR4.

Agent: I am sorry we don't have extended warranty on eStore available.

Customer: ok, I will see if they still accept the quote I also need to use unix OS, fedora preferably, but I can only find windows.

Agent: We are working on it and the extended warranty will be available around mid of March We only have OS available currently on eStore Oops I mean Windows.

Customer: ok then.

Agent: Do you still want a quote through us ?.

Customer: yes, I wil try.

Agent: Please do let us know if you need any assistance.

Customer: ok.

Agent: Can I help you with anything else?.

Customer: that is all.

Agent: It was nice talking to you. Have a great day, goodbye!.

Customer: Hello. How may I help you? hi Checking on an order. Invoice #8801046743.

Agent: Hi Samuel.

Customer: This was paid for but I don't see it listed or shipped. .

Agent: I don't have invoice#. Did you purchase this order through the eStore or through Sales?.

Customer: See attached.

Agent: Yeah that's not through the eStore. Can you check with Sales-USA@supermicro.com or call +1-408-503-8000 for further assistance?.

Customer: ok.

Agent: Can I help you with anything else?.

Customer: not at this moment. Thanks.

Hello. How may I help you?.

Agent: Hi Tracy.

Customer: Hi Liz, i was hoping to order two SYS-5019C-MR servers i belive you updated my quote on Wednesday, are we out of stock?.

Agent: Did you receive my previous email for changing the CPU-2276G?.

Customer: yes i did. when i tried to fill it, it told me that you had only onew.

Agent: Please give me a moment to check the stock for you I already updated the inventory for you. Can you please try again?.

Customer: so everything is in stock?.

Agent: Yes, currently everything is in stock. You can add 2 to your cart Please let me know if you have any issues Is there anything else I may help you with today?.

Customer: no the order was placed any ETA on when it wil lship i assume by mid next week?.

Agent: Thank you for purchasing with us. The system will be built and shipped with in 3-5 business days. You can received it by next Friday if the shipping courier doesn't have any issues.

Customer: thanks liz.

Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!.

Customer: Tracy Ratz left the following comment: Liz was very helpful

Hello. How may I help you? Hi! I am attempting to find out what cable I

need for this motherboard to power a GPU x10dru-i+ There are 4 headers for GPU power but I can't find any documentation on what cable I need. Agent: Hi Michael Is this within a Supermicro case or chassis?. Customer: yes https://www.supermicro.com/en/products/system/2U/6028/SYS-6028U-TR4T_.cfm. Agent: Ok let me check Please bear with me for a few more minutes while I check for you. . Customer: No worries. Agent: Hmm, they really do not list any of the GPU cables for either the motherboard or the server itself so let me dig a bit deeper. . Customer: That's what I've been running into, hahaha. Thank you!. Agent: What GPU were you planning to use btw?. Customer: Just a consumer GPU to passthrough via ESXi gtx1070. Agent: Got it thanks So I had a similar question for the exact same motherboard, but the customer was using a RTX A4000, normal 8 pin GPU PCIE connector. The cable recommended for that was CBL-PWEX-0582 <https://store.supermicro.com/supermicro-8-pin-to-two-6-2-pin-12v-gpu-30cm-power-cable-cbl-pwex-0582.html>. Customer: Cool! I'll give that one a shot. By chance do you have access to how much wattage is available at those ports? Just want to make sure I don't try and pull too much. Agent: Other than what's in the manual, I do not unfortunately. You may have to check with our technical support team for that information support@supermicro.com. Customer: Will do. Much appreciated! Have a good weekend. Agent: You're welcome and thank you! Have a great weekend as well!. Customer: Hello. How may I help you?. Agent: Hi David !. Customer: Hi Joe. I was trying to see if I can get an update about Order # 1000024230. I'm hoping to get an idea if it will be shipping today, early next week, or if it has been delayed. . Agent: I see The ACH payment has been taking some time to verify on the bank side Please give me a moment while I check for you. Your payment is pending since 3/8 and it will take up to 5 days to arrive Supermicro As soon as Supermicro receives the payment, we will start to assemble your order. Customer: Ok. Thanks. Do you have an option for terms? Because these orders are too large for our CC, but we need them faster than we can get with ACH. . Agent: I am sorry, no net terms for eStore purchase ACH only takes one time verification. After this time, you can purchase without verifying like this time. Customer: ah ok thanks. Agent: You're welcome. . Customer: I used it for 1000024302 as well The other agent told me it would be fine. Agent: Your third order will be a lot faster. Customer: Awesome. Glad to hear it. Agent: Sorry for the waiting, this has to be done by the bank, and as long as the ACH account is set up seccessfully, your future orders will be a lot smoother Are you looking for another server purchase ?. Customer: We will, but I'll probably do those orders on monday based on your stock. . Agent: Got you. What server is it ?. Customer: Hopefully by the 16th we'll be full steam ahead. It will probably be more SYS-5019P-MR With a bigger config. Agent: I recommend to place an order as soon as you can since our eStore order is first come first serve. You order earlier and you will more likely get the stock better than others. Customer: yeah, the business is asking me to wait until we are getting shipped orders with the ACH. Agent: Got you!. Customer: Thanks!. Agent: You're welcome. How was your address issue ? Was it solved on your side ?. Customer: Yes, I think so!. Agent: That's great. Customer: Hopefully the ACH is all good, fingers crossed. It's out of our hands :D. Agent: 😊 Sounds good Most likely 1000024230 will be shipped out mid of next week. Please dont hesitate to contact us if you have any more questions. . Customer: Will do. Thanks again. . Agent: You're welcome. Can I help you with anything else?. Customer: David Elliott left the following comment: joe rocks! Hello. How may I help you? I just place an order# 1000024326. Agent: Hi Jamie. Customer: Is there stock for the item I ordered?. Agent: If you're able to order it, it should be in stock. . Customer: I called supermicro and they said they show no stock. They said your stock might be different please check for me. Agent: You called Sales or tech support?. Customer: part# mem-dr432l-sl01-er29 I spoke to sales and they told me to check with you part# mem-dr432l-sl01-er29. Agent: Ok let me check on that part We have separate inventory We do have this in stock should be good to go. Customer: How to I add tax-

exempt seller certificate to my order@ 1000024326. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide>. Customer: will my order be shipped today? order# 1000024326. Agent: It should go out since it was processed. Customer: ok, thank you. Agent: you're welcome Can I help you with anything else?. Customer: no thank you. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Jim. Customer: I purchased RAM for my SuperMicro server and it did not work... . Agent: I'm sorry to hear that. Do you want me to find the compatible memory for your system? May I know your server part number please?. Customer: sure...the Mother Board is a X8SIE-LN4 Per the spec sheet, it takes up to 32GB of RAM DDR3 RDIMM So that is what I ordered and it did not work....server would not boot properly. Agent: I see. Please give me a moment while I check for you. . Customer: Thanks Liz. Agent: Unfortunately, this motherboard is really old and I only can check on my end the highest validated memory is 8GB MEM-DR380L-HL09-ER16 and MEM-DR380L-HL06-ER16 they are both Hynix 8GB DDR3 1600 DIMMs Since the motherboard is too old, our lab didn't tested or validated for any newest DIMMs. I'm sorry for this inconvenience. . Customer: Ok....thanks. Hello. How may I help you?. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? hi liz. Agent: Hi Juan. Customer: liz i want to know why my order still in the first step of ypur status 1000024304. Agent: This order was paid by ACH, it will take longer than you pay by credit card. . Customer: ohh I understand, the project its a little urgent ok when can we be sure the process continue?. Agent: Do you receive the microdeposits? from your bank account. Customer: cheking.... . Agent: Sure, take your time 😊. Customer: I could get the financial boss so they can inform me. When we receiver the microdeposit its there any process that we have to do or just wait?. Agent: Once the deposits appear, please enter them at the verification page to complete your order. There is the link for you to click in the email that we send you after you placed the order If your project is super urgent, we recommend you to placed the order with credit card since ACH methods will take a long time. . Customer: can we change the paid method at this moment or have to continue with the ACH method?. Agent: Well, you can cancel the order and place the new one with credit card I'm sorry I'm just checking with my supervisor. You can leave the order ACH there and we will refund to you later. You can place the new order with the credit card. The ACH will takes additional 3-5 days for the transfer process. Credit card is instant. Customer: I am talking with my boss for the options. Agent: Please feel free to let us know what your boss decides. . Customer: liz the microdeposit of what amount should we can find? my boss its looking the account but didnt found any. Agent: Please give me a moment while I check for you. The microdeposit usually will shows in some pennies. The transaction might appear under the Supermicro eStore AMTS name if the deposits isn't in today then we recommend checking over the weekend or Monday. Customer: can we cancel the order and pay debit card? can be change the method of paiying without cancelling? with debit card so its reflects immediately. Agent: Unfortunately, we cannot edit the payment without cancelling. You can cancel the order since you are not verify the transaction yet. Customer: lets us check one by one he is reading every transaction looking for AMTS. Agent: But you have to check your debit transaction limit. Sometime there are limits for debit card transactions Since you are not verify the ACH yet. You can cancel the order and place a new one. If you

cannot cancel on your end, please let me know. I can help you with that. Customer: we are going to cancel :). Agent: Sound great. Customer: let us try. Agent: Sure. Please let me know if you need my help. Customer: we have enter to the account and to the My orders we cannot cancel can you helo us to cancel? please. Agent: Sure. Please give me a moment to do it for you. Customer: thanks. Agent: The order is canceled. Customer: ok alright :) we are placing a new order right now, i will come back in some minutes. Agent: Sound great. Please let me know if you need any assistances. Customer: Hello. How may I help you?. Agent: Hi Jim. Customer: Hello Mark your purchasing, shipping page is forcing me to use a P.O. Box address, while the shipping charges seem to be for one of the no postal carriers (i.e.. FedEx, UPS, etc). What carrier will you be using and do they Deliver to PO Boxes?. Agent: We use FedEx as our carrier. . Customer: no chance that this can go via USPS Priority Mail ? its just two sticks of memory .. . Agent: Supermicro does not ship to PO boxes. Customer: then why do they force it on me??? " We Recommend: PO BOX 298985 WASILLA , Alaska US 99629-8998" When I put in my physical address, which FedEx DOES ship to, it indicates that it is an invalid address .. my home has only been here 19 years. Agent: Can i ask what address you trying to use?. Customer: sure 12054 W. Derrick Ave Houston, AK 99694. Agent: What's the product you are trying to buy? and how many are you trying buy?. Customer: <https://store.supermicro.com/32gb-ddr4-2666-mem-dr432l-sl03-er26.html> two. Agent: Please give me a moment to look into this. . Customer: Thank you. Agent: This item show it's out of stock. where you able to add this to your cart?. Customer: yes, I contacted per your website's advice Supermicro about possibly obtaining two and they worked on it and notified me today that I could obtain them from the eStore. When I went to the page it showed them in stock it allowed me to add two to my cart and the rest is as above ;). Agent: I am sorry but my coworker just sent you another email. Joe is working on getting those 2 for you still. Joe will email you as soon as they are available to purchase. Customer: Ok, he did email me, however I see that there was a follow-up email that indicated that supermicro wanted to recall the notification. . Agent: There was a confusion on our part. The parts are still not available. Joe is going to email once they are available. . Customer: Ok, that will not resolve the fact that your eStore rejects the address that FedEx will actually deliver to .. . Agent: For the address we are going to have check internally. We apologize for the inconvenience. . Customer: ok, so how will I know the resolution?. Agent: Please give me a moment. we are trying to duplicate the case. . Customer: yep. Agent: For the address 12054 W. Derrick Ave Houston, AK 99694 we are having trouble finding this address. . Customer: Its very real and FedEx has delivered to it many times. Agent: We just want to make sure that this is correct address. We want to make sure you get your packages. . Customer: me too! :) GE will take you right to it, however .. GE it says it is in Wasilla, but it is NOT, it is in Houston. . Agent: We are going to fix your address situation. It is okay I can email you back at jclive@ynsgroup.net once this is resolved?. Customer: yes, please and thank you very much for all you help!. Agent: It was a pleasure! Is there anything else I may help you with today?. Customer: on my side as well :) no thanks, hope you have a good weekend! bye. Agent: Thank you. It was nice talking to you. Have a great day, goodbye! Have a great weekend!. Customer: Jim Cliver left the following comment: Mark and Joe where very helpful! Hello. How may I help you?. Agent: Hi Juan. Customer: liz hello we try with debit card but its not accepting only credit and ACH we have ready shoping cart. Agent: I'm sorry for this inconvenience. . Customer: paypal?. Agent: You might need to contact your credit card and ask for increase the limits for this transaction I'm sorry we don't accept paypal at the moment I apologize for this inconvenience 🙄 Or you can buy 1 by 1 server to decrease the amount of transaction. Customer: my boss its going to paid with credit card I will wait for the final transcation and come back :). Agent: Sound good!. Customer: in a couple of minutes i will return. Agent: Sure. Customer: Hello. How may I help you? Hey Joe. Agent: Ho

Cody ! Hi!. Customer: I need to know the SAS cable for motherboard X11SPW-CTF using case CSE-LA15TQC-R504W I am assuming it breaks out to sata connections as I do not see a SAS interface on the backplane of the case. Agent: Please give me a moment while I check for you. CBL-SAST-0699 https://store.supermicro.com/supermicro-minisas-hd-to-4-sata-75-75-90-90cm-12gb-s-with-sideband-75cm-cable-cbl-sast-0699.html?queryID=26bdcf56ea1c9f450755ace5eefbffd7&objectID=871&indexName=supermicro_default_products. Customer: perfect, ordering now. Thank you! Where does the ribbon cable plug into? I see the 4 sata connections and the SAS connector as well. Agent: You're welcome. Sideband is used to monitor the LED activity for the SAS drives. . Customer: So there is a header on this motherboard or does it plug into the backplane?. Agent: On the backplane actually. Customer: Makes sense. order 1000024349 is mine. Can you get it expedited please? I need it tomorrow. I selected overnight shipping. Agent: You had chosen the Priority Overnight and it will arrive tomorrow. Customer: awesome. Thanks for being so helpful, Joe. . Agent: You're welcome. Can I help you with anything else?. Customer: That will be all, for now. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Cody Anderson left the following comment: Joe was awesome. . Agent: Hi Stefan!. Customer: Hi Joe! I have a few hardware questions about the AS-5014A-TT workstation Are you with me?. Agent: I am here. Customer: OK, I'll shoot my questions then. Feel free to answer whenever appropriate. Q1: If I wanted the water-cooling module, how do I include it in my order?. Agent: We don't have the watercooling module available yet, the ETA is in June. Customer: Q2: If I wanted more internal HDDs, can I add a second drive cage, same as the one already present in the chassis, and mount it above the first. It looks like there is enough room for that. . Agent: This is what this server can offer for the drives You can not add more than the picture shows unfortunately Can I help you with anything else?. Customer: Any other way of adding HDDs in this chassis?. Agent: This server offers 4 fixed internal 3.5"/2.5" SATA drive bays, 2 fixed front 2.5" SATA drive bays, 4 M.2. Customer: Joe, you a human being, or some bot?. Agent: I am a human You can not add more than this server can offer. . Customer: You answer like a bot. I ask a question, you quote the manual. I already READ the manual. I have real questions. Can you even try to answer? What about those 5.25" bays t the top?. Agent: Thats the 2 fixed front 2.5" SATA drive bays I just mentioned. Customer: Noooo!! You didn't even read the manual! The 2.5" disks are on the side, bottom. The 5.25" are at the top. Can I speak to an engineer maybe?. Agent: Please give me a moment while I check for you. . Customer: OK. Agent: Please bear with me for a few more minutes while I check for you. . Customer: I'd still prefer to talk to an engineer. Agent: Let me check internally and get back to you on this. Is piperov@cern.ch the best email to reach you ?. Customer: Yes - that's correct. . Agent: Thanks! Some info is not very clear and I apologize for the confusion. Let us double check and get back to you on this. Customer: OK, I'll close this chat now, and wait for further answers via email then. . Agent: Thanks ! Stefan! It was nice talking to you. Have a great day, goodbye!. Customer: What if I never get contacted via email?. Agent: You can email us at estore-support@supermicro.com. Customer: OK, I'll use email address: estore-support@supermicro.com. Agent: Sounds good. Customer: What about some reference to this conversation?. Agent: You can save the transcript if you want. There is "... " on the left top of screen Sounds good. Customer: OK, I did that, but would stilll prefer to have some sort of reference. In case I never get contacted by email, what am I going to say - 'I chatted with Joe'?. Agent: I can email you the ticket number after this chat if you want. The ticket number will be created after this chat That will be fine too. Customer: There's only one Joe at SM?. Agent: One eStore chat, yes, only one Joe. Customer: Oh, so your real name is not Joe. I see. That's generic/. Agent: I will email you the chat number after this chat And my name is Joe on eStore you can mentioned in the email. It is not generic.

Customer: Well, OK, I wasted enough time here. In case I never receive any emails from support engineers I'll simply have to take it as a statement of SM's level of user support, and move on with the competition. Stefan left the following comment: Joe did not even try to answer my questions. He(?) just quoted the manual, and even that he did not do well, because he did not have the details of the chassis when I had questions. He referred me to external SM engineers on my request, and _promised_ to send me a transcript of the chat, which I am doubtful will happen. Disappointed, and wasted a lot of time today. Hello. How may I help you? Hi Kyle, I am looking for a 1U Dual PSU chassis for SuperMicro H11SSL-i motherboard. . Agent: Hi Cem. Customer: I found model 813MFTQC-R407CB on your site but there seems to be no stock anywhere. is there any other chassis I can use with this board?. Agent: Unfortunately, we don't carry any chassis on the eStore so you can try checking with our Sales team if you already tried with our resellers. May I ask where are you located?. Customer: San Francisco, CA. Agent: You can contact Sales-USA@supermicro.com. Customer: OK, I'll send them an email. Agent: <https://www.supermicro.com/en/wheretobuy> for resellers/distributors you may have missed too. Customer: Sounds good. . Agent: Can I help you with anything else?. Customer: that will be all for now. Thank you for your assistance. . Agent: You're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Don,. Customer: Is it possible for you to simply keep my Sales Tax Exemption on file for future orders?. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> I'm sorry, we currently cannot do tax-exempt automatically. I apologize for this inconvenience. Can I help you with anything else?. Customer: Hello. How may I help you?. Agent: Hi Stefan. Customer: is eStore available outside the US? Can I purchase something from Switzerland?. Agent: Unfortunately, Supermicro eStore only ships within United States. Customer: Are there ANY options to get a workstation to Switzerland?. Agent: For outside United States Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> You can also try checking with our Sales team at Sales-USA@supermicro.com Tel: +1 408-503-8000 Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Nathan. Customer: Hi, the Supermicro Threadripper Performance SuperWorkstation Full Tower (AS -5014A-TT) can be configured to all of the pieces I need, but the used requested Thunderbolt 4; is there a (probably Intel) model with motherboard to support that? Also, I don't see an option to add NVIDIA Quadro Synch II; am I just missing something?. Agent: Please give me a moment while I check for you. . Customer: ty :-). Agent: May I clarify that do you ask for a Intel version of the AS -5014A-TT?. Customer: Not exactly, just any machine that will take 3 Graphics Cards, have a few slots left over, and will support Thunderbolt. . Agent: I will check internally for this. Can I email you back via nathan@therealitybridge.com?. Customer: sure, thank you. Agent: You're welcome. Is there anything else I may help you with today?. Customer: nope, ty, thats all Hello. How may I help you?. Agent: Hi Hitesh. Customer: Hi, I was wondering when

SYS-510D-8C-FN6P will be available for general purchases such as from re-sellers or yourself?. Agent: We don't carry this item on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> You also try with our Sale team at Sales-USA@supermicro.com to see if they can help Tel: +1 408-503-8000. Customer: When I asked an authorized Canada reseller (newegg) they said to talk to you. Even if you do not carry the item, would you know when it'll be available not just for your estore but for resellers? As the CPU in SYS-510D-8C-FN6P just released, I'm unsure if products based on that CPU such as SYS-510D-8C-FN6P will be available right away. Agent: Unfortunately we don't from our end. I'll recommend talking to sales they might have the information about this. . Customer: Does sales have a chat feature or is it all email?. Agent: They don't have a chat just email. Sales-USA@supermicro.com Tel: +1 408-503-8000. Customer: Sounds good. Thank you. I'll email them. Agent: Can I help you with anything else?. Customer: I was going to ask if the CPU can be customized for that model such as using the xeon -d 1722ne. Agent: Unfortunately since we don't sale this item in our eStore we don't have the information for this. Sales can help out with this. You're welcome!. Customer: Ok, sounds good. Thank you Hello. How may I help you? Hi, We have a server and one of the power supplies has failed and i was looking for a replacement. Can you help me with a replacement for PWS-920P-SQ?. Agent: Hi Doug Let me check if there are any available. Customer: Thank you. Agent: We're currently out of stock with no ETA when we'd get more unfortunately. I'm checking for an update internally and can email you back once I get one. . Customer: OK thanks. . Agent: You're welcome Can I help you with anything else?. Customer: Not at the moment. Looking forward to information on possible replacement when you have it. Have a great day. . Agent: Sounds good. You only needed 1 correct?. Customer: correct. Agent: Ok hopefully we can get one for you. It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? I would like to get the connectr pinout of the supermicro pws-920p-1r. Agent: Hi Marc. Customer: I would also like to know if two of these can be use in parallel. Agent: The connector pinout Gold Finger (19 Pair Connector). Here is the spec sheet: https://store.supermicro.com/media/wysiwyg/productspecs/PWS-920P-1R_quick_spec.pdf If you need the actual diagram or drawings of the pinouts, we don't provide that here on the eStore. Customer: That spec sheet does not show the pinout. Agent: Yeah we don't provide that unfortunately. You'll have to check with our technical support team at support@supermicro.com for that information. Customer: okay i will search for that as well can two be run in parallel?. Agent: You can also call 408) 503-8000 if need be Well these are typically ran in a redundant set up. Customer: i want to run two simultaneously in parallel. Agent: That I'm not sure if they do so I'll have to check internally and email you back once I get an answer for it. . Customer: ill call them thank you. Agent: np!. Customer: Hello. How may I help you?. Agent: Hi Steven. Customer: Hi Liz, I need rail kits for a bunch of these (very old) 1U Super Servers. CSE-813M seems to be the part number for the chassis. Agent: Please give me a moment while I check for you. . Customer: Supermicro 1U Rail Kit (MCP-290-00054-0N) totally looks like the right one... . Agent: As I check on your serial number provided above (C813MLG12ND0022), your chassis part number is CSE-813MFTQC-350CB. And the rail kit CSE-PT52L is worked with your chassis <https://store.supermicro.com/1u-cse-pt52l.html> You can also use the Quick release rail set: MCP-290-00068-0N I'm sorry, but unfortunately, we don't carry the MCP-290-00068-0N on our eStore. You can go with the CSE-PT52L which we have on our eStore now. <https://store.supermicro.com/1u-cse-pt52l.html> Can I help you with anything else?. Customer: That's really excellent information, thank you. 😊. Agent: You're welcome. . Customer: That's what I needed, I will have to pass this up to principals and see what they want to do. we have about thirty of these that we received as salvage, with no outer rails. It's a relief to know we can still get parts for them. Thanks

again. . Agent: Sound good! No problem. Is there anything else I may help you with today?. Customer: That will do it for now. Thanks again. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: You too. Steven Stafford left the following comment: Good job! Hello. How may I help you?. Agent: Hi James. Customer: Hello Mark I am trying to place an order on your website, but I am getting a message that I need to contact you in order to complete the order. Agent: I see, what is the error message you are getting. can you show me screenshot?. Customer: It is saying that a drive is out of stock, but that you have enough inventory to complete the order. Agent: which drive are trying to get?. Customer: M.2 XG6 1 TB. Agent: how many are trying to get?. Customer: 2. Agent: Please give me second to check. . Customer: Ok This is a piece of 2 servers that I'm trying to order. Agent: We just updated the inventory for the drive. Can you please try again?. Customer: One moment That worked Thanks. Agent: Awesome! you're welcome Is there anything else I may help you with today?. Customer: That will be all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You too Hello. How may I help you? Hello, I need to return this Order # 1000024303. Agent: Hi Luis May I ask the reason for the return?. Customer: wrong PN was bought, I need the PSU for AC 110V and this PSU is DC 48V. Agent: Oh I see. Did you need assistance finding the correct PSU? Is it for a Supermicro system?. Customer: yes let me send you the pn needed. Agent: sure sounds good Meanwhile, to submit an RMA (return) request, please utilize our new support portal at <https://webpr3.supermicro.com/SupportPortal/>. If you have not submitted a request before, please register prior to doing so. . Customer: PWS-902-1R. Agent: ok thanks, let me check if we have that in stock Actually that is EOL (end of life). Let me find the replacements. Customer: ok. Agent: PWS-920P-1R2 is the replacement, but we are out of stock. You needed 4 pcs right?. Customer: yes. Agent: Ok I'll have to check internally if we can get 4 more pcs and get back to you via email. Customer: it could be two, in case you don't have 4. Agent: Ok I'll check for 4 pcs first. Customer: thank you. Agent: Can I help you with anything else?. Customer: it's all thank you. Agent: you're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: bye Hello. How may I help you?. Agent: Hi Naresh. Customer: Hello Liz I am looking for NVMe M.2 SSD to PCIe X16/X8/X4 Card quantity x1. Agent: I'm sorry, but unfortunately, we do not carry any SSD on our eStore at the moment. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: ok thanks. Agent: You're welcome. Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Robert. Customer: Good afternoon Mark I am looking to see if you have an updated Drive list for a JBOD 846BE2C-R1K03JBOD <https://www.supermicro.com/support/resources/HDD/chassisHDD.cfm?Category=SC&sz=2.5&sku=846BE2C-R1K03JBOD> All the drives are either EOL or Nowhere to be found. Agent: Please give me a moment to look into this. . Customer: TY. Agent: Are you expanding to your set up for RAID functions? That list is the most current list we have. . Customer: I am building out a new JBOD Copy that. Just checking to make sure the list was up to date. Thank you for checking. Agent: I'm so sorry for this inconvenience. Customer: No Inconvenience from your side. I blame the Pandemic. Agent: can i ask what in particular you where looking for?. Customer: I was just trying to follow what supermicro suggest I was looking for 2TB and 4TB drives. Agent: How many for each?. Customer: 12GB/s 256MB I would need 24 of each I am looking on your site now. Agent: I see. Please give a moment I found HDD-3A04T-1KECR <https://store.supermicro.com/4tb-sas3-hdd-a4000-st4000nm004a.html>. Customer: looking now. Agent:

There isn't enough stock for your order but i can request for inventory. Is it okay if i can email you back at rburdige@anivive.com with an update?. Customer: Yes, TY. Agent: Before i place inventory request, are you okay with the drive HDD-3A04T-1KECR <https://store.supermicro.com/4tb-sas3-hdd-a4000-st4000nm004a.html>?. Customer: Standby on the Request Let me look around a little more. Agent: Of course. If you have any questions please feel free to LiveChat us. Can I help you with anything else? I do want to mention if you buy 20 of HDD-3A04T-1KECR <https://store.supermicro.com/4tb-sas3-hdd-a4000-st4000nm004a.html> you'll save \$4 on each drive. sorry i mean HDD-3A04T-1FECR <https://store.supermicro.com/4tb-sas3-hdd-a4000-st4000nm005a.html>. Customer: Cool, Thank you. I will hit you back if I have anymore questions Thank you for all your help. Agent: You're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hello!. Agent: Hi Peter. Customer: Our server came with a set of rails incompatible with our rack. Looking for a compatible product The server came with rail P/N MCP-290-00053-0N. Agent: May I know your chassis/ server part number, please?. Customer: I don't have the part number. It is still crated (from the OEM integrator). It is a 3U SuperMicro Sold via Watchguard/Motorola Solutions. Agent: Are you able to look for the serial number of it? Please check the link below for how to check serial number. <https://www.supermicro.com/en/support/rma/sn>. Customer: The rails are designed to go into rack with square holes. Our rack only has the holes for telecom type gear (screws). No, the server is at a remote site. Unmanned at the moment. Agent: Unfortunately, I cannot recommend the compatible rail kit without the chassis part number. Is that your rack has the round hole?. Customer: Yes. More for shelves, not server gear. Agent: Please give me a moment while I check if there is a adapter for you. . Customer: Bear with me one moment, I may be able to get a bit more info. Agent: Sure!. Customer: Does IV-SE-3U mean anything to you? That is part of the reseller's SKU. Agent: No, I cannot find any information for that SKUs. Customer: OK. I'll see what can be found. Thank you for your time. . Agent: You're welcome. Please check back with us if you have the part number/ serial number of the chassis/server. Is there anything else I may help you with today?. Customer: Will definitely be back! Thank you for your time'. Agent: No problem. It was nice talking to you. Have a great day, goodbye!. Customer: Bye Hello. How may I help you?. Agent: Hi again Peter. Customer: I think I found the adapter: MCP-290-00060-0N?. Agent: Yes, you can use the adapter the MCP-290-00053-0N. Supermicro Threaded Rail Adapter Set for Round Hole Racks (MCP-290-00060-0N)https://store.supermicro.com/rail-kit-adapter-set-mcp-290-00060-0n.html?queryID=5a152ccef2f9b118bd22322fc3b687ac&objectID=1238&indexName=supermicro_default_products Or the Supermicro Rail Adapter Set (Non-Threaded) for Round Thread Racks (MCP-290-00061-0N) https://store.supermicro.com/rail-kit-adapter-set-mcp-290-00061-0n.html?queryID=5a152ccef2f9b118bd22322fc3b687ac&objectID=1239&indexName=supermicro_default_products I cannot guarantee which one is work with your since I don't know which part number of your chassis. Customer: The rails in the picture is what came with the server. Our rack has threaded holes. . Agent: I see. You can use the adapter MCP-290-00060-0N to install the MCP-290-00053-0N with your rack. Customer: Yes. Sounds reasonable to me. Yes? 😊 Can you see if the MCP-290-00060-0N is in stock?. Agent: Yeah. This is how you install the adapter and rail set. Customer: 👍 . Agent: Please give me a moment while I check for you. . Customer: And also, is there a kit of rack screws available?. Agent: How many MCP-290-00060-0N are you looking for?. Customer: Whatever will support 1 server. Agent: We have MCP-290-00060-0N available for you to purchase. You should only need 1 set for a server This rail adapter set includes 2x bracket A and 2x bracket B for four rack posts. . Customer: Great! And screws?. Agent: There are no screws included because screws are usually included with chassis. .

Customer: Ah well... What part of the country do your parts typically ship from?. Agent: The order should be ship from San Jose if you purchase with our eStore. Customer: Are orders filled same day?. Agent: Our order will ship out by the end of the day if you placed the order before 3:30 PM PST. Unfortunately, it is passed our cutoff time. The order will be shipped by the end of tomorrow. . Customer: That will be fine. Just wanting to let the powers that be know. Thank you SO MUCH for your time. . Agent: You're welcome. Is there anything else I may help you with today?. Customer: No, this made my day. ;-). Agent: It's great to hear that. It was nice talking to you. Have a great day, goodbye!. Customer: Peter K Knowles left the following comment: Thank you, Liz! Hello. How may I help you?. Agent: Hi Krystal! How can I help you with the availability ?. Customer: hi we would like to order 2x Supermicro 55cm OCuLink to OCuLink Cable (CBL-SAST-0818) if we order now, when you guys can shipped out the order?. Agent: May I know what shipping method you are choosing ?. Customer: federal express. Agent: We offer standard shipping (3-5 business days), expedited shipping (2 business days), overnight (next business day), priority overnight (by 10:30 am to most US addresses; by 5 pm to some remote areas; by noon on Saturdays). Which one are you choosing?. Customer: standard one. Agent: I see. Yes, if you place an order now with standard shipping, the order will be shipped out today. . Customer: OK, got it thanks. Agent: You're welcome. Can I help you with anything else?. Customer: that should be all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you? Hi, Kyle. Agent: Hi Peter. Customer: I'd like to cancel order 1000024363 and then place an order for additional items. Unless you can supplement that order Trying to avoid too much additional shipping cost. Agent: Unfortunately, we cannot edit the order with additional items so I recommend cancelling. Customer: Can you help with that ?. Agent: If you log into your account and go to Orders, you can cancel from there right now. Customer: OK. thank you. I'm a first time visitor. Thank you. Agent: You're welcome! Let me know if you see the option To cancel your order, please log into your account and go to "My Account" and then click on "My Orders". From there, you should be able to cancel your order to be exact I was able to see the cancelation. Is there anything else I can help you with? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Mr. Anthony. Customer: I purchased some fans I receive five of them but one is broken I purchased some fans I receive five of them but one is broken. Agent: I'm so sorry to hear that. You can request the RMA for the broken one To submit an RMA (return) request, please utilize our new support portal at <https://webpr3.supermicro.com/SupportPortal/>. If you have not submitted a request before, please register prior to doing so. May I know your order number also? Hi Rick !. Customer: Hi there Ok, here is my question/issue. We have qty 8 of the 8 slot 4027gr-trt servers that we would like to change GPUs in. We are wondering if you have for sale, high profile cover lids for these units so we can install GPUs that plug in on the top of the cards instead of the back end. Our current servers came with low profile system covers. Agent: Please give me a moment while I check for you. In our system, only MCP-230-84801-0N is the top cover for your server Unfortunately I can't tell if it is for low profile or high cover Since we don't sell covers on eStore, I suggest checking with our RMA department for this part RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3 Also, another way to find out about the cover is checking with your sales rep. Customer: ok, we juts received a new 4u chassis that is still in the box. I will check to see if it's cover fits our old units and go to them to see about getting something. I truly appreciate it. . Agent: You're welcome. . Customer: in the mean time... can I

get a quote for some cables please. Agent: What are the cables you are looking for quotes for ?.

Customer: cbl-pwex-0582 qty 20. For Rutgers University. so it should be tax exempt. . Agent: I see. You can request for a quote through this link <https://store.supermicro.com/quote#CBL-PWEX-0582> We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to estore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected.

<https://store.supermicro.com/tax-exemption-guide>. Customer: ok great thank you. I am sure we already

have an account ok, that's all I need thanks. . Agent: Tax exemption has to be done after the purchase.

You will need to submit the certificate after the purchase to get a refund Sounds good. It was nice

talking to you. Have a great day, goodbye!. Customer: you too. Agent: Thanks! Hi Kevin. Customer: Hi, I

have a questions about CBL-SAST-1270-100 cable do you have this cable with GPIO connector? I have a

2U supermicro with a backplane and I need GPIO function. . Agent: May I know your server part number

please?. Customer: you need chassis? or M/B?. Agent: Can I have both if possible?. Customer: please

wait. I will go get it. CSE-825 and X12SPM-FT on the latest RAID controller. Agent: Thank you for your

information. Please give me a moment while I check for you. Please bear with me for a few more

minutes while I check for you. I'm sorry currently we don't have the cable SlimSASx8 STR SFF-8654 to

8xSATA that goes with the GPIO. We only have the SGPIO in separately Supermicro 40cm SGPIO 8-Pin

Female to 8-Pin Female Cable (CBL-0157L) [https://store.supermicro.com/supermicro-40cm-sgpio-8-pin-](https://store.supermicro.com/supermicro-40cm-sgpio-8-pin-female-to-8-pin-female-cable-cbl-0157l.html)

[female-to-8-pin-female-cable-cbl-0157l.html](https://store.supermicro.com/supermicro-40cm-sgpio-8-pin-female-to-8-pin-female-cable-cbl-0157l.html). Customer: thanks. Agent: You're welcome. Can I help you

with anything else? We haven't heard from you in awhile so this chat will be closed in approximately

two minutes. We want to make sure we get your questions taken care of so if you need any further

assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to

you. Have a great day, goodbye! Hi Melville. Customer: Hi Mark, how are you today?. Agent: I am doing

wonderful, How about you? thank you for asking!. Customer: You bet! I'm doing alright Good Sir. But,

we have a problem with an order. . Agent: I see, what is the problem?. Customer: Ordered a batch of

SATA Cables for a server were building over here. They came in today and they are the wrong product.

The part number we ordered is: CBL-0207L Supermicro SATA Round Straight-Straight with Latch

Connections 59cm Cable (CBL-0207L) [https://store.supermicro.com/supermicro-sata-round-straight-](https://store.supermicro.com/supermicro-sata-round-straight-straight-with-latch-connections-59cm-cable-cbl-0207l.html?queryID=869b74101329c702b2a99b55536b6159&objectID=521&indexName=supermicro_d)

[straight-with-latch-connections-59cm-cable-cbl-](https://store.supermicro.com/supermicro-sata-round-straight-straight-with-latch-connections-59cm-cable-cbl-0207l.html?queryID=869b74101329c702b2a99b55536b6159&objectID=521&indexName=supermicro_d)

[0207l.html?queryID=869b74101329c702b2a99b55536b6159&objectID=521&indexName=supermicro_d](https://store.supermicro.com/supermicro-sata-round-straight-straight-with-latch-connections-59cm-cable-cbl-0207l.html?queryID=869b74101329c702b2a99b55536b6159&objectID=521&indexName=supermicro_d)

[efault_products](https://store.supermicro.com/supermicro-sata-round-straight-straight-with-latch-connections-59cm-cable-cbl-0207l.html?queryID=869b74101329c702b2a99b55536b6159&objectID=521&indexName=supermicro_d) However...the cables that arrived do not have latches on them...just standard SATA

ends. I'll attach a picture of the cables that arrived today. Here is a picture of the latching cables we

normally use. The cables that arrived today are missing the latching mechanism. . Agent: I am sorry for

this. Please give me a second to look into this. . Customer: Roger that. Thanks for the assistance Mark. .

Agent: We apologize for the inconvenience and this the mistake on our end, there is wrong description

on website. Please utilize the Supermicro. Customer Reporting Management System to submit a New

RMA Request. If you have not submitted a request before, please register prior to doing so.

<https://webpr3.supermicro.com/SupportPortal/> The cables you should order are CBL-0315L

[https://store.supermicro.com/supermicro-sata-flat-straight-straight-with-latch-35cm-cable-cbl-](https://store.supermicro.com/supermicro-sata-flat-straight-straight-with-latch-35cm-cable-cbl-0315l.html)

[0315l.html](https://store.supermicro.com/supermicro-sata-flat-straight-straight-with-latch-35cm-cable-cbl-0315l.html). Customer: We were hoping to get the latching mechanism on the thinner round cables. The

red flat ones take up a lot of space in cable routing. Do you have any latching cables in the thin round

variety?. Agent: That's the only one but let me check just to make sure. . Customer: They should look something like this... Wish I had a better picture. . Agent: I just checked and we don't carry any like that. I am sorry. . Customer: Roger. Can you assist with the RMA process. Never had to do that before. . Agent: For RMA you would have to go <https://webpr3.supermicro.com/SupportPortal/> and since this your first time you would have to click on new RMA request. Is this something you would like to do on your own, or would you like for us to do this? Can i confirm this is for the order 1000024309?. Customer: Can you do this one Mark? I'm on my second shift today, and they have me scheduled for another assignment this afternoon in a few minutes. . Agent: Of course i could. Can i can confirm this for order 1000024309?. Customer: Roger...let me check. . Agent: Okay. . Customer: Yes Sir. Order # 1000024309. . Agent: Sounds good. Ill submit this for you. You'll get a notice from RMA team once i submit this. Is there anything else I may help you with today?. Customer: One question Mark - how quickly will the RMA team get back with me? Should I plan on getting this up to UPS at the end of today...or start of shift tomorrow morning?. Agent: You'll have to wait for RMA to contact you. This can take within 1 business day. . Customer: Roger. Thanks for all of the assistance Mark. Have a lovely rest of the day Good Sir!. Agent: You're welcome! and thank you. It was nice talking to you. Have a great day, goodbye!. Customer: Do you guys supply a cable Data cable Slim Line SAS 4.0 SFF-8654 4i 38pin Host to HD Mini SAS 4i SFF-8643 36pin Target Cable Do you guys carry that cable. Agent: Please give me a moment while I check for you. I am sorry but we don't carry the cable you are looking for You might want to check with other vendors Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Onno. Customer: Hi. I'm wondering if CBL-SAST-0929 is compatable to SuperServer 2049U-TR4. On the compatibility list only CBL-SAST-0926 is listed. But CBL-SAST-0929 seems to be identical except that is a bit longer. CBL-SAST-0929 seems to be much more available. . Agent: Please give me a moment while I check for you. . Customer: Sure. Thank you. . Agent: Yes, they are both OcuLink v 1.0 source to MiniSAS HD. It should be compatible. Customer: Great. One more question if I may. Do U.3 NVME drives fit into 2049U-TR4?. Agent: I'm sorry this system wasn't validated with any U.3 NVMe by our lab. You can try but I cannot guarantee. . Customer: Understandable. It is a bit outdated at this point. Okay, thank you. That was very helpful. . Agent: You're welcome. Can I help you with anything else?. Customer: No, that was all. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You too! Bye! Onno Nerjes left the following comment: Liz has been very quick and helpful. Hi. Agent: Hi Hung-Chang. Customer: I need to buy 38 units of PWS-1K23A-1R. Could you please release inventory for my order? THx. Agent: Let me check for you. Customer: I was informed that this SKU will get re-stock in Mid March. Agent: Ok still checking as there were PSU shortages for many models unfortunately. . Customer: OK. Please let me know how many you carry at the moment. Thank you. Agent: We are currently out of stock. I checked internally but not sure how long ETA or when I'd get an update for this. I can email you back once I get one. . Customer: OK. Do you know alternative source or your listed retailers might carry this SKU?. Agent: You can try checking with our resellers/distributors: <https://www.supermicro.com/en/wheretobuy> per your location. Customer: Thanks. Agent: You're welcome Can I help you with anything else?. Customer: I am good now. Thank you for help Kyle. Agent: Sounds good! It was nice talking to you. Have a great day, goodbye! Hi Sean. Customer: Hi I had reached out to email support regarding the CSE-PT51L rail kit I recieved a reply saying that it was ready for me to try and order, but when I try add it to the cart I am still getting the message to contact support. . Agent: I

see. Please give me a moment while I check for you. I've updated the inventory for CSE-PT51L. Can you please try again?. Customer: Its allowing me. is it actually in stock?. Agent: Yes, it is. Customer: okay. thank you!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: that should do it, I appreciate your help. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: you too!. Agent: Hi Roy. Customer: Hello, I am looking to purchase 4 micro BNC male to Standard BNC female jumpers for our server. Also 2 micro BNC male to micro BNS male jumpers. Agent: For what server is this? if you need help finding the system serial number please use <https://www.supermicro.com/en/support/rma/sn>. Customer: 815TQ-RC500CB. Agent: Unfortunately, we don't carry any BNC or BNS on our eStore. You can check with our RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3. Customer: ok, thanks for the help. . Agent: no problem. Is there anything else I may help you with today? Hi Rick. Customer: Hi. I need to replace the fans on my CSE-510 chassis. The fan is FAN-0106L4. I do not see that number listed though. . Agent: I'm sorry, but unfortunately, we do not carry FAN-0106L4 on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> You also can contact our RMA department to see if they can help RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3. Customer: Will do. Thanks. . Agent: You're welcome. Is there anything else I may help you with today?. Customer: No thanks. Bye. . Agent: It was nice talking to you. Have a great day, goodbye!. Agent: Hi Dale. Customer: Hi Liz. Agent: How can I help you today?. Customer: I was wondering if there was any ETA on stock for M392A4K40BM0-CRC. Agent: Is this memory <https://store.supermicro.com/32gb-ddr4-2400-mem-dr432l-sv01-er24.html> what are you refer to?. Customer: Yes, that's the one. Agent: Unfortunately, this memory is EOL on our end. It won't be back in stock in the future. I'm sorry for this inconvenience. If you would like to find a replacement memory Please let me know your Supermicro motherboard part number I can find the compatible memory for your Supermicro motherboard. Customer: That is unfortunate. The board is X10SRi-F. Agent: Thank you! Please give me a moment while I check for you. Is that ok if the memory is the 32GB DDR4-2400 2Rx4 LP ECC REG DIMM?. Customer: Yes, that is fine. Agent: Thank you. The Supermicro (Samsung) 32GB 288-Pin DDR4 2400 (PC4 19200) Server Memory (MEM-DR432LC-ER24) is compatible with your motherboard <https://store.supermicro.com/32gb-ddr4-2400-mem-dr432l-sl02-er24.html>. Customer: Excellent, thank you. Agent: You're welcome. Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Scott ! Did you purchase CBL-PWEX-0710-JP from our eStore ?. Customer: yes if the part works for me, I'm going to buy 24 total. Agent: Have you contacted FedEx to locate the package ?. Customer: yes. no update on the delivery date. Agent: 1000024286 is your order number. Correct?. Customer: sorry. standby yes it will probably show in a week. Agent: I am sorry we don't have Will Call option for eStore order. Did FedEx tell you a reason for the delay ?. Customer: no. This is sadly a common occurrence these days. If it was picked at your Brokaw site, it is likely in a trailer off of trimble/montague Any other way for me to get one?. Agent: Let me investigate where your package is and I will update with you as soon as I can Is scott.hanson@cohesity.com the best email to reach you ?. Customer: yes. Thank you. . Agent: Sorry for the inconvenience ! I will get back to you as soon as I can Can I help you with anything else?. Customer: The eStore says volume discount. I will need 23 pcs if this first works, is there a discount?. Agent: I believe so for 23 pcs. Can you please send a request through this link ?<https://store.supermicro.com/quote#CBL-PWEX-0710-JP>. Customer: I will.

Thank you... . Agent: You're welcome. Is there anything else I may help you with today?. Customer: no thank you. thanks for the help. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hi mark. Agent: Hi Tracy. Customer: I have an issue. I placed an order on Wednesday and received a defective server. . Agent: I am sorry for this. . Customer: It was order # 1000024324. Agent: What was wrong?. Customer: one of the two servers doesn't pass post boot we received it today so my question is with the rma, since you shipped me something that didn't even work when we just received it, why would i pay for it to be shipped back when we just received the order today and the unit was DOA when shipped from supermicro. Agent: please give me second to look into this. . Customer: k. Agent: Before you submit a RMA please talk with CRM team to see if they can fix the issue with your server <https://webpr3.supermicro.com/SupportPortal/> submit CRM case to tech support. Customer: If it is dead, then what. Agent: Then contact us again so we can assist you with the RMA. Customer: OK. My tech did call, and was told to RMA the product. What i am annoyed about is that the product was just delivered and why would i pay to ship it back when the unit doesn't work at all The serial # S326099X2216635. Agent: Let me check internally for this. Is it okay if i email you back at tratz@clarityscg.com?. Customer: I would like to get this replaced as I have a client that needs the pair but we have DOA server and would like my techs to configure them before we send them to the client but i can't see paying for something when the server arrives that is broken. Agent: I understand. You would want this replace it would be a cross-shipping. Let me check internally to see what we can do and ill email you back soon. . Customer: K. Agent: Thank you for your patience. Ill email as soon i get any update. Is there anything else I may help you with today?. Customer: That's it. Agent: It was nice talking to you. Have a great day, goodbye! Hi Scott ! I am sorry but our eStore doesn't carry CBL-PWEX-1058. Customer: thank you.. . Agent: You're welcome. Can I help you with anything else?. Customer: no thank you. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: I am trying to locate a new chassis for a rebuild project cse-826e16-r500lpb. Agent: CSE-826E16-R500LPB is EOL in 2016. Customer: yea i know its legacy SC826TQ-R500LPB is this the same. Agent: Yes it is EOL Are you looking to purchasing those chassis ?. Customer: I have the first one nib and have all the guts but i need a matching case. Agent: If you are looking for the chassis, you should be able to locate them on the market still <https://www.supermicro.com/en/wheretobuy>. Customer: i found the second part number online in stock it looks the same but not sure. Agent: I see Sorry since it is EOL and our eStore doesn't carry chassis, I will not able able to suggest if they are the same or not. Customer: ok thanks I saw a pair of black and gold sneakers 45.99. Agent: Hello I'm sorry, but we don't sell any sneakers on our eStore. Customer: Hi Kile Sneakers shoes. Agent: Yeah we don't sell any sneakers, just computer products. Customer: Ok. Thanks. Agent: Np! Can I help you with anything else? Hi Ryan !. Customer: Hi - trying to place an order and once I put the shipping address in, it says no quotes found and it won't move forward. Do I need to have a quote before ordering?. Agent: Can you show me a screenshot to show the message ? What product are you purchasing and what the shipping address it is please ?. Customer: Supermicro 2U Passive CPU Heat Sink Socket LGA2011 Narrow ILM (SNK-P0048PS) just 2 of them shipping is 1037 E Brandon Blvd Brandon, FL 33511 billing will be different. Agent: Please give me a moment while I check for you. . Customer: thank you. Agent: 1037 E BRANDON BLVD BRANDON , Florida US 33511-5515. Customer: correct for shipping. Agent: Can you use this address please. Customer: now its working - thank you!. Agent: You're welcome. Can I help you with anything else?. Customer: not at this time - but thank you. Agent: You're very welcome. It was nice talking to you. Have a great day, goodbye!. Customer: you as well!! Ryan Collier left the following comment: Super helpful!! Agent: Hi Ryan !. Customer: hi there So I am trying to place the order and getting an error message. Agent: What

is the message please ? What is the billing address please ?. Customer: so billing is 235 W Brandon Blvd Suite 299 brandon, fl 33511-5103. Agent: When do you get this message ? I put in " 235 W Brandon Blvd Suite 299 brandon, Florida 33511-5103 United States" and it works. Customer: once I select Place Order that msg pops up. Agent: Just to verify, this is surely the billing address ties to the credit card. Correct?. Customer: correct. Agent: Hmmm. Let me reach out to our internal team to have this work out Can I email you afterwards?. Customer: okay - sure. Agent: Is ryan.collier@datacorps.com the best email to reach you ?. Customer: can you email kimberlee.weaver@datacorps.com. Agent: Sure thing, will do. Customer: ty!. Agent: Can I help you with anything else?. Customer: not at this time. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: goodbye Hi Joe — I've used the wrong ACH account number on order 1000024387 Is it possible to change the ACH payment account on this order, or should I cancel and try again? For context, I'm an EU customer using a Wise account, and delivering the order to my exporter. Agent: Are you using an US bank ?. Customer: Yes I have a US bank account, but I've used the wrong number. Agent: Wrong bank info you mean ?. Customer: Yes. Agent: Please cancel the order and reorder. Customer: Okay, how can I cancel the order?. Agent: After you login to eStore, please go to My account --> My Order. Customer: I'm looking at the order page (https://store.supermicro.com/sales/order/view/order_id/96622/) and I don't see a cancel button Please can you cancel it?. Agent: Please give me a moment while I check for you. I can request to cancel it for you It will take about an hour or so. Customer: Okay understood, I'll place a new order in the meantime Thank you for the assistance!. Agent: You're welcome. . Customer: Hello Support. Agent: Hi Manuel !. Customer: I'm looking for a spare part of a very expensive switch I bought from you the fans broke and I need a replacement the supermicro switch is Supermicro Switch SSE-X3348TR I believe the part number is NIDEC W38S12BUA5-53T17 0.7A 12V fan kit. Agent: Please give me a moment while I check for you. . Customer: This is the part I need the four fans assembly I was able to get a spare last year for another switch we have from you but I cannot get it through any reseller. Agent: There is no fan part under SSE-X3348TR. Customer: well last time you get me a part those switches cost \$8K USD can you escalate this issue with supermicro? I really need the part I'm not ready to replace the switch because a fan broke as I said, that switch cost me \$8,000 USD I paid last year \$45 for the replacement part. Agent: Have you to contacted RMA department for this ?. Customer: not yet how do I contact them?. Agent: For your situation, please contact RMA to submit a repair or get a replacement To submit an RMA (return) request, please utilize our new support portal at <https://webpr3.supermicro.com/SupportPortal/>. If you have not submitted a request before, please register prior to doing so. Can I help you with anything else?. Customer: no, thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: I need the same model of driver tray for 2,5 inch disks. Agent: Hi Serge! Are you looking for MCP-220-00094-0B ?. Customer: Yes but for 2.5 inches disks it may not be the same reference. Agent: What is your chassis or server part number ?. Customer: 747TQ-R1620B. Agent: Please give me a moment while I check for you. Please bear with me for a few more minutes while I check for you. MCP-220-00094-0B is the part number https://store.supermicro.com/mcp-220-00094-0b.html?queryID=fc1259a2dd99ff2ee83751e3a83f047c&objectID=633&indexName=supermicro_default_products. Customer: Ok I knew that and how I adapt my 2,5inches disk ?. Agent: MCP-220-93801-0B https://store.supermicro.com/mcp-220-93801-0b.html?queryID=a968ec3a5f6da4d22f67201629621011&objectID=872&indexName=supermicro_default_products Can I help you with anything else?. Customer: Thank you this one is good !!! Good evening. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Juan. Customer: hi liz

good morning. Agent: Good morning. Customer: i am worried about my order 1000024335 1 server its ok and on delivery but the other 3 servers are like stop in the process can you please help me identify what its hapening *happening. Agent: Please give me a moment while I check for you. . Customer: thanks for all. Agent: All I know right now, your other 3 servers are assembling now and will be shipped out as soon as they are finished. Can I email you back via jcgomez@atl-corp.com?. Customer: yes please thanks :). Agent: I will check again internally to make sure everything is good. Customer: ok thanks, those servers are for an urgent project, so no mather th eproblem , tell me so we can resolve it thanks for your help. Agent: You're welcome. Oh wait.. Let me double check Your order should be shipped out by today. Because it was different server in the same order. They will be shipped out separately. I just got the answer from internally. . Customer: thanks and wonderfull news. Agent: You're welcome. Is there anything else I may help you with today?. Customer: liz it downt matter that in the status its on the 1 step ? *doesn' t thats why I ask on the chat if you tell me that it' s ok i will ignore the status of the order thanks for your kind support always 😊 🙌 👍 . Agent: You're welcome. I will keep an eye on your order and let you know if there is any problem via email. Customer: thanks greetings to kyle also, have a nice day. Agent: Sure, I will. Thank you. It was nice talking to you. Have a great day, goodbye!. Customer: Juan Carlos Gomez left the following comment: wonderfull support staff (Liz and kyle and supermicro agents). Agent: Hi Courtney. Customer: Can you use the 2.5" screws in a 3.5" hot swap bay? hello :). Agent: Please give me second to check. Unfortunately you can't due size difference. . Customer: okay, can you please tell me when these will be back in stock then? MCP-410-00005-0N. Agent: Of course, let me check It's currently out of stock but i can ask for inventory change. How many would you like?. Customer: As of now we will only need 1, I could see my team wanting more in the future as these screws unfortunately wear down quickly. Agent: I'll place inventory change and ill email you once they are available. Is the email courtney.lawson@us.bosch.com best to reach you at?. Customer: Yes! Thank you so much! Please also send the email to: robert.pendygraft@us.bosch.com he will likely place the order. Agent: Sounds good! ill email both once they are ready. Is there anything else I may help you with today?. Customer: No that is it, thank you so much!. Agent: It was nice talking to you. Have a great day, goodbye! Hi Kelly !. Customer: Hello - do you know when you'll have stock of PF40561BX-Q40U-S9H? Hi Joe! I'm looking for qtys of 2, 4, & 8. . Agent: I can make a request to have total of 14 ready for you I can email you when they are ready What is the best email to reach you ?. Customer: I need to know the lead time of them. Agent: Oh I see. Customer: this is for a quote for a customer. . Agent: We can get them ready in a day But it all depends on when your customer will place the order Our eStore is first come first server for stock. Customer: Got it, thanks much! Have a great day Hi, I'm building an installation and need to find a workstation to support the requirements there. 1. They want to start with three RTX A4000 cards and would like to have the potential to later add 1-2 more. 2. They would like to have several available PCIE slots beyond those used for the graphics cards. 3. 128GB memory 4. The emphasis is on chip speed in terms of the CPU (s) 5. Mobility is helpful, so a rugged case is a plus 6. Thunderbolt, if possible. Agent: Hi Nathan. Customer: Hi, Kyle, just to emphasize; A lot of the use will be Unreal Engine, so CPU speed is imprtant. . Agent: I believe the only workstation we carry that may support that many GPUs is an AMD threadripper one in AS -5014A-TT, but it doesn't support Thunderbolt <https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html> Hi Warren. Customer: hi is there a number I can call to walk through a "configuration" I want to basically build a server. Agent: May I know your phone number and what time is best to contact you? We will have someone to reach you for this inquiry. Customer: i would rather call or schedule a call I can do now. . Agent: Can I have your phone number please? We will call you right away. Customer: 404-428-

9165. Agent: We will call you shortly for helping you on the configuration. Thank you! Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi David. Customer: Hello mark We are looking for MCP-290-00054-0N rails x 10. Do you have?. Customer was queued because Mark had lost internet connection Joe joined the chat. Agent: Hi David!. Customer: hi Joe. Agent: Looking for 10 pcs MCP-290-00054-0N ?. Customer: correct. Agent: I will make an inventory request and email you at dbeinstein@vibrant.com when they are ready for you Hi David !. Customer: Hi. i was chatting with mark but lost the chat. Agent: I will make an inventory request for 10 pcs MCP-290-00054-0N and email you at dbeinstein@vibrant.com when they are ready for you Hi David! Please don't close the chat window I will make an inventory request for 10 pcs MCP-290-00054-0N and email you at dbeinstein@vibrant.com when they are ready for you. Customer: thank you. Agent: You're welcome. Can I help you with anything else?. Customer: that will do it. thanks. Agent: It was nice talking to you. Have a great day, goodbye! Hi Christian. Customer: hi Liz. I need a 1U server capable of supporting a Quadro RTX4000 GPU, with an sckt 2011-3 system board. The SYS-110P seems close but only seems to come with scalable CPUs any other suggestions?. Agent: Please give me a moment while I check for you. . Customer: no worries.. . Agent: Please bear with me for a few more minutes while I check for you. . Customer: not a problem... you are helping me... least i can do is be patient :). Agent: You can check this server SYS-6019U-TR4 <https://www.supermicro.com/products/system/1u/6019/SYS-6019U-TR4.cfm> The motherboard is X11. Is that ok with you?> I'm not sure with the an sckt 2011-3 system board. Can you explain a little bit for this?. Customer: The Quadro RTX 4000 requires an 8 pin supplemental power connector.. Does this system have that ? And does this system come in a single CPU variant? the board in the server you suggested is a Dual Socket P (LGA 3647). Agent: Oh I see. You just one 1 CPU server only?. Customer: yes, we dont need a dual CPU model... socket 2011-v3 is a last gen socket. It just needs to be that or better. Agent: I see. Let me check if we carry any 1CPU server that can support RTX4000. Customer: the big concern is the ability to support the Quadro RTX 4000.. I Thanks!!! The RTX 4k takes 160W from the board and another 125w from the supplemental...I was shocked... . Agent: Currently, we don't have any rackmount server that has 1 CPU supports RTX4000, unfortunately. However, we have workstation server that is 1CPU and can support this GPU. Customer: i gotcha... No need to discuss the workstation unfortunately... They have to have the 1U FF due to space concerns... We may have to go with the much more manageable Quadro P4000 or the K4200. Thanks anyway, I appreciate all the help. . Agent: The SYS-6019U-TR4 is the 1U that can support the RTX4000 we current'y have . But it is 2 CPU. Customer: I will present that to the guys on that project. Thanks again. Agent: You're welcome. Please let us know if you need any assistance Is there anything else I may help you with today?. Customer: Christian Crews canceled the chat rating Christian Crews left the following comment: Liz did great and really tried to get me what I needed. Unfortunately the needed config was not available , but Liz damn sure tried!!. Agent: Hi Gordon!. Customer: Joe - can not log into my account or reset the password, how do I place an order?. Agent: What is the email address for your eStore account ?. Customer: gordon@tagint.com. Agent: Please give me a moment while I check for you. What screen does it show when you can't log in ?. Customer: Invalid login. Agent: Can you please show me a screenshot? Can you try with Incognito mode ?. Customer: same issue. Agent: You said you can't reset the password ?. Customer: here is copy of reset email PHN0eWxllHR5cGU9InRleHQvY3Nzlj4NCiAgICAvKiBHRU5FUkFMIFNUWUxFIFJFU0VUUyAqLw0KICAgIGJvZHksDQogICAgI2JvZHIUYWJsZSB7DQogICAg

DQogICAgPCETLSBDb3B5IFJpZ2h0IEVORCAAtLT4NCjwvY2VudGVyPgo. Agent: It seems like that it is your firewall issue. Please wait, we are looking into how to help with this situation Please bear with me for a few more minutes while I check for you. We just sent you a password reset email Have you gotten it ?. Customer: Looks the same as the last one Both of the ones just received are same. Agent: We would like to reset your password for you. Can we have the permission to login to your account ?. Customer: I will try later. Agent: If we have your permission now then we can login to your account to reset the password so later on you can just login and purchase. Customer: I need to purchase an additional 4 MCP-220-93801-0B components. Agent: Hi Steven, let me check for you. Customer: how many are in stock. Agent: So you're looking for 6 pcs?. Customer: 4 previous order ORDER #1000022616 need 4 more. Agent: Oh ok understood. Customer: the chassic only allows 8. Agent: Currently, we only have 2 pcs available so I'll have to request for 2 more, which could take several hours to be available. I can email you back once they are all available. Customer: understood. I believe using estore-order@supermicro.com. Agent: Yeah we'll be emailing from that account. Customer: then the part # will be enough info to purchase. Agent: shimshone100@gmail.com correct?. Customer: yes. Agent: ok great yeah the email will let you know once all 4 pcs are available. if there are any delays to the inventory transfer, I'll let you know later but hopefully not. Customer: Question who in the company can I talk to for a discussion about the motherboard I purchased. In the specs it said only win 16 & 19 will work with it. But I found a way with the BIOS to work with win 10 pro. been using it since last oct 2021. Agent: Oh nice, what motherboard was it? For these type of questions, I'd recommend contacting the technical support team at support@supermicro.com They usually will put out FAQs for these type of solutions if the OS hasn't been qualified but does work like in your case, I think engineering has to validate though. Customer: if people knew that this board MBD-H12SSL-CT-P works wint win10 the sales would go through the roof. Agent: Ahh that is good to know. It's a fairly new board. I wonder if Windows 11 would work too. Customer: I am using a AMD EPYC 7742 64 core processor very fast together. Agent: I guess it's just not qualified, but it could work. . Customer: their are limitations. cant work with xp of win7. Agent: ahh too old of OS maybe. Customer: just had to figure out how to setup bios correctly and I know it. Agent: Glad you figured it out. Customer: well wanted to test win 7. no go. Agent: Ah. Customer: so who would like to knw this information?. Agent: Most likely technical support and then they can work with our validation engineers on this too. Customer: The only issue was the LAN connection did not work. But supermicro has an update package to download for the board then it wrk perfectly. Agent: Oh I see like a driver?. Customer: yes a driver. Agent: Can I help you with anything else?. Customer: NXE_Point_Drop_BDrvNXE_Inst_v216.0.4.1 no just wanted to let someone know that this board is

compatible with win10 pro. Agent: Ok sounds good, I would contact technical support to let them know as well!. Customer: the fact that I have been using it for 6 months and playing MSFS2020 flight simulator very fast. Agent: Nice, glad its working well!. Customer: bye. Agent: It was nice talking to you. Have a great day, goodbye! Hi Avi. Customer: hello, i tried placing an order into my cart but was told that you might not have enough drive. Agent: Can i get the drive you are trying to get?. Customer: 18TB 3.5 Exos I need 16. Agent: i see, please give me a moment to check into this. . Customer: sure. Agent: Looks like we need to update our inventory. Is it okay if i can email you at avig@rocktone.net once its done?. Customer: ok, but I have 2 more questions does this setup with 16 SATA drives handle Raid 6 and does the system come with Windows Server OS, if not do you offer it. Agent: The onboard SATA controller only supports SATA3 (6Gbps) with RAID 0, 1, 5, 10. if you want RAID 6, we may need to add a controller card It does support Windows Server OS. Customer: ok I was told by an earlier rep this set up should be able to handle Raid 6. I need Raid 6 can you install windows server os?. Agent: You would have to choose if you want OS install. . Customer: i didn't see that option I do want it installed if possible. Agent: Right after Add On card there should be an option for OS. Customer: found it, thanks. Agent: I would have to double check on RAID 6. Please give me second. . Customer: ok. Agent: Can i get your full configuration?. Customer: is there a way to add it to my cart. Agent: Can you clarify what you mean by add it to my cart?. Customer: in the estore, that way you could see it. Agent: There should be enough for the drives you would like. Thank you!. Customer: this is what was sent to me a while ago it was supposed to be able to handle Raid 6. Agent: i see, Please give me moment to if this can handle RAID 6. . Customer: ok. Agent: For RAID 6, we are going to confirm with our PM is supported with the current configuration you have. I can send you a full configuration link for you to buy once it's confirmed. . Customer: ok, about how long do you think it will take?. Agent: Within a hour. . Customer: ok, great, I'll look out for it. Agent: I'll be emailing avig@rocktone.net for the update. . Customer: great. Agent: Is there anything else I may help you with today?. Customer: thats all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. I want to confirm that our tax exempt is on file. Agent: Hi David, let me check. Customer: thanks. Agent: It looks like it from last year on a previous order. Just email eStore-support@supermicro.com referencing the newer order# Can I help you with anything else? Hi Alec How can I help you today?. Customer: we have 20-30 super micro 4U rack mount servers with the 5 bay removable dry carriers. does supormicro make a drive carrier with key locks? drive*. Agent: May I know your server part number?. Customer: I think they hot swap bays are this SUPERMICRO CSE-M35T-1B 3 x 5.25" to 5 x 3.5" Hot-swap SATA HDD Trays I don't have the chassis p/n in front of me they look like this.
<https://www.supermicro.com/en/products/chassis/4U/842/SC842XTQC-R804B>. Agent: Unfortunately, our eStore currently doesn't carry any drive tray with key lock on it. You can check with our sale team for the special modify Sales-USA@supermicro.com. Customer: that too bad. we are being forced to add key locks to protect against insider threats at my employer. Agent: Oh I see. You might contact our Sale Team to see if they can help for the design. Customer: perhaps SM can recommend a third party drive carrier that is compatible? or are they proprietary?. Agent: I'm sorry I cannot recommended any third party drive carrier since I cannot checked on my end. . Customer: seems like they should be a standard rail system. Agent: I saw we have some key lock drive tray before However, you might need to contact your sale rep or sale team for that. Customer: perhaps SM should re-consider offering drive try with key locks. the world is no longer a safe place. trust no-one tray* thanks anyway. Agent: I will pass this note for our manager. . Customer: ok. Agent: Thank you so much Is there anything else I may help you with today?. Customer: not at the moment. Agent: It was nice talking to you. Have a great day, goodbye! Hi

Dag. Customer: Hi. How loud is that chassis?. Agent: Please give me a moment to look into this. . Customer: Thanks. We don't have a fully dedicated server room, quiet is better for us. . Agent: I would have to check internally for this. Can email you back at dag.lohmann@katrisk.com once i get this information?. Customer: That would be great. I looked on the website and couldn't see anything. . Agent: What is your full configuration for this system?. Customer: SuperStorage Server CPU:Dual 2nd Generation Intel® Xeon® Scalable Processor Chassis: 4U / 1 Node Drive: 45 Hot-Swap 3.5" (or 2.5") SAS3/SATA3 RAM: 24 DDR4 DIMM Slots Network Port:1 RJ45 Dedicated IPMI LAN Port. Agent: Thank you!. Customer: maxed out Intel® Xeon® Gold 5220R Processor 24-Core 2.20 GHz 35.75MB Cache (150W) 64GB DDR4 2933MHz ECC RDIMM Server Memory x 24 18TB 3.5" Exos X18 7200 RPM SATA3 6Gb/s 256MB Cache 512E/4Kn Hard Drive thank you. Hi, I am trying to order -> Supermicro Out of Band (OOB) Software License Key (SFT-OOB-LIC) to Sweden. Agent: Hi Haris!. Customer: But it seems I can only enter USA address for e-shop Is this going to be a problem for payment? I would like to pay via credit card. Agent: Yes, you will need an US based credit card for payment Which has an US billing address tied to it. Customer: What other option do you have?. Agent: We do have ACH payment, however it only can take US banks as well Would you like resellers' list so you can purchase locally ?. Customer: OK... . Agent: <https://www.supermicro.com/en/wheretobuy>. Customer: No need for that than. I have the list OK!. Agent: I see. Customer: I will contact one of your resellers. . Agent: Sounds good Can I help you with anything else?. Customer: Thank You. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Have a nice day! Bye!. Agent: Thanks! you too!. Customer: Hi Joe — thanks for your assistance yesterday, just completed ACH verification for order 1000024394 but it's not showing up in my account? Please can you confirm if the order is live, and if so, when it should ship?. Agent: Hi Luke ! Please give me a moment while I check for you. . Customer: Thank you, I appreciate it!. Agent: This is what I can see after you verified your ACH account : Thank you, your account has been verified and all associated orders will now be processed. Please note that it may take up to 5 business days for the bank transfer to arrive to us. As soon as the payment arrives, you will automatically be notified by email and your order will be fulfilled. Can I help you with anything else? So far your order is alive for sure and the order ship be shipped after the bank transfer the fund to Supermicro which will take 5 business days. Customer: Okay do you know why I can't see that in my account?. Agent: Do you have the email titled "Supermicro eStore: New Order #1000024394" ? When you click "View verification page here.", the message will show in the next page. Customer: The verification link works. Agent: Sounds good. . Customer: and the link in the email shows this. Agent: The order will be shipped after the bank transfers the fund to Supermicro which will take 5 business days. . Customer: Okay okay I'll sit tight Thanks for looking into this for me, much appreciated!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: No that's all good Have a good evening! I am looking for a power distribution board. PDB-PT112-2424. Is that available. . Agent: Hi Daryl, let me check for you I'm sorry, but unfortunately, we do not carry that product on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Aref How can I help you?. Customer: Hi Liz, So regarding this product Supermicro SATA Flat Straight-Straight 57.5cm Cable (CBL-0044L) We have unused stock and we were wondering if we could return these and get credit for it?. Agent: May I know your eStore order number please? Hi Matthew. Customer: Hello

Mark. I am looking to see what HDD's you have in large quantity I need to put together about 500TB of storage in a server, and I am having a bit of trouble getting available drives when trying to cart. Agent: I see. What capacity are you looking for and how many of those? Also for what server would this be for?. Customer: I think it will all depend on the stock of drives at this point do you have a large stock of anything 10TB or larger?. Agent: Please give me second. . Customer: no problem. Agent: Is it possible to get the Suprmicro server/motherboard part number that you are planning to use these drive for?. Customer: sure Supermicro 4U SuperStorage Server (SSG-6049P-E1CR45H) this would be one option. Agent: Thank you. Please give me moment to see what we have for this system. . Customer: another option would be SSG-640SP-E1CR60. Agent: Please bear with me, so i can see what i can find for these two systems. I found HDD-3A18T-1FECD <https://store.supermicro.com/18tb-sas3-hdd-a18t-st18000nm004j.html> I would have to do inventory change but i would have know how many first you would like. if you want to do 10TB we have HDD-3A10T-1FECD <https://store.supermicro.com/10tb-sas-hdd-a10t-st10000nm002g.html>. Customer: For the 18Tb it would be at least 30, for the 10TB it would be at least 45 I am not ready to purchase, so please dont do anything exceptional. I am just trying to see about availability. . Agent: We don't have enough on eStore but we can ask for inventory change to have enough for 30 of 18TB or 45 of 10TB. . Customer: actually, i do have one more chassis and drive lookup SYS-620C-TN12R Looking for 12 x 8 ro 10TB drives 8TB. Agent: Please give me second to look availability for this chassis Any preference between SAS or SATA?. Customer: SATA or NL SAS. Agent: Okay. Please bear with me for a few more minutes while I check for you. . Customer: not a problem, i appreciate your assistance. Agent: for 8TB we have HDD-3T08T-1FECD <https://store.supermicro.com/8tb-sata3-hdd-t8000-st8000nm000a.html>. Customer: Are there 12 of them?. Agent: We would have to do inventory change. . Customer: Ok. This is something we would like to order. There is another estore account I need to use for the cart, or can you provide a quote directly?. Agent: When you are set to order, let us know so we can start the inventory transfer and email you when they are ready. To get quote please fill out <https://store.supermicro.com/quote#HDD-T8000-ST8000NM000A>. Customer: ok, let me login now and I'll let you know when i'm ready to cart it. Agent: our quote agent will answer him shortly. Customer: ok, i am ready to try and add to cart There is only 1 8TB drive, however there is one labeled 3TB but looks like it might be an 8TB since it is between the 6 and 8TB drives. Agent: I would need to transfer inventory from warehouse to or or eStore* This can take a while to process. When i get an update i can email you once the are ready. . Customer: ok, that sounds good. . Agent: If you would like a quote before you purchase you would have to fill out <https://store.supermicro.com/quote#HDD-T8000-ST8000NM000A>. Then one of our. Agents well contact you with the quote and when they are ready to purchase. . Customer: Do you think the transfer will be done before tomorrow?. Agent: Sounds good. i want to confirm this is going to be for 12xHDD-3T08T-1FECD <https://store.supermicro.com/8tb-sata3-hdd-t8000-st8000nm000a.html> for the system SYS-620C-TN12R?. Customer: Yes on the system. We want 12 x 8TB drives, but I am not sur which drive in the selection is the drive you specified. There is only 1 8TB drive listed, so I can only assume this is the correct drive. Agent: Are you trying to purchase a system?. Customer: Yes the other drives I was inquiring about were for a system we are quoting out, so I just needed to find out about availability. The 12 x 8TB drives is something we are actively trying to purchase. Agent: i see, so you are trying to buy one of these systems SSG-640SP-E1CR60 or SSG-6049P-E1CR45H. for SYS-620C-TN12R you just need the drives?. Customer: Sorry for the confusion. At this time SYS-620C-TN12R with 12 x 8TB drives is what I am looking to purchase. Agent: can i get your full configuration for SYS-620C-TN12R?. Customer: sure think how shall i provide that thing. Agent: Can you screenshot?. Customer: sure. Agent: Thank you. Please give me second to duplicate this. . Customer:

Thats everything on the system, other than Windows Server 2019 Standard, AOC-S3916L-H16iR, and BTR-CVPM05. Agent: Please bear with me for a few more minutes. . Customer: no problem. Agent: We updated the drives. Would you like to buy now?. Customer: How does that work?. Agent: If you want to purchase with the AOC-S3916L-H16iR, and BTR-CVPM05 we will need to do pre-config link for you. . Customer: ok, if you can send me a link I will open it under our company estore account and we can purchase from there. Agent: Sounds good is the email mkelley@sddatacenter.com best to reach you at?. Customer: For myself yes, the corporate eStore account is under sddc.vendor.account@sddatacenter.com. Agent: I want for confirm this is the configuration with the AOC for BTR i would have check internally first. . Customer: The drives should be 12x8TB and the AIOM should be the 10G sfp+. Agent: sorry this one: May I confirm your configuration? 2 x Intel Xeon 4313 4 x 16GB DDR4 3200 12 x 8TB SATA HDD 2 x 480GB 2.5" PM883 SSD 1 x10GB SFP+ RAID 1 for 2 480GB SSD 1x Windows Server 2019 Standard, 1x AOC-S3916L-H16iR 1x BTR-CVPM05 is that correct?. Customer: Yes, that is correct. Agent: awesome! ill email you once its ready. . Customer: thank you very muc much I appreciate you help. Agent: You're welcome! Can I help you with anything else?. Customer: no thank you. have a great day. . Agent: It was nice talking to you. Have a great day, goodbye! Hi Gerardo !. Customer: hi. Agent: Are you looking to purchase SYS-E100-9W-H?. Customer: you can quote me yes I need to buy the following items E100-9W-H E100-9S MS-9B11-S1 4U-JMM02 one each. Agent: MS-9B11-S1 and 4U-JMM02 are not Supermicro products, are they ? We can get you server access so you can quote E100-9W-H and E100-9S on eStore. Can you please create an eStore account so I can request the access for you ? <https://store.supermicro.com/customer/account/create/>. Customer: ok, I'm already registered. Agent: With gerardo@zarcoelectronic.com Correct?. Customer: yes. Agent: Please give me a moment while I check for you. Your account has server access now Please log out and log back in SYS-E100-9W-H <https://store.supermicro.com/sys-e100-9w-h.html?utm=smcpp> SYS-E100-9S https://store.supermicro.com/sys-e100-9s.html?queryID=7113cc391f8ffce6c9eb636a9a0a35e9&objectID=2965&indexName=supermicro_default_products Are you able to see the configurator?. Customer: SNK-P0068AP4 heat sink and fan, will this work with MBD-X11DPI-N-O & BX806954208. Agent: Hi Pete, let me check BX806954208 the CPU?. Customer: yes. Agent: Ok thanks, looks to be the 4208 Is this motherboard in a Supermicro chassis or case?. Customer: no. Agent: Ok Give me a moment while I check. . Customer: this will be dual cpu set up MB in a Pedestal case by chenbro. Agent: That Heatsink is not compatible with this motherboard socket since it has a square mounting mechanism, it needs a narrow mounting mechanism. Let me find one that is compatible How big is the case?. Customer: 4u tower. Agent: Ok thanks SNK-P0068APS4 should work: <https://store.supermicro.com/2u-active-cpu-cooler-x11-snk-p0068aps4.html>. Customer: ok, Thank you for your help. Agent: You're welcome! Can I help you with anything else?. Customer: thats all. Agent: Sounds good! It was nice talking to you. Have a great day, goodbye! Hi Marc How can I help you?. Customer: We just boght 4 of these servers with 4 4TB HDD .. configured as raid. Having issues trying to install RHEL 8.5 it does not see the HDD Says no HDD in system?. Agent: I'm sorry to hear that. Do you have any screen shot or picture for this issue?. Customer: I am not at the machines unfortunately... they are in Austin i am in atlanta.. arghh.. Someone is there.. I am doing long dist support we had hoped to get RHEL installed so I could remote into them to setup the rest of the system. Agent: Oh. I see. This will be hard for me to address the issue to tech support. Maybe the best way for you to contact our technical support for this issue. They will help you on this issue. You can contact them at : Support@Supermicro.com or Tel: +1 408-503-8000 option 2. Customer: thanks. I will give them a call. Agent: I'm so sorry for this inconvenience Sound good! Can I help you with anything else?. Customer: no

thanks for the info. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Peter. Customer: Hello. I need 16 of these fans. FAN-0156L4. Agent: Please give me a moment while I check for you. I will need to transfer inventory for FAN-0156L4 to fulfill your order. It will take several hours to complete. Can I email you back via peter@serverpoint.com when the stock for FAN-0156L4 is ready?. Customer: Send it to Lvp1138@gmail.com. I will get the notice there faster. Or just copy both addresses. Agent: Awesome! I will email you in both email address as soon as the stock is ready Is there anything else I may help you with today?. Customer: thanks Liz! Nop. That is all. Have a great day!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Thank you!. Customer: Hello, I'm attempting to spec a server and when I go to add it to the cart it says 'please select all required options' however I don't see any additional options to select. Agent: Hi Mike!. Customer: Hello Liz. Agent: How can I help you today?. Customer: I may have found my issue - please give me a moment. Agent: Sure! Take your time. . Customer: Nope - didn't work I'm attempting to spec a server and when I go to add it to the cart it says 'please select all required options' however I don't see any additional options to select. Agent: Can I have your configuration please? I will try to duplicate your case on my end Are you working on the SYS-120U-TNR server? Hello Mike. Customer: Sorry - my browser glitched and I lost the chat box for a minute. Agent: No problem 😊 Are you working on the SYS-120U-TNR server?. Customer: Yes. Agent: Thank you! Please give me a moment while I check for you. . Customer: Thanks. Agent: Please bear with me for a few more minutes while I check for you. . Customer: No problem - thanks. Agent: I also got the same issue with you. Please give me a moment to check if everything is in stock. Customer: Thanks. Agent: Everything is in stock on my end. There is maybe the problem with the website. I will need to check with our web development team on this issue. Can I email you back via miked@10techsolutions.com as soon as the problem is resolved?. Customer: That would be great, thanks. Will support options be available to view and select once the server is added to the cart?. Agent: Once you successfully add the system to cart. You should be able to see your selection in the shopping cart. Customer: I should be able to see the options for support? I didn't see any support options on the main configuration page. Agent: I'm sorry. Can you explain the support option?. Customer: Warranty options. Agent: Oh. For the warranty, we currently don't have that option. It will be coming up in the future. Currently, Warranty should be the 3 year labor, 3 year parts, 1 year cross shipment when you purchase the system with our eStore. Customer: OK. Thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: I'll just wait to hear from you about the website. THanks. . Agent: I already reached to our webteam for this issue. I will email you as soon as the problem is solved. Customer: Thanks. Have a good one. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Nicolas. Customer: Hello Liz. Agent: How can I help you today?. Customer: I am inquiring if you have 24 of this part number available: ST4000NM002A. Agent: Is this the drive you looking for? <https://store.supermicro.com/4tb-sata3-hdd-t4000-st4000nm002a.html>. Customer: It is. Agent: Thank you. Please give me a moment while I check for you. . Customer: Thank you. Agent: I will need to transfer the inventory for this drive. Can I email you back via nfeisthamel@mtiss.com when the stock is ready? It will take some hours to transfer. . Customer: Yes, thank you. . Agent: You're welcome. Is there anything else I may help you with today?. Customer: No, that was all. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You as well!. Agent: Thank you! Hi John. Customer: Unable to place order Notice: Undefined variable: totalTaxableValue in /var/www/html/app/code/SMC/SalesTax/Soap/SapTax.php on line 479 Supermicro Out of Band (OOB) Software License Key (SFT-OOB-LIC) Qty 2 \$54.00 View Details Select Your Motherboard/System Model X10SRi-F. Agent: I'm sorry to hear that. Please give me a moment while I

check for you. Please bear with me for a few more minutes while I check for you. I'm sorry for the waiting. I'm contacting our development team and they are looking in this issue. Can I know your billing address, please?. Customer: 3260 Night Breeze Ln, Lake Mary Fl, 32746. Agent: It should be the zip code issue. Do you happen to know your 9 digits zip code?. Customer: 32746-1838 just looked it up that is the same as is on the web form. Agent: Do you mean you still have the issue when you input all 9 digits in your billing address area?. Customer: yes John Caballero Enterprise Florida 3260 NIGHT BREEZE LN LAKE MARY, 32746-1838 United States 4079565626. Agent: I see. Please give me a moment while I check for you. Can I email you back via jcaballero@enterprise-florida.com? We will need to check internally for this issue and it should take a while. Customer: yes. Agent: I'm so sorry for this inconvenience. I will get back to you via email as soon as it is resolved. Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com. Customer: are there any discounts for non-profits and since we are having issues?. Agent: I'm sorry, but unfortunately, we don't have any discount at the moment. Can you please try to check out again? Our development team already set the address for you. Please let me know if you still got any issues Please also try in incognito or new browser if possible when you try check out again We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Pam. . Customer: Hi, are there any estimated lead times/availability for 2 ea Hynix hma81gu7crj8n-vk? TY. Agent: Is for this memory MEM-DR480LB-EU26 <https://store.supermicro.com/8gb-ddr4-2666-mem-dr480l-hl01-eu26.html>?. Customer: Yes, actually need 4 ea. Agent: I am going to see internally if i can request an inventory transfer, if not I'll get the ETA for you. Is the email yksuh@avanu.com best to reach you at?. Customer: Yes that is correct. Thank you very much! Have a good day. Agent: You're welcome! I'll email you as soon i get an update. It was nice talking to you. Have a great day, goodbye! Hi Doug, how can I help you?. Customer: Where can I buy this motherboard? SuperMicro X11SPL-F. Agent: I'm sorry, but unfortunately, we do not carry any motherboards on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Otherwise, you can try checking with Sales at Sales-USA@supermicro.com Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Jesse. Customer: Hi! Can you tell me the barebones prices of that unit?. Agent: Do you ask for the price of SYS-110D-4C-FRAN8TP barebone?. Customer: Yes please. Agent: I'm sorry, but unfortunately, we do not carry SYS-110D-4C-FRAN8TP on our eStore, so we don't know the price of its barebone. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Okay thank you. . Agent: You're welcome. Can I help you with anything else? Hi Martin. . Customer: I am looking for information on how to become a SuperMicro reseller. . Agent: To become Supermicro reseller, You can contact our Sale team at Sales-USA@supermicro.com Tel: +1 408-503-8000. Customer: Thanks. Agent: Can I help you with anything else?. Customer: No that is it. Thanks again. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: I need 15 ea of this P/N. It is a power supply. PWS-1K23A-1R. Agent: Hi Dan, let me check availability for you Please bear with me for a few more minutes while I check for you. We'll have to check with our PM on this power supply as it is

currently out of stock with no ETA when we'll get more. I can email you once I get an update. .

Customer: Thanks. Agent: You're welcome Can I help you with anything else?. Customer: Not right now thanks. . Agent: It was nice talking to you. Have a great day, goodbye! Hi Kevin How may I help you today?.

Customer: Looking for availability of a SYS-E100-9W-L. Agent: I'm sorry, but unfortunately, we do not carry SYS-E100-9W-L on our eStore, but we have the similar one which is SYS-E100-9W-H.

[https://store.supermicro.com/sys-e100-9w-](https://store.supermicro.com/sys-e100-9w-h.html?queryID=5fa0140baef69118f95d7f96398bc953&objectID=2966&indexName=supermicro_default_products)

[h.html?queryID=5fa0140baef69118f95d7f96398bc953&objectID=2966&indexName=supermicro_default_products](https://store.supermicro.com/sys-e100-9w-h.html?queryID=5fa0140baef69118f95d7f96398bc953&objectID=2966&indexName=supermicro_default_products) Can you be able to see the link?. Customer: I can. So just go through the configure?. Agent:

Do you have an account with our eStore?. Customer: I think so. Agent: Is this under kevin@murine.org?.

Customer: Yes So the only model you have in stock is the -H?. Agent: Yes. Are you interested in it?.

Customer: If it has a short lead time. . Agent: Yes, here is an advantage when purchasing with us • All of our configurations has been fully validated by our Supermicro system lab. • We offer free shipping for all server orders. (limited time only) • We offer blazing fast turnaround time 2-3 business days if you purchase something via our eStore configurator. • Warranty is 3 years for server, 3 years for parts, and 1 year of cross—shipping. (limited time only) • We may have more storage capacity on our eStore. (Please contact me if you don't see any capacity available) It just take 3-5 business days for the server is shipped to you. Customer: That all sounds great but could you let me know the lead time of the items?. Agent:

The SYS-E100-9W-H is currently in stock and ready to build. Customer: If I ordered 15 would it still be in stock?.

Agent: Please give me a moment while I check for you. Unfortunately, we don't have enough stock for you. . Customer: How many do you have?. Agent: I'm sorry, may I know can you able to pay

with the US credit card or ACH bank transfer?. Customer: Credit Card. I could get a ACH but it would take longer. Agent: Sound good. We should have 8 system currently. I would prefer credit card payment because it will be faster than the ACH If you placed order today it should ship early/middle of next week.

Customer: Understood. Let me reach out to my boss if I can move forward with the purchase. . Agent:

May I know your configuration too? if possible. Customer: 2 x 8 GB and 1 TB NVMe When do you expect to get a restock?.

Agent: Please give me a moment while I check for you. The restock should be in 1-2 weeks but I will need to double check internally. Customer: That is reasonable Do you expect to only

carry the -H series or will you eventually carry the -L. I'm also looking forward to the 12T refresh. Do you

have any insight when they may be available?. Agent: I don't think we will have the -L any time soon,

unfortunately. Since the -L series doesn't available on our eStore yet. Customer: I've talked to a few

vendors from WiredZone to MITX. They've given me lead times ranging from 6-10 weeks to as long as

16-22 weeks. . Agent: Do you mean for the -H or -L series?. Customer: -L Is MITX an authorized vendor

by the way?. Agent: I see. We don't have the -L on our eStore unfortunately. Customer: No problem.

Agent: We currently only have the -H series and ready to build. Customer: I understand that but are you

able to tell me if MITX is an authorized vendor?. Agent: I cannot find the MITX on our resellers or

distributors list They might not authorized vendor from us. . Customer: Understood, I appreciate you

letting me know. . Agent: You're welcome. . Customer: Last question, do you have any visibility when the

12T would become available?. Agent: Can I have the full part number for the 12T?. Customer:

https://www.supermicro.com/en/products/system/Box_PC/SYS-E100-12T-L.cfm. Agent: Thank you.

Please give me a moment while I check for you. . Customer: I understand that you'll likely only carry the

-H variant of that line. . Agent: Yes, that's correct For the 12T series, I'll have to check internally since I'm

not able to see anything for this p/n on my end. . Customer: Would you be able to shoot me an email if

there is an expected date? Otherwise I'll go ahead with the 8 EA order later today. Agent: Sure. I can

email you as soon as I have any expected date for the 12T series. . Customer: Awesome, thank you Liz. .

Agent: Sound great! Please let me know if you need any assistance You're welcome. Is there anything else I may help you with today?. Customer: One now that I think of it, do you offer any discount volume pricing and if so when does it kick in?. Agent: We can discount the free shipping for you, but no volume discount at the moment unfortunately free ground shipping. Customer: Worth asking, thank you. . Agent: Sound good!. Customer: A final suggestion is you should ask you management to update the Authorized Vendor List. A lot of the weblinks I used for the west coast are dead. Like PCMall, SuperBiz, not sure of others that are dead. Otherwise I don't need anything else. Thank you for your time Liz. . Agent: Sure. I will pass your suggestion to our management. You're welcome. . Customer: Thank you, have a nice day. Agent: Thank you. It is my pleasure to assist you. It was nice talking to you. Have a great day, goodbye!. Customer: Kevin Harada left the following comment: Liz was very helpful in answering my question both fully and quickly. . Agent: Hi Demetrius. Customer: Hello, I have the X12STL-IF board and there is a JSATA1 jumper that is the SATA connector for SATA 0-3 on the Mobo, but I cannot find a cable/connector to make that work it seems to be a single connector for all 4 SATA connectors. Agent: Please give me a second to look into this. . Customer: thank you. Agent: This should work CBL-SAST-0948 <https://store.supermicro.com/supermicro-minisas-hd-to-4-sata-60-60-60-60cm-with-sideband-cable-cbl-sast-0948.html>. Customer: Great! thank you. is that what the connector is called, miniSAS?. Agent: miniSAS HD. Customer: Thank you sir. much appreciated. Agent: Of course! Is there anything else I may help you with today?. Customer: no, that is very helpful thank you. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Do you have SAST-1264-100?. Agent: Hi Deborah, I'm sorry, but unfortunately, we do not carry that product on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: I meant CBL-SAST-1264-100 Usually cables are available on estore. Agent: Yeah I figured it out, but we don't have this particular one unfortunately. Usually we do like you said, but not that one. Customer: Ok, so does that mean it is not readily available?. Agent: Not from eStore, but for other vendors or Sales team, it may be. Customer: ok i will check. Agent: You can try checking with Sales too at Sales-USA@supermicro.com if you can't find it with our resellers Can I help you with anything else? Hi Deborah How may I help you today?. Customer: Is this available: CBL-SAST-1229-100. Agent: Please give me a moment while I check for you. Unfortunately, we do not carry this cable on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: ok PWS-502-PQ available?. Agent: Hi Prit Currently out of stock. How many would you like?. Customer: 6. Agent: I would have to check internally for this. Going to see i can request inventory transfer, if not ill can get the ETA. Is it okay if i can email you back at sales@megamicrodevices.com when i get update?. Customer: yes please. Agent: Sorry i just got update, this power supply is EOL. There is a replacement for this, would you like the replacement SKU number?. Customer: no but please give me sku. Agent: PWS-668-PQ <https://store.supermicro.com/668w-atx-pws-668-pq.html>. Customer: thanks. Agent: For PWS-502-PQ, it won't be back to stock because it already EOL. . Customer: Hello Kyle. Agent: Hi Nicholas. Customer: I chatted with your associate, Liz, earlier today. I was inquiring about the availability of some Seagate hard drives and just wanted to check back in. . Agent: Let me check on that. Customer: Thank you. Agent: It looks like the inventory transfer request was submitted and just needs to be completed from the warehouse end before they are made available. Once we get an update, Liz will email. Sorry it's taking so long. . Customer: That's fine, as I said I just wanted to check in. Thank you for checking on that for me. . Agent: You're welcome! Can I help you with anything else?. Customer: That was That was all, sorry. Agent: Ok sounds good! It was nice talking to you. Have a great day and weekend, goodbye!. Customer: You as well!. Agent: Hi Craig. Customer: Hello. Is cable CBL-0068L in stock?. Agent: The cable

is in stock CBL-0068L <https://store.supermicro.com/supermicro-16-pin-front-control-panel-split-extension-61cm-cable-cbl-0068l.html> How many are you planning to purchase?. Customer: 2. Agent: Please give me second to check. Please bear with me for a few more minutes. We are updating the inventory. . Customer: ok. Agent: Can you please try again CBL-0068L <https://store.supermicro.com/supermicro-16-pin-front-control-panel-split-extension-61cm-cable-cbl-0068l.html?p=1> Please let me know if it worked. . Customer: it worked. Agent: Awesome!. Customer: Thanks!. Agent: Is there anything else I may help you with today? you're welcome. Customer: Do you sell a usb 3.0 to usb 2.0 cable or converter?. Agent: Please give me second to check. Unfortunately we don't carry that cable. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: okay. Thank you for looking. . Agent: You're welcome. Is there anything else I may help you with today?. Customer: no, thank you. Agent: It was nice talking to you. Have a great weekend, goodbye! Hello. How may I help you? Hi Kevin! I would like to let you know that we still have 1 SYS-E100-9W-H in stock. I just updated the inventory and you should be able to add it on cart. Please let us know if you need any assistance. We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Hi Kyle, could you help me with OBB license? I'm from Brazil. Agent: Hi Wagner I'm sorry, but our OOB license is only available for US-based customers (US billing address) to purchase. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: ok ill do that...thanks. Agent: you're welcome Can I help you with anything else? Hi Jason. Customer: Hi, good morning. Agent: Good morning! How can I help you today?. Customer: I purchased 3 of these E300-9D-8CN8TP for my homelab last year. I'm looking to update the BIOS and saw there was an activation prompt. Can you tell me what product it is that I need to perform these BIOS updates?. Agent: To update the BIOS, you can go to our main web site here: <https://www.supermicro.com/en/products/system/Mini-ITX/SYS-E300-9D-8CN8TP.cfm> Then click on the BIOS link at the bottom of the picture of the server. Hi again Jason. Customer: sorry about that.. good ole BSOD. Agent: no problem <https://www.supermicro.com/en/products/system/Mini-ITX/SYS-E300-9D-8CN8TP.cfm> here is the link again in case you miss it Please download the zip file and follow the readme file to update the BIOS for your server. Customer: oh. so the activation prompt is only for updating the BIOS via IPMI? I can still perform the update manually?. Agent: I see. You want to update the BIOS remotely? You can do it manually though. Customer: perfect. thats all i needed. Agent: the activation is for the OOB license and use for remotely update Sound good!. Customer: thank you Liz, have a wonderful day!. Agent: You're welcome. Thank you. It was nice talking to you. Have a great day, goodbye!. Customer: Jason McFarland left the following comment: my inquiry was quickly understood and resolution just the same. . Agent: Good morning Barry How can I help you today?. Customer: We have two SYS-1029P-WTR servers and we need to purchase 2 1 Supermicro 10-Gigabit (2 x 10G SFP+) Ethernet Network Adapter cards. Can you send me a quote?. Agent: Please give me a moment while I check for you. I'm sorry, but unfortunately, we do not carry any AOC on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Okay, we'll giv'em a try. Thanks now. Bye!. Agent: Sound good! It was nice talking to you. Have a great day, goodbye! Hi Steve How can I help you today?. Customer: Hi Liz, I'm looking to purchase VROC key, P/N: AOC-VROCPREMOD I searched for this P/N, but it doesn't come up. Agent: I'm sorry, but unfortunately, we do not carry any AOC/VROC on our eStore. Please check with our resellers and

distributors for availability. <https://www.supermicro.com/en/wheretobuy> You also can contact our sale team to see if they can support Sales-USA@supermicro.com. Customer: That website was not helpful. Sales only accepts POs. I need to use a Credit Card. My sales manager told me to go to this website to purchase the key. . Agent: I see. I'm sorry for this inconvenience. Maybe you can try with our RMA team: RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3 Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Ngoc. Customer: hello, how i can looking for part AOC-QLE2672 on the Estore. Agent: Unfortunately we don't carry AOC on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: I want to know the product price and stock status. Agent: Sorry i can't give that information since we don't carry that item. . Customer: thanks, and I want to mount it with System SYS-220U-TNR is it compatible. Agent: Please give me a second to check. I can't find anything on my end showing that it's compatible with this system. Is there anything else I may help you with today?. Customer: Would you please give me a recommendation on which HBA FC 16Gb device is compatible with that system we are connect system that to SAN IBM 5015with HBA FC 16Gbps. Agent: Please give me second to check. . Customer: okies. Agent: Please bear with me for a few more minutes while I check for you. . Customer: okie. Agent: The only 16GBs that is compatible with this system is AOC-LPE31002-M6. Customer: where i can see info AOC-LPE31002-M6. Agent: On <https://www.supermicro.com/en/products/networking/adapters> and search for AOC-LPE31002-M6 on that page. . Customer: how much does it sale for?. Agent: Unfortunately i don't have that information since we don't carry AOC on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: at the address you sent I can't find the information I need Thankyou so much, Mark!. Agent: You're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: goodbye! hello Kyle. Agent: Hi James. Customer: I'm trying to place an order on your website and I get the following message We currently have "-3" of the "1TB M.2 XG6 NVMe Solid State Drive" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat". Agent: Oh I'm sorry about that. For which server/workstation are you seeing this message?. Customer: Supermicro Threadripper Performance SuperWorkstation Full Tower (AS -5014A-TT). Agent: Ok please give me a moment while I check on that for you. Customer: ok. Agent: How many were you trying to add?. Customer: 1. Agent: Ok thanks. Customer: yup. Agent: Please bear with me for a few more minutes while I check for you. . Customer: No problem. Agent: Thanks for waiting. Can you try adding the M.2 again? You may have to refresh the page. Customer: Yes, one moment The 1TB has now disappeared and has been replaced by a 960GB at a different price. Agent: Oh let me check again It disappeared for me too. I would try again in 15-20 minutes as stock had to be refreshed on the back end. Sorry about that. Customer: Ok, thanks. Agent: If you still don't see it by then, please let me know. Customer: I'll check again and let you know if I still have problems. Agent: Sure sounds good. Customer: Thanks. Agent: Can I help you with anything else? You're welcome. Customer: No, that will be all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You too'. Agent: Hi Reid. Customer: Hello, I am interested in 3x of SSG-520P-ACTR12L with CPU, RAM and NVME kit. Is this something available directly from you?. Agent: I'm sorry, but unfortunately, we do not carry SSG-520P-ACTR12L on our eStore. Are you interested looking in other SKUs?. Customer: I am looking for something with 12x 3.5" bays, single CPU socket and optional NVME. Either AMD 7003 or

Intel 3rd Gen processor is fine. Don't think I see anything through the e-store?. Agent: Please give me a moment while I check for you. . Customer: Thank you. Agent: and you want the X12 version motherboard also?. Customer: yes. Agent: I see. Unfortunately, we don't carry any similar server on our eStore at the moment. Please check with our resellers or distributors for availability. <https://www.supermicro.com/en/wheretobuy> I'm sorry for this inconvenience. Customer: No worries. thank you for checking. Agent: Hi Mike Hi Mike. Customer: Hi Liz I purchased a license for SSM server and I am trying to do the offline activation but I don't seem to have a product key. Agent: May I know which server you have?. Customer: XDR10 X10DRG. Agent: May I have your full part number or serial number of the motherboard? <https://www.supermicro.com/en/support/rma/sn>. Customer: according to the IPMI Serial # is 123456789 which sounds odd. Agent: Yeah. You can find the serial number of the motherboard by the link I share above. Customer: ok I am going to have to get back to this later then as I am not onsite where the server is to get the serial number at this time. Agent: I see. do you want me to wait on this chat?. Customer: no not at this time as it will be a while before I can get onsite. I will open another chat when I get that info. Agent: Sound good! It was nice talking to you. Have a great day, goodbye! Hi Winnie. Customer: please check if this cable is long enough ..in this server, thanks. Agent: For the cable CBL-SAST-0532?. Customer: correct. 35cm. Agent: This cable is 50cm <https://store.supermicro.com/supermicro-internal-minisas-hd-50cm-cable-cbl-sast-0532.html>. Customer: oh yes.. i mean 50cm. Agent: Please give me second to check 50cm should be okay for the miniSAS cable. . Customer: sounds good one more question in fact, do i need that cable ? the server seems comes with it i add lsi raid card 05-25420-17 MegaRAID SAS 9361-8i. Agent: I see on the part list for this system it comes with miniSAS to miniSASHD cables. The cable you ask is miniSAS cable. It comes with CBL-SAST-0508-01 <https://store.supermicro.com/supermicro-minisas-to-minisas-hd-50cm-cable-cbl-sast-0508-01.html> and CBL-SAST-0508-02 <https://store.supermicro.com/supermicro-minisas-to-minisas-hd-50cm-cable-cbl-sast-0508-02.html> I would have to check for the RAID card you are adding to see if you need the cable you asked for. Please give me a moment. . Customer: thanks. Agent: I googled the RAID card but i can't seem to see the type port it has. Can you let me know what type of port the RAID card has?. Customer: 9361-8i i think this model is too old . LSI is under Broadcom now let me check if i can find the weblink. Agent: Your RAID card is miniSAS HD and the backplane is miniSAS HD .let me find you that cable. so it would be the cable you asked about CBL-SAST-0532 <https://store.supermicro.com/supermicro-internal-minisas-hd-50cm-cable-cbl-sast-0532.html>. Customer: so i cannot use the cable (CBL-SAST-0508-01) that comes with the server , and still need to add 2 x cable CBL-SAST-0532. Agent: unfortunately you can use the ones that comes with server because they are MiniSAS to MiniSAS HD. You need miniSaS HD to miniSAS HD for the RAID card you want to add. You can't use you can use the ones that comes with server because they are MiniSAS to MiniSAS HD. *. Customer: okok will order for it then , thanks clarify. Agent: Can I help you with anything else?. Customer: good for now thanks again. Agent: You're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: Winnie left the following comment: fast response . helpful . thanks. Agent: Hi Tony How can I help you today?. Customer: Hi Liz. I'm interested in the Supermicro X13SAE-F servers... can you tell me the pricing and availability? Well, I suppose they're motherboards - not sure if you have server builds using them...?. Agent: I'm sorry, but unfortunately, we do not carry any X13 servers/motherboard on our eStore at the moment. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> You also can contact our Sale team for it Sales-USA@supermicro.com. Customer: Ok, thanks. . Agent: You're welcome. Is there anything else I may help you with today?. Customer: No - that's it, thanks. . Agent: It was nice talking to you. Have a

great day, goodbye! Hi Rene. Customer: Hi I am looking for a certified SFP Fiber 10 Gigabit Ethernet, 10G BASE-SR (850nm) that works with your system board mentioned above. Is it that all SFP+ models you sell work with the system board or do you go through the effort of certifying the SFP with the system board?. Agent: Please give me second to check for this. For the motherboard X11SDV-8C-TP8F these are all the validated AOC

<https://www.supermicro.com/en/support/resources/aoc/display?id=A65A3CB91220FA746932F14A2F23207A&Category=MB&prid=86376&function=networking>. Customer: OK I will choose from this list.

Wait. One sec. This claims that 100 Gb/s is compatible with this. However, I thought it was only capable of 10 Gb/s Oh these are cards. I have two on board SFP+ for the embedded NICs. . Agent: Do you need the transceiver or need AOC?. Customer: I would like to use compatible SFP+ transceiver. . Agent: I see, is possible to get the chassis serial number or the server. Customer: I provided the system board number I am not sure where to find the serial number. . Agent: you can use

<https://www.supermicro.com/en/support/rma/sn> to help find serial number. Customer: Pie ,p,emt This is custom built through your reseller network. the number I have here is PXLWCQQ00001 I will check the ledge. . Agent: Okay. I am going to check internally for this. Is it okay if i email you back at renecamp@gmail.com when i get an update for this?. Customer: C813MLK03P42595. Agent: Thank you.

I am going to check internally to get the right information for you and I'll email you at renecamp@gmail.com. . Customer: OK Yes, thanks. . Agent: Thank you for being patient! I'll email you as soon i get any information. Can I help you with anything else?. Customer: No thank you. Hi Kyle, I'm looking for the proper rail kit for this unit. . Agent: Hi Alex Let me check if there is a compatible one.

Customer: Thanks. Agent: MCP-290-00057-0N is the compatible rail kit for your server:

<https://store.supermicro.com/4u-5u-rail-kit-mcp-290-00057-0n.html>. Customer: THank you. It says compatible with Compatible with CSE-417, CSE-418, CSE-846, CSE-847, CSE-848, and CSE-842 Which of these is it?. Agent: It's actually not listed, but I was able to check internally for this storage system and its base chassis. Customer: Thank you. Agent: You're welcome! Can I help you with anything else?.

Customer: I'm good thank you. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: you too Alex Thiessen left the following comment: Kyle was great. . Agent: Hi Jeffery. Customer: I need a new motherboard for a server. X11SSL-F I found the product page on your site but cant find a price/buy feature. Agent: Unfortunately, we don't sell any motherboard on our eStore. . Customer: oh, so I cannot get a new one from you guys?. Agent: Please check with our resellers and distributors for availability.

<https://www.supermicro.com/en/wheretobuy>. Customer: thanks. Agent: You can try checking with our Sales team at Sales-USA@supermicro.com as well. Can I help you with anything else?. Customer: nope.

Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Where can I find the X13SAE motherboard? I can't find them in the SM store. I can't find them with any dealers either. . Agent: Hi Jerry We don't carry any motherboards on the eStore in general so you may want to try with our Sales team at Sales-USA@supermicro.com It's a really new motherboard but they should have some insight.

Customer: OK. Thanks. That is all I needed. . Agent: Hi Firas. Customer: above is a UP configuration do we have this in e-store. Agent: Please give me a moment to check. . Customer: thanx. Agent: We have the system available but we don't have some of the part you mentioned available on our eStore. We would have to do a pre-configuration for this. This is the link to the system

https://store.supermicro.com/sys-510p-wtr.html?queryID=96bbe900979a50705274119a4bbaa472&objectID=3046&indexName=supermicro_default_products Can I help you with anything else? Hi Justin How can I help you today?. Customer: Hi Liz, I have a rack that is 23" deep and I'm using the folloiwng chassis with this rack: 825MBTQC-R802WB This

is also being used with the following rails: MCP-290-00053-0N Will this fit properly?. Agent: Please give me a moment while I check for you. This rail is use for 27" display chassis. The outer Rail Extendable Length is 26.5" to 36.4". Let me find the rail length fit to your rack You can use this rail Supermicro 2U-5U Rail Kit (MCP-290-00058-0N). Its outer Rail Extendable Length is 19.6" to 27"

<https://store.supermicro.com/2u-5u-rail-kit-mcp-290-00058-0n.html>. Customer: This is perfect, thank you for the help. Agent: You're welcome. Can I help you with anything else?. Customer: No thats it for now, thanks again. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!.

Customer: Justin left the following comment: She was great. . Agent: Hi Ken. Customer: i'm looking for an out of band management option for a supermicro model # we have, SYS-6028R-WTR is that available?. Agent: Please give me a moment while I check for you. Yes, it is available. You only need to choose your motherboard at the select your motherboard/system model area. Your motherboard is X10DRW-i. Customer: ok thank you!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: no thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!.

Customer: Hi Liz. Agent: Hi Thierry How can I help you?. Customer: I am looking for ARm cable for AS-2124GQ-NART Sorry Cable management arm. Agent: No worries. Please give me a moment while I check for you. . Customer: I see (MCP-290-00073-0N). Agent: Please bear with me for a few more minutes while I check for you. Yes, the cable arm MCP-290-00073-0N is used for 2U chassis and above. . Customer: ok-thanks LIZ. Agent: You're welcome. . Customer: Thierry Bucher left the following comment: great job !. Agent: Can I help you with anything else?. Customer: no-Thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Tom. Customer: Hi, could you please provide a data sheet for the heatsink?. Agent: Please give me a moment to check. . Customer: Thanks, the detailed specification on the website doesn't have size etc. Agent: Let me see if i can find the size. Customer: I found that on another website eventually but still need a full data sheeet if okay? *sheet. Agent: Sorry we don't provide the data sheet on our eStore. Please contact our Sales team at Sales-USA@supermicro.com as well. Tel: +1 408-503-8000 Can I help you with anything else?. Customer: No thanks. Agent: It was nice talking to you. Have a great day, goodbye! Hi Emanuele. Customer: Hi Liz could you send me a datasheet on this: PWS-521-1H and I would like to know what is the availability of the item (i.e. quantity available). Agent: I'm sorry, but unfortunately, we do not have the datasheet of this power supply on our eStore. Please check with our Sales at Sales-USA@supermicro.com or Tel: +1 408-503-8000. We also have PWS-521-1H available on eStore. How many do you want?. Customer: 20 to 50. Agent: Unfortunately, we currently only can support up to 17. Is there anything else I may help you with today?. Customer: no this would be it for now Thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!.

Customer: emanuele zarouri left the following comment: ok. Agent: Hello Mauro, how can I help you?. Customer: SERVIDOR SUPER MICRO 2V 6029P-WTR 2 cpu, 16 gb , 6 disk. Agent: Ok, we do have it in stock: <https://store.supermicro.com/wio-server-sys-6029p-wtr.html> May I ask where you are shipping this to?. Customer: price. Agent: Starting base is \$3660 and goes higher from there Where are you located and where do you plan to ship these servers? Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Carl. Customer: Hi Mark! I'm looking for 3.5" drive trays that are compatible with the SC743 Chassis. Can you recommend anything for me?. Agent: Please give me moment to find you one. . Customer: Sure!. Agent: is possible to get the full chassis part number?. Customer: Can I find that without opening up the case? 743TQ-1200B-SQ maybe?. Agent: You can get by

serial number. Use this guide <https://www.supermicro.com/en/support/rma/sn>. Customer: SM111660 is the serial. Agent: I searched the serial number i can't find anything. let me check for 743TQ-1200B-SQ. Customer: It currently has MCP220-00080-0B 2.5" to 3.5" drive trays in it, if that helps. Agent: i see. we have MCP220-00080-0B <https://store.supermicro.com/mcp-220-00080-0b.html> on our eStore. The one you are looking for is MCP-220-00193-0N which is hybrid that fit 3.5" or 2.5". Unfortunately we don't carry it on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Ok cool, thanks for your help!. Agent: You're welcome! Can I help you with anything else?. Customer: Nope! That's it. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hello. How may I help you?. Agent: Hi Nick. Customer: Hi. The SYS-620C-TN12R, I do not see any options for SAS drives on the Configuration? Also do you know if this model since it is a Complete System Only can be purchased from a Tech Date or Ingram Mirco?. Agent: Do you want to purchase the complete system? Our eStore sells complete system and it will be built and shipped within 3-5 business days. . Customer: Ah ok. Does that model offer SAS drives and a SAS RAID Controller?. Agent: Yes, this system offers them. I can help you configure it on my end. May I know your full requirement configuration?. Customer: One more question, is this server an option as I do not see it on the estore? A+ Server 2014S-TR. Agent: Yes, we currently don't carry any rackmount AMD server on our eStore, unfortunately. For the SYS-620C-TN12R, we have this system in stock and ready to ship. We've been hearing from other customers that our reseller/distributors have really long lead time so please keep that in mind. Customer: That is one of the reasons I am talking to you. :). Agent: I see 😊. I can help you for choose the SAS drive and SAS controller for SYS-620C-TN12R. Customer: Looking for lower end Intel 8Core procs, 128GB memory, 2x 480GB SSD boot drives, 5x 4TB SAS drives, RAID Controller with 2gb or 4gb cache, 2 port RJ45, 2 port 10gb SFP+,.. Agent: Which RAID setup do you want, please?. Customer: RAID1 for OS Boot & RAID5 for 4TB drives. Agent: Got it. I will work on my end and can I email you back via nick.lynn@neweratech.com for the configuration and price?. Customer: sounds good! thank you. Agent: You're welcome. I will email you as soon as I can. Is there anything else I may help you with today?. Customer: No. . Agent: I can give you a scheme with the spec option. Can you look into it first and let me know if you want to change anything. Customer: That works. . Agent: The price is around \$6850 before tax and shipping. . Customer: That includes 2 RJ45 & 2 10GB SFP+ ports?. Agent: Oh sorry for my mistake. Please give me one moment to add it to this configuration. The price is around \$7200 before tax and shipping. Customer: Ok, can you email me that so I can run it by my manager?. Agent: Sure. I will finalize everything and send you an email with it. Is there anything else I may help you with today?. Customer: No all set. Thank you. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Greg. Customer: Hi Mark I actually have two questions 1. AOC-S3616L-L16iT - can that AOC support a RAID 1 configuration on it? I don't think it can based on specs but would like to double check. . Agent: Please give me second to check for this. AOC-S3616L-L16iT can not support RAID 1. . Customer: Thanks. Agent: Can I help you with anything else?. Customer: Yes. One moment, please. I need to get the part number. Agent: Of course. Take your time. . Customer: Long winded question. <https://www.supermicro.com/en/Aplus/system/1U/1114/AS-1114CS-TNR.cfm> Optional parts list Storage Control Card and Cable(s) There are two options withthe AOC-S3616L-L16iT on it. Do you see them? One shows MiniSAS HD x8 to 2x Slimline x4.... The other shows Slimline x8 to 2x slimline x4 and a 1x slimline x4 option Where are there x8 ends connecting?. Agent: Yes i see. Please give me moment to check. . Customer: I think the mini-SAS x8 connects into one of the 4 interfaces on the AOC card But I'm confused by the one option showing "MiniSAS HD x8" and the other option showing "Slimline x8" are those connector types synonymous?. Agent: Let me

check internally for this. please bear with me for few minutes. . Customer: 👍 thanks. Agent: Is it okay if i can email you back at gkoprowski@acecomputers.com? i want check internally to get you the correct information. . Customer: please do!. Agent: Thank you. Ill email you as soon i get any information about this. Can I help you with anything else?. Customer: I think that is all. Thanks! Greg left the following comment: Very helpful. Agent: Hi Susumu!. Customer: I want to get a quote of AS-5014A-TT computer with desired configuration. I was able to configure one month ago. Now, I cannot configure it anymore. . Agent: Looks like there's an issue on our end we should have the inventory available so therefore you should be able to configure I'm looking into this right now. Customer: Now, I can configure, but it looks like out of stock. Is it correct?. Agent: The system is in stock you can ignore the out of stock <https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html?p=5> or you can try this URL to see if you are still getting out of stock. Customer: Okay, it works now. I have one question about dual CPU configuration for Xeon processor. I work in Columbia University for basic biology division. We are trying t buy a computer for 3D image analysis software, Imaris software. The system recomendation for high end is <https://imaris.oxinst.com/support/system-requirements>. Agent: This system can definitely handle these requirements. Customer: The question is that they suggest CPU speed over 3.7 GHz. In the case of dual CPU, the each CPU speed x 2 is equal to the real speed? So 1.9 GHz dual Xeon processor is equal to 3.8 GHz?. Agent: From my understanding, it does not work like that. so you would have to go off of the CPU speed of the CPU and not x2 Were you planning to buy the 5014A-TT or a dual core xeon processor system?. Customer: Planning to buy something which go over 3.7 GHz with more than or equal to 8 core. And which can come with NVIDIA RTX A4000 16 GB. This is why I am selecting the AMD workstation. However, it does not need to be server CPU. I rather not because it is slow. If you have a computer with that CPU and can be configured with the nVidia graphic card, it would be good to see. . Agent: 5014A-TT would fit the bill. If you want alternates, we do have 5039C-T for you which i believe is validated with A4000 (but for some reason it's not on our site) <https://store.supermicro.com/sys-5039c-t.html> we have this system in a 8-core 3.7GHz. Customer: I see. With this, it can go with intel. So I can decide AMD or Intel. . Agent: yeah this goes with Intel. The CPU i'm referring to is E-2288G which is 8-Core 3.7GHz. Customer: But this is only up to 6 core. . Agent: i'll work with you on a special configuration 😊 if you're interested in purchasing, I can get this special CPU for you oh no it looks like this system is only validated with RTX4000 but let me check internally to see if we're working on RTXA4000. Customer: Okay. Can you actually send me a quote of the configuration? I will send the configuration which I chose for AMD, so can you build the simililar configuration with Xeon one?. Agent: yeah i can you don't need a quote for AMD right? just the Intel one? Also, is there a timetable on when you would purchase just so i understand if i need to request the Intel CPU internally. Customer: Can you actually the send a quote for both Intel and AMD with separate quote?. Agent: i sure can!. Customer: As soon as possible, so we can submit to our IT department for processing the order. . Agent: ok got it i'll send the two quotes over to you as soon as possible. Customer: So I will just wait for your email, right?. Agent: Yes is sa2939@cumc.columbia.edu the best email?. Customer: Yes. Thank you so much. . Agent: no problem. is there anything else I can help you with today?. Customer: I think that's all. Thank you. Have a good day!!!. Agent: It was nice talking to you. Have a great day, goodbye! Hi Mary. Customer: Hi Liz!. Agent: How can I help you today?. Customer: I was wondering about the stock status of FAN-0101L4. . Agent: How many of FAN-0101L4 do you want?. Customer: The eStore currently says you have 0 in stock 5 (I would like to purchase 5). Agent: I will need to transfer inventory to fulfill your request. Can I email you back via mary_jo@mit.edu?. Customer: Yes! That would be good. . Agent: This process will take some hours to complete. . Customer: That's OK. I just need to know where things are

now; we need them soon-ish, but not super-urgently. So I want to make sure I get them as soon as they are available. And I know there are supply chain issues right now. . Agent: Sound good. I will email you back as soon as it back to stock. Customer: Thanks, Liz!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: No, that's it! Thanks again... . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: bye. Agent: Hi Jorge. Customer: hi Mark I need to know the model of my plate S/N: ZM1495019853. Agent: please give me second to check I can find anything with this S/N. Please use are guide here to find the S/N <https://www.supermicro.com/en/support/rma/sn>. Customer: thanks, also if that motherboard is compatible with the PWS-665-PQ power supply. Agent: I would have know the S/N or your system. Customer: it is a very old server AMI Aptio LBS-DP V1 16875. Agent: is the s/n you provided the s/n of the chassis?. Customer: The S/N is: ZM1495019853 chasis is CSE-732 C732OLD26M80366. Agent: Please give me second to check. I checked for ZM1495019853 and C732OLD26M80366 nothing shows up on our end. Customer: is a server about 2013 very old but use a Supply (PWS-502-PQ). Agent: If this is supermicro server you can find the s/n supermicro chassis *. Customer: but I would like to know if it is compatible. Agent: Please give me a moment. Customer: mor pictures. Agent: Are you trying to replace PWS-502-PQ? I can't find any on the pictures you provided. . Customer: yes i want the power source, and i have a PWS-665-PQ they are compatible???. Agent: in your current chassis you have PWS-665-PQ or PWS-502-PQ?. Customer: have a PWS-502-PQ, but need to replace it. Agent: we can't guaranty these to would be compatible but PWS-502-PQ does have replacement PWS-668-PQ <https://store.supermicro.com/668w-atx-pws-668-pq.html>. Customer: that's why I needed to know the motherboard. Agent: unfortunately we can't find any information on our end with the pictures you provided. I am sorry. Customer: that's why I needed to know the motherboard and the source I have is a PWS-665-PQ, for which I could replace it, but I don't know if they are compatible... with the motherboard. Agent: The power supply only goes with the chassis, it should not affect the motherboard. . Customer: perfect!!... thanks!. Agent: Can I help you with anything else?. Customer: No thanks, I made everything clear, thank you very much!!!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: goobye! Jorge Soto Delgado left the following comment: Thank!! Agent: Hi Pedro. Customer: hello i need your help i have an AS-2022TG-HTRF server with 3.5 hdd and i want to replace the 3.5 hdd with 2.5 ssd but i need an adaptor. Agent: MCP-220-00043-0N is drive tray adapter <https://store.supermicro.com/mcp-220-00043-0n-1482.html>. Customer: but i dont know the correct model for this server its compatible with my server ?. Agent: yes is there anything else I can help you with today?. Customer: no, thanks for your help. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: bye. Agent: Hi Kurt!. Customer: Hi Tim, Checking on the SYS-531A-IL superworkstation price and availability. Been reselling supermicro products since the early 2000s and typically buy through distribution. Tech-. Agent: We are actually working on getting SYS-531A-IL up on the site but it may take a few weeks or so. we do have other workstation servers that we have available (ready to ship) on our site <https://store.supermicro.com/systems/superworkstation.html> do you have an account with us?. Customer: Yes, the username is the same as my email address. . Agent: ok got it i have just enabled your account to see our servers. Customer: How about the SYS-530A-IL, that model would work as well. Agent: Please log into your account to see if you can see the link below: <https://store.supermicro.com/systems/superworkstation.html> we actually are working on that one as well we currently have 530AD-I, 5039C-T, AS -5014A-TT (popular one) we do have 5014A-TT in stock (currently working on ironing out the issue) but if you are interested, please let me know so i can create a pre-configuration for you as a workaround. Customer: Correct me if I am wrong, but those are a X11

revision or older. My client wants at least X12 or X13. I sold a lot of the 5039A-IL workstations. Would like to stay with something close to that. . Agent: For X12, we do have a workstation but it's dual processor: <https://store.supermicro.com/sys-740a-t.html> Also, we have this really popular WorkStation system which we've been selling a lot of as of late: <https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html> up to 64 core in 1 CPU (really high performance) for some reason, our configurable system is just not working right now so if you're interested, please let me know and i would be more than happy to walk y ou through the specs, price, availability. Customer: The last link is for an AMD processor. Which I only use Intel. . Agent: ok understood. . Customer: are the 5039a-il still available?. Agent: let me check hmm...it looks like we do have this system available I'll have to check internally to see if these are reserved/taken Do you have specs in mind for this particular system?. Customer: I just need the barebones system. Chassis and motherboard. . Agent: unfortunately, Our eStore doesn't sell barebone system we only sell complete system. Customer: Ok, I have been buying processor and ram seperately and building them myself. . Agent: Understood. Customer: Thanks for your help. Agent: no problem is there anything else I can help you with today?. Customer: That is all. Agent: It was nice talking to you. Have a great day, goodbye! Hi Andrew How can I help you today?. Customer: Hello - I'm interested in getting a quote for a specific configuration of the "AS -5014A-TT". However, it looks like online it says that "configuration information is not currently available". Agent: I'm sorry, there is something wrong with our configuration. But I can help you on my end for the quote. Can I know your full configuration for this server? Hi again Andrew. Customer: Hello - my bad. Agent: no problem. May I know your full spec for the AS -5014A-TT? <https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html> the configurator is up. Can you please refresh the page. Customer: Hey - you're right it is up now. cool. Agent: It is on and off during today since there is some problem with it. Do you still want me to help you for the quote?. Customer: No I think I'm okay. I will try to configure online and come back if I have issues. thanks. Agent: no problem. Please let me know if you need help. Is there anything else I may help you with today? Just let you know that: • All of our configurations has been fully validated by our Supermicro system lab. • We offer free shipping for all server orders. (limited time only) • We offer blazing fast turnaround time 2-3 business days if you purchase something via our eStore configurator. • Warranty is 3 years for server, 3 years for parts, and 1 year of cross—shipping. (limited time only) • We may have more storage capacity on our eStore. (Please contact me if you don't see any capacity available) Hi Trae! How can I help you today?. Customer: Hello, I don't seem to see "2014S-TR" in the e store looking for your AMD Epyc servers and the 2014S-TR seems to be a good fit, just can't find it on the e Store here it is on your regular site:. Agent: I'm sorry, but unfortunately, we do not carry any rackmount AMD server on our eStore. Are you interested in Intel rackmount server?. Customer: do you have a list of resellers that do? I want to make sure if I purchase it through a 3rd party vendor. Agent: You can check with our resellers at this link <https://www.supermicro.com/en/wheretobuy>. Customer: TY. Agent: I cannot check for their availability for this server. You have to check with them. Customer: will do. Agent: I'm sorry for this inconvenience. Is there anything else I may help you with today?. Customer: you're fine, nope that's it; ty again. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: like wise! Also! Look up XRP :). Agent: thank you 😊. Customer: :) Trae left the following comment: Helpful and fast. Agent: Hi Nathan I'm checking on your issue according to your information that you provide through email. . Customer: I also contacted you yesterday and sent a screen shot. . Agent: Yes, I tried to duplicate your issue to see if it happen to me. Customer: ok. Agent: Do you see the verification alert as same as the picture?. Customer: verification alert no. . Agent: Do you

happen to know your 9 digit zip code?. Customer: Will check. One moment. . Agent: Sure! Please take your time. . Customer: 13903-2214. Agent: Can you please edit your address to see if it show the shipping method option? It should show similar like this. Customer: ok, just a moment. Ok, it validated the address. Agent: Sound good. Can you try to continue the process? Please let me know if you get any issue. Customer: trying now its slow. Agent: no worry. I will waiting here to help you. Customer: ok. will thw windows software be installed or do I do it? All I see is wheel on the screen. Going to refresh page. . Agent: I'm sorry, can you please try to do on different device if possible. Customer: ok, its working. But, shipping seems expensive. Agent: May I know which product do you plan to purchase? also the quantity? I can check on my end. Customer: 1 SYS-740A-T | 4U Tower price 7082.53. Agent: Please give me a moment while I check for you. . Customer: ok. Agent: Do you plan to use the ground shipping? We can give you the free ground shipping. Customer: Yes, I guess. I was doing y the site. It said: Free Shipping to the Continental US Over \$200 (Excluding rail kits and systems). Agent: Do you create an account under chukueke@gmail.com?. Customer: yes, but I con use a business email, too. . Agent: I mean for this purchase. Customer: Yes, I used chukueke@gmail.com. Agent: Please give me a moment while I check for you. . Customer: Its a house that is a 2nd home and not profit business. . Agent: Yes, I try to enable the chukueke@gmail.com email for you to get the free ground shipping. Please bear with me for a few more minutes while I check for you. . Customer: ok, thanks. Agent: I'm sorry for long waiting. You should see the ground shipping is free now. Customer: ok, it changed. When would it ship?. Agent: It would take 3-5 business days to build and ship out. Customer: Do ou think I would get it by March 31?. Agent: It should be if you place the order today and with credit card oh wait. let me double check. Customer: Yes, that is what I would do. thanks What about the OS, is it installed or download or CD. . Agent: I'm checking internally again for the shipping since you do the ground shipping. It will depend on shipping carrier also to you to get the server by March 31 For the OS, it will be installed in the system. Customer: o, I order a single NVM 1.9 tb Thanks I will order now. . Agent: For the shipping, It will depend on the FedEx if there's delay on their end to deliver to your place, so I cannot guarantee you can get it by March 31. Customer: If I wait a two of weeks will the price change? I am supposed to travel. But I could postpone. . Agent: I cannot tell if the price will change. But we had two times price increase since beginning of the year. . Customer: Yes, I noticed. Ok, I will order today and postpone trip if needed. thanks for your help. . Agent: You're welcome and I'm sorry if you have to postpone your trip. One question I need to confirm. Customer: ok. Agent: Do you want to install the OS to any special drive selection in your configuration? I just need to make sure it work as your expect. Customer: Well I order only one drive, But I am thinking Maybe I should have gotten a smaller NVMe for the OS. Is it too late to do that?. Agent: Oh, that's ok. You can do the configuration again with your requirement option. . Customer: I can say which drive to put the OS?. Agent: You can let me know, as soon as your order processes, I will let our assemble team know that. . Customer: Ok, so you will be hear in 15 minutes?. Agent: Yeah, I can wait here or you can open a live chat again. . Customer: OK, back in a bit of time. thanks. Agent: You're welcome. Can I also has your full configuration if possible?. Customer: looks like you ran out of NVMEs. Can the OS go on a M.2. Agent: Which NVME are you looking for? I can check the inventory for you Yes, OS can go to M.2. Customer: for OS and some primary apps 960GB 2.5" PM9A3 NVMe PCIe 4.0 Solid State Drive (1 x DWPD). Agent: Please give me a moment while I check for you. We do have that NVMe in stock. Customer: ok site will not let pick one. . Agent: I also got the same issue. Please give me a moment while I check for you. . Customer: I think maybe I should just pick the first .configuration from before. Agent: I think I will need to do pre-config for you if you want to add NVMe Is it still in your cart?. Customer: yes. Agent: I see. It's up to you. Customer: Just a monent. Agent:

If you want to change the configuration with option you cannot select, I can help you on my end with the unique link. Or you can wait about 5 min for our web development checking on this issue?.

Customer: Yes, I will just keep the present configuration. Just put the OS on the 1 x 1.9TB 2.5" PM9A3

NVMe PCIe 4.0 Solid State Drive (1 x DWPD). Agent: ok. Sound good!.

Customer: going to try and order now please wait and see if it works please. . Agent: Sure. I will be here Please let me know if you get any

issue. Customer: 566 tax. Look at tax exemption. . Agent: We do accept tax-exempt, but it would be

applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along

with your order number. Your tax-exempt request will be processed after we have verified that the

certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your

original form of payment. Before submitting a request, please review the tax exempt guide carefully.

Incomplete or incorrect submissions will be rejected. [https://store.supermicro.com/tax-exemption-](https://store.supermicro.com/tax-exemption-guide)

guide Before place the order, please make sure your Billing Information (Sold-to-company name) must

match with the name on the certificate. . Customer: Sounds complex. . Agent: I'm sorry for this

inconvenience. We are working on automation tax-exempt now, but I'm not sure when it launches.

Customer: Ok, 599 is a lot of tax. I will finish later today. Got to get the 599 approved. thanks again. .

Agent: You're welcome. Please let us know if you need any assistance. . Customer: Any discount codes?.

Agent: Unfortunately, we currently don't have any discount beside the free ground shipping. Customer:

The shipping is great thanks. take care, Liz. . Agent: Thank you! Same to you. It was nice talking to you.

Have a great day, goodbye! Hi Susumu. Customer: Hi, I talked to Tim a couple hours ago. He was going

to send me a quote for some computer. However, I have not received the quote yet. Can you please

rush it? I need the quote quickly so I can place an order. . Agent: Please give me second to check Looks

like still checking for A4000 if its validated 5039C-T would you be interested in doing RTX4000 which is

the previous generation of RTXA4000?. Customer: I would like to get RTXA4000 How long will it take to

check the compatibility and provide me a quote? I am in Columbia University in NYC. It is almost 5 pm,

so I may end up processing the order next day. It is better today. . Agent: If you would like RTXA4000

you would have to do AS- 5014A-TT I can make quote for the system AS- 5014-TT with RTXA4000, is that

something you would like?. Customer: So the issues is we cannot configure a system with RTXA4000

with single Intel chip with 8 core. It is not the option which your website is giving, so Tim had to

configure the quote on his side. We want both Intel and AMD quotes. . Agent: I see. Please give me

moment to check. . Customer: Thank you. Agent: We checked internally and RTXA4000 it's only

validated with AMD systems. That's why we there no option for Intel on AS- 5014A-TT I can provide you

with the quote for AMD Can I help you with anything else? We haven't heard from you in awhile so this

chat will be closed in approximately two minutes. We want to make sure we get your questions taken

care of so if you need any further assistance, you can reach us here again or email [estore-](mailto:estore-support@supermicro.com)

[support@supermicro.com](mailto:estore-support@supermicro.com) Hi Philip. Customer: Hi. Agent: How may I help you today?.

Customer: I'm looking to order 40 of MCP-220-00155-0B. Agent: I can request more inventory for MCP-220-00155-0B.

Can I email you back via email philip@gerteam.com when it's available?.

Customer: Yes, that would be great. Is there another tool-less caddy for 2.5" drives?.

Agent: May I know which chassis part number do you plan to use with?.

Customer: CSE-216 24 bay. Agent: Do you happen to know the full part number?.

Customer: I don't know where to find that. . Agent: You can follow this link to check for the part

number/ serial number of your chassis <https://www.supermicro.com/en/support/rma/sn>. Customer: It

must be a custom build because the serial number on the back relates to the motherboard.

XMS03A0000567 for example. Agent: hmm. Please give me a moment while I check for you. . Customer:

I did order 8 of the MCP-220-00155-0B and they fit perfectly. . Agent: As I check on my end, your chassis part number is CSE-216BA-R920LPB
<https://www.supermicro.com/en/products/chassis/2U/216/SC216BA-R920LPB> MCP-220-00047-0B is also work for this chassis <https://store.supermicro.com/mcp-220-00047-0b.html>. Customer: I'm looking for a tool-less caddy. . Agent: Please give me a moment while I check for you. Unfortunately, I cannot find any other drives that tool-less. . Customer: Okay, please let me know when you can get stock on this item. I would like to order them as soon as possible. . Agent: I will email you as soon as it is available. Is there anything else I may help you with today?. Customer: No that is it. Thank you!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Susumu. Customer: Oh, hi again. Tim told me that he cannot configure Xeon, so I am sticking with AMD I have a question of your configuration menu for hard drive section. . Agent: of course what's the question. Customer: What do you mean by 4 bays for main and 2 bays for internal. Main takes OS drive, right?. Agent: Please give me a moment to see. Any of the 6 drives can take the OS it really depends on preference I know you wanted A4000 but it's not in stock. We only have A5000. Customer: I am guessing that when I purchase the computer, you would install OS. How do you know that which drives I want you to install OS?. Agent: You would let us know which drives you want it install. Customer: I see. . Agent: what we've seen customer doing is to install OS in the front (internal) bays and the 4 for storage/expansion. Customer: Yes, that sounds like it. Oh, noooo. Now, I cannot get A4000???? It is really out?. Agent: it's not in stock. Please let me check the ETA for A4000. Customer: Thank you. At meantime, we can place the order?. Agent: You can place the order but won't be able choose A4000. I am checking internally on the ETA for A4000. Please give me a moment. . Customer: Thank you. . Agent: There is no ETA for A4000. Best to go with A5000 GPU or purchase the server without GPU, if you want to buy now. . Customer: Thank you. Agent: we also check internally on when A4500 validated with 5014A-TT if you are interest in that. Are you interest in A4500? It is validated with 5014A-TT and its stocked. We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Nathan Welcome back. Customer: Hello its Nathan Chukueke youe\r app will not let me have a billing and shipping address difference. Agent: At the payment page did you uncheck the billing and shipping is the same?. Customer: Yes, I think but in account settings it keeps making them the same. Agent: I see. Let me walk you through in case you missed anything. Can you go to your account -> edit your default billing address? Can you also provide your billing address with 9 digit zip code please? I will try on my end also. Customer: ok, but did that. . Agent: I see. Can you provide your billing address?. Customer: 54 BOERUM ST BROOKLYN, New York, 11206-2418 United States T: 347 423 8023. Agent: I might need to whitelist your billing address since the 9 digit zip code did not match. Customer: ??? I can check the 4 digit part apartment 11N. Agent: I'm sorry. Does your address has apartment 11N in that? Can you double check your correct billing address please?. Customer: one moment please. Agent: It will need to be same as your bank billing information, or it won't let you make the purchase, unfortunately. Customer: you want my state ID. Agent: No, I just make sure your billing address is match with your bank billing information. Can you please check if this billing address is correct? 54 BOERUM ST APT 11N BROOKLYN NY 11206-2418. Customer: yes, that's it you want apt of a check. Agent: Can you please try to type as same as the picture in the default billing address ?. Customer: ok. Agent: When you click save, please make sure "Your entered:" show valid address as same as picture If it does not, please click on we recommend and click at you entered again. It should be show as the picture above Please make sure you

got the company info match with your tax-exempt certificate 😊 . Customer: did it. Now shipping?. Agent: yes. Customer: now trying shipping again. Agent: shipping address if it is correct, you should leave as it. You can continue the purchase process. Customer: the billing was the same as shipping I want item to go to my house not apartment. It did it again changed both. Agent: Oh, I see Please hold on. Our development team checking on this issue. Customer: ok. Back in a moment. Agent: Is this your shipping address? Nathan Chukueke MIRI 45 TOMPKINS ST BINGHAMTON, New York, 13903-2214 United States T: 3474238036. Customer: yes. Agent: Can you please double check again? Our web development already set up the address You can try refresh the address book to see if the billing and shipping are different yet Please let me know if they are still the same. Customer: it works now. Agent: Great!. Customer: going to try checkout please wait, thanks. Agent: In order to validate the tax exempt for your order Please make sure your billing information match with the tax exempt certificate. Customer: Thats ok. It will not, its linked to the apartment. But thanks your site is so slow. . Agent: Note: The address is fine, but Sold to company name should be match 😊 I'm sorry for the slow website. Our page got issue since afternoon. Customer: The company are the same. Agent: It's great for you to go. Please let me know if any issue. Customer: almost at payment page it keeps checking My billing and shipping address are the same. Agent: Can you uncheck it? and select an address. Customer: I did a few times. This time I will use Valid Address We Recommend: not this one. Agent: You can select an address and select the 54 BOERUM ST one You don't need to type it again. Customer: I need it to go to 45 TOMPKINS ST. Agent: This is for billing address though It doesn't have the option to 54 Boerum?. Customer: which one pick needs to go to 45 tompkins but if I update if clicks My billing and shipping address are the same. Agent: You already choose the shipping address for 45 tompkins correct?. Customer: bank will not accept 45 Tompkins as billing address. . Agent: at the payment page you should select the billing address which is 54 Boerum for your credit card. Customer: ok, but please do not ship there. . Agent: at the shipping page, did you see the address is 45 Tompkins?. Customer: yes. Agent: If it is already 45 Tompkins at shipping page, we should ship it to this address At the payment, we ask for the billing address, so you should choose the 54 Boerum to match with your bank billing information. Customer: trying now it seems to have changed. Agent: yes, that's correct I see your order going through. Customer: ok, done. thanks. I really hope thing works. That was hard. . Agent: Confirmed that it will be ship to shipping address is 45 tompkin st I'm sorry for confusing you. Customer: Maybe you can get it so the site works with Google chrome better. thanks although. . Agent: You are welcome. I will check with our development team for that. Thank you! Is there anything else I may help you with today?. Customer: No that , OK. I think that good for today. Can Fedex please leave package on the porch not the stairs of the house?. Agent: You can leave the note for FedEx when you have the tracking number on this order. Customer: ok, great. . Agent: You also can choose pick up or vacation option at the FedEx page As soon as you have the tracking link you can select the option how FedEx delivery to your house. . Customer: ok, sounds great, thanks again. Good day. . Agent: You're welcome. Thank you. It was nice talking to you. Have a great day, goodbye! Hi Paul. Customer: hello I'm having a tough time getting a part number to appear on the list so that I can add it to cart. Agent: are you trying to purchase a server?. Customer: No... A RAID card for a server we recently purchased This card, to be specific: AOC-S3008L-L8i When I search for it here, says no results found. Agent: Unfortunately we don't sell RAID cards. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Ahhhh That would explain a lot lol ok. thanks. Agent: Is there anything else I may help you with today?. Customer: Oh boy... That part number still doesn't return any results on the "where to buy" page. Agent: You can contact our Sale team at Sales-

USA@supermicro.com to see if they can help Tel: +1 408-503-8000. Customer: ok I'll try that. Thanks.

Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!.

Customer: Thanks, you too.

Agent: Hello. How may I help you?.

Customer: Supermicro (Aquantia) 10G SFP+ to RJ45 10GBASE-T Optical Transceivers (AOM-AQS-107-B0C2-CX) we recently purchase a supermicro server.

Agent: Hi Varma Ok how can I help you with this?.

Customer: server purchased with all SFP ports to convert those ports into RJ 45 Supermicro (Aquantia) 10G SFP+ to RJ45 10GBASE-T Optical Transceivers (AOM-AQS-107-B0C2-CX)\ is this compatible for intel(R) Ethernet Controller X710 10GbE SFP.

Agent: For which motherboard or server?.

Customer: how can check that msinfo 32 will give that info' sys-620u-tnr model number.

Agent: Ok thanks.

Customer: just 10 days back we purchased this.

Agent: Give me a moment while I check.

Customer: ok.

Agent: If this option is available, 2x 10GbE BaseT and 2x 10GbE SFP+ with Intel® X710-TM4, then it should be able to use the 10GbE SFP+ port.

Customer: where i need to check this.

Agent: Do you see any 10GbE SFP+ ports physically?.

Customer: the server shipped with 6 SFP ports i can't use SFP ports i need normal NIC ports for that Monday we ordered "Supermicro (Aquantia) 10G SFP+ to RJ45 10GBASE-T Optical Transceivers (AOM-AQS-107-B0C2-CX)" and inserted on our SFP ports.

Agent: That is correct then. You have the transceivers with you already?.

Customer: yes now question is it is not detecting installed Windows server 2019 OS on my server all NIC card shows RED X mark installed the latest INTEL drivers also but no luck on the event viewer i can see the error message "Rx/Tx is disabled on this device because an unsupported SFP + module type was detected".

Agent: Hmm, yeah there's no official list of compatible transceivers for this, but physically it should work. I would recommend checking with our technical support team for further assistance on this issue then. You can contact them by emailing support@supermicro.com or calling (408) 503-8000. Hi Susumu.

Customer: Hi.

Agent: How can I help you today?.

Customer: I consulted Mark and Tim yesterday about AS -5014A-TT. I have more questions today. One is NVMe and the other one is option of graphic card which is not listed in the choice. .

Agent: Please give me a moment while I check for you. .

Customer: No. No worry. It is new questions. About NVMe drive, it is connected through PCIe 4.0 rather than SATA, right? I just want to make sure about it. About the graphic card, can you mount something else which is not listed in the choice during configuration?.

Agent: For the NVMe, yes, it shouldn't be connect to the SATA. For the graphic card, can you explain for mounting something else? What do you want to mount for?.

Customer: Other graphic card which is not listed in the option. .

Agent: Yes, but it would need to be validated with the system. .

Customer: Yes, so can you validate it? I am hoping to choose a graphic card from what you have in stock. The best choice was NVIDIA RTX A4000 16 GB, but Mark told me that you no longer have it in the stock. <https://imaris.oxinst.com/support/system-requirements>.

Agent: I saw yesterday, he told give you the A4500 is work with this system It's validated by our lab.

Customer: My concern is that the graphic card is not listed in the system recommendation. I am guessing that only old ones are validated from the company. .

Agent: Yesterday, we checked internally and our lab just validated. The list might not update yet, unfortunately. .

Customer: A4500 is validated for this workstation but it is not validated from the software company. This is the problem. It is better to buy most recent graphic card. The software company is behind the recent technology. for hardware.

Agent: Are you interested in the RTX5000?.

Customer: I do not think that you understand my point. As I told you, the graphic card is not listed in the system recommendation list from the software company. .

Agent: oh I get it. You want to follow GPU lists in the link above.

Customer: Yes.

Agent: Please let me double check if we have any available.

Customer: Sorry for the confusion.

Agent: No worries. Please give me a moment while I check for you. Unfortunately, we don't have the GPU in the list available. We currently have A4500 and 5000 and they both work just fine. You can contact the software company if you want. In case the list just

recommended specs. Otherwise, you can buy a server without the GPU. Customer: If we buy the system without a graphic card and we install some graphic card by ourselves, you cannot assure the performance of computer or no warranty, right?. Agent: You can install the graphic card which validated with this system such as A4000, it will be fine. We just don't cover warranty for your GPU. Customer: I see. Do you have RTX A4500 16 GB? Alos, Quadro RTX A5000 16 GB? RTX A4500 is only from 20GB?. Agent: The RTX A5000 is 24Gb and the RTX A4500 is 20GB, unfortunately. Customer: How much is each one?. Agent: The A5000 is \$2711.8 Please give me a moment to check for the A4500 price The price for A4500 is \$2,194.40. Customer: That's the price when I buy with the system?. Agent: yes. Customer: I am just confused with the name. A5000 is Quadro RTX and A4500 is just RTX, right?. Agent: Yes, it is correct But RTX A4500 is quadro too. Customer: Okay. Thank you. I will ask the compatibility of these graphic cards to the software company first. Thank you. . Agent: You're welcome. Sound good! Is there anything else I may help you with today?. Customer: That's all. I will ask you quote once the software company gives me go sign. . Agent: Sure. Please feel free to contact us here or email It was nice talking to you. Have a great day, goodbye! Hi Ana How can I help you today?. Customer: Hi Liz, please can I have the drawing of the miniSas 25cm cable CBL-SAST-0550?. Agent: I'm sorry, but unfortunately, we cannot provide drawing for the product. You can contact our Sales department to get support on this request. Sales-USA@supermicro.com. Customer: Ok, thanks. Agent: You're welcome. Can I help you with anything else?. Customer: No, thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi John How can I help you today?. Customer: Hi, I've ordered a couple servers and was wondering if I can get the serial numbers for them somewhere, or do I have to go look at the servers?. Agent: You can see your server serial number on the invoice paper shipped together with your server. Or you can follow this link to look serial number. <https://www.supermicro.com/en/support/rma/sn>. Customer: ok, so they are not in the store system. Thank you. Agent: Yes. You're welcome. Is there anything else I may help you with today?. Customer: nope. Agent: It was nice talking to you. Have a great day, goodbye! Hi John How can I help you today?. Customer: good morning I created an account this morning, i tried my credit card twice and it kept saying address did not match my card is used alot and I have no issues with other vendors. Agent: Please give me a moment while I check for you. . Customer: thank you. Agent: Do you happen to know your 9 digits zip code for your billing address?. Customer: 48642-4815. Agent: I saw your billing address is: John Israel Dow Inc. 2211 H H DOW WAY MIDLAND, Michigan, 48642-4815 United States T: 9897508686 which got AVI mismatch it doesn't match with your bank billing information. Customer: 48674 thats the issue it will not add the missing 4 digits. Agent: I see. Can you please check previous transaction with other vendors?. Customer: its just the 48674. Agent: Amazon is one will shows 9 digit zip code after you placed the order. Customer: it does not, let me call my bank and get an answer. Agent: Sound good! I'm sorry for this inconvenience. Is there anything else I may help you with today?. Customer: no, i will chat if it does not get resolved. Agent: Sure. We will here to help. It was nice talking to you. Have a great day, goodbye! Hi John. Customer: hello I am trying to enter my account billing zip 48674-0001 it will not accept it. Agent: I see, Please give me a moment to check. Is this for : John Israel Dow Inc. 2211 H H DOW WAY MIDLAND, Michigan, 48674-0001 United States T: 9897508686. Customer: yes. Agent: Give me second to duplicate this. Can you please try again?. Customer: it says please select an address with 9 digits now it worked. Agent: Awesome! Is there anything else I may help you with today?. Customer: that was it thanks. Agent: You're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: Hello Kyle. Agent: Hi Dave. Customer: I called supermicro Last week I was disconnected with a sales rep They said they had this power supply to be purchased even though it is not showing on the E-Store PWS-603R-PQ. Agent: It

doesn't look like we carry this particular power supply on the eStore so you'll either have to check back with them or check with our resellers/distributors: <https://www.supermicro.com/en/wheretobuy>.

Customer: ok thanks. Agent: Hi Susumu. Customer: Hi Liz, question again. From <https://www.supermicro.com/en/products/superworkstation?mlg=0> Only several is available for "Buy Now" All other systems are not available even though it is listed?. Agent: I'm sorry, we don't carry all the server listed on the main website. Customer: Thank you. . Agent: Hi Mike. Customer: Hi there, I'm looking for SuperMicro x10sl7-f i/o shield. Agent: I see. please give me a moment to find this for you. . Customer: ok. thanks. Agent: the I/O shield you would need is MCP-260-00073-0N, but we don't carry it on eStore. Customer: any canadian distributors?. Agent: Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: alrighty then. thanks. . Agent: You are welcome! Can I help you with anything else?. Customer: nope. thanks. . Agent: You'r welcome! It was nice talking to you. Have a great day, goodbye! Hello Jocelyn, how can I help you? If you are looking for MCP-240-21824-0N, we do not carry this part on the eStore so please check with our resellers/distributors: <https://www.supermicro.com/en/wheretobuy> Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Mariel. Customer: Hello! Does your website have a place where I can look up the status of a warranty by serial number?. Agent: If you buy directly from our Supermicro Sale, I can check the warranty status for you. You also can register your server on our eStore to check the warranty status if you buy the server directly from our Sale. Customer: Okay, thank you That was all I wanted to know. Agent: You're welcome. Hi Mary. Customer: Hi, I have a question about tax-exempt orders. It looks like you send the paperwork (tax exempt certificates) after the order is placed. Is that correct? And then the tax gets refunded by ~10 days. Agent: Yes that is correct Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to estore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. . Customer: I'm placing an order right now, and I don't see an email address to send the paperwork to (yet). Ah. I see the email address above. I didn't see it on the tax exemption guide. That's it!. Agent: of course! Can I help you with anything else?. Customer: I was cutting and pasting the information to my computer. Can you confirm (y/n) if you offer tax exempt status to Massachusetts-based companies?I don't think we have California status, but we usually (somehow) get around that hurdle. I work for MIT, and I believe our Certificate of Exemption is valid in a lot of other states, but California has issues (?) with Massachusetts paperwork? (Or something like that?) Our ST-2, or Certificate of Exemption, is given by the Massachusetts state government, and other states recognize it, usually. . Agent: Please give a moment to check. . Customer: I can give you the Taxpayer ID # if it is helpful. I suspect you get other orders from us!. Agent: We had many companies from Massachusetts submit tax exemption with us and have no problem. . Customer: (I'm double checking our website info to see if there's still a note about it.). Agent: As long as she follow the tax exemption guide <https://store.supermicro.com/tax-exemption-guide> as you follow* Can you please send me your certificate? We are going to check internally if it would work on out side. . Customer: No, our website -

for some reason - says our tax exempt status 501(c)(3) non profit organization status isn't recognized by California. I'm not sure why. Ok. Can I send it to the above email address? Or another one?. Agent: Yes that email. . Customer: Got it. Do you want to stop the chat now or do you want me to stay on the chat while I send the paperwork?. Agent: You can stop the chat, we are going to check the certificate and get back with you through email. . Customer: Great! I'll send it now. Thanks for your help, Mark!. Agent: of course. You're welcome Mary! It was nice talking to you. Have a great day, goodbye!. Customer: Bye!. Agent: Hi Craig How can I help you today?. Customer: Hi. I'm looking for the pin out or color code layout for the cable cbl-0068L. Agent: I'm sorry, but unfortunately, we don't have any information about the pin out or color code layout for cable. Please contact our Sales department for this information Sales-USA@supermicro.com. Customer: Okay thank you. Agent: You're welcome. Is there anything else I may help you with today? Hi Richard. Customer: What is recommended for 32gb dimms for 6038R-E1CR16H and 6048R-E1CR36H, both have X10DRH-iT motherboards, and all of my systems that i'm interested in upgrading have dual Intel(R) Xeon(R) CPU E5-2603 v3 @ 1.60GHz processors. . Agent: Please give me a moment to look this up . I found MEM-DR432LC-ER26 <https://store.supermicro.com/32gb-ddr4-2666-mem-dr432l-cl03-er26.html> for 6038R-E1CR16H let me look now for 6048R-E1CR36H For 6048R-E1CR36H it would be the same as the one i just provided. . Customer: could you also look up one more for me? SuperStorage 2029P-E1CR48H. Agent: Of course. Customer: dual Intel(R) Xeon(R) Bronze 3104 CPU @ 1.70GHz i'd like 32gb dimms for that as well. Agent: Can i ask how many are trying to purchase? for the previous systems and this one?. Customer: i think 14 of the first one, and 4 of the second. Agent: would this be 14 each for 6038R-E1CR16H and 6048R-E1CR36H? and 4 for 2029P-E1CR48H?. Customer: 14 total of the MEM-DR432LC-ER26 and 4 of whatever is appropriate for the 2029P-E1CR48H. Agent: I see, Please give me a moment to check. . Customer: i received 14 MTA18ADF4G72PZ-2G9B1 from some supermicro reseller (not sure which one, i'd have to contact our purchasing department), but they son't appear to work in the 6038R-E1CR16H, so i'll likely have to contact them to exchange for the correct ones they sent MEM-DR432L-CL05-ER32 for the 2029P-E1CR48H, but i hcan't tried to install them yet (haven't tried). Agent: I see. I can check if MEM-DR432L-CL05-ER32 validated for the 2029P-E1CR48H. Customer: thanks. Agent: the one you gave me for 2029P-E1CR48H is validated MEM-DR432L-CL05-ER32 <https://store.supermicro.com/32gb-ddr4-3200-mem-dr432l-cl05-er32.html>. Customer: thanks for all your help. at least i can get one machine upgraded. . Agent: Of course! Can I help you with anything else?. Customer: Nope, that's it. thanks!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You to! Richard Burhans left the following comment: Great help! Give this employee a raise! Hi Kyle. Agent: Hi Christopher How can I help you?. Customer: Hi. Supermicro X12DPL-NT6 has a PCIe 4.0 x8 NVMe SlimSAS Port with support of two NVMe connections ... but I cannot determine what kind of cable attaches to it, and if we can connect 2x u.2 2.5 NVMe SSDs to it In the manual, the port name is P2-NVME0/1. Agent: I see, let me check for you. Will this be in a Supermicro case/chassis with a backplane also?. Customer: Hi No it won't, will be a custom build, we are a custom builder in Los Angeles. Agent: We only have 2 cables that would work, one that goes from this port to a 2x miniSAS HD connector while the other to 2x oculink. Customer: Can you send the SKU for those parts, and Oculink...is that Supermicro's name for cable to u.2 or u.3 drives? SKU for both cables, thanks... . Agent: Sure give me a moment. Customer: OK. Agent: <https://store.supermicro.com/supermicro-slimline-sas-x8-to-2-x-oculink-x4-28cm-cable-cbl-sast-0816.html> the oculink is for NVMe actually there's 2 other options. Customer: OK. Agent: Then there's this for U.2 <https://store.supermicro.com/slimline-x8-to-2x-u-2-connector-with-power-cable-cbl-sast-0953.html> This one for miniSAS HD connector on target side <https://store.supermicro.com/supemicro-slimline-sas-x8-le-to-2x-minisas-hd-70cm-cable-cbl-sast->

0826.html Then this one for SATA <https://store.supermicro.com/cbl-sast-0827.html> So basically depending on what you want to use it for. Customer: So to attach u.2 NVMe SSDs we would need to use: <https://store.supermicro.com/slimline-x8-to-2x-u-2-connector-with-power-cable-cbl-sast-0953.html> ?.

Agent: Let me double check. Customer: OK. Ideally, we want to RAID1 configure 2x 3.84TB Intel® SSD D7 P5510 Series U.2 PCIe 4.0 x4. Agent: Oh I see. If the connection on that Intel is 2 x U.2 SFF-8639, it should physically work. Customer: OK. One last thing Kyle, how did you FIND these answers so fast? Is there a matrix page or something? I simply COULD NOT figure out what type of cable would be used in the parts list for the motherboard or online search, and I have been doing this 10 years!. Agent: Not super fast :). I just know the way around the main site. The motherboard doesn't list anything about the cables needed for anything outside of SATA unfortunately. If you search our slimsas cables on the eStore, there are 4 options on what the target connector would be: SATA, miniSAS HD, Oculink, or U.2 PCIE That Intel is a NVMe correct. Customer: Yes and I just checked Intel site doesn't say but on Amazon it says SFF-8639 so that sounds like a match What is Oculink for again?. Agent: SFF-8639 is the U.2 form factor. Customer: Yes And what is Oculink?. Agent: The oculink is a different connector but also supports NVMe its quite confusing. Customer: OK, so on the motherboard it would say "Oculink" rather than SlimSAS...which...NONE of your cables say SlimSAS, which is what's written in the Motherboard manual, eStore only shows Slimline SAS - different name Kyle thanks I appreciate your help!. Agent: Our cables are Slimline SAS cables but only show Slimline in the name You're welcome. Customer: Thanks have a good one Christopher Johnson left the following comment: Kyle was great!. Agent: Hi Russel How may I help you today?. Customer: I am shopping for a server to host Veeam and provide backup data storage for our school district. . Agent: Do you have an eStore account created with us?. Customer: I don't believe I do. We are running SuperMicro servers as our Hyper-V hosts, but they came through a vendor. The vendor has been bought out. . Agent: I see. Can you please create an account and let me know your email address? <https://store.supermicro.com/customer/account/create/> We can give you the access to browse and configure our current server selection. You can access our System tab now once you log out and log back in. <https://store.supermicro.com/customer/account/login/> Do you have any SKUs in mind yet?. Customer: I have an account now and am logged in. . Agent: Yes, can you please log out out and log back in to make sure our system pages work correctly <https://store.supermicro.com/system.html> Are you looking in some specific server SKUs? or any spec?. Customer: The spec from the Veeam vendor is 2x Xeon 4110, 8x 3.5 drive bays, 32GB RAM, 6 12TB drives, 2x M.2 480 GB system drives on RAID 1 2x 10 GbE. Agent: You can take a look at this SYS-620U-TNR server <https://store.supermicro.com/supermicro-2u-ultra-superserver-sys-620u-tnr.html> The Xeon 4110 is in 1st Gen. This system uses the latest 3rd gen Intel scalable processor. . Customer: Ok. This looks like a better deal to me. . Agent: Sound good! Please let me know if you need any assistance. Customer: ok. thanks. . Agent: You're welcome. Is there anything else I may help you with today?. Customer: That is all for now. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You as well... . Agent: Hi Patrick. Customer: Can it support U.2 NVMe disk? CBL-SAST-0826. Agent: please give me a moment to check. . Customer: the backplane from SM chassis can support U.2 nvme disk just need to find the right cable. Agent: What is the chassis?. Customer: the HBA is 9500-8i 216be1c4-r1k23lp29. Agent: Thank you Please give me a moment. . Customer: <https://www.supermicro.com/en/products/chassis/2U/216/SC216BE1C4-R1K23LPB>. Agent: Hi Mohamad. Customer: hello. Agent: How can I help you today?. Customer: I have a supermicro mini atx case that need a hard drive mounting tray for it. Agent: May I know your full chassis part number?. Customer: cse-city and it says : factory code: ABC-06. Agent: Unfortunately, I cannot find any

information for cse-city on my end Can you give me the serial number please? You can follow the guide here <https://www.supermicro.com/en/support/rma/sn>. Customer: there are 2 number, i will give you both CCITYAC48A00364 S14739713815119. Agent: Please give me a moment while I check for you. . Customer: ok S14739713B15119 i think the 8 was a B. Agent: This one is correct than the above 😊. Customer: so can you locate it?. Agent: I can locate your chassis, however, your system is custom built. I cannot check information on my end. Do you have the sale rep for this server?. Customer: no what about product CSE-101F do you have the hard drive mounting tray for it?. Agent: Please give me a moment while I check for you. . Customer: thanks. Agent: MCP-290-10108-0B is the Dual System Tray Bracket I'm sorry, but unfortunately, we do not carry MCP-290-10108-0B on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: thank you. Agent: Oh I'm sorry This is the system tray not drive tray I'm sorry for my mistake. Customer: i need the hard drive tray no problem. Agent: Unfortunately, the mounting tray goes with the chassis and it doesn't have the SKUs number for it. If you need the replacement, I recommend contact with our RMA department to see if they can support RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3. Customer: thank you Hello. Agent: Hi Sonny. Customer: Hi Mark. Agent: How can i help you?. Customer: I need to two Supermicro server computers. Do you have a couple vendors in Maryland USA that repair Supermicro servers?. Agent: Is this for SSG-6047R-E1CR36N ?. Customer: yes. Agent: Did you purchase these servers from us?. Customer: From eBay i think you were the vendor shipped from CA. Agent: I see, Please give me a second to check on this. . Customer: Thanks. I have bought another one and it's on the way. I would like to repair the broken ones with no video. . Agent: Can i ask what you are trying to repair?. Customer: Graphics, they have no video while trying to repair one I took out a cable. It needs a replacement. The other one, I have replaced the Motherboard, but it has no video. Agent: I see. Since you didn't direct from Supermicro. Unfortunately, there isn't anything we can do for repair. You would have to contact the vendor you bought from . . Customer: They said they don't repair them. That is why I am asking if any other vendor might repair them If they are near here, I can drop them off. If too far, I can freight. . Agent: I see. Please give me second to check. . Customer: Okay. Thanks! I live near Northwestern Maryland. . Agent: Can you please open a CRM case through here ? <https://webpr3.supermicro.com/SupportPortal/> Our TS should be able to help you from there. Can I help you with anything else?. Customer: okay. Do you mean your CRM can refer me to a couple repair centers? or your TS will have the repair info?. Agent: Tech support will try troubleshoot the problem. and then they'll recommend what would be the next step. . Customer: Okay. I think I rather want to have a professional tech to repair the two servers to load some type of warranty on it. I do need that type of support Repair with warranty on the workmanship I rather have the repairman to work with your tech support to fix the servers. . Agent: Do you have warranty from vendor you bought from?. Customer: No sir. The reason is that I have spent days to load the bios following online instructions, but it didn't work. One if the two has both the cabling and bios issue. It will take a professional. . Agent: Please check with Tech support they'll guide you with the correct information. . Customer: *one of. Agent: They can be reached at support@supermicro.com or You can call 408-503-8000. Customer: Okay. Thanks! Do you know of any Supermicro repair facilities in Maryland?. Agent: Sorry, no we don't know. . Customer: or, nearby states other than your store in San Jose?. Agent: We don't have any information on finding repairs places. . Customer: I thought you have resellers all over the world Supermicro resellers. Agent: We have resellers and distributors <https://www.supermicro.com/en/wheretobuy> but we don't have repair centers. . Customer: So, if I need a computer repair store, I just need to find one

that is willing to repair my servers, right? I could have them contact your Tech Support so that you can talk in techies. Agent: If the server is within warranty then we can repair it. . Customer: They are not Do you sell extended warranty?. Agent: We do not sell extended warranty. Please contact our support team and they can help. . Customer: Okay, but May I ship them to you to repair at cost plus some profit?. Agent: For that you can RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3. Customer: Great!. Agent: Please contact them first to see if they do something like that. . Customer: How long would it take for a simple repair job like these two servers please? I will do sir. Agent: I wouldn't have the information on that. please check with them. . Customer: Sir, I will do. Are you by chance the owner?. Agent: No i am not. . Customer: What should I tell the TS to say that you have referred me to them? CS, VP?. Agent: Let them know you have technical issues with your servers and they'll be able to help you out. . Customer: I want to repair them, so that they don't sit idle. I would like have your TS to accept my case. If you can help with that, I would be so grateful sir!. Agent: I wouldn't no since they are different department. Contact them and they should provide you with the proper information. . Customer: I will do as instructed. For your record, my email is sonnyk1938@gmail.com. I thank you for your outstanding customer service and assistance. . Agent: Thank you. You're welcome Sonny! It was nice talking to you. Have a great day, goodbye!. Customer: Sonny left the following comment: Once again, thanks for your outstanding customer service and kind assistance. Good Afternoon Tim,. Agent: Hi Matthew!. Customer: I am having difficulty understanding what I need to do to update any fru information of a x10qbi mainboard I have received two or three methods, one of which, at charge I have a amidedos utlitty however, it says underneath R/W "W" and status "Failed" referencing the texted entered previously. Agent: Are you looking at SFT-OOB-LIC?. Customer: I am not familiar. Agent: just to clarify, are you looking to update bios/ipmi?. Customer: we replaced a mainboard and found using the amidedos utility the s/n to be incorrect as well as in the webconsole via bmc however IPMI reports this information accurately the customer will not have direct access and will require this information be accurate to submit additional calls for service I have sent a message posing this question to support, but it has not been addressed. Agent: One of the key advantages of SFT-OOB-LIC is to remote access and update latest BIOS via BMC/IPMI. Customer: are we required to purchase this license ? to update the fru information ?. Agent: do you know if the mainboard before had SFT-OOB-LIC?. Customer: I am the technician and do not have access to this information we are capable of using dos/linux to access the fru information we appear to lack a utility to allow us to update. Agent: it sounds like you may need SFT-OOB-LIC license but i think it's best to wait for our tech support team to respond. Customer: Would you be able to draft a message explaining the necessity and use of this utility ? I can escalate. Agent: can you forward the email you sent to our support team and i can see if i can get our TS team on this eail email*. Customer: Are you able to confirm if we already have a license on file ? is this utility limited to one use or one system per purchase ? or limited in time ?. Agent: it's tied to the motherboard <https://store.supermicro.com/software/software-license-key-activation-usage> perhaps look here to see if it has been activated if it is not activated then most likely it means you do not have this license. Customer: it has not been activited. Agent: ok that means you don't have this license. Customer: aside from ipmi, is there another utility to update the fru information ?. Agent: that's something you would have to check with our support team they would have better knowledge of this. Customer: Thank you again. Agent: if you'd like you can forward me the email and i see if i can get a support team member to respond. Customer: please... . Agent: you can forward me the email at estore-support@supermicro.com. Customer: will do thank you !. Agent: is there anything else i can help you with today?. Customer: not at this time. Agent: It was nice talking to you. Have a great day,

goodbye!. Customer: Matthew left the following comment: I appreciate Tim's willingness to assist in a moment of crisis. good morning. Agent: Hi Gordon. Customer: where can I buy MBD-X10DRL-i. Agent: I'm sorry, but unfortunately, we do not carry any motherboards on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: thanks. Agent: you're welcome Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Kyle How can I help you today?. Customer: Hello - I am interested in the workstation AS -5014A-TT, but I have my own GPU already I'd like to use. is this possible to for to install once I get the workstation or will I void the warranty if I open the workstation?. Agent: It wouldn't be affected the warranty if you install the GPU to the workstation. Customer: Ok, great! Thank you!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: that's all. have a great day. Agent: Hi Theo. Customer: Hi Liz. Agent: How can I help you today?. Customer: so I have couple units of H700S that getting connection failed while using java launcher to open the bmc console the HTML5 is working fine I also tried iKVM reset, unit reset, factory reset, powercycle etc also added the ip to java security exception list nothing seems to help, any suggestion ?. Agent: Hmm. I'm sorry to hear that. Can you please contact our technical support at Support@Supermicro.com Tel: +1 408-503-8000 They can help you solve this issue. Customer: Sure thanks. Agent: You're welcome. Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Robert How can I help you today?. Customer: Hi.. I am trying to find CBL-CDAT-0601 for a server. Is there a different part number which may be compatible? CBL-CDAT-0674 seems to be similar but does not have the pin jumper on each end. . Agent: May I know your server part number/serial number please?. Customer: It is a self built server using Supermicro parts.. . Agent: I see. Please let me check if I can find any alternative for the CBL-CDAT-0601. Customer: Thank you!!!. Agent: I see the description for CBL-CDAT-0601 is 4 Pin to 4 Pin I2C cable, 50cm, 26AWG for the CBL-CDAT-0674 is 4 Pin to 4 Pin I2C Cable, 30cm, 26AWG, 4 Wires Since your server is custom build, I cannot guarantee if the CBL-CDAT-0674 is fit or not. Customer: Thanks.. That at least gets me in the right direction. I may reach back out once I can grab the part numbers for the SAS back plane and the controller. . Agent: Sound great! Is there anything else I may help you with today?. Customer: Have a great day.. I am good. THanks. Agent: Thank you. It was nice talking to you. Have a great day, goodbye!. Customer: Can i still buy - Power Board - pdb-pt745-8824. Agent: Hi Eric Let me check for you We don't carry this particular power distributor, but it is not phased out. You'll have to check with our resellers/distributors: <https://www.supermicro.com/en/wheretobuy>. Customer: OK. Agent: Can I help you with anything else?. Customer: Sorry - I am looking there now -TY - GB ERIC KNIGHT left the following comment: The link does not help me. Agent: Hi Eric How can I help you today?. Customer: I was looking for a part - PT745-8824 - was sent to a link to find a dealer - No Good. Agent: I'm sorry for that. If you are unable to find this power distributor on our resellers. You can try with our RMA department to check if they can support the replacement for you RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3 Or our Sale team at Sales-USA@supermicro.com Can I help you with anything else?. Customer: OK - TY. Agent: You're welcome. Is there anything else I may help you with today?. Customer: No Thank You - Have Great Day. Agent: Thank you! It was nice talking

to you. Have a great day, goodbye!. Customer: Hello, trying to find specific parts. Agent: Hi Trae. Customer: Hello I am looking to get SuperWorkstation 5049A-T And using raid card LSI 9300 (9361-8i) With 6 SAS drives I am not certain the back plate of the server for the drives And if I need. Agent: We don't carry this particular workstation unfortunately on the eStore. Have you checked our other workstations if those would work for you?. Customer: Cbl-sast-0699 cables I have the workstation Just need to know the backplate will be compatible with my raid card And or If I need to buy the 0699 cables from the e store. Agent: Oh understood. Let me check if its able to support it without having to change the backplane. . Customer: Thank you!. Agent: The backplane BPN-SAS3-743A that comes with it can support SAS3/SAS2/SATA3. Customer: Ok, so I am good to use the LSI 9300, with the 0699 cables then? Sorry, I appreciate the help. Agent: Let me double check Please bear with me for a few more minutes while I check for you. . Customer: You're good. I believe it would be but just want to be 100% sure. Agent: Ok actually, the backplane takes mini-SAS HD and I believe you're HBA (LSI 9300) also takes minisas HD CBL-SAST-0593 will work <https://store.supermicro.com/supermicro-minisas-hd-to-minisas-hd-60cm-cable-cbl-sast-0593.html> you may need 2 of these cables. Customer: Ok, awesome thank you!. Agent: you're welcome! Can I help you with anything else?. Customer: That's it! Appreciate it. Agent: Np! It was nice talking to you. Have a great day, goodbye!. Customer: Likewise! Trae left the following comment: Perfect. Agent: Hi Thurston How can I help you today?. Customer: Hi - I just need to get some peripheral power cables for a gpu installation. We ordered some more GPUs but didn't get the cables :| Or if you have the spec sheet / if I can get whichever pair of cables, that works too. Just a standard 8-pin. Agent: You can check our GPU cable in this page: <https://www.supermicro.com/en/products/system/4U/4029/SYS-4029GP-TRT3.cfm> at the optional parts list. Customer: Got it, thanks. . Agent: You're welcome. Is there anything else I may help you with today?. Customer: Wait actually Agent: Yes. Customer: I think I need male to male, and the gpu cables section has female to female the male to male is for the cpu?. Agent: May I know which GPU do you try to install? I would need to check for the connector header. Customer: A6000. Agent: Unfortunately, I don't see the 4029GP-TRT3 server was validated with the RTX6000. But let me check for you. Customer: Okay, sure. I can tell you that it's a 300W GPU and takes a 2x8pin connector. . Agent: It should be male to male connector to connect the GPU with the motherboard. Customer: Thanks. Agent: You're welcome. . Customer: On this page: <https://www.supermicro.com/en/products/system/4U/4029/SYS-4029GP-TRT3.cfm> under the gpu cables section, I don't see male->male Do I need cable 2? CBL-PWEX-1028 ?. Agent: Please give me a moment while I check for you. . Customer: If it helps, from the manual, section 4.1: "12V 8-pin System GPU Power Connectors Sixteen 8-pin 12V power GPU connectors are located at (JPWR1-JPWR8, JPWR9-JPWR16) on the motherboard to provide power to system and GPU components. Refer to the table below for pin definitions. 12V 8-pin CPU Power Connectors Two 8-pin 12V power connectors (JPW11/JPW12) are located on the motherboard to provide power to the processors. Refer to the table below for pin definitions." Okay, looks like it is cable 2 then. Agent: I would need to check internally to clarify which cable is worked for you Can I email you back via tbrevett@stanford.edu?. Customer: I think this is it - it says it's validated for SYS-4029GP-TRT3: <https://store.supermicro.com/supermicro-8-pin-cpu-to-8-pin-cpu-30cm-gpu-power-cable-cbl-pwex-1028.html>. Agent: Yes, but I cannot guarantee the key in the connector is work with your GPU Can I email you back to confirm the cable?. Customer: I'm not worried about that: as long as each connector is rated for 150W I should be fine. And as long as it is a standard 8-pin. Agent: Oh I see. Customer: I'm familiar with computers - in terms of airflow/thermals, I can monitor that myself. I just need to make sure the power delivery is correct. Different hardware

manufacturers have different pin-out standards on the motherboard But the gpu pin-outs are standardized. So as long as this cable maps to the standard PCI-E peripheral pin-out, and is rated for 150W per cable, I can take it from there. . Agent: I see For the rate I'm not sure since I don't have any information about this This is what I got for description of the CBL-PWEX-1028- GPU,2x4F/CPU to 2x4F/CPU,P4.2, 30CM,16AWG, 10A/pin, -40~105C. Customer: Okay, great. So $10A * 12V = 120V$ per pin correction: $10 \text{ amps} * 12 \text{ volts} = 120 \text{ Watts}$ per pin. Agent: yes. Customer: The pin-out has 3 or 4 pins at 12V, so that's either 360W or 480W So the cable can handle 300W :). Agent: That's good to be know that. Thank you 😊. Customer: Yup! Quick maths, haha. Agent: True!. Customer: It's not that scary once you're familiar 😊. Agent: That's true!. Customer: The last thing I'm looking for is overall power delivery - so let's say each gpu is drawing 300W, and I have 8 gpus: that means $8 * 300W = 2400W$. I just need to check that the power supply can handle that. . Agent: The power supply in your server is 4x PWS-2K05A-1R -1U 2000W Redundant Titanium Power Supply W/PMbus 73.5x40x265mm,RoHS/REACH. Customer: If it can't, that's actually okay, because in software I can restrict the power Oooo, okay. . Agent: I think it should be good. Customer: So um ... I guess I do need to restrict the power, haha Ohhhhhh, wait it's $4 * 2000W = 8000W$?. Agent: It's 2000W for 1 power supply. Customer: Ohhh, okay, then yes, you're right! Perfect!. Agent: <https://store.supernmicro.com/2000w-1u-pws-2k05a-1r.html>. Customer: Thanks!. Agent: You're welcome. . Customer: I understand that it's not verified, but I'm convinced this is the cable I need. Can I pick this up in person somewhere near either 95112 or 94304?. Agent: Unfortunately, we do not have pick up option. I'm sorry for this inconvenience. Customer: No worries, I'm just in a rush. Shipping is fine then. . Agent: Sound good! We also have overnight delivery option *option. Customer: Okay, I'll start the checkout process and see how the prices work out. Agent: Sound good! Can I help you with anything else?. Customer: Will I get a copy of this chat history? Other than that, I think I'm all set!. Agent: Yes, you can get the transcription at the little 3 dots at the corner of this chat box I also can send it to your email. Customer: Okay, I just set the transcript to forward. Thanks!. Agent: You're welcome. . Customer: I'm all set! I will need to work with my company to finalize the purchase. Thank you very much for your help!. Agent: Sound good! It is my pleasure to assist you. It was nice talking to you. Have a great day, goodbye!. Customer: You as well! Take care!. Agent: Thank you!. Customer: Thurston left the following comment: Very helpful! Makes my day to have someone just be naturally helpful rather than just stick to a script. . Agent: Hi Carlos. Customer: does this model need an add on RAID controller card to be able to use ALL 12 hot swap drive bays in RAID 5/6. Agent: For raid 6, you would need an add-on controller as the onboard would not have that function. Customer: meaning, be able to use all 12 drives in a RAID volume using all 12 drives, not two RAID volumes so all 12 drives could be used in a RAID 5 volume?. Agent: Let me double check just in case Yeah for RAID 5, that should be fine with the onboard controller. RAID 0,1,5,10 should be ok for it Can I help you with anything else?. Customer: I believe that's all, just in case... if I did need a RAID controller card for that system that could do RAID 6, which one is rated for that server?. Agent: Sure, let me check for you Thanks for waiting. We would be able to use AOC-S3108L-H81R-16DD, but it seems to be limiting me to 8 drives when configuring on our end. . Customer: appreciated.. . Agent: The onboard should be limited to only 8 drives actually since 8 of them are in I-SATA and 4 are on S-SATA they don't talk to each other since they are on different channels but its allowing us to do all 12 drives on the same raid 5 but it shouldn't work which is why im checking on the raid controller card if it can. Customer: appreciated.. yes I'd like to be sure of whether or not I need an addon RAID controller. Agent: I'd have to get back to you on that as I'm checking with internal support. Can I email you back once I get an update for that?. Customer: yes please. Agent: Ok will do. Is there anything else I may help you with today?. Customer: that's all. Agent: Ok sounds good. Hopefully I

can get an update today. It was nice talking to you. Have a great day, goodbye!. Customer: thanks. Is there a listing of which chassis/barebones are certified for use with your 48VDC power supplies?. Agent: Hi Andrew Let me check What wattage were you looking?. Customer: 600-650w. Agent: Ok thanks So there's no official list, but for systems that do have PWS-706P-1R, PWS-503P-1R, and PWS-704P-1R, it can be replaced by a DC -48V equivalent PSU in PWS-654-1R (650W) The chassis option I see is SC815, SC113 for the 600W option, I do see SC813M, 515M, 113M, 514, E403 chassis the PSU for the 600W option would be PWS-601D-1R. Customer: Anything 1 socket , 1U, redundant PSU?. Agent: Hmm, let me check <https://www.supermicro.com/en/products/system/1U/1019/SYS-1019P-FRDN2T.cfm>. Customer: Looks like a decent number of options then. Agent: For the 650W option, theres only a 2 socket available from what I can see You can check this link and see the 1Us available: <https://www.supermicro.com/en/products/chassis/1U/515/SC515M-R601>. Customer: Okay. . Agent: might be easier this way. Customer: Yeah, looks like it. Appreciate the pointers. . Agent: You're welcome! Can I help you with anything else?. Customer: I think that's it. . Agent: Ok sounds good. It was nice talking to you. Have a great day, goodbye!. Customer: Andrew Bellows left the following comment: Great help!. Agent: Hi Roman. Customer: MBD-M12SWA-TF-O PWS-2K08A-1R hi liza required all three looking for prices on them. Agent: The price for PWS-2K08A-1R is \$513.28 each. I'm sorry, but unfortunately, we do not carry any motherboard on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> FAN-0182L4 is \$24.65 each. Customer: right thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: thankew for your help thats it for now. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: you too. Agent: Thank you. Customer: Roman David left the following comment: 10/10. Agent: Hi Patrick. Customer: Hello. Agent: How can i help you today?. Customer: I'm trying to find cable management arms for my server. It looks like it should be MCP-290-00127-0N and MCP-290-00128-0N but I'm having trouble finding them on the eStore. . Agent: We don't carry this product on our eStore. but please give me a moment to double check. Yeah we don't have it. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Thank you. I'll see if I can find a vendor I have a relationship with. . Agent: You're welcome. Can i help you with anything else?. Customer: That's all for today. . Agent: It was nice talking to you. Have a great day, goodbye! Hi Joshua. Customer: Hello, Looking at getting X11SPA-TF motherboard and have a question about the onboard intel raid If I use the onboard raid, can I setup 6 drives in a raid 10 (4 drives in the raid, 2 drives as global hot spares) and then use a SSD as the OS drive for esxi? also, Hi kyle, again. ha!. Agent: Hello again, let me check Oh you switched your name 😊. Customer: Sorry, lol first name is josh, middle name is trae... it auto fills both at times. Agent: Let me check for this motherboard. Customer: I am trying to figure out if i need to speen \$\$\$ on a external raid card or not. THank you!. Agent: I didn't get a concrete answer for the earlier question you had about needing a raid card or not. Customer: ok... hmmm. so youre not sure if I can use the onboard raid to setup RAID 10 volume while using a ssd for the Hypervisor drive for esxi correct?. Agent: Minimum of 4 drives needed for raid 10 and this motherboard can support 8 drives within a raid set. Customer: can i also setup global hotspares with the onboard raid? i usually configure raid 10 with 4 drives in the array and 2 drives as global hotspares for a total of 6 drives. Agent: checking for this motherboard just to verify but I don't see an issue, give me a moment Same workstation from before correct?. Customer: yeah same workstation, it uses that motherboard Sorry my laptop died hopefully we're still connected ahh seet. Agent: Oh I'm still here.

Customer: cool. Agent: So I double checked and there seems to be a limitation with the onboard controller, as you can only choose 4 drives with no global spares unfortunately. . Customer: I see and what raid controller card does supermicro recommend for this workstation? (for a raid to with 6 drives, 4 in the array, 2 as global hotspares). Agent: Checking because when I choose a 3108 controller, it does allow for 4 in the array but only 1 as a global hotspare Please give me a moment. Customer: Sure thank you. Agent: So odd, even if I choose 8 drives, it only lets me add 1 global hotspare. It might be a limitation of the configurator we have. . Customer: yeah i seen that too when trying to configure on you site. I think its a glitch or bug. Agent: It should be able to have more than 1 global hotspare. Customer: with the UI'. Agent: It looks like the only raid controller validated for this workstation is the AOC-S3108L-H8iR. Customer: is it on the estore?. Agent: We don't sell any HBA raid controllers on the eStore so you'll either have to check with our resellers/distributors: <https://www.supermicro.com/en/wheretobuy> or contact our Sales team at Sales-USA@supermicro.com. Customer: Perfect ok kyle... I think i am done bugging you today hahhaa. Agent: No worries!. Customer: *think* being the key word. Agent: The SSD can either be on the onboard or controller card btw. Customer: ahh for the os?. Agent: yeah. Customer: so i can have the virtual datastore there and then the ssd ran through the card too? sweet. Agent: That I'm not too sure, but I know you can add the SSD to be on the same controller card. . Customer: perfect. Agent: You may have to verify with our technical support team just in case. Customer: sounds good sir appricate all your help. Agent: You're welcome!! Can I help you with anything else?. Customer: that should be it!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: likewise Joshua Trae Walters left the following comment: Kyle was very helpful. Agent: Hi James,. Customer: Hi Mark ... is there a bezel available for the SYS-220U-TNR?. Agent: Please let me check. . Customer: thank you. Agent: we do have MCP-210-82601-0B <https://store.supermicro.com/front-bezel-mcp-210-82601-0b.html> It's not in stock but i can request for inventory transfer. . Customer: when i validate against my sku the system says it's not been validated. but you're confident it fits? i would be looking to buy 2 of the bezels. Agent: If you go to the systems product page under optional parts list you'll see it there in 2U Front Bezel <https://www.supermicro.com/en/products/system/Ultra/2U/SYS-220U-TNR>. Customer: ok cool. easy way for me to make a purchase? do i add to cart, purchase and then hope it arrives? ;-). Agent: Ill have request for two inventory transfer and ill email you at jward@assurity.com when they are ready to purchase. . Customer: awesome Mark!. Agent: You're welcome. Ill email when they are ready to purchase. . Customer: ok thanks again and have a great day James Ward left the following comment: Mark was excellent! how do I get rid of this stupid pop up that is making it difficult to use the site. Agent: Hello Steve. Customer: Please answer my question. Agent: I'm sorry for the inconvenience, so even if you click on the X, it pops up again?. Customer: There is no x on the pop up. should I shop elsewhere?. Agent: You're talking about the hand pop up right? I was able to close it by hovering over the pop up and there was a X to close it. Customer: I will try it. Thanks. Agent: Hi Richard How may I help you today?. Customer: does estore build the server?. Agent: yes, we do. Customer: TI22-S01-1 Commercial Equivalent. Agent: I'm sorry custom build. You will need to contact our Sale team for this request Sales-USA@supermicro.com They will be able to do custom build for you Hi Obata. Customer: Our customer is using your products, and unfortunately memory cards (2 cards) failed. . Agent: I am sorry to hear that. . Customer: Do you have two MEM-DR464L-SL01-ER29 cards in stock ?. Agent: please give me second to check yes we do MEM-DR464MC-ER29 <https://store.supermicro.com/64gb-ddr4-2933-mem-dr464l-sl01-er29.html>. Customer: Thank you for your help. We will check it. Bye. . Agent: You're welcome It was nice talking to you. Have a great day, goodbye! Hi Kai. Customer: Hi Liz I'd like to order an OOB license for my private server. I live in germany and the estore does not allow me to set the country to something else than US. . Agent: I'm sorry, but our OOB license is only available for US-based customers (US billing address) to purchase. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> I'm sorry for this inconvenience. . Customer: No problem. this helps. Thanks. Agent: You're welcome. Can I help you with anything else?. Customer: I'm fine, thanks. Have a nice day and stay healthy. . Agent: Thank you! It was nice talking to you. Have a great day, goodbye!. Customer: goodbye. Agent: Hello Obata. Customer: Thank you for the information just before. We would like to know approximate days to get them. If we ordered two MEM-DR464L-SL01-ER29 memory cards then how long will it take for delivering to Japan ?. Agent: Of course. Unfortunately, our eStore only ships within United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: OK. Thanks a lot. . Agent: You're welcome Obata! It was nice talking to you again. Have a great day, goodbye!. Customer: Hey I was wondering what availability you had for this fan (FAN-0104L4). Agent: Hi Matthew. Customer: The website says they are in stock, but also says that they have "0" in stock. Agent: How many were you looking for?. Customer: 5. Agent: Ok give me a moment while I check. Customer: thx. Agent: It looks like we just have to update our inventory, hopefully shouldn't take more than 30 min. I can email you once it is done. Customer: Thanks, sounds great, appreciate it. Agent: You're welcome Can I help you with anything else?. Customer: nope, that's it. Agent: It was nice talking to you. Have a great day, goodbye! Hi Arnold. Customer: hello i would like to add memory to my servers 2tb on each. Agent: Please give me second to check. For what server is this?. Customer: it will be 16 qty at 64 GB each so 32 uits X10DRG-Q. Agent: Okay. thank you This one would be for 64GB MEM-DR464MC-ER29 <https://store.supermicro.com/64gb-ddr4-2933-mem-dr464l-sl01-er29.html>. . Customer: 2933 are you sure. Agent: It is replacement for MEM-DR464L-SL01-ER21 <https://store.supermicro.com/64gb-ddr4-2133-mem-dr464l-sl01-er21.html?utm=testedlink>. Customer: this is what the spec sheet says Memory Capacity 16x 288-pin DDR4 DIMM slots , Up to 2TB ECC 3DS

LRDIMM, 1TB ECC RDIMM Memory Type 2400/2133/1866/1600MHz ECC DDR4 SDRAM 72-bit
<https://www.supermicro.com/en/products/motherboard/X10DRG-Q> max 2400mhz?. Agent: I see,
Please give me a moment to find another one. we have MEM-DR464LE-LR26 MEM-DR464L-HL03-LR26
The main site wasn't updated for higher speed but if click on "Tested Memory List" the spec sheets it
goes 3200. . Customer: yes not 64gb though. Agent: the only other would be MEM-DR464LE-LR26
<https://store.supermicro.com/64gb-ddr4-mem-dr464l-hl03-lr26.html> but its EOL. Can i asked would
these be shipped within United States?. Customer: yes. Agent: I am check internally if we can get some
of the memory i gave you that is EOL. Is it okay if email at arnold@avetria.com when i get an update?.
Customer: yes please. Agent: Also before i do this can you confirm the billing & shipping is with United
States?. Customer: as I said I need to add ram to 2 server I want 2TB of ram on each server please quote.
Agent: within*. Customer: New York State. Agent: Okay. ill email you once i get an update!. Customer:
great. Agent: Is there anything else I may help you with today?. Customer: nope all good thank you for
now. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Stanley.
Customer: Are there Linux (CentOS) drivers for the builtin Intel Raid card on this server?. Agent: Please
give me a moment while I check for you. . Customer: Thank you. . Agent: The Linux kernel has to have
the driver builtin. The OS version has to have the driver already. . Customer: Okay. Thank you. . Agent:
You're welcome. Is there anything else I may help you with today?. Customer: I want to find out more
about the Supermicro Rackmount Keyboard and Mouse Combo (Included) I assume this server comes
with the rack mount rails. . Agent: Yes, the server should go with the rails
<https://www.supermicro.com/en/products/system/1U/5019/SYS-5019C-MR.cfm> You can check the rail
set is in the parts lists note. Customer: Thank you. Good Bye. . Agent: You're welcome. It was nice talking
to you. Have a great day, goodbye! Hi Bart How may help you today?. Customer: can you send me
volume pricing for 22pcs pls MCP-220-00080-0B. Agent: For the volume pricing, can you please fill out
this form? <https://store.supermicro.com/quote#MCP-220-00080-0B>. Customer: you have all my info,
but ok stand bu by. Agent: Our quote agent will contact you back with the price. Customer: done thanks.
Agent: You're welcome. . Customer: Hello. Agent: Hi Joshua,. Customer: Hi So I was wondering if the
above chassis will be suitable for: AsRock Rack ROMED8-2T ATX Server Motherboard. Agent: Please give
me a moment to check. . Customer: size wise it looks to fit and it should have standard connections so i
dont see why it shouldnt fit. Agent: On the chassis specs page
<https://www.supermicro.com/en/products/chassis/4u/743/sc743ac-1k26b-sq> it shows it supports for
maximum motherboard sizes: 12" x 13" E-ATX and ATX. . Customer: yeah and this motherboard is 12x9 i
just didnt know if there was something I dont see with the chassis that would make it not work. Agent:
As long as it fit in between the max size 12" x 13" it should be okay, Can I help you with anything else?.
Customer: :) thank you very much. the sas backplane what connector is it? for like a raid card connection
trying to see if i need 589 or 699 cables. Agent: Please give me second to check. The backplane on the
the chassis you gave me has miniSAS HD. Customer: thank u that should be all appricate the help. Agent:
of course you are welcome! It was nice talking to you. Have a great day, goodbye!. Customer: likewise
Joshua Trae Walters left the following comment: Mark was helpful. Agent: Hello David, how can I help
you?. Customer: can i order servers like this directly from you? We will need ~10 units. . Agent: You
should be able to if we have the server in stock and you can add components from your end. For which
server you were inquiring about? You will just need to create/register for an eStore account to complete
your purchase. Customer: well, i sent you the exact specs, was hoping for an answer about availabilty. .
Agent: The file you sent didn't have any specs that I can see. Customer: sorry, wrong file! 1 sec. Agent:
No worries. Customer: by bad. they are saying 27 weeks and I simply cannot wait. Agent: Ok thanks, give

me a moment while I check oh wow, that's quite the lead time. Customer: thanks! essential: twin 500gb ssd RAID1, 32gb ram. 1 processor. 1 ru, half depth (for 2 post rack), twin gig nics, Need 5 very soon and another 5 beginning Q3. Agent: Looks to be a special configuration that includes that motherboard. The SYS-5019C-M or SYS-5019C-MR is typically the server that is used for this. For half depth, let me check what we have available that would fit your specs. <https://store.supermicro.com/mainstream-1u-sys-510t-ml.html> Uses the next gen CPU E-2300 processor if that works for you We currently have 2 available for this one and will get more later today if not early next week twin SSD would be for the rear and can be set up for RAID 1. Customer: motherboard raid or card? the ones we were getting have the drives stacked just like the pic on the web page. Agent: which webpage are you referring to? It comes with raid from the onboard controller on the motherboard. . Customer: the link you sent is the chassis we get <https://store.supermicro.com/mainstream-1u-sys-510t-ml.html>. Agent: Oh ok, got it. Yeah they would be stacked like the 4th image let me check on the raid. Customer: i dont need keyboard & mouse. Agent: Sure, we can remove that. Customer: would this order come as a box of parts or assembled?. Agent: No need for the controller card as the onboard motherboard can handle the raid it would come assembled. Customer: power supply?. Agent: It will include a 350W power supply. Customer: fantastic. what do i need to do to get this going?. Agent: I can provide a pre-configured system for you with the specs you require. and after you review it, we can modify or you can purchase if everything looks good. Customer: great! i was afraid of a huge delay. Agent: US credit card or ACH bank account transfer payment work for you?. Customer: cc. Agent: ok sounds good. Customer: tax exempt. Agent: so you just needed 2 SSDs in a raid 1 setup just to confirm. Customer: we are a reseller. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to estore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> That's our current process for tax exemption. Customer: yes, 2 ssd > 480gb, simple raid1 these boxes dont work hard, but thy have to be up. . Agent: our closest to 500gb would be the 480GB option ok sounds good. Customer: yup. Agent: which CPU did you want to go with?. Customer: the E-2334 is still an upgrade from what we were using so it will be fine. Agent: ok got it, thanks I think we should be able to provide a preconfig shortly hopefully within the next 30 - 45 min. I can email you once it is ready for you to review. Customer: fantastic. ddunlap@heart.net. Agent: thank you! Can I help you with anything else?. Customer: no sire, you have made my week! *sir. Agent: Hopefully I did. I'll be in touch soon. It was nice talking to you. Have a great day, goodbye!. Customer: thanks, you too. Agent: Hi Alvin. Customer: Hi I am looking for assistance with a purchase I am looking to buy 3 of this backplane: BPN-SAS3-815TQ-N4. Agent: I see, please give me second to check. . Customer: Ok thank you. Agent: We don't carry any backplane on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> or You can contact our Sale team at Sales-USA@supermicro.com to see if they can help Tel: +1 408-503-8000 Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com. Customer: Hello. I am trying to order three fans, FAN-0104L4, the page says "in stock" but when I try to add to cart I get an error message that says "We currently have "-8" of the "Supermicro 80mm Hot-

Swappable Middle Axial Fan (FAN-0104L4)" in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat". Agent: Hi Joe Let me check for you It looks like it is out of stock, but I can request for more inventory of this fan, which may take several hours. I can email you once they are available for purchase. . Customer: Ok, "several hours" -- I guess that means they're in a different warehouse?. Agent: It has to be approved then physically accepted/processed before being made available so around 3-4 hours I'd say to be safe especially it being lunch time right now. Customer: Ok I see. Yes that works. You have my email already right, do you need any more info? I need three of the fans. . Agent: jwearing@gmail.com?. Customer: yes. Agent: yeah should be able to get 3 pcs. Customer: Ok great. . Agent: Great. Can I help you with anything else?. Customer: That's all for now. I'll keep an eye on my email. Thanks. . Agent: Sounds good. It was nice talking to you. Have a great day, goodbye!. Customer: You too, bye Is the MEM-DR432L-CL05-ER32 compatible with the SSG-2029P-E1CR48H?. Agent: Hi Richard let me check Yes it is compatible. Customer: I tried installing it, and got the message "No memory DIMM detected, install memory DIMMS". Do I need a specific BIOS or firmware version to be installed?. Agent: All it says is BIOS version 3.2 or above is required to support 2nd Gen Intel® Xeon® Scalable processors (codenamed Cascade Lake-R) Is this a brand new server?. Customer: No, it's not brand new, it's running BIOS version 3.0b. Agent: Oh ok I'm assuming its a 2nd gen Intel Scalable. Customer: It has two Intel® Xeon® Bronze 3104 processors running at 1.70GHz Not sure which generation those are. Agent: Let me check on that That looks to be 1st gen, skylake The memory isn't compatible in this case as it needs 2nd gen or newer. let me check what's compatible. Customer: thanks looking for 4 x 32gb dimms. Agent: Any of these 3 options should work
<https://store.supermicro.com/32gb-ddr4-3200-mem-dr432l-hl02-er32.html> or
<https://store.supermicro.com/32gb-ddr4-3200-mem-dr432l-sl05-er32.html> or
<https://store.supermicro.com/32gb-ddr4-3200-mem-dr432l-cl06-er32.html>. Customer: thanks for your help! I'll talk with our reseller and see if we can get these onese exchanged. Agent: Just difference in branding Sure sounds good The one you bought has 16GB modules on the DIMM itself that are only supported with cascade lake or newer *DRAM size module on the 32GB the ones that are compatible are the 8GB DRAM size on the 32GB stick But yeah, those 3 options are compatible. Can I help you with anything else?. Customer: nope, that's it, thanks!. Agent: you're welcome! It was nice talking to you. Have a great day and weekend, goodbye! Hi Tyler. Customer: good afternoon. Agent: Good afternoon. How can I help you today?. Customer: i need to determine if the amount listed on my order includes tax and shipping i clicked "add to cart" to attempt to go to check out where taxes and shipping charges are normally listed but the system prompted me to chat or email about the product. Agent: Can you please provide a screenshot? Is this for the server SYS-6029U-TR4?. Customer: Supermicro 2U Ultra SuperServer (SYS-6029U-TR4) yes. Agent: Thank you! Please give me a moment while I check for you. . Customer: perfect. if the total does not include taxes and shipping; would you be able to email me an official quote that does reflect those numbers?. Agent: Please give me a moment while I check the inventory for the 6TB drives. . Customer: thanks. Agent: I've updated the inventory for the 6TB drives. Can you please try again?. Customer: got it. thank you so much. Agent: In order to get the price include tax and shipping. You would have to go to the checkout page/shipping page I'm sorry has to be go to review and payment page. Customer: on the shipping page, it does not allow me to move forward to the review and payments page there isnt a "next buton" or equivilant. Agent: Did it show any alert on the page? Can you please provide the screenshot Are you able to go to payment yet?. Customer: im getting there now i had to go back to the main page and re-create the order (i had to remove an item i accidentally added that was obsolete). Agent: Oh I see. . Customer: yea it wouldnt allow me to remove

it when i got to the payment page ok now im there thank you so much for all the help. Agent: You're welcome. Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com Hi Brad. Customer: Hello- do you ship to Canada?. Agent: Unfortunately, Supermicro eStore doesn't ship outside the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today? Hi Julian. Customer: Hi Liz. Agent: How can I help you today?. Customer: Looking for a hardware PCI RAID for the chassis/motherboard combo noted above. I believe SMC3108 is compatible? Also need to know what breakout cables to buy?. Agent: is this your chassis part number CSE-825TQ-R740LPB? <https://www.supermicro.com/en/products/chassis/2u/825/SC825TQ-R740LPB>. Customer: just one moment, let me confirm that. Sticker on the side shows "CSE-825". Agent: May I have the serial number for both motherboard and chassis please? <https://www.supermicro.com/en/support/rma/sn>. Customer: Serial of chassis: C8250FD20M90424 one sec, need to grab serial of motherboard. Agent: Thank you. Customer: Motherboard: S09628224623936. Agent: Thank you! Please give me a moment while I check for you. So your server is SYS-6027R-TRF. <https://www.supermicro.com/products/system/2U/6027/SYS-6027R-TRF.cfm> For the cable, can you explain a little bit for this is this for networking?. Customer: It is to connect the SATA SSD drives to the RAID controller I think the RAID controller needs a breakout cable of some kind? 1 port on RAID controller connects to 4 SATA drives?. Agent: Please give me a moment while I check for you. The CBL-SAST-0699 works for you <https://store.supermicro.com/supermicro-minisas-hd-to-4-sata-75-75-90-90cm-12gb-s-with-sideband-75cm-cable-cbl-sast-0699.html> I'm sorry, but unfortunately, we do not carry any AOC on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: understood. But if I can find someone carrying an AOC-S3108L-H8iR: first, is that compatible with my motherboard and second, the minisas-hd-to-4-sata cable you linked would be the right cable, yes?. Agent: For the AOC compatible, I'm checking for this now. If the AOC connector is miniSAS HD it should be the one since your backplane is SATA connector Please bear with me for a few more minutes while I check for you. . Customer: no problem!. Agent: For the AOC-S3108L-H8iR, I only see it was tested with the X9DR3-LN4F+. I would need to check internally for this motherboard RAID card compatible since your motherboard is old. Can I email you back via julian.chocholak@spirent.com?. Customer: yes please! Alternately, if there is some other hardware RAID PCI-based controller card (even if no longer supported) that was validated on my motherboard/backplane, I could hunt for one as well. Always prefer to purchase direct from vendor but yeah, this is an old chassis. . Agent: Sure! I will check for that and email you back. Just to confirm, the RAID card is for SAS drive?. Customer: Drives are actually SATA SSDs <https://www.crucial.com/ssd/bx500/ct2000bx500ssd1>. Agent: I see. I will check for that and get back to you on this via email. Is there anything else I may help you with today?. Customer: that's all for today - really appreciate your time and advice. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Likewise, Liz - thank you and good day to you! Julian left the following comment: Liz was great, very helpful and responsive. Would like to say that I wish I could resize the chat window, though? It's too small. . Agent: Hi Peter. Customer: Hi Mark.. we have a couple of machine with the 813MFTQC-350CB2 chassis... but the rails that came with are too short.. our rack is about 34" deep... is there an alternative rail mount for this chassis which is longer?. Agent: the ones that comes with this chassis is MCP-290-00102-0N Outer rail, quick-release type, 25.6" to 33.05" Please give me second to look. . Customer: thank you :). Agent: Please bear with me for a few more minutes. Customer: sure

thing. Agent: I am sorry i couldn't find anything else except for CSE-PT52L
<https://store.supermicro.com/1u-cse-pt52l.html> which the same size that came with it. Customer: yeah that's the same.. bummer. Agent: I am sorry. I can check internally just to make sure. Is the email pschroeder@telzio.com okay to update you once i get any information?. Customer: that would be great! thank you so much. Agent: Sorry i just heard back and we don't have any other ones. . Customer: alright. Agent: Is there anything else I may help you with today?. Customer: no thats it. Agent: Have a wonderful Friday and weekend! It was nice talking to you. goodbye! You may have to try the universal rail kit from a 3rd party vendor like Rack Solutions as they may have longer versions
<https://www.racksolutions.com/>. Customer: Hello, I have a question regarding an I-SATA connector on the X12DPG-QT6 motherboard. Agent: Hello Matthew, sure how can I help you?. Customer: I'm looking to find compatible cables for the I-SATA connectors on the X12DPG-QT6 motherboard The product manual doesn't seem to indicate what type of SATA connector it is. Agent: let me check for you Is this inside a Supermicro case or chassis?. Customer: No, just the motherboard. Agent: Ok thanks. Customer: MBD-X12DPG-Qt6-B is the full part number. Agent: Wish they actually mentioned anything, but if I look at a workstation that has this motherboard, I do see mostly slimline sas cables being used
<https://store.supermicro.com/supermicro-slimline-sas-x8-to-4-sata-26cm-cbl-sast-0813.html> it actually might be minisas-hd. Customer: Is that for the I-SATA or NVMe connectors?. Agent: The first one may be for NVMe as its an NVMe workstation They made this difficult, sorry. Customer: No worries, I had similar difficulties trying to figure it out from the manual. Agent: I'm just trying to find a better picture as the diagrams don't really help It looks like a mini-SAS connector <https://store.supermicro.com/supermicro-internal-right-angle-minisas-to-4-sata-75-75-90-90cm-with-sideband-90cm-cable-cbl-sast-0644.html>. Customer: Okay, thank you for your help. . Agent: You're welcome. I may have to double check on this and email you back its not very clear. Customer: Sure. Agent: Can I help you with anything else?. Customer: No, that will be all. Thanks. Agent: It was nice talking to you. Have a great day, goodbye! Hi Jamey How may I help you today?. Customer: I this in stock for qty 7. Agent: Please give me a moment while I check for you. I'm sorry, but unfortunately, we do not carry CBL-C6-YL6FT-S8 on our eStore. Please check with our resellers and distributors for availability.
<https://www.supermicro.com/en/wheretobuy> The only one we have is CBL-C6-YL6FT.
<https://store.supermicro.com/supermicro-10g-rj45-cat6-1-8m-yellow-cable-cbl-c6-yl6ft.html> Hello James, how can I help you?. Customer: Well I ordered a set of rails for my chassis but it appears they are too short for the box. I have a 4U 24 bay chassis and the inner rails that it came with are 26 inches. What I apparently ordered has 19 inch inner rails. I need to get the "right" size. . Agent: Hi James For which system is this?. Customer: Supermicro 846-9 X9DRi-LN4F 4u 24 bay server. Agent: Ok let me check What was your order#?. Customer: oh sorry I bought it from ebay not from you directly. It was a surplus deal. Agent: Oh I see For this server, you will need a MCP-290-00057-0N: <https://store.supermicro.com/4u-5u-rail-kit-mcp-290-00057-0n.html>. Customer: ok so for the set I ordered which are too short what are my options? I ordered the 58 by mistake it seems. Agent: So did you order from us directly or you went through ebay? If ebay, you'll have to go through them. Customer: No I ordered them directly with order #1000024375. Agent: I see where the confusion is. You ordered the system from ebay and the rails from us. Customer: yep!. Agent: MCP-290-00058-0N is the short depth version the 57-0N is the full length. Customer: Sadly I learned that the hard way tonight when I went to install. :(Agent: you can return it via <https://webpr3.supermicro.com/SupportPortal/> you'll have to create an account for RMA and then file a new RMA request. Customer: ok that I can do. So the 57 will work/fit?. Agent: The 58 should fit actually as it is compatible with your chassis. It's not an issue with the rack itself is it?. Customer: no I

have a standard 30 inch rack with other servers in there. This is a mistake on me sadly. Agent: Just to clarify, the issue is with the inner rail length, which decides the pull-out-from-rack distance of the chassis? the other rail, which is the post-to-post distance of the rack is fine? *outer rail. Customer: that's correct my rack has adjustable columns so that's not the issue. When I tried to load the outer and inner rails the inner wouldn't allow the outer rail to go all the way to the front of the chassis. . Agent: Let me see if I can get a manual for the 846 chassis, there's typically instructions that may help. Customer: that would be much appreciated though I think I know the issue is length. Agent: <https://www.supermicro.com/manuals/chassis/4U/SC846.pdf> Starting page 75. Customer: excellent! Thank you! That will help me when I am ready to upgrade the mother board too! Just curious if you can tell me the original retail on the system as I know it's fairly old. . Agent: Not sure how much longer the MCP-290-00057-0N inner rail will be compared to the 58 Inner rail display depth for the MCP-290-00058-0N is 22" for the MCP-290-00057-0N, it's 24". Customer: yeah I measured the inner at 19 on what I ordered/received and 26 on the one attached to the chassis. . Agent: The one you ordered should work though with your chassis. I would double check going through the manual step by step if possible. I'm not sure the longer rail kit would work since it may be longer than what your rack needs. It does have 2 more inches in inner rail display depth though. Customer: fair enough. so back to my retail question, can you tell me what it was when new?. Agent: Are you talking about the chassis?. Customer: yep. Agent: I was just basing off the 846-9t the other part is the motherboard, the X9DRi-LN4F <https://www.supermicro.com/products/chassis/4U/846/SC846E2-R900.cfm> so I pulled the manual for that one, which works for every 846 chassis. Customer: yep that's the MB I have the LN4F. Agent: what power supply is installed? what wattage?. Customer: dual 920 watt. Agent: Oh ok, it might be this one then <https://www.supermicro.com/en/products/chassis/4U/846/SC846BE26-R920B>. Customer: looks very similar with the SAS slots in the back. Just curious what was retail on that model?. Agent: maybe slight differences, but yeah similar model I don't know tbh since we don't sell any chassis barebones and not that model. Customer: ok fair enough. Thanks for the help. Going to order the rails and return the others and hopefully get this thing up and in the rack! Love the service here thanks so much!. Agent: You're welcome and sounds good. If you're still having issues with it, I would also check with our technical support team at support@supermicro.com or calling (408) 503-8000. Customer: James left the following comment: Kyle was outstanding! Quick, responsive and thorough in his responses. Genuinely appreciated his insight and suggestions!. Agent: Can I help you with anything else?. Customer: will do thanks! No. Have a great rest of your night!. Agent: Thank you! It was nice talking to you. Have a great night and weekend, goodbye! Hi Cedric How may I help you today?. Customer: My BIOS is stuck and wont continue. After reading online my BIOS may have gotten corrupted. The only way to update the BIOS now seems to be through IPMI but i need a Product Key to do so. Agent: Do you plan to do update the BIOS remotely?. Customer: Well i cant update it on the computer itself because it wont boot into anything I am right next to the Server but i have to do it "remotely". Agent: I see. Please give me a moment while I check for you. Please bear with me for a few more minutes while I check for you. . Customer: ok im waiting. Agent: I cannot find the X9DRi-F is support with the OOB license. I would recommend checking with our technical support for this issue. Tech Support: Support@Supermicro.com Tel: +1 408-503-8000 Hi Brandon. Customer: Hello Looking to get 16 of MEM-DR432MD-ER32 but the page says only 15 in stock, but to chat in case you have more?. Agent: Please give me a moment to check. . Customer: Thanks. Agent: I see, yeah we only have 15 on eStore. I'll have check internally if i can get one more. Is it okay if i email at brandon_martus@innovationfirst.com once i get an update?. Customer: Yep, that works. . Agent: I'll email you as soon i get an update! Can I help you with anything

else?. Customer: Thank you. That'll be it. Good afternoon, I was wondering if you knew whether Supermicro planned to offer workstations fitted with the Threadripper 5000 series of processors in the future?. Agent: Hi Alexander Possibly but let me check There's no ETA when we'll have a system/workstation with the Threadripper 5000 series available unfortunately. It's really new so hopefully in the next few weeks we'll have some that will include this option. We will check internally and get back to you if we have an update. . Customer: Thanks!. Agent: You're welcome Can I help you with anything else?. Customer: No, nothing else. . Agent: It was nice talking to you. Have a great day, goodbye! Hi Saho How can i help you?. Customer: Hello we are setting up a company and we would like to know which are the best servers if possible blade ones to set up for http(web) hosting. Agent: I see, our eStore doesn't carry blade system. but carry other ones that are good for web hosting. Customer: which ones do you recommend?. Agent: Please give me a moment to get that for you. . Customer: ok thanks. Agent: We have few that good for web hosting on eStore website. Our mainstream has 5 that can web hosting https://store.supermicro.com/systems/mainstream.html?system_applications=1144. SYS-5019P-MR <https://store.supermicro.com/mainstream-server-1u-sys-5019p-mr.html> would be good choice. Can i ask are you thinking of purchasing a system from eStore? If so, would these be shipped within United States?. Customer: No we are an european company. Agent: I see. Unfortunately, our eStore only ships within United States. . Customer: Oh I see thank anyway cheers. Agent: You can check with <https://www.supermicro.com/en/about/contact> For UK Office. . Customer: Ok I think that's all thanks for you help :). Agent: Of course! You can also check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Saho left the following comment: Mark is the best guy, he put all his effort on try to help us. Agent: Hi Barbara How may I help you today?. Customer: I need to order a total of 12 cables. I was able to order 6 but now your systems says that there are only 2 more in stock. Can you get more?. Agent: Please give me a moment while I check for you. I've updated the inventory for you. Can you please try again? <https://store.supermicro.com/supermicro-oculink-to-oculink-cable-95cm-cbl-sast-0848.html>. Customer: Perfect. I was able to update my cart. Thank you very much for your help!. Agent: You're welcome. Can I help you with anything else?. Customer: No. Thanks again. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Jian How can i help you today?. Customer: Hi I have a quick question about the PCIe slots of the Super X12DAI-N6. Does the number of lanes listed on the website reflect the actual number of PCIe lanes that can be electrically connected to the expansion card? Or, it only reflects the physical dimension of the connector and the actual number of lanes that can be electrically connected is less than the listed number. . Agent: Please give me a moment to check for this. . Customer: I mean the PCIe slots listed in the red box. does it mean that the motherboard has one PCIe Gen 4.0 slot with 8 lanes which can be electrically connected to the expansion card, and five PCIe Gen 4.0 slots with 16 lanes which can be electrically connected to the expansion card?. Agent: The ones expansion slot physical slot. that is correct. . Customer: Sorry, just wanted to double check. By physical slot, you mean that the number of lanes that can be electrically connected is the same with the connector physical dimension, correct? I asked this question because we brought some computers from the Dell, which has some 16x PCIe connector but the underlying electrical wiring only supports 8x or 4x PCIe connection. . Agent: i see, Please give me a moment to double check internally. The diagram shows 16 lanes for the PCI-e 4.0 x16 and 8 lanes for the PCI-e 4.0 x8. <https://www.supermicro.com/manuals/motherboard/X12/MNL-2239.pdf> Page 16. Customer: Got it. Thank you. . Agent: You're welcome!. Customer: May I also ask you a question about selling option? Or, shall I start another liveChat with the sell representative?. Agent: Are you interest in buying the sytem

SYS-740A-T?. Customer: Yes. . Agent: do you have an account with us?. Customer: Yes. The email address for the account is jian.zhong@berkeley.edu. Agent: We just enable your account. You can access our System tab now once you log out and log back in.

<https://store.supermicro.com/customer/account/login/>. Customer: Ah, got it. . Agent: Once log out and log back in you should have access to <https://store.supermicro.com/supermicro-superworkstation-full-tower-sys-740a-t.html>. Customer: I was wondering why I cannot find the configuration page. Now I can see it. Thank you!. Agent: You're welcome! Do you need assistance with the configuration?. Customer: I think I will take a look of the configuration by myself first. I will contact you if I need some further information! Thank you. . Agent: Of course. We'll be here if you have any question or assistance. It was nice talking to you. Have a great day, goodbye!. Customer: hi kyle im trying to activate my IPMI using the product key i just bought from your website but it is giving me an error every time. Agent: Hi Hieu. Customer: i will send you a screenshot of what i am seeing one second. Agent: So you've already generated the key from the OOB license on the eStore I assume?. Customer: yes

<https://i.imgur.com/OTJJoKg.png> it's telling me the product key format is wrong but i followed this video and did the exact same thing they did. <https://www.youtube.com/watch?v=Txiz2tyCTDA>. Agent: That's for DCMS license Give me a moment. Customer: alright. Agent: Can you try following this?

<https://store.supermicro.com/software/software-license-key-activation-usage> There's 4 different tabs on how you want to activate your key so choose whatever is comfortable for you. Customer: oh ok that worked. Agent: That's great. Customer: thanks but do i have to do anything now like power cycle or anything. Agent: I don't believe so. Does the status say activated now?. Customer: yes it says Number of product keys: 1 but i still am unable to access IPMI features over web. Agent: Oh I see, give me a moment. Customer: yeah my original issue was i couldnt access IPMI web features so i tried activating my license key. Agent: Ah I see. With it being activated, you should have the features that OOB license provides. Please bear with me for a few more minutes while I check for you. . Customer: sure and thanks. Agent: Are you on the Web GUI right now?. Customer: yeah ill send you what i am seeing so i can log in but once im logged in it will be stuck on the loading screen like this

<https://i.imgur.com/Ehkrzp5.png>. Agent: Under maintenance, go to BMC Reset, and then click on unit reset to reset the IPMI Ohh you're actual application/web page locks up?. Customer: yeah also i can not launch KVM console with IPMI View either which why i thought it was an authentication issue but now i have authenticated and it is still not working. Agent: It's not a license issue, more like a IPMI web issue. May have to do a BMC reset via command line using SUM or SSM. Customer: hmm ok. Agent: Let me see if I can find the command. Customer: i've already flashed my IPMI as well. Agent: To the latest version?. Customer: yeah. Agent: 0.13.20? I would reach out to our technical support team on this IPMI issue for further assistance. The OOB seems to be activated, but the actual IPMI doesn't seem to be working properly for you. Customer: hmm ok. Agent: You can reach them by emailing support@supermicro.com or calling (408) 503-8000. Customer: can i talk to them in live chat like we are now?. Agent: They don't have live chat unfortunately. Customer: alright gotcha thanks for your help with the product key. Agent: You're welcome! Hopefully they can resolve the IPMI issue. Customer: Hieu Huynh left the following comment: helpful. Agent: Hi Chengbiao How may I help you?. Customer: Hi, we have a server purchases on 02/20 had a DIMM not working, whose part number is 36ASF8G72PZ-2G9B1 and I'm trying to find a replacement BTW, is the warrant for DIMM 1 year or 2/3?. Agent: May I know your server serial number? I can check the warranty for you. Customer: Product SerialNum: S262465X0225956D. Agent: Thank you! Please give me a moment while I check for you. . Customer: Product PartNum: SYS-2029BT-HTR Thanks. . Agent: I'm sorry I cannot find your warranty on my end.

You would have to check with your sale rep for the warranty. I'm sorry for this inconvenience. Your memory part number is MEM-DR464L-CL01-ER29 <https://store.supermicro.com/64gb-ddr4-2933-mem-dr464l-cl01-er29.html>. Customer: Thanks. However it's OOS. Agent: How many of this are you looking for?. Customer: So far only 1 broken. Agent: Please give me a moment while I check for the inventory. . Customer: sure, please take your time. . Agent: Hi Chengbiao. Customer: Hi, sorry was losing connection. Agent: No worries. The inventory for 1 memory is updated. You can add 1 to your cart. Customer: Sounds great! Myself do not do the purchase, I'll ask my colleague to do it. . Agent: Sure. Please feel free to do it 😊 Can I help you with anything else?. Customer: that's all I had. Thank you very much for the help!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Chris. Customer: Hello. I have a question about the RAID configuration on my new Supermicro server. . Agent: Would this be for the server SYS-620C-TN12R?. Customer: Yes. Agent: How can i help with this?. Customer: The server has a number of different drives to be configured with different RAID types. I'm trying to setup vmware vsphere and it is seeing the bare drives, not logical drives from each RAID array. I'm new to the Intel VROC, so I'm not sure what tools I should use to verify the RAID configuration of all the attached disks. . Agent: I see, Please give me a moment to look into this. . Customer: OK. Agent: I am going to have to check internally for this. Is okay if i can email chris@mcneel.com when i get the correct information?. Customer: Yes. . Agent: Thank you. I'll email you soon as i get any information. Can I help you with anything else?. Customer: No. If I want to talk with someone about this, is there a good phone number to call?. Agent: You can contact our Tech support support@supermicro.com or You can call 408-503-8000. Customer: OK, thanks. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: I'm making a purchase for the University of Colorado using a University purchase card. This should be a tax exempt purchase. I have read your Tax Exemption information page. I have the Universities tax exempt certificate but there is no location to put in information about individual vendors (like supermicro) or the individual purchases that are made from such vendors. How do I proceed?. Agent: Hi Matthew We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide>. Customer: Yes, I've read the tax exempt guide. I have a valid certificate for the University of Colorado and a valid purchase card that I am using for the purchase. Your guide indicates that I need to include the vendor (supermicro), the list of purchases items, and a reason for tax exemption. There is no space for this information on the certificate. . Agent: Oh I see. Give me a moment Please bear with me for a few more minutes while I check for you. Thanks for waiting. If your certificate doesn't have space for a vendor, it should be ok but I had to double check. As long as the billing information on the order matches what is on the certificate that you send to estore-support@supermicro.com, it should be fine. You don't need to fill that part out. Customer: OK. This is also a problem. The University of Colorado is a huge institution with many different "billing addresses" depending on the department or institution within the University. The tax exempt certificate is for the whole institution. Thus, the address on the cert is not the billing address. . Agent: That should be fine. Sorry to clarify, its the name on the certificate that just needs to match what's entered in the company field on the order. Customer: OK. I'll submit the cert and hope that it works. (It's a huge pain in the neck to deal with if taxes are paid on University purchases!). Thanks.

Agent: Yeah I bet, but I think your certificate should be good. As long as it matches like this here: Can I help you with anything else?. Customer: I don't think so. Thanks. Agent: If you have any further questions, feel free to come to chat or email us. It was nice talking to you. Have a great day, goodbye! Hi June. Customer: Hi Liz. Agent: How may I help you today?. Customer: I'm trying to purchase this.<https://store.supermicro.com/64gb-ddr4-2933-mem-dr464l-cl01-er29.html> Can you please check the availability for me?. Agent: It is stock. You should be able to add 1 to your cart It's in stock*. Customer: Yes. I'm trying to place the order now,. Agent: Are you able to add 1 to your cart?. Customer: Yes. I am creating an account to pay for it. . Agent: Sound good! Is there anything else I may help you with today?. Customer: no for now. Thanks!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: You too!. Agent: Thank you! Hi Qingyuan. Customer: Hi, I'd like to have two <https://store.supermicro.com/32gb-ddr4-2933-mem-dr432l-hl01-eu29.html> is it available?. Agent: Please give me a moment to check Please bear with me for a few more minutes , I am checking internally. . Customer: Thank you. take your time!. Agent: I see we have in enough stock for your order, we need to updated on our end. Can you please try again <https://store.supermicro.com/32gb-ddr4-2933-mem-dr432l-hl01-eu29.html> Please let me know if it works. . Customer: looks good so far. I'm making the payment. . Agent: Awesome! Glad it worked. Can I help you with anything else? I see the order went through!. Customer: Yes. Thank you so much!. Agent: You're welcome. It was nice talking to you. Have wonderful day. Goodbye!. Customer: bye. . Agent: Hi Charles How may I help you?. Customer: Hello, we are looking at 6 x of the SuperServer 530MT-H8TNR Before we go head first into them, we are looking to see if there are any small servers we could try that would represent the performance of a single lade. SYS-510T-ML looks like a decent match but we would need to fit a 70 Watt Nvidia GPU. Agent: I'm sorry, but unfortunately, we do not carry SYS-530MT-H8TNR on our eStore. We do carry 1U and 2U server. Are you interested in? oh. I see Please give me a moment while I check for you. May I confirm that you are looking for the 1 CPU server?. Customer: Yes, we would like to match the CPU, RAM, SSD and GPU fo the blade So we can qualify performance before we go in 300k. Agent: Oh, we don't carry any blade, unfortunately. We only carry single node system We do have 1 CPU with 1U and 2U server which is in Mainstream and WIO categories. Customer: Yes. Agent: Hi Matthia How may I help you today?. Customer: Hello, I want to order a larger quantity of this Fan: <https://store.supermicro.com/40mm-fan-006114.html>. Agent: Please give me a moment while I check for you. . Customer: is it possible to reorder them ?. Agent: Unfortunately, we currently out of stock for this fan, and we don't have the reorder option at the moment. Do you want me to check for the ETA of this fan? May I also ask where do you plan to ship this fan to?. Customer: germany. Agent: We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com Oh sorry. Customer: sorry was checking another tab^^. Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: ah okay nevermind then :). Agent: I'm sorry for this inconvenience. Customer: thanks for the help :) no worries. Agent: You're welcome. Can I help you with anything else?. Customer: no thanks thats it :) have a nice day. Agent: Thank you! It was nice talking to you. Have a great day, goodbye!. Customer: bye hi. Agent: Hi Abdullah How can i help you today?. Customer: I'd like some help with compatibility, please I am interested in a dual socket AMD Epyc 7742 I have shortlisted the SuperMicro H12DSi-NT6 motherboard I need to find a compatible cabinet for it. Agent: i see. So you are trying to find compatible chassis?. Customer: Yes. Agent: Please

give me a moment to find you one. . Customer: Thank you, Mark. Agent: In the motherboard specs page you'll see Chassis (Optimized for H12DSi-NT6)
<https://www.supermicro.com/en/products/motherboard/H12DSi-NT6> 2U: SCLA25TQC-R609LP ,SCLA26AC12-R920LP1 3U: SC835TQC-R1K03B. Customer: Yes, I saw that, but when i click on them, atleast the first one under motherboard, the H12DSi-NT6 isnt listed
<https://www.supermicro.com/en/products/chassis/2U/LA25/SCLA25TQC-R609LP> Also, prices aren't listed?. Agent: Since we don't sale barebones on our eStore, we don't have a price. . Customer: Any reliable seller in the US?. Agent: Please check with our resellers and distributors for availability.
<https://www.supermicro.com/en/wheretobuy>. Customer: Thanks for that, will check it out as for the compatibility, if it's listed on the motherboard page, it will be compatible no matter what?. Agent: Please give me second to double check. . Customer: ok Also could you tell me the difference between 2U and 3U? Is it just the extra space? Just trying to find the best solution for my needs Of course I need more research but your help would go a long way. Agent: For the motherboard H12DSi-NT6 the reason it's not listed in chassis spec is because it hasn't been updated. But the chassis is listed on the motherboard specs, it's compatible with it. . Customer: Great, good to know. Agent: You are correct the #U relates to the bigger chassis. . Customer: Cool Thanks for your help, Mark. Agent: Of course! Can I help you with anything else?. Customer: Thats all for today, thanks again. Agent: you're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: you too, be well What do I do if I want to order from Germany? The checkout form doesn't allow to pick any other country than the US. . Agent: Hi Kai We only sell and ship within the United States unfortunately. If you need a purchase an item, please check with our resellers/distributors: <https://www.supermicro.com/en/wheretobuy>. Customer: Checked this list already. Couldn't find any online stores that distribute software licenses for Supermicro boards. I need a license to activate the Redfish module on my board. And all the online stores on that list only sell hardware. . Agent: I see. You can try reaching Sales there at Sales_Europe@supermicro.com. Customer: OK. Thanks. I'll give it a try. . Agent: You're welcome Can I help you with anything else?. Customer: Nope. :-). Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Bye. . Agent: Hi Susumu. Customer: Hi Liz!!! Wow. Agent: 😊 How may I help you?. Customer: <https://www.newegg.com/p/N82E16859152108?Item=N82E16859152108> I saw this in Newegg. Can you sell this computer with a modification of memory and HDD?. Agent: Please give me a moment while I check for you. . Customer: Upgrade is 64GB DDR4 (16GBx4) to 128GB DDR4 3200MHz ECC RDIMM Server Memory (64GBx2) and Storage is to 2TB NVMe x2 and 8TB HDD. Agent: For the server in newegg, we cannot change exactly like it since the chassis is the go with intel motherboard Also it's a configuration for newegg and this uses RTX4000 and not RTXA4000 I mean the chassis in the Newegg is from this server <https://www.supermicro.com/en/products/system/4U/5049/SYS-5049A-T.cfm> which go with Intel motherboard. Customer: So how can they put AMD chip?. Agent: That Newegg configuration is special. Customer: Okay. Agent: For AMD motherboard server, we only have AS -5014A-TT available on our eStore which is popular one and we currently have 2 left in stock Do you still interested in the AS -5014A-TT ?. Customer: So maybe, I can order the computer without a graphic card. Then, install RTXA4000 later works?. Agent: Yes, i should be work since it is validated with the AS -5014A-TT. Customer: Then, I will go for it. Thank you. . Agent: You're welcome. Let me double check if there is any additional part requirement when you add the GPU in the system. Customer: Nvidia RTX A4000 8 GB. Agent: Hi Hugh How can i help you today? I see you are interest in a server. Do you have an account with us?. Customer: Hello. I am a small business owner currently using a server I built with supermicro board I am interested in either a pre-built or possibly a board. OS is Windows Server 2022

and will also run SQL Server. Agent: I see. Please give me second to look. I am checking internally for OS windows 2022 and SQL. On our eStore we carry motherboards by itself and We don't have pre-built. The great thing about our eStore you get to configure system to your liking with the validated components. we don't carry motherboard* You get choose the configuration of the system and we build it for you. . Customer: OK. So you have to buy a complete system?. Agent: Yes. Is there any system that you are looking into?. Customer: SYS-740A-T Probably only need 1 cpu. Agent: For SYS-740A-T you need 2 CPU. . Customer: Anything similar. Agent: Please give me second to check. If you are looking into single cpu workstation we have SYS-530AD-I <https://store.supermicro.com/supermicro-upworkstation-mid-tower-sys-530ad-i.html>. and SYS-5039C-T <https://store.supermicro.com/sys-5039c-t.html>. But i would have to check internally if they can run OS windows 2022. Is it okay i can email you back at hugh@kmcnetwork.com? I am going to check internally to get the correct information. We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. I'll email you with updated information about these servers. Have a great day, goodbye!. Customer: Hello Kyle. Agent: Hi Paul. Customer: qq here. SUM license and DCMS license are different? Try to run some redfish API command but some of them are working but some others are not. It says DCMS license is required. . Agent: SUM is more the software and DCMS is the license that allows you to run functions that you normally would not get without it <https://www.supermicro.com/en/solutions/management-software/supermicro-update-manager> This functions that have the 1 next to them require DCMS license. Customer: working good : <https://10.64.1.88/redfish/v1/Systems/1> Not working: <https://10.64.1.88/redfish/v1/Systems/1/Bios>. Agent: I can't view those unfortunately. Customer: this is what you said, right? "This functions that have the 1 next to them require DCMS license" means whatever URI after '1' requires DCMS license to get? right?. Agent: Ohh in that link I provided, not the 1 in your URL, sorry Get crash dump1. Customer: Can you please explain a bit more on "This functions that have the 1 next to them require DCMS license"? I don't get it quite. However I think SUM can get BIOS configuration without DCMS license. . Agent: That should be correct unless they've changed that. Was it working before?. Customer: no, new thing.. we are trying to use redfish API and encountered some issues. When we run "curl --silent --insecure <https://10.64.1.88/redfish/v1/Systems/1/Bios> --user xxxxx:xxxxx " we got "Message": "Not licensed to perform this request. The following licenses DCMS were needed",. Agent: I would recommend checking with our technical support team for assistance on Redfish software. They can be reached at support@supermicro.com or by calling (408) 503-8000 before purchasing a DCMS license. Customer: ok. got it. Thanks ;-). Agent: DON't want you spending when its not needed possibly You're welcome. Customer: 👍 . Agent: Can I help you with anything else?. Customer: no. that's it.. Thanks Kyle!! Agent: Np! It was nice talking to you. Have a great day, goodbye! Hi James. . Customer: Hello, just wondering when order 1000024546 will ship?. Agent: Please give me second to check. It takes couple days to assemble it should ship mid to later this week. . Customer: great thank you. Agent: you're welcome! Can I help you with anything else?. Customer: no thank you. Agent: It was nice talking to you. Have a great day, goodbye! Hi martin. Customer: Hi Mark. . Agent: How can i help you today?. Customer: According to this document: <https://www.supermicro.com/manuals/superserver/2U/MNL-1948.pdf>, I can purchase an add-on key to enable the VROC functionality. The document gives part number AOC-VROCSTNMOD as one of the three available keys to enable VROC. When I look for this part I get this link: <https://store.supermicro.com/catalog/product/view/id/2799/s/aoc-vrocintmod> This seems to be for the Intel VROC key, and not the "standard" key. . Agent: I see please give me a moment to check. The

product on this link is software not the actual VROC

<https://store.supermicro.com/catalog/product/view/id/2799/s/aoc-vrocintmod> We don't carry AOC on our eStore. Please check with our resellers and distributors for availability.

<https://www.supermicro.com/en/wheretobuy> Sale team at Sales-USA@supermicro.com Tel: +1 408-503-8000. Customer: Cool. Thanks Mark. . Agent: You're welcome Martin. Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Patrik. How can i help you today?.

Customer: Hi Mark, I'm looking at CBL-SAST-0953 to connect 2x u.2 samsung pm9a3 with my board MBD-H12SSL-i is that the correct cable for the purpose?.

Agent: Please give me second to check. . Customer: Kyle transferred the chat to Kyle. Agent: Hi Patrik, I will be assisting you on this now. Give me a moment while I check. Customer: Hi Kyle, thanks for checking.

Agent: Will this be in a Supermicro case or chassis?. Customer: no it will be in a regular desktop case. Agent: Oh ok, checking. Customer: My understanding is that the slimline 8x port on the board is to either connect 8x SATA or 2x pcie4 NVME but it appears to be extremely difficult to find the cables for the NVME option.

Agent: That is correct, just making sure this model has the slim sas x8 connector which it does That would be the cable to use. The other slimline cables would not work. Customer: ok, perfect. do you sell to Europe or do you have a specific reseller in europe?.

Agent: The eStore does not sell outside of the US so you'll have to check with our resellers in your area: <https://www.supermicro.com/en/wheretobuy>. Customer: ok, thanks for confirming the compatibility of the cable much appreciated have a good day!.

Agent: Thank you and you're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: Patrik left the following comment: very helpful Good afternoon. Agent: Hi Yisroel. Customer: Do you have an image for Supermicro SNK-P0048AP4 Passive Heat Sink. . Agent: We should have it available: <https://store.supermicro.com/2u-active-cpu-cooler-snk-p0048ap4.html>. Customer: Thank you. I'm a bit confused, however, i asked for passive and the image says active?.

Agent: SNK-P0048AP4 is an active heatsink. Any heatsink that ends with the AP usually is active Can I help you with anything else?. Customer: Thank you. . Agent: You're welcome Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com. Customer: yisroel kertzner left the following comment: very helpful and knowledgeable. . Agent: Hi Michael. Customer: looking for some quantity other than 1 for SuperMicro cable CBL-SAST-0953. Agent: May I know how many of CBL-SAST-0953 are you looking for?.

Customer: 5. Agent: Please give me a moment while I check for you. . Customer: Can I change that quantity to 6pcs. Agent: Sure, the stock for this cable is running low. But I will try request 6 of CBL-SAST-0953 for you. Can I email you back via mreynolds@microway.com? I will email you back as soon as the transfer process is done. Customer: yes, Thank you. Agent: Thank you for your confirming. You're welcome. Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: Michael Reynolds left the following comment: Liz was very helpful. Agent: Hi Yvonne How can i help you today?.

Customer: Hi Mark, I was wondering if you could send me a copy of the packing list for an order I placed. The order # is 1000022263. Agent: please give me second. . Customer: Thanks!. Agent: Can you verify the billing address that was used for this order?.

Customer: 201 INDUSTRIAL RD, SUITE 310 SAN CARLOS, California, 94070-2396 United States. Agent: Okay Thank you. Can verify with me what you mean by packing list?. Customer: I'm looking for the document that comes with the package when it was shipped to us because it was missing. . Agent: I see. Please give me second to check internally for this. . Customer: Thank you. Agent: If you are looking for the invoice papers you can log into the account that used to purchase this order follow these steps: My account -> my order -> print order. Customer: Not the invoice, but the document to show what is in the package. . Agent: We don't have access to this information. I am going to have check internally. Can i email you at yvonne@nautilus.bio once i get an update?. Customer: Yes please. I was told to contact sales, but there was no response. Thanks for your help! When do you think I can expect to hear back?. Agent: Of course, you'll received an update by today. Hi Robert How may I help you?. Customer: Hi Liz. I'm trying to order two cables from the store, however for billing information it seems to only allow US addresses. My billing information is for Canada. Is there a way for me to order from your store?. Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> I'm sorry for this inconvenience. Customer: I do have a US address to ship to. Agent: Yes, we also require the US-based credit card also. Customer: Okay. I'll reach out to the other resellers. Agent: Sound good! Is there anything else I may help you with today?. Customer: Nope that's it. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Have a great day. Agent: Hi Hal How can i help you today?. Customer: order 1000024566 will it be shipped today I paid for overnight and my order was placed before 3pm your time. . Agent: The order has processed and it should ship out today. . Customer: ok thanks. Agent: You'll be receiving a track number later on today. Can I help you with anything else?. Customer: Ok hadn't received confirmation email so wanted to make sure. I appreciate your help. Goodbye. Agent: Of course, you can click on "View order Status" on the email we sent saying Thank you for your purchase and it gives you what status it's in. But you'll received the tracking number once its shipped. It was pleasure speaking with you today. Goodbye! 😊 Hi Jessie, how can I help you?. Customer: Do you still manuf/sell the following mounting rails? P# MCP-290-00102-0N and p# MCP-290-00120-0N. Agent: We do just not individually as in they are usually in a rail kit. So the equivalent of those 2, would be MCP-290-00062-0N: <https://store.supermicro.com/1u-rail-kit-mcp-290-00062-0n.html> Basically, 1 set MCP-290-00120-0N + 1 set MCP-290-00112-0N + 1 set MCP-290-00102-0N = 1pc MCP-290-00062-0N (complete rail set without thumb screw from front inner tail) + 2pcs MCP-290-00064-0N (Thumb screw adapter) if you need the individual rails, you may need to contact our RMA team at rma@supermicro.com Can I help you with anything else?. Customer: no, thank you!. Agent: You're welcome It was nice talking to you. Have a great day, goodbye! Hi Chaochao How can i help you today?. Customer: Hi Mark, I would like to purchase a server like this one <https://www.supermicro.com/en/products/system/GPU/4U/SYS-420GP-TNAR> with A100 8-GPU 40 or 80GB. Agent: Unfortunately we don't carry this system on our eStore. I can help you find a similiar one that is available to purchase through our eStore. Is that something you are interest in? I checked and we don't carry any server with these specs. You can contact our Sale team they can help out with purchasing SYS-420GP-TNAR. Sales-USA@supermicro.com Tel: +1 408-503-8000. Customer: In that case, can you find a similiar one? I am also interested in that. . Agent: We don't carry any servers that can handle 8 GPU's. Sales department can help you in placing the order for SYS-420GP-TNAR. Customer: Okay Thanks for letting me know. Hello, I was wondering if I could change the payment method for order #1000024568?. Agent: Hello Alexander, let me check for you so instead of ACH, it would be credit card?. Customer: Yes. . Agent: Ok understood. Please give me a moment. Ok we should be able to cancel

your original order. Please place a new one with the credit card. . Customer: Thanks. . Agent: You're welcome Can I help you with anything else?. Customer: No, that is all. . Agent: Ok sounds good. It was nice talking to you. Have a great day, goodbye! Hi Yonathan How may I help you today?. Customer: can you check for product availability, please? PWS-503R-1R. Agent: Please give me a moment while I check for you. Unfortunately, we currently out of stock for this power supply, and we don't know the ETA of it due to the shortage. You will have to check with our resellers or distributor for this power supply. <https://www.supermicro.com/en/wheretobuy>. Customer: PS2 500W Redundant Single Module Power Supply is this an active product?. Agent: Yes, it is still active on my end. Customer: I see refurbished out there thank you. Agent: You're welcome. Can I help you with anything else?. Customer: that's all. Agent: Hi Max. Customer: Hi Liz, I'm trying to purchase Supermicro Out of Band (OOB) Software License Key (SFT-OOB-LIC) but my system is not in the list X9DRW-CTF31. Agent: Please give me a moment while I check for you. Unfortunately, I don't see the X9DRW-CF31 can support OOB license. Do you plan to update the BIOS remotely?. Customer: yes IPMI interface asks for a key. Agent: I see. I would recommend you to check with our Technical Support to check for solution. Support@Supermicro.com Tel: +1 408-503-8000 Is there anything else I may help you with today?. Customer: ok, I will give them a call. Thank you. Agent: Sound good! You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Gary. Customer: Hi Liz,. Agent: How may I help you today?. Customer: I need 5x qty of Supermicro fan PN FAN-0181L4 can you confirm the availability. Agent: Sure, let me check for you. . Customer: thanks. Agent: May I know where do you plan to ship these fan to?. Customer: Sacramento CA. Agent: Thank you so much! I can transfer more inventory for this fan. Can I email you back via golsen@convexns.com when the stock is ready?. Customer: Sure, the email is correct. Agent: Thank you for confirming. I will email you as soon as the fan is back in stock. Is there anything else I may help you with today?. Customer: so it mean you don't have these in stock ? :-(. Agent: It is not available now. But I already made the transfer and it would take some hours to complete. Do you want me to email you back?. Customer: yes please I'm waiting for your email many thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: No, thanks Any suppliers in Canada?. Agent: Please give me a moment while I check for you. Yes, we have alot of supplier in Canada. You can check at this link <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today?. Customer: I'm good thanks! 😊. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: hello. Agent: Hi Ben How may I help you today?. Customer: Hi, I work at Rakuten USA, and looking to get some servers for a new lab. I was wondering if there was a point of contact between Supermicro and Rakuten. Agent: Please give me a moment while I check for you. . Customer: sure, thank you so much. Agent: We will have someone reach out to help you. Is the benyavut.jirasut@rakuten.com best email to reach you?. Customer: Yes, it is. . Agent: Thank you for confirming. We will reach out to you via email for this Is there anything else I may help you with today?. Customer: would you be able to check stock availability and price on a specific server?. Agent: Unfortunately, I won't be able to do that. The price also would be different with your configuration. May I know what is your requirement configuration?. Customer: looking for a server 2U4N, single CPU specifically with Ice Lake 6338N 32 core 2.2 GHz. Agent: Thank you for your confirming. We will have someone contact you to discuss for further information. . Customer: ok no problem. thanks or the help today. Agent: If you doesn't heard back within 24hrs you can feel free to reach back out to us You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Manuel. Customer: Hi Liz. Agent: How may I help you?. Customer: Quick question We have SYS-1029P-WTRT with only one CPU What do we need to get to add a second cpu?. Agent: Please give me a moment while I check for you. The power

supply go with your server is PWS-706P-1R. Customer: I mean CPU, not PSU. Agent: Oh I'm sorry for my mistake I'm not sure which CPU currently you have, but it should be need the same one 2nd Gen Intel® Xeon® Scalable Processors and Intel® Xeon® Scalable Processors Dual Socket LGA-3647 (Socket P) supported, CPU TDP supports Up to 205W TDP, Dual UPI up to 10.4 GT/s. Customer: I mean heatsink Or any other component. Agent: Oh. I see. I would recommend contact with our technical support to check with them in detail. Support@Supermicro.com Tel: +1 408-503-8000. Customer: tks. Agent: You're welcome. Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hello. How may I help you? Hi Ben. . Customer: Hello. Agent: How can I help you? Hi Todd How can i help you today? today*. Customer: Hi Mark. Trying to find heatsinks that are compatible with the MBD-H12SSL-I board. Using an EPYC 7302 chip. Agent: Is possible to get the chassis sku or s/n?. Customer: In a 2U case. Case is the 825MBTQC-R802LPB. Agent: Thank you! Please give me second to look for one. We have SNK-P0063P <https://store.supermicro.com/2u-passive-amd-epyc-snk-p0063p.html>. Customer: Thank you. I thought that was the one, but when I he the check validity, it said not validated. But that could mean they just haven' tested it yet. Thank you again. Have a nice day. Agent: You're welcome. I had to do little digging to make sure its the correct one. It was nice talking to you. Have a great day, goodbye!. Customer: I bet. Just a note, the heatsink matrix needs updated for the newer boards. Doesn't have H12 in the drop down options. . Agent: I'll definitely note that down and pass it down internally!. Customer: Have a nice day! Hi. I'd like to purchase PWS-1K23A-1R. Agent: Hi Hung-Chang Let me check ffor you. Customer: Could you please advise inventory info or ETA of restock thanks!. Agent: How many were you looking for?. Customer: 38 or more. Agent: Ok I'll have to double check internally, but I believe we cannot support that quantity currently. I will have to email you back with an update on how many we can allocate. . Customer: OK. Thank you and please let me know the time frame of next restock. . Agent: You're welcome and for sure! Seems to be a popular item Can I help you with anything else?. Customer: I am good just checking on this PN#. Agent: Sounds good, I'll be in touch soon. It was nice talking to you. Have a great day, goodbye!. Customer: Thanks. Good bye. Agent: Hi John How may I help you?. Customer: add on card Fujitsu 9211-8i what are p[rices for this Cable (CBL-0176L-02) in the different lengths. Agent: Please give me a moment while I check for you. . Customer: thanks liz I will be using it for the above Super micro board and the the above mentioned controller. But I imagine it will be fine across a number of mb and controllers. . Agent: For the compatible between the motherboard and AOC, we cannot guarantee since the motherboard hasn't been tested with this AOC. For the price for different length with same cable above, we have the CBL-0097L-02 https://store.supermicro.com/supermicro-internal-minisas-to-4-sata-50-50-50-50cm-with-sideband-50cm-cable-cbl-0097L-02.html?queryID=4f4c207473d5aa067ae4ab7cbeeb5e56&objectID=539&indexName=supermicro_defau lt_products CBL-0237L -https://store.supermicro.com/supermicro-internal-minisas-to-4-sata-70-70-70-70cm-with-sideband-70cm-cable-cbl-0237L.html?queryID=4f4c207473d5aa067ae4ab7cbeeb5e56&objectID=537&indexName=supermicro_de fault_products CBL-0343L-01 - https://store.supermicro.com/supermicro-internal-minisas-to-4-sata-76-66-54-45cm-with-sideband-66cm-cable-cbl-0343L-01.html?queryID=4f4c207473d5aa067ae4ab7cbeeb5e56&objectID=572&indexName=supermicro_defau lt_products CBL-0476L - https://store.supermicro.com/supermicro-internal-minisas-to-4-sata-30-35-45-55cm-with-sideband-55cm-cable-cbl-0476L.html?queryID=4f4c207473d5aa067ae4ab7cbeeb5e56&objectID=572&indexName=supermicro_defau

0476l.html?queryID=4f4c207473d5aa067ae4ab7cbeeb5e56&objectID=2254&indexName=supermicro_default_products The connector of your AOC is miniSAS, May I know what is your backplane part number? I can double check the this is the right type cable for you. Customer: its going into a Fractal Design Define 7 XL so no backplane. Using this for an UnRaid server. . Agent: I see Is there anything else I may help you with today?. Customer: ok, I see the links you sent. Great. Thanks. Happy World back up day\!!!. Agent: Thank you! Same to you. It was nice talking to you. Have a great day, goodbye! Hi Denise How can i help you today?. Customer: Please quote price & delivery for a qty of 48 - PN M393A2K40CB2-CVF. Agent: Please give me second to check. . Customer: Thanks!. Agent: For qty of 48, each memory would be \$109 each. . Customer: I need the lead-time too please!. Agent: Please bear with me while i check internally. . Customer: thanks!. Agent: Is it okay if i can email you back at dsuhr@geospace.com with an update?. We are checking internally for the lead time. . Customer: yes please do!!! Thanks!. Agent: you're welcome!! Can I help you with anything else?. Customer: Yes, we are also needing a quote on 6pcs of Motherboard MBD-X11DPi-NT. Agent: Unfortunately we don't carry motherboard on our eStore. You can contact our Sale team at Sales-USA@supermicro.com Tel: +1 408-503-8000. Customer: ok. Agent: I just received update for the memories. Unfortunately, the memory MEM-DR416LA-ER29 is EOL. We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: I am wondering if you are able to get any stock of PWS-860P-1R2. Agent: Hi Laurie, let me check on availability How many were you looking for?. Customer: Up to 12. Agent: Ok I believe we can probably only get 5 pcs but I'd have to double check. Otherwise, you'll have to check with out resellers for this one. . Customer: 5 works if you can get them. Agent: Ok I'll check internally and have to get back with you via email . . Customer: That works! Thank you!. Agent: You're welcome Actually, just got an update We are out of stock with no ETA on this particular one unfortunately. Customer: Ok thank you. Agent: You're welcome Can I help you with anything else?. Customer: No we are good for now!. Agent: It was nice talking to you. Have a great day, goodbye! Hi Nathan. Customer: Hello, I thought my order came with a DVD drive. thanks. 1000024488. Agent: The DVD is the optional, unfortunately. Customer: I picked that option actually. Agent: Oh I'm sorry, Please give me a moment while I check for you. . Customer: Please, check..1000024488. Agent: I will need to check internally for this issue. Can I get back to you via chukueke@gmail.com?. Customer: yes, thanks. Agent: I'm sorry for this inconvenience. I will email you back as soon as I can Is there anything else I may help you with today?. Customer: No, I have few technical questions that I will ask tech support directly is need be. thanks. Agent: Sound good. #bue It was nice talking to you. Have a great day, goodbye! Hi Bart!. Customer: looking for 01-SC81360-XX00c102. Agent: How can i help you today?. Customer: see above. Agent: Please give me second to check. I see you are looking into buying rail set. We don't sell rails by themselves we sell by kits. I can help you find the right kit, I'll need your system or chassis sku. . Customer: this is for my client.. i cannot change the part number. Agent: I see. Let check internally if i can find the product with this part number. . Customer: thx. Agent: Unfortunately, I can't find any product with this part number. I help you find the compatible rail kit but i would need chassis sku or S/N. If you want the product SC81360-XX00c102 please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: yea, i got some guys.. thanks for your help. Agent: You're welcome! Is there anything else I may help you with today?. Customer: I am looking for the rubber screw/rivet to mount this fan Supermicro 40mm Axial Fan (FAN-0065L4). Agent: Hi Fan We don't sell any rubber screw or rivets unfortunately. Please check with our RMA team for this

at rma@supermicro.com. Customer: Thank you. Agent: You're welcome Can I help you with anything else?. Customer: No, that 's all, thank you. Agent: It was nice talking to you. Have a great day, goodbye! Hi Charles. Customer: Hi Liz. Agent: How may I help you today?. Customer: this model has two m.2 slots is it pci4. Agent: Is the AS-1114S-WN10RT what you are mention for?. Customer: can the two m.2 slot can be raid 1 yes. Agent: Yes, it is PCI-e 4.0. Customer: ok what about the raid for m.2. Agent: it should be with the RAID card. Customer: i need a firm yes or no please can you ask someone. Agent: I would recommend you check with our technical support on this at Support@Supermicro.com Tel: +1 408-503-8000. Customer: no one answer. Agent: did you call the number with option 2?. Customer: y. Agent: I see. I'm sorry for this inconvenience. I can check with them for you. Customer: i am calling right it hangup. Agent: May I know which M.2 Drive you are using for?. Customer: first i get a voicemail to hold on then it hang-up the call i'll try again right now. Agent: I see. It would be all of our technical supports are busy. Customer: press 1 i press 1. Agent: press 2 I believed. Customer: press 2. Agent: Yes Is there anything else I may help you with today?. Customer: help. Agent: I'm sorry. Is there no one answer your phone? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Shawn How can i help you today?. Customer: I would like to build a 2 socket system around the 523L-505B chassis , using the X12DPL-i6 MB, but it doesn't look like I can buy the MB though the store. It doesn't show up in the search I haven't searched for the chassis yet. Agent: I'm sorry, but unfortunately, we do not carry any motherboards or chassis by themselves on our eStore. Please check with our resellers and distributors for availability.
<https://www.supermicro.com/en/wheretobuy>. Customer: okay, that seems kind of pointless but okay. Agent: I am sorry for the inconvenience. We don't carry barebones. . Customer: I know it isn't on you, but that is kind of the point of hosting your own store Thanks for your help. Agent: We do carry systems that you can configure on our eStore. Have you had the chance to see what we have available on our eStore? <https://store.supermicro.com/system.html> Hello Jason, how can I help you?. Customer: I need a cooler for a supermicro MB MBD-X12DPL-NT6 for an intel LGA 4189. Agent: Sure, let me check for you Will this be in a Supermicro chassis or case?. Customer: No they were out of stock but it is in a 4U chassis. . Agent: Ok understood. Customer: Rosewill rsv-L400u L4000U. Agent: The compatible cooler heatsink for this motherboard in any chassis form factor is SNK-P0078AP4:
<https://store.supermicro.com/2u-active-cpu-cooler-snk-p0078ap4.html> Can I help you with anything else?. Customer: Nope. You are amazing! Thanks!. Agent: You're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: You too BYE! Jason viator left the following comment: Quick, helpful! have any promo code today?. Agent: Hi Guicho We don't offer any promo codes currently unfortunately. Customer: what is the difference between 1 and 2 rank ram. Agent: Hi Ivan A single-rank DIMM has one set of memory chips that is accessed while writing to or reading from the memory. A dual-rank DIMM is similar to having two single-rank DIMMs on the same module, with only one rank accessible at a time. . Customer: Thank you. For best performance should I use 1 or 2 rank ram i plan to get 8 32GB modules DR432MD-ER32 vs DR432LC-ER32. Agent: Generally single rank memory is faster than dual rank memory, but it would depend on the applications being used I'm assuming for motherboard X12SPO-NTF. Customer: correct i know this is not tech support question, but do you know who would sell your memory in Canada?. Agent: You can reference this and filter for Canada <https://www.supermicro.com/en/wheretobuy>. Customer: Thank you very much Kyle. Agent: You're welcome! Can I help you with anything else?. Customer: that was it thank you again. Agent: Hi Alfredo

How may I help you?. Customer: Hello Liz, Do you sale the screwdrivers with torque adjustment i need one to assemble a heatsink. Agent: I'm sorry, but unfortunately, we do not carry that product on our eStore. Please check with our resellers and distributors for availability.

<https://www.supermicro.com/en/wheretobuy>. Customer: instruction manual indicates that i should adjust torque to 12lbf-in there are no re-sellers in Mexico, i got 2 of your motherboards through new-egg, but they don't have the tools. Agent: I believed you can use your own tool to do that We don't sell tools for assemble unfortunately. Customer: Thank you Liz have a good one. Agent: You're welcome. Thank you. It was nice talking to you. Have a great day, goodbye!. Agent: Hi Brandon. Customer: Hi, how are you today?. Agent: I'm good. How are you? How may I help you today?. Customer: I am good, I am looking for a certain cable that I cant find anywhere CBL-CDAT-0601 I was wondering if I was just not good at looking or if there is an alternative I can use. Agent: I'm sorry, but unfortunately, we do not carry that CBL-CDAT-0601 on our eStore. Please give me a moment while I check for if there is alternative. The CBL-CDAT-0601 is 4 Pin to 4 Pin I2C cable, 50cm, 26AWG We have the CBL-CDAT-0674 which is 4 Pin to 4 Pin I2C Cable, 30cm, 26AWG It is shorter than the cable you are looking for https://store.supermicro.com/4-pin-to-4-pin-i2c-power-cable-cbl-cdat-0674.html?queryID=969fcbafbe6d5b4445ef82c121cc953c&objectID=2757&indexName=supermicro_default_products. Customer: yeah I saw that exact part number and wondered if it was compatible. I will give it a shot and see what happens. Agent: Sound good!. Customer: thank you for your help. Agent: You're welcome. Is there anything else I may help you with today?. Customer: nope, I am good. Agent: It was nice talking to you. Have a great day, goodbye! Hi Irving. Customer: Hi Liz. Agent: How may I help you today?. Customer: I was looking for a mechanical spec for the MCP-260-00011-0N part but I didn't find anything is this something possible to be shared?. Agent: Unfortunately, I'm not allow to share this information. You can contact our Sale team for this Sales-USA@supermicro.com. Customer: Ok Thanks!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: no that's it thanks!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: you too good bye!. Agent: Thank you! Hi Dmitrii. Customer: Hi Mark, I'm looking into ordering 4 of these guys <https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html> and when I add those to cart - it says that there is only 1 system available. Could you please confirm?. Agent: Unfortunately that is true, we only have one available. Customer: :(Are there other cases that can fit the same components?. Agent: Would you like to know the ETA. Customer: Yeah I'd love to. Agent: Can i email you back at dmitrii.galantsev@amd.com with the update for the ETA?. Customer: yeah sounds good this case has an E-ATX motherboard and a pretty large PSU. I'm trying to find a workstation (not a server) that can be shipped relatively soon. . Agent: AS -5014A-TT is currently the AMD work station server we have. Can i get your configuration? So i can see if there is anything similar. . Customer: yeah, let me send over a quote. . Agent: Thank you. I'll get back to VIA email as soon as possible. . Customer: No problem. Agent: thank you! Can I help you with anything else?. Customer: That's it! Have a good one mate. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Hi, I have a quick question about the compatibility of the SYS-740A-T computer with the Nvidia and AMD cards. . Agent: Hi Jian I've only seen compatibility or validation with Nvidia cards. Customer: Is SYS-740A-T compatible with quadro rtx 4000 and AMD Radeon Pro WX 2100? I mean Nvidia quadro rtx 4000. Agent: It seems to be qualified for the rtx 5000, not 4000 it is qualified for rtx A4000, A5000, A6000 <https://www.supermicro.com/en/support/resources/gpu> if you search for SYS-740A-T, you can see which GPUs are qualified. Customer: Got it. . Agent: Yup!. Customer: Just wanted to double check, does the qualified result means that the GPU has been tested on the computer?. Agent:

Correct, it's been tested and proven to work with this workstation. Customer: If the box is not checked, does it mean that the GPU has been tested and cannot work with the workstation?. Agent: Correct for the most part. I would stick with what's been qualified because even if you use a non-qualified GPU that could work, we cannot guarantee 100% it will work properly. . Customer: Got it. Do you also have the data for AMD GPUs?. Agent: We don't unfortunately. Customer: Got it. Thanks!. Agent: You're welcome Can I help you with anything else?. Customer: Just another question. What do the V100, V100S, M10, T4(70W) on the top row in the table within the website you sent just now?. Agent: They are just a different type of GPU. Customer: On my end it looks like nothing is checked for SYS-740A-T. Agent: Yeah its not validated your workstation. Customer: where did you find the information for rtx5000, rtx A4000 and rtxA5000 ?. Agent: you have to go to the 2nd tab PCI-e Active-cooling. Customer: Ah, got it. Just an extra question, what does GPGPU mean? Sorry about asking such kind of native questions. . Agent: A GPGPU are used for addressing scientific computing needs rather than rendering images like you would think GPUs are used for Are you planning to purchase a SYS-740A-T from the eStore?. Customer: Yes. That is what I am trying to do. . Agent: Ok sounds good. Customer: I found in the Add on Cards configuration tab there are only two NIVIDA GPU available. The physical size of those two GPU are too large for our application. Agent: Meaning too powerful? or physical? physically. Customer: We need to add a lot of PCIe cards into the computer so we want a GPU only occupies one PCIe slot. . Agent: Ok understood. Let me check what other options for GPU are available. . Customer: We are trying to build a data acquisition system based on that computers. Sounds good. . Agent: Oh I see. Please give me a moment while I check It looks like the only ones available currently are the RTX 5000, 8000, and A4000-6000 unfortunately. which are all double PCIe slot. Customer: Got it. Thanks. . Agent: You're welcome. If you're ok with the A5000 or A6000, you can add them to your configuration. The only other available GPU options are the 5000 and 8000 If you don't need the GPU, you don't have to add one. . Customer: Do you sell RTXA4000 in the estore?. Agent: Let me check for that one. Customer: RTXA4000 looks like a single slot one according to Nvidia website. <https://www.nvidia.com/en-us/design-visualization/rtx-a4000/>. Agent: It looks to be out of stock with no ETA unfortunately so all we have available is the RTX A5000 and A6000 currently. . Customer: Got it. Thank you!. Agent: Np! Hi Mike. Customer: PWS-802A-1R. Agent: How may I help you?. Customer: Do you have abve available?. Agent: Please give me a moment while I check for you. . Customer: Ok waiting. Agent: We currently have this in stock <https://store.supermicro.com/800-1u-pws-802a-1r.html> How many do you want?. Customer: 1 for now How much is it? Condition? ETA?. Agent: \$253.92 each and brand new. Customer: Please let me know. Agent: <https://store.supermicro.com/800-1u-pws-802a-1r.html> You can add 1 to your cart. It's available now. Customer: Thanks for the help. Agent: You're welcome. Can I help you with anything else? Hi Brennen How can i help you today?. Customer: I'm just looking for SYS-5029C-T on the eshop and I can't seem to find it. do you currently sell the system?. Agent: Unfortunately, we don't carry this system on our eStore. . Customer: is it like a too new sort of thing or its just not sold on the estore?. Agent: Just something we don't sell. . Customer: alright thank you. Agent: Is there any system on our eStore that you are interested?. Customer: is there anything similar? it could be in a full tower. . Agent: Please give me second to check. We have SYS-5039C-T <https://store.supermicro.com/supermicro-superworkstation-mid-tower-sys-5039c-t.html?utm=smcpp>. Customer: Alright, thank you I will check it out. Agent: Of course, if you need any help with configuration feel free to let us know. Is there anything else I may help you with today?. Customer: No, that was it thank you. Agent: you're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: Is this memory compatible with a Dell Poweredge T150. Agent: Hi Reiner Which memory?. Customer: MEM-DR432L-HL01-EU29. Agent: We don't validate with non-

SMC servers or workstations, but let me check on paper. Customer: Thank you. Agent: As long as its UDIMM, it should work. The only thing I'm not sure about is if it supports ECC memory. You'll have to check with Dell on that. . Customer: It does support ECC. Agent: Oh ok sounds good then. Customer: Thank you for your help. Agent: You're welcome Can I help you with anything else?. Customer: No that's it. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: you too. Agent: Hi Wenrui. Customer: hello I placed an order on Monday, but got an issue with the payment. Agent: May I know what is your order number?. Customer: 1000024549 I chose ACH, but never get any small amounts in my bank account to verify. Agent: Did you click the link in the email which we sent you after you purchased the order?. Customer: I got an email. Agent: oh I'm sorry you didn't see the deposit yet I will need to check with internal for this issue. May I email you back via roger@gnor.net when I got the answer?. Customer: sure. thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: I'm good. Agent: I will email you back as soon as I can. It was nice talking to you. Have a great day, goodbye!. Customer: thanks bye. Agent: Hi Alexander How may I help you?. Customer: Hello, I was wondering if it would be possible to change order #1000024577 from ACH to credit card (as the processing is taking a while). Agent: I'm sorry, we cannot modify your order. I would suggest cancel the order and place the new order again. Customer: Sounds good to me, however I do not see an option to cancel the order. . Agent: I see. we can help you cancel the order. May I confirm your billing address please?. Customer: 625 N Euclid Ave, Apt 203, St. Louis, Missouri 63108. Agent: Thank you for your confirming. I will request the cancel for you. Can I help you with anything else?. Customer: There is nothing else, thank you. Agent: FYI, we only have 1 AS- 5014A-TT left. Please place the order again at your earliest convenience. It was nice talking to you. Have a great day, goodbye!. Customer: Hello, are you still there?. Agent: Yes. Customer: Would it be possible to not cancel this order it seems you do not have the processor in stock to reorder?. Agent: I already request the cancel. It would take an hour to process. Please give me a moment while I check the inventory for you. Please bear with me for a few more minutes while I check for you. . Customer: Sure. . Agent: Can you please try again? I already fixed the inventory for you. Customer: Yes, I am placing the order now, thanks!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Deepak How may I help you today?. Customer: Hello Liz we have this supermicro server rack which is not turning on. The supplies are connected. However when we press the reset button the server is not turning on The LED in the backside of the server show orange which indicated the supply is on May i know what is the issue. Agent: Please give me a moment while I check for you. . Customer: Ok sure. Agent: I'm sorry, in this case I would recommend you check with our technical support in detail to clarify what is happening. Support@Supermicro.com Tel: +1 408-503-8000 Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Daniel. Customer: hi liz!. Agent: How may I help you?. Customer: I work for a managed service provider and have a few servers here that we dont know what the processor is, would you be able to help me find that information?. Agent: Do you happen to have the serial number of your server?. Customer: i think they are older but let me see yes i have the number here WM20AS003103. Agent: Great! Thank you! Please give me a moment while I check for you. I'm sorry, it doesn't allow me to check the CPU from the motherboard serial number. Customer: would the chassi number make a difference? I see a sticker on here that says serial number. Agent: I can try. Customer: 1116180 not sure if that will help or is correct. Agent: I don't think it is the serial number since it doesn't show any information on my end. You can

check the serial number guide here <https://www.supermicro.com/en/support/rma/sn>. Customer: let me check if its on the rear io. Agent: Thank you. Customer: would c813mlj37p40696 work?. Agent: Please give me a moment while I check for you. I'm sorry, this is the serial number of the chassis only. It doesn't show any information of the CPU for me 😞. Customer: rats! all good! ill either get to disassembly/hooking it up and see what comes of it. Agent: I would recommend you to check with your sale rep. Customer: thank you for your time!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: you as well!. Agent: Thank you! Hi Barbara. Customer: Hi. We need to place an order for Super Micro X10SDV-TLN4F. Can you provide price and lead time. Agent: I'm sorry, but unfortunately, we do not carry any motherboard on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: hello. Agent: Hi Michael How can i help you today?. Customer: How do I get the product trial key? I would like to update system bios via IPMI but it is required the product key. . Agent: I see did you purchase OOB or DCMS?. Customer: I think we don't have How do I get just a trial key?. Agent: Please give me a moment to check. . Customer: ok I need to reset system bios, but I followed your manual, but it does not work. . Agent: In order to update the BIOS via IPMI you would have to purchase OOB. . Customer: I got an article. You can provide temporary key. I just use one time. I don't need oob. Agent: Unfortunately we don't access to provide temporary key. Please contact our Sale team at Sales-USA@supermicro.com to see if they can help Tel: +1 408-503-8000 They can help with temporary key. . Customer: I have a question. How to clear CMOS password for X9DRI-LN4F I followed your instruction as I posted the screen shot. but it does not work Then, do you have any idea to remove CMOS password. ?. Agent: Please bear with me while i check internally for this motherboard. . Customer: Thanks My screen shot is very clear how to clear CMOS. But it does not work. Agent: When you removed battery, how long did you remove it for?. Customer: 30 seconds How long is your recommendation?. Agent: 30 seconds maybe be to short. Try for at least 2 minutes. . Customer: Really?. Agent: We had someone with similar problem and tech recommended for that time. Customer: I would like to make sure how to clear cmos step 1. unplug powrcord and then remove cmos battery step 2. After 2 min, Plug Powrcord and short JBT1 without CMOS battery. Step3. Press Power Button Step4. Power Off and then put the battery back to seat. is that correct?. Agent: Yes that is correct. If you continue to have problems please contact Tech Support: Support@Supermicro.com Tel: +1-408-503-8000. they can duplicate your problem to help find the solution. . Customer: Ok. Thank you so much. I will try it again. . Agent: You're welcome! Can I help you with anything else?. Customer: That's it. thank you so much. Have a great day. Agent: Thank you! It was nice talking to you. Have a great day, goodbye!. Customer: Michael Song left the following comment: The support was very professional. I am looking at a model SYS-7049A-T server. Do these come with an OS, or is that something I have to add later, like Windows server?. Agent: Hi Terry We should be able to include install an OS like Windows if it's not an available option on our eStore Yeah it doesn't show for that one, but which version of Windows were you looking to add? There's Windows 10 and 2019 available for this. Customer: We would be looking at Windows Server 2019 or 2022. . Agent: 2019 has 3 versions ahh 2022 may not be qualified on this system, so I'll have to double check internally if you want that. Customer: That's not a big deal. I just wasn't sure if the system came with its own operating system. . Agent: Oh ok understood. We should be able to do a pre-configured workstation for you to include Windows 2019 since 2022 is not available There's datacenter, essential, or standard version. Customer: The essential is what we were looking at. . Agent: Ok sounds good, we can put something together for you if you can provide all the specs for CPU, memory, storage for me Ok got it thanks I can put this together with the OS and provide you a pre-configured link. Customer: That is what I had

currently configured. We would purchase in the next couple of weeks and I was going to call when ordering to make sure I had the configuration correct. . Agent: Oh ok, no worries. When you're ready, I can provide it in the next couple of weeks. Customer: We currently have a couple WD PR4100's, so this is a big jump from those, and I have not ordered an actual server like this before, so there may be better selections for us. . Agent: That's understandable. Customer: We are trying to budget the upgrade. The model with the options I have selected is roughly \$4520, do you know what the additional cost would be to add and install the Windows Server 2019 essentials?. Agent: Let me check It looks to be an extra \$363. Customer: Ok, cool. That gives me a rough number to provide to my boss. . Agent: Sounds good. I can touch base with you next week with the pre-configured link with all the components included with pricing if that works for you. . Customer: That would be great. terry@tomahawkengineering.com Thank you!. Agent: Great, will send you an update next week then. Can I help you with anything else? Were the 4 drives in a raid configuration?. Customer: Yes Raid 5. . Agent: Ok just wanted to make sure. It didn't show up on the screenshot you provided Ok I have everything Is there anything else I may help you with today?. Customer: That was it. Thanks again. . Agent: You're welcome! It was nice talking to you. Have a great day, goodbye! Hi Dmitrii. Customer: Hi Liz, we've submitted an order for 4 of these: <https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html> but as I understand you guys only have 1 in stock? Do you ship partial orders? sorry I can't get an order number on short notice, it's through some internal AMD system. . Agent: You can place 1 system at the time since we don't do back order. Customer: Ah I see, thank you! that's it, i'll work it out internally :) Thanks again. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Tony How can i help you today? Are you looking into a 2TB NVME?. Customer: 2TB NVME M.2 Gen4 SSD: 2 low cost option yes, can you suggest 2 with low cost. Agent: Can i get the system you want to use this for?. Customer: no current system, it will be for spare part. Agent: Please give me second to check. Unfortunately we dont carry any SDD on our eStore. I am sorry for the inconvenience Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: hi what number can i dial?. Agent: Hello Herbey We don't have a phone number for the eStore, just live chat and email support. . Customer: X10SDV-8C-TLN4F+ do you sell this item?. Agent: I'm sorry, but unfortunately, we do not carry any motherboards on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Or you can contact Sales-USA@supermicro.com Can I help you with anything else? Hi Ben How may I help you?. Customer: Hello, we have a Supermicro quad host with a failing disk. ST600MM0026 would you be able to suggest an 'in-life' alternative?. Agent: May I know your motherboard/server part number, please?. Customer: X10DRT-P. Agent: Thank you! Please give me a moment while I check for you. Is that you want the Seagate 2.5" 600GB SAS 6Gb/s 10K RPM 64M alternative drive?. Customer: yes or a larger capacity should be OK also. Agent: I only can find the compatible SATA drive from our end since there is no SAS drive has been tested with this motherboard I cannot recommend the invalidated drive since I cannot guarantee it will be work for you you. Do you interested in SATA drive?. Customer: OK yes I'll have alook. Agent: Thank you. Please give me a moment while I check for you. Supermicro (Seagate) 1TB 2.5" 7200RPM SATA3 6Gb/s 128M Internal Hard Drive (HDD-2T01T-1NECR) <https://store.supermicro.com/1tb-hdd-2t1000-st1000nx0423.html?utm=testedhddbutton> Supermicro (Seagate) 2TB 2.5" 7200RPM SATA3 6Gb/s 128M

Internal Hard Drive (HDD-2T02T-1NECR) <https://store.supermicro.com/2tb-hdd-2t2000-st2000nx0403.html?utm=testedhddbutton> You can also check other 2.5" drives that is compatible with your motherboard here:

<https://www.supermicro.com/en/support/resources/hdd/display?ctrl=74&Category=MB&sz=2.5&id=0ce5ee65616277a926f11e9007cefaf4&NVMe=0>. Customer: thank you, well check those out. Agent: You're welcome. Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com

Hi Kyle. Customer: Hello Mark. Agent: How can i help you today?. Customer: I was wondering how long it will take to ship if we bought the AS -5014A-TT build with a AMD Ryzen Threadripper Pro 64-Core cpu. Just ensuring the cpu is not back ordered. Agent: Please give me a moment to check. . Customer: Okay, thank you :). Agent: System should ship either next

Monday/Tuesday Can i ask for how many systems you are thinking of purchasing?. Customer: Oh nice. also it seems the ram, 64GB DDR4 3200MHz is limited to only 4 atm. Is it possible that you have 8 in stock to total 8 TB. Just 1 512 Gb opps. Agent: Please give me second to check stock for that memory. We have updated the memory, there should be enough for 8. . Customer: Okay cool. Thank you for your help. . Agent: I do want to mention we only have one left of this system. . Customer: Okay, I will keep that in mind. :) Thank you. Agent: Of course. You're welcome! Can I help you with anything else?.

Customer: Nope, that is all. Thank you. Have a good day. . Agent: Thank you! It was nice talking to you. Have a great day, goodbye!. Customer: i need to determien what the tax and shipping will be for the

following product when i click to add the item to the cart to get to the check out page, the site directs me to speak with a store rep. Agent: Hello Tyler. Customer: Supermicro 2U Ultra SuperServer (SYS-6029U-TR4). Agent: Ok let me double check And when you add to cart, I assume you're logged in?.

Customer: i am not logged in. Agent: Please log into your account and try again. Customer: okay i may need to create an account sothis may take a minute. Agent: Ok I believe you might have an account with this email address already. Customer: okay im logged in i need to reconfigure the order now. Agent: Ok I'll be here if you still have trouble just in case. Customer: this is the error i get just need to get to the check out so i can snap shot the total price that inclues taxes and shipping. Agent: Oh ok, give me a moment, we should be able to update those Please bear with me for a few more minutes while I check for you. . Customer: no worries. thanks. Agent: Thanks for waiting. Can you try adding to cart again?.

Customer: its loading. Agent: Ok. Customer: all good now. thank you!. Agent: Were you able to get to the shipping/payment?. Customer: yes thank you!. Agent: oh great! you're welcome Can I help you with anything else? Hi Jonathan How can i help you today? Do you have any questions about SYS-240P-

TNRT?. Customer: Good afternoon, I would like to know which network cards are compatible with the MP SuperServer SYS-240P-TNRT?. Agent: please give me second to check. . Customer: I need to know if it has compativity with a 100GB one. Agent: Okay thank you. Looking into that right now. For 100GB we have two that are validated. AOC-623106AN-CDAT, AOC-S100G-b2C,. Customer: Can I ask you other questions about this server?. Agent: If you to go the system product page, there is option for Tested AOC list. That's where i found the network

<https://www.supermicro.com/en/products/system/mp/2u/sys-240p-tnrt> Of course, what questions do you have?. Customer: which disk controller should I use to have a full storage of this server and which hard disks are compatible with the server in size. Agent: Please give me second to check for this. To find compatible drive you'll go on the system specs page

<https://www.supermicro.com/en/products/system/mp/2u/sys-240p-tnrt>. There is option "Drive

options" under Resources. When you click on that you can chose what type controller and it gives you all validated drives. . Customer: yes correct, but it does not display anything. Agent: After clicking on the "Drive options" you should see this click see the listing You can choose which type of controller and it gives you drive list

<https://www.supermicro.com/en/support/resources/hdd/systemhdd?ProductID=87336&ctrl=74>.

Customer: sorry, now if you load one last question, this processor is compatible with this server : Intel®

Xeon® Platinum 8380 Processor 60M Cache, 2.30 GHz. Agent: This server can do up 24x 2.5" hot-swap NVMe/SAS3/SATA3 drive bays. Checking for the CPU compatibility. The CPU you mentioned its a 3rd Gen Intel® Xeon® Scalable processors, This server is validated for 3rd Gen Intel® Xeon® Scalable

processors. Can I help you with anything else?. Customer: ok thank you very much for everything. Agent:

Of course! you're welcome! It was nice talking to you. Have a great day, goodbye!. Customer: Jonathan

left the following comment: The best! Hi, I have a quick question about the operating system. If I purchases a workstation with a HDD, a SATA SSD and a M.2 NVMe SSD, which disk will the operating system be installed? I mean I purchase Windows 10 professional from the eStore at the same time. .

Agent: Hi Jian. Customer: Hi, I have a quick question about the operating system. If I purchases a workstation with a HDD, a SATA SSD and a M.2 NVMe SSD, which disk will the operating system be

installed? I mean I purchase Windows 10 professional from the eStore at the same time. . Agent: You would just let us know where you want the OS to be installed on typically its installed on the M.2 among

these options. Customer: Oh, where can I leave a note on the when I place the order? I am going to

purchase a SYS-740A-T I want to install the operating system in the SATA SSD. . Agent: There's no actual place to put a note in, but I'll note it down for you. Ok got it. Customer: The M.2 SSD is plan to be used

as the data acquisition storage so I don't want anything to be putted in the M.2 NVMe SSD. . Agent: No worries, understandable. Customer: By the way, is it possible to get in touch with you after I generate

the quote? Because, the computer will be purchases through our university I kind of worry that the person who purchases the computer will not use my name. Maybe the quote number would be a more

reliable way to track the order. . Agent: You can either go through live chat here or just email estore-support@supermicro.com When the order is placed, we can provide you the order# too. Customer: Got

it. I also want to double check, will the work station includes the accessories (e.g. power cables) used for the PCIe expansion card?. Agent: Let me double check Ok everything should be there, but a fan would

needed to be added for cooling purposes that you can purchase separately when the time is needed. It would be 1 x FAN-0182L4. Customer: Just wanted to double check, the fans shown in this image will be

included, right? These fans will also be included, right?. Agent: That is correct This would be an

additional fan You can actually see it being added to the configuration when you add a GPU on the eStore. Customer: Sorry, I am a little confused. How will the additional fan be added to the computer? I

will have to purchase a Nvidia rtxA4000 gpu externally so I think I might have to install the fan by myself. . Agent: Give me a moment while I check It looks like you'd have to swap the existing middle fan

with the newer one to be able to support the GPU because of heat issues. Customer: Do you mean the three green hot-swap internal fans?. Agent: Yeah that is correct. Customer: Got it. One final thing. Do I

need to purchase one additional fan for each GPU I installed in the system? Or no matter how many GPU I installed, I only need to purchase one additional fan?. Agent: That is a good question, it looks like

our configurator only allows for 1 GPU so only 1 fan is needed. I would think another would be needed but I'll have to check internally with the team on that. Customer: That would be great! Thank you. By the

way, could you email me result when they come back to you? I will have to attend a meeting now. My email address is jian.zhong@berkeley.edu. . Agent: Sure sounds good. Customer: Could you also help me

ask which one of the green hot-swap internal fans shall I replace as well? Because there are three of them in the image, I wanted to make sure that I swap the correct one. Thank you. . Agent: I believe you would want the replacement fan in front of where the GPU would be installed at. For our configuration, the GPU slot was slot 5 so it would make sense to have the higher RPM fan directly in its path I can double check since I'll be asking internally for the dual GPU set up I can email you once I get an update Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Chris How may I help you?. Customer: Hello. I am trying to buy SFT-OOB-LIC for my blades (SBI-4129P-T3N) so I can do things like update their BIOS from the BMC GUI. However, that server P/N does not show up in the list of server P/Ns to choose when purchasing that license. Is there some other license that I should be using?. Agent: Please give me a moment while I check for you. . Customer: sure. Agent: Can you try to type your motherboard at the select your motherboard area? MBD-B11DPT-P It should appear the selection for you. Customer: Ya, uhh, that it what I tried before contacting you. I have purchsed this license for different hardware before, I know how the process works. It just doesn't have SBI-4129P-T3N in the list. . Agent: I understand that. Can you please try "MBD-B11DPT-P"? Sometime it cannot find your server but can find your motherboard You can check your motherboard part number here <https://www.supermicro.com/en/products/superblade/module/SBI-4129P-T3N.cfm>. Customer: I see, I misunderstood. Thought I had copy/pasted the MB part, but had the server part # instead. . Agent: Yes, just ignore the "Super" part Sorry for the confusion. Customer: Thanks, it's working fine. have a good day. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Thank you Hi Jonathan. How can i help you today?. Customer: Good afternoon mark, again a question, the server comes with all its internal connection cables ? and where could I contact you to make a purchase of this equipment ?. Agent: We don't carry this system on our eStore. What cable are you looking for?. Customer: My question is if when I buy the server directly from you it comes with all the necessary cables ? sorry for my bad English it is not my native language. Agent: Yes it should come with all the cables. Unfortunately we don't carry this system on eStore so you wouldn't be able to purchase this from our store. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> You can try contacting our Sale team at Sales-USA@supermicro.com to see if they can help with server order Tel: +1 408-503-8000. Customer: ok thank you. . Agent: You're welcome Can I help you with anything else?. Customer: no, thx mark. Agent: It was nice talking to you again Jonathan. Have a great day, goodbye!. Customer: Hi Liz. Agent: Hi Chad. Customer: im trying to understand which Drive Tray will allow me to use an SSD in the supermicro 815-7. Agent: May I know the full part number of your chassis?. Customer: how can i find that?. Agent: You can follow this link to find the serial number/part number of your chassis <https://www.supermicro.com/en/support/rma/sn>. Customer: okay one second. Agent: Sure, please take you time. Customer: C8150LD09MJ0377 CSE-815. Agent: Thank you! Please give me a moment while I check for you. Your chassis part number is CSE-815TS-R700WBP. You can use the 2.5inch adaptor tray part number: MCP-220-00043-0N <https://store.supermicro.com/mcp-220-00043-0n-1482.html> Is there anything else I may help you with today?. Customer: chad canceled the chat rating chad left the following comment: Thank you! Hello, how could I switch my order from pending ACH payment to credit card?. Agent: Hi Wenrui. Customer: The order number is 1000024549. Agent: We would have to cancel the original order and then you would to place a new order with credit card. . Customer: ok, please

cancel it. thanks. Agent: Ok will do Can I help you with anything else?. Customer: I'm good. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: you too bye hello, please don't cancel my order 1000024549 I just found the cpu in my order is not available if I make a new one. Agent: Hi Wenrui, give me a moment while I check Can you try adding the CPU to your order again?. Customer: <https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html> There is no choice for 32-core CPU. . Agent: Ok I believe we have to cancel the original order as well? We did update inventory but it may take 15-30 minutes to show up. Customer: maybe I could wait on the ACH payment I'm waiting on the micro-deposit of the ACH payment you mean you have no inventory but the one I ordered?. Agent: Once we cancel the original order, the inventory should free up I mean. . Customer: ok. please go ahead cancelling then. Agent: Ok will do I'll email you once it has been. Customer: thanks. Agent: You're welcome Can I help you with anything else?. Customer: I'm good bye. Agent: It was nice talking to you. Have a great day, goodbye! Hi Chris How can i help you today?. Customer: I recently received the two servers that I ordered from the estore. Order #1000024037. The Intel VROC RAID and the NVMe disks are not compatible with our operating system (vmware) and I need to return or exchange the VCROC key and NVMe drives for ones that will work with vmware. I've been speaking with Andy in tech support and also have been contacted by the rma department. . Agent: Please give me second to look into this. . Customer: OK. Agent: I just received an updated from internally. They are currently working on your return for NVMe and VROC, they'll try to get it done as soon as we can and email you at chris@mcneel.com with an update. . Customer: Yes, but that was for a return of the VROC chip and the NVMe drives. I would like help choosing replacement SATA or SAS disks and a RAID controller. I didn't think that the RMA department would be able to help me with that decision. FYI, I have not filled out the RMA form that they asked me to, because I'm not clear what viable exchange options I have. . Agent: I see. Please bear with me while i look to find you replacement. We are currently processing your return and unfortunately we won't be able to do any exchanges (for different product). Customer: I haven't even filled out the RMA form yet. In any event, I still need help identifying a RAID adapter and new disks that are compatible with my operating system and your server. . Agent: We can help you find the compatible RAID adapter and new disks but you'll have to purchase it some where else. Is it okay if i email at chris@mcneel.com with the compatible parts. . Customer: I can't purchase those items from the eStore?. Agent: Unfortunately we don't carry those items on their own on our eStore. . Customer: Understood. You can email me compatible parts. . Agent: I am sorry for the inconvenience. I'll email with the compatible parts. Can I help you with anything else?. Customer: Can I speak with your PM? Andy in tech support said I should ask to have him call me. . Agent: Is this to speak about compatible parts?. Customer: The whole mess. Being sold two systems that aren't compatible with vmware. Whether we should return just the NVMe disks or the whole servers, etc. . Agent: I see, apologize for all this. Please give me second to check internally. . Customer: Thank you. . Agent: The best option is submit the RMA to return VROC & NVMe. I am looking to find you compatible RAID adapter and new disks. For P, I'll have to ask if it's possible to their information. I'll once i get any update and about the compatible parts. For PM* I'll email once I get any updates and about the compatible parts. . Customer: OK. To me, it doesn't make sense to complete an RMA if I haven't identified what the replacement components will be. I'll take that up with the RMA department. . Agent: Okay. let me find the compatible parts and i'll email you. i want to make sure i get the correct parts. . Customer: My understanding from talking with Andy in tech support is that the NVMe disks are not supported by vmware, so we're looking to replace the NVMe disks with SATA or SAS SSD's and good performing RAID card. I especially need help with cable kits. . Agent: Are you looking for similar capacity

size like the NVMe you ordered 2TB and 4TB?. Customer: Yes, perhaps 6TB if that's an option. would depend on price and availability. . Agent: Okay thank you. i'll look into the validated options and email you those. . Customer: OK. Agent: Is there anything else I may help you with today?. Customer: NO. Agent: I'll be in touch with you soon. Thank you for your patients! It was nice talking to you. Have a great day, goodbye!. Customer: Hello, would you please suggest if I can buy this server(s) in Canada?. Agent: Hi Andrew I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability since we don't carry this server as well. <https://www.supermicro.com/en/wheretobuy>. Customer: Ok, got it. Thank you :) Hello. Agent: Hi Stefan How may I help you?. Customer: I need 4x <https://store.supermicro.com/32gb-ddr4-2933-mem-dr432l-hl01-eu29.html> Shipping to germany. Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors in Germany for availability. <https://www.supermicro.com/en/wheretobuy> Is there anything else I may help you with today? Hi Daniel. Customer: Hello Liz. Agent: How may I help you?. Customer: Looking for a rail kit for some servers what is on the server product page won't work we have a 4 post rack that is 36" deep. Agent: Is that for this system SYS-1019D-14CN-FHN13TP?. Customer: yes do you have a part number that will work for that server?. Agent: Please give me a moment while I check for you. Please bear with me for a few more minutes while I check for you. Can I email you back via daniel.ash@sscinc.com? I will need to check internal for looking to the compatible rail with can fit your post rack We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Jonathan. Customer: Good afternoon Liz, how are you?. Agent: I'm great. How about you? How may I help you?. Customer: Liz a question about this server MP SuperServer SYS-240P-TNRT I was looking for disk controller compatibility and saw several which tell me they are compatible with this server. I am fine, thank God. Agent: Yes, and your question is?. Customer: It tells me that this AOC-SAS3-9361-24I card is compatible but the server is only compatible with 2.5 hard disks and this controller shows me that it only supports 3.5 HDD disks. . Agent: Please give me a moment while I check for you. . Customer: ok I would like to know if this disk controller is compatible with 2.5" disks, if so, could you please provide me with a 2.5" model with a larger capacity so I can find out please. . Agent: Can I email you back via jonathanok09@gmail.com?. Customer: yes. Agent: Thank you! I will email you back as soon as I can for this Is there anything else I may help you with today?. Customer: Liz one more question I have the intention to set up a server with you I would like to know if I could consult with you to see if all the devices to buy are compatible to set it up correctly. this with the intention of not buying something that I will not be able to use later on. . Agent: I see. Unfortunately, we do not sell this server on our eStore. You would have to purchase it from our resellers or distributors. For more technical question, I recommend you check with our technical support department Support@Supermicro.com. Customer: yes right, that's why I want to buy the things that you have compatible with the server since you are the direct company and then look for the minimum that I can with your suppliers. . Agent: Understandable May I know what type of controller card are you looking for?. Customer: this AOC-S3916L-H161R-32DD+. Agent: This is the list of all 2.5" drives that can run with this AOC <https://www.supermicro.com/en/support/resources/hdd/systemhdd?ProductID=87336&ctrl=84>. Customer: ok thanks liz, and those disks are compatible with the controller I just passed you?. Agent: yes. Customer: great thanks liz for your help. Agent: No problem! Is there anything else I may help you with today?. Customer: I was just missing this thank you very much, well a question when I buy these

controllers come with their cables for connections ?. Agent: I don't think so, you might need to purchase the cable separately. . Customer: and which cable should I buy to connect AOC-S3916L-H16IR-32DD+ to the server?. Agent: Please give me a moment while I check for you. The cable should be MiniSAS to MiniSAS HD cable <https://store.supermicro.com/supermicro-minisas-to-minisas-hd-80cm-cable-cbl-sast-0507-02.html> this type of cable to connect the controller card with your backplane. Customer: ok perfect 1 only would need ?. Agent: Please check the backplane manual here <https://www.supermicro.com/manuals/other/BPN-NVMe3-216N-S4.pdf> It will depend on how many drive you want to install. Customer: I will install the 24 hard disks I understand that the disk controller reads all 24 disks, I don't know if you can validate this information please. . Agent: oh Please give me a moment while I check for you. Unfortunately, I don't have the cable for this controller and the backplane to connect all 24 drives. I would recommend you check with our technical support for more detail Support@Supermicro.com Tel: +1 408-503-8000 Is there anything else I may help you with today?. Customer: Ok, thank you very much for everything, Liz. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Jonathan left the following comment: The best!. Agent: Hi Jason. Customer: Hi I need some help possibly finding the right part, and not sure if the eStore sells it or not I have the SuperChassis 504-203B which has the motherboard - X11SBA-LN4F in it I am looking for the riser card for the pci slot to align with the chassis. Agent: I see. Please give me a moment while I check for you. Please bear with me for a few more minutes while I check for you. All I have for the PCI e slot is up to 1x Full-height, Half-length expansion slot(s). I would recommend you to check with our technical support at Support@Supermicro.com Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Tracy How can i help you today?. Customer: I am looking for replacement HDD trays for this server. Do you offer them?. Agent: Please give me a second to check. Customer: thanks I have searched for a p/n with no luck. Agent: It would be MCP-220-00075-0B <https://store.supermicro.com/mcp-220-00075-0b.html> If you look at the chassis for this system <https://www.supermicro.com/en/products/chassis/tower/721/SC721TQ-250B> it's under componets. . Customer: That is a different server, but they will work in the 5028D-TN4T. Agent: The page i sent you is chassis for the server SYS-5028D-TN4T <https://www.supermicro.com/en/products/system/midtower/5028/SYS-5028D-TN4T.cfm>. Customer: awesome. Thanks. Agent: of course! You're welcome! Can I help you with anything else?. Customer: good to go. thanks. Agent: It was nice talking to you. Have a great day, goodbye! Hi Eric How can i help you today?. Customer: Hello - I need to find thi spart - Supermicro PDB-PT745-8824. Agent: Please give me second to look. . Customer: ok. Agent: I am sorry we don't carry this power distributor on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: where can I find it ?. Agent: Can i ask for what system is this for?. Customer: cse-745. Agent: It seem like that is the only one validated for this chassis. Please try with our resellers. . Customer: can you send me to someone. Agent: You can contact our Sale team at Sales-USA@supermicro.com to see if they can help Tel: +1 408-503-8000. Customer: ok ty. Agent: Can I help you with anything else?. Customer: no gb. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: do you have that board in stock?. Agent: Hi Julio I'm sorry, but unfortunately, we do not carry any motherboards on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: i've check with

three different distributors. all tell me NO LEAD TIME. Agent: Must be really limited or there's a shortage then You can try contacting our Sales team at Sales-USA@supermicro.com Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Jill How can I help you today?. Customer: Hi, can you please forward the ROHS and REACH documentation for part number MCP-290-00060-0N (Square to round hole adapter for slide rails). Agent: I will need to check with internal department for this. Can I get back to you via Jill.Barlow@collins.com as soon as I have these document?. Customer: Yes, that's fine. . Agent: Thank you. Is there anything else I may help you with today?. Customer: No, that's all. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Thank you for your help!. Agent: You're welcome. Hi Gary! How can i help you today?. Customer: we are interested with superserver SYS-740GP-TNRT. Agent: I see, it currently shows that its out of stock. Do you have an account with us?. Customer: when will you think available? we usually buy through distributor asi. Agent: i see, if you make an account with us you'll be able to get access to our servers on out eStore. <https://store.supermicro.com/customer/account/create/>. Customer: ok. i will take a look. Agent: Let me check the ETA for SYS-740GP-TNRT. Once you make the account please let me know so we can enable your account. . Customer: i create an account. Agent: Did you use gary@gnyi.com?. Customer: yes. Agent: Please give me a moment. You can access our System tab now once you log out and log back in. <https://store.supermicro.com/customer/account/login/>. Customer: yes. i am in now. Agent: Awesome. those are the systems we currently have on our eStore. . Customer: ok. i will check. thanks. Agent: I am still waiting for update for the ETA of SYS-740GP-TNRT. But under Super workstation you'll find similar ones. Can I help you with anything else?. Customer: that is all. thank you. have a good rest of day, bye. Agent: i'll email you at gary@gnyi.com with the update for ETA. thank you! It was nice talking to you. Have a great day, goodbye!. Customer: HI. Agent: Hi. Customer: Hi Kyle, What is the noise level of this SYS-740A-T model. Agent: This isn't something we have readily available unfortunately so I'll have to check internally with our PM and get back to you. Customer: OK. Another question: When will SYS-730A-I be available for order. Agent: No ETA when or if we'll get this unfortunately Sorry. Customer: Hence, you only have one model with dual 3rd gen Xeon scalable processor?. Agent: Yeah we are a bit limited on what we can offer on the eStore. What is shown or displayed on the main site may not always be available on the eStore so if you were looking for that specific model, I would recommend contacting our Sales team at Sales-USA@supermicro.com. Customer: OK thank you. Bye. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hi. Agent: Hi Shijie. Customer: I want to buy a server for deep learning Can you give me some advice?. Agent: I see, please give me second to see what we have available for this. . Customer: I have bought 2 rtx3080, so gpu is not required But this server should have at least 4 PCIE for gpu. Agent: Okay thank you . . Customer: Also, I want the server to have 2 cpu amd will be better. Agent: We do have one AMD system AS -5014A-TT <https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html> but this is 1 cup. For all of our rack mount they are Intel. CPU*. Customer: I think Intel cpu is ok Can you recommand me somoe more. Agent: please give me second How about this SYS-620U-TNR <https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html> You can choose the configuration you would like. . Customer: this one only has 1 cpu I think 2 cpu is required Can I customize one?. Agent: SYS-620U-TNR is Dual 3rd Gen Intel® Xeon® Scalable processors. Customer: I think Supermicro AMD Motherboard H12DSi-N6 can hold 2 amd cpu I link you sent me is for AS -

5014A-TT Can you send me the link for SYS-620U-TNR. Agent: sorry
<https://store.supermicro.com/supermicro-2u-ultra-superserver-sys-620u-tnr.html>. Customer: Well, I prefer to use amd cpu intel cpu seems to be weaker. Agent: We don't have have any other AMD CPU systems. if you are looking for AMD rack mounts you can contact our Sale team at Sales-USA@supermicro.com Tel: +1 408-503-8000. Customer: There is no server with Supermicro AMD Motherboard H12DSi-N6?. Agent: Not on eStore, Sales can help with that. Can I help you with anything else?. Customer: Hi. Agent: Hi Humberto How may I help you?. Customer: Hi Liz i need a card controller model sas 9361-16i. Agent: I'm sorry, but unfortunately, we do not carry any AOC/ controller cards on our eStore. Please check with our resellers and distributors for availability.
<https://www.supermicro.com/en/wheretobuy>. Customer: ah ok. Agent: Is there anything else I may help you with today?. Customer: for now i just need that card. thanks. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: I'm researching to see if it is possible for me to purchase the Supermicro Cable Part # CBL-CDAT-0665. Agent: Hi Dale,. Customer: Hello Mark. Agent: How can i help you today?. Customer: I have a motherboard that has a serial port header that I'm trying to locate a cable for. I have the Supermicro Part number for this from the datasheet, so I am looking to see if it's possible to purchase this part. it's CBL-CDAT-0665. Agent: Please give me a moment to check. . Customer: Thank You. Agent: I am sorry it looks like we don't carry this cable. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Ok, thanks for checking and thank you for the link. . Agent: You're welcome! Can I help you with anything else?. Customer: Nope, that's it. I am looking for a small 1u server with dual psus. Agent: Hi Wyatt Sure I can help you with that what kind of CPU, memory, storage? Do you have an eStore account with us btw?. Customer: single cpu is fine, this is going to be for a small router. i do not have an account, i am still searching for products 16gb ram would be plenty, and storage is also small. 64 gb in raid 1 would be fine really dual PSU is the most important feature im looking for. Agent: Ok understood. Don't think we have anything lower than 240GB for storage these days though.
<https://store.supermicro.com/customer/account/create/> Once you do, I can share with you the server that may work for you. Customer: confirming account, one second. Agent: Sure no worries. Customer: ok done. Agent: Thank you, please give me a moment Ok you should be able to view, configure, or purchase our servers on the eStore now when you log into your eStore account The server I have in mind that had dual PSUs is <https://store.supermicro.com/mainstream-server-1u-sys-5019c-mr.html>. Customer: where is the server configure tool?. Agent: Each server that we offer has their own configuration to choose from Are you able to see the options. Customer: yes, im looking at options now. Thank you, i think this has pointed me in the right direction. Agent: Ok great. That one is pretty simple compared to our other offerings in the WIO and Ultra families. . Customer: yeah thats what im looking for, just a very basic unit that supports dual psus. thanks for the help!. Agent: You're welcome! Can I help you with anything else?. Customer: nope thats it. Agent: Btw, Here are several advantages if you were to purchase a configurable server from our Supermicro eStore: 1. All of our configurations have been fully validated by our Supermicro system lab. 2. We offer free shipping for all server orders. (limited time only) 3. We offer blazing fast turnaround time 2-3 business days if you purchase something via our eStore configurator. 4. Warranty is 3 years for server, 3 years for parts, and 1 year of cross—shipping. (limited time only) 5. You can register your system on our eStore to view warranty information, installed parts, and validated parts for your system. Sounds good!. Customer: good to know!. Agent: If there's anything else we can help you with, feel free to reach out to us. It was nice talking to you. Have a great day and weekend, goodbye!. Customer: have a good day / weekend

too. . Agent: Hi Yuzana How may I help you?. Customer: Hi I'm looking for CSE-PTJBOD-CB3 Qty. 1 and CSE-515-350 Qty. 1. . Agent: I'm sorry, but unfortunately, we do not carry any chassis on our eStore. Please check with our resellers and distributors for availability.
<https://www.supermicro.com/en/wheretobuy>. Customer: Thank you. I will check. . Agent: You're welcome. Can I help you with anything else?. Customer: No. Thank you. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Robert How can i help you today?. Customer: Attempting to Activate a single license key is failing - The exact command as shoed in the manual indicates that the caoomand parameters are invalid. . Agent: I see. please give me a moment to see about this. Have you tried it this way ?. Customer: I already have the key, I have a .txt file. Trying to use SUM ActivateProductKey command is failing. . Agent: please bear with me while i check internally. Can you show me screenshot of the error you are getting? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com. Customer: hold on - trying to get the image to you... . Agent: Of course. I'll be here Thank you. . Customer: Screen shot as well as the key text file. Agent: When you were doing this did you follow the exact command like these. Customer: Are you saying that I should simply cut and paste the key from the text file as in the first example?. Agent: Yes that is correct Please make sure you copy everything. . Customer: give me a minute to try that. . Agent: Take your time. . Customer: OK. That worked! Key was activated and now I can use the utility. Thanks. . Agent: Awesome!!!! Glad that worked : :) Can I help you with anything else?. Customer: No, that was all i needed. Thanks again. . Agent: Have a great Friday and weekend! It was nice talking to you. goodbye!. Customer: Robert Doolittle left the following comment: Great. Solved my issue, so no complaints. Hi, I am here again. . Agent: Hi again Yuzana. Customer: I checked the link that you gave it to me. Most of them have no stock. Can you check who has stock right now?. Agent: Unfortunately, I'm unable to check their stock. You also can contact our Sale department at Sales-USA@supermicro.com to see if they can support. . Customer: Thank you for your information. . Agent: You're welcome. Is there anything else I may help you with today?. Customer: That'd be it. Thank you so much. I will try. . Agent: Good luck Yuzana! It was nice talking to you. Have a great day, goodbye! Hi Christy How can i help you today?. Customer: I registered for an account but the confirmation email did not arrive. I requested it twice. . Agent: Can you please check your spam folder?. Customer: I did. Not there. . Agent: We just sent another email, Can you check your inbox?. Customer: Nothing. . Agent: Please give me a moment checking internally for this. Was this the email used pbo@cnri.reston.va.us?. Customer: yes. Agent: okay thank you. Please bear with me for few minutes. Can please try to log in now?. Customer: ok ok I am in the account!. Agent: Awesome! glad you got in. Can I help you with anything else?. Customer: no, and thank you so much!. Agent: You're welcome! Is there anything else I may help you with today?. Customer: No, that's it, thank you. . Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Bye! Can you tell me lead time for p/n MCP-290-00058-0N. Agent: Hi Tara, let me check for you We should have it in stock right now. How many were you looking to purchase?. Customer: I need 6 When I try to add it to my cart it says there are 0 in stock This is the message I get: We currently have "0" of the "Supermicro 2U-5U Rail Kit (MCP-290-00058-0N) " in stock, but we may have enough inventory to complete your order. Please contact us via "email or live chat". Agent: Oh I see Give me a moment while I check on this. Customer: Thank you. Agent: Thank you for waiting. Inventory should be updated now, please try adding 6 again. . Customer: Yes, thank you!. Agent: You're welcome! Can I help you with anything else?. Customer: Nope, that's it, thank you! Have a nice rest of your day :). Agent: Thank you! It was nice talking to you. Have a great day,

goodbye!. Customer: Tara Rickerson left the following comment: Very helpful!. Agent: Hi James, how can I help you?. Customer: hi, hoping to see if you guys have availability of a certain chassis 1019gp-tt. Agent: We don't carry this particular system on the eStore unfortunately. Were you only looking for this one?. Customer: we did have a back up that we were considering let me grab that number really quickly, one sec SYS-5019P-M. Agent: ok sure. Customer: it says in stock online but wanted to verify I think we'd be looking to order 8. Agent: We do have it in stock and should have 8 available. Customer: perfect thank you. Agent: You're welcome Let us know if you have any inventory issues with some of the parts. . Customer: sounds good thank you. Agent: Can I help you with anything else?. Customer: I think that will do it have a great day. Agent: Thank you! It was nice talking to you. Have a great day, goodbye!.

Customer: looking for the USB 3.0 card that connects to the internal USB 3.0 header in the motherboard X10SLM-F looking for the USB 3.0 card that connects to the internal USB 3.0 header in the motherboard X10SLM-F. Agent: Hi Jose The only thing we have available is this: <https://store.supermicro.com/supermicro-usb-3-1-b-key-to-usb-3-0a-female-x2-55cm-cable-cbl-cusb-0835.html> Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com.

Customer: hello kyle. Agent: Hi Nikos. Customer: I am trying to generate my key for BIOS flashing, but the order is not confirmed yet order # is 1000024618. Agent: Ok let me check Yeah it doesn't look to be ready yet. I'd give it another 10 minutes. . Customer: ok thank you and have a great rest of your day. Agent: Thank you! It was nice talking to you. Have a great day, goodbye! Hi Benjamin. Customer: hello. Agent: How may I help you?. Customer: Is the SYS-6029-WTR out of box compatible with SAS drives or is anything else required to make it work with SAS drives?. Agent: Please give me a moment while I check for you. With the SAS drive this system will need the controller card to use For onboard, it only work with SATA. Customer: Do you sell the card or do I go to a 3rd party. Agent: I'm sorry, but unfortunately, we do not carry controller card on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: OK. Thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: No that was it. . Agent: It was nice talking to you. Have a great day, goodbye!.

Customer: Hi Liz. Agent: Hi Nikos How may I help you?. Customer: Was wondering on the status of the order confirmation need it to flash my bios order # is 1000024618 I thought it would take less than an hour?. Agent: It will take an hour for the key ready for you, unfortunately. Customer: It has been longer than that that's why I am reaching out. Agent: Oh, your purchase from 11:36. I'm sorry for this inconvenience. I will need to double check with internal department for this. Can I get back to you via nikos.tzavaras@mssm.edu?. Customer: sure. Agent: Thank you and I'm sorry again if this cause any inconvenience for you. I will email you as soon as I have the answer Is there anything else I may help you with today?. Customer: that's it and thank you!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Jennifer. . Customer: Do you offer IT as a service? Are you an MSP?. Agent: Can i ask what would this be for?. Customer: I have an appt w/ Supermicro and thought yuo were an MSP? just want to make sure I have the right resources. Agent: Unfortunately we don't provide IT service. Can I help you with anything else?. Customer: No thank you!. Agent: you're welcome. Customer: Hi. Agent: Hi Hernan. Customer: We are a System Integrator Company, and are interested to sale your products We have offices in USA and Venezuela. Agent: So you're trying to become an official partner (reseller or distributor) for our products?. Customer: Would Like to know the process and requirements. Agent: Oh ok, please contact Marketing@Supermicro.com for further assistance on this. . Customer: Thanks. Agent: You're welcome

Can I help you with anything else?. Customer: Ok Do you have MCP-260-00151-ON?. Agent: Hi Stacie How may I help you?. Customer: Do you have MCP-260-00151-ON?. Agent: I'm sorry, but unfortunately, we do not carry MCP-260-00151-ON on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Thank you. Agent: If you are looking for the replacement, you also can contact our RMA department for it RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3 You're welcome. Is there anything else I may help you with today?. Customer: That's all. Agent: Hi Benjamin How can i help you today?. Customer: Hi Mark I am trying to purchase 4x SYS-5019P-WT but I see there is only 1 in stock. Are you able to check if there are more available?. Agent: I see, yes i can pleas give me a moment. . Customer: Sure, thank you. Agent: We just updated the inventory. . Customer: Perfect thanks so much. I just added them to my cart. Agent: awesome! Can I help you with anything else?. Customer: Nope thats all. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: You too prices?. Agent: Hi Stacey, how can I help you?. Customer: I am trying to find out prices and availability of some of the items on your site. . Agent: Sure I can help you with that. For what specific items are you referring to?. Customer: <https://www.supermicro.com/en/products/system/4U/6049/SYS-6049GP-TRT.cfm> and <https://www.supermicro.com/en/products/system/GPU/1U/SYS-120GQ-TNRT>. Agent: We don't carry those servers on the eStore so we don't have pricing for them unfortunately. If these are the servers you are looking for specifically, please contact our Sales team at Sales-USA@supermicro.com for further assistance. . Customer: thank you. Agent: you're welcome Were there any servers on the eStore that would work for you?. Customer: I was asked to get info on those links specifically. Agent: Oh ok, no worries. These are multiple GPU systems so we don't carry these so please check with our Sales team then. Can I help you with anything else?. Customer: no, that is it thanks. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: you too!. Agent: Hi Paul How may I help you?. Customer: looking for server case CSE-731I-300B. Agent: I'm sorry, but unfortunately, we do not carry any chassis on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> or Sales team at Sales-USA@supermicro.com. Customer: thanks. Agent: You're welcome. Is there anything else I may help you with today? Hi Rodger How may I help you?. Customer: Hi. I'd like to purchase a hot swap drive tray for a 1U server that's maybe 10 years old. The p/n of the tray is MCP-220-00001-03(01), I think. That's what I have in a document I download some time ago. That document is for 815TQ-560UV / 815TQ-560UB. Agent: I see. Which one is your chassis part number? 815TQ-560UV or 815TQ-560UB?. Customer: There's a label on the side of the chassis with P/N CSE-815 factory code ABC-03. Agent: Do you see other numbers than these 2 you provided? I would recommend you follow this instruction to check if there is serial number on it or here. Customer: s/n is C81500B28MA0085. Agent: Thank you! Please give me a moment while I check for you. And you are looking on the 3.5" tray right?. Customer: YES. Agent: Thank you! You can use the Supermicro Black (Gen 5.5) Hot-Swap 3.5" Hard Drive Tray with Hollowed Dummy (MCP-220-00075-0B) https://store.supermicro.com/mcp-220-00075-0b.html?queryID=e130539953af3fd63e532c6e0c9ba937&objectID=631&indexName=supermicro_defau It_products Your chassis part number is CSE-815TQ-R700CB You can see the drive tray I provided above on this main page of the chassis. <https://www.supermicro.com/en/products/chassis/1U/815/SC815TQ-R700CB> at the parts list. Customer: Excellent. Thank you for the help!. Agent: You're welcome. Is there anything else I may help you with today?. Customer: That's it. Thank you. . Agent: No problem. It was nice talking to you. Have a great day, goodbye! Hi Leo How can i help you today?. Customer: Just curious on lead time for this product?. Agent: Please give me a moment to check. . Customer: ok thanks. . Agent:

How many are you planning to buy?. Customer: 1 unit. Agent: We currently have one instock. Customer: ok, can it be configured with 128 GB of Ram?. Agent: let me check for that. Yes its possible to do 128GB but we'll have to make pre-configuration link for you. Can i get your full configuration for this system?. Customer: Sure, I need the ram as stated. I will need a 0.5 GB SSD for the Operating System. 4 TB storage Drive spinning. andf I will need windows 10 pro loaded. . Agent: I want to confirm are you lookin for single 128GB RAM or the total to be 128GB?. Customer: and the AMD Threadripper Pro 16 the total to be 128 GB preferrably in 4 dims of 32 each so that I can expand later. Agent: Oh i see. You can actually do this on the configuration page <https://store.supermicro.com/supermicro-threadripper-performance-workstation-as-5014a-tt.html>. You can select the all the options you mentioned. . Customer: Ok, then I can find out how soon it can be ready to ship?. Agent: If placed today, it should be ship earliest by Wednesday. . Customer: That sounds good. I will go to the link. . Agent: Of course! I do want to mention if you are looking to purchase this system to do it as soon as possible since we only have one available. Can I help you with anything else?. Customer: I did not see the ability to choose an Operating system. Is that offered?. Agent: It's between Add on cards & keyboard. Customer: ok thanks. . Agent: where you able to find it?. Customer: oh and is the main storage the one used for the OS or the internal storage?. Agent: Please give me a moment to check. . Customer: Yes I was able to find it, thanks. . Agent: OS would be installed in the internal storage. . Customer: Thought so, thanks. . Agent: You're welcome! Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: I am interested in buying a server: SYS-510D-8C-FN6P Where can I purchase that model?. Agent: Hi Amit We don't carry this particular server on the eStore unfortunately. Did you want access to our server selection to see if we have any that may work for you?. Customer: I need that specific model. What is the process for getting it?. Agent: Otherwise, if you are looking for this one specifically, please contact our Sales team at Sales-USA@supermicro.com. Customer: OK, I will contact sales. Thanks. . Agent: Sounds good, you're welcome! Can I help you with anything else?. Customer: Thanks. That is all for now. . Agent: It was nice talking to you. Have a great day, goodbye! Hi John. Customer: Hello Liz. Agent: How may I help you?. Customer: I need to apply tax exemption to my account, as we are a public university in the state of Ohio. I have the certificate for proof of exemption. . Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to estore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide> We currently cannot do tax exempt automatically. Customer: So there is no way to apply it to my account for future orders?. Agent: I'm sorry, but unfortunately, we cannot do it at the moment. I'm sorry for this inconvenience We are working on this. Customer: That is unfortunate. Most other vendors have this capability. But I understand it is outside of your personal control. . Agent: Thank you for your understand 😊. Customer: That is all I needed. I will send the information to the email address after I place the order. Thank you for your help and the information. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: You too. John Shrader left the following comment: Liz was helpful but your store should support

applying tax exemption to an account and not after the order is placed. . Agent: Hi Amanda. Customer: Hi Mark. Agent: How can i help you today?. Customer: I am looking for a sueprmicro storage server to be shipped asap. If I send you my specs, can you assist. Agent: Of course i can. Customer: this is what I need. Agent: Please give me a moment to look into this. . Customer: thank you. Agent: On the configuration you gave it has the Superserver SSG-640SP-E1CR90. We don't carry this server on our eStore but let me see if we have something similar. . Customer: ok basically I need this as fast as we can with similar specs. Agent: I am checking internally to find you one. . Customer: thank you. Agent: The closet we have is SSG-6049P-E1CR60H <https://store.supermicro.com/4u-superstorage-ssg-6049p-e1cr60h.html> configurator 2. Customer: I am checking quick to see if this works. Agent: Of course please let me know if you have any questions. . Customer: how fast can something like this ship. Agent: It should be ready to ship by the end of the week. . Customer: is there any way to expedite this. Agent: Yes we can try to expedite it. and see if we can try to ship it out on Wednesday/Thursday if the order is placed now. When you're configuring the server, if you run into any inventory issues let us know we can help with that. . Customer: ok my boss is taking a look. Agent: sounds great. Please feel free to ask us any questions or if you need any assistance. Can I help you with anything else?. Customer: not so far. thank you!. Agent: You're welcome! It was nice talking to you. Have a great day, goodbye! Hi Abelino How can I help you?. Customer: Hello I was wondering if you can add more stock. Agent: Sure, for which part?. Customer: 350W Multi-output Power Supply (PWS-350-1H) I want to order qty3 if available. Agent: Ok let me check for you We might be able to get 3 of these, but I'll have to check with our PM as inventory is low unfortunately. I can email you once I get an update. . Customer: Ok thanks. Abelinoa@yahoo.com. Agent: Ok got it, thank you! Can I help you with anything else?. Customer: nope that's it. Agent: Ok sounds good. I'll be in touch. It was nice talking to you. Have a great day, goodbye!. Customer: likewise. Goodbye. Agent: Hi Mike How may I help you?. Customer: I am curious about pricing for services on the ready to ship servers. . Agent: Do you interested in the SYS-5019P-WT?. Customer: Or the M variant. For hardware support in the case of issues. Agent: Do you mean the warranty?. Customer: Yes, sorry. Normally go with Dell but looking to branch out but they make it easy to find/add warranty info. Agent: If you purchasing server from our eStore, the warranty will cover for the 3 year labor, 3 year parts, 1 year cross shipment. . Customer: If I have a problem with a part, bad stick of memory, I ship it out and then you send one to me or you send one to me and I ship it out?. Agent: In that case, you can contact our RMA department to do cross shipping. I believed we will ship the good memory stick to you and you ship the bad one back to us you send one to me and I ship it out? - 1 year only I ship it out and then you send one to me - 3 year only. Customer: Are there higher support tiers available that includes onsite support or longer duration. Agent: We do not have onsite support currently, but we will have extended warranty implemented on our website this week. Which would provide up to 5 years of advance shipment. For example, we send you memory before you ship it out back to us Note: the extended warranty will need to select when you purchase the server. . Customer: So new purchase has a 3 year warranty, 1- year advanced part shipment, and the last two where I send it before you send me replacement part correct? Longer/advanced warranty will need to add at time of purchase which isn't an option at this time but should be added this week?. Agent: Yes, you are correct. All the systems on our eStore are available in stock now and ready to ship within 3-5 business days. Just let you know that: • All of our configurations has been fully validated by our Supermicro system lab. • We offer free shipping for all server orders. (limited time only) • We offer blazing fast turnaround time 2-3 business days if you purchase something via our eStore configurator. • Warranty is 3 years for server, 3 years for parts, and 1 year of cross—shipping currently. • We may have more storage capacity

on our eStore. (Please contact me if you don't see any capacity available) Oh sorry I mean the system would ship out in 1-3 business days. Customer: That was another question, do you have TPM chips for the systems or do I need to hunt those down?. Agent: Yes, we have, but we will need to add it on our end and give you a unique link. If you are interested in, please let us know your require configuration I can help you with that. Customer: Last question, for the moment. We would want to pay by check, not a credit card. What is the process for getting that setup?. Agent: Unfortunately, we only accept credit cards or ACH bank transfer at the moment. Please note: ACH bank transfer will take longer since we will need to wait to verify the transaction It will take up to 7 business days before the order process if paying by ACH. . Customer: I think ACH would work, but will need to verify that. Part of a financing program and they dislike credit cards for the program. Understood about the delay. . Agent: Sound good! Do you have any spec/ SKUs in mind?. Customer: Looking at getting 2 SYS-5019P-WT's can you send me the information needed to get the ACH setup. And further documentation on the warranty coverage?. Agent: Do you want me to send these information to your email at michael_desilets@yoursws.com?. Customer: please. Agent: Sure. I will send it to your email as soon as I have all information. Is there anything else I may help you with today?. Customer: I think that is all. Thank you for your help!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: michael desilets left the following comment: Very helpful and very concise. Thanks Hello. Agent: Hi Patrik. Customer: I've got a question about the board H12SSL-i do i need to connect both 8pin cpu power cords for an epyc cpu with 155w tdp? if not which one should be used?. Agent: Let me check Please bear with me for a few more minutes while I check for you. . Customer: of course, thanks for checking. Agent: You're talking about the JPWR1 and JPWR2 connectors correct?. Customer: yes. Agent: Ok. Customer: they come with a sticker that says "both 8pins required for heavy load configuration". Agent: It does say in the manual: JPWR1 is an 8-pin ATX power input to provide core power to the processor. so it is core power to the CPU. Customer: yeah but one 8 pin is already like twice the tdp of the cpu. Agent: Does the power supply not have more than 1 8pin?. Customer: no. for these consumer PSU ones I would need to buy like a 1000 W version of it to get 2. Agent: Ah I see. Customer: and since it says "for heavy load".. it sounds optional. Agent: only 1 socket I would think only 1 is needed. Customer: do you have any info if it matters which one. Agent: Ok I did find the reasoning. Customer: just trying to make sure I'm not blowing something up. Agent: "We recommend you to use both of two 8-pin connectors. This will share the power load between them to prevent overhead.". Customer: right, so I should be fine with 1 then because I'm running a very low tdp cpu for the socket. Agent: Yeah it would seem so. So you're not even getting close to heavy load. Customer: based on the numbering I guess I should just use JPWR1. Agent: correct I would double check with our technical support team though support@supermicro.com. Customer: ok, thank you very much for your help. Agent: all the FAQs say to use 2, but it does seem overkill you're welcome Can I help you with anything else?. Customer: no, that's all have a good day and thanks again. Agent: Thank you! It was nice talking to you. Have a great day, goodbye!. Customer: Patrik left the following comment: very helpful. Agent: Hi Bruno How can i help you today?. Customer: Hello Liz! I work for a big university here in Brasil. We want to buy a server, but we only have budget in dollars. Do you ship to brasil?. Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> You also can contact our Sale team at Sales-USA@supermicro.com. Customer: I will thanks. Agent: Sound good! You're welcome. Is there anything else I may help you with today?. Customer: No, just this single question bye. Agent: It was nice talking to you. Have a great day, goodbye! Hi Leo How can i help you today?. Customer: I have AS-5014A-TT in my

shopping cart and I am ready to purchase quantity 1. I have a few questions. . Agent: Of course. What are your questions?. Customer: I have configured the system with the 32 core AMD processor and 128 GB of RAM on 8 DIMMs. Is this able to be ready to ship soon? 128 GB total to be clear. . Agent: This would be ready to ship earliest by Thursday,. Customer: That is good to hear. I did not select one of the GPUs offered, does the system come with a video card or do I need to add one. I do not need the video card to be as powerful as those offered. A 4GB card is sufficient for my needs. . Agent: Please give me a second to check. . Customer: ok. Agent: Sorry, I am checking internally for this. . Customer: k. Agent: I am asking internally for this, Is it okay if I can email you back at leojlove@hotmail.com once I get the correct information? Can I help you with anything else?. Customer: That is all for now. Thanks. . Agent: You're welcome! Before I go I want to ask where you are interested in GPU or do you want to see if the system can run without GPU for the applications you want to use? What would these applications be?. Customer: This is for computer simulation, but I only use the AMD CPU processor for solving, but I do need to connect a monitor, possibly two. I believe that I need a Graphics card, as I believe the AMD does not include a graphics card, but I only need and have been using on my present system a 2GB card, so a 4 GB should work fine for me. The graphics that I use in my drafting is not intense. . Agent: I see, Okay I'll pass this down internally so we can get you the correct information. I'll email you once I get correct information. . Customer: Kyle transferred the chat to Kyle. Agent: Hi Leo, I'll be working with you on this. Customer: I will need to be able to add this to the system when ordered or can someone adjust the order after it is placed to add the GPU card?. Agent: So you can place an order for this workstation without the GPU, but we won't be able to sell the GPU separately to you. You would have to purchase that from another vendor. Let me check what GPUs are compatible with this though. The onboard graphics will not be sufficient I presume? ASPEED AST2600 has display port support. Customer: So, the system does have some graphics capability without adding a GPU?. Agent: That I can't say for sure unfortunately. I do know the RTX A4000 - 6000 are qualified and supported on this. If these are overkill for you, I don't see any other qualified ones unfortunately or at least tested with it. My mistake, it's just a VGA port available on this. I can check internally on this, but I believe you would need a GPU in this case. . Customer: I just need a very minimal GPU and hopefully there is one compatible for this system. . Agent: Sure, I can check that for you, but it looks like the A4000 would be the minimal one for this. Is your current configuration using a GPU card or onboard at the moment?. Customer: My current system uses a GPU card, but not only 2 GB. . Agent: Oh ok. Customer: There are only three choices in your configurator starting at 24 B size. . Agent: That is correct, that is the lowest available one since this is an enterprise workstation. Customer: Can we use the A4000 with this system? It is not in the list of choices. . Agent: A4000 is compatible. Oh I see, it's not listed. Let me check on availability. Unfortunately, we cannot get the A4000 currently due to shortages, but we can get a A4500, which is 20GB if that is ok with you?. Customer: The price right now for the configuration is 6207.45 without tax or shipping. How much is the A4500 going to add to the system cost?. Agent: Checking. Customer: Will this also affect time to ship the complete system, let me know that also, thanks?. Agent: It would add around \$2200 and we do have it in stock so no time delays with that. If you want to go with that option, we can create a pre-config for you with the specs you require. I'd need your CPU, memory, and storage options first. Customer: Ok, the 32 core AMD, 128 GB of memory 8x32Gb for a total of 128 GB, and 4 TB Main 3.5" MG04ACA 7200 RPM etc. and internal 960 GB 2.5" PM883 SATA 6GB/s Solid State Drive. Agent: Ok thanks 8 x 32GB memory adds up 256Gb actually did you want the 16GB?. Customer: my bad 8x16 for 128 total. Agent: Ok got it thanks I can email you with the pre-configured link once it is ready, within a few hours for sure. Customer: Ok, I will be looking for it. Thanks!. Agent: Great! Can I help you with anything

else?. Customer: Good for now, will you hold the system for me, so I can place the order today? I think there is only 1 remaining. . Agent: We can't hold unfortunately, but luckily we may have more actually even though its showing 1. . Customer: I will just hope for the best and be watching for the link. Ok thanks again. . Agent: Yeah I'll get that quickly to you and you're welcome! I'll be in touch soon. It was nice talking to you. Have a great day, goodbye! Hi Asadullah, how can I help you?. Customer: Hey, we just made an account and we are authorized resellers Can you please confirm how can we have smooth dropship orders procured we have multiple orders in hand do i just need to place an orders online? how we get to know the real time inventory etc. Agent: You would just place orders online directly with us You wouldn't know real time inventory, but we can check if we do have availability or lead times We only accept credit card/ACH bank account transfer as payment options currently. Customer: so would i get to know the availability after placing the order? or before hand?. Agent: if you can place the order with the product and quantities you've chosen, we have that in stock for sure it won't let you add to cart or purchase if we don't if we are low in stock or out of stock, we can try to fulfill that request by transferring inventory, which typically takes within a day. Customer: do you have a list of inventory so we can have our data synced with it? on daily basis, weekly or anything?. Agent: We don't have that available for sharing unfortunately. Customer: no worries so do we need to confirm everytime before placing the order?. Agent: no not at all. you can place the order directly without having to chat/email with us as long as we have stock available. Customer: if it's there. it means it's there correct? Thanks for the help looking forward to do bussiness with you. Agent: Yeah if you can add to cart and proceed to checkout, we have it in stock ready to ship except for servers those need to be assembled, but components for sure Can I help you with anything else?. Customer: thanks not at this point. Agent: Ok sounds good. It was nice talking to you. Have a great day, goodbye! Hi Vivian. Customer: Hi, our customer is a gov. and they can only place N30 PO can we transfer 3 pcs MCP-220-00092-0B to the regular WH for an order?. Agent: eStore doesn't carry this item MCP-220-00092-0B. Customer: it shows in stock pls check again, thanks. Agent: where are you seeing this?. Customer: I am on estore now. Agent: can you provide me the link?. Customer: <https://store.supermicro.com/mcp-220-00075-0b.html>. Agent: that's MCP-220-00075-0B we have 3000+ in 1001 for MCP-220-00075-0B is there anything else I can help you with today?. Customer: Chat is idle due to 10 minutes of inactivity. Agent: Hi Jesus, how can I help you?. Customer: I'm trying to place an order but keep an Internal error message. . Agent: I'm sorry you're having issues with your order. What is the error message and for which product(s)?. Customer: Internal Error. Details are available in Magento log file. Report IDLwebapi-624c987364b5a MCP-220-00075-0B. Agent: Ok thanks Are you getting this error during the address portions? or when you're actually trying to complete order with the credit card?. Customer: After I go to check out. The address displays with a check mark. Then the rror appears and there's no way to move forward. . Agent: Oh I see. Can you provide me the quantity of MCP-220-00075-0B and the address for billing/shipping?. Customer: 23 Supermicro Black (Gen 5.5) Hot-Swap 3.5" Hard Drive Tray with Hollowed Dummy (MCP-220-00075-0B) Qty23. Agent: Ok thank you Were you even able to add the address?. Customer: The shipping address shows with a check mark. Should I try adding a new address and see what happens?. Agent: yeah please if you can. Customer: added new address (same one actually) and now the little "wheel" has just been spinning. . Agent: What is the address in question?. Customer: 555 Sawgrass Corporate Pkwy Sunrise, FL 33325-6211. Agent: Ok thanks, give me a moment Sunrise is the city?. Customer: yes. The site even comes up a recommended address, which is just adding the 4 digits after the zip. . Agent: it lets me get to shipping option 555 Sawgrass Corporate Pkwy Sunrise, FL US 33325-6211 using this address not the recommended one I'm on Chrome if that helps Google Chrome.

Customer: Right now the screen is stuck Going to refresh screen. Agent: Ok. Customer: So now at the bottom after Shipping I'm getting "Sorry, no quotes are available for this order at this time". Agent: Are you using the recommended one where it's all capitalized? That option gives me that same error The one I entered manually does not. Customer: Your system capitalizes automatically. I've tried using both ways and still can't get past this screen. Can I just place the order with you or someone else?. Agent: You can only place through online unfortunately. Try with new address using the syntax you gave me: 555 Sawgrass Corporate Pkwy Sunrise, Florida 33325-6211 Do not click the recommended I'm not sure why its automatically upper casing it. Customer: Nope. When I hit Ship Here, screen greys out and the wheel comes back and it just sits there. Switching browsers. Agent: Would it be possible to try from a different computer or browser? I'm unable to replicate the error other than using the recommended address Actually now when I get to billing, I get the Magento error. Customer: Different browser, same error. Can't change computers. looks like you guys are having an issue. . Agent: Hmm, looks to be internal error or FedEx having the issue. The address looks to be accepted Give me one more min, let me see if I can whitelist your address Thanks for waiting. Can you try again?. Customer: standby. Agent: Ok Exactly like this 555 Sawgrass Corporate Pkwy Sunrise, FL 33325-6211. Customer: Nope. Still getting the magento error and the "Sorry, no quotes are available for this order at this time" after Shipping Methods. . Agent: Ok this needs to be debugged internally as its not an issue on your end, I apologize for the inconvenience. I will email you back once the issue has been resolved. Customer: ok, thanks. . Agent: Can I help you with anything else?. Customer: Nope. Thanks. . Agent: You're welcome I'll be in touch soon. It was nice talking to you. Have a great day, goodbye! Hi Doug How may I help you?. Customer: Hello, The site will not let me generate a key for the mother board. I am copy the mac address straight from the ipmi screen. . Agent: I assume that you follow this guide:https://store.supermicro.com/media/wysiwyg/productspecs/Supermicro_How_to_Generate_Software_License_Keys.pdf. Customer: I have done this multiply times. This the first that will not work. . Agent: hmm. Please give me a moment while I check for you. Is #1000024664 your order?. Customer: yes. Agent: Thank you for confirming. Please give me a moment while I check for you. . Customer: 🙌 . Agent: I contacted internal to check on this issue. In the mean time, can you please provide the screenshot where the error occurs?. Customer: here. Agent: I'm sorry for this inconvenience. I will need to double check with our web development team for this. Can I get back to you via dwilson@geodigital.com?. Customer: Yes. Agent: May I also have your MAC address in case? Thank you. Customer: 0e:c4:7a:65:e3:38. Agent: Thank you for your information. I will email you back as soon as I have the answer from them. Customer: 🙌 . Agent: Again, I apologize for this inconvenience. Can I help you with anything else?. Customer: no. Agent: I will get in touch soon. It was nice talking to you. Have a great day, goodbye! Hi Garron How can i help you today?. Customer: Do you sell drive sled labels w/o the screws?. Agent: Like tool-less drive trays?. Customer: Here you have the labels with the screws... Supermicro Screw Bag (100 Screws) and Labels (24 Labels) For 3.5" Hot Swap Hard Drive Tray (MCP-410-00005-0N) I was trying to see how I can get the labels only without the screws. . Agent: We don't sell them on their own, but let me double check. . Customer: Thanks... if you sell more sheets with screws that would be better. . Agent: I just checked unfortunately we don't sell them on their own. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Do you sell direct? Like Supermicro Screw Bag (100 Screws) and Labels (24 Labels) For 3.5" Hot Swap Hard Drive Tray (MCP-410-00005-0N). Agent: Yes so anything we have on our eStore we sell to anyone with valid U.S shipping & billing address. <https://store.supermicro.com/screws-3-5-labels-mcp-410-00005-0n.html>. Customer: Which screw label set would be best for my 7048A-T's?. Agent: Give me

a second to check. . Customer: Thanks!. Agent: This one is for 3.5" drive tray MCP-410-00005-0N drive trays <https://store.supermicro.com/screws-3-5-labels-mcp-410-00005-0n.html>. Customer: Thank you Have a good day!. Agent: You're welcome! Can I help you with anything else? Thank you!. Customer: I'm good... out here!. Agent: It was nice talking to you. Have a great day, goodbye! Hi Jeannie How may I help you?. Customer: Do you have the replacement model to Supermicro PWS-920P-1R2 900W Power Supply?. Agent: This power supply is not EOL yet, so we don't have the replacement SKUs for it. How many of this are you looking for?. Customer: 4 units asap. Agent: Please give me a moment while I check for you. . Customer: Ok, Thanks. . Agent: Unfortunately, this power supply is shortage currently. Please check with our resellers or distributors for availability <https://www.supermicro.com/en/wheretobuy> or you can contact our RMA department to see if they can support RMA department email address: rma@supermicro.com RMA department phone #: 1-408-503-8000 option 3. Customer: ok, Thank you. Bye. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Carlos. Customer: hello. Agent: How can i help you today?. Customer: looking for servers we purchases supermicro in past, wanted to speak to someone to give specs. Agent: Of course, what are your specs?. Customer: dual CPU, intel preferred 256gb RAM gen4 pcie for two m.2 drives two m.2 drives (512gb and 2tb) dual 10gb rj45 nic dual power supply basics. Agent: Thank you Please give me a moment to see what we have. . Customer: need asap, so stock available. Agent: I see. How many are you looking to buy?. Customer: two may need more within few weeks. Agent: Okay. Please bear with for few minutes while i look for one. . Customer: sure. Agent: we have SYS-120C-TN10R <https://store.supermicro.com/sys-120c-tn10r.html>. Customer: i have to select the quantities? like ram?. Agent: Actually this one is better SYS-120U-TNR <https://store.supermicro.com/sys-120u-tnr.html>. Customer: like the amount on the page is just for whats selected, correct? like 4 x 8gb ram. Agent: You get configurate the system your liking. . Customer: is it instock what time frame am i lookin at, for delivery. Agent: Yes it's in stock and should ship out out by Thursday/Friday if you order now. . Customer: i was given the specs by my network guy who has gone home for day can i get a full quote or its up to me to select everything when does volume discount come into play. Agent: We can help out with the quote but we need to know which cpu you would like. . Customer: does this one have dual power supply. Agent: Give me a second to check if it has dual power supply This system has Redundant power supply which is dual power supply. We don't provide volume discounts for servers. Do you know which CPU you would want for this system?. Customer: im checking. Agent: of course take your. . Customer: are there 2 x 10gb ports nic on this model are the 10gb onboard?. Agent: Please bear with me for a few more minutes while I check for you. I'm sorry, Is it okay if i can email you at carlos@imstransport.com when i get the correct information. . Customer: yes. if easier, can i get a call?. Agent: Yeah we can have someone call you. what is your number?. Customer: 732-718-5327 thank you. Agent: We'll have someone call you shortly. thank you for your patients! do you want RJ45 or SFP+?. Customer: rj45 thank you. Agent: Okay thank you. So it does support 2 x 10gb but it's optional, you would to add it on. . Customer: can you add to quote i need dual 10gb on each server. Agent: yes we can. . Customer: i will wait for call or quote. Agent: Please bear with us while we do this. . Customer: sure. Agent: Where able to get CPU you'll need?. Customer: intel xeon silver 4314 16 core 2.40 ghx and i need 256gb ram however that breaks down (4 x 64gb?) and dual power supply. Agent: thank you. We are going to work on the quote with the specs given and we'll be in contact with you once we get this done. . Customer: and dual 10gb rj45 nic dont forget two m.2 drives: 480gb and 1.9tb i assume one is onboard, the other will be pcie, need riser no raid no os we will do that. Agent: thank you for all the information. Well be in contact with you soon. . Customer: tks you have my email right. Agent: carlos@imstransport.com?. Customer: yes, tks. Agent: You're welcome!. Customer: and

best price military discount, whatever you can do. Agent: Unfortunately we don't have no discounts. . Customer: ok, had to ask anyway. Agent: Can I help you with anything else?. Customer: that was all thanks have a good nite. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: Carlos Pino left the following comment: mark was very helpful. Agent: Hi Jamie. Customer: hello. Agent: I assume you need assistance with tax exempt?. Customer: yes please. Agent: We do accept tax-exempt, but it would be applied after the purchase not during the time of purchase. In order to apply for tax exemption, you would need to provide valid certificate, which you can send to eStore-support@supermicro.com along with your order number. Your tax-exempt request will be processed after we have verified that the certificate is valid. It usually takes up to 10 business days for the tax amount to return back to your original form of payment. Before submitting a request, please review the tax exempt guide carefully. Incomplete or incorrect submissions will be rejected. <https://store.supermicro.com/tax-exemption-guide>. Customer: thank you. Agent: You're welcome Can I help you with anything else?. Customer: no, thats it. Agent: It was nice talking to you. Have a great day, goodbye! Hi Vlad How may I help you?. Customer: Hello! I'd like to buy a new and very powerful workstation with the new AMD Ryzen Threadripper PRO 5000 series processors, when will workstations with those processors become available?. Agent: Please give me a moment while I check for you. . Customer: Sure. Agent: Unfortunately, I don't see any information about this AMD Ryzen Threadripper PRO 5000 series processors on the main site yet. I would recommend you to contact with our Sale team to see if they have any information about this type of server. Sales-USA@supermicro.com. Customer: Ok, thank you very much and have a very nice day!. Agent: Thank you! You're welcome. It was nice talking to you. Have a great day, goodbye!. Customer: Hello, I would like if you could provide me with a minimum discount coupon, to be able to make my purchase immediately. . Agent: Hi Cicot. . Customer: hi Hello, I would like if you could provide me with a minimum discount coupon, to be able to make my purchase immediately. pls. Agent: Unfortunately we don't discount coupon. . Customer: you can create a coupon for me?? or any code. Agent: Sorry we can't Can i ask where do you place to ship this? Where do you plan to ship this?*. Customer: Hi Kyle ... i am trying to mount virtual iso and am being prompted to buy SFT-DCMS-SINGLE license can i be assured the produce on the e-store is compatible with my SYS-220U-TNR. Agent: Hi James Let me check Yes DCMS is compatible with this server. Customer: ok, thank you. Agent: You're welcome Can I help you with anything else?. Customer: nope, that's all. thanks again James Ward left the following comment: Kyle helped expertly! Hello. How may I help you?. Agent: Hi James. Customer: Hi Liz ... i'm trying to add SFT-DCMS-SINGLE to my cart, but i have to select a Motherboard / System model none of the options are my system - SYS-220U-TNR. Agent: The motherboard of this system is Super X12DPU-6. Customer: ok trying to locate that option. Agent: You can type X12DPU-6 at the search area. Customer: it says no entries found ha ... i transposed D/P i located it. Agent: Sound good! Is there anything else I may help you with today?. Customer: one more thing. if i buy qty 2, i'll be able to specify each license for 2 different servers?. Agent: Is that the other server also SYS-220U-TNR?. Customer: yep, they are identical. Agent: I see. It will be ok if you buy 2 together. You will generate the key for each motherboard by their serial number and BMC MAC address later. Customer: perfect, thanks much. Agent: Please follow this guide https://store.supermicro.com/media/wysiwyg/productspecs/Supermicro_How_to_Generate_Software_License_Keys.pdf No problem Can I help you with anything else?. Customer: that's all for now, thank you James Ward left the following comment: excellent service!. Agent: Hi Phil. Customer: Hi Mark. Agent: How can i help you today?. Customer: I'd like to buy a complete system E100-9W-C How can I purchase?. Agent: We don't carry this system on our eStore but we have similar ones. Customer: Is it

discontinued?. Agent: No we just don't carry it . we do have
<https://store.supermicro.com/systems/iot.html>. Customer: so when I click on the link, it just sends me to the form. Agent: Please register an account and let me know your email address.
<https://store.supermicro.com/customer/account/create/>. Customer: philb@jaco.com. Agent: Please give me a seconds. Customer: ok. Agent: We are enabling your account. . Customer: ok. Agent: You can access our System tab now once you log out and log back in.
<https://store.supermicro.com/customer/account/login/> Where you able to create the account with the email philb@jaco.com?. Customer: I requested for a password reset waiting for the password reset email. Agent: Did you create the account with the link
<https://store.supermicro.com/customer/account/create/> ?. Customer: yes i did. Agent: Please give me second to check. . Customer: ok. Agent: Can you please use the link
<https://store.supermicro.com/customer/account/create/> and fill out the information submit it to create the account?. Customer: Hi again Kyle ... working to register my systems. are you able to look up my customer ID? here is one of my s/n's : S411795X2300998. Agent: Hi James, did you purchase the systems directly from Supermicro or from a reseller?. Customer: reseller. Agent: You won't have that customer ID unfortunately as the SN register is only for direct Supermicro customers currently. If you need warranty information, you'll have to check with the reseller you purchased from. . Customer: alrighty, sounds good. thanks again. Agent: Hi Phil Where you able to create the account?. Customer: I did can you send me the link again for the server. Agent: We need to first enable you, please give us a second. . Customer: ok. Agent: You can access our System tab now once you log out and log back in.
<https://store.supermicro.com/customer/account/login/> here are options for servers
<https://store.supermicro.com/systems/iot.html> This one would most similar to what you are looking for SYS-E100-9S <https://store.supermicro.com/sys-e100-9s.html> where able to access the server page? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye!. Customer: hi. Agent: Hi Joshua. Customer: I wanted to find out if you can shipped to Singapore? i need a heatsink Supermicro 2U Passive Proprietary CPU Heat Sink Socket LGA2011 (SNK-P2048P). Agent: I'm sorry, but unfortunately, our Supermicro eStore currently only ships within the United States. Please check with our resellers and distributors for availability.
<https://www.supermicro.com/en/wheretobuy>. Customer: i actually have a Fedex account, you can't shipped it using my account?. Agent: We don't accept Fedex customer accounts unfortunately Would you be shipping within the US?. Customer: no, i needed it in Singapore i was checking with the distributor in Singapore, but the leadtime they gave me was 8-24 weeks which i don't understand its shown as ex-stock in your online portal. Agent: Ah ok You can try with our Sales team in Asia:
<https://www.supermicro.com/en/about/contact>. Customer: yeap, i've asked them but i can't wait 24 weeks for just a heatsink. Agent: Sales also said 24 weeks?. Customer: yes. Agent: There's not much we can do then, maybe try a US reseller that can ship to you. . Customer: ok thanks. Agent: You're welcome, sorry about that. Can I help you with anything else?. Customer: that will be all, thanks. Agent: It was nice talking to you. Have a great day, goodbye! Hi Ben How can i help you today?. Customer: Hello Liz! I am interested in Supermicro® Total Solution for Canonical with Kubernetes Containers. I am an independent consultant and one of my clients is looking to upgrade their servers. We would like information about configuration and pricing. . Agent: I see. May I know which SKUs are you interested in?. Customer: Well, that's where we would like some help. I saw the article that super micro posted:

<https://www.supermicro.com/en/solutions/kubernetes-canonical> and I also read the reference architecture pdf. I have some ideas on what we may need but was hoping to get some guidance on what products to go with for our use case. . Agent: Please give me a moment while I check for you. Unfortunately, the only SKUs that our eStore carry is SYS-6019U-TN4RT, but it is currently out of stock. If you are interested in the SYS-6019U-TN4RT, I can check for the ETA. and get back to you via email ben@ihelpu.tech. Do you want me to check for this server SKUs ETA?. Customer: Yes please! That would be great. Agent: Thank you for confirming. Customer: Would there be another department I could talk to about the rest of the solution?. Agent: I will email you back as soon as I have the ETA information. . Customer: sounds good 👍 . Agent: Yes, you also can contact our sales team for other solution Sales-USA@supermicro.com. Customer: 👍 Thanks for your help!. Agent: You're welcome. Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi George! How can i help you today?. Customer: hi, do you know my customer ID number?. Agent: Do you purchase directly with Supermicro sales or eStore?. Customer: I do not see it on my recent invoice estore so far but i have a server board i was going to register. Agent: I see. It should be included in the receipt that ship with your server. Customer: i purchased from a reseller. Agent: Oh I see. I would recommend you contact with the resellers where you purchased the motherboard from for the customer ID. Only Supermicro direct customers have a Customer ID, unfortunately. . Customer: oh. does that mean i cannot register the product?. Agent: Yes, unless your resellers can provide the customer ID for you. If you would like to check the warranty of the board, I might help you for that if you have the serial number of it. Customer: sure. UM219S003466. Agent: I'm sorry, but unfortunately, I cannot find any information about the warranty for this motherboard. You would have to check it with your reseller. . Customer: is the number incorrect?. Agent: It's correct number, but it doesn't show any warranty info from my end. Customer: odd ok, well hopefully its all good. Agent: Hi Patrick How may I help you?. Customer: I had sent an email in a couple weeks ago and hadn't heard back. I have 3 cable management arms that I purchased and they are the wrong model and I would like to send them back. . Agent: I'm sorry that we didn't see your email To submit an RMA (return) request, please utilize our new support portal at <https://webpr3.supermicro.com/SupportPortal/>. If you have not submitted a request before, please register prior to doing so. Is there anything else I may help you with today?. Customer: That will work - thank you for the link. . Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Phil How can i help you today?. Customer: Looking for a IoT server for firewall/Edge compute application That's ready to ship. Agent: You can check on all the IOT that we carry from this link <https://store.supermicro.com/systems/iot.html>. Customer: Also, if you have a local retailer in Los Angeles; I'd like to know. Agent: Our system will be build and ship within 1-3 business days You can find our resellers and distributors at this link <https://www.supermicro.com/en/wheretobuy> But I'm afraid that we don't have any authorized partner at Los Angeles. Is there anything else I may help you with today?. Customer: Which system has the most network interfaces but includes at least one serial port. Agent: Please give me a moment while I check for you. The network controller for SYS-E100-9S and SYS-E100-9W-H are the same. They both have Single LAN with Intel® I210IT and Single LAN with Intel® PHY I219LM But currently we only have SYS-E100-9S is in stock and ready to ship. As for other potential systems that fits your needs, you can visit our corporate site: <https://www.supermicro.com/en/products/embedded/servers> You can use the filter by the amount of

network ports, applications, and etc. when using our corporate site. . Customer: SYS-E100-9S shows it has two network interfaces. Agent: They both have 2 RJ45 Gigabit LAN Ports. Customer: Why did you say "they" both have a single LAN. Agent: They have two 1Gbe LAN ports I meant they have the two 1Gbe LAN ports with the Intel i219LM and i210IT network controller. I'm sorry for the confusion Is there anything else I may help you with today? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Ben. Customer: Hi Mark, is there a compatible riser converter for X10DRW-i motherboards since pcie have to be mounted horizontally. Agent: Please give me a moment to check. For this motherboard a compatible riser card would be RSC-R1UW-2E16. . Customer: is this available in the SM store?. Agent: Unfortunately we don't carry these on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: ah great, Thanks for the help appreciate it!. Agent: Of course! Can I help you with anything else? We haven't heard from you in awhile so this chat will be closed in approximately two minutes. We want to make sure we get your questions taken care of so if you need any further assistance, you can reach us here again or email estore-support@supermicro.com It was nice talking to you. Have a great day, goodbye! Hi Scott How can I help you?. Customer: We are looking at your solutions in Servers, but when I price them out I don't see any details on warranty/on-site service, or even the ability to add that to a build (kinda like what Dell offers for their solutions). Agent: For warranty, we currently offer 3 years for server, 3 years for parts, and 1 year of cross—shipping. I'll have to double check when extended warranty would be available. As for on-site support, we do not offer that from the eStore side unfortunately. . Customer: 3 Years is fine, but how do you handle a "server is down" and we need parts NOW as these servers would be used in mission critical apps. Agent: For the 1st year, there is cross-shipment where we'd send you the necessary part first. I believe next week, we'll have extended warranty available to get that option longer than 1 year Can I help you with anything else?. Customer: How fast is cross shipping? Example: A drive fails from an array and the array goes into a degraded state. . Agent: Cross shipping would be overnight. Customer: Does that include weekend delivery?. Agent: Let me double check. Customer: I ask this because if we can consider you for enterprise solutions then service level is going to be key. Agent: No worries that's understandable Saturday delivery would be an option, but Sunday may not be guaranteed, but it is our RMA department that would handle the cross-shipment. In terms of sending out the replacement part. Customer: Ok. since you said the e-store doesnt do on-site support, do you have a side of the company that does?. Agent: If you wanted onsite, you may need to go with our Sales team for that option. Let me get their information. Customer: Ok. We are in Arizona. In case they have territory assignments. Agent: Ok I believe they do, but they just have 1 email for contact. Sales Inquiry (Non-Government): Sales-USA@supermicro.com Sales Inquiry (Government): Government_Sales-USA@supermicro.com. Customer: ok .Thanks. . Agent: you're welcome Is there anything else I may help you with today?. Customer: Thats all. Agent: Ok sounds good, sorry we didn't have all the options needed. It was nice talking to you. Have a great day, goodbye!. Customer: MCP-230-41803-0N. Agent: Hi Gin How can i help you today?. Customer: hi ! i was told to get this lid MCP-230-41803-0N. do you have them in stock?. Agent: I'm sorry, but unfortunately, we do not carry MCP-230-41803-0N on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy> Can I help you with anything else?. Customer: o - i am done - thanks!. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Curtis

How can i help you today?. Customer: Good morning. We are looking for a replacement model for a Supermicro server that has been discontinued. I have filled out Contact Us form on the Supermicro website but never heard back from anyone. Can you help me get in touch with a sales person?. Agent: Sale team information is at Sales-USA@supermicro.com Tel: +1 408-503-8000. Customer: Thank you. I will try calling that number. . Agent: Before you leave can i ask for the replacement model you are looking for?. Customer: We had been using the 1028R-MCTR but are finding it very difficult to get a server that meets those specs and size. It's kind of a niche product. The replacement server has to have the following: -Short depth (19.98") -Dual CPU -4x network ports -Hardware RAID Controller (not Intel RST) -1x PCI-E slot. Agent: I see, Please give me a moment to check into this. . Customer: Thank you! We'd be fine with a 2U server if it met the depth requirements and offer those features. . Agent: Thank you, let me see if we have anything like this available on our eStore. . Customer: That would be great. Thank you for your help!. Agent: I was able to find two with similar specs that you provided. The only difference in short depth. SYS-1029P-WTR <https://store.supermicro.com/wio-server-sys-1029p-wtr.html?utm=smcpp> and <https://store.supermicro.com/wio-server-sys-1029p-wtr.html?utm=smcpp> sorry it's : SYS-1029P-WTR <https://store.supermicro.com/2u-ultra-sys-220u-mtnr.html?utm=smcpp> & SYS-220U-MTNR <https://store.supermicro.com/2u-ultra-sys-220u-mtnr.html?utm=smcpp> there is also SYS-1029P-MTR but it doesn't have 4 network ports and we don't carry it on our eStore. <https://www.supermicro.com/en/products/system/1U/1029/SYS-1029P-MTR.cfm> Please feel free to let me know if you have any questions on these systems. . Customer: Thank you so much. I will check these all out. . Agent: Of course. If you need any assistance with configuration or have questions please feel free to let us know 😊 Can I help you with anything else?. Customer: That was all. Have a wonderful day!. Agent: It was nice talking to you. Have a great day, goodbye!. Customer: I'm looking to purchase 5 of SuperChassis CSE-745BAC-R1K23B. Where can i buy them?. Agent: Hi Zbigniew How can i help you today? I'm sorry, but unfortunately, we do not carry any chassis on our eStore. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: Thanks. Agent: You're welcome. Is there anything else I may help you with today?. Customer: No. Thank You. Agent: You're welcome. It was nice talking to you. Have a great day, goodbye! Hi Ryan How can I help you today?. Customer: Hello I order this SFP AOM-AQS-107-B0C2-CX and I have this switch on site SSE-F3548S/SSE-F3548SR The SFP's are not working ? or they not compatible ? it states that the SPF's would support 1gb but they wont work. Agent: It should be compatible with your switch since it shows on the optional parts list on this link <https://www.supermicro.com/en/products/accessories/networking/SSE-F3548S.php>. Customer: should and not working are two diffrent things seems to not fit in the chassis properly as well. Agent: Hmm. I think it would be best if you checked with our technical support team regarding this problem: Tech Support: Support@Supermicro.com Tel: +1-408-503-8000. Customer: hmm i think not i think it just dont work. Agent: Hi Dan. How can i help you today?. Customer: I can't create an account, the captcha keeps kicking me back to the beginning I want to buy an OOB Lic for an A2SDI-16C-TP8F. Agent: I see. Please give me a moment. Would you purchasing this OOB with a valid U.S shipping and billing address?. Customer: no, I live in the UK. Agent: Unfortunately our eStore only sales to customers with valid U.S shipping and billing address. Please check with our resellers and distributors for availability. <https://www.supermicro.com/en/wheretobuy>. Customer: can you tell me the SKU I should ask for please. Agent: SFT-OOB-LIC. Customer: thanks. Agent: You're welcome! Can I help you with anything else?. Customer: no, that's all thanks (bit annoying I can't buy a license key because of my geographic

location, but hey, that's the rules). Agent: I am sorry. I apologize for inconvenience It was nice talking to you. Have a great day, goodbye!. Customer: Checking an order Hi Kyle. I'm verifying the status of order 1000024673?. Agent: Hi Andrew Let me check It should be assembled by today or tomorrow and ship out by end of the week You should get a shipping email as well. Customer: Thank You for the information, that's all I needed to know!. Agent: You're welcome! Can I help you with anything else?. Customer: That's it for today. Have a great day and thanks again. . Agent: Thank you! It was nice talking to you. Have a great day, goodbye!. Customer: Andrew Hall left the following comment: Quick and direct answers, perfect!. Agent: Hi Mark How can I help you?. Customer: Hi, We are an early stage startup and are looking to buy a development server which will be used by our engineers for software development but also as the continuous build machine And I wonder who could help me figure out which type of server is recommended for this type of use case. Agent: Sure I can help you with that. Were there any CPU, memory, or storage requirements you needed? Also, do you have a Supermicro eStore account with us as well?. Customer: I think I wanted to first understand which server line we should start with and then we can configure it from there. Agent: I can show you what lines we have once you create an eStore account: <https://store.supermicro.com/customer/account/create/>. Customer: yep, I have an account from a previous order (mark@arbo.works). Agent: We have the mainstream line which is entry level, whereas our WIO are more rebust dealing with more I/O optimized solutions, and then Ultra would be enterprise level. ok let me check Ok you should be able to browse and configure our servers now when you log into your eStore account. . Customer: we will need lots of processing power (complining, running tests...) and lots of memory to keep as much as possible in memory to speed up build times. Agent: Ok sounds good, I think WIO or Ultra would be the way to go So storage doesn't matter too much, more memory and CPU?. Customer: what's the difference between those two. Agent: Ultras have dual processors, more memory slots, and storage capabilities. WIO can have 1 or 2 processors but less memory slots. Customer: then ultra sounds like the way to go thank you!!!. Agent: you're welcome let me find one that may work you may need to log out and log back in btw for your accoint <https://store.supermicro.com/supermicro-1u-ultra-superserver-sys-610u-tnr.html> WIOs have 8-12 dimm slots if Ultra is overkill. Otherwise, any of our Ultra offerings should be sufficient. Customer: thank you - that's a great starting point for me. Agent: you're welcome storage like 2.5" or 3.5" options would be just a preference or need for you. The CPUs and memory stay the same Can I help you with anything else?. Customer: Chat is idle due to 10 minutes of inactivity. Agent: If there isn't anything else I can help you with currently, this chat will be closed in 2 minutes. Feel free to reach out to us again if you need further assistance. It was nice talking to you. Have a great day, goodbye! Hi Roberto How can I help you?. Customer: I need to buy an X12 server, with 32 RAM, 4 hard drives of 8 teras in raid 6, with a weon processor. Agent: Sure I can help you with that. May I ask where you are located or plan to ship these servers to?. Customer: 1 Aeropost Way, SJO-44803 maimi, Florida, 33206-3206 United States. Agent: Ok thanks Do you have an eStore account with us? If not, please register: <https://store.supermicro.com/customer/account/create/>. Customer: I already registered, but it does not allow me to see servers. Agent: Try logging into your account if you're already logged in, log out and then log in again <https://store.supermicro.com/sys-510p-wtr.html> may work for you. Customer: now if I already achieved, thanks. Agent: you're welcome. Customer: 🙌 . Agent: Another X12 option would be this: <https://store.supermicro.com/supermicro-1u-ultra-superserver-sys-610u-tnr.html> For any raid 6, we'll need to add a storage controller card to whichever server you were interested in and present it in a preconfigured option for you. Let me know if that's something you'd like to do and for which server. Customer: yes. Agent: Sure, which server were you interested in? Also, are you able to pay with a US-

credit card or ACH bank account transfer as we only accept those form of payments currently?.

Customer: on moment. Agent: Are you still there?. Customer: yes. Agent: Ok My colleague Liz will

further assist you with your request. Thank you. Customer: Kyle transferred the chat to Liz ok,. Agent: Hi

Roberto, I will help you if you have any question. Customer: ok TK
